SCHEDULE 1

THE NEW FIREFIGHTERS' PENSION SCHEME (WALES)

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

ANNEX 1

ILL-HEALTH PENSIONS

2. The annual amount of the higher tier ill-health pension of a whole-time firefighter must be calculated in accordance with the formula—

$$\frac{(A \times 2) \times B \times C}{100 \quad 60}$$

where—

A is the pensionable service accrued in the Scheme before the whole-time firefighter's ill-health retirement,

B is—

- (a) the pensionable service that the whole-time firefighter would have accrued from the date of the whole-time firefighter's ill-health retirement until the whole-time firefighter's normal retirement age had the whole-time firefighter continued to be a contributing member of the Scheme (the whole-time firefighter's "prospective service"); or
- (b) if the aggregate of the whole-time firefighter's actual pensionable service and the whole-time firefighter's prospective service is more than forty years, the difference between forty years and the whole-time firefighter's actual pensionable service, and

C is the whole-time firefighter's final pensionable pay.
