(7) Nothing in article 13 (construction and maintenance of new, altered or diverted streets and other structures)—

- (a) affects the operation of section 87 (prospectively maintainable highways) of the 1991 Act;
- (b) means that the undertaker is by reason of any duty under that article to maintain a street to be taken to be the street authority in relation to that street for the purposes of Part 3 of that Act; or
- (c) has effect in relation to maintenance works which are street works within the meaning of the 1991 Act, as respects which the provisions of Part 3 of the 1991 Act apply.

Construction and maintenance of new, altered or diverted streets and other structures

13.—(1) Any highway (other than a trunk road) to be constructed under this Order must be completed to the reasonable satisfaction of the local highway authority and, unless otherwise agreed in writing with the local highway authority, the highway including any culverts or other structures laid under it, must be maintained by and at the expense of the local highway authority from its completion.

(2) Where a highway (other than a trunk road) is altered or diverted under this Order, the altered or diverted part of the highway must be completed to the reasonable satisfaction of the local highway authority and, unless otherwise agreed in writing with the local highway authority, that part of the highway including any culverts or other structures laid under it must be maintained by and at the expense of the local highway authority from its completion.

(3) Where a street which is not and is not intended to be a public highway is constructed, altered or diverted under this Order, the street (or part of the street as the case may be) must, when completed to the reasonable satisfaction of the street authority and unless otherwise agreed in writing with the street authority, be maintained by and at the expense of the undertaker for a period of 12 months from its completion and at the expiry of that period by and at the expense of the street authority.

(4) Where a highway is de-trunked under this Order—

- (a) section 265(20) (transfer of property and liabilities upon a highway becoming or ceasing to be a trunk road) of the 1980 Act applies in respect of that highway; and
- (b) any alterations to that highway undertaken under powers conferred by this Order prior to and in connection with that de-trunking must, unless otherwise agreed in writing with the local highway authority, be maintained by and at the expense of the local highway authority from the date of de-trunking.

(5) In the case of a bridge constructed under this Order to carry a highway (other than a trunk road) over a trunk road, the highway surface (being those elements over the waterproofing membrane) and the structure of the bridge must be maintained from their completion by and at the expense of the undertaker unless otherwise agreed in writing with the local highway authority.

(6) In any action against the undertaker in respect of loss or damage resulting from any failure by it to maintain a street under this article, it is a defence (without prejudice to any other defence or the application of the law relating to contributory negligence) to prove that the undertaker had taken such care as in all the circumstances was reasonably required to secure that the part of the street to which the action relates was not dangerous to traffic.

(20) Section 265 was amended by 146 of, and paragraph 45 of Schedule 3 to, the 1984 Act and by section 57 of, and paragraph 52 of, Schedule 1 of the Infrastructure Act 2015 (c. 7).

(7) For the purposes of a defence under paragraph (6), the court must in particular have regard to the following matters—

- (a) the character of the street and the traffic which was reasonably to be expected to use it;
- (b) the standard of maintenance appropriate for a street of that character and used by such traffic;
- (c) the state of repair in which a reasonable person would have expected to find the street;
- (d) whether the undertaker knew, or could reasonably have been expected to know, that the condition of the part of the street to which the action relates was likely to cause danger to users of the street; and
- (e) where the undertaker could not reasonably have been expected to repair that part of the street before the cause of action arose, what warning notices of its condition had been displayed,

but for the purposes of such a defence it is not relevant to prove that the undertaker had arranged for a competent person to carry out or supervise the maintenance of the part of the street to which the action relates unless it is also proved that the undertaker had given the competent person proper instructions with regard to the maintenance of the street and that the competent person had carried out those instructions.

Classification of roads, etc.

14.—(1) On and after the date on which the roads described in Part 1 (trunk roads) of Schedule 3 (classification of roads, etc.) and identified on the classification of roads plans are completed and open for traffic, they are to become trunk roads as if they had become so by virtue of an order under section 10(2)(**21**) (general provision as to trunk roads) of the 1980 Act specifying that date as the date on which they were to become trunk roads.

(2) On and after a date determined by the undertaker, the roads described in Part 2 (roads to be de-trunked) of Schedule 3 and identified on the de-trunking plans are to cease to be trunk roads as if they had ceased to be trunk roads by virtue of an order made under section 10(2) of the 1980 Act specifying that date as the date on which they were to cease to be trunk roads.

(3) On and after the date on which the roads described in Part 3 (classified roads) of Schedule 3 and identified on the classification of roads plans are completed and open for traffic, they are to become classified roads for the purpose of any enactment or instrument which refers to highways classified as classified roads as if such classification had been made under section 12(3) (general provision as to principal and classified roads) of the 1980 Act.

(4) On and after the date on which the roads described in Part 4 (unclassified roads) of Schedule 3 and identified on the classification of roads plans are completed and open for traffic, they are to become unclassified roads for the purpose of any enactment or instrument which refers to unclassified roads.

(5) On and after the date on which the roads described in Part 5 (speed limits) of Schedule 3 are open for traffic, no person is to drive any motor vehicle at a speed exceeding the limit in miles per hour specified in column (3) of that Part along the lengths of road identified in the corresponding row of column (2) of that Part.

(6) On and after a date to be determined by the undertaker, the restrictions specified in column (3) of Part 6 (traffic regulation measures (clearways and prohibitions)) of Schedule 3 are to apply to the lengths of road identified in the corresponding row of column (2) of that Part.

(21) Section 10(2) was amended by section 22 of the 1991 Act, and by section 1(6) of, and paragraph 10(2) of Schedule 1 to, the Infrastructure Act 2015 (c. 7).

(7) Unless otherwise agreed in writing with the local highway authority, the public rights of way set out in Part 8 (public rights of way) of Schedule 3 and identified on the rights of way and access plans are to be constructed by the undertaker in the specified locations and open for use from the date on which the authorised development is open for traffic and will have the status described in column (2) of that Part.

(8) On and after a date to be determined by the undertaker, the order specified in column (3) of Part 7 (revocations & variations of existing traffic regulation orders) of Schedule 3 is to be varied or revoked as specified in the corresponding row of column (4) of that Part in respect of the lengths of roads specified in the corresponding row of column (2) of that Part.

(9) The application of paragraphs (1) to (7) may be varied or revoked by any instrument made under any enactment which provides for the variation or revocation of such matters, including by an instrument made under the 1984 Act where the matter in question could have been included in an order made under that Act.

Temporary stopping up and restriction of use of streets

15.—(1) The undertaker, during and for the purposes of carrying out the authorised development, may temporarily stop up, alter, divert or restrict the use of any street and may for any reasonable time—

- (a) divert the traffic from the street; and
- (b) subject to paragraph (3), prevent all persons from passing along the street.

(2) Without limitation on the scope of paragraph (1), the undertaker may use any street temporarily stopped up or restricted under the powers conferred by this article, and which is within the Order limits, as a temporary working site.

(3) The undertaker must provide reasonable access for pedestrians going to or from premises abutting a street affected by the temporary stopping up, alteration, diversion or restriction of a street under this article if there would otherwise be no such access.

(4) The undertaker must not temporarily stop up, alter, divert or restrict the use of any street for which it is not the street authority without the consent of the street authority, which may attach reasonable conditions to any consent but such consent must not be unreasonably withheld or delayed.

(5) Any person who suffers loss by the suspension of any private right of way under this article is entitled to compensation to be determined, in case of dispute, as if it were a dispute under Part 1 of the 1961 Act.

(6) If a street authority which receives an application for consent under paragraph (4) fails to notify the undertaker of its decision before the end of the period of 28 days beginning with the date on which the application was made, it is deemed to have granted consent.

(7) Any application to which this article applies must include a statement that the provisions of paragraph (6) apply to that application.

Permanent stopping up and restriction of use of streets and private means of access

16.—(1) Subject to the provisions of this article, the undertaker may, in connection with the carrying out of the authorised development, stop up each of the streets and private means of access specified in columns (1) and (2) of Parts 1, 2, 3 and 4 of Schedule 4 (permanent stopping up of highways and private means of access & provision of new highways and private means of access) and identified on the rights of way and access plans to the extent specified and described in column (3) of those Parts of that Schedule.

(2) No street or private means of access specified in columns (1) and (2) of Parts 2 and 4 of Schedule 4 (being a street or private means of access to be stopped up for which a substitute is to be provided) is to be wholly or partly stopped up under this article unless—

- (a) the new street or private means of access to be constructed and substituted for it, which is specified in column (4) of those Parts of that Schedule, has been completed to the reasonable satisfaction of the street authority and is open for use; or
- (b) a temporary alternative route for the passage of such traffic as could have used the street or private means of access to be stopped up is first provided and subsequently maintained by the undertaker, to the reasonable satisfaction of the street authority, between the commencement and termination points for the stopping up of the street or private means of access until the completion and opening of the new street or private means of access in accordance with sub-paragraph (a).

(3) No street or private means of access specified in columns (1) and (2) of Parts 1 and 3 of Schedule 4 (being a street or private means of access to be stopped up for which no substitute is to be provided) is to be wholly or partly stopped up under this article unless the condition specified in paragraph (4) is satisfied in relation to all the land which abuts on either side of the street or private means of access to be stopped up.

(4) The condition referred to in paragraph (3) is that—

- (a) the undertaker is in possession of the land;
- (b) there is no right of access to the land from the street or private means of access concerned;
- (c) there is reasonably convenient access to the land otherwise than from the street or private means of access concerned; or
- (d) the owners and occupiers of the land have agreed to the stopping up.

(5) Where a street or private means of access has been stopped up under this article—

- (a) all rights of way over or along the street or private means of access so stopped up are extinguished; and
- (b) the undertaker may appropriate and use for the purposes of the authorised development so much of the site of the street or private means of access as is bounded on both sides by land owned by the undertaker.

(6) Any person who suffers loss by the suspension or extinguishment of any private right of way under this article is entitled to compensation to be determined, in case of dispute, as if it were a dispute under Part 1 of the 1961 Act.

(7) This article is subject to article 37 (apparatus and rights of statutory undertakers in stopped up streets).

Access to works

17. The undertaker may, for the purposes of the authorised development, form and lay out means of access, or improve existing means of access, at such locations within the Order limits as the undertaker reasonably requires for the purposes of the authorised development.

Clearways

18.—(1) On and after such day as the undertaker may determine, except as provided in paragraph (2), no person is to cause or permit any vehicle to wait on any part of the lengths of road described in column (2) of Part 6 (traffic regulation measures (clearways and prohibitions)) of Schedule 3 (classification of roads, etc.) where it is identified in the corresponding row of column (3) of that Part that such lengths of road are to become a clearway, except upon the direction of, or with the permission of, a uniformed constable or uniformed traffic officer.

- (2) Nothing in paragraph (1) applies—
- (a) to render it unlawful to cause or permit a vehicle to wait on any part of a road, for so long as may be necessary to enable that vehicle to be used in connection with—
 - (i) the removal of any obstruction to traffic;
 - (ii) the maintenance, improvement, reconstruction or operation of the road;
 - (iii) the laying, erection, inspection, maintenance, alteration, repair, renewal or removal in or near the road of any sewer, main pipe, conduit, wire, cable or other apparatus for the supply of gas, water, electricity or any electronic communications apparatus as defined in Schedule 3A (the electronic communications code) to the Communications Act 2003(22); or

 - (i) required by law to stop;
 - (ii) obliged to stop in order to avoid an accident; or
 - (iii) prevented from proceeding by circumstances outside the person’s control.
- (3) No person is to cause or permit any vehicle to wait on any part of the roads described in paragraph (1) for the purposes of selling, or dispensing of, goods from that vehicle, unless the goods are immediately delivered at, or taken into, premises adjacent to the land on which the vehicle stood when the goods were sold or dispensed.
- (4) Paragraphs (1), (2) and (3) have effect as if made by order under the 1984 Act, and their application may be varied or revoked by an order made under that Act or any other enactment which provides for the variation or revocation of such orders.
