

## SCHEDULE

### ENVIRONMENTAL REQUIREMENTS

#### PART 2

##### Protected properties

1. Provided that the consent of the owner of a protected property is first given in writing, the Company shall, as soon as reasonably practicable at their expense, secure that the following works are carried out to each protected property by a contractor nominated by the Company and to the reasonable satisfaction of the owner of each protected property—

- (a) the installation of acoustic glazing in all windows facing the A77 trunk road; and
- (b) the installation of standard double glazing in all other windows.

2.—(1) Subject to subparagraph (2) below if the consent of any body or other third person is required for the installation in a protected property of any glazing mentioned in paragraph 1 above, the Company will at their expense apply for that consent at the request and on behalf of the owner of that protected property.

(2) If the consent referred to in subparagraph (1) above is given subject to a condition that a type of glazing other than that mentioned in paragraph 1 above and defined in paragraph 4 below is to be installed in the protected property in question, the Company shall, if the owner of that protected property so consents in writing, secure the installation of that type of glazing in that protected property and in all other respects the provisions of this Part shall apply to that installation.

3. Any dispute arising between the Company and the owner of a protected property as to whether the works referred to in paragraph 1 above have been carried out to the reasonable satisfaction of that owner shall be referred to and determined by an independent person acting as an expert and who is a specialist in relation to such matters; and that person shall be agreed by the Company or, failing such agreement, shall be appointed by the President or other duly authorised officer of the Institution of Civil Engineers on the application of either the Company or the owner of the protected property in question.

4. In this Part of this Schedule—

“acoustic glazing” means glazing which comprises—

- (a) two panes of glass which are respectively 10 millimetres and 6 millimetres thick and having a gap of 12 millimetres between each of those panes; or
- (b) two panes of glass one of which is 6 millimetres thick and the other being laminated glass which is 6.4 millimetres thick and having a gap of 12 millimetres between each of those panes; or
- (c) such other glazing as would have an equivalent noise attenuating effect.

“standard double glazing” means glazing which comprises two panes of glass which are both 4 millimetres thick and having a gap of 16 millimetres between each of those panes; and

“the protected properties” means the following properties situated within the village of Cairnryan and “protected property” means any one of the protected properties—
