COMMENTARY ON SECTIONS

Part 2 - Standards

Section 3 – Warning notice

9. This section provides that if one or more of grounds 1 to 6 set out in section 2 exist the local authority may give a warning notice to the governing body of a school, and specifies what information a warning notice must contain. The warning notice is generally the start of the process of intervention by a local authority in a school and may lead to the powers of intervention being exercised by it.
