EXPLANATORY NOTES

COMMENTARY ON SECTIONS

Part 1: Changes in total number of United Kingdom MEPs

Section 4: Section 3: meaning of "elector"

18. This section defines the electorate to be used by the Electoral Commission when calculating the new distribution and in making their recommendations. It is possible for the same person to be registered at more than one address for the same electoral region. There is however no reliable means of identifying from the registers themselves the few cases where this may have happened. Subsection (3) allows the Commission to assume that separate registrations relate to different people.
