

Commission Implementing Regulation (EU) 2019/1793 of 22 October 2019 on the temporary increase of official controls and emergency measures governing the entry into the Union of certain goods from certain third countries implementing Regulations (EU) 2017/625 and (EC) No 178/2002 of the European Parliament and of the Council and repealing Commission Regulations (EC) No 669/2009, (EU) No 884/2014, (EU) 2015/175, (EU) 2017/186 and (EU) 2018/1660 (Text with EEA relevance)

COMMISSION IMPLEMENTING REGULATION (EU) 2019/1793

of 22 October 2019

on the temporary increase of official controls and emergency measures governing the entry into the Union of certain goods from certain third countries implementing Regulations (EU) 2017/625 and (EC) No 178/2002 of the European Parliament and of the Council and repealing Commission Regulations (EC) No 669/2009, (EU) No 884/2014, (EU) 2015/175, (EU) 2017/186 and (EU) 2018/1660

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2017/625 of the European Parliament and of the Council of 15 March 2017 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products, amending Regulations (EC) No 999/2001, (EC) No 396/2005, (EC) No 1069/2009, (EC) No 1107/2009, (EU) No 1151/2012, (EU) No 652/2014, (EU) 2016/429 and (EU) 2016/2031 of the European Parliament and of the Council, Council Regulations (EC) No 1/2005 and (EC) No 1099/2009 and Council Directives 98/58/EC, 1999/74/EC, 2007/43/EC, 2008/119/EC and 2008/120/EC, and repealing Regulations (EC) No 854/2004 and (EC) No 882/2004 of the European Parliament and of the Council, Council Directives 89/608/EEC, 89/662/EEC, 90/425/EEC, 91/496/EEC, 96/23/EC, 96/93/EC and 97/78/EC and Council Decision 92/438/EEC (Official Controls Regulation)⁽¹⁾, and in particular Article 34(6) (a), Article 47(2)(b), Article 54(4)(a) and (b) and Article 90(c) thereof,

Having regard to Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety⁽²⁾, and in particular Article 53(1)(b) thereof,

Whereas:

- (1) Regulation (EU) 2017/625 integrates into a single legislative framework the rules applicable to official controls on animals and goods entering the Union in order to verify compliance with Union agri-food chain legislation. For that purpose, it repeals and replaces Regulation (EC) No 882/2004 of the European Parliament and of the Council⁽³⁾ and other Union acts governing official controls in specific areas.

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/1793. (See end of Document for details)

- (2) Pursuant to Regulation (EU) 2017/625, certain categories of animals and goods from certain third countries are always to be presented at border control posts for official controls to be performed prior to their entry into the Union. In addition, Article 47(1)(d) and (e) of Regulation (EU) 2017/625 stipulate that goods subject to measures requiring a temporary increase of official controls or emergency measures respectively, should be subject to official controls at border control posts at their entry into the Union.
- (3) In that regard, pursuant to Regulation (EU) 2017/625, certain goods from certain third countries should be subject to a temporary increase of official controls at border control posts in those cases where the Commission has decided, by means of implementing acts, that these controls are necessary due to a known or emerging risk or because there is evidence of widespread serious non-compliance with the Union agri-food chain legislation. To that effect, the Commission should establish the list of such goods, indicating their codes from the Combined Nomenclature (CN) as laid down in Annex I to Commission Regulation (EEC) No 2658/87⁽⁴⁾ (hereinafter, ‘the list’) and update the list as necessary to reflect any developments in that regard.
- (4) The list referred to in recital (3) should at this stage consist of an updated list of food and feed of non-animal origin set out in Commission Regulation (EC) No 669/2009⁽⁵⁾, which lays down rules concerning the increased level of official controls to be carried out at designated points of entry into the Union on imports of certain food and feed of non-animal origin from certain third countries. It is therefore appropriate to set out in Annex I to this Regulation the list of food and feed of non-animal origin from certain third countries to be subject to a temporary increase of official controls at the entry into the Union, in accordance with Article 47(2)(b) of Regulation (EU) 2017/625.
- (5) Moreover, the Commission should establish rules on the frequency of identity checks and physical checks for the food and feed of non-animal origin from certain third countries subject to a temporary increase of controls, in accordance with Article 54(4) (a) of Regulation (EU) 2017/625, taking into account in particular the level of risk associated with the hazard under consideration and the frequency of border rejections.
- (6) Regulation (EU) 2017/625 and delegated and implementing acts adopted pursuant to Articles 47 to 64 of that Regulation, provide for one single system of official controls which applies to the areas covered by Commission Implementing Regulations (EU) No 884/2014⁽⁶⁾, (EU) 2015/175⁽⁷⁾, (EU) 2017/186⁽⁸⁾, (EU) 2018/1660⁽⁹⁾ and by Regulation (EC) No 669/2009. For this reason, and since the rules covered in these regulations are substantively linked, as they all concern the imposition of additional measures governing the entry into the Union of certain food and feed from certain third countries due to an identified risk and which apply depending on the gravity of the risk, it is appropriate to facilitate the correct and comprehensive application of the relevant rules by establishing in a single act the provisions concerning the temporary increase of official controls on certain food and feed of non-animal origin and the emergency measures currently set out in these Regulations.
- (7) The food and feed of non-animal origin subject to the emergency measures set out in Commission Implementing Regulations (EU) No 884/2014, (EU) 2015/175, (EU) 2017/186 and (EU) 2018/1660 still pose a serious risk to public health which cannot

be contained satisfactorily by means of measures taken by the Member States. It is therefore appropriate to set out in Annex II to this Regulation a list of food and feed of non-animal origin subject to emergency measures which consists of the updated lists of food and feed of non-animal origin laid down in Commission Implementing Regulations (EU) No 884/2014, (EU) 2015/175, (EU) 2017/186 and (EU) 2018/1660. In addition, the scope of the entries in the aforementioned lists should be amended to include forms of the products other than the ones currently laid down therein, where those other forms present the same risk. It is therefore appropriate to amend all the entries concerning groundnuts to include oilcake and other solid residues, whether or not ground or in the form of pellets, resulting from the extraction of groundnut oil, as well as the entry concerning peppers from India to include roasted peppers (sweet or other than sweet).

- (8) With a view to ensure a proper control of the risks to public health, compound food containing any of the food of non-animal origin listed in Annex II to this Regulation due to the risk of contamination by aflatoxins, in a quantity above 20 % of either a single product or as the sum of products listed, and falling within the CN Codes laid down in Annex II should also be included in the list referred to in recital 7.
- (9) Moreover, the Commission should establish rules on the frequency of identity checks and physical checks for the food and feed subject to emergency measures pursuant to this Regulation, in accordance with Article 54(4)(b) of Regulation (EU) 2017/625. It is therefore appropriate to establish such rules in this Regulation, taking into account in particular the level of risk associated with the hazard under consideration and the frequency of border rejections.
- (10) Measures requiring a temporary increase of official controls and emergency measures set out in this Regulation should apply to food and feed intended for placing on the Union market since those goods represent a risk from a public health perspective.
- (11) As regards consignments sent as trade samples, laboratory samples or as display items for exhibitions, which are not intended to be placed on the market, consignments of a non-commercial nature intended for private use or consumption within the custom territory of the Union and consignment intended for scientific purposes, having regard to the low risk that such consignments pose to public health, it would be disproportionate to impose a requirement that these consignments be subject to official controls at border control posts and be accompanied by an official certificate or by the results of the sampling and laboratory analyses in accordance with this Regulation. However, in order to avoid misuse, this Regulation should apply to these consignments in the case where their gross weight exceeds a certain weight limit.
- (12) Measures requiring a temporary increase of official controls and emergency measures set out in this Regulation should not apply to food and feed on board means of transport operating internationally which are not unloaded and are intended for consumption by the crew and passengers since the placing on the Union market is very limited.
- (13) The maximum levels of mycotoxins, including of aflatoxins in food are established by Commission Regulation (EC) No 1881/2006⁽¹⁰⁾ and in feed by Directive 2002/32/EC of the European Parliament and of the Council⁽¹¹⁾. The maximum levels for pesticide

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/1793. (See end of Document for details)

residues are established by Regulation (EC) No 396/2005 of the European Parliament and of the Council⁽¹²⁾. The European Union Reference Laboratory for Dioxins and polychlorinated biphenyls (PCBs) in food and feed has carried out a study on the correlation between pentachlorophenol (PCP) and dioxins in contaminated guar gum from India. From this study it can be concluded that guar gum containing a level of PCP below the Maximum Residue Limit (MRL) of 0,01 mg/kg does not contain unacceptable levels of dioxins. Therefore compliance with the MRL on PCP, ensures in this specific case also a high level of human health protection as regards dioxins.

- (14) In relation to the rules referred to in recital (13), the provisions on sampling and analyses for the control of mycotoxins, including aflatoxins, in food are established by Commission Regulation (EC) No 401/2006⁽¹³⁾ and in feed by Commission Regulation (EC) No 152/2009⁽¹⁴⁾. The provisions on sampling for the official control of pesticide residues are established by Commission Directive 2002/63/EC⁽¹⁵⁾. With a view to ensure uniform methods of sampling and laboratory analyses in third countries and Member States, the sampling and the analyses for food and feed required by this Regulation should be carried out in accordance with the aforementioned Union rules on sampling and analyses both in Member States and third countries.
- (15) Moreover, in order to ensure uniform sampling procedures and analytical reference methods for the control of *Salmonella* in food subject to this Regulation in third countries and Member States, this Regulation should lay down such sampling procedures and analytical reference methods.
- (16) Model official certificates for the entry into the Union of certain food and feed are laid down in Commission Implementing Regulations (EU) No 884/2014, (EU) 2015/175, (EU) 2017/186 and (EU) 2018/1660. In order to facilitate the performance of official controls at the entry into the Union it is appropriate to establish a single model official certificate for the entry into the Union of food and feed subject to special conditions for the entry into the Union pursuant to this Regulation.
- (17) Such official certificates should be issued either on paper or in electronic form. Therefore, it is appropriate to establish common requirements as regards issuance of official certificates in both cases, in addition to the requirements laid down in Chapter VII of Title II of Regulation (EU) 2017/625. In this regard, Article 90(f) of Regulation (EU) 2017/625 makes provisions for the establishment by the Commission of rules for the issuance of electronic certificates and for the use of electronic signatures including in relation to official certificates issued in accordance with this Regulation. In addition, provisions should be made in this Regulation to ensure that the requirements for official certificates not submitted in IMSOC laid down in Commission Implementing Regulation (EU) 2019/628⁽¹⁶⁾ also apply to official certificates issued in accordance with this Regulation.
- (18) Model certificates are included in the electronic system TRACES, set up by Commission Decision 2003/623/EC⁽¹⁷⁾, to facilitate and accelerate administrative procedures at Union borders and to enable electronic communication between the competent authorities which helps preventing possible fraudulent or deceptive practices in respect of the official certificates. Since 2003, computer technology has evolved

considerably and the TRACES system has been modified to improve the quality, processing and secure exchange of data. In accordance with Article 133(4) of Regulation (EU) 2017/625, the TRACES system is to be integrated into the Information Management System for Official Controls referred to in Article 131 of Regulation (EU) 2017/625 (IMSOC). The model official certificate laid down in this Regulation should therefore be adapted to IMSOC.

- (19) Point (c) of Article 90 of Regulation (EU) 2017/625 empowers the Commission to lay down, by means of implementing acts, rules concerning the procedures to be followed for the issuance of replacement certificates. To avoid misuse and abuse, it is important to define the cases where a replacement official certificate may be issued and the requirements that need to be met by such certificate. Such cases have been laid down in Implementing Regulation (EU) 2019/628 in relation to official certificates issued in accordance with that Regulation. With a view to ensure a coherent approach, it is appropriate to provide that, in the case of issuing replacement certificates, official certificates issued in accordance with this Regulation should be replaced in accordance with the procedures for the replacement certificates laid down in Implementing Regulation (EU) 2019/628.
- (20) Provisions should be established to regularly review whether modifications of the lists out in Annexes I and II to this Regulation, including of the frequency of identity and physical checks, are necessary. This should take into account new information related to risks and non-compliance, such as the data resulting from notifications received through the Rapid Alert System for Food and Feed (RASFF), data and information concerning consignments and the results of the documentary, identity and physical checks communicated by the Member States to the Commission, reports and information received from third countries, information resulting from the controls carried out by the Commission in third countries and information exchanged between the Commission and Member States and between the Commission and the European Food Safety Authority.
- (21) The rules to be established by the Commission in accordance with Articles 34(6)(a), 47(2)(b), and 54(4)(a) of Regulation (EU) 2017/625 are substantively linked since they all concern requirements on official controls at the entry into the Union on certain goods from certain third countries subject to a temporary increase of official controls at their entry into the Union and should therefore apply from the same date. To facilitate the correct and comprehensive application of those rules, it is appropriate to establish them in a single act.
- (22) The rules to be established by the Commission in accordance with Articles 54(4)(b) and 90 (c) of Regulation (EU) 2017/625 and with Article 53(1)(b) of Regulation (EC) No 178/2002 are substantively linked since they all concern requirements for the entry into the Union of goods subject to emergency measures pursuant to Article 53(1)(b) of Regulation (EC) No 178/2002 and should therefore apply from the same date. To facilitate the correct and comprehensive application of those rules, it is appropriate to establish them in a single act.

Changes to legislation: There are currently no known outstanding effects for the
Commission Implementing Regulation (EU) 2019/1793. (See end of Document for details)

- (23) For the purposes of simplification and rationalization, the rules laid down in Commission Regulations (EC) No 669/2009, (EU) No 884/2014, (EU) 2017/186, (EU) 2015/175 and (EU) 2018/1660 are consolidated into this Regulation. These Regulations should therefore be repealed and replaced with this Regulation.
- (24) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

SECTION 1

COMMON PROVISIONS

Article 1

Subject matter and scope

- 1 This Regulation lays down:
- a the list of food and feed of non-animal origin from certain third countries subject to a temporary increase of official controls at their entry into [^{F1}Great Britain], established in Annex I, falling within the CN Codes and TARIC classifications laid down in that Annex, in accordance with Article 47(2)(b) of Regulation (EU) 2017/625;
 - b special conditions governing the entry into [^{F2}Great Britain] of the following categories of consignments of food and feed due to the risk of contamination by mycotoxins, including aflatoxins, pesticide residues, pentachlorophenol and dioxins and microbiological contamination, in accordance with Article 53(1)(b) of Regulation (EC) No 178/2002:
 - (i) consignments of food and feed of non-animal origin from third countries or parts of those third countries listed in [^{F3}Table 1][^{F3}Table 1 (England)] to Annex II and falling within the CN Codes and TARIC classifications laid down in that Annex;
 - (ii) consignments of compound food containing any of the food listed in [^{F4}Table 1][^{F4}Table 1 (England)] to Annex II due to the risk of contamination by aflatoxins in a quantity above 20 % of either a single product or as the sum of those products and falling within the CN Codes laid down in [^{F5}Table 2][^{F5}Table 2 (England)] to that Annex;
 - [^{F6}ba suspension of the entry into [^{F7}Great Britain] of the food and feed listed in Annex IIa;]
 - c rules on the frequency of identity checks and physical checks for the consignments of food and feed referred to in points (a) and (b) of this paragraph;
 - d rules on the methods to be used for sampling and for laboratory analyses for the consignments of food and feed referred to in points (a) and (b) of this paragraph, in accordance with Article 34(6)(a) of Regulation (EU) 2017/625;
 - e rules concerning the model official certificate required to accompany consignments of food and feed referred to in point (b) of this paragraph and the requirements for such official certificate, in accordance with Article 53(1)(b) of Regulation (EC) No 178/2002;

- f rules for the issuance of replacement official certificates required to accompany consignments of food and feed referred to in point (b) of this paragraph, in accordance with Article 90(c) of Regulation (EU) 2017/625.
- 2 This Regulation applies to consignments of food and feed referred to in points (a) and (b) of paragraph 1 intended for placing on [^{F8}the market in Great Britain].
- [^{F9}3 This Regulation does not apply to the following categories of consignments of food and feed referred to in points (a) and (b) of paragraph 1 unless their net weight exceeds 30 kg:
- a consignments of food and feed sent as trade samples, laboratory samples or as display items for exhibitions, which are not intended to be placed on the market;
 - b consignments of food and feed which form part of passengers personal luggage and are intended for personal consumption or use;
 - c non-commercial consignments of food and feed sent to natural persons which are not intended to be placed on the market;
 - d consignments of food and feed intended for scientific purposes.]
- 4 This Regulation does not apply to food and feed referred to in points (a) and (b) of paragraph 1 on board means of transport operating internationally which are not unloaded and are intended for consumption by the crew and passengers.
- 5 In case of doubt on the intended use of the food and feed referred in points (b) and (c) of paragraph (3), the burden of proof lies with the owner of the personal luggage and with the recipient of the consignment, respectively.

Textual Amendments

- F1** Words in Art. 1(1)(a) substituted (31.12.2020) by The Official Controls (Animals, Feed and Food, Plant Health etc.) (Amendment) (EU Exit) (No. 2) Regulations 2020 (S.I. 2020/1631), regs. 1(2), **22(2)(a)** (with regs. 33-36)
- F2** Words in Art. 1(1)(b) substituted (31.12.2020) by The Official Controls (Animals, Feed and Food, Plant Health etc.) (Amendment) (EU Exit) (No. 2) Regulations 2020 (S.I. 2020/1631), regs. 1(2), **22(2)(a)** (with regs. 33-36)
- F3** Words in Art. 1(1)(b)(i) substituted (E.) (17.1.2023) by virtue of The Official Controls (Imports of High Risk Food and Feed of Non-Animal Origin) (Amendment of Commission Implementing Regulation (EU) 2019/1793) (England) Regulations 2022 (S.I. 2022/1193), regs. 1(1), **2(2)(a)**
- F4** Words in Art. 1(1)(b)(ii) substituted (E.) (17.1.2023) by virtue of The Official Controls (Imports of High Risk Food and Feed of Non-Animal Origin) (Amendment of Commission Implementing Regulation (EU) 2019/1793) (England) Regulations 2022 (S.I. 2022/1193), regs. 1(1), **2(2)(b)(i)**
- F5** Words in Art. 1(1)(b)(ii) substituted (E.) (17.1.2023) by virtue of The Official Controls (Imports of High Risk Food and Feed of Non-Animal Origin) (Amendment of Commission Implementing Regulation (EU) 2019/1793) (England) Regulations 2022 (S.I. 2022/1193), regs. 1(1), **2(2)(b)(ii)**
- F6** Inserted by Commission Implementing Regulation (EU) 2020/625 of 6 May 2020 amending Commission Implementing Regulation (EU) 2019/1793 on the temporary increase of official controls and emergency measures governing the entry into the Union of certain goods from certain third countries implementing Regulations (EU) 2017/625 and (EC) No 178/2002 of the European Parliament and of the Council, and repealing Commission Implementing Regulation (EU) 2015/943 and Commission Implementing Decision 2014/88/EU (Text with EEA relevance).
- F7** Words in Art. 1(1)(ba) substituted (31.12.2020) by The Official Controls (Animals, Feed and Food, Plant Health etc.) (Amendment) (EU Exit) (No. 2) Regulations 2020 (S.I. 2020/1631), regs. 1(2), **22(2)(a)** (with regs. 33-36)

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/1793. (See end of Document for details)

- F8** Words in Art. 1(2) substituted (31.12.2020) by The Official Controls (Animals, Feed and Food, Plant Health etc.) (Amendment) (EU Exit) (No. 2) Regulations 2020 (S.I. 2020/1631), regs. 1(2), **22(2)(b)** (with regs. 33-36)
- F9** Substituted by Commission Implementing Regulation (EU) 2020/625 of 6 May 2020 amending Commission Implementing Regulation (EU) 2019/1793 on the temporary increase of official controls and emergency measures governing the entry into the Union of certain goods from certain third countries implementing Regulations (EU) 2017/625 and (EC) No 178/2002 of the European Parliament and of the Council, and repealing Commission Implementing Regulation (EU) 2015/943 and Commission Implementing Decision 2014/88/EU (Text with EEA relevance).

Article 2

Definitions

- 1 For the purposes of this Regulation, the following definitions shall apply:
- a ‘consignment’ means ‘consignment’ as defined in Article 3(37) of Regulation (EU) 2017/625;
 - b ‘placing on the market’ means ‘placing on the market’ as defined in point (8) of Article 3 of Regulation (EC) No 178/2002.
 - [^{F10}c “appropriate computerised information management system” means the computerised information management system for official controls referred to in Article 131 of Regulation (EU) 2017/625.]
- 2 However, for the purposes of Articles 7, 8, 9, 10 and 11 and of Annex IV, a ‘consignment’ means:
- a a ‘lot’ as referred to in Annex I to Regulation (EC) No 401/2006 and in Annex I to Regulation (EC) No 152/2009, in relation to food and feed listed in Annex II due to contamination risk by mycotoxins, including aflatoxins;
 - b a ‘lot’ as referred to in the Annex to Directive 2002/63/EC, in relation to food and feed listed in Annex II due to contamination risk by pesticides and pentachlorophenol.

Textual Amendments

- F10** Art. 2(1)(c) inserted (31.12.2020) by The Official Controls (Animals, Feed and Food, Plant Health etc.) (Amendment) (EU Exit) (No. 2) Regulations 2020 (S.I. 2020/1631), regs. 1(2), **22(3)** (with regs. 33-36)

^{F11} Article 2A

References to CN codes and TARIC classifications

For the purpose of this Regulation, any reference to the Combined Nomenclature, CN codes, TARIC classifications, or a sub-division in respect of those codes or classifications, shall be read as a reference to the relevant corresponding provisions in the customs tariff, as established under section 8(1) of the Taxation (Cross-border Trade) Act 2018.]

Textual Amendments

- F11** Art. 2A inserted (31.12.2020) by The Official Controls (Animals, Feed and Food, Plant Health etc.) (Amendment) (EU Exit) (No. 2) Regulations 2020 (S.I. 2020/1631), regs. 1(2), **22(4)** (with regs. 33-36)

Article 3

Sampling and analyses

The sampling and the analyses to be carried out by competent authorities at border control posts or at control points referred to in Article 53(1)(a) of Regulation (EU) 2017/625, as part of physical checks on consignments of food and feed referred to in Article 1(1)(a) and (b), or in third countries for the purposes of the results of analyses which are required to accompany the consignments of food and feed referred to in Article 1(1)(b) as provided for in this Regulation shall be performed in accordance with the following requirements:

- (a) for food listed in Annexes I and II due to possible contamination risk by mycotoxins, including aflatoxins, the sampling and the analyses shall be performed in accordance with Regulation (EC) No 401/2006;
- (b) for feed listed in Annexes I and II due to possible contamination risk by mycotoxins, including aflatoxins, the sampling and the analyses shall be performed in accordance with Regulation (EC) No 152/2009;
- (c) for food and feed listed in Annexes I and II due to possible non-compliance with the maximum allowed levels of pesticides residues the sampling shall be performed in accordance with [F12the methods described in the Annex to] Directive 2002/63/EC;
- (d) for guar gum listed in Annex II due to possible contamination with pentachlorophenol and dioxins the sampling for the analysis of pentachlorophenol shall be performed in accordance with [F13the methods described in the Annex to] Directive 2002/63/EC and the sampling and analyses for the control of dioxins in feed shall be performed in accordance with Regulation (EC) No 152/2009;
- (e) for food listed in Annexes I and II due to the risk of presence of *Salmonella*, the sampling and the analyses for the control of *Salmonella* shall be performed in accordance with the sampling procedures and the analytical reference methods laid down in Annex III;
- (f) the methods of sampling and analyses referred to in the footnotes to Annexes I and II shall be applied in relation to hazards other than those referred to in points (a), (b), (c), (d) and (e).

Textual Amendments

- F12** Words in Art. 3(c) inserted (31.12.2020) by The Official Controls (Animals, Feed and Food, Plant Health etc.) (Amendment) (EU Exit) (No. 2) Regulations 2020 (S.I. 2020/1631), regs. 1(2), **22(5)** (with regs. 33-36)

Changes to legislation: There are currently no known outstanding effects for the
Commission Implementing Regulation (EU) 2019/1793. (See end of Document for details)

F13 Words in Art. 3(d) inserted (31.12.2020) by [The Official Controls \(Animals, Feed and Food, Plant Health etc.\) \(Amendment\) \(EU Exit\) \(No. 2\) Regulations 2020 \(S.I. 2020/1631\)](#), regs. 1(2), **22(5)** (with regs. 33-36)

Article 4

Release for free circulation

The custom authorities shall only allow the release for free circulation of consignments of food and feed listed in Annexes I and II upon presentation of a duly finalised Common Health Entry Document (CHED) as provided for in Article 57(2)(b) of Regulation (EU) 2017/625, which confirms that the consignment is in compliance with the applicable rules referred to in Article 1(2) of that Regulation.

SECTION 2

TEMPORARY INCREASE OF OFFICIAL CONTROLS AT BORDER CONTROL POSTS AND CONTROL POINTS ON CERTAIN FOOD AND FEED FROM CERTAIN THIRD COUNTRIES

Article 5

List of food and feed of non-animal origin

1 Consignments of food and feed listed in Annex I shall be subject to a temporary increase of official controls at border control posts at their entry into [^{F14}Great Britain] and at control points.

2 The identification of the food and feed referred to in paragraph 1 for official controls shall be made on the basis of the codes from the Combined Nomenclature and the TARIC subdivision indicated in Annex I.

Textual Amendments

F14 Words in Art. 5(1) substituted (31.12.2020) by [The Official Controls \(Animals, Feed and Food, Plant Health etc.\) \(Amendment\) \(EU Exit\) \(No. 2\) Regulations 2020 \(S.I. 2020/1631\)](#), regs. 1(2), **22(6)** (with regs. 33-36)

Article 6

Frequency of identity checks and physical checks

1 The competent authorities at border control posts and at control points referred to in Article 53(1)(a) of Regulation (EU) 2017/625 shall carry out identity and physical checks, including sampling and laboratory analyses, on consignments of food and feed listed in Annex I at the frequency set out in that Annex.

2 The frequency of identity and physical checks set out in an entry in Annex I shall be applied as an overall frequency for all products falling under that entry.

SECTION 3

[^{F9}SPECIAL CONDITIONS GOVERNING THE ENTRY INTO [^{F15}GREAT BRITAIN] AND SUSPENSION OF ENTRY INTO [^{F15}GREAT BRITAIN] OF CERTAIN FOOD AND FEED FROM CERTAIN THIRD COUNTRIES]

Article 7

Entry into [^{F16}Great Britain]

- 1 Consignments of food and feed listed in Annex II shall only enter into [^{F17}Great Britain] in accordance with the conditions laid down in this section.
- 2 The identification of the food and feed referred to in paragraph 1 for official controls shall be made on the basis of the codes ^{F18}... indicated in Annex II.
- 3 Consignments referred to in paragraph 1 shall be subject to official controls at border control posts at their entry into [^{F19}Great Britain] and at control points.

Textual Amendments

Article 9

Identification code

- 1 Each consignment of food and feed listed in Annex II shall be identified with an identification code.
- 2 Each individual bag or packaging form of the consignment shall be identified with that identification code.
- 3 By way of derogation from paragraph 2, in case of consignments of food and feed listed in Annex II due to the risk of contamination by mycotoxins and where the packaging is combining several small packages, it is not necessary for the identification code of the consignment to be mentioned individually on all the separate small packages as long as it is mentioned at least on the package combining these small packages.

Article 10

Results of sampling and analyses performed by the competent authorities of the third country

- 1 Each consignment of food and feed listed in Annex II shall be accompanied by the results of sampling and analyses performed on that consignment by the competent authorities of the third country of origin or of the country where the consignment is consigned from if that country is different from the country of origin.
- 2 On the basis of the results referred to in paragraph 1, the competent authorities shall ascertain:
 - a compliance with Regulation (EC) No 1881/2006 [F24, Part 4 of the Animal Feed (Scotland) Regulation 2010, Part 6 of the Animal Feed (Composition, Marketing and Use) (England) Regulations 2015 and Part 6 of the Animal Feed (Composition, Marketing and Use) (Wales) Regulations 2016] on maximum levels of relevant mycotoxins, for consignments of food and feed listed in Annex II due to contamination risk by mycotoxins;

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/1793. (See end of Document for details)

- b compliance with Regulation (EC) No 396/2005 on maximum residue levels of pesticides, for consignments of food and feed listed in Annex II due to contamination risk by pesticide residues;
- c that the product does not contain more than 0,01 mg/kg pentachlorophenol (PCP), for consignments of food and feed listed in Annex II due to contamination risk by pentachlorophenol and dioxins;
- d the absence of *Salmonella* in 25 g, for consignments of food listed in Annex II due to risk of microbiological contamination by *Salmonella*.

3 Each consignment of food and feed listed in Annex II due to contamination risk by pentachlorophenol and dioxins shall be accompanied by an analytical report which shall comply with the requirements set out in Annex II.

The analytical report shall include the results of the analyses referred to in paragraph 1.

4 The results of sampling and analyses referred to in paragraph 1 shall bear the identification code of the consignment to which they relate referred to in Article 9(1).

5 The analyses referred to in paragraph 1 shall be performed by laboratories accredited in accordance with the standard ISO/IEC 17025 on 'General requirements for the competence of testing and calibration laboratories'.

Textual Amendments

- F24** Words in Art. 10(2)(a) substituted (31.12.2020) by [The Official Controls \(Animals, Feed and Food, Plant Health etc.\) \(Amendment\) \(EU Exit\) \(No. 2\) Regulations 2020 \(S.I. 2020/1631\)](#), regs. 1(2), **22(9)** (with regs. 33-36)

Article 11

Official certificate

1 Each consignment of food and feed listed in Annex II shall be accompanied by an official certificate in accordance with the model [^{F25}published by the appropriate authority, as amended from time to time].

2 The official certificate shall comply with the following requirements:

- a) it shall be issued by the competent authority of the third country of origin or of the third country where the consignment is consigned from if that country is different from the country of origin;
- b) it shall bear the identification code of the consignment to which it relates referred to in Article 9(1);
- c) it shall be issued before the consignment to which it relates leaves the control of the competent authority of the third country issuing the certificate;
- d) it shall be valid for not more than four months from the date of issue, but in any case no longer than six months from the date of the results of the laboratory analyses referred to in paragraph 1 of Article 10.

3 An official certificate which is not submitted in the [^{F26}appropriate computerised information management system] by the competent authority of the third country issuing the certificate shall also meet the requirements for model official certificates not submitted in

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/1793. (See end of Document for details)

[^{F27}the appropriate computerised information management system] laid down in Article 3 of Implementing Regulation (EU) 2019/628.

4 Competent authorities may issue a replacement official certificate only in accordance with the rules laid down in Article 5 of Implementing Regulation (EU) 2019/628.

5 The official certificate referred to in paragraph 1 shall be completed on the basis of [^{F28}guidance which the appropriate authority may publish on its website, as amended from time to time].

- (1) Where only certain products under any CN [^{F37}code] are required to be examined, the CN code is marked 'ex'.
- (2) The sampling and the analyses [^{F37} must be] performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(a) of Annex III to [^{F37}this Regulation][^{F38}these Regulations].
- (3) Residues of Triclopyr & Haloxyfop.
- (4) The sampling and the analyses [^{F37} must be] performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(b) of Annex III to [^{F37}this Regulation][^{F38}these Regulations].
- (5) Residues of at least those pesticides listed in the control programme adopted in accordance with Article 29(2) of Regulation (EC) No 396/2005 of the European Parliament and of the Council [^{F38}of] on maximum residue levels of pesticides in or on food and feed of plant and animal origin that can be analysed with multi-residue methods based on GC-MS and LC-MS (pesticides to be monitored in/on products of plant origin only).
- (6) Residues of Tolfenpyrad.
- (7) Residues of Amitraz (amitraz including the metabolites containing the 2,4 -dimethylaniline moiety expressed as amitraz), Diafenthuron, Dicofol (sum of p,p' and o,p' isomers) and Dithiocarbamates (dithiocarbamates expressed as CS2, including maneb, mancozeb, metiram, propineb, thiram and ziram).
- (8) Residues of Dicofol (sum of p,p' and o,p' isomers), Dinotefuran, Folpet, Prochloraz (sum of prochloraz, BTS 44595 (M201-04) and BTS 44596 (M201-03), expressed as prochloraz), Thiophanate-methyl and Triforine.
- (9) For the purposes of this Annex, 'Sudan dyes' refers to the following chemical substances: (i) Sudan I (CAS Number 842-07-9); (ii) Sudan II (CAS Number 3118-97-6); (iii) Sudan III (CAS Number 85-86-9); (iv) Scarlet Red or Sudan IV (CAS Number 85-83-6).
- (10) Residues of acephate.
- (11) Residues of Diafenthuron.
- (12) Residues of Phenthoate.
- (13) Residues of Chlorbufam.
- (14) Residues of Formetanate (sum of formetanate and its salts expressed as formetanate (hydrochloride)) Prothiofos and Triforine.
- (15) Residues of chlorpyrifos/chlorpyrifos-methyl and fenbutatin oxide.
- (16) Residues of Prochloraz (sum of prochloraz, BTS 44595 (M201-04) and BTS 44596 (M201-03), expressed as prochloraz).
- (17) Residues of Diafenthuron, Formetanate (sum of formetanate and its salts expressed as formetanate (hydrochloride)) and Thiophanate-methyl.
- (18) 'Unprocessed products' as defined in Regulation (EC) No 852/2004 of the European Parliament and of the Council on the hygiene of foodstuffs.
- (19) [^{F37}'Placing on the market' and 'final consumer' as defined in Regulation (EC) No 178/2002 of the European Parliament and of the Council laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety.]
[^{F38}'Placing on the market' and 'final consumer' as defined in Regulation (EC) No. 178/2002.]

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/1793. (See end of Document for details)

- (1) Where only certain products under any CN are required to be examined, the CN code is marked 'ex'.
- (2) The sampling and the analyses must be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(a) of Annex III to this Regulation.
- (3) Residues of Triclopyr and Haloxyfop.
- (4) The sampling and the analyses must be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(b) of Annex III to this Regulation.
- (5) Residues of at least those pesticides listed in the control programme adopted in accordance with Article 29 of Regulation (EC) No 396/2005 of the European Parliament and of the Council on maximum residue levels of pesticides in or on food and feed of plant and animal origin that can be analysed with multi-residue methods based on GC-MS and LC-MS (pesticides to be monitored in/on products of plant origin only).
- (6) Residues of Tolfenpyrad.
- (7) Residues of Amitraz (amitraz including the metabolites containing the 2,4 -dimethylaniline moiety expressed as amitraz), Diafenthiuron, Dicofol (sum of p, p' and o,p' isomers) and Dithiocarbamates (dithiocarbamates expressed as CS₂, including maneb, mancozeb, metiram, propineb, thiram and ziram).
- (8) Residues of Dicofol (sum of p, p' and o,p' isomers), Dinotefuran, Folpet, Prochloraz (sum of prochloraz, BTS 44595 (M201-04) and BTS 44596 (M201-03), expressed as prochloraz), Thiophanate-methyl and Triforine.
- (9) For the purposes of this Annex, 'Sudan dyes' refers to the following chemical substances: (i) Sudan I (CAS Number 842-07-9); (ii) Sudan II (CAS Number 3118-97-6); (iii) Sudan III (CAS Number 85-86-9); (iv) Scarlet Red; or Sudan IV (CAS Number 85-83-6).
- (10) Residues of acephate.
- (11) Residues of Diafenthiuron.
- (12) Residues of Phenthoate.
- (13) Residues of Chlorbufam.
- (14) Residues of Formetanate (sum of formetanate and its salts expressed as formetanate (hydrochloride)), Prothiofos and Triforine.
- (15) Residues of chlorpyrifos/chlorpyrifos-methyl and fenbutatin oxide.
- (16) Residues of Prochloraz (sum of prochloraz, BTS 44595 (M201-04) and BTS 44596 (M201-03), expressed as prochloraz).
- (17) Residues of Diafenthiuron, Formetanate (sum of formetanate and its salts expressed as formetanate (hydrochloride)) and Thiophanate-methyl.
- (18) 'Unprocessed products' as defined in Regulation (EC) No 852/2004 of the European Parliament and of the Council on the hygiene of foodstuffs.
- (19) 'Placing on the market' and 'final consumer' as defined in Regulation (EC) No 178/2002.
- (20) The following reference methods may be used (1) ISO 5522:1981 "Fruits, vegetables and derived products – Determination of total sulphur dioxide content" Published by the International Organization for Standardization in September 1981 (1st edition). Available from International Organization for Standardization <https://www.iso.org/home.html>. (2) BS EN 1988-1:1998 "Foodstuffs. Determination of sulphite – Optimized Monier-Williams method" Published by the British Standards Institution on 15th June 1998 (ISBN 0 580 29239 8) (3) EN 1988-2:1998 "Foodstuffs. Determination of sulfite – Enzymatic method". (1) Where only certain products under any CN code are required to be examined, the CN code is marked 'ex'.

(2) The sampling and the analyses must be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(a) of Annex III to this Regulation.

(3) The sampling and the analyses must be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(b) of Annex III to this Regulation.

(4) The analytical report referred to in Article 10(3) of this Regulation must be issued by a laboratory accredited for the analysis of PCP in food and feed in accordance with BS EN ISO/IEC 17025:2017 "General requirements for the competence of testing and calibration laboratories" (published by the British Standards Institution on 30 June 2018 (ISBN 978 0 539 01414 3) and available from the British Standards Institution <https://knowledge.bsigroup.com>). The analytical report must indicate: (a) the results of sampling and analysis for the presence of PCP, performed by the competent authorities of the country of origin or of the country where the consignment is consigned from if that country is different from the country of origin; (b) the measurement uncertainty of the analytical result; (c) the limit of detection (LOD) of the analytical method; and (d) the limit of quantification (LOQ) of the analytical method. The extraction before analysis must be performed with an acidified solvent. The analysis must be carried out according to the modified version of the QuEChERS method as set out in the document "Analytical Quality Control and Method Validation Procedures for Pesticide Residues Analysis in Food and Feed" (SANTE 2017/11813) implemented on 1 January 2020 and available at https://www.eurl-pesticides.eu/userfiles/file/EurlALL/AqcGuidance_SANTE_2019_12682.pdf.

(5) Residues of at least those pesticides listed in the control programme adopted in accordance with Article 29(2) of Regulation (EC) No 396/2005 of the European Parliament and of the Council on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC that can be analysed with multi-residue methods based on GC-MS and LC-MS (pesticides to be monitored in/on products of plant origin only).

(6) Residues of Carbofuran.

(7) Residues of ethylene oxide (sum of ethylene oxide and 2-chloro-ethanol, expressed as ethylene oxide).

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/1793. (See end of Document for details)

- (8) Residues of dithiocarbamates (dithiocarbamates expressed as CS₂, including maneb, mancozeb, metiram, propineb, thiram and ziram) and metrafenone.
- (9) Residues of dithiocarbamates (dithiocarbamates expressed as CS₂, including maneb, mancozeb, metiram, propineb, thiram and ziram), Phenthoate and Quinalphos.]

ANNEX III

- (1) **Sampling procedures and analytical reference methods referred to in Article 3(e)**
1. **Sampling procedures and analytical reference methods for the control of presence of *Salmonella* in food**
- (a) In the case where Annexes I or II to this Regulation provide for the application of the sampling procedures and analytical reference methods laid down in point 1(a) of Annex III to this Regulation, the following rules shall apply:

Analytical reference method ^a	Weight of consignment	Number of sample units (n)	Sampling procedures	Analytical result required for each sample unit of the same consignment
EN ISO 6579-1	Less than 20 tonnes	5	n sample units are collected of a minimum	No detection of <i>Salmonella</i> in 25 g

a The most recent version of the analytical reference method shall be used or a method validated against it in accordance with the protocol set out in EN ISO 16140-2.

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/1793. (See end of Document for details)

Greater than or equal to 20 tonnes	10	of 100 g each. If batches are identified in the CHED, the sample units shall be collected from the different batches randomly chosen from the consignment. If batches cannot be identified, the sample units are collected randomly from the consignment. Pooling of sample units is not allowed. Each sample unit shall be tested separately.
------------------------------------	----	--

a The most recent version of the analytical reference method shall be used or a method validated against it in accordance with the protocol set out in EN ISO 16140-2.

(b) In the case where Annexes I or II to this Regulation provide for the application of the sampling procedures and analytical reference methods laid down in point 1(b) of Annex III to this Regulation, the following rules shall apply:

Analytical reference method ^a	Weight of consignment	Number of sample units (n)	Sampling procedures	Analytical result required for each sample unit of the same consignment
EN ISO 6579-1	Any weight	5	n sample units are collected of a minimum of 100 g each. If batches are identified in the CHED, the sample	No detection of <i>Salmonella</i> in 25 g

a The most recent version of the analytical reference method shall be used or a method validated against it in accordance with the protocol set out in EN ISO 16140-2.

Changes to legislation: There are currently no known outstanding effects for the
Commission Implementing Regulation (EU) 2019/1793. (See end of Document for details)

		<p>units shall be collected from the different batches randomly chosen from the consignment. If batches cannot be identified, the sample units are collected randomly from the consignment. Pooling of sample units is not allowed. Each sample unit shall be tested separately.</p>	
<p>a The most recent version of the analytical reference method shall be used or a method validated against it in accordance with the protocol set out in EN ISO 16140-2.</p>
