The Food for Specific Groups (Information and Compositional Requirements) (Amendment) (Wales) Regulations 2019

Made - - - - 17 January 2019
Laid before the National Assembly for Wales - - 21 January 2019
Coming into force - - 22 February 2019

The Welsh Ministers make the following Regulations in exercise of the powers conferred by sections 17(1) and (2), 26(1) and (3) and 48(1)(b) and (c) of the Food Safety Act 1990(1) as read with paragraph 1A(1) of Schedule 2 to the European Communities Act 1972(2).

These Regulations make provision for a purpose mentioned in section 2(2) of the European Communities Act 1972, and it appears to the Welsh Ministers that it is expedient for certain provisions of Commission Delegated Regulation (EU) 2016/128(3), referred to in these Regulations, to be construed as references to those provisions as amended from time to time.

The Welsh Ministers have had regard to relevant advice given by the Food Standards Agency in accordance with section 48(4A)(4) of the Food Safety Act 1990.

There has been consultation as required by Article 9 of Regulation (EC) No 178/2002 of the European Parliament and of the Council laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety(5), during the preparation and evaluation of these Regulations.

Section 26(3) was partially repealed by paragraph 1 of Schedule 6 to the 1999 Act. Section 48(1) was amended by paragraph 8 of Schedule 5 to the 1999 Act. Functions formerly exercisable by “the Ministers” so far as exercisable in relation to Wales, were transferred to the National Assembly for Wales by S.I. 1999/872 as read with section 40(3) of the 1999 Act, and subsequently transferred to the Welsh Ministers by paragraph 30 of Schedule 11 to the Government of Wales Act 2006 (c. 32).

Vaughan Gething
Minister for Health and Social Services, one of the Welsh Ministers
EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations make provision to enforce, in Wales, Commission Delegated Regulation (EU) 2016/128 supplementing Regulation (EU) No 609/2013 of the European Parliament and of the Council as regards the specific information and compositional requirements for food for special medical purposes (“the Delegated Regulation”).

They do this by amending the Food for Specific Groups (Information and Compositional Requirements) (Wales) Regulations 2016 (“the 2016 Regulations”), which make provision to enforce, in Wales, the requirements of Regulation (EU) No 609/2013 of the European Parliament and of the Council on the food intended for infants and young children, food for special medical purposes, and total diet replacement for weight control (“the EU Regulation”).

The EU Regulation sets out the general information and compositional requirements for certain categories of food. The Delegated Regulation sets out the specific information and compositional requirements for food for special medical purposes.

The 2016 Regulations provide for the enforcement of requirements specified by the EU Regulation by applying, with modifications, certain provisions of the Food Safety Act 1990.

The specific information and compositional requirements of food for special medical purposes are inserted into Schedule 1 to the 2016 Regulations, and become ‘specified EU requirements’, to which the modified provisions of the Food Safety Act 1990 apply. This enables an improvement notice to be served requiring compliance. A failure to comply with an improvement notice is a criminal offence.

References to the provisions of the Delegated Regulation are to be read as references to those provisions as amended from time to time.

A definition of food for medical purposes is contained in the EU Regulation and this expressly includes such foods for infants. From 22 February 2019 the Delegated Regulation applies only to food for special medical purposes other than that developed to satisfy the nutritional needs of infants. It is therefore necessary to limit the application of these Regulations.

These Regulations also amend the definition of medical food in the Medical Food (Wales) Regulations 2000 (“the 2000 Regulations”) so that those Regulations apply only to medical food developed to satisfy the nutritional needs of infants.

These Regulations include transitional provisions for medical foods that are labelled or placed on the market before 22 February 2019. Such foods may continue to be marketed until stocks are exhausted as long as they are sold in compliance with the specified requirements of the EU Regulation and regulation 3(1) and (2) of the 2000 Regulations.

The Welsh Ministers’ Code of Practice on the carrying out of Regulatory Impact Assessments was considered in relation to these Regulations. As a result, it was not considered necessary to carry out a regulatory impact assessment as to the likely costs and benefits of complying with these Regulations.
