EXPLANATORY NOTE

(This note is not part of the Order)

This Order extends to England and Wales but applies to England only. It amends the Avian Influenza and Influenza of Avian Origin in Mammals (England) (No. 2) Order 2006 (S.I. 2006/2702) (“the Avian Influenza Order No. 2”).

Amendments to the Avian Influenza Order No. 2 are contained in article 2 of this Order and fall into two categories of amendments, the first are amendments made to correct or clarify previous amendments to the Avian Influenza Order No. 2, the second are made in response to the Avian Influenza outbreak commencing winter 2022. These measures firstly amend the requirement for the Secretary of State to destroy all poultry meat traced from infected premises to allow the Secretary of State the discretion to authorise the movement of this poultry meat to market; secondly the requirement to carry out a physical examination of poultry in protection and surveillance zones in the 24 hours prior to movement for slaughter is amended to allow remote visual inspections where authorised by a veterinary inspector. These two measures will cease to apply after 16th April 2023.

No impact assessment has been produced due to the emergency nature of this instrument.
