

ANNEX

METHODS OF SAMPLING RELATED TO THE CONTROL OF CHEMICAL ANALYSIS OF CERTAIN EDIBLE CASEINS AND CASEINATES INTENDED FOR HUMAN CONSUMPTION III. BORERS FOR THE SAMPLING OF EDIBLE CASEINS AND CASEINATES IN BULK

3. **Construction**

- 3.1. Shape, material and finish shall be such as to permit the borer to be easily cleaned.
- 3.2. The protruding edge of the blade of type A shall be sufficiently sharp to serve as a scraper.
- 3.3. The point of the blade shall be sufficiently sharp as to facilitate sampling.
