

SCHEDULE

PART I

REQUIREMENTS TO BE MET BY A BREEDING ISOLATION FACILITY

- 10.** The occupier of the premises in which the isolation facility is located shall—
- (a) maintain—
 - (i) a footbath containing an approved disinfectant; and
 - (ii) handwashing facilities,
at convenient places at every entrance to and exit from the facility and shall renew the disinfectant in the footbath daily or more frequently as necessary to maintain a clean solution; and
 - (b) ensure that the footbath and handwashing facilities are used by all persons on entering and leaving the facility.
