ROAD TRAFFIC

The Traffic Signs Regulations and General Directions 2016

<i>Made</i>	- - - -	<i>16th March 2016</i>
<i>Laid before Parliament</i>		<i>22nd March 2016</i>
<i>Coming into force</i>	- -	<i>22nd April 2016</i>

The Secretary of State makes the Regulations in Part 1 of this Instrument in exercise of the powers conferred by—

- (a) sections 25, 28(4)(1) (in relation to England and Wales), 64(1)(2), (2), (3) and (5)(3) and 67(3) of the Road Traffic Regulation Act 1984(4) (“the 1984 Act”); and
- (b) section 36(5)(5) of the Road Traffic Act 1988(6) (“the 1988 Act”).

The Secretary of State gives the General Directions in Part 2 of this Instrument in exercise of the powers conferred by section 65(1)(7) and (1A)(8) and 85(2)(9) of the 1984 Act.

In accordance with article 4 of, and Schedule 3 to, the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc.) Order 1999(10), the Secretary of State has consulted with the Scottish Ministers.

In relation to the Regulations in Part 1 of this Instrument, the Secretary of State has, in accordance with section 134(2) of the 1984 Act and section 195(2) of the 1988 Act, consulted with such representative organisations as he thought fit.

-
- (1) Section 28 was amended by the Transport Act 2000 (c. 38), section 270(3). In relation to Scotland, the power to make regulations rests with Scottish Ministers, not the Secretary of State (see the Scotland Act 1998 (c.46) and in particular section 53 and the absence of a reservation in Schedule 5 (reserved matters), Section E1 (road transport) for section 28.)
 - (2) The power in section 64(1) for Ministers acting jointly to make regulations now rests with the Secretary of State (see article 2(1) of the Transfer of Functions (Road Traffic) Order 1999 (SI 1999/3143)); by section 64(2A) (inserted by the Scotland Act 2012 (c. 11), section 21) the power to make regulations under section 64(1) in relation to the Scottish national speed limit rests with Scottish Ministers, not the Secretary of State.
 - (3) Section 64(5) was amended by the Road Traffic (Consequential Provisions) Act 1988 (c. 42), Schedule 3, paragraph 25(3).
 - (4) 1984 c.27.
 - (5) The reference to “the Secretary of State for the Environment, Transport and the Regions” was substituted for “the Secretary of State for Transport” by the Secretary of State for the Environment, Transport and the Regions Order 1997 (SI 1997/2971). The power for the Secretary of State for the Environment, Transport and the Regions, the Secretary of State for Wales and the Secretary of State for Scotland to make regulations acting jointly now rests with the Secretary of State (see article 2(2) of the Transfer of Functions (Road Traffic) Order 1999 (SI 1999 3143)).
 - (6) 1988 c. 52.
 - (7) Section 65(1) was substituted by the New Roads and Street Works Act 1991 (c. 22), Schedule 8, Part 2, paragraph 48(2). The power in section 65(1) for Ministers acting jointly to give general directions now rests with the Secretary of State (see article 2(1) of the Transfer of Functions (Road Traffic) Order 1999 (SI 1999/3143)).
 - (8) Section 65(1A) was inserted by the Road Traffic Act 1991 (c. 40), section 48, Schedule 4, paragraph 29.
 - (9) Section 85(2) was amended by the New Roads and Street Works Act 1991 (c.22), Schedule 8, Part 2, paragraph 62(3) and the Infrastructure Act 2015 (c. 7), Schedule 1, Part 2, paragraph 89(2).
 - (10) S.I. 1999/1750, to which there are amendments that are not relevant.

PART 1

THE TRAFFIC SIGNS REGULATIONS 2016

Citation, commencement and extent

- 1.—(1) This Part of this Instrument—
- (a) may be cited—
 - (i) as the Traffic Signs Regulations 2016, and
 - (ii) together with Part 2, as the Traffic Signs Regulations and General Directions 2016; and
 - (b) comes into force on 22nd April 2016.
- (2) Subject to paragraph (3), these Regulations extend to the whole of Great Britain.
- (3) Provision about the school crossing patrol sign extends only to England and Wales⁽¹¹⁾.

Interpretation

- 2.—(1) In these Regulations—
- (a) “the 1984 Act” means the Road Traffic Regulation Act 1984⁽¹²⁾; and
 - (b) “the 1988 Act” means the Road Traffic Act 1988⁽¹³⁾.
- (2) Schedule 1 contains other definitions.

Prescription of signs

3.—(1) A traffic sign for conveying a warning, information, requirement, restriction or prohibition of a description specified in these Regulations is of a prescribed size, colour and type if it complies with all applicable requirements provided for in these Regulations.

(2) A school crossing patrol sign is a prescribed sign within the meaning of section 28(4) of the 1984 Act if it complies with all applicable requirements as to size, colour and type provided for in these Regulations.

(3) The Parts of a Schedule specified in column 2 of an item in the table contain provisions about signs of the class specified in column 3 of the item.

<i>(1)</i> <i>Item</i>	<i>(2)</i> <i>Schedule</i>	<i>(3)</i> <i>Purpose of nature of signs</i>
1	Schedule 2 Parts 1 to 7	Signs that warn of hazards and signs for bridges and other structures
2	Schedule 3 Parts 1 to 4	Upright signs that indicate regulatory requirements for moving traffic

⁽¹¹⁾ For provision about the school crossing patrol sign in Scotland, see the School Crossing Patrol Sign (Scotland) Regulations 2008 (S.S.I. 2008/4).

⁽¹²⁾ 1984 c. 27.

⁽¹³⁾ 1988 c. 52.

<i>(1)</i> <i>Item</i>	<i>(2)</i> <i>Schedule</i>	<i>(3)</i> <i>Purpose of nature of signs</i>
3	Schedule 4 Parts 1 to 5	Upright signs that control waiting, loading and parking along a road
4	Schedule 5 Parts 1 to 4	Signs that indicate parking places and areas subject to parking controls
5	Schedule 6 Parts 1 and 2	Upright signs for red routes
6	Schedule 7 Parts 1 to 6	Road markings and miscellaneous upright signs that indicate stopping, waiting, loading and parking controls
7	Schedule 8 Parts 1 to 4	Signs indicating the entrance to and the end of, a pedestrian, or pedestrian and cycle, zone, and signs for charging schemes
8	Schedule 9 Parts 1 to 8	Regulatory signs at junctions and miscellaneous regulatory signs
9	Schedule 10 Parts 1 to 3	Signs for speed limits
10	Schedule 11 Parts 1 to 6	Signs that give information, are advisory or guide traffic
11	Schedule 12 Parts 1 to 28	Directional signs
12	Schedule 13 Parts 1 to 11	Signs only for use in temporary situations
13	Schedule 14 Parts 1 to 5	Signs for traffic control by light signals, signs for crossings, and signs for lane control
14	Schedule 15 Parts 1 to 4	Matrix signs and light signals for the control of moving traffic on motorways and dual carriageway roads
15	Schedule 16 Parts 1 to 7	Variable message signs

(4) Where in these Regulations provision is made that to convey a warning, information, requirement, restriction or prohibition of a description specified, a sign must comply with certain requirements as to size, colour and type, that provision is without prejudice to different requirements elsewhere in the Regulations in relation to the same description.

Authorisations

4. Nothing in these Regulations limits a power of the Secretary of State, the Scottish Ministers or the Welsh Ministers to authorise a sign under section 28(4) or 64 of the 1984 Act⁽¹⁴⁾.

Letters, numerals and other characters

5.—(1) This regulation applies to the letters, numerals and other characters used on signs provided for in these Regulations (but not to the extent that more specific provision is made elsewhere in these Regulations for a particular sign).

(2) Paragraphs (3) to (12) apply to letters, numerals and other characters used on signs except those used on road markings and those used in Scottish Gaelic words or phrases.

(3) Paragraphs (4) to (10) are subject to the exception for variable message signs at paragraphs (11) and (12).

(4) On a background which is—

- (a) black;
- (b) blue;
- (c) brown;
- (d) dark green;
- (e) green; or
- (f) red,

letters, numerals and other characters must have the proportions and form, and be of the colour, shown in Part 1 of Schedule 17 (see paragraphs (6) to (8) for exceptions).

(5) On a background which is—

- (a) orange;
- (b) white; or
- (c) yellow,

letters, numerals and other characters must have the proportions and form, and be of the colour, shown in Part 2 of Schedule 17 (see paragraph (10) for an exception).

(6) Paragraphs (7) and (8) apply to the placing of a motorway route number or a compass point directly on the blue background shown at item 1 of the sign table at Part 2 of Schedule 12 (see paragraph (9) for an exception).

(7) Where brackets are not used, the letters, numerals and other characters must have the proportions and form, and be of the colour, shown in Part 3 of Schedule 17.

(8) Where brackets are used the letters, numerals and other characters must have the proportions and form, and be of the colour, shown in either Part 1 or Part 3 of Schedule 17.

(9) An exception to paragraphs (7) and (8) is that where the route number or compass point is part of a legend provided for at item 8 of the sign table in Part 3 of Schedule 12, letters, numerals and other characters must have the proportions and form, and be of the colour, shown in Part 1 of Schedule 17.

(10) When used for indicating a route number or compass point on a sign with a yellow background which is temporarily placed on a motorway, letters, numerals and other characters must have the proportions and form, and be of the colour, shown in Part 4 of Schedule 17.

⁽¹⁴⁾ For the transfer of functions applicable to authorisations in Scotland and Wales, see [S.I. 1999/1750](#) (in relation to Scotland) and [S.I. 1999/672](#) and the Government of Wales Act 2006 (c. 32) (in relation to Wales).

(11) Paragraph (12) applies to a variable message sign where the construction or method of operation of the sign does not permit the use of letters, numerals and other characters of the proportions and form shown in Part 1, 2, 3 or 4 of Schedule 17.

(12) Letters, numerals and other characters may have the proportions and form shown in Part 5 of Schedule 17 (and be of the colour provided for in Part 1, 2, 3 or 4 as applicable).

(13) Paragraph (14) applies to letters, numerals and other characters incorporated in road markings provided for in these Regulations.

(14) A letter, numeral or other character of a height referred to in column 1 of the table in this paragraph must have the proportions and form, and be of the colour, shown in the Part of Schedule 17 at the column 2 entry applicable to that height.

<i>Height of letters, numerals and other characters</i>	<i>Applicable Part in Schedule 17</i>
from 280 mm to 700 mm (inclusive)	Part 6
705 mm, 1035 mm, 1600 mm	Part 7
2800 mm	Part 8

(15) For the purposes of interpreting Part 7 of Schedule 17 where the road marking is 705 mm or 1035 mm, the reference in the diagram in Part 7 to “1600” is to be read as “705” or “1035” as appropriate and the spaces between the grid lines reduced proportionately.

(16) Letters, numerals and other characters used in Scottish Gaelic words or phrases—

- (a) when appearing on a brown or dark green background, must have the proportions and form, and be of the colour, shown in Part 9 of Schedule 17;
- (b) when appearing on a white background, must have the proportions and form, and be of the colour, shown in Part 10 of Schedule 17.

(17) In Schedule 17, in Parts 1 to 4, 9 and 10, the height of the rectangular backgrounds on which the letters, numerals and other characters are shown is eight stroke widths.

Expressions of time and distance and for parking restrictions

6.—(1) A reference in these Regulations to the inclusion on a sign of a “time period” means the inclusion of a period of time that complies with the requirements of Part 1 of Schedule 18.

(2) More than one period of time may be included in a sign if appropriate for conveying the meaning of the sign.

(3) A reference in these Regulations to the inclusion on a sign of a “permitted parking expression” means the inclusion of an expression that complies with the requirements of Part 2 of Schedule 18.

(4) An expression of distance on a sign must be in imperial units and comply with the requirements of Part 3 of Schedule 18.

(5) The provisions of this regulation do not apply where more specific provision in relation to a particular sign is made elsewhere in these Regulations.

Dimensions and design of signs

7.—(1) This regulation is about the measurements specified in the Schedules for dimensions of signs, and elements of signs, and about overall design of signs provided for in these Regulations.

(2) All measurements specified in a diagram in the Schedules are in millimetres (“mm”) unless stated otherwise or the context requires otherwise.

(3) If more than one measurement is specified for the same dimension, any of those measurements may be used for that dimension.

(4) If minimum and maximum measurements are specified for a dimension, the dimension used must not be less than the minimum or more than the maximum.

(5) Dimensions chosen for each element of a sign must correspond with one another so that the overall shape and proportions of the sign are, so far as reasonably practicable, as shown in the diagram, or as otherwise provided for, in the Schedules.

(6) The requirement at paragraph (5) does not apply to the signs provided for at—

- (a) items 5, 6, and 7 of the sign table in Part 4 of Schedule 7;
- (b) items 5, 12 and 13 of the sign table in Part 6 of Schedule 9;
- (c) items 23, 25, 27 and 36 of the sign table in Part 4 of Schedule 11; and
- (d) items 32, 33, 34, 48, 49, 50, 52, 53, 55, 56 and 57 of the sign table in Part 2 of Schedule 14.

(7) Any dimension given in millimetres in respect of a sign, other than a road marking, is to be treated as permitted if it is varied, to be either greater or less than the dimension given, by up to 5 mm.

(8) Paragraph (7) does not permit a dimension to be less than a specified minimum nor more than a specified maximum, except where the dimension relates to the height of letters, numerals or other characters.

(9) Any dimension (not being specified as a maximum or minimum) given for a road marking is to be treated as permitted if it is varied in accordance with the following table.

<i>(1)</i> <i>Item</i>	<i>(2)</i> <i>Dimensions shown in road marking diagram</i>	<i>(3)</i> <i>Permitted variations</i>
1	3 metres or more	(i) Up to 15% of the dimension where the varied dimension is greater than the specified dimension; or (ii) Up to 10% of the dimension where the varied dimension is less than the specified dimension
2	300 mm or more, but less than 3 metres	(i) Up to 20% of the dimension where the varied dimension is greater than the specified dimension; or (ii) Up to 10% of the dimension where the varied dimension is less than the specified dimension
3	Less than 300 mm	(i) Up to 30% of the dimension where the varied dimension is greater than the specified dimension; or (ii) Up to 10% of the dimension where the varied dimension is less than the specified dimension

(10) Where a dimension denoting the length or width of a road marking is varied in accordance with paragraph (9), and there is a space between two parts of the marking, the dimensions of that space may be varied as required to accommodate the variation of the length or width of the marking, provided that the character of the marking is maintained.

(11) Where the dimensions of a signal which displays an arrow or symbol are varied in accordance with paragraph (7), the dimensions chosen for the arrow or symbol must maintain the shape and proportions shown in the diagram in which the signal is shown.

(12) Any variation of any angle is to be treated as permitted if the variation does not exceed 5 degrees.

(13) Paragraph (12) does not permit an angle which is less than the minimum, or greater than the maximum, given.

(14) Where—

- (a) overall dimensions are given for a sign (other than a road marking); and
- (b) the sign displays a legend or symbol which is varied or added in accordance with these Regulations,
the overall dimensions, the number of lines filled by the legend, or both, may be varied so far as necessary to give effect to the variation or addition.

(15) Where these Regulations provide for a sign to be made up of a number of elements (including legends) but do not indicate where those elements are to be placed on the sign, regard is to be had, when deciding where to place those elements, to the purpose of the sign, in particular the nature of the message to be conveyed.

Illumination of upright signs and associated plates

8.—(1) Paragraph (2) applies to an upright sign unless elsewhere in these Regulations in relation to a particular sign—

- (a) requirements are imposed as to the illumination of the sign; or
- (b) provision is made that the sign need not be illuminated.

(2) The upright sign must be—

- (a) illuminated throughout the hours of darkness by internal or external lighting; or
- (b) reflectorised.

(3) If provision is made elsewhere in these Regulations that an upright sign need not be illuminated, it may be illuminated in accordance with paragraph (5).

(4) Paragraph (5) also applies to an upright sign which must at certain times be illuminated under these Regulations during those times when it is not required to be illuminated.

(5) The upright sign may be—

- (a) illuminated by internal or external lighting; or
- (b) reflectorised.

(6) Where these Regulations provide for a choice of methods of illumination for an upright sign (including where at least one method must be used), more than one of those methods may be used.

(7) The same method used to illuminate an upright sign must be used to illuminate an associated plate (and where more than one method is used, all those methods must be used).

(8) The same source of lighting used to illuminate an upright sign may be used to illuminate an associated plate provided it is adequate to do so.

(9) If an upright sign is not illuminated, any associated plate must not be illuminated.

(10) Where retroreflecting material is used on any part of an upright sign or plate, all other parts, other than any parts coloured black, must also be reflectorised.

(11) In paragraph (10) “part” means any part which is uniformly coloured and bounded by differently coloured parts.

Illumination – road markings

9.—(1) A road marking may be reflectorised.

(2) Paragraph (1) is subject to provision made elsewhere in these Regulations in relation to particular types of marking.

Height of road markings and size of studs fitted with reflectors, retroreflecting material or a light source

10.—(1) No road marking may project above the surface of the adjacent carriageway more than 6 mm at any point except where a provision to that effect is made elsewhere in these Regulations.

(2) A depressible stud must not project more than 25 mm above the surface of the carriageway.

(3) A non-depressible stud must not project more than 20 mm above the surface of the carriageway.

(4) Paragraph (5) applies to a stud which, in accordance with these Regulations, is fitted with reflectors, retroreflecting material, a light source or a combination.

(5) The part of a stud which is visible when the stud is in place must have—

(a) an overall length in the direction of travel of traffic of not less than 35 mm and not more than 250 mm; and

(b) an overall width of not less than 84 mm and not more than 190 mm.

Diagram Colours

11.—(1) The colours prescribed for signs must conform to British Standard BS EN 12899-1:2007(15).

(2) Paragraph (1) does not apply—

(a) if alternative provision is made elsewhere in these Regulations in relation to a sign; or

(b) to the extent it is provided that part of a sign may be of any, or any contrasting, colour.

Mutual recognition of standards

12. Any requirement in these Regulations to comply with a specified British Standard is satisfied by compliance with—

(a) a standard or code of practice of a national standards body or equivalent body of any EEA State,

(b) any international standard recognised for use as a standard or code of practice by any EEA State, or

(c) a technical specification recognised for use as a standard by a public authority of any EEA State,

which requires a level of performance equivalent to that required by the specified British Standard.

Revocations

13. The Regulations specified in the table in Part 1 of Schedule 19 are revoked.

Transitional and savings provisions

14.—(1) Paragraph (2) applies to a sign—

(a) where the sign is in place immediately before the coming into force of these Regulations; or

- (b) where the sign is referred to in paragraph (4) and is placed within a period of 12 weeks beginning with the day on which these Regulations come into force.
- (2) A sign to which this paragraph applies and which is of a size, colour and type prescribed, or treated as prescribed, by the Traffic Signs Regulations 2002(16) (“the 2002 Regulations”) is to be treated as being of a size, colour and type prescribed by these Regulations.
- (3) A sign shown by diagram 2919.1 is not to be treated as being of a size, colour and type prescribed by these Regulations on or after 30th January 2022(17).
- (4) The signs referred to in paragraph (1)(b) are those shown by, or including as an element—
- (a) diagram 515.2, 530, 532.2, 532.3, 574, 618.2, 618.3, 618.3A, 618.4, 629, 629.1, 629.2, 780A, 780.1A, 780.2A, 826, 826.1, 864.1 or 953.2;
 - (b) where the arrow symbols are of the maximum dimension permitted by the 2002 Regulations, diagram 868, 868.1, 872.1, 873, 874 or 875; and
 - (c) where the lower case letters are of the maximum height permitted by the 2002 Regulations, diagram 876,
- or any of those diagrams varied in accordance with the 2002 Regulations.
- (5) The Zebra, Pelican and Puffin Pedestrian Crossings Regulations 1997(18) (“the 1997 Regulations”) are to be treated as remaining in force in relation to Pelican crossings (within the meaning of those Regulations) established—
- (a) before the coming into force of these Regulations; or
 - (b) within a period of six months beginning with the day on which these Regulations come into force.
- (6) In their application to Pelican crossings for the purposes of paragraph (5), the 1997 Regulations are modified in accordance with paragraphs (7) and (8).
- (7) The exceptions to the prohibition imposed by regulation 12(1)(c) and (d) of the 1997 Regulations (about proceeding beyond a stop line when a steady amber or red signal is showing) are those at paragraph 5(4) to (6) of Part 1 of Schedule 14 to this Instrument and not those at regulation 12(1)(e) to (ec) of the 1997 Regulations (with the reference in paragraph 5(4) to the prohibition in sub-paragraph (3) treated as being instead a reference to the prohibition in paragraph (c) or (d) in regulation 12(1)).
- (8) The exceptions to the prohibition imposed by regulation 20 of the 1997 Regulations (about stopping in a controlled area) in regulation 21(c) to (e) of those Regulations do not apply and instead the exceptions set out in paragraph 4(2)(d) of Part 5 of Schedule 14 to this Instrument apply.
- (9) In this regulation, a reference to a diagram number is to that diagram number in the 2002 Regulations(19).

Provision for review of these Regulations

- 15.**—(1) The Secretary of State must from time to time—
- (a) carry out a review of these Regulations;
 - (b) set out the conclusions of the review in a report; and
 - (c) publish the report.

(16) S.I. 2002/3113, amended by S.I. 2005/1670, S.I. 2006/2083, S.I. 2008/2177, S.I. 2011/1040 and S.I. 2011/3041.

(17) Diagram 2919.1 shows the distance ahead to a service station and information about that service station. A similar diagram (2919.2) was substituted for 2919.1 by S.I. 2011/3041 (which came into force on 30th January 2012) but that S.I. included a ten year saving for signs already placed.

(18) Part 1 of S.I. 1997/2400, amended by S.I. 1998/901, 2003/2155, 2004/3168, 2005/2929, 2011/935, by S.S.I. 2006/129, 2013/119 and by the Crime and Courts Act 2013 (c. 22) section 15(3), Schedule 8, Part 4, paragraph 190.

(19) Part 1 of S.I. 2002/3113, amended by S.I. 2003/393, 2005/1670, 2006/2083, 2008/2177, 2011/1040, 2011/3041.

- (2) The report must in particular—
- (a) set out the objectives intended to be achieved by the regulatory system established by these Regulations;
 - (b) assess the extent to which those objectives are achieved; and
 - (c) assess whether those objectives remain appropriate and, if so, the extent to which they could be achieved with a system that imposes less regulation.
- (3) The first report under this regulation must be published before the end of the period of five years beginning with the day on which these Regulations come into force.
- (4) Reports under this regulation are afterwards to be published at intervals not exceeding five years.

PART 2

THE TRAFFIC SIGNS GENERAL DIRECTIONS 2016

Citation, commencement and extent

- 1.—(1) This Part of this Instrument—
- (a) may be cited—
 - (i) as the Traffic Signs General Directions 2016; and
 - (ii) together with Part 1, as the Traffic Signs Regulations and General Directions 2016; and
 - (b) comes into force on 22nd April 2016.
- (2) These General Directions extend to the whole of Great Britain.

Interpretation

- 2.—(1) In these General Directions, “the Regulations” means the Traffic Signs Regulations 2016.
- (2) Other words and expressions used in these General Directions, which are also used in the Regulations, have the same meaning as in the Regulations.

Application of general directions

3. The general directions in the final Part of each of Schedules 2 to 15 apply to the signs provided for in that Schedule to the extent indicated in the Schedule.

General provision about upright signs and associated plates and structure warning markings

- 4.—(1) A plate or structure warning marking may only be placed in conjunction with an upright sign with which it is associated.
- (2) An upright sign which has an associated plate or structure warning marking may be placed with or without that associated plate or structure warning marking.

(3) Paragraph (2) does not apply in relation to a particular sign to the extent provision is made elsewhere in these General Directions about the placing of the sign with an associated plate or structure warning marking which contradicts paragraph (2).

General provision about placing of signs on vehicles

5. A sign must not be placed on a vehicle except as expressly authorised by these General Directions.

General provision about the removal of temporary signs

6.—(1) Paragraph (2) applies to a sign placed for conveying to traffic a warning, information, requirement, restriction or prohibition of a temporary nature.

(2) The sign must not remain in place for longer than it is needed.

(3) Paragraph (2) does not apply in relation to a particular sign to the extent provision is made elsewhere in these General Directions about the removal of that sign.

Studs that provide illumination

7.—(1) A stud provided for in the Regulations that incorporates reflectors, retroreflecting material, a light source or any combination may only be placed if it complies with this general direction.

(2) If it incorporates reflectors or retroreflecting material, but no light source, a stud complies with this general direction if it is of a type which meets the applicable requirements and test specifications of the British Standard for retroreflecting studs.

(3) The applicable requirements and test specifications of the British Standard for retroreflecting studs for a type of stud of a description in column 2 of an item in the table are those shown in column 3.

<i>(1)</i>	<i>(2)</i>	<i>(3)</i>
<i>Item</i>	<i>Description of stud</i>	<i>British Standard requirement or test specification and class</i>
1	Non depressible road stud	Dimensions : height-class H1 or H2
2	Depressible road stud	Dimensions : height-class H1, H2 or H3
3	Permanent road stud	Dimensions : maximum horizontal dimension exposed to traffic: HD1
4	Temporary road stud	Dimensions : minimum horizontal dimension exposed to traffic: HDT1
5	Permanent road stud	Night-time visibility : photometric requirements - class PRP1
6	Temporary road stud	Night-time visibility : photometric requirements - class PRT1
7	Temporary road stud	Daytime visibility : colour of body of stud — class DCR1 fluorescent green-yellow — class DV1 —
8	Any stud	Colorimetric requirements-class NCR1 for white, amber, red or green retroreflectors only

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>(1)</i> <i>Item</i>	<i>(2)</i> <i>Description of stud</i>	<i>(3)</i> <i>British Standard requirement or test specification and class</i>
9	Any stud	Primary assessment-class S1
10	Any stud	Night-time visibility assessment-class R1, R2 or R3

(4) The appropriate national authority may approve the placing of a type of stud on a road for the purpose of testing whether that type complies with the applicable requirements and test specifications of the British Standard for retroreflecting studs mentioned in paragraph (3).

(5) A stud which incorporates a light source (whether or not it also incorporates reflectors or retroreflecting material) complies with this general direction if it is of a type which has been approved for use on roads by the appropriate national authority.

(6) Approval under paragraph (4) or (5) must be given by a notice in writing to the supplier of the stud.

(7) The notice may provide that approval is for a specified time period only.

(8) A time period may be varied by a subsequent notice and a subsequent notice may provide for a time period where one has not previously been given.

(9) All studs ceasing to be of an approved type by reason of the expiry of a time period must be removed before the expiry of that period.

(10) In this general direction “national authority”—

- (a) in relation to roads in England and Wales, means the Secretary of State; and
- (b) in relation to roads in Scotland, means the Scottish Ministers.

(11) An approval having effect immediately before the coming into force of these Regulations that applies in relation to roads in Scotland is to be treated as having been given by the Scottish Ministers in relation to those roads.

Mounting of upright signs

8.—(1) Where an upright sign is mounted on a post or other support specially provided for the purpose, the part of the post or support above the ground must be—

- (a) a single colour; or
- (b) the natural colour of the post or support,

but paragraphs (2), (3) and (5) provide for exceptions.

(2) Where the post or support is not likely to be readily visible to pedestrians, cyclists or equestrians, a yellow or white band not less than 140 mm nor more than 160 mm deep may be provided on the post with the lower edge of the band being not less than 1500 mm nor more than 1700 mm above ground level.

(3) Where the support provided for a portable upright sign comprises several components, the components need not all be of the same colour provided that each is of a single colour or the natural colour of the component.

(4) Paragraphs (1) to (3) do not apply to the mounting of a particular upright sign to the extent provision is made elsewhere in these General Directions about the post or other support for that sign.

(5) An identification code for maintenance purposes may be indicated, in characters not exceeding 25 mm in height, on a post or support on which an upright sign is mounted.

The backs of, and backing boards for, upright signs

- 9.—(1) Paragraph (2) applies to—
- (a) the back of an upright sign;
 - (b) the back of any backing board; and
 - (c) any other fitting provided for the assembly of a sign (including any container enclosing apparatus for the illumination of a sign).
- (2) The back or other fitting must be grey, black or in a non-reflective metallic finish.
- (3) Paragraphs (4) and (5) are exceptions to paragraph (2).
- (4) Information about sites for placing, and the ownership of, the sign, and an identification code for maintenance purposes, may be indicated on the back of the sign in characters not exceeding—
- (a) 25 mm in height, where they are shown in a contrasting colour; or
 - (b) 50 mm in height, where they are embossed in the same colour.
- (5) Information about the manufacture of the sign required in order to comply with—
- (a) British Standard BS EN 12899-1:2007(20); or
 - (b) a corresponding EEA Standard,
- occupying an area not exceeding 30 square centimetres, may be indicated on the back of the sign in characters not exceeding 5 mm in height.
- (6) The front of any backing board for an upright sign must be coloured either grey or yellow.
- (7) If the front of the backing board is coloured yellow it may be—
- (a) reflectorised;
 - (b) fluorescent; or
 - (c) both reflectorised and fluorescent.
- (8) Where the front of the backing board is coloured yellow, the board must be rectangular in shape.
- (9) This general direction does not apply to the extent provision is made elsewhere in these General Directions about the backs of, and backing boards for, particular upright signs.

Mutual recognition of standards

10. Any requirement in these General Directions to comply with a specified British Standard is satisfied by compliance with—
- (a) a standard or code of practice of a national standards body or equivalent body of any EEA State,
 - (b) any international standard recognised for use as a standard or code of practice by any EEA State, or
 - (c) a technical specification recognised for use as a standard by a public authority of any EEA State,

which requires a level of performance equivalent to that required by the British Standard specified.

Special directions

11. Nothing in these General Directions limits the power of the Secretary of State, the Scottish Ministers or the Welsh Ministers, by special direction under section 65(2) of the 1984 Act⁽²¹⁾, to dispense with, add to or modify any of the requirements of these General Directions in their application to any particular case.

Revocations

12. The General Directions specified in the table in Part 2 of Schedule 19 are revoked.

Saving

13.—(1) This general direction applies to a sign that is in place immediately before the coming into force of these General Directions which does not, but for this general direction, comply with these General Directions.

(2) For so long as the way in which it is placed would have conformed with the Pelican and Puffin Pedestrian Crossings General Directions 1997⁽²²⁾ or the Traffic Signs General Directions 2002⁽²³⁾, it is to be treated as having been placed in conformity with these General Directions.

Provision for review of these General Directions

14.—(1) The Secretary of State must from time to time—

- (a) carry out a review of these General Directions;
- (b) set out the conclusions of the review in a report; and
- (c) publish the report.

(2) The report must in particular—

- (a) set out the objectives intended to be achieved by the regulatory system established by these General Directions;
- (b) assess the extent to which those objectives are achieved; and
- (c) assess whether those objectives remain appropriate and, if so, the extent to which they could be achieved with a system that imposes less regulation.

(3) The first report under this regulation must be published before the end of the period of five years beginning with the day on which these General Directions come into force.

(4) Reports under this general direction are afterwards to be published at intervals not exceeding five years.

(21) For the transfer of functions applicable to special directions in Scotland and Wales, see S.I. 1999/1750 (in relation to Scotland) and S.I. 1999/672 and the Government of Wales Act 2006 (c. 32) (in relation to Wales).

(22) Part 2 of S.I. 1997/2400, amended by S.I. 1998/901.

(23) Part 2 of S.I. 2002/3113 amended by S.I. 2003/393, S.I. 2004/1275, S.I. 2008/2177, S.I. 2011/1040 and S.I. 2011/3041.

Signed by authority of the Secretary of State

16th March 2016

Andrew Jones
Parliamentary Under Secretary of State
Department for Transport

SCHEDULE 2

Regulation 3, Direction 3

Signs that warn of hazards and signs for bridges and other structures

PART 1

Provisions applying to signs and plates in Parts 2 and 3

1. A warning of a description in column 2 of an item in the sign table in Part 2 must be conveyed by a triangular sign which is of—

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) the colour and type provided for in the diagram in column 3; and
 - (b) the size shown for a sign in the diagram above the table.
2. A warning or information in column 4 of an item in the sign table in Part 2 is for supplementing the warning in column 2 and is to be conveyed by a plate (“a first associated plate”) which—
- (a) includes the legend indicated in column 4 in a manner which complies with the requirements as to size provided for in respect of a plate in the diagram above the sign table in Part 2; and
 - (b) is of the colour and type provided for in that diagram.
3. Where a number is mentioned in column 5 of the sign table in Part 2, the plate provided for at that item number in the sign table in Part 3 (a “supplementary associated plate”) is an associated plate of the triangular sign in question.
4. A provision of Part 7 mentioned (by reference to paragraph number) in column 6 of the sign table in Part 2 applies in relation to the triangular sign in question.
5. A Schedule 2 General Direction mentioned (by reference to paragraph number) in column 7 of the sign table in Part 2 applies in relation to the triangular sign in question.

PART 4

Traffic signs for bridges and other structures

1. A warning, information or prohibition of a description in column 2 of an item in the sign table in this Part must be conveyed by a sign that is—

- (a) of the colour and type; and
- (b) complies with the requirements as to size,

provided for in the diagram in column 3 of the item.

2. In the case of the description at item 3, the warning is to be conveyed by both the triangular signs shown in the diagram in combination, and paragraph 1 applies to each of those signs.

3. A number in column 4 of the sign table in this Part indicates that the plate or structure warning marking provided for at that item number in the sign table in Part 5 is an associated plate or marking of the sign provided for in the sign table in this Part at the item number at which the relevant column 4 entry appears.

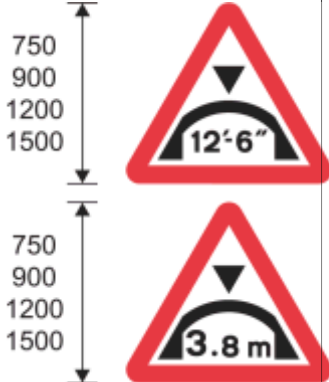

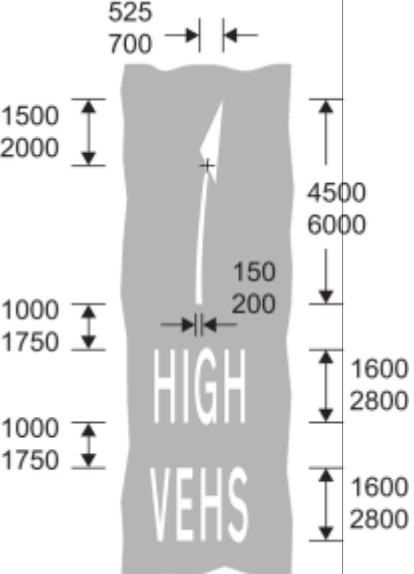

4. A provision of Part 7 mentioned (by reference to paragraph number) in column 5 of the sign table in this Part applies to the sign provided for at the item number in question.

5. A Schedule 2 General Direction mentioned (by reference to paragraph number) in column 6 of the sign table in this Part applies to the upright sign provided for at the item number in question.

PART 6

Other warning signs

1. A warning of a description in column 2 of the sign table in this Part must be conveyed by a sign that is—

- (a) of the colour and type; and
- (b) complies with the requirements as to size,

provided for in the diagram in column 3 of the sign table at the item number for that description, or that diagram as varied in accordance with column 4.

2. In the case of the description at item 1, the warning is to be conveyed by the triangular sign shown in the diagram and, depending on the warning to be conveyed, both associated plates shown in the diagram, or only the upper one, and paragraph 1 applies to each of those signs.

3. A provision of Part 7 mentioned (by reference to paragraph number) in column 5 applies to the sign, or combination, at the item number in question.

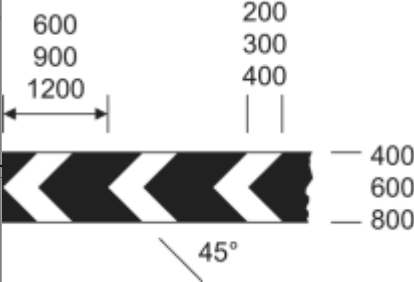

4. A Schedule 2 General Direction mentioned (by reference to paragraph number) in column 6 applies to the sign at the item number in question.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

PART 7

Provisions applicable to signs

1. Section 36 of the 1988 Act applies to the sign.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

2. The sign is specified for the purposes of column 5 of the entry in Schedule 2 to the Road Traffic Offenders Act 1988(77) relating to offences under section 36 of the 1988 Act.

3. If the sign is displayed on a variable message sign and displays its aspects by means of light-emitting characters or symbols, the legend “SLOW DOWN” may be displayed beneath the sign (and any associated plates) in characters having a height of not less than one quarter of the height of the displayed sign.

4. The sign must be illuminated by means of retroreflecting material.

5. The safe height shown on the first associated plate must be between 1 foot 3 inches and 2 feet (380 mm to 600 mm) less than the height of the lowest part of the overhead wire, of which the sign gives warning, over the highest part of the surface of the carriageway beneath that wire.

6.—(1) Subject to sub paragraph (2), where the sign is placed on a road within 50 metres of any lamp which forms part of a system of street-lighting, the illumination requirements for the sign are—

(a) where that system of street-lighting is illuminated throughout the hours of darkness, the sign must be illuminated by internal or external lighting for so long as that system is illuminated and may also be reflectorised; or

(b) where that system of street-lighting is not illuminated throughout the hours of darkness—

(i) the sign must be illuminated by internal or external lighting for so long as that system is illuminated and must also be reflectorised; or

(ii) the sign must be illuminated throughout the hours of darkness by internal or external lighting and may also be reflectorised.

(2) Sub-paragraph (1) does not apply to a sign where the road is subject to a speed limit of 20 mph.

(3) The exception in sub-paragraph (2) does not apply to a sign provided for at item 2 or 5 of the Part 4 sign table mounted on a bridge or other structure and, consequently, sub-paragraph (1) applies to such a sign.

7. The structure warning marking may be left unlit, or be illuminated either by means of internal or external lighting or by means of retroreflecting material.

8. Paragraph 6 applies to that part of the sign, if any, which is the white arrow on a blue circular background.

9. Where those parts of the sign coloured yellow, if any, are retroreflective, they may also be fluorescent.

10. The sign must not be illuminated.

11. The road marking must be reflectorised.

12. The sign may have different numerals to those shown in the diagram.

13. The arrow in the road marking may indicate a path to the left instead of to the right.

PART 8

The Schedule 2 General Directions

1. The triangular sign must not be placed unless placed with a plate showing the applicable first plate legend indicated in column 4 of the sign table in Part 2 at the item number in question.

2. The sign may be fitted to the rear of a road maintenance vehicle.

(77) 1988 c.53.

3. The two triangular signs must be placed together (with or without an associated plate).
4. The triangular sign must be placed with its upper associated plate (whether or not the lower plate is also included).
- 5.—(1) The sign (“an edge of carriageway sign”) must be placed so that the top of the sign is not less than 550 mm nor more than 1000 mm above the surface of the adjacent carriageway.
(2) Where an edge of carriageway sign is mounted on a post specifically provided for the purpose that part of the post which extends above ground level may be—
 - (a) of any single colour; or
 - (b) coloured black and white in alternate horizontal bands, each band being not less than 225 mm or more than 350 mm deep.
- (3) An edge of carriageway sign must be erected to display—
 - (a) the colour red on the left hand edge of the carriageway as viewed by the drivers of approaching vehicles; and
 - (b) the colour white on the right hand edge of the carriageway when so viewed, unless the edge is the edge of the carriageway of a dual carriageway road or a one-way road when the colour amber must be displayed.

SCHEDULE 3

Regulation 3, Direction 3

Upright signs that indicate regulatory requirements for moving traffic

PART 1

Provisions applicable to Parts 2, 3 and 4

1. The requirement, restriction or prohibition of a description in column 2 of the sign table in Part 2 must be conveyed by a circular sign of—
 - (a) the colour and type provided for a sign in the diagram in column 3; and
 - (b) the size provided for in column 4 of the table.
2. In the case of the description at item 25, the prohibition is to be conveyed by both the circular signs shown in the diagram in combination, and paragraph 1 applies to each of those signs.
3. A warning, information, requirement, restriction or prohibition of a description mentioned in Part 3 must be conveyed by a plate (a “Part 3 plate”) which—
 - (a) has the legend for conveying that warning or information written in a manner which complies with the requirements as to size for a plate provided for in the diagram above the sign table in Part 2; and
 - (b) complies with the requirements as to colour and type in that diagram.
4. A Part 3 plate containing a legend referred to in column 5 (by reference to a paragraph number in Part 3) of the sign table in Part 2 is an associated plate of the circular sign provided for in the Part 2 sign table at the item number at which the relevant column 5 entry appears.
5. A provision of Part 4 mentioned (by reference to paragraph number) in column 6 of the sign table in Part 2 applies to the circular sign at the item number in question.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

6. A Schedule 3 General Direction mentioned (by reference to paragraph number) in column 7 of the sign table in Part 2 applies to the circular sign at the item number in question.

PART 3

Legends for plates associated with circular signs

1. “One way”.
2. “Dual carriageway”.
- 3.—(1) Subject to sub-paragraphs (2), (3) and (4), “Except” and any of, or a combination of, the following:
 - (a) “buses”;
 - (b) “local buses”;
 - (c) “taxis”;
 - (d) “cycles”;
 - (e) “authorised vehicles”;
 - (2) “buses” and “local buses” must not be used together.
 - (3) “and” or “&” must be inserted before the last legend where more than one is used.
 - (4) “Except” must be varied to “except” when preceded by the legend described in paragraph 8.
4. “For” and a distance.
5. “End”.
6. “Ice” or “Snowdrifts”.
7. “Ice for” or “Snowdrifts for”, and a distance.
8. A time period.
9. “Give way to oncoming vehicles”.
10. “Give way to oncoming vehicles for” and a distance.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

11. “Except” and “trams”, “buses”, “local buses”, “cycles”, “buses and cycles” or “local buses and cycles”; “and” may be varied to “&”.
12. “Play Street except for access”.
13. “Play Street” and a time period and “except for access”.
14. “No vehicles”.
- 15.—(1) Subject to sub-paragraphs (2) and (3), “Except” and any of, or a combination of, the following—
 - (a) “buses” or “local buses”;
 - (b) “taxis”;
 - (c) the disabled badge holder symbol;
 - (d) “permit holder” or “permit holders”, and, where appropriate, a permit identifier;
 - (e) one of—
 - (i) “for access”;
 - (ii) “for loading”;
 - (iii) “for loading by” and the lorry symbol shown in the diagram at item 1 of the table in Part 2 of Schedule 8;
 - (iv) “for access to off-street premises”.
- (2) “and” or “&” must be inserted before the last legend where more than one is used.
- (3) “Except” must be varied to “except” when preceded by the legend described in paragraph 8 or 12.
16. “No explosives” or “No inflammables or explosives”.
17. “and authorised vehicles”.

PART 4

Provisions applicable to signs in Part 2

1. Section 36 of the 1988 Act applies to the circular sign.
2. Where the sign is placed temporarily on a road by a constable or person acting under the instructions (whether general or specific) of the chief officer of police for the purposes of indicating a temporary statutory provision, the following modifications to the requirements apply—
 - (a) the diameter of the circular sign must be at least 200 mm; and
 - (b) the x-height of the lettering on a plate where the legend is either “One way” or “End”, if used, must be at least 20 mm.
- 3.—(1) Except as provided in sub-paragraphs (2) to (5), the requirement conveyed by the sign is that vehicular traffic passing the sign must keep to the left of the sign where the arrow is pointed downwards to the left, or to the right of the sign where the arrow is pointed downwards to the right.
 - (2) Sub-paragraph (3) applies on an occasion where a vehicle is being used for at least one of the purposes set out in sub-paragraph (4) and the observance of the requirement in sub-paragraph (1) would be likely to hinder the use of the vehicle for that purpose.
 - (3) The requirement conveyed is that the vehicle must not proceed beyond the sign in such a manner or at such a time as to be likely to endanger any person.

- (4) The purposes are—
- (a) fire and rescue authority;
 - (b) Scottish Fire and Rescue Service;
 - (c) ambulance;
 - (d) blood service;
 - (e) providing a response to an emergency at the request of an NHS ambulance service;
 - (f) bomb or explosive disposal;
 - (g) special forces
 - (h) police; and
 - (i) National Crime Agency.
- (5) The requirement in sub-paragraph (1) does not apply to a tramcar or trolley vehicle.

4.—(1) Subject to sub-paragraphs (2) to (5), where the sign is placed on a road subject to a speed limit greater than 20 mph, and is within 50 metres of any lamp which forms part of a system of street-lighting, the illumination requirements for the sign are—

- (a) where that system of street-lighting is illuminated throughout the hours of darkness, the sign must be illuminated by internal or external lighting for so long as that system is illuminated and may also be reflectorised; or
- (b) where that system of street-lighting is not illuminated throughout the hours of darkness—
 - (i) the sign must be illuminated by internal or external lighting for so long as that system is illuminated and must also be reflectorised; or
 - (ii) the sign must be illuminated throughout the hours of darkness by internal or external lighting and may also be reflectorised.

(2) Sub-paragraph (1) only applies to the sign at item 4 of the Part 2 sign table when being used as a terminal sign.

(3) Sub-paragraph (1) does not apply to a sign mounted on a self-righting bollard.

(4) Sub-paragraph (1) does not apply to a sign placed temporarily to indicate road works or an obstruction.

(5) Where the sign is mounted on a bollard fitted with a means of internal lighting, the sign must be illuminated throughout the hours of darkness by that means.

- 5. The sign need not be illuminated.
- 6. The sign may have different numerals to those shown in the diagram.
- 7. The word “taxi” may be omitted.
- 8. The cycle symbol may be omitted.

PART 5

The Schedule 3 General Directions

1.—(1) The sign must only be placed to indicate the effect of an Act, order, regulation, bylaw, resolution or notice which prohibits or restricts the use of the road by traffic.

(2) When the sign is placed to indicate the point at which a restriction, requirement or prohibition begins or ends, it must be placed as near as practicable to that point.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (3) Sub-paragraphs (1) and (2) do not apply to—
- (a) a sign provided for at item 1 of the Part 2 sign table, when placed on the central island of a roundabout or in combination with a plate displaying the legend “Dual carriageway”; and
 - (b) a sign provided for at item 2 of the Part 2 sign table (either without an associated plate or with a plate with the legend “Dual carriageway”), when placed on a road approaching its junction with a dual carriageway road.
2. Where the sign is mounted on a bollard—
- (a) the bollard must—
 - (i) be illuminated by means of internal lighting; and
 - (ii) conform to British Standard BS EN 12899-2:2007(78); or
 - (b) in the case of a self-righting bollard, the bollard—
 - (i) must be illuminated by the use of retroreflecting material; and
 - (ii) conform to British Standard BS 8442:2015(79).
3. The sign must not be placed unless accompanied by its associated plate.
4. The two signs provided for must be placed together.

SCHEDULE 4

Regulation 3, Direction 3

Upright signs that control waiting, loading and parking along a road

PART 1

Blank panel diagram

PART 2

On-street parking control signs

Yellow panel signs

- 1.—(1) A restriction or prohibition of a description in column 2 of the sign table in Part 3 must be conveyed by a sign which complies with paragraphs 2 to 7.
2. The sign must have a yellow background and black border as shown in blank diagram 1 in Part 1.

(78) Publication date 30th April 2008 (ISBN 9780580880520); corrigendum September 2014.

(79) Publication date 30th November 2015 (ISBN 9780580773167).

3.—(1) The sign must include a symbol of the size, colour and type shown in column 3 of the Part 3 sign table for the description in question.

(2) In the case of item 3, the sign must have the circular symbol shown in column 3 together with—

- (a) the lorry symbol shown;
- (b) the bus symbol shown; or
- (c) both,

and each symbol included must be of the size, colour and type provided for in column 3 of item 3.

(3) The numeral forming part of the lorry symbol shown in the diagram may be varied to another numeral.

4. A sign provided for in the Part 3 sign table must include the legend or legends provided for in column 4 for the description in question.

5. A legend may be varied in accordance with an entry in column 5 (if any).

6. The legend must be of a height provided for in column 6 (by reference to x-height).

7. A sign must include an arrow pointing to the left or to the right where indicating the beginning of, or a change in, a restriction or prohibition.

White panel signs

8. A restriction, prohibition or information of a description in column 2 of the sign table in Part 4 must be conveyed by a sign which complies with paragraphs 9 to 18.

9. The sign must have a white background and black border as shown in blank diagram 2 in Part 1.

10.—(1) The sign must have a symbol of the size, colour and type shown in column 3 of the sign table in Part 4 for the description in question.

(2) Sub-paragraph (1) does not apply in relation to the description at item 1 of that table.

(3) The symbol provided for at item 5 may be reversed.

(4) For the purpose of conveying the description at item 6 or 7, the symbol shown at item 3 or 4 may be used instead of the symbol shown at item 6 or 7.

(5) Sub-paragraph (4) does not apply where the sign, in accordance with paragraph 15, includes the motor cycle or bus symbol shown at item 1 and 3 respectively of the Part 5 sign table.

11. A sign provided for at item 1, 5, 6, 7, or 8 of the Part 4 sign table must have the legend provided for in column 4 of the item.

12. A legend provided for at item 5, 6 or 7 of the Part 4 sign table may be varied in accordance with column 5 of the item.

13. A sign provided for at item 2, 3 or 4 of the Part 4 sign table may include a legend provided for in column 5 of the item.

14. A legend provided for in the Part 4 sign table must have an x-height provided for in column 6.

15. Where an item in the Part 4 sign table (“the Part 4 item”) shows numbers in column 7, those numbers—

- (a) refer to items in the Part 5 sign table (“the Part 5 items”); and
- (b) signify that a sign which includes the symbol shown in column 3 of the Part 4 item may also include a symbol shown in column 3 of one of the Part 5 items to convey the description in column 2 of that Part 5 item.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

16.—(1) A symbol included in accordance with paragraph 15 must be of the size, colour and type provided for in relation to that symbol at the appropriate column 2 entry in the Part 5 sign table.

(2) If the symbol shown in column 3 of item 4, 5, 6, 7 or 8 of the Part 5 table is included in a sign, a legend in column 4 at that item must also be included.

(3) The symbol shown at item 1, 2 or 6 of the Part 5 table may be reversed.

(4) In the case of item 8 of the Part 5 table, the symbol may be varied to correspond with the design on the applicable approved voucher (provided the size remains as provided for in column 2).

17. A sign must include an arrow pointing to the left or to the right where indicating the beginning of, or a change in, a restriction or prohibition.

18.—(1) A sign may convey any two of the descriptions in column 2 in the Part 4 sign table (except the description at items 1 and 8), with “or” used to separate the legends applicable to the two descriptions.

(2) Where a sign conveys two descriptions in accordance with sub-paragraph (1), if the symbol applicable to those descriptions is the same, only one symbol need be included in the sign.

Signs consisting of multiple panels

19.—(1) This paragraph applies to all signs provided for in the sign tables in Parts 3, 4 and 5 except those for conveying a description in column 2 at—

(a) items 5 to 10 of the sign table in Part 3; and

(b) item 8 of the sign table in Part 4.

(2) A panel that would otherwise be a single sign in accordance with this Schedule may instead form part of a sign made up of at least two panels where each of the panels would otherwise be a single sign in accordance with this Schedule.

(3) The reference to a panel in sub-paragraph (2) is to the panel shown in blank diagram 1 or 2 in Part 1.

(4) This paragraph applies to a sign whether or not panels are included in accordance with paragraph 20 or 21.

20.—(1) This paragraph applies in relation to a sign provided for at item 2, 3, 4, 5, 6 or 7 of the Part 4 sign table.

(2) The sign may be divided into panels with a white background of the type shown in blank diagram 2 in Part 1 with any symbol or legend forming part of that sign being placed in any of those panels.

(3) This paragraph applies to a sign whether or not other panels are included in accordance with paragraph 19 or 21.

21.—(1) This paragraph applies to a sign which includes the symbol provided for at item 8 of the Part 5 sign table.

(2) Information on the voucher parking scheme may be shown on a separate panel with a white background of the type shown in blank diagram 2 in Part 1.

(3) This paragraph applies to a sign whether or not other panels are included in accordance with paragraph 19 or 20.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Provisions applying where the sign is made up of more than one panel

22. When, in accordance with paragraph 19, 20 or 21, two or more panels are used, there must be a single black line separating adjoining panels.

23.—(1) Panels included in a sign may be placed in any vertical or horizontal combination, and need not be aligned vertically or horizontally.

(2) Sub-paragraph (1) is subject to sub-paragraphs (3) to (7).

(3) No more than two panels may be placed horizontally.

(4) Where panels are placed vertically to form a column they must be of the same width.

(5) No white panel may be placed above a yellow panel which is in the same column.

(6) Any white panels about loading must be above any white panels about parking places which are in the same column.

(7) Where a single panel is placed above or below two panels placed side by side, that single panel must be placed centrally in relation to the other two panels.

Height of legends to be proportionate

24.—(1) This paragraph applies whether or not the sign consists of a single panel or more than one panel.

(2) The x-height of a legend used on a sign provided for in this Schedule must be in proportion to the size of any symbol on the sign.

(3) Where a sign contains more than one legend, the x height must be the same for each legend.

(4) Sub-paragraph (3) does not apply to the legends provided for at item 7 or 10 in the Part 3 sign table.

Illumination

25.—(1) A sign provided for in this Schedule need not be illuminated.

(2) Paragraph (1) does not apply to a sign containing the symbol and legend provided for at item 2, 9 or 10 of the Part 3 sign table.

PART 6

The Schedule 4 General Direction

1.—(1) The signs provided for in this Schedule must only be placed to indicate the effect of an Act, order, regulation, bylaw, resolution or notice which prohibits or restricts the use of the road by traffic.

(2) Sub-paragraph (1) does not apply to a sign which consists solely of the elements provided for in the Part 3 sign table at—

- (a) item 2 (except where the taxi, ambulance or police vehicle legend in column 4 at paragraph 2(c) is included); or
- (b) item 10.

SCHEDULE 5

Regulation 3, Direction 3

Signs to indicate parking places and areas subject to parking controls

PART 1

Parking place signs and plates

1. A sign for indicating a parking place (a “parking place sign”) must be square and of the size, colour and type shown in the upper part of the diagram above the sign table in this Part.

2. A restriction of a description in column 2 of items 2 to 6 of the sign table in this Part must be conveyed by a plate of the size, colour and type provided for in the diagram in column 3 at the item in question.

PART 2

Entrance to a zone or area (other than a pedestrian, or a pedestrian and cycle, zone) where parking controls apply

Overall dimensions will vary to accommodate elements of the sign

3. The provisions as to size, colour and type in this Part apply to a sign for conveying information, a restriction or a prohibition of a description in column 2 of an item in the sign table in Part 3.

4. The sign must be of the shape shown in the diagram at the beginning of this Part with a white background and black lines as shown (except that the bottom panel may or must be omitted – see paragraph 5).

5. The upper panel must contain—

- (a) the symbol or symbols shown in column 3 of the item; and
- (b) a legend shown in column 4 of the item, with the height and placing of the legend complying with column 5.

6. The upper panel may be varied in accordance with column 6 of the item.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

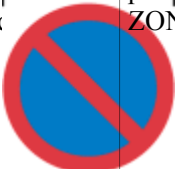

7. Where provided for in column 7 of the item, a legend specified at column 2, or column 2 when read with column 4, in the sign table in Part 4 may be included in the lower panel and, where no legend is included, the lower panel must be omitted.

8. A legend or symbol included in the lower panel must comply with the requirements as to size in column 3 of the item in the Part 4 sign table in which the legend or symbol is specified.

PART 5

The Schedule 5 General Direction

1.—(1) The signs provided for in this Schedule must only be placed on or near a road to indicate the effect of an Act, order, regulation, bylaw, resolution or notice which prohibits or restricts the use of the road by traffic.

(2) This does not apply to a parking place sign provided for at paragraph 1 of Part 1 of this Schedule when placed without an associated plate.

SCHEDULE 6

Regulation 3, Direction 3

Upright signs for red routes

PART 1

Provisions applying to Part 2

Overall dimensions of sign will vary to accommodate elements

1. An upright sign for conveying a restriction or prohibition applicable to a red route must comply with the requirements as to size, colour and type provided for in this Part.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

2. The sign must consist of the top and middle panels of the sign shown in the diagram at the beginning of this Part and may also include the bottom panel shown if that is permitted under this Part.
3. The top panel may be varied so “RED ROUTE” appears on one line.
4. The middle panel may be varied to include—
 - (a) a time period;
 - (b) “except” followed by—
 - (i) “buses” or “local buses”;
 - (ii) “in signed bays” or “in signed bay”;
 - (iii) one or more of “taxis”, “ambulances”, and “police vehicles”, and where more than one of those exceptions is provided for “and” or “&” must precede the final exception;
 - (c) “BUS STAND” if displayed above “No stopping” and in combination with “except buses” or “except local buses”.
5. If “except buses”, “except local buses”, “except in signed bays” or “except in signed bays” is included in the middle panel, the bottom panel as shown in the diagram at the beginning of this Part must not be included in the sign.
6. Unless paragraph 5 applies, the sign may include a bottom panel as shown in the diagram with, beneath “Except”, one or more of the symbols in column 3 of the sign table in Part 2 (for conveying an exception as described in column 2 for the symbol at the item number in question).
7. A symbol provided for at item 4,5, 6, 8, 9, 10 or 11 of the sign table must only be used in conjunction with another symbol as indicated in column 2.
8. The size of the symbol must comply with the requirements shown in column 3.
9. The bottom panel may also include a legend, to accompany the symbol, as described in column 4 of the sign table in Part 2.
10. The bottom panel may be varied in accordance with column 5 of the sign table in Part 2 for the item in question.

PART 3

The Schedule 6 General Direction

1. The signs provided for in this Schedule must only be placed to indicate the effect of an Act, order, bylaw, resolution or notice which prohibits or restricts the use of the road by traffic.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

SCHEDULE 7

Regulation 3, Direction 3

Road markings and miscellaneous upright signs that indicate stopping, waiting, loading and parking controls

PART 1

Provisions applying to Part 2

1. The information, requirement, restriction or prohibition of a description in column 2 of the sign table in Part 2 must be conveyed by a sign that is—

- (a) of the colour and type; and
- (b) complies with the requirements as to size,

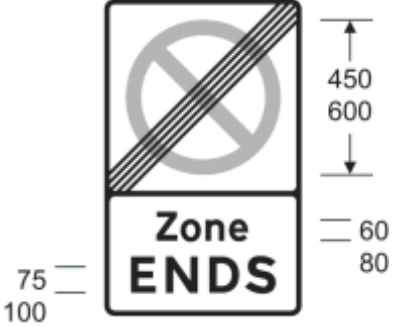

shown in the diagram in column 3 of the table at the item in question, or that diagram as varied in accordance with column 4.

2. The signs provided for at items 5, 12, 13, 14, 15, 16 and 17 of the Part 2 sign table need not be illuminated.

PART 3

Provisions applying to road markings in Part 4

1. A restriction or prohibition of a description in column 2 of an item in the Part 4 sign table must be conveyed by road markings of the size, colour and type shown in—

- (a) the diagram in column 3; or
- (b) that diagram as varied in accordance with the paragraph in Part 5 whose number appears in column 4 of the item.

2.—(1) Where the road marking at item 9 is placed in a lay-by, studs may also be placed.

(2) The studs must incorporate—

- (a) green reflectors;
- (b) green retroreflecting material; or
- (c) a light source that emits, during the hours of darkness, a steady green light,

or any combination.

(3) The studs must be placed in the gaps between the broken line that indicates the edge of the lay-by to drivers of approaching vehicles.

(4) The external part of the stud that is visible when the stud is in place must be—

- (a) green
- (b) white;
- (c) of a natural metallic finish;
- (d) of another neutral colour; or
- (e) clear,

or any combination (but see sub-paragraph (5) for an exception).

(5) The external part of a stud that is visible when the stud is in place temporarily during road works must be fluorescent green-yellow except to the extent—

- (a) it consists of green reflectors or retroreflecting material; or
- (b) it is necessary for it to be a different colour or clear in order for the stud to emit green light.

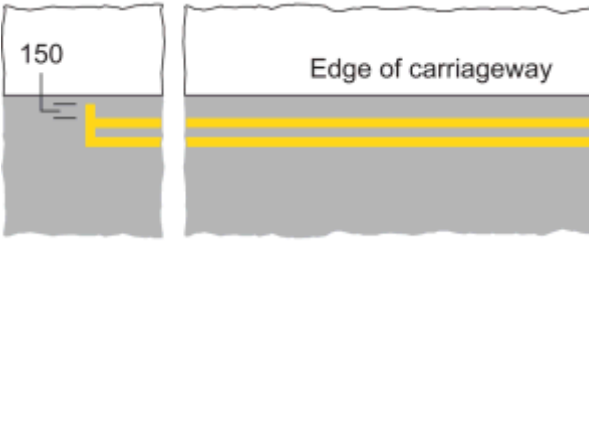

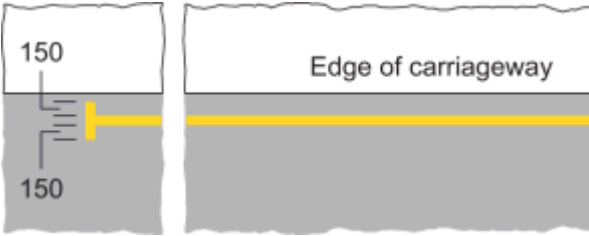

3. Section 36 of the 1988 Act applies to the markings at items—

- (a) 9; and
- (b) 10 where the marking is placed in the circumstances mentioned in paragraph 3 of Part 6.

PART 5

Required or permitted variants

1.—(1) "DOCTOR" may be omitted.

(2) "DOCTOR" may be varied to: "BUSES", "CAR CLUB", "CYCLE HIRE", "DISABLED", "ELECTRIC VEHICLES", "ELECTRIC VEHS", "ELECTRIC MOTORCYCLES", "ELECTRIC M/CYCLES", "ELECTRIC M/Cs", "LOADING", "LARGE OR SLOW VEHICLES", "PERMIT HOLDERS", "SOLO MOTORCYCLES", "SOLO M/CYCLES", "SOLO M/CS".

(3) "ONLY" may be added after "DOCTOR" (or after a word or phrase used pursuant to subparagraph (2)).

(4) Where the bay is reserved for an individual disabled badge holder, an alphanumeric identifier, with or without the word "ONLY" may be added after "DISABLED".

2.—(1) When reserved for disabled badge holders at certain times (whether or not also reserved for other users)—

- (a) the length of the bay must be at least 6600 mm; and
- (b) the width of the bay must be at least 2700 mm (or 3000 mm when placed in the centre of the carriageway) except in a case where, on account of the nature of traffic using the road, the overall width of the carriageway is insufficient to accommodate a bay of that width.

(2) The marks and gaps forming the boundary of the bay may—

- (a) vary in number and length; or
- (b) be replaced by a continuous white line.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (3) The bay may be varied to contrast, in pattern or colour, from the surrounding parts of the road and any adjoining bays, in which case the marking may be omitted.
- (4) The bay may be divided into individual spaces by—
 - (a) the application of a white line marking (either broken or continuous), with a minimum width of 50 mm; or
 - (b) contrasting pattern or colour.
- (5) If the individual spaces are parallel to the edge of the carriageway, the length of each space must be not less than—
 - (a) 6600 mm in the case of a space reserved for disabled badge holders; or
 - (b) 4500 mm in any other case.
- (6) If the individual spaces are not parallel to the edge of the carriageway—
 - (a) the length of the largest rectangle that could be accommodated wholly within the space in question must be not less than 4200 mm;
 - (b) the width of each space must be—
 - (i) not less than 3600 mm in the case of a space reserved for disabled badge holders; or
 - (ii) not less than 2000 mm in any other case, and
 - (c) the spaces may be inclined at any angle to the edge of the carriageway to form an overall parking bay in echelon pattern, the boundary of which, furthest from the edge of the carriageway, may be parallel to the carriageway.
3. The transverse mark at the end of the line may be omitted.
4. The marking may be continued down the vertical face of a kerb at the edge of the carriageway.
5. The marks forming the boundary of the bay and any legend must be coloured red when placed on a red route, but only where the bay is not available for parking or loading during part of, or all of, the times of operation of the red route.
6. "TAXIS" may be varied to "AMBULANCES" or "POLICE".
7. The transverse line may be omitted—
 - (a) from that part of the marking that is placed within a lay-by; or
 - (b) from that part of the bay which is delineated by a raised kerb.
8. Where the marking is placed on a red route, the continuous line must be substituted by the marking provided for at item 11 or 12 of the Part 4 sign table.
9. "STOP" may be varied to "STAND".
10. The legend may be repeated along the length of the marking as appropriate.
11. Where the marking is placed in part of a lay-by, the continuous line may be used to delineate the clearway from that part of the lay-by used by all vehicles.
12. The continuous line must be varied to red where placed along a red route and taxis are prohibited from stopping within the clearway.
13. The continuous line must be replaced by the marking provided for at item 11 or 12 of the Part 4 table where placed along a red route and taxis are permitted to stop within the clearway to pick up or set down passengers.
14. "SCHOOL" may be varied to "CHILDREN" with the maximum length of the marking increased to 44545 mm in consequence.

15. "SCHOOL" and the line between "SCHOOL" and "KEEP" may be omitted and the minimum length of the marking reduced to 25250 mm when used outside a fire, police or ambulance station, or a hospital.

16. The overall length of the marking may be varied within the specified limits by the addition or removal of an equal number of complete zig-zag elements on each side of the legend.

PART 6

The significance of particular road markings

Clearways (diagram 1025.1)

1.—(1) Subject to sub-paragraph (3) and paragraph 4, the road marking provided for at item 9 of the Part 4 sign table conveys the prohibition that a person driving a vehicle must not cause it to stop within the clearway—

- (a) if the relevant upright sign placed in conjunction with the marking does not show a time period, at any time; or
- (b) if the relevant upright sign shows a time period, during that period.

(2) For the purposes of this paragraph—

- (a) "clearway" means an area of carriageway bounded by the continuous and broken straight lines provided for at item 9;
- (b) "relevant upright sign" means an upright sign which includes a stopping prohibited symbol and indicates that stopping by vehicles other than buses or local buses is prohibited, or prohibited during the period indicated; and
- (c) a vehicle is taken to have stopped within a clearway if—
 - (i) any point in the clearway is below the vehicle or its load (if any); and
 - (ii) the vehicle is stationary.

(3) The prohibition in sub-paragraph (1) does not apply to the driver of a bus who causes the bus to stop within the clearway for so long as may be necessary—

- (a) to maintain a published timetable for the service (provided, in the case of a clearway marked "BUS STOP", that the bus is not stopped within the clearway for a period exceeding two minutes);
- (b) to enable passengers to board or alight from the bus; or
- (c) to enable the crew of the bus to be changed.

School etc entrances (diagram 1027.1)

2. The road marking provided for at item 10 of the sign table in Part 4, when not placed in conjunction with an upright sign which includes the symbol at item 12 of the sign table in Part 3 of Schedule 4 (prohibiting stopping on entrance markings), indicates a part of the carriageway outside an entrance where vehicles should not stop.

3. Subject to paragraph 4, the road marking at item 10, when placed in conjunction with an upright sign which includes the symbol at item 12, conveys the prohibition that, subject to the exceptions in paragraph 5, a person driving a vehicle must not cause it to stop on that marking—

- (a) if the sign placed in conjunction with the marking does not show a time period, at any time; or

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (b) if the sign shows a time period, during that period.

Exceptions applicable to paragraphs 1 and 3

4.—(1) The prohibition in paragraphs 1 and 3 does not apply to a vehicle being used for at least one of the following purposes—

- (a) fire and rescue authority;
- (b) Scottish Fire and Rescue Service;
- (c) traffic officer;
- (d) ambulance;
- (e) providing a response to an emergency at the request of an NHS ambulance service;
- (f) bomb or explosive disposal;
- (g) special forces;
- (h) police; and
- (i) National Crime Agency.

(2) The prohibition in paragraphs 1(1) and 3 does not apply in respect of—

- (a) a vehicle that has stopped with the permission or at the direction of—
 - (i) a constable in uniform;
 - (ii) a traffic warden; or
 - (iii) a traffic officer in uniform;
- (b) a vehicle which is prevented from proceeding by circumstances beyond the driver's control or which has to be stopped in order to avoid injury or damage to persons or property;
- (c) in respect of paragraph 1 only, a taxi which is stationary only for so long as may be reasonably necessary for a passenger to board or alight and to load or unload any luggage of the passenger (but this exemption does not apply in relation to a marking on a red route where paragraph 12 of Part 5 applies);
- (d) a marked vehicle which, whilst used by a universal service provider in the course of the provision of a universal postal service, is stationary only for so long as may be reasonably necessary for postal packets to be collected;
- (e) in respect of paragraph 1 only, a vehicle driven by a person whilst being trained to drive a bus operating local services who, as part of that training, stops the vehicle on the road marking for no longer than necessary to simulate the stopping of a bus at a bus stop for the purpose of picking up and setting down passengers;
- (f) a vehicle which is stationary in order that it may be used for one or more of the purposes specified in sub-paragraph (3) and which cannot be used for such a purpose without stopping on the marking.

(3) The purposes are—

- (a) any operation involving building, demolition or excavation;
- (b) the removal of any obstruction to traffic;
- (c) the maintenance, improvement or reconstruction of a road;
- (d) constructing, improving, maintaining or cleaning any street furniture (including, in respect of paragraph 1 only, bus stop infrastructure); or
- (e) the laying, erection, alteration, repair or cleaning of any sewer or of any main, pipe or apparatus for the supply of gas, water or electricity, or of any electronic communications

apparatus kept installed for the purposes of an electronic communications code system or of any other electronic communications apparatus lawfully kept installed in any position.

(4) In this paragraph, the expressions “universal service provider”, “provision of a universal postal service” and “postal packet” have the same meanings as in the Postal Services Act 2000⁽⁸⁰⁾.

PART 7

The Schedule 7 General Directions

1.—(1) Subject to sub-paragraph (2), the signs provided for in this Schedule must only be placed to indicate the effect of an Act, order, regulation, bylaw, resolution or notice which prohibits or restricts the use of the road by traffic.

(2) Sub-paragraph (1) does not apply to the road markings provided for at the following items in the sign table in Part 4—

- (a) 6, but only where the marking—
 - (i) does not include a word or phrase; and
 - (ii) is not in a controlled parking zone
- (b) 9; and
- (c) 10.

2. When a sign provided for in the sign table in Part 2 is placed to indicate the point at which a restriction, requirement or prohibition begins or ends, the sign must be placed on the road as near as practicable to that point.

3. The road marking provided for at item 9 of the sign table in Part 4 must not be placed except in combination with a relevant upright sign within the meaning of paragraph 1 of Part 6.

SCHEDULE 8

Regulation 3, Direction 3

Signs indicating the entrance to and the end of a pedestrian, or pedestrian and cycle, zone, and signs for charging schemes

PART 1

Provisions applying to signs in Part 2

1. The information, requirement, restriction or prohibition of a description in column 2 of an item in the sign table in Part 2 must be conveyed by a sign that is—

- (a) of the colour and type; and
- (b) complies with the requirements as to size,

shown in the diagram in column 3 of the item, or that diagram as varied in accordance with column 4.

2. Where a sign provided for in the Part 2 sign table is erected on a road subject to a speed limit greater than 20 mph and is within 50 metres of any lamp which forms part of a system of street-lighting, the illumination requirements for the sign are—

⁽⁸⁰⁾ 2000 c. 26.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) where that system of street-lighting is illuminated throughout the hours of darkness, the sign must be illuminated by internal or external lighting for so long as that system is illuminated and may also be reflectorised; or
- (b) where that system of street-lighting is not illuminated throughout the hours of darkness—
 - (i) the sign must be illuminated by internal or external lighting for so long as that system is illuminated and must also be reflectorised; or
 - (ii) the sign must be illuminated throughout the hours of darkness by means of internal or external lighting and may also be reflectorised.

PART 5

The Schedule 8 General Directions

1. The signs provided for—
 - (a) in the sign table in Part 2; and
 - (b) at items 1, 2, 6 and 7 of the sign table in Part 4,

must only be placed to indicate the effect of an Act, order, regulation, bylaw, resolution or notice which restricts or prohibits the use of the road by traffic.

2. An upright sign mentioned in paragraph 1 must be placed as near as practicable to the point the restriction or prohibition begins or ends.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

SCHEDULE 9

Regulation 3, Direction 3

Regulatory signs at junctions and miscellaneous regulatory signs

PART 1

Provisions applicable to signs in Part 2

1. The information or requirement of a description in column 2 of an item in the sign table in Part 2 must be conveyed by a sign that is —
 - (a) of the colour and type shown in the diagram in column 3; and
 - (b) complies with the requirements as to size given in column 4.
2. A provision of Part 8 applies to a sign provided for in Part 2 where indicated in column 5 of the Part 2 sign table (by reference to a paragraph number in Part 8).
3. A Schedule 9 General Direction applies to a sign provided for in Part 2 where indicated in column 6 of the Part 2 sign table (by reference to a number equivalent to the general direction in Part 9).

PART 5

Provisions applicable to road markings in Part 6

1. The information, requirement, restriction or prohibition of a description in column 2 of an item in the sign table in Part 6 must be conveyed by a road marking that is of the size, colour and type shown in the diagram in column 3.

2. A provision of Part 8 applies to a sign provided for in Part 6 where indicated in column 4 of the table (by reference to a paragraph number in Part 8).

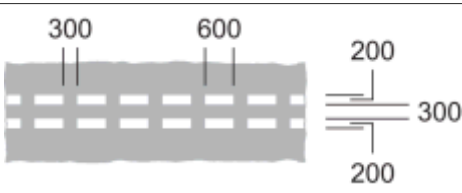

3. A Schedule 9 General Direction applies to a sign provided for in Part 6 where indicated in column 5 (by reference to a number equivalent to the general direction in Part 9).

4. Where “longitudinal marking” is mentioned in respect of an item in the table, the expression indicates a marking to be laid on the carriageway of a road longitudinally to the flow of traffic.

PART 7

The significance of particular signs in Schedule 9

Stop sign

1. Subject to paragraph 2, the requirements conveyed to vehicular traffic on roads by a stop sign are that—

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) every vehicle must stop before crossing the transverse line provided for at item 1 of the sign table in Part 6 of this Schedule, or if that line is not clearly visible, before entering the major road in respect of which the stop sign has been provided; and
 - (b) no vehicle must cross the transverse line, or if that line is not clearly visible, enter the major road in respect of which the stop sign has been provided, so as to be likely to endanger any person, or to cause the driver of another vehicle to change its speed or course in order to avoid an accident.
2. The requirements conveyed to vehicular traffic on roads by a stop sign when placed at a level crossing are that—
- (a) every vehicle must stop before crossing the transverse line, or if that line is not clearly visible, before entering the level crossing; and
 - (b) no vehicle must cross the transverse line, or if that line is not clearly visible, enter the level crossing so as to be likely to endanger the driver of, or any passenger in, any railway vehicle or tramcar or to cause that driver to change speed in order to avoid an accident.

Give way sign

3. Subject to paragraph 4, the requirements conveyed to vehicular traffic on roads by a give way sign are that no vehicle is to cross the transverse line provided for at item 3 of the sign table in Part 6 of this Schedule nearer to the major road at the side of which that line is placed, or if that line is not clearly visible, enter that major road, so as to be likely to endanger any person, or to cause the driver of another vehicle to change its speed or course in order to avoid an accident.

4. The requirements conveyed to vehicular traffic on roads by a give way sign when placed in combination with the sign at item 4 or 5 of the sign table in Part 2 of this Schedule are that no vehicle must cross the transverse line nearer to the level crossing at the side of which that line is placed, or if that line is not clearly visible, enter that level crossing, so as to be likely to endanger the driver of, or any passenger in, any railway vehicle or tramcar or to cause that driver to change the speed of his or her vehicle in order to avoid an accident.

Priority to right sign

5.—(1) The requirements conveyed to vehicular traffic on roads by a sign provided for at item 6 of the sign table in Part 2 of this Schedule are that—

- (a) a vehicle entering the junction must give priority to vehicles coming from the right—
 - (i) at the transverse road marking provided for at item 6 of the sign table in Part 6 of this Schedule;
 - (ii) at the transverse road marking provided for at item 3 of the sign table in Part 6 of this Schedule; or
 - (iii) if a marking is not for the time being visible, at the junction;
- (b) a vehicle proceeding through the junction must keep to the left of the white circle at the centre of the marking provided for at item 5 of the sign table in Part 6 of this Schedule (“the diagram 1003.4 marking”), unless the size of the vehicle or the layout of the junction makes it impracticable to do so; and
- (c) no vehicle is to proceed past the diagram 1003.4 marking in a manner, or at a time, likely to endanger any person, or to cause the driver of another vehicle to change its speed or course in order to avoid an accident.

Permission to cross sign

6.—(1) Subject to sub-paragraph (2) the requirements conveyed to vehicular traffic on roads by a sign provided for at item 4 of the sign table in Part 4 of this Schedule are that no abnormal transport unit is to proceed onto or over a level crossing unless—

- (a) the driver of the unit has used a telephone provided at or near the crossing for the purpose of obtaining from a person, authorised in that behalf by the railway or tramway authority, permission for the unit to proceed;
 - (b) that permission has been obtained before the unit proceeds; and
 - (c) the unit proceeds in accordance with any terms attached to that permission.
- (2) Sub-paragraph (1)(b) and (c) does not apply if—
- (a) the driver uses the telephone at the crossing and receives an indication for not less than two minutes that the telephone at the other end of the telephone line is being called, but no duly authorised person answers it, or the driver receives no indication at all due to a fault or malfunction of the telephone; and
 - (b) the driver then drives the unit on to the crossing with the reasonable expectation of crossing it within times specified in a railway or tramway notice at the telephone as being times between which railway vehicles or tramcars do not normally travel over that crossing.

Give way marking

7. The requirements conveyed to vehicular traffic on roads by a road marking provided for at item 3 of the sign table in Part 6 of this Schedule are—

- (a) except as provided in paragraphs (b) to (d), that no vehicle may proceed past the transverse line which is the nearer to the major road into that road in a manner or at a time likely to endanger the driver of, or any passenger in, a vehicle on the major road or to cause the driver of such a vehicle to change its speed or course in order to avoid an accident;
- (b) where the transverse lines are placed at a level crossing, that no vehicle may proceed past such one of those lines as is the nearer the level crossing in a manner or at a time likely to endanger the driver of, or any passenger in, a railway vehicle or tramcar, or to cause that driver to change the speed of his or her vehicle in order to avoid an accident;
- (c) where the transverse lines are placed in advance of a point in the road where the width of the carriageway narrows significantly, that no vehicle may proceed past such one of those lines as is nearer to the point of narrowing in a manner or at a time likely to endanger the driver of, or any passenger in, a vehicle that is proceeding in the opposite direction to the first-mentioned vehicle, or cause the driver of such a vehicle to change its speed or course in order to avoid an accident;
- (d) where the transverse lines are placed in advance of a length of the carriageway of the road where a cycle track crosses the road along a route parallel to the transverse lines, that no vehicle may proceed past such one of those lines as is the nearer the cycle track, in a manner or at a time likely to endanger any cyclist proceeding along the cycle track or to cause such a cyclist to change speed or course in order to avoid an accident.

Cyclists to give way

8. A cycle must not be ridden across the transverse line provided for at item 9 of the sign table in Part 6 of this Schedule in a manner or at a time that is likely to endanger any person, or to cause the driver of another vehicle to change its speed or course in order to avoid an accident.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

No stopping or crossing white line marking

9.—(1) The requirements conveyed to vehicular traffic on roads by a road marking provided for at items 23 and 24 of the sign table in Part 6 of this Schedule are that—

- (a) subject to sub-paragraphs (2) to (4), no vehicle is to stop on any length of road along which the marking has been placed at any point between the ends of the marking; and
- (b) subject to sub-paragraph (5), every vehicle proceeding on any length of road along which the marking has been so placed, as viewed in the direction of travel of the vehicle, a continuous line is on the left of a broken line or of another continuous line, must be so driven as to keep the first-mentioned continuous line on the right hand or off side of the vehicle.

(2) Nothing in sub-paragraph (1)(a) applies so as to prevent a vehicle stopping on any length of road so long as may be necessary for any of the purposes specified in sub-paragraph (3) if the vehicle cannot be used for such a purpose without stopping on the length of road.

(3) The purposes are—

- (a) to enable a person to board or alight from the vehicle,
- (b) to enable goods to be loaded on to or to be unloaded from the vehicle,
- (c) to enable the vehicle to be used in connection with—
 - (i) any operation involving building, demolition or excavation;
 - (ii) the removal of any obstruction to traffic;
 - (iii) the maintenance, improvement or reconstruction of the length of road; or
 - (iv) the laying, erection, alteration, repair or cleaning in or near the length of road of any sewer or of any main, pipe or apparatus for the supply of gas, water or electricity, or of any electronic communications apparatus kept installed for the purposes of an electronic communications code system or of any other electronic communications apparatus lawfully kept installed in any position.

(4) Nothing in sub-paragraph (1)(a) applies—

- (a) so as to prevent a vehicle stopping in a lay-by;
- (b) to a vehicle being used for at least one of the following purposes—
 - (i) fire and rescue authority;
 - (ii) Scottish Fire and Rescue Service;
 - (iii) traffic officer;
 - (iv) ambulance;
 - (v) providing a response to an emergency at the request of an NHS ambulance service;
 - (vi) bomb or explosive disposal;
 - (vii) special forces;
 - (viii) police; and
 - (ix) National Crime Agency.
- (c) to a pedal cycle;
- (d) to a vehicle stopping in any case where the person in control of the vehicle is required by law to stop, or is obliged to do so in order to avoid an accident, or is prevented from proceeding by circumstances outside the person's control;
- (e) to anything done with the permission or at the direction of a constable in uniform, traffic officer in uniform or in accordance with the direction of a traffic warden; or

(f) to a vehicle on a road with more than one traffic lane in each direction.

(5) Nothing in sub-paragraph (1)(b) is to be taken to prohibit a vehicle from being driven across, or so as to straddle, the continuous line referred to in that paragraph, if it is safe to do so and if necessary to do so—

- (a) to enable the vehicle to enter, from the side of the road on which it is proceeding, land or premises adjacent to the length of road on which the line is placed, or another road joining that road;
- (b) in order to pass a stationary vehicle;
- (c) owing to circumstances outside the control of the driver;
- (d) in order to avoid an accident;
- (e) in order to pass a road maintenance vehicle which is in use, is moving at a speed not exceeding 10 mph, and is displaying to the rear a sign provided for at item 9 or 10 of the sign table in Part 6 of Schedule 13;
- (f) in order to pass a pedal cycle moving at a speed not exceeding 10 mph;
- (g) in order to pass a horse that is being ridden or led at a speed not exceeding 10 mph; or
- (h) for the purposes of complying with any direction of a constable in uniform, a traffic officer in uniform or a traffic warden.

10. The warning conveyed to vehicular traffic on roads by the road marking provided for at item 23 of the sign table in Part 6 of this Schedule is that no vehicle while travelling next to a broken line placed on the left of a continuous line, as viewed in the direction of travel of the vehicle, should cross or straddle the first-mentioned line unless it is seen by the driver of the vehicle to be safe to do so.

Box junctions

11.—(1) Subject to sub-paragraphs (2), (3) and (4), the yellow criss-cross marking provided for at item 25 of the sign table in Part 6 conveys the prohibition that a person must not cause a vehicle to enter the box junction so that the vehicle has to stop within the box junction due to the presence of stationary vehicles.

(2) Subject to sub-paragraph (4) the marking when placed as a box junction within sub-paragraph (6)(c) of the definition of that expression conveys the prohibition that a person must not cause a vehicle to enter the box junction so that the vehicle has to stop within the box junction due to the presence of oncoming vehicles or other stationary vehicles beyond the box junction.

(3) The prohibition in sub-paragraph (1) does not, in respect of a box junction within sub-paragraph (6)(a) of the definition of that expression, apply to a person who—

- (a) causes a vehicle to enter the box junction for the purpose of turning right; and
- (b) stops the vehicle within the box junction for so long as the vehicle is prevented from completing the right turn by an oncoming vehicle or other vehicle which is stationary whilst waiting to complete a right turn.

(4) When a vehicle is being used for at least one of the purposes mentioned at sub-paragraph (5) and the observance of the prohibition in sub-paragraph (1) or (2) would be likely to hinder the use of that vehicle for that purpose, then that prohibition does not apply to the driver of the vehicle.

(5) The purposes are—

- (a) fire and rescue authority;
- (b) Scottish Fire and Rescue Service;
- (c) ambulance;
- (d) providing a response to an emergency at the request of an NHS ambulance service;

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (e) bomb or explosive disposal;
- (f) special forces;
- (g) police; and
- (h) National Crime Agency.

(6) For the purposes of this paragraph “box junction” means an area of the carriageway where the marking has been placed and which is—

- (a) at a junction between two or more roads;
- (b) at a gyratory system or roundabout;
- (c) along a length of a two-way road (other than at a junction), the carriageway of which is not greater than 4.5 metres wide at its narrowest point; or
- (d) on the length of road adjacent to the vehicular entrance to the premises of a fire, police or ambulance station; and

(7) A reference in this paragraph (however expressed) to a vehicle which is stationary or stops within a box junction includes a vehicle which is stationary whilst part of it is within the box junction.

Mandatory with flow cycle lanes

12.—(1) This paragraph applies to the road marking provided for at item 7 of the sign table in Part 6—

- (a) when that marking is being used to separate a cycle lane from another part of the carriageway; and
- (b) where the direction of travel along the cycle lane and the part of the carriageway from which it is separated is the same.

(2) Subject to sub-paragraphs (3) to (5), the marking conveys the requirement that a vehicle, other than a pedal cycle, must not be driven, or ridden, in the cycle lane during the cycle lane’s hours of operation (which may be all the time).

(3) Sub-paragraph (2) does not prohibit a vehicle from crossing into the part of the carriageway reserved for pedal cycles, or straddling the marking, if it is safe and necessary to do so—

- (a) in order to pass a stationary vehicle;
- (b) to enable the vehicle to enter, from the side of the road on which it is proceeding, land or premises adjacent to the length of road on which the line is placed, or another road joining that road;
- (c) due to circumstances outside the control of the driver;
- (d) in order to avoid an accident; or
- (e) for the purpose of complying with any direction of a constable in uniform or a traffic warden.

(4) When a vehicle is being used for at least one of the purposes mentioned at sub-paragraph (5) and the observance of the prohibition in sub-paragraph (2) would be likely to hinder the use of the vehicle for that purpose, then that prohibition does not apply to the driver of the vehicle.

(5) The purposes are—

- (a) fire and rescue authority;
- (b) Scottish Fire and Rescue Service;
- (c) ambulance;
- (d) providing a response to an emergency at the request of an NHS ambulance service;
- (e) bomb or explosive disposal;

- (f) special forces;
- (g) police; and
- (h) National Crime Agency.

PART 8

Provisions applicable to signs in Parts 2, 4 and 6

1.—(1) Subject to sub-paragraph (2), section 36 of the 1988 Act applies to the sign.

(2) Sub-paragraph (1) applies to the sign provided for at item 7 of the Part 6 sign table only where that marking is used to indicate the boundary of a mandatory with-flow cycle lane during the cycle lane's hours of operation (which may be all the time).

2. The sign is specified for the purposes of column 5 of the entry in Schedule 2 to the Road Traffic Offenders Act 1988(81) relating to offences under section 36 of the 1988 Act.

3. Where the sign is placed temporarily on a road by a constable or person acting under the instructions (whether general or specific) to the chief officer of police for the purposes of indicating a temporary statutory provision, the diameter may be reduced to not less than 200 mm.

4. The central part of the road marking must not project above the surface of the adjacent carriageway more than 125 mm at its highest point or 6 mm at its perimeter.

5.—(1) The overall shape and size of the road marking, within the overall dimensions shown, may be varied as appropriate.

(2) Parts of a boundary line may be omitted when the edge of the marking is adjacent to a raised kerb.

(3) Parts of the marking may be omitted where tram rails cross the marking.

(4) Parts of the marking may be omitted to indicate the edge of the path taken by a tramcar and, where parts of the marking are so omitted, the remaining parts must be bounded by a continuous yellow line.

6. The height of the marking above the surface of the adjacent carriageway must be within the range of dimensions indicated on the lower part of the diagram at item 8 of Part 6 in illustrating the cross-section of the marking.

7.—(1) Subject to sub paragraph (2), where the sign is placed on a road subject to a speed limit greater than 20 mph and is within 50 metres of any lamp which forms part of a system of street-lighting, the illumination requirements are—

- (a) where that system of street-lighting is illuminated throughout the hours of darkness, the sign must be illuminated by internal or external lighting for so long as that system is illuminated and may also be reflectorised; or
- (b) where that system of street-lighting is not illuminated throughout the hours of darkness—
 - (i) the sign must be illuminated by internal or external lighting for so long as that system is illuminated and must also be reflectorised; or
 - (ii) the sign must be illuminated throughout the hours of darkness by internal or external lighting and may also be reflectorised.

(81) 1988 c. 53.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(2) Sub paragraph (1) applies to the sign at item 5 of the Part 4 table only when placed within 50 metres of any junction with another road from which traffic can approach it.

8. The sign need not be illuminated.

9. The road marking must be reflectorised where indicating the boundary of a mandatory cycle lane.

10.—(1) When the road marking is used, studs must also be placed.

(2) The studs must incorporate—

- (a) white reflectors;
- (b) white retroreflecting material;
- (c) a light source that emits, during the hours of darkness, a steady white light; or
- (d) any combination.

(3) In the case of the markings shown in parts A and C of the diagram, the studs must be fitted as a single line between the continuous line and the non-continuous line of the marking and be spaced not less than 3 metres nor more than 4.5 metres apart.

(4) In the case of the marking shown in in part B of the diagram, the studs must be fitted either in opposite pairs within the width of each of the two lines that run longitudinally to the flow of traffic or as a single line between those lines and in either case the studs must be placed not less than 3 metres nor more than 4.5 metres from the nest stud in the line.

(5) In the case of the marking shown in part D of the diagram, the studs must form a single line between the continuous line and the non-continuous line of the marking and be spaced not less than 3 metres nor more than 4.5 metres apart and the direction of the line of studs is not to be changed by reason of the switching of the continuous and non-continuous lines of the marking as shown in the diagram at that part.

(6) The external part of the stud that is visible when the stud is in place must be—

- (a) white;
 - (b) of a natural metallic finish;
 - (c) of another neutral colour; or
 - (d) clear,
- or any combination (but see sub-paragraph (7) for an exception).

(7) The external part of a stud that is visible when the stud is in place temporarily during road works must be fluorescent green-yellow except to the extent—

- (a) it consists of white reflectors or retroreflecting material; or
- (b) it is necessary for it to be a different colour or clear in order for the stud to emit white light.

11.—(1) When the marking is used, studs must also be placed.

(2) The studs must incorporate—

- (a) white reflectors;
 - (b) white retroreflecting material; or
 - (c) a light source that emits, during the hours of darkness, a steady white light,
- or any combination.

(3) The studs must be fitted in opposite pairs within the width of each of the two lines that run longitudinally to the flow of traffic and the studs must be placed not less than 3 metres nor more than 4.5 metres apart.

- (4) The external part of the stud that is visible when the stud is in place must be—
 - (a) white;
 - (b) of a natural metallic finish;
 - (c) of another neutral colour; or
 - (d) clear,or any combination (but see sub-paragraph (5) for an exception).
 - (5) The external part of a stud that is visible when the stud is in place temporarily during road works must be fluorescent green-yellow except to the extent—
 - (a) it consists of white reflectors or retroreflecting material; or
 - (b) it is necessary for it to be a different colour or clear in order for the stud to emit white light.
- 12.**—(1) When the marking is used, studs may also be placed.
- (2) The studs must incorporate—
 - (a) red reflectors;
 - (b) red retroreflecting material; or
 - (c) a light source that emits, during the hours of darkness, a steady red light,or any combination.
 - (3) The studs must be fitted at the side of, and adjacent to the solid line forming the boundary of the marking.
 - (4) The external part of the stud that is visible when the stud is in place must be—
 - (a) red
 - (b) white;
 - (c) of a natural metallic finish;
 - (d) of another neutral colour; or
 - (e) clear,or any combination (but see sub-paragraph (5) for an exception).
 - (5) The external part of a stud that is visible when the stud is in place temporarily during road works must be fluorescent green-yellow except to the extent—
 - (a) it consists of red reflectors or retroreflecting material; or
 - (b) it is necessary for it to be a different colour or clear in order for the stud to emit red light.
- 13.** The road marking must be reflectorised.
- 14.** The road marking may, except at a roundabout, be varied by replacing the boundary line with the marking at item 12 or 13 of the sign table in Part 4 of Schedule 11.
- 15.** The road marking may be varied as follows—
 - (a) the pattern of diagonal lines on each side of the level crossing may be extended longitudinally within the limit of the marking by increasing the number of diamond shapes on the approach side and the number of diagonal crosses on the leaving side; and
 - (b) parts of the marking may be omitted to accommodate the road markings at—
 - (i) diagram A of item 23 in the Part 6 sign table; or
 - (ii) item 2 or 3 of the sign table in Part 4 of Schedule 11.
- 16.** The road marking may be varied as follows—

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) the pattern of diagonal lines on each side of the level crossing may be extended longitudinally within the limit of the marking by increasing the number of diamond shapes on the approach side and the number of diagonal crosses on the leaving side; and
- (b) parts of the marking may be omitted to accommodate the road markings at item 2 or 3 of the sign table in Part 4 of Schedule 11.

PART 9

The Schedule 9 General Directions

1.—(1) Subject to sub-paragraph (2), the sign must only be placed to indicate the effect of an Act, order, regulation, bylaw, resolution or notice which prohibits or restricts the use of the road by traffic.

(2) Sub-paragraph (1) does not apply to the sign provided for at item 7 of the Part 6 sign table where the sign is used to indicate the boundary of a mandatory with-flow cycle lane.

2. The sign must only be placed to indicate the effect of a statutory provision which restricts the use of the road carried by a bridge or other structure—

- (a) in the case of vehicles required to be marked with their maximum gross weight, to any vehicle with a maximum gross weight not exceeding that indicated on the sign; or
- (b) in the case of vehicles not required to be marked with their maximum gross weight but required to be marked with their unladen weight, to any vehicle with an unladen weight not exceeding the gross weight indicated on the sign.

3. The sign may only be placed at a junction with another road if the same sign has not been placed on the other road so as to control traffic passing through the junction on that other road.

4.—(1) The stop sign must only be placed in conjunction with the road markings at items 1 (“the diagram 1002.1 marking”) and 2 (“the diagram 1022 marking”) of the sign table in Part 6.

(2) The diagram 1002.1 marking must only be placed in conjunction with the stop sign and the diagram 1022 marking.

(3) The diagram 1022 marking must only be placed in conjunction with the stop sign and the diagram 1002.1 marking.

5. The sign provided for at item 2 of the sign table in Part 2 must only be placed in conjunction with the road markings at items 3 and 4 of the sign table in Part 6.

6.—(1) The sign provided for at item 6 in the sign table in Part 2 must only be placed in conjunction with—

- (a) the road markings provided for at item 5 and 6 of the sign table in Part 6; or
- (b) the road markings shown in that sign table at items 3, 4 and 5 where the sign is placed in conjunction with the sign at item 2 in the sign table in Part 2.

(2) The road marking provided for at item 5 of the sign table in Part 6 must only be placed in conjunction with the sign at item 6 of the sign table in Part 2.

7. The sign must only be placed in conjunction with a sign at item 28, 29, 30, 31 and 32 of the sign table in Part 2 of Schedule 2.

8.—(1) The requirement in paragraph 4, 5 or 6 to place a relevant upright sign in conjunction with a relevant marking does not apply during the execution of works if—

- (a) those works necessitate the temporary removal of the marking; or

- (b) the sign is placed only temporarily in connection with the execution of works on a road.
- (2) For the purposes of sub-paragraph (1) “relevant upright sign” and “relevant marking” mean—
 - (a) in the case of paragraph 4, the sign and marking referred to in that paragraph;
 - (b) in the case of paragraph 5, the sign and marking referred to in that paragraph; and
 - (c) in the case of paragraph 6, the sign and marking referred to in that paragraph.
- 9. The road marking must not be placed on an area of carriageway at a gyratory system or roundabout unless entry of traffic into that area of carriageway is at all times controlled by traffic light signals.
- 10. The sign must only be placed in combination with the sign at item 1 or 2 of the sign table in Part 2.
- 11. The sign must only be placed in combination with the sign at item 2 of the sign table in Part 2.
- 12. The road marking must only be placed in conjunction with the road marking at item 3 or 6 of the sign table in Part 6.
- 13. The back of the sign may be of any colour.
- 14. The road marking may only be placed in conjunction with the road marking at item 9 of the sign table in Part 6.

SCHEDULE 10

Regulation 3, Direction 3

Signs for speed limits

PART 1

Provisions applying to signs in Part 2

- 1. Information or a restriction of a description in column 2 of an item in the Part 2 sign table must be conveyed by a sign which—
 - (a) is of the colour and type; and
 - (b) complies with the requirements as to size,
 - shown in the diagram in column 3 of the item, or that diagram as varied in accordance with column 4.
- 2. A provision of Part 3 applies to a sign provided for in the Part 2 sign table where indicated in column 5 of that table (by reference to a paragraph number in Part 3).
- 3. A Schedule 10 General Direction applies to a sign where indicated in column 6 of the Part 2 sign table (by reference to a number equivalent to the Schedule 10 General Direction in Part 4).

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

PART 3

Provisions applying to signs in Part 2

1. Where the sign is a variable message sign which displays the numeral by means of light-emitting characters or symbols in such a way that the sign is only visible when associated equipment detects the presence of a vehicle exceeding the speed limit indicated by the sign, the variable message sign may display, beneath the sign displayed on it, the legend “SLOW DOWN” in characters having a height not less than one quarter of the height of the displayed sign.

2. Where the sign is a terminal sign and is erected on a trunk or principal road within 50 metres of any lamp lit by electricity that has been placed there in order to provide illumination to users of the road, the illumination requirements for the sign are—

- (a) where the lamp is illuminated throughout the hours of darkness, the sign must be illuminated by internal or external lighting for so long as the lamp is illuminated and may also be reflectorised; or
- (b) where the lamp is not illuminated throughout the hours of darkness—
 - (i) the sign must be illuminated by internal or external lighting for so long as the lamp is illuminated and must also be reflectorised; or
 - (ii) the sign must be illuminated throughout the hours of darkness by internal or external lighting and may also be reflectorised.

3. Two or more signs placed at, or near, the same point for the same purpose must, if they are terminal signs, be illuminated by the same method.

4. The road marking must be reflectorised.

PART 4

The Schedule 10 General Directions

1.—(1) The sign provided for at item 5 of the sign table in Part 2 (“the diagram 674 sign”) may only be placed where no part of the road to which the speed limit applies is more than 50 metres from a traffic calming feature.

(2) The restriction in sub-paragraph (1) does not apply in respect of a road which is a cul-de-sac that is less than 80 metres long.

(3) Each of the following is a traffic calming feature—

- (a) a road hump constructed pursuant to section 90A of the Highways Act 1980⁽⁸²⁾ (“the 1980 Act”) or section 36 of the Roads (Scotland) Act 1984⁽⁸³⁾ and in accordance with the Highways (Road Humps) Regulations 1999⁽⁸⁴⁾ or the Road Humps (Scotland) Regulations 1998⁽⁸⁵⁾;
- (b) traffic calming works constructed in accordance with section 90G of the 1980 Act⁽⁸⁶⁾ or section 39A of the Roads (Scotland) Act 1984⁽⁸⁷⁾ and in accordance with the Highways

⁽⁸²⁾ 1980 c. 66. Section 90A was inserted by the Transport Act 1981 (c. 56), Schedule 10, Part 1, paragraph 2 and amended by: the Road Traffic Act 1991 (c. 40), Schedule 4, paragraph 12; the Local Government Act 1985 (c. 51) Schedule 17; the Deregulation Act 2015 (c. 20), Schedule 10, paragraph 14.

⁽⁸³⁾ 1984 c. 54. Section 36 was amended by the Road Traffic Act 1991 (c. 40), Schedule 4, paragraph 38.

⁽⁸⁴⁾ S.I. 1999/1025; amended by S.I. 2005 S.I. 2004/3168, S.I. 2005/2929 and S.I. 2015/377.

⁽⁸⁵⁾ S.I. 1999/1448; amended by S.I. 1999/1000 and S.S.I. 2002/419.

⁽⁸⁶⁾ Section 90G was inserted by the Traffic Calming Act 1992 (c. 30), section 1(2), Schedule 1 and amended by the Greater London Authority Act 1999 (c. 29), section 269(1) to (3).

⁽⁸⁷⁾ Section 39A was inserted by the Traffic Calming Act 1992, section 2(1), Schedule 2.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(Traffic Calming) Regulations 1999⁽⁸⁸⁾ or the Roads (Traffic Calming) (Scotland) Regulations 1994⁽⁸⁹⁾;

- (c) a refuge for pedestrians which was constructed pursuant to section 68 of the 1980 Act, or section 27(c) of the Roads (Scotland) Act 1984, after 15th June 1999 and is constructed so as to encourage a reduction in the speed of traffic using the carriageway;
- (d) a variation of the relative widths of the carriageway or of any footway pursuant to section 75 of the 1980 Act, or section 1(1) or 2(1) of the Roads (Scotland) Act 1984, which—
 - (i) was carried out after 15th June 1999 for the purpose of encouraging a reduction in the speed of traffic using the carriageway; and
 - (ii) had the effect of reducing the width of the carriageway;
- (e) a horizontal bend in the carriageway through which all vehicular traffic has to change direction by no less than 70 degrees within a distance of 32 metres as measured at the inner kerb radius;
- (f) a sign provided for at item 1 of the Part 2 sign table varied to “20”; or
- (g) a road marking provided for at item 9 of that table varied to “20”.

(4) At least one traffic calming feature as defined in paragraph (2)(a) to (e) must be placed within the zone indicated by the diagram 674 sign.

(5) For the purposes of sub-paragraph (1), the distance of 50 metres is to be measured along roads to which the speed limit indicated by the diagram 674 sign applies.

2. The sign must not be placed as a repeater sign where the road is subject to a maximum speed limit of 30 mph and has a system of carriageway lighting.

3. The sign must not be placed as a repeater sign—

- (a) on a motorway; or
- (b) where a road, other than a motorway, does not have a system of carriageway lighting.

4. The sign—

- (a) must only be placed to indicate the effect of an Act, order, regulation, bylaw, resolution or notice which restricts the use of the road by traffic; and
- (b) when placed as a terminal sign, must be placed as near as practicable to the point that the speed limit begins or ends.

5. If the road marking is placed to indicate where a maximum speed limit commences, it must be placed in conjunction with an upright sign provided for at item 1, 5, 6 or 8 of the Part 2 sign table.

6.—(1) Sub-paragraph (2) applies where the backing board for the sign is yellow.

(2) When placed on the same backing board as the sign provided for at item 81 of the sign table in Part 2 of Schedule 11, the backing board may be of any shape.

⁽⁸⁸⁾ S.I. 1999/1026; amended by S.I. 2000/1511.

⁽⁸⁹⁾ S.I. 1994/2488; amended by S.I. 1999/1000 and S.S.I. 2002/419.

SCHEDULE 11

Regulation 3, Direction 3

Signs that give information, are advisory or guide traffic

PART 1

Provisions applying to signs in Part 2

1. Except for item 75, a warning or information of a description in column 2 of an item in the Part 2 sign table must be conveyed by a sign which is—

- (a) of the colour and type; and
- (b) complies with the requirements as to size,

shown in the diagram in column 3 of the item, or that diagram as varied in accordance with column 4 (by reference to paragraphs in Part 5).

2. In respect of item 75 (traffic mirror), the mirror must be as specified in column 3.

3. A paragraph of Part 6, specified by reference to a number in column 5 of an item in the Part 2 sign table, applies to the sign provided for at that item.

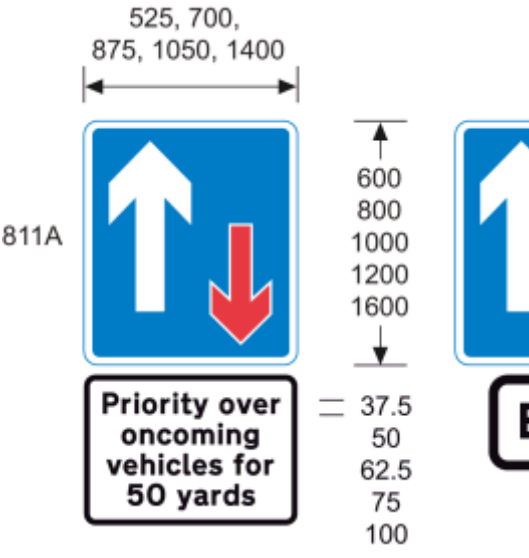

4. A number in column 6 of an item in the Part 2 sign table indicates that the Schedule 11 General Direction bearing that number applies to the sign provided for at that item.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

PART 3

Provisions applicable to markings in Part 4

1. The warning or information of a description in column 2 of an item in the Part 4 sign table must be conveyed by road markings that are—

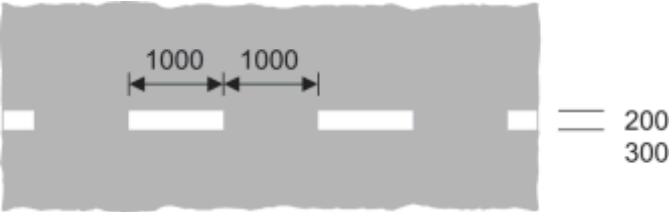

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) of the colour and type; and
 - (b) comply with the requirements as to size, shown in the diagram in the same column of the item, or that diagram as varied in accordance with column 3 (by reference to paragraphs in Part 5).
2. A provision of Part 6 mentioned (by reference to paragraph number) in column 4 of an item in the Part 4 sign table applies to the marking provided for at that item.
3. A reference to a “longitudinal marking” is to a marking placed on the carriageway of a road longitudinally to the flow of traffic.

PART 5

Permitted variants of the signs in Parts 2 and 4

1. A distance may be added or varied, but, in relation to the signs provided for at items 11 and 16 in the Part 2 sign table, the distance must not exceed two miles.
2. The distance may be omitted and, if shown in a separate panel on the sign with no other legend, the panel must be omitted.
3. The distance may be replaced by an arrow pointing horizontally to the left or to the right.
4. The symbol, or all symbols together, may be reversed in a mirror image.
- 5.—(1) An arrow pointing horizontally to the left or to the right may be added or reversed.
(2) The arrow may be omitted.
6. Symbols and arrows indicating the road layout may be varied.
7. The blue panel need not extend to the edge of the nameplate and the black border may be omitted.
8. The name of the tunnel and the indication of the length may be varied.
9. The legend “Except buses” may be omitted or varied to “Bus lane”, “Except cycles” or “Except buses & cycles”; the number of lanes may be varied and any arrow may indicate two directions and point horizontally to the left and ahead, horizontally to the right and ahead or horizontally to the left and to the right.
10. The time period may be varied in accordance with Part 1 of Schedule 18, or omitted and where the times are shown in a separate panel on the sign, the panel must be omitted when the times are so omitted.
11. The local bus symbol may be varied to the bus symbol shown at item 40 of the sign table in Part 2 of this Schedule.
12. The permitted variants are—
 - (a) the arrow and cycle symbol may be reversed (if both are reversed);

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (b) “lane” may be varied to “track” in which case the arrow may be omitted and the symbol reversed;
 - (c) “lane” may be varied to “lanes” or “tracks” in which case the arrow must be omitted and the cycle symbol reversed.
- 13.** “Authorised vehicles” and symbols, other than the bus symbol, may be omitted as appropriate.
- 14.** The continuous line and the broken line may be varied to accord with the layout of the road markings—
- (a) at item 10 of the sign table in Part 4 of this Schedule and item 11 of the sign table in Part 6 of Schedule 9 when placed to indicate the extent of a bus lane; or
 - (b) at item 8 of the sign table in Part 4 of this Schedule and item 7 of the sign table in Part 6 of Schedule 9 when placed to indicate the extent of a cycle lane.
- 15.** The words “LANE” and “LANES” may be varied to “TRACK”.
- 16.** The number of taxis may be varied as appropriate and information relating to the taxi services from that rank may be shown in the white space in lettering of any colour with letter height not exceeding 25 mm, or the white space may be omitted.
- 17.** The time period may be omitted or varied in accordance with Part 1 of Schedule 18 and the face of the sign may be curved.
- 18.—**(1) The white area is to be filled with maps or a legend in any colour with lettering of any colour.
- (2) The x-height of a legend referred to in sub-paragraph (1) must not exceed 25 mm.
 - (3) The “i” symbol may be omitted.
 - (4) The sign may have more than one panel or side if each is of the design prescribed in the diagram.
- 19.** The logo of a local tourist organisation may be added at the top of the sign.
- 20.** The legend “No.1” may be varied to another number, a letter or a compass point.
- 21.—**(1) The legend may be omitted or varied to “Speed cameras”, “Average speed check”, “Traffic signal and speed cameras”, “Traffic enforcement cameras”, “Police cameras”, “Police enforcement cameras” or “Bus lane cameras”.
- (2) The legend may include, or a legend may be added for, the name, and logo, of the enforcement authority.
- 22.** “not 24 hrs” may be omitted.
- 23.** The name or location of the crossing in the top panel may be varied as appropriate and may be displayed on any number of lines; “TO CONTACT RAILWAY” may be on one line; “RAILWAY” may be varied to “TRAM Co.” and the telephone number may be varied as appropriate.
- 24.** Place names, street names or the name of a geographical area may be omitted or varied as appropriate and may be displayed on any number of lines.
- 25.—**(1) Identification numbers of routes—
- (a) may be varied and may include capital letters; and
 - (b) where indicating a route to which a particular route leads, may be shown in brackets.

(2) When a route (other than a national or regional cycle route) is indicated, the route number and background of the route number patch may be in any contrasting colours but, if the route number patch has a light background, the white edge must be omitted.

26. When placed on a primary route the sign must be varied so that—

- (a) the background colour is dark green;
- (b) the border, any legend and any symbol (other than a red bar) is white; and
- (c) any red bar has a white edge.

27. When placed on a non-primary route the sign must be varied so that—

- (a) the background colour is white; and
- (b) the border, any legend and any symbol is black.

28. When placed on a motorway the sign must be varied so that—

- (a) the background colour is blue;
- (b) the border, any legend and any symbol (other than a red bar) is white; and
- (c) any red bar has a white edge.

29. The reference or identification number and any route number may be varied as appropriate.

30. Letters, numerals and other characters incorporated into the sign need not comply with the requirements of Schedule 17.

31.—(1) The bus symbol may be omitted.

(2) “Request” may be inserted before “Bus Stop”.

(3) “Stop” may be varied to “Stand”.

(4) “Bus Stop” may be varied to “Request Stop” when the bus symbol is shown.

(5) The legend may be in capital letters.

(6) The background, symbol and lettering may be in any contrasting colours.

(7) The face of the sign may be curved.

32. “BUS STOP” may be varied to “BUS STAND” and the face of either sign may be curved.

33. “Tram” may be varied to “Request” and the face of the sign may be curved.

34. Supplementary plates may be added to the sign to give additional information such as bus routes numbers, the name of the stopping place or boarding point and a reference to a telephone enquiry line.

35.—(1) The place name may be varied.

(2) Arms or a logo may be added, together with one of the following—

- (a) a message of welcome;
- (b) a phrase denoting the ceremonial or historic nature of the area; or
- (c) a phrase denoting an item of local geographical or historical interest,

where the phrase provided for at (a), (b) or (c) does not exceed three words.

(3) The place name may be varied to the name of a river, inland waterway or bridge.

36.—(1) The place name may be varied.

(2) The arms or logo may be omitted or varied.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (3) “Welcome to” may be omitted or varied to a similar phrase.
- (4) The place name may be preceded by—
 - (a) “County of”;
 - (b) “Ceremonial County of”;
 - (c) “Historic County of”;
 - (d) a phrase provided for at paragraphs (a) to (c) preceded by “Welcome to the” or similar phrase (and for the purposes of this paragraph “ceremonial” and “historic” may be used instead of “Ceremonial” and “Historic”).

and a reference to “County” may be replaced by a reference to the appropriate administrative or ceremonial area.

- (5) The place name may be followed by—
 - (a) “County Council”; or
 - (b) “County Council welcomes you” or a similar phrase,

and a reference to “County Council” may be replaced by a reference to the appropriate authority for the administrative area.

- (6) A phrase denoting an item of local, geographical or historical interest may be added.
- (7) A reference to not more than two places outside the United Kingdom with which the place is twinned may be added.
- (8) In Scotland, the Scottish Gaelic equivalent of—
 - (a) the place name;
 - (b) “Welcome to”, or a similar phrase as provided for in sub-paragraph (3); and
 - (c) a phrase provided for at sub-paragraph (4),

may be used either in addition to, or instead of, the English version.

- (9) The number of words in addition to the place name should not exceed eight.
- (10) The legend, border and background may be in any contrasting colours except red.
- (11) The border may be omitted.
- (12) The shape and layout of the sign may be varied and the relative sizes of lettering on different parts of the sign may be varied provided the place name remains the most prominent feature.

37.—(1) The place name may be varied.

- (2) “Welcome to” may be omitted or varied to a similar phrase.
- (3) “City of” or “Welcome to the City of” may precede the place name.
- (4) “Please drive carefully” may be omitted or varied to “Thank you for driving carefully” or another road safety message of not more than five words.
- (5) In Scotland, the Scottish Gaelic equivalent of—
 - (a) the place name;
 - (b) “Welcome to” or a similar phrase; and
 - (c) “City of” or “Welcome to the City of”,

may be used either in addition to, or instead of, the English version.

(6) When “Welcome to” is omitted, a phrase denoting an item of local geographical or historical interest, including “Market town of” or similar, may be added above the place name provided the phrase does not exceed five words.

(7) The relative sizes of lettering on different parts of the sign may be varied provided the place name remains the most prominent feature.

38.—(1) The place name may be varied as appropriate.

(2) The arms may be omitted, varied as appropriate, or varied to a logo or symbol indicating a local landmark or historical feature.

(3) The district council name may be omitted or varied to a name of an appropriate authority.

(4) “Welcome to” may be omitted or varied to a similar phrase.

(5) The legend “City of” or “Welcome to the City of” may precede the place name.

(6) The place name may be varied to the name of—

(a) a river, inland waterway or bridge;

(b) a National Park;

(c) in England and Wales, an area of outstanding natural beauty designated as such under section 82 of the Countryside and Rights of Way Act 2000⁽⁹²⁾; or

(d) in Scotland, a National Scenic Area designated as such under section 263A of the Town and Country Planning (Scotland) Act 1997⁽⁹³⁾.

(7) In Scotland, the Scottish Gaelic equivalent of—

(a) the place name;

(b) “Welcome to” or a similar phrase; and

(c) “City of” and “Welcome to the City of”,

may be used either in addition to, or instead of, the English version.

(8) The symbols on the brown panel may be varied to any of those shown in Parts 14 to 18 of Schedule 12, but must not exceed three in number.

(9) The symbols and brown panel may be omitted.

(10) “Please drive carefully” may be omitted or varied to “Thank you for driving carefully” or another road safety message.

(11) A phrase denoting an item of local geographical or historical interest, including “Market town of” or similar, may be added.

(12) “Twinned with” may be varied to “Twin town” or “Twin towns”.

(13) The name of the twin town may be varied.

(14) The names of additional twin towns may be added.

(15) Flags, arms or logos associated with the twin towns may be added.

(16) The reference to twin towns may be omitted.

(17) The legend, border and background other than the brown panel and its symbols, may be in any contrasting colours except red.

(18) The border may be omitted.

(19) The shape and layout of the sign may be varied and the relative sizes of lettering on different parts of the sign may be varied provided the place name remains the most prominent feature.

39.—(1) The place name may be varied as appropriate.

⁽⁹²⁾ 2000 c. 37.

⁽⁹³⁾ 1997 c. 8. Section 263A was inserted into the 1997 Act by the Planning etc. (Scotland) Act 2006 (asp 17), section 50.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(2) “Welcome to” may be omitted or varied to “City of” or a similar phrase of not more than three words, or five words when “The Flower City” is omitted after the place name.

(3) “The Flower City” may be omitted or varied to a similar phrase of not more than three words, or five words when “Welcome to” is omitted before the place name.

(4) In Scotland, the Scottish Gaelic equivalent of—

(a) the place name;

(b) “Welcome to” and “City of” or similar phrase may be used either in addition to, or instead of, the English version.

(5) The relative sizes of lettering on different parts of the sign may be varied provided the place name remains the most prominent feature.

40.—(1) Subject to sub-paragraph (2) the numeral “30” may be varied or may be substituted by other information and the background, border and any symbols and characters may be in any colour.

(2) The variations referred to in sub-paragraph (1) are not permitted to the extent that they would not be in accordance with the exercise of any functions by the Office of Rail and Road.

41.—(1) An audible or tactile warning in the form of a raised rib may be incorporated into the white parts of the marking, in the manner shown at item 12 of the sign table in Part 4 of this Schedule, when the marking is used to delineate the boundary between an emergency refuge area and an actively managed hard shoulder.

(2) Ribs on an individual white mark must be 250 mm apart.

42. The notch may be omitted from the raised rib and the width of the line must be varied to 150 mm when it is used to delineate the back edge of an actively managed hard shoulder.

43. The notch may be omitted from the raised rib and the width of the line must be 200 mm when used on roads with hard shoulders.

44. When used in circumstances other than shown in the diagram the marking must be varied to accord with the direction of approaching traffic.

45. Route numbers and place names may be varied as appropriate but the words “turn left”, “ahead” or “turn right” must not be included in the marking; arrows may be omitted.

46. The curvature of the arrow may be varied.

47. One of the boundary lines must be omitted when—

(a) the marking is placed alongside the marking at item 7 or 11 of the sign table in Part 6 of Schedule 9 denoting a cycle lane or bus lane respectively; or

(b) the marking is placed alongside the marking shown in diagram A at item 23 of the sign table in Part 6 of Schedule 9 indicating to vehicular traffic the requirements in paragraph 9 in Part 7 of that Schedule.

48. The width of the longitudinal line may be varied to 150 mm when used on an all-purpose road without hard shoulders and the boundary line may be replaced by the marking shown in the diagram at item 12 or 13 of the sign table in Part 4.

49.—(1) The marking may be used on the off side edge of the carriageway with the angle of the hatching reversed.

(2) The boundary line must be omitted when the marking is placed alongside the marking shown in the diagram at item 7 or 11 of the sign table in Part 6 of Schedule 8, denoting a cycle lane or bus lane respectively.

50. The boundary line and edge of carriageway line may be replaced by the marking shown in the diagram at item 12 or 13 of the sign table in Part 4 of this Schedule varied to 200 mm wide.

51.—(1) The direction of the chevrons must be reversed when the direction of travel is in the opposite direction.

(2) One of the boundary lines must be omitted when the marking is placed alongside the marking provided for at item 7 or 11 of the sign table in Part 6 of Schedule 8, denoting a cycle lane or bus lane respectively.

52. The distance between each end of each bar to the edge of the carriageway or the edge line may be increased to a maximum of 750 mm.

53. The colour of the telephone symbol and arrow must be varied so that they are—

- (a) black if the road is a non-primary route; or
- (b) dark green if the road is a primary route.

54. The wheelchair symbol may be omitted and the width of the sign reduced to 300 mm.

55. The permitted variants are—

- (a) the relative position of the number and “SOS” may be reversed;
- (b) a flashing white light may be added to the sign.

56. “AND USE PHONE” may be varied to “AND USE SOS PHONE” or “& USE SOS PHONE”.

57. The width of the line may be 50 mm when the marking is placed on a cycle track.

58. “The Driver and Vehicle Standards Agency” may be varied to—

- (a) “DVSA”; or
- (b) the name of a successor organisation to the Driver and Vehicle Standards Agency (in respect of its function of approving testing centres) or an acronym for that successor organisation.

PART 6

Requirements applying to signs in Parts 2 and 4

1. Where the sign is placed temporarily on a road by a constable or person acting under the instructions (whether general or specific) of the chief officer of police in connection with a temporary statutory provision, the diameter may be reduced to not less than 200 mm.

2. The letters and numerals in the first diagram must have the proportions and form shown in Part 1 of Schedule 17.

3. The road marking must not project above the surface of the adjacent carriageway by more than 6 mm except for the raised ribs which may project above the surface of the remainder of the marking by not more than the maximum dimension indicated on the lower part of the diagram illustrating the side elevation of the marking.

4.—(1) Subject to sub-paragraphs (2) and (3), where the sign is erected on a road subject to a speed limit greater than 20 mph and is within 50 metres of any lamp which forms part of a system of street-lighting, the illumination requirements for the sign are—

- (a) where that system of street-lighting is illuminated throughout the hours of darkness, the sign must be illuminated by internal or external lighting and may also be reflectorised; or
- (b) where that system of street-lighting is not illuminated throughout the hours of darkness—

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (i) the sign must be illuminated by internal or external lighting for so long as that system is illuminated and must also be reflectorised; or
 - (ii) the sign must be illuminated throughout the hours of darkness by internal or external lighting for so long as that system is illuminated and may also be reflectorised.
- (2) Sub-paragraph (1) does not apply to a sign mounted on a self-righting bollard.
- (3) Where the sign is mounted on a bollard fitted with a means of lighting it internally, the sign must be illuminated throughout the hours of darkness by that means of internal lighting.

5. The sign need not be illuminated.

6. The parts of the sign coloured orange and white must be reflectorised and the parts of the sign coloured orange may also be fluorescent.

7. The marking must be reflectorised.

8. Studs incorporating—

- (a) reflectors;
- (b) retroreflecting material;
- (c) a light source which emits a steady light during the hours of darkness; or
- (d) any combination,

may be used with the road marking provided they are placed in the gaps between parts of a broken line, or alongside a solid line.

9. Studs incorporating—

- (a) reflectors;
- (b) retroreflecting material;
- (c) a light source which emits a steady light during the hours of darkness; or
- (d) any combination,

may be used with the road marking provided they are placed at the side of, and adjacent to, the line shown in the diagram.

10. The light reflected by the reflectors or retroreflecting material, or emitted by the light source, from a stud must be white.

11. The light reflected by the reflectors or reflecting material, or emitted by the light source, from a stud must be—

- (a) red—
 - (i) when placed in conjunction with the marking shown at item 27 of the table in Part 4 of this Schedule, as viewed in the direction of travel;
 - (ii) when placed in conjunction with a road marking to indicate the nearside, as viewed in the direction of travel, edge of the carriageway of any road, except a motorway alongside which there is an actively managed hard shoulder; or
 - (iii) when placed in conjunction with the marking at item 11 in the table in Part 4 of this Schedule, to indicate the boundary between the carriageway of a motorway and an actively managed hard shoulder;
- (b) amber, to indicate the off side edge of a carriageway which—
 - (i) is contiguous to a central reservation or to traffic cones or cylinders at road works or to the road marking at item 24 of the table in Part 4 of this Schedule; or
 - (ii) carries traffic in one direction only; and

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (c) green, when placed in conjunction with a road marking at item 10 of the table in Part 4 of this Schedule, where the edge of any part of the carriageway available for through traffic at a junction, a lay-by or a parking place is so indicated to drivers of approaching vehicles.

12. The external part of a stud that is visible when the stud is placed must be—

- (a) the colour of the reflectors or retroreflecting material (where used);
- (b) white;
- (c) of a natural metallic finish;
- (d) of another neutral colour;
- (e) clear; or
- (f) any combination,

but when the stud is in place temporarily during road works it must be fluorescent green-yellow except to the extent it consists of reflectors or retroreflecting material necessary to reflect the colour required under paragraph 10 or 11 or it is necessary for it to be a different colour or clear in order for the stud to emit, by a light source, the colour of light required under paragraph 10 or 11.

13. Any frame used must not be reflectorised.

14.—(1) When placed on the main carriageway, the leading edge of each bar marking must be placed at the appropriate distance specified in the table below.

(2) For the purposes of this paragraph—

- (a) each bar marking is referred to in the table below by the capital letter D followed by a number;
- (b) a bar marking is placed at the appropriate distance specified in the table below if the distance between the point at which the leading edge of the marking is placed and the point at which the leading edge of bar marking D1 is placed is the distance specified in relation to the marking in the table; and
- (c) the distance specified in relation to a bar marking is the distance in metres which appears immediately below the reference to the bar marking in the table below.

PART 7

The Schedule 11 General Directions

1. Where the sign is mounted on a bollard—
 - (a) the bollard must—
 - (i) be illuminated by means of internal lighting; and
 - (ii) conform to British Standard BS EN 12899-2:2007⁽⁹⁴⁾; or
 - (b) in the case of a self-righting bollard, the bollard—
 - (i) must be illuminated by the use of retroreflecting material; and
 - (ii) conform to British Standard BS 8442:2015⁽⁹⁵⁾.
2. The back of the sign may be of any colour.
- 3.—(1) Sub-paragraph (2) applies in relation to a yellow backing board.
(2) Where the sign is placed on the same backing board as the maximum speed limit sign, the backing board may be of any shape.
4. Where the sign is placed on a backing board, no other sign may be included on the same board.

SCHEDULE 12

Regulation 3, Direction 3

Directional signs

PART 1

General provisions applying to Parts 2 to 20

1. Information of a description in column 2 of a sign table in Parts 3, 5, 7, 9, 11, 12, 14, 15, 16, 17, 18, or 20 of this Schedule, or a combination of any such descriptions, must be conveyed by a sign (a “directional sign”) consisting of the legend or symbol, or a combination, provided for in respect of that description or descriptions in accordance with the provisions of this Part and Parts 2 to 20 on an appropriate background.
2. Subject to paragraph 4, an appropriate background for a sign of a description specified in column 2 of an item in the Part 2 sign table is one of the colour and type shown in either diagram A or B of the item.
3. A legend on a directional sign must be of a height provided for in column 4 of the Part 2 sign table (unless in relation to a particular legend it is provided elsewhere that the legend is to be a different height) and the sign must be of a size appropriate to accommodate its elements (including any legend).
4. An appropriate background may differ from diagram A or B in that—
 - (a) a diagram A sign background may be divided into separate panels;
 - (b) a diagram B sign background may be reversed to point to the left; and

⁽⁹⁴⁾ Publication date 30th April 2008 (ISBN 9780580880520); corrigendum September 2014.

⁽⁹⁵⁾ Publication date 30th November 2015 (ISBN 9780580773167).

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(c) the background at item 8 or 9 of the sign table in Part 2 (signs for cyclists and pedestrians respectively) may be varied in accordance with column 4 at that item.

5. Where a sign indicates a road or route and that road or route is temporarily closed, a board coloured red and displaying in white lettering the words “Road temporarily closed” or “Route temporarily closed” may be fixed to the sign, or to that part of the sign where that road or route is indicated, in order to cancel temporarily the indication.

6.—(1) A sign with a background provided for at item 5, 8 or 9 of the Part 2 sign table need not be illuminated.

(2) Sub-paragraph (1) does not apply to a sign with an item 5 background when placed on a motorway or if the sign—

- (a) gives directions to a leisure facility of a description at item 5, 6, 7, 10, 11 or 12 of the Part 14 sign table; or
- (b) includes the legend “Tourist hostel”.

7. A directional sign which only conveys directions to a telephone or public toilets (or both) need not be illuminated.

8. Where a diagram A sign with a background provided for at item 1 in the Part 2 sign table is mounted above the carriageway of a motorway within 50 metres of any lamp which forms part of a system of street-lighting, the illumination requirements for the sign are—

- (a) where that system of street-lighting is illuminated throughout the hours of darkness, the sign must be illuminated by internal or external lighting for so long as that system is illuminated and may also be reflectorised; or
- (b) where that system of street-lighting is not illuminated throughout the hours of darkness—
 - (i) the sign must be illuminated by internal or external lighting for so long as that system is illuminated or and must also be reflectorised, or

PART 3

Legends that may be shown on signs in Part 2

1. Information of a description in column 2 of an item in the sign table in this Part must be conveyed on a directional sign by one or more of the legends in column 3 of that item on an appropriate background.

2. The inclusion of a legend is subject to such restrictions, and further descriptions, as are given in column 3 in respect of that legend and any restriction provided for is without prejudice to any provision elsewhere in this Schedule that provides that legends contained in Part 3 may be placed on a directional sign in a manner that does not comply with the restriction.

3.—(1) Any word forming part of a legend provided for in the sign table in this Part may be written—

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) entirely in lower case letters;
- (b) entirely in capital letters; or
- (c) in a mixture of capital and lower case letters.

(2) Paragraph (1) does not apply where alternative provision for a word is made in the sign table in this Part.

4.—(1) This paragraph applies to a legend provided for in this Part in the following circumstances—

- (a) the legend is the name of a place that is a city, town, village or tourist destination; and
- (b) the directional sign on which the legend appears—
 - (i) has a background provided for at item 2, 3 or 5 of the sign table in Part 2; and
 - (ii) is placed on a road in Scotland (except when placed on a motorway).

(2) The name of the place may be written in Scottish Gaelic, in addition to English, provided the Scottish Gaelic version is shown above the English.

(3) Where the name is the same in English and Scottish Gaelic, it may be written only once on the sign in a manner which complies with the requirements of these Regulations applicable to a name written in—

- (a) English; or
- (b) Scottish Gaelic.

PART 19

Provisions applying to Part 20

1. Information or a warning, requirement, restriction or prohibition specified in column 2 of an item in the sign table in Part 20 must be conveyed by a directional sign that includes a symbol provided for in column 3 on an appropriate background.
2. A symbol must be of the colour and type and comply with the requirements as to size, provided for in the diagram in column 3 or that diagram as varied in accordance with column 4.
3. The prohibition specified in column 2 at item 22 of the table must be conveyed by the inclusion of both the circular symbol and the symbol representing a plate and each must comply with paragraph 2.
4. The prohibition specified in column 2 at item 33 of the table must be conveyed by the inclusion of both circular symbols and each must comply with paragraph 2.
5. For the purpose of this Part and Part 20 an appropriate background is—
 - (a) that shown by either diagram A or diagram B at item 1 of the sign table in Part 2 where the sign is placed on an exit slip road or indicates the termination of a motorway;
 - (b) that shown by either diagram A or diagram B at item 2, 3, 4 or 5 of the sign table in Part 2;
 - (c) that shown by the diagram at item 2, 3 or 4 of the sign table in Part 9;
 - (d) that shown by the diagram at item 3, 5 or 6 of the sign table in Part 28.
6. If two or more symbols from the sign table in Part 20 are included in a sign and there is any difference in the size of the symbols as provided for in the relevant diagrams, the size of all the symbols used on the sign must be that of the largest.
7. The symbol at item 22 must not be included on a sign with any other symbol provided for in the sign table in Part 20.
8. The dimensions in the diagrams in the sign table in Part 20 are in stroke widths.

PART 29

The Schedule 12 General Directions

1. Paragraph 2 applies to a sign provided for—

- (a) in this Schedule which has a diagram B background as shown at an item in the sign table in Part 2 or 22.;
 - (b) at item 7 in Part 26; or
 - (c) at item 7, 15 (type B), 16 (diagram 2710) or 19 (diagram 2802) of Part 28.
2. The sign may only be placed at a junction.
 3. Paragraph 4 applies to a sign—
 - (a) which has a background provided for at item 9 of the Part 2 sign table (routes for pedestrians); or
 - (b) provided for at item 21 of the sign table in Part 28 (direction along a public right of way etc.).
 4. The back of the sign may be of any colour.

SCHEDULE 13

Regulation 3, Direction 3

Signs only for use in temporary situations

PART 1

Provisions applying to signs in Part 2

1. A warning of a description in column 2 of an item in the sign table in Part 2 must be conveyed by a triangular sign that is of—
 - (a) the colour and type provided for in the diagram in column 3; and
 - (b) the size shown in the diagram above the table.
2. A plate containing a legend provided for in column 4 (“a first associated plate”) must—
 - (a) be of the colour and type; and
 - (b) comply with the requirements as to size,provided for in the diagram above the table.
3. If there is a number in column 5, the equivalent item number in the table in Part 4 is a supplementary associated plate for the triangular sign in question.
4. The number in column 6 indicates that the equivalent numbered Schedule 13 General Direction applies to the triangular sign in question.

PART 5

Provisions applying to signs in Part 6

1. A warning, requirement, restriction or prohibition of a description in column 2 of an item in the sign table in Part 6 must be conveyed by a sign that is of the colour and type, and complies with the requirements as to size, provided for in the diagram in column 3, or that diagram as varied in accordance with column 4.

2. In respect of items 9 and 10, each lamp incorporated into the sign must show an intermittent amber light at a rate of flashing of not less than 60 nor more than 90 flashes per minute, and in such a manner that the lights of one horizontal pair are always shown when the lights of the other horizontal pair are not shown.

3. If a number appears in column 5, the equivalent paragraph number in Part 7 applies to the sign in question.

4. The provisions of Part 8 apply to cones (item 4), delineators (item 5) and cylinders (item 6).

5. A number in column 6 indicates that the equivalent numbered Schedule 13 General Direction applies to the sign in question.

6. Where provision is made in column 4 for a different logo to that shown in the diagram to be included, the logo may incorporate any image and lettering in any style and colour.

7. Where provision is made in column 4 for the name of an organisation to be used instead of a logo, that is a reference to the name being used other than as part of a logo and is not to be taken as preventing the name of the organisation from being incorporated into a logo.

PART 7

Provisions applying to signs in Part 6

1. Section 36 of the 1988 Act applies to the sign.
2. The sign must be of the size, colour and type shown in the two parts of the diagram in column 3.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

3.—(1) The sign must be a flexible sheet on which a triangle appears and the total area of the sheet, including the red triangle, must be not less than 0.8 square metres.

- (2) The triangle must be equilateral.
- (3) The area marked A must be reflectorised.
- (4) Where the area marked B is coloured white (as shown in the diagram) it must be reflectorised.
- (5) The area marked B may be coloured yellow;
- (6) Any part of the sign coloured yellow must be fluorescent and may be reflectorised.

4.—(1) The pyramid must consist of three visible sides, each of which is as specified in the diagram.

- (2) It must be made of rubber or flexible plastic material.
- (3) It must be constructed so that it can stand upright firmly on the surface of a road.
- (4) The surface coloured red (marked A and C) may be reflectorised.
- (5) The surface coloured white (marked B) must be reflectorised.
- (6) Up to 50% of the surface marked C may be obscured by constructional components.
- (7) The pyramid must not be illuminated through internal or external illumination.
- (8) The base may be of any colour, or omitted.

5.—(1) The pyramid must consist of three visible sides, each of which is as specified in the diagram.

- (2) It must be made of rubber or flexible plastic material.
- (3) It must be constructed so that it can stand upright firmly on the surface of a road.
- (4) The surface coloured red (marked A) may be reflectorised.
- (5) The surface coloured white (marked B) must be reflectorised.
- (6) Each outer edge of the triangular face must be the same length.
- (7) The pyramid must not be illuminated through internal or external illumination.

6.—(1) The triangle must be legibly and permanently marked with the specification number of the British Standard for an Advance Warning Triangle to indicate a temporary obstruction, namely BS AU47: 1965(**106**) or the specification number of a corresponding EEA standard.

- (2) The surface coloured red and marked A must be reflectorised.
- (3) Not more than 15 square centimetre of the surface marked A may be obscured by constructional components.
- (4) The surface coloured red and marked B must be fluorescent.
- (5) The surface marked C must be either—
 - (a) entirely reflectorised; or
 - (b) a combination of reflectorised and fluorescent.
- (6) Not more than 10 square centimetre of the surface marked A may be obscured by constructional components.
- (7) Corners of a triangle must be radiused.
- (8) All sides of a triangle must be of the same length.

(9) The reflectorised areas of the surface may be internally illuminated provided that such illumination is steady, presents a uniform appearance throughout that area and does not impair the retroreflecting properties of that area of the surface.

(10) The triangle must not be illuminated through external illumination.

7.—(1) The triangle must be legibly and permanently marked with the marking designated as an approval mark by regulation 4 of the Motor Vehicles (Designation of Approval Marks) Regulations 1979~~(107)~~ and shown in item 27 of Schedule 2 to those Regulations.

(2) The surface coloured red and marked A must be reflectorised;

(3) Not more than 15 square centimetre of the surface marked A may be obscured by constructional components;

(4) The surface coloured red and marked B must be fluorescent;

(5) The surface marked C must be either—

(a) entirely reflectorised; or

(b) a combination of reflectorised and fluorescent;

(6) Not more than 10 square centimetre of the surface marked A may be obscured by constructional components;

(7) In the case of the triangle provided for at item 33—

(a) the surface coloured red and marked A must be reflectorised;

(b) the surface coloured red and marked B must be fluorescent and have an area of not less than 315 square centimetres;

(c) the edging coloured red and marked C may be omitted.

(8) Corners of a triangle must be radiused.

(9) All sides of a triangle must be of the same length.

(10) The reflectorised areas of the surface may be internally illuminated provided that such illumination is steady, presents a uniform appearance throughout that area and does not impair the retroreflecting properties of that area of the surface.

(11) The triangle must not be illuminated through external illumination.

8. The sign must have, on its reverse, a date by which the person placing the sign reasonably believes the sign will have been removed.

9. The yellow may be fluorescent.

10. The sign need not be illuminated.

11. A person who is in charge of, or accompanies, an emergency or a breakdown vehicle which is temporarily obstructing a road is authorised to place the sign for the purpose of warning vehicular traffic of the obstruction created by the vehicle and to indicate the way past the vehicle

12. A person that, but for this paragraph, is not authorised to place the sign is authorised to do so for the purpose of warning traffic of a temporary obstruction in the road, other than one caused by the carrying out of works.

(107)S.I. 1979/1088, to which there are amendments not relevant to these Regulations.

PART 8

Requirements applying to cones, cylinders and delineators

1. A cone is to consist of a conically shaped device—
 - (a) the base of which is—
 - (i) of any single colour; and
 - (ii) a polygon having not more than eight sides, which would be contained wholly within a circle with a diameter of three quarters of the height of the cone; and
 - (b) which conforms to the provisions of British Standard BS EN 13422:2004+A1:2009(108) set out in paragraph 8.
2. A cylinder is to consist of a cylindrically shaped device which conforms to the provisions of British Standard BS EN 13422:2004+A1:2009 set out in paragraph 8.
3. A delineator is to consist of a flat device—
 - (a) of which the side intended to be exposed to traffic is coloured as shown in the diagram at item 4 of the table in Part 6 and the reverse side is either so coloured or coloured only grey or only red;
 - (b) which conforms to the provisions of British Standard BS 8442:2015(109); and
 - (c) of which the base is of any single colour, except that a reflectorised white line 100 mm wide at an angle of not more than 60 degrees to the road surface may be marked on one side of the base at right angles to the face of the delineator.
4. The part of a cone, cylinder or delineator coloured white must, subject to paragraph 7, be illuminated with white retroreflecting material and the part coloured red (except, in the case of a delineator, on the reverse side when that side is coloured only red) may be illuminated with red retroreflecting material.
5. Information about the ownership of a cone, cylinder or delineator may—
 - (a) in the case of a cone, be moulded—
 - (i) into the base in characters not more than 80 mm high in the same colour as the base;
 - (ii) into the conical body in characters not more than 40 mm high in the same colour as that body; or
 - (iii) as mentioned in both paragraphs (i) and (ii);
 - (b) in the case of a cylinder, be moulded into the lower of the two red parts of the cylinder in red characters not more than 40 mm high; and
 - (c) in the case of a delineator, be moulded into the base in characters not more than 80 mm high and in the same colour as the base.
6. Information about the manufacture of a cone, cylinder or delineator required in order to comply with British Standard BS EN 13422:2004+A1:2009 or British Standard BS 8442:2015 (or, in either case, a corresponding EEA standard) and occupying an area not exceeding 30 square centimetres, may be indicated on the part coloured white in characters not exceeding 5 mm in height, leaving at least 90% of the remaining area of white colour illuminated with white retroreflecting material.
7. There may be mounted on top of a cone a rotating device that—
 - (a) is red and not reflectorised; and

(108) Published 2nd November 2004 (ISBN 9780580595301).

(109) Publication date 30th November 2015 (ISBN 9780580773167).

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(b) displays a sign provided for at item 2 of the sign table in Part 6 of Schedule 2 which must be coloured amber, intermittently whilst rotating and constantly whilst static.

8. In relation to each aspect of performance specified in column 2 of an item in the table below, a cone or cylinder must comply with the requirement or test specification of British Standard BS EN 13422:2004+A1:2009 specified in column 3.

(1) Item	(2) Aspect of performance	(3) Requirement or test specification and class
1	Daylight chromaticity co-ordinates and luminance factors	Retroreflective material: Class LB in Table 2
		Non-retroreflective exterior surfaces: Table 3.A
		Non-retroreflective interior surfaces : Table 3.B
2	Coefficient of retroreflection	Dry conditioned : Class R1B or R2B in Table 4.B
		Wet conditions: Class WT1 in Table 6
3	Height and minimum weight (cones)	Class W3 in Table 1

PART 9

Other temporary signs

1. A sign that is not otherwise provided for by these Regulations may be placed to—
 - (a) convey a civil emergency warning or information;
 - (b) convey a temporary hazard warning;
 - (c) convey temporary information; or
 - (d) indicate the entrance to, or exit from, road works for vehicles involved in the carrying out of those works.
2. A sign referred to in paragraph 1 must be of a size, colour and type which complies with this Part.
3. The sign must be—
 - (a) rectangular but with the corners rounded; or
 - (b) as in sub-paragraph (a), but with a rounded point at one end.
4. The sign must be of a size appropriate to the circumstances in which it is placed.
- 5.—(1) The sign may incorporate—
 - (a) letters;
 - (b) numerals;
 - (c) other characters;
 - (d) borders (either on the outside edge of the sign or as part of the division of the sign into panels);

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (e) chevrons;
 - (f) any symbol that by virtue of a provision elsewhere in these Regulations may be included in a sign; and
 - (g) the arms, badge or other device of—
 - (i) a traffic authority;
 - (ii) a police force;
 - (iii) the National Crime Agency; or
 - (iv) an organisation representative of road users.
- (2) The arms, badge or other device referred to in sub-paragraph (g) may be of any colour and design and consequently its components need not comply with requirements elsewhere in this Part as to size, colour or type that would otherwise be applicable.
- 6.** Letters, numerals or other characters must not have an x-height of—
- (a) less than 35 mm, or
 - (b) more than 400 mm.
- 7.—**(1) The background of the sign must be yellow, white or blue.
- (2) Letters, numerals, other characters, chevrons and borders must be—
- (a) black when placed on a yellow background;
 - (b) black or blue when placed on a white background; or
 - (c) white when placed on a blue background.
- (3) This paragraph is subject to paragraphs 8 to 11.
- 8.—**(1) This paragraph applies if the sign—
- (a) conveys a temporary hazard warning;
 - (b) conveys only temporary information for pedestrians, cyclists or pedestrians; or
 - (c) indicates the entrance to, or exit from, road works for vehicles involved in the carrying out of those works.
- (2) The background must be red and any letters, numerals, other characters, chevrons or borders must be white.
- (3) This paragraph is subject to paragraphs 10 and 11.
- 9.—**(1) This paragraph applies if the sign conveys—
- (a) temporary information (other than for pedestrians, cyclists or equestrians) in connection with road works; or
 - (b) information about check points at which goods vehicles or public service vehicles may be required to stop.
- (2) The background must be yellow and any letters, numerals, other characters, chevrons or borders must be black.
- (3) This paragraph is subject to paragraphs 10 and 11.
- 10.** A variable message sign may have a black background and, if it does, any letters, numerals, other characters or chevrons must be white or yellow.
- 11.** A variable message sign may have a yellow background and if it does, any letters, numerals, other characters or chevrons must be black.

12. If a route symbol provided for in the sign table in Part 7 of Schedule 12 is incorporated in the sign, the requirements as to size that would otherwise apply to that symbol, do not apply.

13.—(1) A sign provided for in this Part need not be illuminated.

(2) Paragraph (1) does not apply to a sign conveying—

- (a) the route of a diversion (except routes exclusively for pedestrians, cyclists or equestrians);
- (b) information about future or ongoing road works;
- (c) information about check points at which goods vehicles or public service vehicles may be required to stop;
- (d) a temporary hazard warning in connection with the execution of works, or a temporary obstruction; or
- (e) temporary information for drivers of wide loads about action to be taken in respect of road works ahead.

14. Schedule 13 General Direction 16 applies to a sign provided for in this Part.

PART 10

Amber and blue light beacons

1. An amber or blue light beacon conveys the warning that special care is to be taken.
2. The beacon must comply with the requirements of paragraphs 3 to 5.
3. The peak intensity of light emitted by the lens or lenses of each beacon must be—
 - (a) if the period between individual flashes does not exceed $\frac{1}{4}$ of a second, not less than 100 candela on the principal axis of the relevant lens;
 - (b) if the period between individual flashes exceeds $\frac{1}{4}$ of a second, not less than 2000 candela on the principal axis; or
 - (c) if the period between the cessation of a double flash and the start of the succeeding double flash exceeds $\frac{1}{4}$ of a second, not less than 1000 candela on the principal axis.
4. Each lens must be of such a shape and size that the perimeter of its area projected horizontally onto a vertical plane is capable of lying wholly inside a square having sides of 200 mm in length and wholly outside a square having sides of 100 mm in length.
5. The rate of flashing must not be less than 55 nor more than 150 individual or double flashes per minute.
6. General Directions 17 and 19 of the Schedule 13 General Directions apply to an amber light beacon.
7. General Directions 18 and 19 of the Schedule 13 General Directions apply to a blue light beacon.

PART 11

Warning lights

1. A lamp for conveying to traffic the limits of a temporary obstruction of the road (“a warning light”) must comply with the requirements in paragraphs 2 to 6.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

2. The height of the centre of each lens of the warning light from the surface of the road in the immediate vicinity of the lamp must not exceed—
- 1500 mm where the speed limit on the road is 40 mph or less; or
 - 1200 mm where the speed limit on the road is more than 40 mph.
3. The warning light must—
- be powered separately from any other object or device; and
 - show a steady or intermittent amber light.
4. Subject to paragraphs 5 and 6, the whole of the warning light must conform to British Standard BS EN 12352:2006(110).
5. In relation to each aspect of performance specified in column (2) of an item in the Table below, the warning light must comply the requirement or test specification of British Standard BS EN 12352:2006 specified in column (3).

(1) <i>Item</i>	(2) <i>Aspect of performance</i>	(3) <i>Requirement or test specification and class</i>
1	Area, angle and luminous intensity	Class L1 or L3 in Table 1
2	Light emitting surface	For class L1 lights: paragraph 4.1.2.1 For class L3 lights: class P1
3	Colorimetric performance of light emitted	Class C yellow 1 in Table 2
4	Retro-reflective device	Class R2
5	Automatic photosensitive switching	Class A1
6	Continuity of emitted light	Class F1 (steady) or class F2 (but see NOTE)
7	On-time (flashing lights)	Class O2
8	Mechanical strength	Class M4

NOTE: A light flashing at a rate of 900 flashes per minute or more is deemed to comply with class F1.

6. The external surface of the parts of the warning light which are not the lenses and are visible to road users must be of a colour having the colorimetric values of reference 355 Lemon, or reference 356 Golden yellow, in Table 1 (standard colours) of British Standard BS 381C:1996(111).

7. A person that, but for this paragraph, is not authorised to place a warning light is authorised to do so for the purpose of warning traffic of a temporary obstruction in the road, other than one caused by the carrying out of works.

8. General Direction 15 of the Schedule 13 General Directions applies to a warning light.

(110) Publication date 31st May 2006 (ISBN 9780580687884); corrigenda, July 2008, July 2009 and October 2010.

(111) Publication date 15th December 1996 (ISBN 0580267776).

PART 12

The Schedule 13 General Directions

1. The sign must not be placed unless in combination with its first associated plate.
2. The sign may only be retained in place for so long as the hazard indicated by the sign continues to exist or is expected to recur in the near future.
3. The sign may remain in place after the completion of the works for so long as the traffic authority thinks fit.
4. The sign may only be placed in connection with the execution of works on or near a road, or a temporary obstruction.
- 5.—(1) The sign may only be placed to indicate the effect of an Act, order, regulation, bylaw, resolution or notice which prohibits or restricts the use of the road by traffic.
(2) Sub-paragraph (1) does not apply to a sign provided for at item 14, 15 or 16 in the Part 6 sign table if it only conveys the warning that lanes are closed or narrow.
- 6.—(1) The sign may be attached to the front or rear of a road maintenance vehicle when the vehicle is being used on a road which is subject to maximum speed limit of 30 mph or under.
(2) The sign may be attached to the rear of a road maintenance vehicle immediately ahead of a vehicle displaying the sign provided for at item 10 of the table in Part 6 when the vehicle is being used on a road which is subject to a maximum speed limit of more than 30 mph.
(3) The sign may be attached to the rear of a road maintenance vehicle.
(4) The sign may only be attached to the rear of a vehicle used to escort traffic through road works to indicate that the vehicle should not be overtaken.
(5) The sign may be attached to a vehicle.
7. The sign may be attached on the front or rear of a police vehicle if travelling at 70 mph or under.
- 8.—(1) The back of a sign must be coloured grey, red, white, black or yellow, except that—
 - (a) information about sites for placing and the ownership of the sign may be indicated on the back of the sign in characters not exceeding—
 - (i) 50 mm in height, where they are shown in a contrasting colour; or
 - (ii) 80 mm in height, where they are embossed in the same colour; and
 - (b) information about the manufacture of the sign required in order to comply with—
 - (i) British Standard BS EN 12899-1:2007(112); or
 - (ii) a corresponding EEA Standard,occupying an area not exceeding 30 square centimetres, may be indicated on the back of the sign in characters not exceeding 5 mm in height.
(2) The sign may be mounted on an object of the size, colour and type of the sign provided for at item 4 of the sign table in Part 6.
- 9.—(1) The sign may only be placed—
 - (a) in connection with a cycle race approved by or under regulations made under section 31 of the 1988 Act (regulation of cycle racing on public ways);

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (b) by an accredited marshal acting under the instructions of the chief officer of police; and
- (c) on a road which is subject to a speed limit of 60mph or less.

(2) In sub-paragraph (1), “accredited marshal” means a person accredited to be a marshal by the British Cycling Federation (**113**).

10. The sign may only be placed by a constable in uniform or a person acting under the instructions or authority of the chief officer of police (unless, in the case of a sign provided for at item 19 or 21 in the Part 6 sign table, the sign refers to the traffic authority rather than the police).

11. The sign must not remain in place after the end of the period of six months that begins with the day the housing development to which the sign refers is complete.

12. The sign—

- (a) may only be placed in connection with works involving—
 - (i) an alteration in the layout of the carriageway of a road; or
 - (ii) the placing, removal or alteration of signs on or near a road; and
- (b) may be retained in place not later than the end of the period of three months beginning with the day of the completion of those works.

13. The sign may only be placed—

- (a) to indicate the point at which a recently imposed speed limit of 30 mph begins on a road—
 - (i) on which there is a system of carriageway lighting furnished by lamps lit by electricity and placed not more than 183 metres apart in England and Wales or not more than 185 metres apart in Scotland; and
 - (ii) which had previously been subject to a higher speed limit;
- (b) as near as practicable to the point the recently imposed speed limit begins;
- (c) if that point could not otherwise be indicated by virtue of Schedule 10; and
- (d) during the period of six months beginning with the day on which the 30 mph speed limit comes into force.

14.—(1) The sign may only be placed in connection with works involving a temporary or permanent reduction in the maximum height of vehicles able to pass under a bridge.

(2) Where the reduction is permanent, the sign may be retained in place for a period of six months beginning with the day on which the works are completed.

15.—(1) The sign may only be placed in connection with a traffic census, if the taking of that census has been approved by—

- (a) the traffic authority;
- (b) the chief officer of police; and
- (c) the relevant national authority.

(2) In this general direction, the “relevant national authority” means—

- (a) the Secretary of State in relation to a road in England;
- (b) Scottish Ministers in relation to a road in Scotland; and
- (c) Welsh Ministers in relation to a road in Wales.

16.—(1) Subject to sub-paragraphs (2) to (4), the sign may remain in place for a period of six months beginning with the day the sign is placed.

(2) The period may be extended with the approval of—

- (a) the Secretary of State in relation to a road in England;
- (b) Scottish Ministers in relation to a road in Scotland; or
- (c) Welsh Ministers in relation to a road in Wales.

(3) In the case of a sign conveying a change in route number, the period is two years, not six months.

(4) Sub-paragraph (1) does not apply to a sign—

- (a) placed only in connection with the execution of works on or near a road, or a temporary obstruction;
- (b) conveying information about check points at which goods vehicles or public service vehicles may be required to stop; or
- (c) indicating diversions.

17. An amber light beacon may only be placed in combination with—

- (a) another sign provided for in this Schedule; or
- (b) a sign provided for elsewhere in the Regulations where the sign is placed to convey to traffic a civil emergency warning or information, temporary hazard warning or temporary information.

18. A blue light beacon may only be placed—

- (a) in combination with a sign provided for at item 4, 5, 7, 8 or 9 of the sign table in Part 6; and
- (b) by a police constable or a person acting under the instructions (whether general or specific) of the chief officer of police.

19. Where an amber or blue light beacon or a warning light is mounted on a structure specially provided for the purpose, the structure must be coloured—

- (a) grey, red, white, or yellow; or
- (b) have alternate bands of—
 - (i) red and white; or
 - (ii) black and white.

SCHEDULE 14

Regulation 3, Direction 3

Signs for traffic control by light signals, signs for crossings, and signs for lane control

PART 1

Provisions applying to signs in Parts 2 and 3

General provision about signs provided for in this Schedule

1.—(1) A warning, information, requirement, restriction or prohibition of a description in an item in column 2 of the sign table in Part 2 must be conveyed by a sign which—

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) is of the colour and type; and
- (b) complies with the requirements as to size,

provided for in the diagram in column 3 of that item, or that diagram as varied in accordance with column 4 (see paragraph 2 for further permitted variations applicable to items 1 and 3 in the table).

(2) In the case of the description at—

- (a) item 8 (another train or tramcar may be about to pass over the crossing);
- (b) item 25 (cattle crossing ahead); and
- (c) item 41 (supervised cattle crossing ahead),

the warning is to be conveyed by both signs shown in the diagram and sub-paragraph (1) applies to each of those signs.

(3) Where the significance of a sign, or elements of a sign, is given in this Part, the significance is to be treated as forming part of the description for that sign.

(4) Where operating requirements for a light signal which forms part of a sign provided for in this Schedule are given in this Part, those requirements are an aspect of the type of the sign.

(5) Where in respect of a sign provided for in the Part 2 sign table there is a number in column 5, the corresponding paragraph number in Part 4 applies to the sign in question.

(6) Part 5 makes provision about the precedence of vehicles and pedestrians respectively, and generally with respect to the movement of traffic (including pedestrians), at and in the vicinity of section 25 crossings.

(7) A number appearing in column 6 of an item in the Part 2 sign table means that the Schedule 14 General Direction so numbered applies to the sign to which the item relates (with Schedule 14 General Direction 1 being an interpretive provision).

Application of the Part 3 table to certain traffic light signs provided for in the Part 2 table

2.—(1) The diagram at item 1 of the Part 2 sign table may be varied to show a light signal provided for in an item in the sign table in Part 3 (the green arrow signal, signals to control tramcars and the green pedal cycle symbol) in a position specified in column 4 of the Part 3 sign table for that light signal.

(2) The diagram at item 3 of the Part 2 sign table may be varied to show a light signal provided for at items 1 to 7 of the Part 3 sign table (the green arrow signal and signals to control tramcars) in a position specified in column 4 of the Part 3 sign table for that light signal.

(3) The reference to diagrams A to D in column 4 of the Part 3 sign table is to the diagrams above that table.

(4) A signal provided for in the Part 3 sign table must be of the colour and type, and comply with the requirements as to size, provided for in the diagram in column 3 of the Part 3 sign table for that signal.

(5) The green arrow may point to the left, the right, straight on or at any other angle that is appropriate for indicating the direction to be taken by vehicular traffic.

(6) When placed at position 3 of diagram C or position 2 of diagram D, the green arrow signal replaces the green signal shown in the diagram at item 1 or 3 of the Part 2 sign table.

Light signals to be ES compliant

3.—(1) A light signal that forms part of a sign provided for in the Part 2 sign table that is mentioned in sub-paragraph (2) must be ES compliant (including, subject to sub-paragraph (3), those light signals that form part of such a sign by virtue of paragraph 2).

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(2) The signs are those provided for at items 1 to 3, 5, 8 (shown in the diagram marked as “776”), 9, 15, 19 and 25.

(3) The requirement in sub-paragraph (1) does not apply to light signals for the control of tramcars (items 2 to 7 of the Part 3 sign table).

(4) A light signal is ES compliant if the signal head, in relation to each aspect of performance in column 2 of the table below, satisfies the requirement or test specification of British Standard BS EN12368: 2015(114) specified in column 3 (but see sub-paragraph (5) for an exception).

<i>(1)</i>	<i>(2)</i>	<i>(3)</i>
<i>Item</i>	<i>Aspect of performance</i>	<i>Requirement or test specification and class</i>
1	Protection rating	Class IV: IP 55
2	Operating temperature range	Class A
3	Luminous intensity	Performance level 3, class 2
4	Distribution of luminous intensity	Type M
5	Maximum signal phantom	Class 5
6	Signal lights incorporating symbols	Class S1
7	Background screen	the requirement in paragraph 6.9 of the British Standard
8	Impact resistance	Class IR2

(5) A light signal that forms part of the traffic light signals provided for at item 4 of the Part 2 sign table is ES compliant if the signal head, in relation to each aspect of performance in column 2 of the table below, satisfies the requirement or test specification of British Standard BS EN12368: 2015 in column 3.

<i>(1)</i>	<i>(2)</i>	<i>(3)</i>
<i>Item</i>	<i>Aspect of performance</i>	<i>Requirement or test specification and class</i>
1	Protection rating	Class IV: IP 55
2	Operating temperature range	Class A
3	Luminous intensity	Performance level 1, class 1
4	Distribution of luminous intensity	Type W
5	Maximum signal phantom	Class 1
6	Signal lights incorporating symbols	Class S1
7	Impact resistance	Class IR2 or IR3

Traffic light signals

4.—(1) Sub-paragraph (2) applies to the red, amber and green light signals shown in the diagram in column 3 of the Part 2 sign table at each of items 1 to 4 (types of traffic light signals), including, for items 1 and 3, when, as described in paragraph 2(6), the green signal is a green arrow.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(2) The order of illumination for the light signals must be as follows—

- (a) red;
- (b) red and amber together;
- (c) green;
- (d) amber.

(3) The duration of the period when the red and amber light signals are illuminated together must be 2 seconds.

(4) The duration of the period when the amber light signal is illuminated on its own must be 3 seconds.

(5) The requirement in sub-paragraph (3) or (4) is to be treated as having been met if the duration is 0.25 seconds more, or less, than that specified.

5.—(1) This paragraph applies to traffic light signals.

(2) The significance of the light signals to which paragraph 4(2) applies, when illuminated, is that specified in sub-paragraphs (3) to (9).

(3) Subject to sub-paragraphs (4) to (6), the red signal conveys the prohibition that vehicular traffic must not proceed beyond the stop line.

(4) Sub-paragraph (5) applies on an occasion where a vehicle is being used for at least one of the purposes set out in sub-paragraph (6) and the observance of the prohibition in sub-paragraph (3) would be likely to hinder the use of the vehicle for that purpose.

(5) The prohibition conveyed is that the vehicle must not proceed beyond the stop line in such a manner or at such a time as to be likely to endanger any person or to cause the driver of another vehicle to change its speed or course in order to avoid an accident.

(6) The purposes are—

- (a) fire and rescue authority;
- (b) Scottish Fire and Rescue Service;
- (c) ambulance;
- (d) blood service;
- (e) providing a response to an emergency at the request of an NHS ambulance service;
- (f) bomb or explosive disposal;
- (g) special forces
- (h) police; and
- (i) National Crime Agency.

(7) Red and amber signals illuminated together denote an impending change to green but conveys the same prohibition as the red signal.

(8) A green signal indicates—

- (a) subject to paragraphs (b) and (c), that vehicular traffic may proceed beyond the stop line and proceed straight on or to the left or to the right;
- (b) where the signal is an arrow, vehicles may only proceed in the direction indicated by the arrow;
- (c) where the signal is a pedal cycle symbol, only vehicles which are pedal cycles may proceed.

(9) An amber signal, when shown alone, conveys the same prohibition as red, except that, as respects any vehicle which is so close to the stop line that it cannot safely be stopped without

proceeding beyond the stop line, it conveys the same indication as the green signal which was shown immediately before it.

(10) Sub-paragraph (11) gives the significance, when illuminated, of the green arrow signal when, by virtue of the variation permitted in paragraph 2, it is included in the traffic light signals provided for at—

- (a) item 1 of the Part 2 sign table; or
- (b) item 3 of the Part 2 sign table,

at a position other than position 3 of diagram C or position 2 of diagram D.

(11) The significance is that vehicular traffic may proceed beyond the stop line in the direction indicated by the arrow irrespective of which other light signals forming part of the sign are illuminated.

(12) Sub-paragraph (13) gives the significance, when illuminated, of the pedal cycle symbol when, by virtue of the variation permitted in paragraph 2, it is included in the traffic light signals provided for at item 1 of the Part 2 sign table.

(13) The significance is that pedal cycles may proceed beyond the stop line and proceed straight on or to the left or to the right irrespective of which other light signals forming part of the sign are illuminated.

(14) Vehicular traffic proceeding beyond a stop line must proceed with due regard to the safety of other road users and subject to any direction given by a constable in uniform, a traffic officer in uniform or a traffic warden or to any other applicable prohibition or restriction.

(15) This paragraph does not apply to tramcars.

Tramcars

6.—(1) This paragraph applies where, by virtue of the variation permitted in paragraph 2, the traffic light signals provided for at item 1 or 3 of the Part 2 sign table includes a light signal provided for at items 2 to 7 of the Part 3 sign table (which relate to light signals for controlling tramcars).

(2) The order of illumination for the light signal must be as follows—

- (a) the horizontal line (item 3);
- (b) the vertical or a diagonal line (items 4 to 6);
- (c) the central circle (item 7).

7. The significance of the light signal is that—

- (a) the horizontal line conveys the prohibition that a tramcar must not proceed beyond the stop line;
- (b) the vertical line indicates that a tramcar may proceed beyond the stop line and proceed straight ahead;
- (c) the diagonal line shown in the diagram at item 5 indicates that a tramcar may proceed beyond the stop line and proceed to the left;
- (d) the diagonal line shown in the diagram at item 6 indicates that a tramcar may proceed beyond the stop line and proceed to the right; and
- (e) the central circle conveys the prohibition that a tramcar must not proceed beyond the stop line except that, as respects a tramcar which is so close to the stop line that it cannot safely be stopped without proceeding beyond the stop line, it conveys the same indication as the aspect which was shown immediately before it.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Light signals at level crossings, swing or lifting bridges, airfields and premises used by emergency vehicles

8.—(1) The light signals included in the sign provided for at item 5 of the Part 2 sign table must be illuminated in accordance with sub-paragraph (2).

(2) The sequence for the illumination of the light signals must be the amber light, followed by the red lights as follows—

- (a) the amber light must illuminate and remain illuminated (in a steady state) for the period provided for in sub-paragraph (3) (subject to sub-paragraph (4));
- (b) the red lights must then illuminate in an intermittent nature such that the lights flash at a rate of not less than 60 nor more than 90 flashes per minute, and in such a manner that one light is always shown when the other light is not shown.

(3) Subject to sub-paragraph (4), the duration the amber light must remain illuminated is—

- (a) in the case of light signals at level crossings, 3 seconds.
- (b) otherwise, 5 seconds.

(4) The requirement in sub-paragraph (3) is considered to have been met if the duration is 0.25 seconds more, or less, than that specified.

(5) The significance of the light signals is that specified in sub-paragraphs (6) and (7).

(6) The amber signal conveys the prohibition that traffic must not proceed beyond the stop line or the road marking provided for at item 68 in the Part 2 sign table, except that a vehicle which is so close to the stop line that it cannot safely be stopped without proceeding beyond the stop line may proceed.

(7) The intermittent red signals convey the prohibition that traffic must not proceed beyond the stop line or the marking provided for at item 68.

Red and green pedestrian, equestrian and cyclist symbols

9.—(1) This paragraph applies to a sign provided for at item 9, 13, 14, 15, 17, 18, 19, 21 or 22 in the Part 2 sign table.

(2) The requirements in relation to the light signals incorporated into the sign are—

- (a) the red and green symbols, when illuminated, show a steady light;
- (b) no green symbol is illuminated when any red symbol is illuminated;
- (c) a green symbol is illuminated only when there is, at the same time, conveyed to vehicular traffic a prohibition against entering the crossing and the prohibition is indicated by—
 - (i) traffic light signals; or
 - (ii) a sign provided for at item 42, 43 or 44 placed with those signals.

(3) The significance of a red symbol when illuminated is that, in the interests of safety, pedestrian, equestrian or cyclist traffic (as the case may be) should not use the crossing.

(4) The significance of a green symbol when illuminated is that pedestrian, equestrian or cyclist traffic (as the case may be) may use the crossing.

(5) For conveying the same significance as a green symbol, a device may, in conjunction with the illumination of that symbol, emit an audible, or give a tactile, signal.

(6) Where the countdown sign provided for at item 10 is used in combination with the sign provided for at item 9, 15 or 19, it must only be illuminated when no red or green symbols included in those signs are illuminated.

(7) A sign provided for at item 13, 17 or 21 must include a push button, or other switching device, that in some way indicates to those intending to use the crossing that the nearside light signals have been activated.

Illumination of “WAIT”

10.—(1) The significance of “WAIT”, when illuminated, in a sign provided for at item 11, 16 or 20 of the Part 2 sign table is that, in the interests of safety, pedestrian, equestrian or cyclist traffic (as the case may be) should not use the crossing.

(2) An indication given by the sign provided for at item 12 that—

- (a) the button or pressure pad included in the sign has been activated; or
- (b) a button or pressure pad having the same purpose on another sign at the same crossing has been activated,

has the same significance as “WAIT” has when illuminated.

School crossing places

11. Each light signal forming part of the sign to warn of a school crossing place provided for at item 23 of the Part 2 sign table must, when in operation, show an intermittent amber light at a rate of flashing of not less than 60 nor more than 90 flashes per minute with the sign operating such that one light is always shown when the other light is not shown.

Cattle crossings

12. Each light signal forming part of the sign for warning of cattle crossing provided for at item 25 of the Part 2 sign table and shown in the upper part of the diagram at that item must, when in operation, show an intermittent amber light at a rate of flashing of not less than 60 nor more than 90 flashes per minute with the sign operating such that one light is always shown when the other light is not shown.

Pedestrians crossing at level crossings

13. The red figure in the sign provided for at item 26 of the Part 2 sign table (light signals for pedestrians at level crossings) must when the sign is in operation—

- (a) flash at a rate of not less than 60 nor more than 90 flashes per minute; and
- (b) be illuminated only when the red light signals in the sign provided for at item 5 are illuminated.

Zig-zag lines in a signal-controlled crossing facility controlled area

14.—(1) Subject to sub-paragraphs (2) and (3), and without prejudice to paragraph 15, a zig-zag line marked in a signal-controlled crossing facility controlled area conveys the prohibition that the driver of a vehicle must not cause the vehicle or any part of that vehicle to stop in the controlled area.

(2) The prohibition in sub-paragraph (1) does not apply to—

- (a) a pedal cycle; or
- (b) a driver who stops a vehicle in the controlled area in any of the circumstances specified in sub-paragraph (3).

(3) The circumstances are—

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) the driver has stopped the vehicle for the purpose of complying with an indication given by a light signal for the control of vehicular traffic or the direction of a constable in uniform, a traffic officer in uniform or a traffic warden;
- (b) the driver is prevented from proceeding by circumstances beyond the driver's control or it is necessary to stop to avoid injury or damage to persons or property;
- (c) the vehicle is being used for at least one of the following purposes—
 - (i) fire and rescue authority;
 - (ii) Scottish Fire and Rescue Service;
 - (iii) ambulance;
 - (iv) blood service;
 - (v) providing a response to an emergency at the request of an NHS ambulance service;
 - (vi) bomb or explosive disposal;
 - (vii) special forces
 - (viii) police;
 - (ix) National Crime Agency.
- (d) the vehicle is stopped for no longer than is necessary for it to be used for the purposes of—
 - (i) an operation involving building, demolition or excavation;
 - (ii) the removal of any obstruction to traffic;
 - (iii) the maintenance, improvement or reconstruction of a road; or
 - (iv) the laying, erection, alteration, repair or cleaning in or near the controlled area of any sewer, or of any main, pipe or apparatus for the supply of gas, water or electricity, or of any electronic communications apparatus kept installed for the purposes of an electronic communications code system or of any other electronic communications apparatus lawfully kept installed in any position,but only if the vehicle cannot be used for those purposes without stopping in the controlled area;
- (e) the vehicle is a public service vehicle being used—
 - (i) in the provision of a local service; or
 - (ii) to carry passengers for hire or reward at separate fares,where the vehicle is waiting in the controlled area in order to take up or set down passengers having proceeded past the crossing or the light signals to which the controlled area relates; or
- (f) the vehicle is stopped for the purpose of making a left or right turn.

15.—(1) Without prejudice to paragraph 14, a zig-zag line in a signal-controlled crossing facility controlled area conveys the requirement that, whilst any motor vehicle (“the approaching vehicle”), or any part of it, is within the limits of the controlled area and is proceeding towards the signal-controlled crossing facility to which the controlled area relates, the driver of the vehicle must not cause it or any part of it to pass ahead of the foremost part of—

- (a) any other motor vehicle proceeding in the same direction
 - (b) a vehicle which is stationary for the purpose of complying with a traffic light signal for controlling vehicular traffic.
- (2) In sub-paragraph (1)—

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) the reference to a motor vehicle in paragraph (a) is, in a case where more than one motor vehicle is proceeding in the same direction as the approaching vehicle in a controlled area, a reference to the motor vehicle nearest to the signal-controlled crossing facility crossing to which the controlled area relates; and
- (b) the reference to a stationary vehicle is, in a case where more than one vehicle is stationary in a controlled area for the purpose of complying with the indication given by a traffic light signal for controlling vehicular traffic, a reference to the stationary vehicle nearest the signal-controlled crossing facility to which the controlled area relates.

Light signals above the carriageway

16.—(1) The height of the centre of each light signal incorporated into a sign provided for at item 32, 33 or 34 of the sign table in Part 2 (a downward green arrow, a red cross and a diagonal white arrow, respectively) must be not less than 5.5 metres nor more than 9 metres from the surface of the carriageway in the immediate vicinity.

(2) The signals must be designed so that only one symbol is illuminated over the traffic lane in question at any one time and the arrow or cross shows a steady light.

(3) The significance of the light signals is that—

- (a) except when placed above an actively managed hard shoulder, the red cross conveys to vehicular traffic proceeding in the traffic lane above which it is displayed the prohibition that such traffic must not proceed beyond the red cross in that traffic lane until that prohibition is cancelled by a display—
 - (i) over that traffic lane, of the downward green arrow or the diagonal white arrow; or
 - (ii) over that traffic lane or beside the carriageway, of the “End of lane control” sign provided for at item 40 of the Part 2 sign table;
- (b) when placed over an actively managed hard shoulder the red cross conveys to vehicular traffic that the restrictions on the use of the hard shoulder imposed by regulation 9 of the Motorways Traffic (England and Wales) Regulations 1982(**115**) or regulation 8 of the Motorways Traffic (Scotland) Regulations 1995(**116**) for the time being apply to the hard shoulder, until those restrictions are—
 - (i) cancelled by the display over the actively managed hard shoulder of the maximum speed limit sign; or
 - (ii) superseded by the display over the actively managed hard shoulder of the red cross sign provided for at item 14 of the sign table in Part 2 of Schedule 15;
- (c) the downward green arrow conveys to vehicular traffic proceeding in the traffic lane above which it is displayed the information that such traffic may proceed or continue to do so in the lane beneath the arrow; and
- (d) the diagonal white arrow conveys to vehicular traffic proceeding in the traffic lane above which it is displayed the warning that such traffic should move into the adjacent traffic lane in the direction indicated by the arrow as soon as traffic conditions permit.

Beacons displayed with upright signs relating to the operation of light signals

17.—(1) For conveying the additional warning that drivers should take special care, a beacon which shows an intermittent amber light placed may be placed in combination with an upright sign provided for at item 61, 62 or 63 of the Part 2 sign table (upright signs giving information about the operation of traffic light signals).

(115) S.I. 1982/1163, amended by S.I. 2015/392; there are other amendments but none is relevant.

(116) S.I. 1995/2507; to which there are amendments not relevant to these Regulations.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (2) The operating requirements for a beacon mentioned in sub-paragraph (1) are—
- (a) the peak intensity of light emitted by the lens or lenses of each such beacon must be—
 - (i) if the period between individual flashes does not exceed $\frac{1}{4}$ of a second, not less than 100 candela on the principal axis of the relevant lens;
 - (ii) if the period between individual flashes exceeds $\frac{1}{4}$ of a second, not less than 2000 candela on the principal axis; or
 - (iii) if the period between the cessation of a double flash and the start of the succeeding double flash exceeds $\frac{1}{4}$ of a second, not less than 1000 candela on the principal axis;
 - (b) each lens must be of such a shape and size that the perimeter of its area projected horizontally onto a vertical plane is capable of lying wholly inside a square having sides of 200 mm in length and wholly outside a square having sides of 100 mm in length;
 - (c) the height of the centre of the lenses from the surface of the carriageway in the immediate vicinity must be not less than 800 nor more than 1500 mm; and
 - (d) the rate of flashing must be not less than 55 nor more than 150 individual or double flashes per minute.

Stripes at Zebra and Parallel crossings

18.—(1) This paragraph imposes requirements about the stripes in Zebra and Parallel crossings shown in the diagrams at items 52 (Zebra crossings) and 53 (Parallel crossings).

(2) Each black and white stripe must be of the same size and of a width, as measured across the carriageway, of not more than 715 mm or less than 500 mm save that, where considered appropriate in relation to a particular crossing, and having regard to the nature and character of the road—

- (a) the first stripe at each end of the crossing may be of a width of not more than 1300 mm; and
- (b) the other stripes may be of a width of not more than 840 mm and not less than 380 mm.

(3) The colour of the surface of the carriageway may be used in place of the black stripes if the surface provides a reasonable contrast with the white stripes.

Significance of give-way markings at Zebra crossings

19. The give-way line marking provided for at item 54 of the Part 2 sign table (and shown in the diagram at item 52) conveys to vehicular traffic proceeding towards a Zebra crossing the position at or before which a vehicle must be stopped for the purpose of complying with paragraph 7 of Part 5.

Significance of zig-zag lines at Zebra crossings

20. The zig-zag lines provided for at item 52 of the Part 2 sign table convey to vehicular traffic, for the purpose of complying with paragraphs 3 and 6 of Part 5 (movement of traffic at section 25 crossings), the limits of a Zebra controlled area.

Significance of stripes and other road markings at Parallel crossings and in Parallel controlled areas

- 21.**—(1) The stripes and other signs that comprise a Parallel crossing convey the prohibition—
- (a) to the driver of a vehicle proceeding along the carriageway, that the driver must not cause the vehicle or any part of it to stop within the limits of the crossing unless the driver is prevented from proceeding by circumstances beyond the driver's control or it is necessary for the driver to stop to avoid injury or damage to persons or property; and

- (b) to a pedestrian or cyclist crossing the carriageway within the part of the crossing intended for (as the case may be) pedestrians or cyclists, that that they must not remain on the carriageway longer than is reasonably necessary to pass over the crossing with reasonable despatch.

22.—(1) The give-way line marking provided for at item 54 of the Part 2 sign table (and shown in the diagram at item 53) conveys to vehicular traffic proceeding along the carriageway towards a Parallel crossing—

- (a) the position at or before which a vehicle must be stopped (“the stop position”), and
- (b) a requirement to stop at, or before, the stop position,

if a pedestrian or cyclist is on the carriageway, for the purposes of using the crossing, within the part of the crossing intended for (as the case may be) pedestrians or cyclists.

(2) Where there is a refuge for pedestrians or cyclists, or central reservation, on a Parallel crossing, the parts of the crossing situated on each side of the refuge or central reservation are to be treated, for the purposes of this paragraph, as separate crossings.

23.—(1) Without prejudice to paragraph 24, the zig-zag lines provided for at item 53 of the Part 2 sign table convey the requirement that the driver of a vehicle proceeding along the carriageway must not cause any part of it to stop in the Parallel controlled area in which they are marked.

- (2) The prohibition in sub-paragraph (1) does not apply to—
 - (a) a pedal cycle; or
 - (b) a driver who stops a vehicle in the controlled area in any of the circumstances specified in sub-paragraph (3).
- (3) The circumstances are—
 - (a) the driver has stopped the vehicle for the purpose of complying with paragraph 22(1)(b);
 - (b) the driver has stopped the vehicle for the purpose of complying with an indication given by a light signal for the control of vehicular traffic or the direction of a constable in uniform, a traffic officer in uniform or a traffic warden;
 - (c) the driver is prevented from proceeding by circumstances beyond the driver’s control or it is necessary to stop to avoid injury or damage to persons or property;
 - (d) the vehicle is being used for at least one of the following purposes—
 - (i) fire and rescue authority;
 - (ii) Scottish Fire and Rescue Service;
 - (iii) ambulance;
 - (iv) blood service;
 - (v) providing a response to an emergency at the request of an NHS ambulance service;
 - (vi) bomb or explosive disposal;
 - (vii) special forces
 - (viii) police;
 - (ix) National Crime Agency.
 - (e) the vehicle is stopped for no longer than is necessary for it to be used for the purposes of—
 - (i) an operation involving building, demolition or excavation;
 - (ii) the removal of any obstruction to traffic;
 - (iii) the maintenance, improvement or reconstruction of a road; or

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (iv) the laying, erection, alteration, repair or cleaning in or near the controlled area of any sewer, or of any main, pipe or apparatus for the supply of gas, water or electricity, or of any electronic communications apparatus kept installed for the purposes of an electronic communications code system or of any other electronic communications apparatus lawfully kept installed in any position, but only if the vehicle cannot be used for those purposes without stopping in the controlled area;
- (f) the vehicle is a public service vehicle being used—
 - (i) in the provision of a local service; or
 - (ii) to carry passengers for hire or reward at separate fares, where the vehicle is waiting in the controlled area in order to take up or set down passengers having proceeded past the crossing or the light signals to which the controlled area relates; or
- (g) the vehicle is stopped for the purpose of making a left or right turn.

24.—(1) A zig-zag line also conveys the requirement that whilst any motor vehicle (“the approaching vehicle”), or any part of it, is within the limits of a Parallel controlled area and is proceeding towards the Parallel crossing to which the controlled area relates, the driver of the vehicle must not cause it or any part of it to pass ahead of the foremost part of—

- (a) any other motor vehicle proceeding in the same direction;
 - (b) a vehicle which is stationary for the purpose of complying with the requirement in paragraph 22(1)(b).
- (2) In sub-paragraph (1)—
- (a) the reference to a motor vehicle in paragraph (a) is, in a case where more than one motor vehicle is proceeding in the same direction as the approaching vehicle in a controlled area, a reference to the motor vehicle nearest to the crossing to which the controlled area relates; and
 - (b) the reference to a stationary vehicle is, in a case where more than one vehicle is stationary in a controlled area for the purpose of complying with the requirement in paragraph 22(1)(b), a reference to the stationary vehicle nearest the crossing to which the controlled area relates.

General provision about crossings placed across cycle tracks

25.—(1) Sub-paragraph (2) applies where, but for this paragraph, these Regulations impose a requirement for there to be a controlled area.

(2) Where the crossing is placed across a cycle track, no controlled area in that part of the carriageway that is a cycle track is required.

(3) In relation to a Zebra or Parallel crossing which only crosses a cycle track, a yellow globe (provided for at item 27 of the Part 2 sign table) is not required.

School crossing patrol signs

26.—(1) A school crossing patrol sign provided for at item 24 of the Part 2 sign table—

- (a) may be varied in accordance with sub-paragraph (2); and
 - (b) must be mounted on a pole in accordance with sub-paragraph (3).
- (2) A protective strip may be applied to the perimeter if—

- (a) the strip—
 - (i) is not retroreflecting;
 - (ii) is not more than 15 mm wide; and
 - (iii) is coloured red or is uncoloured and transparent;
 - (b) the part of the red border of the roundel not covered by the perimeter strip is at least 35 mm wide; and
 - (c) the diameter of the part of the roundel coloured black and yellow is not less than 360 mm, nor more than 370 mm.
- (3) The sign is mounted on a pole in accordance with this sub-paragraph if—
- (a) where a section of the pole at the bottom of the roundel extends over the face of the roundel for the purpose of securing the roundel to the pole, it does not obscure any part of the black symbol;
 - (b) subject to paragraphs (c) and (d), the pole is coloured with alternating black and yellow bands not less than 280 nor more than 320 mm deep, beginning with a black band immediately below the roundel;
 - (c) any part of the pole which extends over the face of the roundel is coloured red or yellow in accordance with the colour of the part of the roundel covered by it;
 - (d) where the pole is separable into two pieces when the sign is not in use, any unpainted metallic finish does not extend beyond the joint between the two pieces or more than 5 mm of each piece of the pole on either side of the joint;
 - (e) any fastenings used to attach the roundel to the pole are coloured red or yellow in accordance with the colour of the part of the sign on which they are placed or of an unpainted metallic finish;
 - (f) the pole is not separable into more than two pieces;
 - (g) where a handgrip is fitted to the pole, it is black and fitted within the black band immediately below the roundel; and
 - (h) the yellow bands on the pole are not illuminated other than by means of retroreflecting material.

Mirror at traffic signals warning of the presence of cyclists

27.—(1) A sign to convey the description of warning in sub-paragraph (2) must consist of a circular convex mirror of a diameter not less than 300 mm and not more than 500 mm.

(2) The warning to which sub-paragraph (1) refers is of the presence at traffic signals of cyclists who may not otherwise be visible to other traffic.

Automatic bollards

28.—(1) An indicator for conveying to vehicular traffic the information, warning, restriction or prohibition in sub-paragraph (2) must be of the same size, colour and type as the traffic light signals provided for at item 1 of the Part 2 sign table except that—

- (a) an amber aspect must not be included;
 - (b) the diameter of the red signal and the green signal must be not less than 100 mm;
 - (c) the mounting height to the centre of the green signal must be not less 1000 mm; and
 - (d) the indicator may not incorporate a signal provided for in the sign table in Part 3.
- (2) The significance, when illuminated, of the—

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) red signal is that it indicates the period during which an automatic bollard is in the raised position and that vehicular traffic must not proceed; and
 - (b) green signal is that it indicates the period during which an automatic bollard is in the lowered position and that vehicular traffic may proceed.
- (3) Schedule 14 General Directions 44 and 46 apply to the indicator.

Refuge indicator lamps

29.—(1) A lamp in the form of an illuminated spherical globe for conveying the warning that drivers of vehicles are approaching a street refuge may be placed subject to the following conditions—

- (a) the globe is white;
 - (b) the globe has a diameter of not less than 275 mm nor more than 335 mm; and
 - (c) the height of the centre of the globe above the surface of the carriageway in the immediate vicinity is not less than 3800 mm nor more than 5000 mm.
- (2) Schedule 14 General Direction 45 applies to the lamp provided for in sub-paragraph (1).

Meaning of “stop line”

30.—(1) Subject to sub-paragraphs (2) and (3), “stop line” in this Part means—

- (a) in relation to any vehicle except a tramcar, the road marking provided for at item 46 of the Part 2 sign table; and
 - (b) in relation to a tramcar—
 - (i) the road marking provided for at item 47 of that table; or
 - (ii) where that marking has not been placed, the road marking provided for at item 46.
- (2) Where the road marking provided for at item 48, 49 or 50 of the sign table in Part 2 has been placed, “stop line” means—
- (a) unless (b) applies, the first stop line; or
 - (b) in the case of—
 - (i) a pedal cycle; or
 - (ii) a vehicle which has proceeded beyond the first stop line, the second stop line.
- (3) Where there is no stop line or the stop line is not visible, references to “stop line” are—
- (a) in a case where a sign provided for at item 58, 59 or 60 of the Part 2 sign table is placed, to be treated as references to that sign; and
 - (b) in any other case, to be treated as references to the post or other structure on which the primary signals (within the meaning of paragraph 31) are mounted.
- (4) In sub-paragraph (2)—
- (a) “the first stop line” means the transverse white line or lines appearing below the pedal cycle symbol in the road markings shown in the diagram at item 49, in the diagram at item 50 or in either version of the diagram at item 48; and
 - (b) “the second stop line” means the transverse white line appearing above the pedal cycle symbol in the road markings shown in the diagram at item 49 or 50, or in either version of the diagram at item 48.

Primary and secondary signals

31.—(1) In this Part a reference to traffic light signals, or to a signal of a particular colour forming part of traffic light signals, is, where secondary signals as well as primary signals have been placed, a reference to the light signals displayed by both the primary and secondary signals or, as the case may be, by the primary signals operating without the secondary signals or by the secondary signals operating without the primary signals.

(2) “Primary signals” means traffic light signals provided for at item 1, 2, 3 or 4 of the Part 2 sign table and—

- (a) where a stop line is also placed, sited beyond that line and near one end or both ends of the line; or
- (b) where there is no stop line, sited at either edge or both edges of the carriageway or part of the carriageway which is in use by traffic approaching and controlled by the sign; and

(3) “Secondary signals” means traffic light signals provided for at item 1, 2, 3 or 4 of the Part 2 sign table which are sited facing traffic approaching from the direction of the primary signals but sited beyond those signals as viewed from the direction of travel of such traffic.

PART 4

Requirements applying to signs in Parts 2 and 3

1. Section 36 of the 1988 Act applies to the sign.
2. The sign is specified for the purposes of column 5 of the entry in Schedule 2 to the Road Traffic Offenders Act 1988(117) relating to offences under section 36 of the 1988 Act.
3. The dimension of 200 mm referred to in the diagram for the sign may be varied by—
 - (a) up to 10% where the varied dimension is greater than 200 mm, or
 - (b) up to 2.5% where the varied dimension is less than 200 mm,
 provided that, where the dimensions of a signal which displays an arrow or symbol are varied in accordance with this paragraph, the dimensions chosen for the arrow or symbol are such as to maintain the shape and proportions shown in the diagram in which the signal is shown.
4. The stop line must be reflectorised unless paragraph 5 applies.
5. If the stop line is placed with zig-zag lines the stop line may be reflectorised.
6. The sign comprises the stop (item 64) and go (item 65) symbols on opposite sides of the same sign.
7. No retroreflecting material must be applied to that part of the sign which is coloured fluorescent yellow, unless the retroreflecting material is applied to that part in horizontal strips with a gap between each strip, or unless the retroreflecting material is itself also fluorescent.
8. Where the sign is erected on a road subject to a speed limit greater than 20 mph and is within 50 metres of any lamp which forms part of a system of street-lighting, the illumination requirements for the sign are—
 - (a) where that system of street-lighting is illuminated throughout the hours of darkness, the sign must be illuminated by internal or external lighting for so long as that system is illuminated and may also be reflectorised; or
 - (b) where that system of street-lighting is not illuminated throughout the hours of darkness—

- (i) the sign must be illuminated by internal or external lighting for so long as that system is illuminated and must also be reflectorised; or
- (ii) the sign must be illuminated throughout the hours of darkness by internal or external lighting and may also be reflectorised.

9. The sign must be illuminated throughout the hours of darkness by internal or external lighting and may also be reflectorised.

10. The sign must be illuminated by means of internal lighting at all times except when the light signals to which it is fixed are being maintained or repaired.

11.—(1) Subject to sub-paragraphs (2) and (3), the parts of the sign not coloured black must be reflectorised.

(2) The part of the sign coloured yellow must be fluorescent, unless the retroreflecting material is applied to that part in horizontal strips with a gap between each strip or the retroreflecting material is itself also fluorescent.

(3) The part of the sign coloured red may be fluorescent.

12.—(1) The illumination of the roundel must be in accordance with this paragraph.

(2) The parts of the roundel coloured black must not be illuminated by means of retroreflecting material.

(3) Subject to sub-paragraph (4), the parts of the roundel coloured yellow must be either fluorescent or illuminated by means of internal lighting.

(4) Subject to sub-paragraph (5) with the exception of the parts of the roundel coloured black and any protective strip applied to the perimeter of the roundel, the roundel must be illuminated by means of retroreflecting material and any such material applied to the parts coloured yellow must, if not fluorescent, be applied in horizontal strips with gaps between the strips.

(5) The parts of the roundel coloured red may be fluorescent or illuminated by means of internal lighting.

13.—(1) A globe must be internally illuminated by a flashing light except that, where sub-paragraph (2) applies, it may be a steady light.

(2) This sub-paragraph applies where—

- (a) in relation to a globe placed in England and Wales, the Secretary of State; or
- (b) in relation to a globe placed in Scotland, Scottish Ministers,

has or have given authorisation in writing for the light to be steady.

(3) Where a globe is mounted on or attached to or mounted on a post, whether or not specially provided for the purpose—

- (a) the post must be coloured in alternate black and white bands with the lowest band being coloured black;
- (b) the width of the bands must be not less than 275 mm, nor more than 335 mm, save that the lowest band may be of a width of not more than 1 metre; and
- (c) the post may be internally illuminated.

(4) A globe, or the post on which it is mounted, may be fitted with all or any of the following—

- (a) a backing board or other device designed to improve the conspicuousness of the globe;
 - (b) a shield or other device designed to prevent or reduce light shining into adjacent premises;
- or

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(c) a light to illuminate the crossing.

14. The sign must only be illuminated when the warning conveyed by the sign applies.

PART 5

Movement at section 25 crossings

1. The driver of a vehicle must not cause the vehicle or any part of it to stop within the limits of a section 25 crossing unless prevented from proceeding by circumstances beyond the driver's control or it is necessary to stop to avoid injury or damage to persons or property.

2. A pedestrian must not remain on the carriageway within the limits of a section 25 crossing longer than is reasonably necessary for that pedestrian to pass over the crossing with reasonable despatch.

3. Subject to paragraph 4, the driver of a vehicle must not cause it, or any part of it, to stop in a section 25 crossing controlled area.

4.—(1) The prohibition in paragraph 3 does not apply to—

- (a) a pedal cycle; or
- (b) a driver who stops a vehicle in a controlled area in any of the circumstances specified in sub-paragraph (2).

(2) The circumstances are—

- (a) the driver has stopped the vehicle for the purpose of complying with paragraph 7(1);
- (b) the driver has stopped the vehicle for the purpose of complying with an indication given by a light signal for the control of vehicular traffic or the direction of a constable in uniform, a traffic officer in uniform or a traffic warden;
- (c) the driver is prevented from proceeding by circumstances beyond the driver's control or it is necessary to stop to avoid injury or damage to persons or property;
- (d) the vehicle is being used for at least one of the following purposes—
 - (i) fire and rescue authority;
 - (ii) Scottish Fire and Rescue Service;
 - (iii) ambulance;
 - (iv) blood service;
 - (v) providing a response to an emergency at the request of an NHS ambulance service;
 - (vi) bomb or explosive disposal;
 - (vii) special forces;
 - (viii) police;
 - (ix) National Crime Agency.
- (e) the vehicle is stopped for no longer than is necessary for it to be used for the purposes of—
 - (i) an operation involving building, demolition or excavation;
 - (ii) the removal of any obstruction to traffic;
 - (iii) the maintenance, improvement or reconstruction of a road; or
 - (iv) the laying, erection, alteration, repair or cleaning in or near the controlled area of any sewer, or of any main, pipe or apparatus for the supply of gas, water or electricity, or of any electronic communications apparatus kept installed for the purposes of an

electronic communications code system or of any other electronic communications apparatus lawfully kept installed in any position,

but only if the vehicle cannot be used for those purposes without stopping in the controlled area;

(f) the vehicle is a public service vehicle being used—

(i) in the provision of a local service; or

(ii) to carry passengers for hire or reward at separate fares,

where the vehicle is waiting in the controlled area in order to take up or set down passengers having proceeded past the crossing or the light signals to which the controlled area relates; or

(g) the vehicle is stopped for the purpose of making a left or right turn.

5. When vehicular light signals at a Puffin crossing are displaying a light signal which conveys a prohibition described at paragraph 5(2) of Part 1, the driver of a vehicle must not cause it to contravene that prohibition.

6.—(1) Whilst any motor vehicle (“the approaching vehicle”) or any part of it is within the limits of a section 25 crossing controlled area and is proceeding towards the crossing to which the controlled area relates, the driver of the vehicle must not cause it or any part of it to pass ahead of the foremost part of—

(a) any other motor vehicle proceeding in the same direction

(b) a vehicle which is stationary for the purpose of complying with paragraph 5 or 7.

(2) In sub-paragraph (1)—

(a) the reference to a motor vehicle in paragraph (a) is, in a case where more than one motor vehicle is proceeding in the same direction as the approaching vehicle in a section 25 crossing controlled area, a reference to the motor vehicle nearest to the crossing to which the controlled area relates; and

(b) the reference to a stationary vehicle is, in a case where more than one vehicle is stationary in a controlled area for the purpose of complying with paragraph 5 or 7, a reference to the stationary vehicle nearest the crossing to which the controlled area relates.

7.—(1) Every pedestrian who is on the carriageway within the limits of a Zebra crossing, which is not for the time being controlled by a constable in uniform or traffic warden, before any part of a vehicle has entered those limits has precedence within those limits over that vehicle and the driver must accord such precedence to any such pedestrian.

(2) Where there is a refuge for pedestrians or central reservation on a Zebra crossing, the parts of the crossing situated on each side of the refuge or central reservation are, for the purposes of this paragraph, to be treated as separate crossings.

PART 6

The Schedule 14 General Directions

1. In these General Directions a reference to an item is to an item in the Part 2 sign table (except where a contrary intention is expressed).

2.—(1) Subject to sub-paragraph (3), the traffic light signals provided for at item 1, 3 or 4 may only be placed in conjunction with the road marking provided for at item 46, 47, 48, 49 or 50 (the reference to item 47 is to be ignored in relation to item 4).

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(2) Subject to sub-paragraph (3), the light signals provided for at item 5 may only be placed in conjunction with the road marking provided for at item 46.

(3) Sub-paragraphs (1) and (2) do not apply to light signals while works which necessitate the temporary removal of a road marking are being executed on a road near the light signals.

3.—(1) This paragraph applies where—

- (a) one or more of the signs provided for at item 1, 3 or 4;
- (b) one or more of the signs provided for at items 9 to 22; or
- (c) a combination of the signs mentioned at (a) and (b),

are mounted on a post or other support specially provided for the purpose.

(2) No other signs may be mounted on, or fixed to, that post or support.

(3) Sub-paragraph (2) is subject to sub-paragraphs (4) to (6)

(4) One of each of the signs provided for at items 42 to 45 may be fixed to any traffic light signals on that post or support as long as those signs are placed so that they face the stream of traffic to which they are intended to convey their warning, information, requirement, restriction or prohibition.

(5) A sign which are referred to in paragraph (6) may be mounted on the post or support as long as it is placed so that it faces the stream of traffic to which it is intended that that information is conveyed.

(6) The signs are—

- (a) those provided for at item 29 (where the legend is “Part time signals” or “Peak hour signals”) or 61;
- (b) a sign placed by virtue of Part 9 of Schedule 13 conveying the information that traffic light signals are not in use.

4. The traffic light signals may be placed to face traffic proceeding in a particular direction if and only if—

- (a) at least two identical sets of signals are placed so as to face traffic proceeding in that direction; and
- (b) at least one of those sets of signals is a set of primary signals.

5.—(1) The light signals may only be placed if they are placed so that they face the stream of traffic to which they are intended to convey the warnings, information, requirements, restrictions or prohibitions prescribed.

(2) A container enclosing the lamps of the light signals must be coloured black except that—

- (a) if a container encloses lamps of the light signals provided for at item 23, 25, 32, 33 or 34 it may be coloured grey instead of black;
- (b) the back of a container enclosing the light signals provided for at item 11 to 14, 16 to 18 or 20 to 22 may be coloured yellow; and
- (c) the container may have a white border not less than 45 nor more than 55 mm wide.

(3) The light signals other than the signals provided for at item 5 may be mounted on a backing board, which must be coloured black and may have a white border not less than 45 nor more than 55 mm wide.

(4) In the case of the light signals provided for at item 5, the back of the backing board may be coloured black or grey.

(5) Where the light signals are mounted on a post specially provided for the purpose, that part of the post which extends above ground level must either be coloured grey, black, brown, dark green or dark blue or be in a non-reflective metallic finish.

(6) Despite sub-paragraph (5)—

- (a) the post may be marked with a yellow or white band not less than 140 nor more than 160 mm deep and the lower edge of the band being not less than 1500 nor more than 1700 mm above ground level; and
- (b) where the light signals provided for at item 1, 3, 4, 9 to 11 or 13 to 22 are installed temporarily, the containers in which the posts are placed may be coloured with alternate red and white horizontal stripes.

(7) The portable light signals provided for at item 2 and the signals provided for at items 9 to 13 when used at a portable crossing, instead of being mounted on a post coloured in accordance with sub-paragraph (5), may be mounted on a post coloured yellow (but having no yellow or white band as specified in sub-paragraph (6)) or on a tripod or other support coloured yellow.

6.—(1) A traffic authority may, pursuant to section 65(1) of the 1984 Act, cause or permit the placing of the portable light signals if and only if—

- (a) permission is given in writing, or in a case of urgency, given orally and confirmed in writing as soon as reasonably practicable thereafter; and
- (b) either—
 - (i) the written permission of the authority includes express approval to the placing of the signals at a particular site; or
 - (ii) the authority is satisfied that the circumstances of the particular case fall within one of the sets of circumstances specified in sub-paragraph (2).

(2) The sets of circumstances referred to in sub-paragraph (1)(b)(ii) are—

- (a) where the signals are to be operated and maintained by, and are under the regular supervision of, a constable in uniform during the progress of a temporary scheme of traffic control;
- (b) where the signals are placed on a length of road along which—
 - (i) there is no junction carrying vehicular traffic to or from it; and
 - (ii) the width of the carriageway is temporarily restricted so as to carry only one line of traffic;
- (c) where the signals are placed at a level crossing when work in relation to that crossing is being carried out;
- (d) where the signals are placed on a road which is—
 - (i) adjacent to the temporary site of road, building or engineering works; and
 - (ii) is used for the movement of vehicles, materials, plant or equipment into and out of the site of the works.

(3) Nothing in this direction is to be taken to limit or affect the powers of a constable or the chief officer of police under section 67(1) of the 1984 Act (placing of temporary signs on roads in extraordinary circumstances).

7. The sign may only be placed in conjunction with a sign provided for at item 21, 46, 51, 52 or 53 of the sign table in Part 2 of Schedule 2 (and no plate may be placed with the signs).

8. The sign may only be placed in conjunction with the sign provided for at item 56 of the sign table in Part 2 of Schedule 2 (and no plate may be placed with the signs).

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

9. The light signal may only be placed at or near a level crossing and the legend on that light signal may be displayed only when a railway vehicle or tramcar has just passed over the level crossing and another is approaching.
10. The light signals may only be placed in conjunction with the light signals provided for at item 1 to 4.
11. The sign may only be placed in conjunction with the light signals provided for at item 9.
12. The sign may only be placed in conjunction with the light signals provided for at item 3, 4, 9, 15 or 19.
13. The light signals may only be placed in conjunction with—
 - (a) the light signals provided for at item 1, 2, 3 or 4; or
 - (b) the light signals mentioned at (a) and the light signals provided for at item 14.
14. The light signals may only be placed in conjunction with the light signals provided for at item 13 and those provided for at item 1, 3 or 4.
15. The light signals may only be placed in conjunction with the light signals provided for at item 1, 3 or 4.
16. The sign may only be placed in conjunction with the light signals provided for at item 15.
17. The light signals may only be placed in conjunction with—
 - (a) the light signals provided for at item 1, 3 or 4; or
 - (b) the light signals mentioned at (a) and those provided for at item 18.
18. The light signals may only be placed in conjunction with the light signals provided for at item 17 and those provided for at item 1, 3 or 4.
19. The light signals may only be placed in conjunction with the light signals provided for at item 1, 3 or 4.
20. The sign may only be placed in conjunction with the light signals provided for at item 3, 4 or 19.
21. The light signals may only be placed in conjunction with—
 - (a) the light signals provided for at item 1, 3 or 4; or
 - (b) the light signals mentioned at (a) and those provided for at item 22.
22. The light signals may only be placed in conjunction with the light signals provided for at item 21 and those provided for at item 1, 3 or 4.
23. The light signals may only be placed in conjunction with the sign provided for at item 25 of the table in Part 2 of Schedule 2, together with a plate bearing the legend “School”, “Patrol” or “Disabled children”.
24. The light signals may only be placed when the signs provided for at item 41 are placed in advance of those signals.
25. The light signals may only be placed in conjunction with the light signals provided for at item 5.
26. The sign may only be placed in conjunction with the sign provided for at item 28 or, where the legend is “Part time signals” or “Peak hour signals”, the light signals provided for at item 1, 3, or 4.
27. The sign may only be placed in conjunction with the sign provided for at item 28 or 30.

28. The signs may only be placed to indicate the effect of an Act, order, regulation, bylaw, resolution or notice which prohibits or restricts the use of the road by traffic.

29. The sign may only be placed in conjunction with the light signals provided for at item 1, 3 or 4.

30. The sign may only be placed in conjunction with the light signals provided for at item 1 or 3.

31.—(1) The road marking may only be placed in conjunction with the light signals provided for at item 1, 2, 3, 4 or 5.

(2) Despite sub-paragraph (1), the marking may be placed at a site where traffic is from time to time controlled by a constable in uniform or traffic warden without the light signals referred to in that sub-paragraph.

32. The road marking may only be placed—

- (a) in conjunction with the traffic light signals provided for at item 1 or 3; and
- (b) when the signal provided for at items 2 to 7 of the table in Part 3 (light signal for control of tramcars) is part of those traffic light signals.

33. The road marking may only be placed—

- (a) in conjunction with the traffic light signals provided for at item 1; and
- (b) when those signals are placed adjacent to the stop line appearing above the pedal cycle symbol that forms part of the marking.

34.—(1) Subject to sub-paragraph (2), the road marking may only be placed in conjunction with the traffic light signals provided for at item 1 together with—

- (a) the marking provided for at item 55 or 56 (marks to show a suitable place for crossing); and
- (b) the light signals provided for at item 9, 13 (whether or not used in conjunction with the light signals provided for at item 14), 15, 17 (whether or not used in conjunction with the light signals provided for at item 18), 19 or 21 (whether or not used in conjunction with the light signals provided for at item 22).

(2) The road marking may be placed in conjunction with the traffic light signals provided for at item 2 (portable traffic light signals), together with the light signals provided for at item 9 or 13 and the marking provided for at item 55 as part of a portable signal-controlled pedestrian facility where all streams of vehicular traffic are stopped only for the purpose of enabling pedestrians to cross the carriageway in conjunction with the traffic light signals.

35. The road marking may only be placed in conjunction with the light signals provided for at item 1, 3 or 4.

36. The signs may only be placed —

- (a) where one-way working is necessary along a length of road because part of the width of the carriageway has been temporarily closed to traffic; and
- (b) either—
 - (i) there is no junction with another road along that length; or
 - (ii) the traffic authority has given express written approval to the placing of the sign in relation to a length of road having a junction with another road.

37. The sign may only be placed in connection with the execution of works on or near a road, or a temporary obstruction.

38. The post provided for the mounting of the sign must be coloured in alternate black and yellow bands each 300 mm deep with a black band uppermost below the bottom of the sign face and the yellow bands may be reflectorised.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- 39.** The sign—
- (a) may only be placed in connection with works involving—
 - (i) an alteration in the layout of a level crossing; or
 - (ii) the placing, removal or alteration of signs on or near a level crossing; and
 - (b) may be retained in place not later than the end of the period of three months beginning with the day of the completion of those works.
- 40.** The sign may only be placed in conjunction with—
- (a) a sign provided for at item 23; and
 - (b) a sign provided for at item 25 of the sign table in Part 2 of Schedule 2.
- 41.**—(1) Zig-zag lines must be placed on the approaches to each side of a relevant crossing facility so as to form controlled areas.
- (2) In this general direction, “relevant crossing facility” means—
- (a) a signal-controlled crossing facility—
 - (i) at which there is placed the signal provided for at item 9, 15, 17, 19 or 21; and
 - (ii) which is not situated at a junction at which the priority between motor vehicles is regulated by traffic light signals;
 - (b) a Puffin crossing;
 - (c) a Parallel crossing; or
 - (d) a Zebra crossing.
- 42.**—(1) A traffic authority may, pursuant to section 65(1) of the 1984 Act, cause or permit the placing of a portable signal-controlled pedestrian facility if, and only if—
- (a) permission is given in writing; and
 - (b) the written permission of the authority includes express approval to the placing of the facility at a particular site.
- (2) Nothing in this direction is to be taken to limit or affect the powers of a constable or the chief officer of police under section 67(1) of the 1984 Act (placing of temporary signs on roads in extraordinary circumstances).
- 43.**—(1) The placing of light signals and other signs at crossings must be in accordance with the sub-paragraphs (2) to (7).
- (2) On the left hand side of the crossing there is to be placed a primary signal and on the right hand side of the crossing, refuge for pedestrians or central reservation, as the case may be, there is to be placed a further primary, or a secondary, signal.
- (3) At each end of the crossing there is to be placed—
- (a) in the case of a signal-controlled crossing facility—
 - (i) a farside light signal and a push button device; or
 - (ii) a nearside light signal; and
 - (b) in the case of a Puffin crossing, at least one nearside light signal.
- (4) Farside light signals are to be so placed as to be clearly visible to any person on the opposite side of the signal-controlled crossing facility who wishes to use the crossing.
- (5) Nearside light signals are to be so placed as to be clearly visible to any person on the same side of the crossing who wishes to use the crossing.

(6) A push-button device is to be so placed that the push-button may be reached by any person wishing to use it.

(7) A countdown unit may be placed with a farside light signal—

- (a) at a portable signal-controlled pedestrian facility the presence of which is indicated by the sign provided for at item 9, and item 11 or 12;
- (b) at a signal-controlled pedestrian facility the presence of which is indicated by the sign provided for at item 9, and item 11 or 12;
- (c) at a Toucan crossing the presence of which is indicated by the sign provided for at item 19, and item 12 or 20.

(8) For the purposes of this general direction—

- (a) “crossing” means a portable signal controlled pedestrian facility, a Puffin crossing and a signal-controlled crossing facility where vehicular traffic is stopped only for the purpose of enabling pedestrians, cyclists or equestrians to cross the carriageway and not for the purpose of regulating the vehicular traffic at a junction; and
- (b) references to the left or right hand side of a crossing are to the left or right hand side as viewed by vehicular traffic approaching the crossing along the carriageway across which the crossing is placed.

44. The indicator may only be placed in conjunction with the sign provided for at item 56 of the sign table in Part 2 of Schedule 2, with the legend “Rising bollards”.

45.—(1) This general direction applies where the lamp is specially mounted on a post.

(2) Paragraph (3)—

- (a) applies where a yellow globe is also attached to the post; and
- (b) is subject to paragraph (7).

(3) The part of the post between ground level and the point where the globe is attached must be coloured black and white in alternate horizontal bands and—

- (a) the lowest band must be coloured black and be not less than 275 mm nor more than 1 metre deep; and
- (b) each other band shall be not less than 275 mm nor more than 335 mm deep.

(4) The remaining part of the post must be coloured in accordance with paragraph (6).

(5) Paragraph (6) applies—

- (a) if no globe attached to the post; or
- (b) for the purposes of paragraph (4),

and is subject to paragraph (7).

(6) The post must be coloured grey or black but with two white bands (each band being not less than 275 mm nor more than 335 mm deep) arranged so that—

- (a) not less than 275 mm nor more than 335 mm extend between the nearest edges of the two bands; and
- (b) the upper edge of the uppermost band is not less than 275 mm nor more than 335 mm below the lowest part of the lamp,

and the white bands may be internally illuminated.

(7) Where the post is made of aluminium, concrete or galvanised metal it may remain in its natural colour.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

46.—(1) Equipment used in connection with the signals (including the content of all instructions stored in, or executable by, that equipment) may only be placed if, at the time it is first placed, it complies with the requirements of BS EN 12675:2001(**118**) and BS EN 50556:2011(**119**).

(2) Sub-paragraphs (3) to (7) make provision about how the Standards are to apply.

(3) In relation to the requirements of BS EN 12675:2001, if the state specified in column 2 of an item in table 1 occurs, the class of response that applies is that set out in column 3.

(4) In relation to the requirements of BS EN 50556:2011, the class of response for an aspect of performance at an item in table 2 in column 3 (within a subject area in column 2) is that in column 4.

(5) The signal states which endanger traffic for the purposes of 5.2.3 of BS EN 50556:2011 are those specified in column 2 of table 1 at item 1, 2, 4 or 16.

(6) Upon a state described in sub-paragraph (5) occurring, all signal heads and push button units must switch off in accordance with the classes of response specified in column 4 of table 2 at items 6 and 7.

SCHEDULE 15

Regulation 3, Direction 3

Matrix signs and light signals for the control of moving traffic on motorways and dual carriageway roads

PART 1

Provisions applying to signs in Part 2

1.—(1) Information or a warning, requirement, restriction or prohibition of a description in column 2 of an item in the sign table in Part 2 must be conveyed by a sign that is—

- (a) of the colour and type; and
- (b) complies with the requirements as to size,

provided for in the diagram in column 3, or that diagram as varied in accordance with Part 3.

(2) Column 4 identifies the applicable variant for the sign in question by reference to the appropriate paragraph number in Part 3.

2. The warning for the purposes of the description in column 2 of item 13 of the sign table is that—

- (a) there is a hazard ahead on the motorway or all-purpose dual carriageway road; and
- (b) drivers should drive at a speed which does not exceed 30 mph until they are certain that the hazard has been passed or removed.

3.—(1) The significance of a light signal provided for at item 14 or 15 is that it conveys to vehicular traffic that such traffic—

- (a) must not proceed in the lane or actively managed hard shoulder to which the sign relates; and
- (b) must not enter that lane or hard shoulder until one of the signs mentioned at subparagraph (2), or the legend “END”, is displayed on a matrix sign in relation to that lane or hard shoulder.

(2) The signs referred to in sub-paragraph (1)(b) are—

- (a) a sign provided for at item 1 of the Part 2 sign table in Schedule 10 (the maximum speed limit in mph); and
- (b) a sign provided for at item 2 of that table (the national speed limit applies).

(3) This paragraph is subject to paragraph 5.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

4. Subject to paragraph 5, the significance of a light signal provided for at item 16 is that it conveys to vehicular traffic on the carriageway beside which the signal is mounted that such traffic must not proceed beyond the light signal.

5. The prohibitions in paragraphs 3 and 4 do not apply to a vehicle being used—
- (a) for at least one of the purposes mentioned in paragraph 5(6) of Part 1 of Schedule 14;
 - (b) for traffic officer purposes; or
 - (c) for traffic authority purposes where the vehicle is being used in connection with—
 - (i) an accident or other incident; or
 - (ii) the execution of works on the road (including the erection of barriers and signs in connection with the execution of works); or
 - (iii) in the exercise of functions under section 67(1) of the 1984 Act(120),
 when observance of the prohibition would be likely to hinder the use of the vehicle for the purpose for which it is being used.

6. For the purposes of this Schedule a matrix sign which is mounted on a post situated beside the carriageway but is projected over it or part of it is to be treated as a sign placed beside the carriageway of that road.

7. The significance of a number in column 5 of an item in the sign table is that the equivalently numbered paragraph in Part 4 applies to the sign provided for at that item.

8. The significance of a number in column 6 of an item in the sign table is that the equivalently numbered paragraph in the Schedule 15 General Directions applies to the sign provided for at that item.

PART 3

Permitted variants in respect of the signs shown in Part 2

1. The numerals may be varied.
2. The arrow may point downwards to the left.
3. The symbol may be reversed where appropriate.
4. The number of arrows, or symbols indicating which lanes are open or closed to traffic, may be varied.
5. “50” may be varied to any of the legends or symbols (as the case may be) shown in the diagram at item 1, 2, 4, 8 or 9 of the table.
6. “50” may be varied to any of the legends or symbols (as the case may be) shown in the diagram at item 1, 3, 4, 5, 6, 8 or 9 and an identification number may be added to the backing board or post in horizontal or vertical format as appropriate.
7. An identification number may be added to the backing board or post in horizontal or vertical format as appropriate.
8. The number of red crosses may be varied.
9. Arrow may point upwards to the left.
10. The colour of the lamps referred to in paragraph 4 of Part 4 may be varied to red.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

11.—(1) Sub-paragraph (2) applies where the sign provided for at item 15 is of the type shown in the left hand diagram for that item.

(2) The signs provided for at items 3 and 6 of the table in Part 2 may be included in an appropriate configuration within the area of the item 15 sign, the boundary of which is shown by the four red lamps which accompany the sign.

PART 4

Provisions applying to signs in Part 2

1. The legend or symbol shown on the matrix sign must be displayed by means of white or yellow light (except any part which is red).

2. The flashing amber lamps provided for at item 11 for display on a gantry, or over a traffic lane or hard shoulder, with a sign provided for at item 1, 2, 4, 8, 9 or 10 must operate such that—

- (a) each lamp shows an intermittent amber light at a rate of flashing of not less than 60 nor more than 90 flashes per minute; and
- (b) one horizontal pair of lights is always shown when the other horizontal pair of lights is not shown.

3. The flashing amber lamps provided for at item 12 of the sign table in Part 2 for display on a post with a sign provided for at item 1, 3, 4, 5, 6, 8 or 9 must operate such that—

- (a) each lamp shows an intermittent amber light at a rate of flashing of not less than 60 nor more than 90 flashes per minute;
- (b) one horizontal pair of lights is always shown when the other horizontal pair of lights is not shown; and
- (c) the distance between them accords with the overall size of the sign.

4. The sign may display four lamps of the size, colour and type shown—

- (a) when placed beside the carriageway, in the diagram at item 12 of the sign table in Part 2;
- (b) when mounted on a gantry or other structure over the carriageway, in the diagram at item 11 of that table.

5. In operation each lamp must show an intermittent amber light at a rate of flashing of not less than 60 nor more than 90 flashes per minute and in such a manner that one light is always shown when the other light is not shown.

6. The sign must—

- (a) be accompanied by four red lamps which, in operation, show an intermittent red light at a rate of flashing of not less than 60 nor more than 90 flashes per minute and in such a manner that the lights of one vertical pair are always shown when the lights of the other vertical pair are not shown; and
- (b) have the red cross shown in the diagram at item 14 or 15 of the sign table in Part 2, or the white symbol shown in the diagram at item 16 of that table, illuminated by a steady light when the red lights are flashing.

7.—(1) Section 36 of the Road Traffic Act 1988 applies to the sign.

(2) The sign is specified for the purposes of column 5 of the entry in Schedule 2 to the Road Traffic Offenders Act 1988(121) relating to offences under section 36 of the 1988 Act.

PART 5

The Schedule 15 General Directions

- 1.—(1) The sign may only be placed—
 - (a) on or near a motorway or an all-purpose dual carriageway road; and
 - (b) so it faces the stream of traffic to which it is intended to convey the information, warning, requirement, restriction, prohibitions or speed limit in question.
 - (2) A container enclosing the sign must be coloured black or grey and may have a white border not less than 45 mm nor more than 55 mm wide.
 - (3) A sign may—
 - (a) be mounted on a backing board, which must be coloured black and may have a white border not less than 45 mm nor more than 55 mm wide;
 - (b) show an identification number on the front of the backing board below the signal or on the post on which the signal is mounted
 - (4) Where the sign is mounted on a post specially provided for the purpose, that part of the post which extends above ground level must be—
 - (a) coloured grey, black, brown, dark green or dark blue, or
 - (b) of a non-reflective metallic finish,and, in either case, the post may be marked with a yellow or white band not less than 140 mm nor more than 160 mm deep, the lower edge of the band being not less than 1500 mm nor more than 1700 mm above ground level.
2. The sign must only be displayed over an actively managed hard shoulder whilst variable message signs displaying the maximum speed limit sign are displayed above so much (if any) of the adjacent carriageway as is open to traffic.

SCHEDULE 16

Regulation 3, Schedule 1

Variable message signs

PART 1

Preliminary

- 1.—(1) A variable message sign must be of a size appropriate to display a sign or legend having regard to the normal speed of traffic on the road on or near which the sign is placed.
- (2) Subject to sub-paragraph (4), when a variable message sign displays—
 - (a) a sign provided for in Part 2 of Schedule 15; or
 - (b) a legend of the type provided for in this Schedule,the colour of any symbol or legend must accord with the requirements of sub-paragraph (3).
- (3) The symbol or legend must be displayed in—
 - (a) white; or
 - (b) yellow,

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

on a dark background.

- (4) Sub-paragraph (2) does not apply to any red aspects of a sign.
- (5) A discontinuous variable message sign must—
- (a) in relation to each aspect of performance specified in column 2 of tables 1 and 2 in Part 7 of this Schedule, comply with the requirement or test specification of British Standard BS EN 12966:2014(122) (“the Standard”) specified in columns 3 to 7 of table 1 or column 3 of table 2 for that item, as the case may be;
 - (b) in relation to each visual performance parameter specified in column 2 of table 3 in Part 7, comply with the class designation level of the Standard specified in columns 3 and 4 of the table for that item;
 - (c) subject to paragraph (d), in relation to the visual performance parameter at a speed specified in column 2 of table 4 in Part 7, comply with the class designation level of the Standard specified in column 3 of the table for that item; and
 - (d) where the sign conveys a warning, restriction or prohibition, comply with class designation level 1 of the Standard specified in column 3 of table 3 in Part 7.
- (6) If the construction or method of operation of a variable message sign prevents a sign from being displayed in the colours shown for it in the appropriate diagram in Schedules 2 to 13, a black legend or symbol on a white or yellow background may be displayed as a white or yellow legend or symbol on a dark background, provided that any red triangle or red circle forming part of the sign is included.
- (7) The size of any symbol or legend, including any red triangle or circle, displayed on a variable message sign, which is displayed by means of light-emitting characters or symbols, may be varied so that the size of the symbol or legend appears to road users to be the same as it appears to them to be when it is not so displayed.
- (8) When a variable message sign displays a sign or legend the variable message sign must display the whole of that message at the same time.
- (9) In this paragraph, “discontinuous variable message sign” means a variable message sign which uses discontinuous individual elements, and is capable of being in one or more states, to create variable messages on the face of the sign.

2.—(1) In a legend provided for in this Schedule the number of a junction must be shown in the form of the letter “J” followed by the number.

(2) Where this Schedule provides for a route number to be displayed on a sign, a compass point (“NORTH”, “SOUTH”, “EAST” or “WEST”) or an abbreviated compass point (“N”, “S”, “E”, “W”, “NW”, “NE”, “SW” or “SE”) may be added to the route number.

(3) Where any part of a legend provided for in this Schedule is shown in square brackets, the brackets must not be displayed on a sign.

(4) Different legends or different parts of the same legend displayed on a sign in accordance with this Schedule may be separated by a dash.

PART 2

Signs automatically activated by vehicular traffic

3. One of the following legends may be displayed on a variable message sign which is activated by a particular type of vehicle approaching the equipment which controls the sign—

- (a) “OVERHEIGHT VEHICLE DIVERT” with—
 - (i) an arrow;
 - (ii) “USE” and a route number; or
 - (iii) “FOLLOW” and a symbol provided for at item 13 of the table in Part 11 of Schedule 12;
- (b) “OVERHEIGHT VEHICLE TURN BACK”;
- (c) “HIGH VEHICLE USE MIDDLE OF ROAD”; or
- (d) “ONCOMING VEHICLE IN MIDDLE OF ROAD”.

PART 3

Legends giving warnings of adverse weather or other temporary hazards or incidents

4.—(1) A legend provided for in sub-paragraph (2) may be displayed on a variable message sign in conjunction with—

- (e) “ONCOMING VEHICLE”;
- (f) “SETTING OUT ROAD WORKS”;
- (g) “SLOW MOVING LARGE LOAD”.

(4) In sub-paragraphs (2) and (3) square brackets are used to indicate the part of a legend which may be omitted.

PART 4

Legends indicating location of temporary hazard or incident

5. One of the following legends may be used on a variable message sign in conjunction (either on its own or in combination with a legend provided for in Part 5) with a legend provided for in Part 3—

- (a) a route number;
- (b) “ON [name of bridge] BRIDGE” or “ON BRIDGE”;
- (c) “AT” together with—
 - (i) a place name,
 - (ii) the name of a bridge or tunnel,
 - (iii) a junction name or number or a junction number and “EXIT”, or
 - (iv) “NEXT JCT” or “TOLL”;
- (d) “AFTER” together with—
 - (i) a place name,
 - (ii) the name of a bridge or tunnel,
 - (iii) “BRIDGE” or “TUNNEL”,

- (iv) a junction name or number, or
- (v) “NEXT JCT”;
- (e) a number and “MILES”;
- (f) “AHEAD” preceded by a legend specified in paragraph 3(2)(v) or (w) only;
- (g) “FOR” together with a number and “MILES”;
- (h) “IN ROAD”;
- (i) a junction number;
- (j) a junction number “TO” and another junction number;
- (k) “ON SLIP ROAD”;
- (l) “TO” and a route number.

PART 5

Additional information

6.—(1) A legend provided for in sub-paragraph (2) may be used on a variable message sign in conjunction with a legend provided for in Part 3 or a combination of a legend provided for in Part 3 and a legend provided for in Part 4.

(2) The legends are—

- (a) a number and “HR DELAYS”;
- (b) [“ALL TRAFFIC”] [“CARS”] [“CARAVANS”] [“HGV’S”] [“HIGH SIDED VEHS”] [“AND”] [“M’CYCLES”] “USE” and a route number or “BUS LANE” or “HARD SHOULDER”;

7. The expressions permitted by paragraph 1, 2, 3 or 4 may be used with those permitted by any other paragraph in any combination as appropriate.

PART 2

Permitted expressions for parking restriction signs

1. A restriction in relation to parking may be shown as, or varied to, the following (or an appropriate combination)—

- (a) a period of time expressed as “4 hours”, “1 hour 30 minutes” or “30 minutes” with the numerals being varied as appropriate and “hours” may be abbreviated to “hrs”, “hour” may be abbreviated to “hr” and “minutes” may be abbreviated to “mins”;

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (b) a limitation of time expressed as “2 hour limit” or “30 minute limit”, with the numerals being varied as appropriate and “hour” may be abbreviated to “hr” and “minutes” may be abbreviated to “mins”;
- (c) “No limit”;
- (d) “Max stay 1 hour” or “max stay 30 minutes”, with the numerals being varied as appropriate and “hour” may be abbreviated to “hr” and “minutes” may be abbreviated to “mins”;
- (e) “No return within 2 hours”, with the numeral being varied as appropriate and “hours” may be abbreviated to “hr” or varied to “hour” or “hr”;
- (f) “No return to” and the name of a zone or parking place, which may be, or include, a zone or parking place identifier;
- (g) “No return to this zone”;
- (h) the legend at (f) or (g) followed by “within 2 hours”, with the numeral being varied as appropriate and “hours” may be abbreviated to “hr” or varied to “hour” or “hr”.

PART 3

Permitted expressions of distance

1. Paragraphs 2 to 6 are subject to paragraph 7.
2. Where “10” is used as an example numeral, a distance in miles must be expressed as—
 - (a) “10 miles” (or, where 1 is the numeral, “1 mile”);
 - (b) “10 m”; or
 - (c) “10”.
3. Yards must be expressed as the numeral followed by “yards” or “yds”.
4. A distance of 3 miles or more must be expressed in miles to the nearest mile.
5. A distance of $\frac{1}{2}$ mile or more but less than 3 miles must be expressed to the nearest $\frac{1}{4}$ mile with the fractions $\frac{3}{4}$, $\frac{1}{2}$ and $\frac{1}{4}$ being used.
6. A distance of less than $\frac{1}{2}$ mile must be expressed—
 - (a) to the nearest $\frac{1}{4}$ mile with the fractions $\frac{1}{2}$ and $\frac{1}{4}$ being used; or
 - (b) in yards, to the nearest 10 yards
7. Where—
 - (a) a sign provided for in Schedule 12 includes a distance to a junction; or
 - (b) is a diagram A sign provided for in Part 22 of that Schedule (services) and includes a distance,

that distance must be expressed in miles denoted by the letter “m” and must be one of the following: “2 m”, “1 $\frac{3}{4}$ m”, “1 $\frac{2}{3}$ m”, “1 $\frac{1}{2}$ m”, “1 $\frac{1}{3}$ m”, “1 $\frac{1}{4}$ m”, “1 m”, “ $\frac{3}{4}$ m”, “ $\frac{2}{3}$ m”, “ $\frac{1}{2}$ m” or “ $\frac{1}{3}$ m”.

EXPLANATORY NOTE

(This note is not part of the Instrument)

This Instrument consolidates, with substantial amendments, the Zebra, Pelican and Puffin Pedestrian Crossings Regulations and General Directions 1997, the Traffic Signs (Temporary Obstructions) Regulations 1997, the Traffic Signs Regulations and General Directions 2002 and the School Crossing Patrol Sign (England and Wales) Regulations 2006. Part 1 is the Traffic Signs Regulations 2016 and Part 2 is the Traffic Signs General Directions 2016.

Part 1 – The Traffic Signs Regulations 2016

Regulation 1 gives the title of the Regulations and the collective title of the Regulations and General Directions. It also sets out the extent of the Regulations.

Regulation 2 contains some interpretation provisions and introduces Schedule 1 which contains a table of definitions.

By regulation 3, if a sign complies with the applicable provisions of the Regulations, it is of a prescribed size, colour and type for the purposes of section 28(4) or section 64(2) of the Road Traffic Regulation Act 1984. Regulation 3 also introduces the Parts of Schedules 2 to 16 that contain regulations. These Parts set out the requirements as to size, colour and type that apply to particular signs. Each Schedule covers a different class of sign (whether by reference to the circumstances in which a sign is used or the type of sign).

Regulation 4 makes provision about the relationship between the Regulations and the power of ministers to authorise signs.

Regulation 5 imposes requirements about the design of letters, numerals and other characters used on signs and in doing so introduces Schedule 17. This Schedule sets out the design to be used in particular circumstances.

Regulation 6 contains provision about expressions of time, distance and parking restrictions and in doing so introduces Schedule 18 which contains detailed provision on the use of these expressions.

Regulation 7 contains provision about the dimensions and design of signs.

Regulations 8 and 9 impose requirements about the illumination of signs.

Regulation 10 imposes requirements about the height of road markings and studs.

Regulation 11 gives the general rule about the colours to be used on signs.

Regulation 12 provides, where the Regulations impose requirements by reference to British Standards, for compliance with equivalent standards of an EEA state to be acceptable.

Regulation 13, by introducing Part 1 of Schedule 19, provides for a number of Regulations to be revoked.

Regulation 14 sets out transitional and savings provisions.

Regulation 15 imposes a requirement to review the Regulations on the Secretary of State.

Part 2 – The Traffic Signs General Directions 2016

General Direction 1 gives the title of the General Directions and the collective title of the Instrument.

General Direction 2 contains provisions about interpretation.

General Direction 3 introduces the final Part of each of Schedules 2 to 15 and provides that the general directions in those Parts apply to the signs in the Schedule in which they appear to the extent indicated in that Schedule.

General Direction 4 makes provision about the relationship between upright signs, and plates or structure warning markings.

General Direction 5 imposes a requirement that signs not be placed on vehicles unless expressly authorised by the General Directions.

General Direction 6 sets out the general requirement that applies to the display of temporary signs.

General Direction 7 imposes requirements about types of studs.

General Direction 8 sets out how uprights signs are to be displayed on posts or other means of support.

General Direction 9 imposes requirements about the backs of, and backing boards for, upright signs.

General Direction 10 provides, where the Directions impose requirements by reference to British Standards, for compliance with equivalent standards of an EEA state to be acceptable.

General Direction 11 makes provision about the relationship between the General Directions and the power of ministers under section 65(2) of the Road Traffic Regulation Act 1984 to give special directions.

General Direction 12, by introducing Part 2 of Schedule 19, provides for a number of General Directions to be revoked.

General Direction 13 sets out savings provisions.

General Direction 14 imposes a requirement to review the General Directions on the Secretary of State.

Impact assessment and publication

An impact assessment of the effect that the Instrument will have has been made. A copy of this impact assessment is available from the Department for Transport, Great Minster House, 33 Horseferry Road, London, SW1P 4DR. It is also published alongside this Instrument and its Explanatory Memorandum at www.legislation.gov.uk.

Technical standards

These Regulations have been notified in draft to the European Commission in accordance with Directive (EU) 2015/1535 of the European Parliament and of the Council of 9 September 2015 laying down a procedure for the provision of information in the field of technical regulations and of rules on Information Society services (OJ L 241, 17.9.2015, p.1).
