

ANNEX

DETERMINATION OF DICHLOROMETHANE AND 1,1,1-TRICHLOROETHANE IDENTIFICATION AND DETERMINATION OF QUINOLIN-8-OL AND BIS(8-HYDROXYQUINOLINIUM) SULPHATE

3. PRINCIPLE

3.1. **Identification**

Identification is by thin-layer chromatography.

3.2. **Determination**

The determination is carried out by spectrophotometry at 410 nm of the complex obtained by reaction with Fehling's solution.
