(80/154/EEC)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Articles 49, 57 and 66 thereof,

Having regard to the proposal from the Commission⁽¹⁾,Having regard to the opinion of the European Parliament⁽²⁾,Having regard to the opinion of the Economic and Social Committee⁽³⁾,

Whereas, pursuant to the Treaty, all discriminatory treatment based on nationality with regard to establishment and provision of services is prohibited as from the end of the transitional period; whereas the principle of such treatment based on nationality applies in particular to the grant of any authorization required to practise as a midwife and also to the registration, with or membership of professional organizations or bodies;

Whereas it nevertheless seems desirable that certain provisions be introduced to facilitate the effective exercise of the right of establishment and freedom to provide services in respect of the activities of midwives;

Whereas, pursuant to the Treaty, the Member States are required not to grant any form of aid likely to distort the conditions of establishment;

Whereas Article 57 (1) of the Treaty provides that Directives be issued for mutual recognition of diplomas, certificates and other evidence of formal qualifications;

Whereas it would appear advisable that, contemporaneously with the mutual recognition of diplomas, provision should be made for coordinating the conditions governing the training of midwives; whereas such coordination is the subject of Directive 80/155/EEC⁽⁴⁾;

Whereas in the Member States the law makes the right to take up and pursue the activities of midwife dependent upon the possession of a midwifery diploma;

Whereas, with regard to the possession of a formal certificate of training, since a Directive on the mutual recognition of diplomas does not necessarily imply equivalence in the training covered by such diplomas, the use of such qualifications should be authorized only in the language of the Member State of origin or of the Member State from which the foreign national comes;

Whereas, to facilitate the application of this Directive by the national authorities, Member States may prescribe that, in addition to formal certificates of training, the person who satisfies the conditions of training required by this Directive must provide a certificate from the competent authorities of his country of origin or of the country from which he comes stating that these certificates of training are those covered by the Directive;

Whereas, in the case of the provision of services, the requirement of registration with or membership of professional organizations or

bodies, since it is related to the fixed and permanent nature of the activity pursued in the host country, would undoubtedly constitute an obstacle to the person wishing to provide the service, by reason of the temporary nature of his activity; whereas this requirement should therefore be abolished; whereas however, in this event, control over professional discipline, which is the responsibility of these professional organizations or bodies, should be guaranteed; whereas, to this end, it should be provided, subject to the application of Article 62 of the Treaty, that the person concerned may be required to submit to the competent authority of the host Member State particulars relating to the provision of services;

Whereas, with regard to the requirements relating to good character and good repute, a distinction should be drawn between the requirements to be satisfied on first taking up the profession and those to be satisfied to practise it;

Whereas, as far as the activities of employed midwives are concerned, Council Regulation (EEC) No 1612/68 of 15 October 1968 on freedom of movement for workers within the Community⁽¹⁾ lays down no specific provisions relating to good character or good repute, professional discipline or use of title for the professions covered; whereas, depending on the individual Member State, such rules are or may be applicable both to employed and self-employed persons; whereas the activities of midwives are subject in all Member States to possession of a diploma, certificate or other evidence of formal qualification in midwifery; whereas such activities are pursued by both employed and self-employed persons, or by the same persons in both capacities in the course of their professional career; whereas, in order to encourage as far as possible the free movement of those professional persons within the Community, it therefore appears necessary to extend this Directive to employed midwives,

HAS ADOPTED THIS DIRECTIVE:
