2014 No. 3248

The Mines Regulations 2014

PART 3

CONTROL OF MAJOR HAZARDS

Explosives

Duties relating to explosives in mines with explosive atmospheres

29. In mines in which places have been classified as hazardous under regulation 7(1) of DSEAR, the mine operator must ensure that—

- (a) the only explosives that are used are suitable for use in such places; and
- (b) before a shot is charged or fired, suitable tests for the presence of flammable gases are carried out.
