PART 4

FLOOD RISK MANAGEMENT: LOCAL AUTHORITY FUNCTIONS

General power

56 General power to manage flood risk

- (1) A local authority may do anything which it considers—
- (a) will contribute to the implementation of current measures described in any relevant local flood risk management plan,
 - (b) is necessary to reduce the risk of a flood in its area which is likely to—
 - (i) occur imminently, and
 - (ii) have serious adverse consequences for human health, the environment, cultural heritage or economic activity, or
 - (c) will otherwise manage flood risk in its area without affecting the implementation of the measures mentioned in paragraph (a).
- (2) Without prejudice to the generality of subsection (1), a local authority may in particular—

 - (i) for the carrying out by that person or by the authority of any work which could be done by the authority under this Part, or
 - (ii) relating to the management by that person of land in a way which can assist in the retention of flood water or slowing the flow of such water,

- (e) make contributions towards expenditure incurred by any other person doing something which could be done by the authority under this Part,

- (3) Work carried out under this section may be carried out within or outwith the local authority's area.

57 Limits of general power

- (1) The power under section 56 does not enable a local authority to do anything which it is, by virtue of a limiting provision, unable to do.
- (2) In subsection (1), a “limiting provision” is one which—
- (a) prohibits or prevents the local authority from doing anything or limits its powers in that respect, and
 - (b) is expressed in an enactment (whenever passed or made).
- (3) The absence from an enactment of provision conferring any power does not of itself make that enactment a limiting provision.

58 Limits of general power: statutory undertakings

- (1) A local authority may not exercise the power under section 56 in a way which—
- (a) damages any works or property belonging to a statutory undertaker, or
 - (b) interferes with the carrying on of its statutory undertaking,
- unless the undertaker consents.
- (2) But consent is not required if it is withheld unreasonably.
- (3) It is for the Scottish Ministers to determine any question which arises as to whether consent has been withheld unreasonably, and their decision is final.

Clearance and repair works

59 Duty to carry out clearance and repair works

A local authority must carry out the works described in a schedule prepared by it under section 18 if it considers carrying out the works—

- (1) A flood protection scheme is a scheme by a local authority for the management of flood risk within the authority's area.
- (2) A proposed flood protection scheme must—

 - (b) include such maps, plans and specifications as may be specified by regulations by the Scottish Ministers,
 - (c) state how the operations will contribute to the implementation of current measures described in any relevant local flood risk management plan, and
 - (d) inasmuch as they will not so contribute, state the reasons why the local authority considers carrying them out will not affect the implementation of those measures.
- (3) Schedule 2 makes further provision about the making of flood protection schemes.
- (4) The Scottish Ministers may by order amend schedule 2 so as to modify the procedure for making flood protection schemes.
