
WELSH STATUTORY INSTRUMENTS

2008 No. 3143 (W.278)

AGRICULTURE, WALES

WATER, WALES

**The Nitrate Pollution Prevention
(Wales) Regulations 2008 (revoked)^{F1}**

Made - - - - 6 December 2008

Laid before the National

Assembly for Wales

9 December 2008

Coming into force in accordance with regulation 3

**THE NITRATE POLLUTION PREVENTION
(WALES) REGULATIONS 2008 (REVOKED)**

PART 1

Introduction

1. Citation
2. Application
3. Coming into force
4. Transitional measures for holdings not previously in a nitrate-vulnerable zone
5. Meaning of “polluted water”
6. Interpretation

PART 2

Designation of nitrate vulnerable zones

7. Designation of nitrate vulnerable zones
8. Appeals
9. Proceedings before the appointed person
10. Effect of a determination made by the appointed person
11. Review of nitrate vulnerable zones

PART 3

Limiting the application of organic manure

12. Application of livestock manure — total nitrogen limit for the whole holding
13. Spreading organic manure — nitrogen limits per hectare

PART 3A

Derogation

- 13A Application for a derogation
- 13B Appeal against refusal of a derogation application
- 13C Proceedings of the derogation application appeals panel
- 13D Effect of derogation application appeals panel findings
- 13E Derogated holdings

PART 4

Crop requirements

14. Planning the spreading of nitrogen fertiliser
15. Additional information to be recorded during the year
16. Total nitrogen spread on a holding
Maximum Nitrogen
17. Calculating the amount of nitrogen available for crop uptake from livestock manure
Available percentage

PART 5

Controlling the spreading of nitrogen fertiliser

18. Risk maps
19. When to spread fertiliser
20. Spreading manufactured nitrogen fertiliser near surface water
21. Spreading organic manure near surface water, boreholes, springs or wells
22. Controlling how nitrogen fertiliser is spread
23. Incorporating organic manure into the ground

PART 6

Closed periods for spreading nitrogen fertiliser

24. Meaning of “organic manure with high readily available nitrogen”
25. Closed periods for spreading organic manure with high readily available nitrogen
The closed period
26. Exemptions: crops sown before 15 September
27. Exemptions for organic holdings
28. Restrictions following the closed period
29. Times in which spreading manufactured nitrogen fertiliser is prohibited
30. Defence

PART 7

Storage of organic manure

31. Storage of organic manure
32. Temporary field sites
33. Separation of slurry
34. Storage capacity

PART 8

Calculations and records

35. Recording the size of the holding
36. Records relating to storage of manure during the storage period
37. Annual records relating to storage
38. Record of nitrogen produced by animals on the holding
39. Livestock manure brought on to or sent off the holding
40. Sampling and analysis
41. Records of crops sown
42. Records of spreading nitrogen fertiliser
43. Subsequent records
44. Keeping of advice
45. Duration of records

PART 9

Review

46. Monitoring and review
47. Public participation

PART 10

Enforcement

48. Offences and penalties
49. Enforcement
50. Revocations
Signature

SCHEDULE 1 Amount of manure, nitrogen and phosphate produced by grazing livestock and non-grazing livestock

SCHEDULE 2 Calculating nitrogen in manure

PART 1 — Standard table

PART 2 — Sampling and analysis

1. Slurry
2. Solid manures

SCHEDULE 3 Permitted crops for the closed period

Changes to legislation: There are currently no known outstanding effects for the The Nitrate Pollution Prevention (Wales) Regulations 2008 (revoked). (See end of Document for details)

- SCHEDULE Derogated holdings
- 4
1. The following additional requirements apply to derogated holdings.
 2. Derogation from the measures governing the limit on application of livestock manure
 3. Planning the spreading of phosphate fertiliser
 4. In addition to the requirements under paragraph 3 the fertilisation...
 5. Soil sampling and analysis
 6. Additional information to be recorded during the year
 7. Risk maps
 8. Maintaining the derogated holding as a grassland holding
 9. Closed period for ploughing grass on the derogated holding
 10. Sowing of crops following grass on the derogated holding
 11. Crop rotation on the derogated holding
 12. Recording the size of the derogated holding
 13. Records relating to storage of manure during the storage period
 14. Record of nitrogen and phosphate produced by animals
 15. Livestock manure intended to be brought on to or sent off the derogated holding
 16. Records of crops sown
 17. Records of spreading phosphate fertiliser
 18. Recording the date of ploughing
 19. Fertilisation accounts
- Explanatory Note

Changes to legislation:

There are currently no known outstanding effects for the The Nitrate Pollution Prevention (Wales) Regulations 2008 (revoked).
