

## SCHEDULE 1 PROJECTS

### PART 2

#### *Extractive industry*

- 24 (1) Quarries, open-cast mining and peat extraction.
- (2) Underground mining.
- (3) Extraction of minerals by marine or fluvial dredging.
- (4) Deep drillings, in particular—
- (a) geothermal drilling;
  - (b) drilling for the storage of nuclear waste material;
  - (c) drilling for water supplies,
- except drillings for investigating the stability of the soil.
- (5) Surface industrial installations for the extraction of coal, petroleum, natural gas and ores (including bituminous shale).
