
Status: This is the original version (as it was originally adopted).

ANNEX

Appendix 2

Requirements applicable to two-wheel mopeds, two-wheel motorcycles and tricycles equipped with anti-lock devices

1. GENERAL

- 1.1. The purpose of these provisions is to define the minimum performances for braking systems with anti-lock devices fitted to two-wheel mopeds, two-wheel motorcycles and tricycles. This does not make it compulsory to fit vehicles with an anti-lock device but if such devices are fitted to a vehicle they must meet the requirements below.
