before the date these Regulations come into force.

Scope of regulations 5 and 8

4.—(1) Subject to paragraphs (2) and (3), regulations 5 and 8 apply in respect of a local authority—

- (a) granting access to property records; or
- (b) answering enquiries about a property,

whether it does so under a power or duty created or imposed by any enactment.

(2) Regulations 5 and 8 do not apply—

(3) Regulations 5 and 8 do not apply in respect of anything done in the course of exercising an excepted function⁽⁶⁾.

Charges for access to property records

5.—(1) This regulation applies where a local authority grants access to property records to a person (including to another local authority).

(2) The authority may impose a charge on that person for granting such access if it makes or proposes to make an internal recharge (analogous to a charge) for internal transactions.

(3) The charges and recharges made under this regulation must be calculated in accordance with regulations 6 and 7.

Calculation of charges for access to property records

6.—(1) This regulation and regulation 7 make provision for the charges and internal recharges made under regulation 5(2) to be no more than the costs to the local authority of granting access to property records.

(2) Subject to paragraphs (3) and (4), each charge or recharge (the “unit charge”) for access to property records made during a financial year must not exceed an amount calculated by—

- (a) dividing a reasonable estimate of the likely total costs to the local authority in granting access to property records (and performing internal transactions) during the financial year; by
- (b) a reasonable estimate of the number of requests for access to property records likely to be received (from another person or different departments of the authority) over that same financial year.

(3) A local authority must take all reasonable steps to ensure that, over the course of any period of three consecutive financial years, the total income (including notional income from internal

transactions) from such charges and recharges does not exceed the total costs of granting access to property records.

(4) Where under paragraph (2) a local authority has overestimated or underestimated the total yearly costs, when calculating the unit charge for a financial year, it must take this into account in determining the unit charge for the following financial year.

(5) Each unit charge made during a financial year must be the same amount and must be applied on equal terms, regardless of whether it is made in relation to granting access to property records or internal transactions (although multiple unit charges may be made in respect of multiple requests for access or multiple transactions).

Interpretation of costs under regulations 6(1) and 9

7.—(1) In regulations 6(1) and 9, “costs” mean any costs to the local authority (including related salary costs and the costs of the creation and maintenance of records) reasonably incurred in connection with complying with a request for access to property records.

(2) In regulations 6(1) and 9, “costs” do not include—

- (a) such costs as the local authority incurs in granting access to free statutory information; or
- (b) such costs to the authority as are directly referable to the maintenance of free statutory information.

Charges by local authorities for answering enquiries about a property

8.—(1) Subject to paragraph (2), a local authority may charge a person (including another local authority) in respect of answering enquiries from that person about a property.

(2) Any charge made under paragraph (1) may be made at the local authority’s discretion but must have regard to the costs to the local authority of answering enquiries about the property.

Transparency in relation to setting of charges

9.—(1) During each financial year, a local authority must publish a statement setting out—

- (a) the estimates the local authority has made under regulation 6(2) (estimates of total costs and estimates of numbers of requests) in respect of the unit charge for the following financial year;
- (b) the basis for those estimates; and
- (c) the amount of the unit charge it proposes for the following financial year.

(2) In respect of every financial year, beginning with that which ends on 31 March 2010, a local authority must publish by 30 June following the end of that financial year, a summary setting out—

- (a) the total costs to the authority in granting access to property records or performing internal transactions;
- (b) the number of requests to which those costs relate; and
- (c) the total income (or notional income) to the authority from charges and recharges made under regulation 5.

(3) In respect of every financial year, beginning with that which ends on 31 March 2010, a local authority must publish by 30 June following the end of that financial year, a summary setting out the total income to the authority from charges made under regulation 8 (answering enquiries about a property).

(4) The information to be published under this regulation must be approved by the person having responsibility for the administration of the financial affairs of the local authority under section 151 of the Local Government Act 1972(7).

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations allow local authorities to make charges for services provided in connection with property searches, specifically “access to property records” and “answering enquiries about a property”. The interpretation of both expressions is dealt with in regulation 2, along with other relevant expressions.

Regulation 3 revokes in their application to Wales the Local Authorities (Charges for Land Searches) Regulations 1994 (“the 1994 Regulations”), but makes transitional provision in respect of the charges to be made by local authorities in respect of requests received while those Regulations were in force. The 1994 Regulations are revoked in their application to England by [S.I. 2008/3248](#).

Regulation 4 provides that the charging arrangements set out in the Regulations apply whether a local authority provides the services under a power or duty. However, they do not apply where a local authority has another power to charge or is under a duty to do so. They also do not apply in respect of access to “free statutory information” (*see* regulation 2(3)).

Regulations 5, 6 and 7 deal with the calculation of charges for the granting by a local authority of access to property records. Regulation 6 provides that these charges must not amount to more than the costs of granting access. Specifically, each charge made (“the unit charge”) must be calculated by dividing an estimate of the total yearly costs in providing access by an estimate of the number of requests to be received that year. As the unit charge is based on estimates, paragraphs (4) and (5) provide that over a period of three consecutive years, a local authority must ensure that the total income from charges does not exceed their total costs. In addition, where a local authority has made an under- or overestimate of the total yearly costs used in calculating the unit charge, it must take this into account in determining charges for the following year. Regulation 7 provides for the interpretation of “costs”.

Regulation 8 gives a local authority power to make charges in respect of answering enquiries about property. These charges must have regard to the costs to the local authority in answering enquiries.

Regulation 9 requires local authorities to publish certain information each year in connection with the charges made under these Regulations. Each year, a local authority must publish information relating to unit charges. Additionally, from 2010, each local authority must publish a yearly summary of the total income and costs relating to access to property records, and a summary of the total income from answering enquiries. The information published under regulation 9 must be approved by the person having responsibility for the financial affairs of the authority.
