2009 No. 1795

The Food Irradiation (Wales) Regulations 2009

Scope

2. These Regulations do not apply to—

- (a) irradiation by measuring or inspection devices at a maximum level of —
 - (i) 10MeV in the case of X-rays;
 - (ii) 14MeV in the case of neutrons; or
 - (iii) 5MeV in other cases,

where the dose of ionising radiation absorbed does not exceed 0.01Gy in the case of inspection devices which utilise neutrons and 0.5 Gy in other cases; or

- (b) irradiation of food prepared under medical supervision for patients requiring sterile diets.
