

COMMISSION

COMMISSION DECISION

of 13 April 1982

establishing that the apparatus described as 'Scintag — diffractometer, model R3' may be imported free of Common Customs Tariff duties

(82/280/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1798/75 of 10 July 1975 on the importation free of Common Customs Tariff duties of educational, scientific and cultural materials ⁽¹⁾, as amended by Regulation (EEC) No 1027/79 ⁽²⁾,

Having regard to Commission Regulation (EEC) No 2784/79 of 12 December 1979 laying down provisions for the implementation of Regulation (EEC) No 1798/75 ⁽³⁾, and in particular Article 7 thereof,

Whereas, by letter dated 23 September 1981, the Federal Republic of Germany has requested the Commission to invoke the procedure provided for in Article 7 of Regulation (EEC) No 2784/79 in order to determine whether or not the apparatus described as 'Scintag — diffractometer, model R3', to be used for the automatic recording and analysis of X-ray reflexes in single crystals in structural analysis of molecules, should be considered to be a scientific apparatus and, where the reply is in the affirmative, whether apparatus of equivalent scientific value is currently being manufactured in the Community;

Whereas, in accordance with the provisions of Article 7 (5) of Regulation (EEC) No 2784/79, a group of experts composed of representatives of all the Member States met on 22 March 1982 within the framework of the Committee on Duty-Free Arrangements to examine the matter;

Whereas this examination showed that the apparatus in question is a diffractometer; whereas its objective technical characteristics, such as the precision of the measuring of the reflexion, and the use to which it is put make it specially suited to scientific research; whereas, moreover, apparatus of the same kind are principally used for scientific activities; whereas it must therefore be considered to be a scientific apparatus;

Whereas, on the basis of information received from Member States, apparatus of equivalent scientific value capable of use for the same purpose is not currently manufactured in the Community; whereas, therefore, duty-free admission of this apparatus is justified,

HAS ADOPTED THIS DECISION:

Article 1

The apparatus described as 'Scintag — diffractometer, model R3', which is the subject of an application by the Federal Republic of Germany of 23 September 1981, may be imported free of Common Customs Tariff duties.

Article 2

This Decision is addressed to the Member States.

Done at Brussels, 13 April 1982.

For the Commission

Étienne DAVIGNON

Vice-President
