COMMISSION DECISION

of 26 August 2010

on imports of semen, ova and embryos of animals
of the ovine and caprine species into the Union

(notified under document C(2010) 5780)

(Text with EEA relevance)

(2010/472/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/65/EEC of 13 July 1992 laying down animal health requirements governing trade in and imports into the Community of animals, semen, ova and embryos not subject to animal health requirements laid down in specific Community rules referred to in Annex A(I) to Directive 90/425/EEC⁽¹⁾, and in particular Article 17(2)(b), Article 17(3), the first indent of Article 18(1), and the introductory phrase and point (b) of Article 19 thereof,

Whereas:

- (1) Directive 92/65/EEC lays down the animal health conditions governing imports into the Union of semen, ova and embryos of animals of the ovine and caprine species ('the commodities'). It provides only commodities that come from a third country included on a list of third countries drawn up in accordance with that Directive and accompanied by a health certificate corresponding to a model also drawn up in accordance with that Directive, may be imported into the Union. The health certificate must certify that commodities come from approved collection and storage centres or collection and production teams offering guarantees at least equivalent to those laid down in Annex D(I) to that Directive.
- (2) Commission Decision 2008/635/EC of 22 July 2008 on imports of semen, ova and embryos of the ovine and caprine species into the Community as regards lists of third countries and of semen collection centres and embryo collection teams, and certification requirements⁽²⁾ currently sets out the list of third countries from which Member States are to authorise imports of the commodities.
- (3) Directive 92/65/EEC, as amended by Council Directive 2008/73/EC⁽³⁾, introduced a simplified procedure for the listing of semen collection and storage centres and

Changes to legislation: Commission Decision of 26 August 2010 on imports of semen, ova and embryos of animals of the ovine and caprine species into the Union (notified under document C(2010) 5780) (Text with EEA relevance) (2010/472/EU) is up to date with all changes known to be in force on or before 21 April 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

embryo collection and production teams in third countries approved for imports of the commodities into the Union.

- (4) In addition, Annex D to Directive 92/65/EEC, as amended by Commission Regulation (EU) No 176/2010⁽⁴⁾, sets out certain new requirements for the commodities which are to apply from 1 September 2010. It introduces rules concerning semen storage centres and detailed conditions for their approval and supervision. It also sets out detailed conditions for the approval and supervision of embryo collection and production teams, for the collection and processing of *in vivo* derived embryos and the production and processing of *in vitro* fertilised embryos and micromanipulated embryos. It also amended the conditions to be applied to the donor animals of semen, ova and embryos of animals of the ovine and caprine species.
- (5) Accordingly, it is necessary to establish new health certificates for imports into the Union of the commodities taking into account the amendments made to Directive 92/65/EEC by Directive 2008/73/EC and Regulation (EU) No 176/2010.
- (6) In addition, it is appropriate that consignments of the commodities imported into the Union from Switzerland are accompanied by a health certificate drawn up in accordance with the models used for trade within the Union in semen, ova and embryos of animals of the ovine and caprine species set out in Commission Decision 2010/470/EU of 26 August 2010 laying down model health certificates for trade within the Union of semen, ova and embryos of animals of the equine, ovine and caprine species and in ova and embryos of animals of the porcine species⁽⁵⁾, with the adaptations set out in point 7 of Chapter IX(B) of Appendix 2 of Annex 11 to the Agreement between the European Community and the Swiss Confederation on trade in Agricultural Products, as approved by Decision 2002/309/EC, Euratom of the Council, and of the Commission as regards the Agreement on Scientific and Technological Cooperation, of 4 April 2002 on the conclusion of seven Agreements with the Swiss Confederation⁽⁶⁾.
- (7) In the application of this Decision, account should be taken of the specific certification requirements and model health attestations which may be laid down in accordance with the Agreement between the European Community and the Government of Canada on sanitary measures to protect public and animal health in respect of trade in live animals and animal products⁽⁷⁾, as approved by Council Decision 1999/201/EC⁽⁸⁾.
- (8) In the application of this Decision, account should also be taken of the specific certification requirements and model health attestations which may be laid down in accordance with the Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products⁽⁹⁾, as approved by Council Decision 97/132/EC⁽¹⁰⁾.
- (9) In the interest of clarity and consistency of Union's legislation, Decision 2008/635/EC should be repealed and replaced by this Decision.
- (10) To avoid any disruption of trade, the use of health certificates issued in accordance with Decision 2008/635/EC should be authorised during a transitional period subject to certain conditions.

HAS ADOPTED THIS DECISION:

[^{F1}Article 1

Subject matter and definitions

1. This Decision sets out a list of third countries [^{F2}and makes provision for the specification by the Secretary of State, with the consent of the Scottish Ministers (in relation to Scotland) and the Welsh Ministers (in relation to Wales), of those third countries] or parts thereof from which the importation of consignments of semen, ova and embryos of animals of the ovine and caprine species into Great Britain is authorised.

It lays down certification requirements for the importation of those commodities into Great Britain.

2. In this Decision:

[^{F3}— “additional guarantee” means the guarantee given under paragraph 2 of Article 1a;]

— “appropriate authority” means the Secretary of State (in relation to England), the Welsh Ministers (in relation to Wales) and the Scottish Ministers (in relation to Scotland); but the “appropriate authority” is the Secretary of State if consent is given by:

- a in relation to Wales, the Welsh Ministers;
- b in relation to Scotland, the Scottish Ministers;

— “third country” means any country or territory other than the British Islands.]

Matters relating to the exercise of powers under this Decision

1. The powers exercisable by the Secretary of State, with the consent of the Scottish Ministers (in relation to Scotland) and the Welsh Ministers (in relation to Wales), under the provisions listed in paragraph 2 may be exercised only where it is necessary or appropriate to do so in the light of an assessment of the risk to animal and human health in the United Kingdom, taking into account—
 - a) whether there are any diseases referred to in Annex A of Council [Directive 92/65/EEC](#), or other exotic animal diseases present in the third country, which might endanger animal health in the United Kingdom;
 - b) whether the third country is capable of guaranteeing the implementation of its legislation, and whether the organisation of its veterinary and inspection services enables the country effectively to undertake or supervise such services;
 - c) whether the veterinary services of the third country are able to provide assurance that health requirements at least equivalent to those laid down in Chapter 2 of Council [Directive 92/65/EEC](#) are being complied with;
 - d) any on-the-spot inspections by experts from the United Kingdom undertaken to verify whether the assurances given by the third country regarding the conditions of production and placing on the market can be considered equivalent to those applied in the United Kingdom.
2. The provisions are—
 - a) Article 1a (additional guarantees);
 - b) Article 2(a) (specification of third country or part thereof from which semen of the ovine and caprine species may be imported into Great Britain);
 - c) Article 3(a) (specification of third country or part thereof from which ova and embryos of the ovine and caprine species may be imported into Great Britain).
