COMMISSION IMPLEMENTING DECISION

of 22 May 2012

amending Decision 2008/425/EC as regards standard requirements for the submission by Member States of national programmes for the eradication, control and monitoring of certain animal diseases and zoonoses for Union financing

(notified under document C(2012) 3193)

(2012/282/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Decision 2009/470/EC of 25 May 2009 on expenditure in the veterinary field⁽¹⁾, and in particular Article 27(10) thereof,

Whereas:

- (1) Decision 2009/470/EC lays down the procedures governing the Union financial contribution for programmes for the eradication, control and monitoring of animal diseases and zoonoses.
- (2) Decision 2009/470/EC provides that each year, by 30 April at the latest, Member States are to submit to the Commission the annual or multiannual programmes starting in the following year for which they wish to receive a financial contribution from the Union. Pursuant to that Decision, a Union financial measure is to be introduced to reimburse the expenditure incurred by the Member States for the financing of national programmes for the eradication, control and monitoring of the animal diseases and zoonoses listed in the Annex to that Decision.
- (3) Commission Decision 2008/425/EC of 25 April 2008 laying down standard requirements for the submission by Member States of national programmes for the eradication, control and monitoring of certain animal diseases and zoonoses for Community financing⁽²⁾ provides that Member States seeking a financial contribution from the Union for national programmes for the eradication, monitoring and control of certain animal diseases are to submit applications containing certain information set out in Annexes I to V to that Decision.

Status: Point in time view as at 22/05/2012.

Changes to legislation: Commission Implementing Decision of 22 May 2012 amending Decision 2008/425/EC as regards standard requirements for the submission by Member States of national programmes for the eradication, control and monitoring of certain animal diseases and zoonoses for Union financing (notified under document C(2012) 3193) (Text with EEA relevance) (2012/282/EU) is up to date with all changes known to be in force on or before 10 December 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (4) Regulation (EC) No 999/2001 of the European Parliament and of the Council of 22 May 2001 laying down rules for the prevention, control and eradication of certain transmissible spongiform encephalopathies⁽³⁾ provides for annual monitoring programmes by Member States for transmissible spongiform encephalopathies in bovine, ovine and caprine animals. That Regulation has been amended several times since the adoption of Decision 2008/425/EC as regards rules relating to monitoring and eradication activities co-financed under the programmes.
- (5) Commission Decision 2010/367/EU of 25 June 2010 on the implementation by Member States of surveillance programmes for avian influenza in poultry and wild birds⁽⁴⁾ was adopted in the light of experience and scientific insight gained since the adoption of Commission Decision 2007/268/EC⁽⁵⁾. Decision 2007/268/EC was repealed by Decision 2010/367/EU. Decision 2008/425/EC should be updated to take into account these changes, in particular those related to the objectives of surveillance programmes.
- (6) In addition, in order to further improve the submission process, assessment and approval of the national programmes, Member States should submit the applications online from 1 January 2013 onwards for programmes falling under the requirements of Annexes I to IV to Decision 2008/425/EC. The structure of those Annexes should therefore be adapted for the electronic submission and processing of data.
- (7) Therefore, the standard requirements for the submission by Member States of applications for Union financing for the national programmes for the eradication, control and monitoring of certain animal diseases and zoonoses set out in Annexes I to IV to Decision 2008/425/EC should be amended and made consistent with the amendments to relevant Union legislation and compatible with the online submission system. For the sake of clarity, Annexes I to IV to Decision 2008/425/EC should be replaced by the text set out in the Annex to this Decision.
- (8) Decision 2008/425/EC should therefore be amended accordingly.
- (9) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

Decision 2008/425/EC shall be amended as follows:

- (1) the following Article 1a is inserted:

Article 1a

From 1 January 2013, the applications provided for in Article 1 paragraphs (a) to (d) shall be submitted online by Member States using the corresponding standard electronic templates provided by the Commission.;

- (2) Annexes I to IV are replaced by the text in the Annex to this Decision.

Article 2

This Decision is addressed to the Member States.

Status: Point in time view as at 22/05/2012.

Changes to legislation: Commission Implementing Decision of 22 May 2012 amending Decision 2008/425/EC as regards standard requirements for the submission by Member States of national programmes for the eradication, control and monitoring of certain animal diseases and zoonoses for Union financing (notified under document C(2012) 3193) (Text with EEA relevance) (2012/282/EU) is up to date with all changes known to be in force on or before 10 December 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

(c) Specific requirements:

Demonstrate the evidence that the programme complies with the specific requirements laid down in Parts C, D and E of Annex II to Regulation (EC) No 2160/2003.

(d) Specification of the following points:

1. General

1.1. A short summary referring to the occurrence of the salmonellosis [zoonotic salmonella] in the Member State with specific reference to the results obtained in the framework of monitoring in accordance with Article 4 of Directive 2003/99/EC of the European Parliament and of the Council⁽³¹⁾, particularly highlighting the prevalence values of the salmonella serotypes targeted in the salmonella control programmes.

1.2. The structure and organisation of the relevant competent authorities. Please refer to the information flow between bodies involved in the implementation of the programme.

1.3. Approved laboratories where samples collected within the programme are analysed.

1.4. Methods used in the examination of the samples in the framework of the programme.

1.5. Official controls (including sampling schemes) at feed, flock and/or herd level.

2. Concerning food and feed businesses covered by the programme

2.1. The structure of the production of the given species and products thereof.

2.2. The structure of the production of feed.

2.3. Relevant guidelines for good animal husbandry practices or other guidelines (mandatory or voluntary) on biosecurity measures defining at least:

— hygiene management at farms,

— measures to prevent incoming infections carried by animals, feed, drinking water, people working at farms, and

— hygiene in transporting animals to and from farms.

2.4. Routine veterinary supervision of farms.

2.5. Registration of farms.

2.6. Record-keeping at farms.

2.7. Documents to accompany animals when dispatched.

2.8. Other relevant measures to ensure the traceability of animals.

PART B

1. Identification of the programme

2. **Historical data on the epidemiological evolution of zoonotic salmonellosis specified in Section 1⁽³²⁾:**

3. **Description of the submitted programme⁽³³⁾:**

4. **Measures of the submitted programme**

Measures taken by the competent authorities with regard to animals or products in which the presence of *Salmonella* spp. have been detected, in particular to protect public health, and any preventive measures taken, such as vaccination.

4.1. *Summary of measures under the programme*

Duration of the programme:

First year:		Last year:	
#	Control	#	Control/eradication
#	Testing	#	Testing
#	Slaughter of animals tested positive	#	Slaughter of animals tested positive
#	Killing of animals tested positive	#	Killing of animals tested positive
#	Vaccination	#	Extended slaughter or killing
#	Treatment of animal products	#	Disposal of products
#	Disposal of products		
#	Monitoring or surveillance		
#	Other measures (<i>specify</i>):		

4.2. *Designation of the central authority in charge of supervising and coordinating the departments responsible for implementing the programme⁽³⁴⁾:*

4.3. *Description and delimitation of the geographical and administrative areas in which the programme is to be implemented⁽³⁵⁾:*

Status: Point in time view as at 22/05/2012.

Changes to legislation: Commission Implementing Decision of 22 May 2012 amending Decision 2008/425/EC as regards standard requirements for the submission by Member States of national programmes for the eradication, control and monitoring of certain animal diseases and zoonoses for Union financing (notified under document C(2012) 3193) (Text with EEA relevance) (2012/282/EU) is up to date with all changes known to be in force on or before 10 December 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

4.4. **Measures implemented under the programme⁽³⁶⁾**

- 4.4.1. Measures and applicable legislation as regards the registration of holdings:
- 4.4.2. Measures and applicable legislation as regards the identification of animals⁽³⁷⁾:
- 4.4.3. Measures and applicable legislation as regards the notification of the disease:
- 4.4.4. Measures and applicable legislation as regards the measures in case of a positive result⁽³⁸⁾:
- 4.4.5. Measures and applicable legislation as regards the different qualifications of animals and herds:
- 4.4.6. Control procedures, and in particular rules on the movement of animals liable to be affected or contaminated by a given disease, and the regular inspection of the holdings or areas concerned⁽³⁹⁾:
- 4.4.7. Measures and applicable legislation as regards the control (testing, vaccination, ...) of the disease:

National legislation relevant to the implementation of the programmes, including any national provisions concerning the activities set out in the programme.

- 4.4.8. Measures and applicable legislation as regards the compensation for owners of slaughtered and killed animals:

Any financial assistance provided to food and feed businesses in the context of the programme.

- 4.4.9. Information and assessment on bio-security measures management and infrastructure in place in the flocks/holdings involved:

5. **General description of the costs and benefits⁽⁴⁰⁾:**

6. **Data on the epidemiological evolution during the last five years⁽⁴¹⁾**

6.1. *Evolution of zoonotic salmonellosis*

6.1.2. Data on evolution of zoonotic salmonellosis

Year:

Region	Type of flock ^c	Total number of flocks ^d	Total number of animals	Total number of flocks	Total number of animals checked ^e	Number of flocks	Serotype	Number of flocks	Number of flocks	Total number of animals	Quantity of eggs destroyed	Quantity of eggs channelled
a	For zoonotic salmonellosis indicate the serotypes covered by the control programmes (for instance <i>Salmonella enteritidis</i> , <i>Salmonella typhimurium</i> , etc.).											
b	Region as defined in the programme of the Member State.											
c	For example, breeding flocks (rearing, adult flocks), production flocks, laying hen flocks, breeding turkeys, broiler turkeys, breeding pigs, slaughter pigs, etc. Flocks or herds or as appropriate.											
d	Total number of flocks existing in the region including eligible flocks and non-eligible flocks for the programme.											
e	Check means to perform a flock level test under the programme for the presence of salmonella. In this column a flock must not be counted twice even if it has been checked more than once.											
f	If a flock has been checked, in accordance with footnote (d), more than once, a positive sample must be taken into account only once.

- (9) A concise description is given including target population (species, number of herds and animals present and under the programme), the main measures (sampling and testing regimes, eradication measures used, qualification of herds and animals, vaccination schemes) and the main results (incidence, prevalence, qualification of herds and animals). The information is given for distinct periods if the measures were substantially modified. The information is documented by relevant summary epidemiological tables (set out in Section 6) complemented by graphs or maps (to be attached).
- (10) A concise description of the programme is given with the main objective(s) (monitoring, control, eradication, qualification of herds and/or regions, reducing prevalence and incidence), the main measures (sampling and testing regimes, eradication measures to be applied, qualification of herds and animals, vaccination schemes), the target animal population and the area(s) of implementation and the definition of a positive case.
- (11) Describe the authorities in charge of supervising and coordinating the departments responsible for implementing the programme and the different operators involved. Describe the responsibilities of all involved.
- (12) Describe the name and denomination, the administrative boundaries, and the surface of the administrative and geographical areas in which the programme is to be applied. Illustrate with maps.
- (13) A comprehensive description needs to be provided of all measures unless reference can be made to Union legislation. The national legislation in which the measures are laid down is also mentioned.
- (14) To mention only if applicable.
- (15) A description is provided of the measures as regards positive animals (description of the slaughter policy, destination of carcasses, use or treatment of animal products, the destruction of all products which could transmit the disease or the treatment of such products to avoid any possible contamination, a procedure for the disinfection of infected holdings, the therapeutic or preventive treatment chosen, a procedure for the restocking with healthy animals of holdings which have been depopulated by slaughter and the creation of a surveillance zone around the infected holding.).
- (16) Describe the process and control that will be carried out in order to ensure the proper monitoring of the implementation of the programme.
- (17) A description is provided of the benefits for farmers and society in general from the public health, animal health and economical point of view.
- (18) The data on the evolution of the disease are provided according to the tables below where appropriate.
- (19) No data to be provided in case of rabies.
- (20) Data only to be provided for bovine tuberculosis, bovine brucellosis, ovine and caprine brucellosis (*B. melitensis*).
- (21) Data only to be provided if vaccination has been carried out.
- (22) Data only to be provided in case the programme comprises measures as regards wildlife or if the data are epidemiologically relevant for the disease.

Status: Point in time view as at 22/05/2012.

- Changes to legislation:** Commission Implementing Decision of 22 May 2012 amending Decision 2008/425/EC as regards standard requirements for the submission by Member States of national programmes for the eradication, control and monitoring of certain animal diseases and zoonoses for Union financing (notified under document C(2012) 3193) (Text with EEA relevance) (2012/282/EU) is up to date with all changes known to be in force on or before 10 December 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)
- (23) For subsequent years of approved multiannual programmes only one table for the relevant year should be filled in.
- (24) Data not to be provided in case of rabies.
- (25) Data only to be provided if appropriate.
- (26) Data only to be provided if appropriate.
- (27) For subsequent years of approved multiannual programmes only one table for the relevant year should be filled in.
- (28) In the case of the second and subsequent years of a multiannual programme that has already been approved by a Commission Decision, only Part B Section 6 (only evolution of the disease during the previous year), Section 7 and Section 8 need to be completed.
- (29) For different animal populations a complete separate document per population according to this Annex must be filled in for the submission of the programmes.
- (30) [OJ L 325, 12.12.2003, p. 1.](#)
- (31) [OJ L 325, 12.12.2003, p. 31.](#)
- (32) A concise description is given with data on the target population (species, number of flocks/herds and animals present and covered by the programme), the main measures (testing, testing and slaughter, testing and killing, qualification of flocks/herds and animals, vaccination) and the main results (incidence, prevalence, qualification of flocks/herds and animals). The information is given for distinct periods if the measures were substantially modified. The information is documented by relevant summary epidemiological tables, graphs or maps.
- (33) A concise description of the programme is given with the main objective(s) (monitoring, control, eradication, qualification of flocks/herds and/or regions, reducing prevalence and incidence), the main measures (testing, testing and slaughter, testing and killing, qualification of flocks/herds and animals, vaccination), the target animal population and the area(s) of implementation and the definition of a positive case.
- (34) Describe the authorities in charge of supervising and coordinating the departments responsible for implementing the programme and the different operators involved. Describe the responsibilities of all involved.
- (35) Describe the name and denomination, the administrative boundaries, and the surface of the administrative and geographical areas in which the programme is to be applied. Illustrate with maps.
- (36) Where appropriate Union legislation is mentioned. Otherwise the national legislation is mentioned.
- (37) Not applicable for poultry.
- (38) A short description is provided of the measures as regards positive animals (slaughter, destination of carcasses, use or treatment of animal products, the destruction of all products which could transmit the disease or the treatment of such products to avoid any possible contamination, a procedure for the disinfection of infected holdings, a procedure for the restocking with healthy animals of holdings which have been depopulated by slaughter).
- (39) A short description of the control procedures, and in particular rules on the movement of animals liable to be affected or contaminated by a given disease, and the regular inspection of the holdings or areas is provided.
- (40) A description is provided of all costs for the authorities and society and the benefits for farmers and society in general.
- (41) The data on the evolution of zoonotic salmonellosis are provided according to the tables where appropriate.
- (42) Data only to be provided if vaccination has been carried out.
- (43) Specify types of flocks if appropriate (breeders, layers, broilers).
- (44) Data only to be provided if appropriate.
- (45) Bovine spongiform encephalopathy (BSE) and scrapie.
- (46) One document per disease is used unless all measures of the programme on the target population are used for the control and eradication of different diseases.
