2013 No. 2506

The Nitrate Pollution Prevention (Wales) Regulations 2013

PART 9

Review

Monitoring and review

47.—(1) At least every four years the Welsh Ministers must review the effectiveness of the restrictions in nitrate vulnerable zones imposed by these Regulations as a means of reducing or preventing water pollution caused by nitrates from agricultural sources and if necessary revise them.

(2) In order to do this the Welsh Ministers must establish a monitoring programme to assess the effectiveness of the restrictions in these Regulations.

(3) When carrying out this review the Welsh Ministers must take into account—

- (a) available scientific and technical data, particularly with reference to respective nitrogen contributions originating from agricultural and other sources; and
- (b) regional environmental conditions.
