(a) in any formula—

“y” is the relevant amount of water in relation to the period of three years ending immediately before the relevant preceding year;

“Y” (subject to article 7(3)) is the relevant amount of water in relation to the period of three years ending on 31st March 1999; and

(b) “relevant amount of water” in relation to a relevant designated person and any period of three years means the amount calculated in accordance with paragraph (2).

(2) The relevant amount of water in relation to a relevant designated person and any year is the annual average, over the three years being considered, expressed in megalitres to the nearest tenth part of a megalitre, of the amount estimated in accordance with sub-paragraph (a) less the amount estimated in accordance with sub-paragraph (b); that is to say—

—

$$Y\left(\frac{98}{100}\right)$$

(“the lower threshold”), the recalculation factor applicable to that class—

(a) in the first such year shall be 0, and

(b) in any subsequent such year, shall be a figure equal to the recalculation factor applicable in accordance with this article in the relevant preceding year.

(2) Where in relation to any year, the value attributable to “y” in respect of a class of hereditaments is equal to or exceeds the upper threshold or is equal to or lower than the lower threshold, the recalculation factor applicable to that class in that year shall be the figure produced by calculating in accordance with the formula—

$$T\left(\frac{y-Y}{1.5Y}\right)$$

(3) In relation to a class of hereditaments and a year beginning after the year in which paragraph (2) first applies to that class, paragraph (1) shall apply as if for Y there were substituted Z.

Determination of Rateable Values

10.—(1) The rateable value (as a whole) of the Welsh hereditaments, shall be an amount equal to the aggregate of the amounts which, but for the Schedule 2 scheme, and subject to paragraph (2) below, would have been determined in accordance with article 5 as the rateable value of the hereditaments which constitute the Welsh hereditaments.

(2) For the purposes of determining the recalculation factor applicable in a relevant year, article 7 shall apply as if, in calculating the amount assigned to Y or, in a case to which article 7(3) applies, the number assigned to Z, water supplied by or to the scheme transferee to or by another party to the Schedule 2 scheme were ignored.

EXPLANATORY NOTE

(This note is not part of the Order)

Under paragraph 3(2) of Schedule 6 to the Local Government Finance Act 1988, the Secretary of State may by order provide in the case of non-domestic hereditaments to be shown in the central rating list for Wales that the normal rules of valuation for rating contained in paragraphs 2 to 2B of that Schedule are not to apply to such hereditaments. Instead their rateable values shall be such as are specified in the order or determined in accordance with prescribed rules. These powers are now vested in the National Assembly for Wales.

Water supply hereditaments occupied (or, if unoccupied, owned) by water undertakers named in Part 6 of the Schedule to the Central Rating List (Wales) Regulations 1999 are required by those Regulations to be shown in the central rating list for Wales. This Order

- * provides that paragraphs 2 to 2B shall not apply in respect of such hereditaments,
- * prescribes values for those hereditaments for the financial year 2000/01 and
- * prescribes rules according to which their rateable values are to be determined in future years.

Article 4(1) revokes, with effect from 1st April 2000, the Water Undertakers (Rateable Values) Order 1994 in so far as it is applicable to Wales. These provisions shall however, continue to have effect for the purposes mentioned in article 4(2).
