EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations revoke, in relation to Wales, (at *regulation 12*) and remake with amendments provisions of the Food Safety (Sampling and Qualifications) Regulations 1990 (S.I. 1990/2463).

The Regulations —

- (a) specify the qualifications necessary to be a public analyst or food analyst (*regulation 4*) or food examiner (*regulation 5 and Schedule 2*) for the purposes of the Food Safety Act 1990;
- (b) prohibit specified persons from carrying out analyses or examinations (*regulation 6*);
- (c) specify the procedures to be followed when a sample has been procured under that Act for analysis or examination (*regulations 7, 8 and 9*), and exclude from these procedures samples taken under Regulations which have their own procedures (*regulation 3 and Schedule 1*); and
- (d) prescribe the form of certificate to be used by analysts and examiners in making their reports (*regulation 10 and Schedule 3*).

The Regulations also make consequential amendments to other Regulations (*regulation 11*).

The Welsh Ministers' Code of Practice on the carrying out of Regulatory Impact Assessments was considered in relation to these Regulations. As a result, a regulatory assessment has been prepared as to the likely costs and benefits of complying with these Regulations.
