THE NATURAL MINERAL WATER, SPRING WATER AND BOTTLED DRINKING WATER (WALES) REGULATIONS 2015

PART 1
Introductory
1. Title, commencement and application
2. Interpretation
3. Exemptions

PART 2
Natural mineral water
4. Recognition as natural mineral water
5. Declining to grant or withdrawing recognition
6. Application to withdraw recognition
7. Notification of changes
8. Exploitation of natural mineral water springs
9. Treatments and additions for natural mineral water
10. Bottling of natural mineral water
11. Labelling of natural mineral water
12. Advertising of natural mineral water
13. Sale of natural mineral water
PART 3
Water intended to be sold as “spring water” or “dŵr ffynnon”

14. Exploitation of springs and bottling of water intended to be labelled and sold as “spring water” or “dŵr ffynnon”
15. Treatments and additions for water intended to be labelled and sold as “spring water” or “dŵr ffynnon”
16. Labelling of water as “spring water” or “dŵr ffynnon”
17. Advertising of water as “spring water” or “dŵr ffynnon”
18. Sale of water as “spring water” or “dŵr ffynnon”

PART 4
Bottled drinking water

19. Bottling of drinking water
20. Labelling of bottled drinking water
21. Advertising of bottled drinking water
22. Sale of bottled drinking water

PART 5
Monitoring and sampling

CHAPTER 1
Natural mineral water

23. Monitoring of natural mineral water

CHAPTER 2
Water bottled and labelled as “spring water” or “dŵr ffynnon” and bottled drinking water

24. Monitoring of water bottled and labelled as “spring water” or “dŵr ffynnon” and bottled drinking water
25. Samples and analysis
26. Remedial action

CHAPTER 3
Treatments

27. Monitoring of certain treatments

CHAPTER 4
Samples

28. General
29. Delivery
30. Notification
31. Analysis by the Government Chemist
PART 6
Enforcement and miscellaneous provisions

32. Enforcement
33. Application of the Act: improvement notices
34. Application of the Act: powers of entry
35. Application of other provisions of the Act
36. Savings and transitional provisions
37. Revocations
38. Amendments to other legislation

Signature

SCHEDULE

Recognition of natural mineral water

PART 1 — Natural mineral water extracted from the ground in Wales
1. A person seeking to have water which is extracted from...
2. Where information on the anions, cations, non-ionised compounds and trace...
3. Where information required by paragraph 1 has been given, the...
4. The food authority must, on recognising a natural mineral water...

PART 2 — Natural mineral water extracted from the ground in a country other than an EEA State
5. A person seeking to have a water which is extracted...
6. Where information on the anions, cations, non-ionised compounds and trace...
7. The Agency must recognise such a water if the responsible...
8. Recognition of such water lapses after a period of five...
9. The Agency must, on recognising water in accordance with this...

PART 3 — Requirements and criteria for recognition as a natural mineral water
10. A person seeking to have water recognised as natural mineral...
11. (1) Subject to sub-paragraph (2), a person seeking to have...

PART 4 — Particulars of anions, cations, non-ionised compounds and trace elements

Fluoride removal treatment

PART 2 — Particulars of anions, cations, non-ionised compounds and trace elements

SCHEDULE

Fluoride removal treatment

1. No person may carry out fluoride removal treatment on natural...
2. A person seeking authorisation to carry out fluoride removal treatment...
3. The food authority must assess the application and any supporting...
4. Where the food authority decides to authorise a fluoride removal...
5. Where the food authority decides to refuse to authorise a...
6. Where a fluoride removal treatment has been authorised pursuant to...
7. The food authority may withdraw authorisation of a fluoride removal...
8. Where the food authority notifies a person seeking authorisation of...
9. The Agency, upon receiving an application under paragraph 8, must...
10. The food authority must immediately comply with a direction of...
SCHEDULE  Ozone-enriched air treatment
3 1. No person may carry out an ozone-enriched air treatment on...
2. An ozone-enriched air treatment must not— (a) modify the physico-
chemical...
3. A person seeking authorisation to carry out an ozone-enriched air...
4. The food authority must assess the application and any supporting...
5. Where the food authority decides to authorise an ozone-enriched
air...
6. Where the food authority refuses to authorise an ozone-enriched
air...
7. Where an ozone-enriched air treatment has been authorised pursuant
to...
8. The food authority may withdraw authorisation of an ozone-enriched
air...
9. Where the food authority notifies a person seeking authorisation of...
10. The Agency, upon receiving an application under paragraph 9,
must...
11. The food authority must immediately comply with a direction of...

SCHEDULE  Exploitation and bottling requirements for natural mineral water and
water intended to be labelled and sold as “spring water” or “dŵr
ffynnon”
4 1. Equipment for exploiting the water must be so installed as...
2. The spring or outlet must be protected against the risks...
3. The catchment, pipes and reservoirs must be of materials suitable...
4. The conditions of exploitation, particularly the washing and bottling
equipment,...
5. (1) Subject to sub-paragraphs (2) and (3), water must not...
6. (1) The revivable total colony count of the water at...
7. (1) After bottling, the total colony count of the water...
8. Water must be free from— (a) parasites and pathogenic micro-
organisms;...

SCHEDULE  Constituents of natural mineral water
5  PART 1 — Maximum limits for constituents of natural mineral water
PART 2 — Performance characteristics for analysing the constituents in Part 1

SCHEDULE  Labelling indications for natural mineral water
6

SCHEDULE  Requirements for water bottled and labelled as “spring water” or
“dŵr ffynnon” and bottled drinking water including prescribed
concentrations or values of parameters
7  PART 1 — Requirements for water bottled and labelled as “spring water” or
“dŵr ffynnon” and bottled drinking water
1. Water satisfies the requirements of this Schedule if—
2. The concentrations or values of the parameters listed in the...
PART 2 — Parametric values for microbiological and chemical parameters
PART 3 — Parametric values for indicator parameters
PART 4 — Parametric values for radon, tritium and indicative dose (ID)

SCHEDULE  Monitoring for parameters other than radioactive substances in water
bottled and labelled as “spring water” or “dŵr ffynnon” and bottled
drinking water
8  PART 1 — Check monitoring
1. Sampling
2. Check monitoring means sampling water bottled and labelled as “spring...

3. Frequency of sampling

PART 2 — Audit monitoring

4. Sampling

5. Audit monitoring means sampling water bottled and labelled as “spring...

6. Frequency of sampling

SCHEDULE Monitoring for radioactive substances in water bottled and labelled as “spring water” or “dŵr ffynnon” and bottled drinking water

PART 1 — General

1. Each food authority must monitor water bottled and labelled as...

2. Radon

3. The representative surveys must be designed in such a way...

4. Each food authority must monitor for radon if there is...

5. Tritium

6. Sampling must be carried out at the frequencies specified in...

7. If the concentration of tritium exceeds the parametric value specified...

8. Indicative dose

9. Sampling must be carried out at the frequencies specified in...

10. The food authority may use various reliable screening strategies to...

11. If the food authority screens for an individual radionuclide or...

12. (1) If the food authority screens for gross alpha activity...

13. Exemption from monitoring

14. Treatment of bottled drinking water

15. Averaging

PART 2 — Minimum sampling and analysis frequencies

SCHEDULE Sampling and analysis for parameters other than radioactive substances in water bottled and labelled as “spring water” or “dŵr ffynnon” and bottled drinking water

PART 1 — General

1. Analysis of samples

2. Authorisation of alternative methods of analysis

3. Sampling and analysis by persons other than food authorities

PART 2 — Methods of analysis and performance characteristics

SCHEDULE Sampling and analysis for indicative dose in water bottled and labelled as “spring water” or “dŵr ffynnon” and bottled drinking water

PART 1 — General

1. Analysis of samples

2. For each parameter and radionuclide specified in the first column...

3. For each parameter specified in the first column of Table...

4. If the following formula is satisfied, the indicative dose is...

PART 2 — Methods of analysis and performance characteristics

SCHEDULE Application and modification of provisions of the Act

12

SCHEDULE Amendments to other legislation

13

1. The Private Water Supplies (Wales) Regulations 2010

2. In regulation 3(a), for “the Natural Mineral Water, Spring Water...

3. The Food Safety (Sampling and Qualifications) (Wales) Regulations 2013
4. In Schedule 1, omit the reference to “The Natural Mineral...
5. The Food Information (Wales) Regulations 2014
6. In Schedule 7, omit paragraphs 49 and 50.
Explanatory Note
