2009 No. 3376

The Official Feed and Food Controls (Wales) Regulations 2009

PART 3

**OFFICIAL CONTROLS ON FEED AND FOOD OF
NON-ANIMAL ORIGIN FROM THIRD COUNTRIES**

Serious risk to animal or public health

35.—(1) Where the Welsh Ministers or the Agency learns or has reasonable grounds to suspect that any food or feed that has been or may be introduced into Wales from a third country is likely to constitute a serious risk to animal or public health, they each have the power to issue a written declaration suspending or imposing conditions on the introduction into Wales of any product from the whole or any part of that third country.

(2) Such a declaration must be published in such manner as the person who issued it thinks fit and must specify the product and the third country or part thereof concerned.

(3) A declaration which imposes conditions on the introduction of any product from a third country or part thereof must specify those conditions.

(4) Where a declaration is in force suspending the introduction of any product, no person may introduce that product into Wales if it originates in the third country or part thereof specified in the declaration.

(5) Where a declaration is in force imposing conditions on the introduction of any product, no person may introduce that product into Wales if it originates in the third country or part thereof specified in the declaration unless the product complies with conditions specified in the declaration.

(6) A declaration may be modified, suspended or revoked by a further written declaration published, so far as is practicable, in the same manner and to the same extent as the original declaration.
