

SCHEDULE 2

Regulation 10(1), 11(2), 12(3) and (4)

LICENSED CROP INSPECTORS

PART I

**Species and categories of seed crop that may
be inspected by a licensed crop inspector**

All categories of seed of a species to which the Seed Marketing Regulations apply except pre-basic and basic seed.

PART II

Functions that may be specified in a crop inspector's licence

1. To authenticate each seed lot sown to produce a seed crop and to record at least one label serial number used for such authentication.
2. To inspect crops in accordance with instructions from time to time issued by or on behalf of the National Assembly for the purposes of the Seed Marketing Regulations to determine whether the crops meet the relevant standards prescribed in the Seed Marketing Regulations including—
 - (a) confirmation of the identity of the variety insofar as possible;
 - (b) the detection and recording of any species impurities or varietal impurities;
 - (c) the checking of compliance with isolation requirements; and
 - (d) the assessment of the general condition of the crop including—
 - (i) whether the crop is in a suitable condition for inspection;
 - (ii) any pesticide spray damage that may have been caused to the crop; and
 - (iii) the existence of weeds and diseases.
3. To issue a field inspection report following the inspection of a seed crop in accordance with Seed Marketing Regulations.
4. To submit to the National Assembly such other reports on the inspection of crops carried out by the crop inspector as the National Assembly may, from time to time, require.
5. To keep records of crops inspected by the crop inspector.
6. To supervise other licensed crop inspectors as directed by the National Assembly.

PART III

Conditions that may be imposed by a crop inspector's licence

1. To carry out his or her functions as a licensed crop inspector subject to the supervision of authorised officers.
2. To carry out his or her functions as a licensed crop inspector subject to supervision by other licensed crop inspectors authorised by the National Assembly in that behalf.
3. To carry out his or her functions as a licensed crop inspector in accordance with instructions relating thereto issued by or on behalf of the National Assembly.

Status: This is the original version (as it was originally made).

4. To maintain his or her expertise by making regular inspections of crops for the purpose of the Seed Marketing Regulations.
5. To attend such training courses and undergo such examinations on the official inspection of crops as the National Assembly may, from time to time, require.
6. To notify the National Assembly within 21 days of any change in his or her contact address.
7. To inspect not more than the maximum areas, if any, specified by the National Assembly.
