

Environment (Wales) Act 2016

2016 anaw 3

PART 2

CLIMATE CHANGE

Measurement and interpretation

51 Measurement of emissions

- (1) For the purposes of this Part, each of the following must be measured or calculated in tonnes of carbon dioxide equivalent—
 - (a) emissions of greenhouse gases;
 - (b) reductions in greenhouse gas emissions;
 - (c) removals of greenhouse gases from the atmosphere.
- (2) A “tonne of carbon dioxide equivalent” means one metric tonne of carbon dioxide or an amount of any other greenhouse gas with an equivalent global warming potential (calculated consistently with international carbon reporting practice).
