**▼B****COUNCIL DIRECTIVE****of 27 July 1976****on the approximation of the laws of the Member States relating to cosmetic products**

(76/768/EEC)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 100 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament <sup>(1)</sup>,

Having regard to the opinion of the Economic and Social Committee <sup>(2)</sup>,

Whereas the provisions laid down by law, regulation or administrative action in force in the Member States define the composition characteristics to which cosmetic products must conform and prescribe rules for their labelling and for their packaging; whereas these provisions differ from one Member State to another;

Whereas the differences between these laws oblige Community cosmetic producers to vary their production according to the Member State for which the products are intended; whereas, consequently, they hinder trade in these products and, as a result, have a direct effect on the establishment and functioning of the common market;

Whereas the main objective of these laws is the safeguarding of public health and whereas, as a result, the pursuit of the same objective must inspire Community legislation in this sector; whereas, however, this objective must be attained by means which also take account of economic and technological requirements;

Whereas it is necessary to determine at Community level the regulations which must be observed as regards the composition, labelling and packaging of cosmetic products;

Whereas this Directive relates only to cosmetic products and not to pharmaceutical specialities and medicinal products; whereas for this purpose it is necessary to define the scope of the Directive by delimiting the field of cosmetics from that of pharmaceuticals; whereas this delimitation follows in particular from the detailed definition of cosmetic products, which refers both to their areas of application and to the purposes of their use; whereas this Directive is not applicable to the products that fall under the definition of cosmetic product but are exclusively intended to protect from disease; whereas, moreover, it is advisable to specify that certain products come under this definition, whilst products containing substances or preparations intended to be ingested, inhaled, injected or implanted in the human body do not come under the field of cosmetics;

Whereas in the present state of research, it is advisable to exclude cosmetic products containing one of the substances listed in Annex V from the scope of this Directive;

Whereas cosmetic products must not be harmful under normal or foreseeable conditions of use; whereas in particular it is necessary to take into account the possibility of danger to zones of the body that are contiguous to the area of application;

Whereas, in particular, the determination of the methods of analysis together with possible modifications or additions which may have to be made to them on the basis of the results of scientific and technical research, are implementing measures of a technical nature; whereas it is advisable to entrust their adoption to the Commission, subject to certain

<sup>(1)</sup> OJ No C 40, 8. 4. 1974, p. 71.

<sup>(2)</sup> OJ No C 60, 26. 7. 1973, p. 16.

**▼B**

conditions specified in this Directive, for the purpose of simplifying and accelerating the procedure;

Whereas technical progress necessitates rapid adaptation of the technical provisions defined in this Directive and in subsequent Directives in this field; whereas it is advisable, in order to facilitate implementation of the measures necessary for this purpose, to provide for a procedure establishing close cooperation between the Member States and the Commission within the Committee for adaptation to technical progress of Directives aimed at the removal of technical obstacles to trade in the cosmetic products sector;

Whereas it is necessary, on the basis of scientific and technical research, to draw up proposals for lists of authorized substances which could include antioxidants, hair dyes, preservatives and ultraviolet filters, taking into account in particular the problem of sensitization;

Whereas it could happen that although conforming to the provisions of this Directive and its Annexes, cosmetic products placed on the market might endanger public health; whereas it is therefore advisable to provide for a procedure intended to remove this danger,

HAS ADOPTED THIS DIRECTIVE:

*Article 1*

**▼M21**

1. A 'cosmetic product' shall mean any substance or preparation intended to be placed in contact with the various external parts of the human body (epidermis, hair system, nails, lips and external genital organs) or with the teeth and the mucous membranes of the oral cavity with a view exclusively or mainly to cleaning them, perfuming them, changing their appearance and/or correcting body odours and/or protecting them or keeping them in good condition.

**▼B**

2. The products to be considered as cosmetic products within the meaning of this definition are listed in Annex I.

**▼M14**

3. Cosmetic products containing one of the substances listed in Annex V shall be excluded from the scope of this Directive. Member States may take such measures as they deem necessary with regard to those products.

**▼M21**

*Article 2*

A cosmetic product put on the market within the Community must not cause damage to human health when applied under normal or reasonably foreseeable conditions of use, taking account, in particular, of the product's presentation, its labelling, any instructions for its use and disposal as well as any other indication or information provided by the manufacturer or his authorized agent or by any other person responsible for placing the product on the Community market.

The provision of such warnings shall not, in any event, exempt any person from compliance with the other requirements laid down in this Directive.

**▼B**

*Article 3*

Member States shall take all necessary measures to ensure that only cosmetic products which conform to the provisions of this Directive and its Annexes may be put on the market.

**▼M3***Article 4*

1. Without prejudice to their general obligations deriving from Article 2, Member States shall prohibit the marketing of cosmetic products containing:

- (a) substances listed in Annex II;
- (b) substances listed in the first part of Annex III, beyond the limits and outside the conditions laid down;

**▼M14**

- (c) colouring agents other than those listed in Annex IV, Part 1, with the exception of cosmetic products containing colouring agents intended solely to colour hair;
- (d) colouring agents listed in Annex IV, Part 1, used outside the conditions laid down, with the exception of cosmetic products containing colouring agents intended solely to colour hair;

**▼M3**

- (e) preservatives other than those listed in Annex VI, Part 1;
- (f) preservatives listed in Annex VI, Part 1, beyond the limits and outside the conditions laid down, unless other concentrations are used for specific purposes apparent from the presentation of the product;

**▼M7**

- (g) UV filters other than those listed in Part 1 of Annex VII;
- (h) UV filters listed in Part 1 of Annex VII, beyond the limits and outside the conditions laid down therein;

**▼M21**

- (i) ingredients or combinations of ingredients tested on animals after ►M33 30 June 2002 ◀ in order to meet the requirements of this Directive.

If there has been insufficient progress in developing satisfactory methods to replace animal testing, and in particular in those cases where alternative methods of testing, despite all reasonable endeavours, have not been scientifically validated as offering an equivalent level of protection for the consumer, taking into account OECD toxicity test guidelines, the Commission shall, by 1 January 1997, submit draft measures to postpone the date of implementation of this provision, for a sufficient period, and in any case for no less than two years, in accordance with the procedure laid down in Article 10. Before submitting such measures, the Commission will consult the Scientific Committee on Cosmetology.

The Commission shall present an annual report to the European Parliament and the Council on progress in the development, validation and legal acceptance of alternative methods to those involving experiments on animals. That report shall contain precise data on the number and type of experiments relating to cosmetic products carried out on animals. The Member States shall be obliged to collect that information in addition to collecting statistics as laid down by Directive 86/609/EEC on the protection of animals used for experimental and other scientific purposes. The Commission shall in particular ensure the development, validation and legal acceptance of experimental methods which do not use live animals.

**▼M3**

2. The presence of traces of the substances listed in Annex II shall be allowed provided that such presence is technically unavoidable in good manufacturing practice and that it conforms with Article 2.

**▼M14***Article 5*

Member States shall allow the marketing of cosmetic products containing:

- (a) the substances listed in Annex III, Part 2, within the limits and under the conditions laid down, up to the dates in column (g) of that Annex;

**▼M14**

- (b) the colouring agents listed in Annex IV, Part 2, within the limits and under the conditions laid down, until the admission dates given in that Annex;
- (c) the preservatives listed in Annex VI, Part 2, within the limits and under the condition laid down, until the dates given in column (f) of that Annex. However, some of these substances may be used in other concentrations for specific purposes apparent from the presentation of the product;
- (d) the UV filters listed in Part 2 of Annex VII, within the limits and under the conditions laid down, until the dates given in column (f) of that Annex.

At these dates, these substances, colouring agents, preservatives and UV filters shall be:

- definitively allowed, or
- definitively prohibited (Annex II), or
- maintained for a given period specified in Part 2 of Annexes III, IV, VI and VII, or
- deleted from all the Annexes, on the basis of available scientific information or because they are no longer used.

**▼M21***Article 5a*

1. No later than 14 December 1994 the Commission shall, under the procedure laid down in Article 10, compile an inventory of ingredients employed in cosmetic products, on the basis in particular of information supplied by the industry concerned.

For the purposes of this Article, 'cosmetic ingredient' shall mean any chemical substance or preparation of synthetic or natural origin, except for perfume and aromatic compositions, used in the composition of cosmetic products.

The inventory shall be divided into two sections: one concerning perfume and aromatic raw materials and the second concerning other substances.

2. The inventory shall contain information on:

- the identity of each ingredient, in particular its chemical name, the CTFA name, the European Pharmacopoeia name, the international non-proprietary names recommended by the World Health Organization, the Einecs, Iupac, CAS and colour index numbers, and the common name referred to in Article 7 (2),
- the usual function(s) of the ingredient in the final product,
- where appropriate, restrictions and conditions of use and warnings which must be printed on the label by reference to the Annexes.

3. The Commission shall publish the inventory and shall update it periodically under the procedure provided for in Article 10. The inventory shall be indicative and shall not constitute a list of the substances authorized for use in cosmetic products.

**▼M14***Article 6*

1. ►M21 Member States shall take all measures necessary to ensure that cosmetic products may be marketed only if the container and packaging bear the following information in indelible, easily legible and visible lettering; the information mentioned in point (g) may, however, be indicated on the packaging alone: ◀

- (a) the name or style and the address or registered office of the manufacturer or the person responsible for marketing the cosmetic product who is established within the Community. Such information may be abbreviated in so far as the abbreviation makes it generally possible to identify the undertaking. Member States may require that the country of origin be specified for goods manufactured outside the Community;

**▼M14**

- b) the nominal content at the time of packaging, given by weight or by volume, except in the case of packaging containing less than five grams or five millilitres, free samples and single-application packs; for pre-packages normally sold as a number of items, for which details of weight or volume are not significant, the content need not be given provided the number of items appears on the packaging. This information need not be given if the number of items is easy to see from the outside or if the product is normally only sold individually;
- c) the date of minimum durability. The date of minimum durability of a cosmetic product shall be the date until which this product, stored under appropriate conditions, continues to fulfil its initial function and, in particular, remains in conformity with Article 2.

The date of minimum durability shall be indicated by the words: ‘Best used before the end of...’ followed by either:

- the date itself, or
- details of where the date appears on the packaging.

If necessary, this information shall be supplemented by an indication of the conditions which must be satisfied to guarantee the stated durability.

The date shall be clearly expressed and shall consist of the month and the year in that order. Indication of the date of durability shall not be mandatory for cosmetic products the minimum durability of which exceeds 30 months;

**▼M21**

- (d) particular precautions to be observed in use, especially those listed in the column ‘Conditions of use and warnings which must be printed on the label’ in Annexes III, IV, VI and VII, which must appear on the container and packaging, as well as any special precautionary information on cosmetic products for professional use, in particular in hairdressing. Where this is impossible for practical reasons, an enclosed leaflet, label, tape or card must contain that information to which the consumer is referred either by abbreviated information or the symbol given in Annex VIII, which must appear on the container and the packaging;

**▼M14**

- (e) the batch number of manufacture or the reference for identifying the goods. Where this is impossible for practical reasons because the cosmetic products are too small, such information need appear only on the packaging;

**▼M21**

- (f) the function of the product, unless it is clear from the presentation of the product;
- (g) a list of ingredients in descending order of weight at the time they are added. That list shall be preceded by the word ‘ingredients’. Where that is impossible for practical reasons, an enclosed leaflet, label, tape or card must contain the ingredients to which the consumer is referred either by abbreviated information or the symbol given in Annex VIII, which must appear on the container and the packaging.

The following shall not, however, be regarded as ingredients:

- impurities in the raw materials used,
- subsidiary technical materials used in the preparation but not present in the final product,
- materials used in strictly necessary quantities as solvents or as carriers for perfume and aromatic compositions.

Perfume and aromatic compositions and their raw materials shall be referred to by the word ‘perfume’ or ‘flavour’. Ingredients in concentrations of less than 1 % may be listed in any order after those in concentrations of more than 1 %. Colouring agents may be listed in any order after the other ingredients, in accordance with the colour index number or denomination adopted in Annex IV.

**▼M21**

For decorative cosmetic products marketed in several colour shades, all colouring agents used in the range may be listed, provided that the terms 'may contain' are added.

An ingredient must be identified by the common name referred to in Article 7 (2) or, failing that, by one of the names referred to in Article 5a (2), first indent.

In accordance with the procedure laid down in Article 10, the Commission shall, no later than 14 December 1994, adopt the criteria and conditions under which a manufacturer may, for reasons of trade secrecy, apply not to include one or more ingredients on the abovementioned list.

Where it is impracticable, for reasons of size or shape, for the particulars referred to in points (d) and (g) to appear in an enclosed leaflet, those particulars shall appear on a label, tape or card which is enclosed or attached to the cosmetic product.

In the case of soap, bath balls and other small products where it is impracticable, for reasons of size or shape, for the particulars referred to in point (g) to appear on a label, tag, tape or card or in an enclosed leaflet, those particulars shall appear on a notice in immediate proximity to the container in which the cosmetic product is exposed for sale.

**▼M14**

2. For cosmetic products that are not pre-packaged, are packaged at the point of sale at the purchaser's request, or are pre-packaged for immediate sale, Member States shall adopt detailed rules for indication of the particulars referred to in paragraph 1.

3. Member States shall take all measures necessary to ensure that, in the labelling, putting up for sale and advertising of cosmetic products, text, names, trade marks, pictures and figurative or other signs are not used to imply that these products have characteristics which they do not have. ►M21 Furthermore, any reference to testing on animals must state clearly whether the tests carried out involved the finished product and/or its ingredients. ◀

**▼B***Article 7*

1. Member States may not, for reasons related to the requirements laid down in this Directive and the Annexes thereto, refuse, prohibit or restrict the marketing of any cosmetic products which comply with the requirements of this Directive and the Annexes thereto.

**▼M21**

2. They may, however, require that the particulars provided for in Article 6 (1) (b), (c), (d) and (f) be expressed at least in their own national or official language or languages; they may also require that the particulars provided for in Article 6 (1) (g) be expressed in a language easily understood by the consumer. To that end, the Commission shall adopt a common ingredients nomenclature in accordance with the Article 10 procedure.

3. Furthermore, a Member State may, for purposes of prompt and appropriate medical treatment in the event of difficulties, require that appropriate and adequate information on substances used in cosmetic products be made available to the competent authority, which shall ensure that that information is used only for the purposes of such treatment.

Each Member State shall designate a competent authority and send details thereof to the Commission, which shall publish that information in the *Official Journal of the European Communities*.

*Article 7a*

1. The manufacturer or his agent or the person to whose order a cosmetic product is manufactured or the person responsible for placing an imported cosmetic product on the Community market shall for control purposes keep the following information readily accessible to the

**▼M21**

competent authorities of the Member State concerned at the address specified on the label in accordance with Article 6 (1) (a):

- (a) the qualitative and quantitative composition of the product; in the case of perfume compositions and perfumes, the name and code number of the composition and the identity of the supplier;
  - (b) the physico-chemical and microbiological specifications of the raw materials and the finished product and the purity and microbiological control criteria of the cosmetic product;
  - (c) the method of manufacture complying with the good manufacturing practice laid down by Community law or, failing that, laid down by the law of the Member State concerned; the person responsible for manufacture or first importation into the Community must possess an appropriate level of professional qualification or experience in accordance with the legislation and practice of the Member State which is the place of manufacture or first importation;
  - (d) assessment of the safety for human health of the finished product. To that end the manufacturer shall take into consideration the general toxicological profile of the ingredient, its chemical structure and its level of exposure.
- Should the same product be manufactured at several places within Community territory, the manufacturer may choose a single place of manufacture where that information will be kept available. In this connection, and when so requested for monitoring purposes, he shall be obliged to indicate the place so chosen to the monitoring authority/authorities concerned;
- (e) the name and address of the qualified person or persons responsible for the assessment referred to in (d). That person must hold a diploma as defined in Article 1 of Directive 89/48/EEC in the field of pharmacy, toxicology, dermatology, medicine or a similar discipline;
  - (f) existing data on undesirable effects on human health resulting from use of the cosmetic product;
  - (g) proof of the effect claimed for the cosmetic product, where justified by the nature of the effect or product.

2. The assessment of the safety for human health referred to in paragraph 1 (d) shall be carried out in accordance with the principle of good laboratory practice laid down in Council Directive 87/18/EEC of 18 December 1986 on the harmonization of laws, regulations and administrative provisions relating to the application of the principles of good laboratory practice and the verification of their application for tests on chemical substances<sup>(1)</sup>.

3. The information referred to in paragraph 1 must be available in the national language or languages of the Member State concerned, or in a language readily understood by the competent authorities.

4. The manufacturer or his agent, or the person to whose order a cosmetic product is manufactured, or the person responsible for placing imported cosmetic products on the Community market, shall notify the competent authority of the Member State of the place of manufacture or of the initial importation of the address of the place of manufacture or of initial importation into the Community of the cosmetic products before the latter are placed on the Community market.

5. Member States shall designate the competent authorities referred to in paragraphs 1 and 4 and shall send details thereof to the Commission, which shall publish that information in the *Official Journal of the European Communities*.

The Member States shall ensure that the abovementioned authorities continue to cooperate in areas where such cooperation is necessary to the smooth application of this Directive.

<sup>(1)</sup> OJ No L 15, 17. 1. 1987, p. 29.

**▼M3***Article 8*

1. In accordance with the procedure laid down in Article 10 the following shall be determined:
  - the methods of analysis necessary for checking the composition of cosmetic products,
  - the criteria of microbiological and chemical purity for cosmetic products and methods for checking compliance with those criteria.

**▼M21**

2. The common nomenclature of ingredients used in cosmetic products and, after consultation of the Scientific Committee on Cosmetology, the amendments necessary for the adaptation to technical progress of the Annexes shall be adopted in accordance with the same procedure, as appropriate.

**▼M3***Article 8a*

1. Notwithstanding Article 4 and without prejudice to Article 8 (2), a Member State may authorize the use within its territory of other substances not contained in the lists of substances allowed, for certain cosmetic products specified in its national authorization, subject to the following conditions:
  - (a) the authorization must be limited to a maximum period of three years;
  - (b) the Member State must carry out an official check on cosmetic products manufactured from the substance or preparation use of which it has authorized;
  - (c) cosmetic products thus manufactured must bear a distinctive indication which will be defined in the authorization.
2. The Member States shall forward to the Commission and to the other Member States the next of any authorization decision taken pursuant to paragraph 1 within two months of the date on which it came into effect.
3. Before expiry of the three-year period provided for in paragraph 1, the Member State may submit to the Commission a request for the inclusion in a list of permitted substances of the substance given national authorization in accordance with paragraph 1. At the same time, it shall supply supporting documents setting out the grounds on which it deems such inclusion justified and shall indicate the uses for which the substance or preparation is intended. Within 18 months of submission of the request, a decision shall be taken on the basis of the latest scientific and technical knowledge, after consultation, at the initiative of the Commission or of a Member State, of the Scientific Committee for Cosmetology and in accordance with the procedure laid down in Article 10 as to whether the substance in question may be included in a list of permitted substances or whether the national authorization should be revoked. Notwithstanding paragraph 1 (a), the national authorization shall remain in force until a decision is taken on the request for inclusion in the list.

**▼B***Article 9*

1. The Committee on the Adaptation to Technical Progress of the Directives on the Removal of Technical Barriers to Trade in the Cosmetic Products Sector, hereinafter called 'the Committee', is hereby set up. It shall consist of representatives of the Member States with a representative of the Commission as chairman.
2. The Committee shall adopt its own rules of procedure.

**▼B***Article 10*

1. Where the procedure laid down in this Article is to be followed, matters shall be referred to the Committee by the chairman, either on his own initiative or at the request of the representative of a Member State.
2. The representative of the Commission shall submit to the Committee a draft of the measures to be adopted. The Committee shall deliver its opinion on the draft within a time limit set by the chairman according to the urgency of the matter. Opinions shall be adopted by a majority of ►A2 54 ◀ votes, the votes of Member States being weighted as provided for in Article 148 (2) of the Treaty. The chairman shall not vote.
3. (a) The Commission shall adopt the proposed measures when they are in accordance with the opinion of the Committee.  
 (b) Where the proposed measures are not in accordance with the opinion of the Committee, or if no opinion is adopted, the Commission shall without delay propose to the Council the measures to be adopted. The Council shall act by a qualified majority.  
 (c) If, within three months of the proposal being submitted to it, the Council has not acted, the proposed measures shall be adopted by the Commission.

*Article 11*

Without prejudice to Article 5 and not later than one year after expiry of the period laid down in Article 14 (1) for implementation of this Directive by the Member States, the Commission shall, on the basis of the results of the latest scientific and technical research, submit to the Council appropriate proposals establishing lists of permitted substances.

*Article 12*

1. If a Member State notes, on the basis of a substantiated justification, that a cosmetic product, although complying with the requirements of the Directive, represents a hazard to health, it may provisionally prohibit the marketing of that product in its territory or subject it to special conditions. It shall immediately inform the other Member States and the Commission thereof, stating the grounds for its decision.

**▼M14**

2. The Commission shall as soon as possible consult the Member States concerned, following which it shall deliver its opinion without delay and take the appropriate steps.

**▼B**

3. If the Commission is of the opinion that technical adaptations to the Directive are necessary, such adaptations shall be adopted by either the Commission or the Council in accordance with the procedure laid down in Article 10. In that event, the Member State which has adopted safeguard measures may maintain them until entry into force of the adaptations.

*Article 13*

Precise reasons shall be stated for any individual measures placing a restriction or ban on the marketing of cosmetic products taken pursuant to this Directive. It shall be notified to the party concerned together with particulars of the remedies available to him under the laws in force in the Member States and of the time limits allowed for the exercise of such remedies.

*Article 14*

1. Member States shall bring into force the provisions needed in order to comply with this Directive within 18 months of its notification and shall forthwith inform the Commission thereof.

**VB**

2. Member States may, however, for a period of 36 months from notification of this Directive, authorize the marketing in their territory of cosmetic products which do not conform to the requirements of the Directive.

3. Member States shall ensure that the texts of such provisions of national law as they adopt in the field governed by this Directive are communicated to the Commission.

*Article 15*

This Directive is addressed to the Member States.

**▼B***ANNEX I***ILLUSTRATIVE LIST BY CATEGORY OF COSMETIC PRODUCTS**

- Creams, emulsions, lotions, gels and oils for the skin (hands, face, feet, etc.).
- Face masks (with the exception of peeling products).
- Tinted bases (liquids, pastes, powders).
- Make-up powders, after-bath powders, hygienic powders, etc.
- Toilet soaps, deodorant soaps, etc.
- Perfumes, toilet waters and eau de Cologne.
- Bath and shower preparations (salts, foams, oils, gels, etc.).
- Depilatories.
- Deodorants and anti-perspirants.
- Hair care products:
  - hair tints and bleaches,
  - products for waving, straightening and fixing,
  - setting products,
  - cleansing products (lotions, powders, shampoos),
  - conditioning products (lotions, creams, oils),
  - hairdressing products (lotions, lacquers, brilliantines).
- Shaving products (creams, foams, lotions, etc.).
- Products for making up and removing makeup from the face and the eyes.
- Products intended for application to the lips.
- Products for care of the teeth and the mouth.
- Products for nail care and make-up.
- Products for external intimate hygiene.
- Sunbathing products.
- Products for tanning without sun.
- Skin-whitening products.
- Anti-wrinkle products.

**▼B***ANNEX II***▼M3****List of substances which must not form part of the composition of cosmetic products****▼B**

1. N-5-Chlorobenzoxazol-2-ylacetamide
2. ►M3 2-Acetoxyethyltrimethylammonium hydroxide (acetylcholine) and its salts ◀
3. Deanol acelglumate\*<sup>(1)</sup>
4. Spironolactone\*
5. ►M3 [4-(4-Hydroxy-3-iodophenoxy)-3,5-diiodophenyl]acetic acid and its salts ◀
6. Methotrexate\*
7. Aminocaproic acid\* and its salts
8. Cinchophen\*, its salts, derivatives and salts of these derivatives
9. Thyropropic acid\* and its salts
10. Trichloroacetic acid
11. *Aconitum napellus L.* (leaves, roots and galenical preparations)
12. Aconitine (principal alkaloid of *Aconitum napellus L.*) and its salts
13. *Adonis vernalis L.* and its preparations
14. Epinephrine\*
15. *Rauwolfia serpentina* alkaloids and their salts
16. Alkyne alcohols, their esters, ethers and salts
17. Isoprenaline\*
18. Allyl isothiocyanate
19. Alloclamide\* and its salts
20. Nalorphine\*, its salts and ethers
21. Sympathicomimetic amines acting on the central nervous system: any substance contained in the first list of medicaments which are subject to medical prescription and are referred to in resolution AP (69) 2 of the Council of Europe
22. Aniline, its salts and its halogenated and sulphonated derivatives
23. Betoxycaïne\* and its salts
24. Zoxazolamine\*
25. Procainamide\*, its salts and derivatives
26. Benzidine
27. Tuaminoheptane\*, its isomers and salts
28. Octodrine\* and its salts
29. ►M3 2-Amino-1,2-bis(4-methoxyphenyl)ethanol and its salts ◀
30. 1,3-dimethylpentylamine and its salts
31. 4-Aminosalicylic acid and its salts
32. Toluidines, their isomers, salts and halogenated and sulphonated derivatives
33. Xylidines, their isomers, salts and halogenated and sulphonated derivatives
34. ►M3 Imperatorin (9-(3-methoxylbut-2-enyloxy)furo[3,2-g]chromen-7-one) ◀
35. *Ammi majus* and its galenical preparations
36. 2,3-Dichloro-2-methylbutane
37. Substances with androgenic effect
38. Anthracene oil
39. Antibiotics ►M17 ————— ◀
40. Antimony and its compounds

<sup>(1)</sup> In this Directive, names followed by an asterisk are those published in 'Computer print-out 1975, International Non-proprietary Names (INN) for pharmaceutical products, Lists 1-33 of proposed INN', WHO, Geneva, August 1975.

**▼B**

41. *Apocynum cannabinum L.* and its preparations
42. ►M3 Apomorphine (R 5,6,6a 7-tetrahydro-6-methyl-4H-dibenzo [de,g]quinoline-10,11-diol) and its salts ◀
43. Arsenic and its compounds
44. *Atropa belladonna L.* and its preparations
45. Atropine, its salts and derivatives

**▼M4**

46. Barium salts, with the exception of barium sulphate, barium sulphide under the conditions laid down in Annex III, Part 1, and lakes, salts and pigments prepared from the colouring agents listed with the reference (\*) in Annex III, Part 2 and Annex IV, Part 2.

**▼B**

47. Benzene
48. ►M3 Benzimidazol-2(3H)-one ◀
49. ►M3 Benzazepines and benzodiazepines ◀
50. ►M3 1-Dimethylaminomethyl-1-methylpropyl benzoate (amylcaine) and its salts ◀
51. ►M3 2,2,6-Trimethyl-4-piperidyl benzoate (benzamine) and its salts ◀
52. ►M3 Isocarboxazid\* ◀
53. Bendroflumethiazide\* and its derivatives
54. Beryllium and its compounds
55. Bromine, elemental
56. Bretylium tosilate\*
57. Carbromal\*
58. Bromisoval\*
59. Brompheniramine\* and its salts
60. Benzonium bromide\*
61. Tetrylammonium bromide\*
62. Brucine
63. Tetracaine\* and its salts
64. Mofebutazone\*
65. Tolbutamide\*
66. Carbutamide\*
67. Phenylbutazone\*
68. Cadmium and its compounds
69. Cantharides, *Cantharis vesicatoria*
70. (1R,2S)-Hexahydro-1,2-dimethyl-3,6-epoxyphthalic anhydride (cantharin)
71. Phenprobamate\*
72. ►M3 Nitroderivatives of carbazole ◀
73. Carbon disulphide
74. Catalase
75. Cephaeline and its salts
76. *Chenopodium ambrosioides* (essential oil)
77. 2,2,2-Trichloroethane-1,1-diol
78. Chlorine
79. Chlorpropamide\*
80. ►M3 Diphenoxylate\* hydrochloride ◀
81. 4-Phenylazophenylene-1,3-diamine citrate hydrochloride (chrysoidine citrate hydrochloride)
82. Chlorzoxazone\*
83. 2-Chloro-6-methylpyrimidin-4-yldimethylamine (crimidine-ISO)
84. Chlorprothixene\* and its salts
85. Clofensamide\*
86. ►M3 N,N-bis(2-chloroethyl)methylamine N-oxide and its salts ◀
87. Chlormethine\* and its salts
88. Cyclophosphamide\* and its salts

**▼B**

89. Mannomustine\* and its salts
90. Butanilicaine\* and its salts
91. ►M3 Chlormezanone\* ◀
92. Triparanol\*
93. 2-[2(4-Chlorophenyl)-2-phenylacetyl] indane-1,3-dione (chlorophacinone-ISO)
94. Chlorphenoxyamine\*
95. ►M3 2-[2-(4-Chlorophenyl)-2-phenylacetyl]indan 1,3-dione (chlorophacinone - ISO) ◀
96. Chloroethane
97. Chromium; chromic acid and its salts
98. *Claviceps purpurea* Tul., its alkaloids and galenical preparations
99. *Conium maculatum* L. (fruit, powder, galenical preparations)
100. Glycyclamide\*
101. Cobalt benzenesulphonate
102. Colchicine, its salts and derivatives
103. Colchicoside and its derivatives
104. *Golchicum autumnale* L. and its galenical preparations
105. Convallatoxin
106. *Anamirta cocculus* L. (fruit)
107. *Croton tiglium* (oil)
108. 1-Butyl-3-(*N*-crotonoylsulphanilyl)urea
109. Curare and curarine
110. Synthetic curarizants
111. Hydrogen cyanide and its salts
112. ►M3 2- $\alpha$ -Cyclohexylbenzyl(*N,N,N',N'*-tetraethyl)trimethylenediamine (phenetamine) ◀
113. Cyclomenol\* and its salts
114. Sodium hexacyclonate\*
115. Hexapropymate\*
116. Dextropropoxyphene\*
117. ►M3 *O,O'*-Diacetyl-*N*-allyl-*N*-normorphine ◀
118. Pipazetate\* and its salts
119. ►M3 5-( $\alpha\beta$ -Dibromophenethyl)-5-methylhydantoin ◀
120. ►M3 *N,N'*-Pentamethylenebis (trimethylammonium salts), e.g. pentamethonium bromide\* ◀
121. ►M3 *N,N'*-[(Methylimino)diethylene]bis(ethyldimethylammonium) salts, e.g. azamethonium bromide\* ◀
122. Cyclarbamate\*
123. Clofenotane\* DDT (ISO)
124. ►M3 *N,N'*-Hexamethylenebis(trimethylammonium) salts, e.g. hexamethonium bromide\* ◀
125. Dichloroethanes (ethylene chlorides)
126. Dichloroethylenes (acetylene chlorides)
127. Lysergide\* and its salts
128. ►M3 2-Diethylaminoethyl-3-hydroxy-4-phenylbenzoate and its salts ◀
129. Cinchocaine\* and its salts
130. 3-Diethylaminopropyl cinnamate
131. ►M3 *O,O'*-Diethyl *O*-4-nitrophenyl phosphorothioate (parathion-ISO) ◀
132. ►M3 [Oxalylbisiminoethylene]bis[(*o*-chlorobenzyl)diethylammonium salts], e.g. ambenonium chloride\* ◀
133. Methylprylon\* and its salts
134. Digitaline and all heterosides of *Digitalis purpurea* L.
135. 7-[2-Hydroxy-3-(2-hydroxyethyl-*N*-methylamino)propyl]theophylline (xanthinol)
136. Dioxethedrin\* and its salts

**▼M24**

- 358. Furocoumarines (e.g. trioxysalan\*, 8-methoxysoralen, 5-methoxysoralen) except for normal content in natural essences used.  
In sun protection and in bronzing products, furocoumarines shall be below 1 mg/kg.

**▼B**

- 359. Oil from the seeds of *Laurus nobilis L.*

**▼M3**

- 360. Safrole except for normal content in the natural essences used and provided the concentration does not exceed:
  - 100 ppm in the finished product,
  - 50 ppm in products for dental and oral hygiene, and provided that Safrole is not present in toothpastes intended specifically for children

**▼B**

- 361. 5,5'-Di-isopropyl-2,2'-dimethylbiphenyl-4,4'-diyl dihypoidite

**M32**

362. 3'-Ethyl-5',6',7',8'-tetrahydro-5',5',8',8'-tetramethyl-2'-acetonaphthone or 7-acetyl-6-ethyl-1,1,4,4-tetramethyl-1,2,3,4-tetrahydronaphthalen

**M5**

363. *O*-phenylenediamine and its salts

**M8**

364. 4-methyl-m-phenylenediamine and its salts.

**M32**

365. Aristolochic acid and its salts; *Aristolochia* spp. and their preparations

**M10**

366. Chloroform

**M32**

367. 2,3,7,8-Tetra chlorodibenzo-p-dioxin

**M10**

368. 2,6-Dimethyl-1,3-dioxan-4-yl acetate (Dimethoxane)

369. Pyrithione sodium (INNM)

**M12**

370. *N*-(Trichloromethylthio)-4-cyclohexene-1,2-dicarboximide (captan)

371. 2,2'-Dihydroxy-3,3',5,5',6,6'-hexachlorodiphenylmethane (hexachlorophene)

**M32**

372. 6-(Piperidinyl)-2,4-pyrimidinediamine 3-oxide (minoxidil) and its salts

373. 3,4',5-Tribromosalicylanilide

374. *Phytolacca* spp. and their preparations

**M13**

375. Tretinoïn (retinoic acid and its salts)

376. 1-Methoxy-2,4-diaminobenzene (2,4-diaminoanisole - CI 76050)  
►M17 and their salts ◀

377. 1-Methoxy-2,5-diaminobenzene (2,5-diaminoanisole) ►M17 and their salts ◀

378. Colouring agent CI 12140

379. Colouring agent CI 26105

380. Colouring agent CI 42555

Colouring agent CI 42555-1

Colouring agent CI 42555-2

**M15**

381. Amyl 4-dimethylaminobenzoate, mixed isomers (Padimate A (INN))

382. Benzoyl peroxide

383. 2-Amino-4-nitrophenol

384. 2-Amino-5-nitrophenol

**M17**

385. 11  $\alpha$ -Hydroxypregn-4-ene-3,20-dione and its esters

**M32**

385. 11 $\alpha$ -Hydroxypregn-4-ene-3, 20-dione) and its esters

386. Colouring agent C.I. 42 640

**M17**

387. Colouring agent CI 13 065

388. Colouring agent CI 42 535

389. Colouring agent CI 61 554

**M32**

390. Anti-androgens of steroidal structure

391. Zirconium and its compounds, with the exception of the substances listed under reference number 50 in Annex III, Part One, and the zirconium lakes, pigments or salts of the colouring agents listed in Annex IV, Part One, with reference number 3

**▼M32**

- 393. Acetonitrile
- 394. Tetrahydrozoline and its salts

**▼M18**

- 395. Hydroxy-8-quinoline and its sulphate, except for the uses provided for in No 51 in Annex III, Part 1
- 396. Dithio-2,2-bispyridine-dioxide 1,1' (additive with trihydrated magnesium sulphate) - (pyrithione disulphide + magnesium sulphate)
- 397. Colouring agent CI 12075 and its lakes, pigments and salts
- 398. Colouring agent CI 45170 and CI 45170:1
- 399. Lidocaine

**▼M20**

- 400. 1,2-epoxybutane
- 401. Colouring agent CI 15585
- 402. Strontium lactate
- 403. Strontium nitrate
- 404. Strontium polycarboxylate
- 405. Pramocaine
- 406. 4-ethoxy-m-phenylenediamine and its salts
- 407. 2,4-diaminophenylethanol and its salts
- 408. Catechol
- 409. Pyrogallol
- 410. Nitrosamines
- 411. Secondary dialkanolamines

**▼M22**

- 412. 4-Amino-2-nitrophenol

**▼M23**

- 413. 2-Methyl-m-phenylenediamine

**▼M24**

- 414. 4-tert-Butyl-3-methoxy-2,6-dinitrotoluene (Musk Ambrette)

**▼M28****▼M24**

- 416. Cells, tissues or products of human origin
- 417. 3,3-Bis(4-hydroxyphenyl)phthalide (Phenolphthalein\*)

**▼M25**

- 418. 3-Imidazol-4-ylacrylic acid and its ethyl ester (urocanic acid)

**▼M29**

- 419. (a) the skull, including the brain and eyes, tonsils and spinal cord of:
  - bovine animals aged 12 months,
  - ovine and caprine animals which are aged over 12 months or have a permanent incisor tooth erupted through the gum;
- (b) the spleens of ovine and caprine animals and ingredients derived therefrom.

However, tallow derivatives may be used provided that the following methods have been used and strictly certified by the producer:

**▼M31**

- Transesterification or hydrolysis at at least 200 °C and at an appropriate corresponding pressure, for 20 minutes (glycerol, fatty acids and fatty acid esters),

**▼M29**

- Saponification with NaOH 12M (glycerol and soap):
  - Batch process: at 95 °C for three hours  
or
  - Continuous process: at 140 °C, two bars (2 000 hPa) for eight minutes or equivalent conditions.

**▼M28**

- 420. Crude and refined coal tars

**▼M30**

- 421. 1,1,3,3,5,-Pentamethyl-4,6-dinitroindane (moskene)
- 422. 5-*tert*-Butyl-1,2,3-trimethyl-4,6-dinitrobenzene (musk tibetene).

## ANNEX III

**PART 1**  
**LIST OF SUBSTANCES WHICH COSMETIC PRODUCTS MUST NOT CONTAIN EXCEPT SUBJECT TO THE RESTRICTIONS AND CONDITIONS LAID DOWN**

Reference number	Substance	Restrictions				Conditions of use and warnings which must be printed on the label
		Field of application and/or use	Maximum authorized concentration in the finished cosmetic product	Other limitations and requirements		
A	B	C	D	E	F	
<b>▼M31</b>	Boric acid, borates and tetraborates	(a) Talc  (b) Products for all hygiene  (c) Other products (excluding bath products and hair waving products)	(a) 5 % (by mass/mass as boric acid)  (b) 0,1 % (by mass/mass as boric acid)  (c) 3 % (by mass/mass as boric acid)	(a) 1. Not to be used in products for children under 3 years of age 2. Not to be used on peeling or irritated skin if the concentration of free soluble borates exceeds 1,5 % (by mass/mass as boric acid)  (b) 1. Not to be used in products for children under 3 years of age  (c) 1. Not to be used in products for children under 3 years of age 2. Not to be used on peeling or irritated skin if the concentration of free soluble borates exceeds 1,5 % (by mass/mass as boric acid)	(a) 1. Not to be used for children under 3 years of age 2. Not to be used on peeling or irritated skin  (b) 1. Not to be swallowed 2. Not to be used for children under 3 years of age  (c) 1. Not to be used for children under 3 years of age 2. Not to be used on peeling or irritated skin	(a) 1. Not to be used for children under 3 years of age 2. Rinse well  (b) Not to be used of bathing children under 3 years of age
1b	Tetraborates	(a) Bath products  (b) Hair waving products	(a) 18 % (by mass/mass as boric acid)  (b) 8 % (by mass/mass as boric acid)	(a) Not to be used in products for children under 3 years of age  (b) Rinse well		

**▼M31**

Reference number	Substance	Restrictions			Conditions of use and warnings which must be printed on the label
		Field of application and/or use	Maximum authorized concentration in the finished cosmetic product	Other limitations and requirements	
A	B	C	D	E	F
<b>▼M13</b>	2a	Thioglycolic acid and its salts	(a) Hair waving or straightening products: — general use — professional use  (b) Depilatories  (c) Other hair-caire products which are removed after application	(a) (b) (c): The directions for use drawn up in the national or official language(s) must obligatorily incorporate the following sentences:  — 8 % ready for use pH 7 to 9,5 — 11 % ready for use pH 7 to 9,5 — 5 % ready for use pH 7 to 12,7 — 2 % ready for use pH 6 to 9,5 The abovementioned percentages are calculated as thioglycolic acid	(a): — Contains thioglycolate — Follow the instructions — Keep out of reach of children — For professional use only  (b) and (c): — Contains thioglycolate — Follow the instructions — Keep out of reach of children  — Avoid contact with eyes — In the event of contact with eyes, rinse immediately with plenty of water and seek medical advice — Wear suitable gloves ((a) and (c) only)
2b	Thioglycolic acid esters	Hair waving or straightening products: — general use — professional use	— 8 % ready for use pH 6 to 9,5 — 11 % ready for use pH 6 to 9,5	The abovementioned percentages are calculated as thioglycolic acid	The directions for use drawn up in the national or official language(s) must obligatorily incorporate the following sentences:  — May cause sensitization in the event of skin contact — avoid contact with eyes — In the event of contact with eyes, rinse immediately with plenty of water and seek medical advice — Wear suitable gloves
<b>▼M3</b>	3	Oxalic acid, its esters and alcaline salts	Hair care products	5 %	For professional use only
4	Ammonia		6 % calculated as NH <sub>3</sub>		Above 2 %: contains ammonia
5	Tosylchloramide sodium (*)		0-2 %		

**▼M3**

Reference number	Substance	Restrictions				Conditions of use and warnings which must be printed on the label
		C	D	E	Other limitations and requirements	
A	B	(a) Toothpaste (b) Other uses	(a) 5 % (b) 3 %		F	
6	Chlorates of alkali metals					
7	Dichloromethane		35 % (when mixed with 1,1,1-trichloroethane, total concentration must not exceed 35 %)	0.2 % as maximum impurity content		
8	►M5 m- and p-Phenylenediamines, their N-substituted derivatives and their salts; N-substituted derivatives of o-phenylenediamines (1) ▼	Oxidizing colouring agents for hair dyeing (a) general use  (b) professional use	6 % calculated as free base  ►M20 Contains phenylenediamines. Do not use to dye eyelashes or eyebrows  ►M20 Contains phenylenediamines. Can cause an allergic reaction. Wear suitable gloves. ▼		(a) Can cause an allergic reaction. ►M20 Contains phenylenediamines. Do not use to dye eyelashes or eyebrows  (b) For professional use only. Contains phenylenediamines. Can cause an allergic reaction. ►M20 Contains phenylenediamines. Can cause an allergic reaction. ►M22 Wear suitable gloves. ▼	
9	►M5 Methylphenylenediamines, their N-substituted derivatives and their salts (1) with the exception of substance No 364 in Annex II ▼	Oxidizing colouring agents for hair dyeing (a) general use  (b) professional use	10 % calculated as free base  ►M20 Contains phenylenediamines. Do not use to dye eyelashes or eyebrows  ►M20 Contains phenylenediamines. Can cause an allergic reaction. ►M22 Wear suitable gloves. ▼		(a) Can cause an allergic reaction. ►M20 Contains phenylenediamines. Do not use to dye eyelashes or eyebrows  (b) For professional use only. Contains phenylenediamines. Can cause an allergic reaction. ►M20 Contains phenylenediamines. Can cause an allergic reaction. ►M22 Wear suitable gloves. ▼

▼M12	11	Dichlorophen (*)	0,5 %		
▼M20	12	Hydrogen peroxide, and other compounds or mixtures that release hydrogen peroxide, including carbamide peroxide and zinc peroxide	(a) Hair-care preparations  (b) Skin-care preparations  (c) Nail hardening preparations  (d) Oral hygiene products	12 % of H <sub>2</sub> O <sub>2</sub> (40 volumes), present or released 4 % of H <sub>2</sub> O <sub>2</sub> present or released  2 % of H <sub>2</sub> O <sub>2</sub> present or released  0,1 % of H <sub>2</sub> O <sub>2</sub> present or released	► <u>M22</u> (a): Wear suitable gloves ▼  (b) (c): Contains hydrogen peroxide. Avoid contact with eyes. Rinse immediately if product comes into contact with them
▼M3	13	Formaldehyde	Nail hardeners	5 % calculated as formaldehyde	Protect cuticles with grease or oil. Contains formaldehyde <sup>(1)</sup> .

**▼M3**

Reference number	Substance	Restrictions				Conditions of use and warnings which must be printed on the label
		A	B	C	D	
<b>▼M8</b> 14	Hydroquinone (7)	(a) Oxidizing colouring agent for hair-dyeing: 1. General use  2. Professional use  ►M31————►	(a) ►M31 0,3 % ►  1. Do not use to dye eydasches or eyebrows Rinse the eyes immediately if the product comes into contact with them. Contains hydroquinone  2. For professional use only Contains hydroquinone Rinse the eyes immediately if the product comes into contact with them  ►M31————►	(a)  1. Do not use to dye eydasches or eyebrows Rinse the eyes immediately if the product comes into contact with them. Contains hydroquinone  2. For professional use only Contains hydroquinone Rinse the eyes immediately if the product comes into contact with them  ►M31————►	(a)  1. Do not use to dye eydasches or eyebrows Rinse the eyes immediately if the product comes into contact with them. Contains hydroquinone  2. For professional use only Contains hydroquinone Rinse the eyes immediately if the product comes into contact with them  ►M31————►	(a)  1. Contains alkali. Avoid contact with eyes. Can cause blindness. Keep out of reach of children  1. Contains alkali. Avoid contact with eyes. Can cause blindness. Keep out of reach of children 1. Contains alkali. Avoid contact with eyes. Can cause blindness. 2. For professional use only. Avoid contact with eyes. Can cause blindness.  (c) Keep out of reach of children. Avoid contact with eyes  (d) Up to pH 11
<b>▼M25</b> 15a	Potassium or sodium hydroxide	(a) Nail cuticle solvent  (b) Hair straightener 1. General use  2. Professional use  ►M31————►	(a) 5 % by weight (4)  (b) 1. 2 % by weight (4)  2. 4,5 % by weight (4)  (c) Up to pH 12,7  (d) Other uses as pH adjuster	(a) 5 % by weight (4)  (b) 1. 2 % by weight (4)  2. 4,5 % by weight (4)  (c) Up to pH 12,7  (d) Other uses as pH adjuster	(a) 5 % by weight (4)  (b) 1. 2 % by weight (4)  2. 4,5 % by weight (4)  (c) Up to pH 12,7  (d) Other uses as pH adjuster	(a) 5 % by weight (4)  (b) 1. 2 % by weight (4)  2. 4,5 % by weight (4)  (c) Up to pH 12,7  (d) Other uses as pH adjuster

**▼ M25**

Reference number	Substance	Restrictions				Conditions of use and warnings which must be printed on the label
		Field of application and/or use	Maximum authorized concentration in the finished cosmetic product	Other limitations and requirements		
A	B	C	D	E	F	
15b	Lithium hydroxide	(a) Hair straightener 1. General use  2. Professional use  (b) Other uses	1. 2 % by weight <sup>(4)</sup>  2. 4,5 % by weight <sup>(4)</sup>			1. Contains alkali. Avoid contact with eyes. Can cause blindness. Keep out of reach of children.  2. For professional use only. Avoid contact with eyes. Can cause blindness
15c	Calcium hydroxide	(a) Hair straighteners containing two components: calcium hydroxide and a guanidine salt  (b) Other uses	7 % by weight calcium hydroxide			Contains alkali. Avoid contact with eyes. Can cause blindness. Keep out of reach of children.
<b>▼ M3</b>	16	$\alpha$ -naphtol	Colouring agent for hair dyeing	0,5 %		Contains $\alpha$ -naphtol
17	Sodium nitrite	Rust inhibitor	0,2 %			Do not use with secondary and/or tertiary amines or other substances forming nitrosamines
18	Nitromethane	Rust inhibitor	0,3 %			
19	Phenol and its alkali salts	Soaps and shampoos	1 % calculated as phenol			Contains phenol
<b>► M20</b>						
21	Quinine and its salts	(a) Shampoos  (b) Hair lotions	(a) 0,5 % calculated as quinine base  (b) 0,2 % calculated as quinine base			

**▼M3**

Reference number	Substance	Restrictions			Conditions of use and warnings which must be printed on the label
		Field of application and/or use	Maximum authorized concentration in the finished cosmetic product	Other limitations and requirements	
A	B	C	D	E	F
22	Resorcinol <sup>(2)</sup>	(a) Oxidizing colouring agent for hair dyeing 1. general use  2. professional use  (b) Hair lotions and shampoos (b) 0,5 %	(a) 5 %		(a) 1. Contains resorcinol. Rinse hair well after application. Do not use to dye eyelashes or eyebrows. Rinse eyes immediately if product comes into contact with them 2. For professional use only. Contains resorcinol. Rinse eyes immediately if product comes into contact with them (b) Contains resorcinol
23	(a) Alkali sulphides  (b) Alkaline earth sulphides	(a) Depilatories  (b) Depilatories	(a) 2 % calculated as sulphur pH ≤ 12,7 (b) 6 % calculated as sulphur pH ≤ 12,7		(a) Keep out of reach of children. Avoid contact with eyes (b) Keep out of reach of children. Avoid contact with eyes
24	Water-soluble zinc salts with the exception of zinc 4-hydroxybenzenesulphonate and zinc pyrithione			1 % calculated as zinc	
25	Zinc 4-hydroxybenzene sulphonate	Deodorants, antiperspirants and astringent lotions	6 % calculated as % of anhydrous substance		Avoid contact with eyes
26	Sodium monofluorophosphate	Oral hygiene products	0,15 % calculated as F. When mixed with other fluorine compounds permitted under this Annex, total F concentration must not exceed 0,15 %		Contains ammonium monofluorophosphate

**▼ M3**

Reference number	Substance	Restrictions				Conditions of use and warnings which must be printed on the label
		C	D	E	Other limitations and requirements	
A	B	Ditto	0,15 % Ditto			F
27	Sodium monofluorophosphate	Ditto	0,15 % Ditto		Contains sodium monofluorophosphate	
28	Potassium monofluorophosphate	Ditto	0,15 % Ditto		Contains potassium monofluorophosphate	
29	Calcium monofluorophosphate	Ditto	0,15 % Ditto		Contains calcium monofluorophosphate	
30	Calcium fluoride	Ditto	0,15 % Ditto		Contains calcium fluoride	
31	Sodium fluoride	Ditto	0,15 % Ditto		Contains sodium fluoride	
32	Potassium fluoride	Ditto	0,15 % Ditto		Contains potassium fluoride	
33	Ammonium fluoride	Ditto	0,15 % Ditto		Contains ammonium fluoride	
34	Aluminium fluoride	Ditto	0,15 % Ditto		Contains aluminium fluoride	
35	Stannous fluoride	Ditto	0,15 % Ditto		Contains stannous fluoride	
36	Hexadecyl ammonium fluoride	Ditto	0,15 % Ditto		Contains hexadecyl ammonium fluoride	
37	3-(N-Hexadecyl-N-2-hydroxyethyl-lammonio) propylbis(2-hydroxyethyl) difluoride	Ditto	0,15 % Ditto		Contains 3-(N-Hexadecyl-N-2-hydroxyethyl-lammonio) propylbis(2-hydroxyethyl) difluoride	
38	NN'-Tris(polyoxyethylene)-N-hexamethylpropylenediamine dihydrofluoride	Ditto	0,15 % Ditto		Contains NN'-tris(polyoxyethylene)-N-hexamethylpropylenediamine dihydrofluoride	
39	Octadecenyl-ammonium fluoride	Ditto	0,15 % Ditto		Contains octadecenyl-ammonium fluoride	

**▼M3**

Reference number	Substance	Field of application and/or use	Restrictions		Conditions of use and warnings which must be printed on the label
			Maximum authorized concentration in the finished cosmetic product	Other limitations and requirements	
A	B	C	D	E	F
40	Sodium fluorosilicate	Ditto	0,15 % Ditto		Contains sodium fluorosilicate
41	Potassium fluorosilicate	Ditto	0,15 % Ditto		Contains potassium fluorosilicate
42	Ammonium fluorosilicate	Ditto	0,15 % Ditto		Contains ammonium fluorosilicate
43	Magnesium fluorosilicate	Ditto	0,15 % Ditto		Contains (SIC! Contains) magnesium fluorosilicate
<b>▼M10</b>	44 1,3-Bis (hydroxymethyl)-imidazolidine-2-thione	(a) Hair-care preparations (b) Nail-care preparations	(a) Up to 2 % (b) Up to 2 %	(a) Prohibited in aerosol dispensers (sprays) (b) The pH of the product as applied must be less than 4	Contains 1,3-bis (hydroxymethyl) imidazolidine-2-thione
<b>▼M3</b>	45 Benzyl alcohol	Solvents, perfumes and flavourings			
<b>▼M4</b>	46 6-methylcoumarin	Oral hygiene products	0,003 %		
<b>▼M8</b>	47 Nicomethanol hydrofluoride	Oral hygiene products	0,15 % calculated as F When mixed with other fluorine compounds permitted under this Annex, total F concentration must not exceed 0,15 %	Contains nicomethanol hydrofluoride	— Contains silver nitrate — Rinse the eyes immediately if product comes into contact with them
48	Silver nitrate	Solely for products intended for colouring eyelashes and eyebrows	4 %		

**▼M8**

Reference number	Substance	Restrictions				Conditions of use and warnings which must be printed on the label
		Field of application and/or use	Maximum authorized concentration in the finished cosmetic product	Other limitations and requirements		
A	B	C	D	E	F	
<b>▼M9</b> 49	Selenium disulphide	Antidandruff shampoos	1 %			<ul style="list-style-type: none"> <li>— Contains selenium disulphide</li> <li>— Avoid contact with eyes or damaged skin</li> </ul>
50	Aluminium zirconium chloride hydroxyde complexes $\text{Al}_x\text{Zr}(\text{OH})_y\text{Cl}_z$ and the aluminium zirconium chloride glycine complexes	Antiperspirants	20 % as anhydrous aluminium hydroxide zirconium chloride 5,4 % as zirconium 5,4 % as zirconium	<ol style="list-style-type: none"> <li>1. The ratio of the number of aluminium atoms to that of zirconium atoms must be between two an 10</li> <li>2. The ratio of the number of (<math>\text{Al} + \text{Zr}</math>) atoms to that of chlorine atoms must be between 0,9 and 2,1</li> <li>3. Prohibited in aerosol dispensers (sprays)</li> </ol>	<p>Do not apply to irritated or damaged skin</p>	
<b>▼M13</b> 51	Quinolin-8-old and bis (8-hydroxy-quinolinium) sulphate	Stabilizer for hydrogen peroxide in rinse-off hair-care preparations Stabilizer for hydrogen peroxide in non-rinse-off hair-care preparations	0,3 % calculated as base 0,03 % calculated as base			
<b>▼M12</b> 52	Methanol	Denaturant for isopropyl alcohol	ethanol and isopropyl alcohol	5 % calculated as a % ethanol and isopropyl alcohol		<b>►M15</b> ————— ►
<b>▼M13</b> 53	Etidronic acid (1-hydroxyethylidene-di-phosphonic acid and its salts)	(a) Hair-care (b) Soap		1,5 % expressed as etidronic acid 0,2 % expressed as etidronic acid		
54	1-Phenoxy-propzan-2-ol	— Rinse-off products only — Prohibited in oral hygiene products	2,0 %		As a preservative, see Annex VI, Part 1, No 43	

**▼ M13**

Reference number	Substance	Restrictions			Conditions of use and warnings which must be printed on the label
		Field of application and/or use	Maximum authorized concentration in the finished cosmetic product	Other limitations and requirements	
A	B	C	D	E	F
<b>▼ M17</b> 55	Lead acetate	Only for hair-dyeing	0,6 % calculated in lead	Keep away from children. Avoid all contact with the eyes. Wash hands after use. Contains lead acetate. Do not use to dye eyelashes, eyebrows or moustaches. If irritation develops, discontinue use.	
<b>▼ M18</b> 56	Magnesium fluoride	Dental hygiene products	0,15 % calculated as F. When mixed with other fluorine compounds permitted under this Annex, total F concentration must not exceed 0,15 %	Contains magnesium fluoride	
<b>▼ M30</b> 57	Strontium chloride hexahydrate	(a) Toothpaste  (b) Shampoo and face care products	3,5 %, calculated as strontium. When mixed with other permitted strontium products the total strontium content must not exceed 3,5 %  2,1 %, calculated as strontium. When mixed with other permitted strontium products the total strontium content must not exceed 2,1 %	Contains strontium chloride. Frequent use by children is not advisable	
<b>▼ M20</b> 58	Strontium acetate hemihydrate	Toothpaste	3,5 %, calculated as strontium. When mixed with other permitted strontium products the total strontium content must not exceed 3,5 %	Contains strontium acetate. Frequent use by children is not advisable	

**▼ M20**

Reference number	Substance	Restrictions				Conditions of use and warnings which must be printed on the label
		Field of application and/or use	Maximum authorized concentration in the finished cosmetic product	Other limitations and requirements		
A	B	C	D	E	F	
<b>▼ M23</b> 59	Talc: Hydrated magnesium silicate	(a) Powdery products intended to be used for children under three years of age (b) other products			►C4 a) Keep powder away from children's nose and mouth ▶	
<b>▼ M20</b> 60	Fatty acid dialkanolamides		Maximum dialkanolamine content: 0,5 %	— Do not use with nitrosating systems — Maximum dialkanolamine content: 5 % (concerns raw materials) — Maximum N-nitroso-dialkanolamine content: 50 µg/kg — Keep in nitrite-free containers		
61	Monoalkanolamines		Maximum dialkanolamine content: 0,5 %	— Do not use with nitrosating systems — Minimum purity: 99 % — Maximum secondary alkanolamine content: 0,5 % (concerns raw materials) — Maximum N-nitrosodialkanolamine content: 50 µg/kg — Keep in nitrite-free containers		
62	Trialkanolamines	(a) non-rinse-off products (b) other products	(a) 2,5 %	(a) (b): — Do not use with nitrosating systems — Minimum purity: 99 % — Maximum secondary alkanolamine content: 0,5 % (concerns raw materials) — maximum N-nitrosodialkanolamine content: 50 µg/kg — Keep in nitrate-free containers

- (<sup>1</sup>) Lakes or salts of these colouring agents using substances not prohibited under Annex II or not excluded under Annex V from the scope of this Directive are equally allowed.
- (<sup>2</sup>) Colouring agents whose number is preceded by the letter 'E' in accordance with the EEC Directive of 1962 concerning foodstuffs and colouring matters must fulfil the purity requirements laid down in those Directives. They continue to be subject to the general criteria set out in Annex III to the 1962 Directive concerning colouring matters where the letter 'E' has been deleted therefrom.
- (<sup>3</sup>) The insoluble barium, strontium and zirconium lakes, salts and pigments of these colouring agents shall also be permitted. They must pass the test for insolubility which will be determined by the procedure laid down in Article 8.

**▼M11***ANNEX VI***LIST OF PRESERVATIVES WHICH COSMETIC PRODUCTS MAY  
CONTAIN****PREAMBLE**

1. Preservatives are substances which may be added to cosmetic products for the primary purpose of inhibiting the development of micro-organisms in such products.
2. The substances marked with the symbol (\*) may also be added to cosmetic products in concentration other than those laid down in this Annex for other specific purposes apparent from the presentation of the products, e.g. as deodorants in soaps or as anti-dandruff agents in shampoos.
3. Other substances used in the formulation of cosmetic products may also have anti-microbial properties and thus help in the preservation of the products, as, for instance, many essential oils and some alcohols. These substances are not included in this Annex.
4. For the purposes of this list:
  - ‘Salts’ is taken to mean: salts of the cations sodium, potassium, calcium, magnesium, ammonium and ethanolamines; salts of the anions chloride, bromide, sulphate, acetate.
  - ‘Esters’ is taken to mean: esters of methyl, ethyl, propyl, isopropyl, butyl, isobutyl, phenyl.
5. All finished products containing formaldehyde or substances in this Annex and which release formaldehyde must be labelled with the warning ‘contains formaldehyde’ where the concentration of formaldehyde in the finished product exceeds 0,05 %.

*ANNEX VII*

**List of UV filters which cosmetic products may contain**

For the purposes of this Directive, UV filters are substances which, contained in cosmetic sun-screen products, are specifically intended to filter certain UV rays in order to protect the skin from certain harmful effects of these rays.

These UV filters may be added to other cosmetic products within the limits and under the conditions laid down in this Annex.

Other UV filters used in cosmetic products solely for the purpose of protecting the product against UV rays are not included in this list.

▼ M7

	16	Phenol-2-(2H-Benzotriazol-2-yl)-4-Methyl-6-(2-Methyl-3-(1,3,3,3-Tetra-methyl-1-(Trimethylsilyl)Oxy)-Disilo-xanyl)Propyl (Drometrizole Trifloxane)	15 %		
	17	Benzoic acid, 4,4-(((6-(((1,1-dimethyl-ethyl-Damino)carbonyl)phenyl)amino)triazine-2,4-diy)diimino)bis-(2-ethyl-hexyl)ester)	10 %		
	18	3-(4'-Methylbenzylidene)-d-1 camphor (4-Methylbenzylidene Camphor)	4 %		
	19	3-Benzylidene camphor (3-Benzylidene Camphor)	2 %		
	20	2-Ethylhexyl salicylate (Octyl-salicylate)	5 %		
<b>▼ M31</b>	21	4-Dimethyl-amino-benzote of ethyl-2-hexyl (octyl dimethyl PABA)	8 %		

**▼M31**

Reference No	Substances	Maximum authorized concentration	Other limitations and requirements	Conditions of use and warnings which must be printed on the label
A	B	C	D	E
22	2-Hydroxy-4-methoxybenzophenone-5-sulfonic acid (Benzophenone-5) and its sodium salt	5 % (of acid)		
23	2,2'-Methylene-bis-6-(2H-benzotriazol-2yl)-4-(tetramethyl-butyl)-1,1,3,3-phenol	10 %		
24	Monosodium salt of 2,2'-bis-(1,4-phenylene)1H-benzimidazole-4,6-disulphonic acid)	10 % (of acid)		
25	(1,3,5)-Triazine-2,4-bis((4-(2-ethyl-hexyloxy)-2-hydroxy-phenyl)-6-(4-methoxy-phenyl))	10 %		

**▼M30**

(1) Not required if concentration is 0,5 % or less and when it is used only for product protection purposes.
