COUNCIL DIRECTIVE 2000/29/EC

of 8 May 2000

on protective measures against the introduction into the Community of organisms harmful to plants or plant products and against their spread within the Community

(OJ L 169, 10.7.2000, p. 1)

Amended by:

COUNCIL DIRECTIVE 2000/29/EC

of 8 May 2000

on protective measures against the introduction into the Community of organisms harmful to plants or plant products and against their spread within the Community

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 37 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament (¹),

Having regard to the opinion of the Economic and Social Committee $(^2)$,

Whereas:

- Council Directive 77/93/EEC of 21 December 1976, on protective measures against the introduction into the Community of organisms harmful to plants or plant products and against their spread within the Community (³). For the sake of clarity and rationality, it has been amended on a number of occasions, often substantively (⁴). It should therefore be consolidated.
- (2) Plant production is very important to the Community.
- (3) Plant production yields are consistently reduced through the effects of harmful organisms.
- (4) The protection of plants against such organisms is absolutely necessary not only to avoid reduced yields but also to increase agricultural productivity.
- (5) Action aimed at the systematic eradication of harmful organisms within the Community, established by the plant health regime applicable in the Community as an area without internal frontiers, would have only limited effect if protective measures against their introduction into the Community were not applied at the same time.
- (6) The need for such measures has long been recognised and they have formed the subject of many national regulations and international conventions, including the International Plant Protection Convention (IPPC) of 6 December 1951 concluded at the United Nations Food and Agricultural Organisation (FAO), which is of worldwide interest.
- (7) One of the most important measures consists in listing the particularly dangerous harmful organisms whose introduction into the Community must be prohibited and also the harmful organisms whose introduction into the Member States when carried by certain plants or plant products must also be prohibited.
- (8) The presence of some of these harmful organisms, when plants or plant products are introduced from countries in which these organisms occur, cannot be effectively checked. It is therefore necessary to make minimum provision for bans on the introduction of certain plants and plant products, or to provide for special checks to be made in the producer countries.
- (9) Such plant health checks must be limited to introductions of products originating in non-member countries and to cases where

^{(&}lt;sup>1</sup>) Opinion delivered on 15 February 2000 (not yet published in the Official Journal).

⁽²⁾ OJ C 129, 27.4.1998, p. 36.

^{(&}lt;sup>3</sup>) OJ L 26, 31.1.1977, p. 20. Directive as last amended by Commission Directive 1999/53/EC (OJ L 142, 5.6.1999, p. 29).

⁽⁴⁾ See Annex VIII Part A.

there is strong evidence that one of the plant-health provisions has not been observed.

- (10) It is necessary to make provision under certain conditions permitting derogations from a certain number of provisions. Experience has shown that the same degree of urgency may be attached to a certain number of derogations as is attached to the safeguard provisions. Therefore the urgency procedure specified in this Directive should also be made applicable to these derogations.
- (11) Temporary safeguard measures not laid down in this Directive should normally be adopted by the Member State where the problem originates in the case of imminent danger of the introduction or spread of harmful organisms. The Commission should be informed of all events which require the adoption of safeguard measures.
- (12) Given the importance of the trade in plants and plant products between the French overseas departments and the remainder of the Community, it is desirable to apply the provisions of this Directive to them. In view of the special nature of the agricultural production of the French overseas departments, it is appropriate to provide for additional protective measures justified on grounds of the protection of health and life of plants therein. The provisions of this Directive should also be extended to protective measures against the introduction of harmful organisms into the French overseas departments from other parts of France.
- (13) Council Regulation (EEC) No 1911/91 of 26 June 1991 on the applications of the provisions of Community law to the Canary Islands (¹) integrates the Canary Islands into the Community customs territory and into the common policies. Under Articles 2 and 10 of that Regulation, application of the common agricultural policy is subject to the entry into force of specific supply arrangements. Such application must also be accompanied by specific measures concerning agricultural production.
- (14) Council Decision 91/314/EEC of 26 June 1991 setting up a programme of options specific to the remote and insular nature of the Canary Islands (Poseican) (²) outlines the options to be implemented to take account of the specific problems and constraints faced by those islands.
- (15) To accommodate therefore the specific plant health situation in the Canary Islands, it is appropriate to extend the application of certain measures of this Directive for a period expiring six months after the date by which Member States must have implemented forthcoming provisions dealing with the Annexes to this Directive for the protection of the French overseas departments and of the Canary Islands.
- (16) It is appropriate to adopt, for the purposes of this Directive, the model certificates approved under the IPPC, as amended on 21 November 1979, in a standardised lay-out which has been drawn up in close cooperation with international organisations. It is also appropriate to lay down certain rules concerning the conditions in accordance with which such certificates may be issued, certain rules for the use of previous models during a transitional period, and certification requirements in the case of the introduction of plants and plant products from third countries.
- (17) In the case of importations of plants or plant products from third countries the authorities responsible in such countries for issuing certificates should be, in principle, those empowered under the IPPC. It could be desirable to establish lists of these authorities for the non-contracting third countries.

^{(&}lt;sup>1</sup>) OJ L 171, 29.6.1991, p. 1. Regulation as last amended by Regulation (EC) No 2674/1999 (OJ L 326, 18.12.1999, p. 3).

^{(&}lt;sup>2</sup>) OJ L 171, 29.6.1991, p. 5.

- (18) The procedure applicable to certain types of amendments to be made to the Annexes to this Directive should be simplified.
- (19) The scope of this Directive should be clarified in respect of 'wood'. In particular, it is useful to follow the detailed descriptions of 'wood' set out in Community Regulations.
- (20) Certain seeds are not included amongst the plants, plant products and other objects, listed in the Annexes to this Directive, which must be subjected to a plant health inspection in the country of origin or the consignor country before being permitted to enter in the Community or in intra-Community trade.
- (21) It is appropriate to provide in certain cases that the official inspection of plants, plant products and other objects coming from third countries should be carried out by the Commission in the third country of origin.
- (22) The Community inspections must be made by experts employed by the Commission, and also by experts employed by Member States, whose services are made available to the Commission. The roles of these experts should be defined in connection with the activities required under the Community plant health regime.
- (23) The scope of the regime should no longer be restricted to trade between Member States and third countries, but should also be extended to marketing within single Member States.
- (24) In principle, all parts of the Community should benefit from the same degree of protection against harmful organisms. However, differences in ecological conditions and in the distribution of certain harmful organisms must be taken into account. In consequence, 'protected zones' exposed to particular plant health risks should be defined and should be accorded special protection under conditions compatible with the internal market.
- (25) The application of the Community plant health regime to the Community as an area without internal frontiers, and the introduction of protected zones make it necessary to distinguish between requirements applicable to Community products on the one hand and those applicable to imports from third countries on the other, and to identify harmful organisms relevant for protected zones.
- (26) The most appropriate place for carrying out plant-health checks is the place of production. In respect of Community products, these checks must therefore be made mandatory at the place of production and should extend to all relevant plants and plant products grown, produced, used or otherwise present there, and to the growing medium used there. For the efficient operation of such a system of checks, all producers should be officially registered.
- (27) To ensure more effective application of the Community planthealth regime in the internal market, it must be possible to use, for the purpose of plant-health checks, available official manpower other than that of Member States' official plantprotection services, whose training should be coordinated and supported financially by the Community.
- (28) If the results of the checks are satisfactory, instead of the phytosanitary certificate used in international trade, Community products will bear an agreed mark (plant passport), adapted to the type of product, in order to ensure its free movement throughout the Community or those parts thereof for which it is valid.
- (29) The official measures to be taken when the results of the checks are not satisfactory should be specified.
- (30) To ensure compliance with the Community plant-health regime in the context of the internal market, a system of official checks during marketing should be established. This system should be as reliable and uniform as possible throughout the Community

but should exclude specific controls at borders between Member States.

- (31) In the framework of the internal market, products originating in third countries should in principle be subjected to plant-health checks on first introduction into the Community. If the results of the checks are satisfactory, third country products should be issued with a plant passport ensuring free movement in the same way as Community products.
- (32) In order to confront the situation created by the completion of the internal market with the necessary guarantees, it is essential to reinforce the plant-health inspection infrastructure at national and Community level at the Community's external frontiers, paying particular attention to those Member States which, by reason of their geographical situation, are points of entry to the Community. The Commission will propose the inclusion in the General Budget of the European Union of the necessary appropriations for that purpose.
- (33) With a view to improving the efficiency of the Community plant-health regime in the context of the internal market, the Member States should harmonise the practices of the personnel responsible for plant-health. The Commission will submit, before 1 January 1993, a Community code of plant-health practice.
- (34) It is no longer possible for Member States to adopt any special plant-health provisions on the introduction into their territory of plants or plant products originating in other Member States. All provisions on plant-health requirements for plants and plant products should be established at Community level.
- (35) It is necessary to establish a system of Community financial contributions to share at Community level the burden of possible risks which might remain in trade under the Community planthealth regime.
- (36) In order to prevent infections by harmful organisms introduced from third countries, there should be a Community financial contribution aimed at reinforcing the plant health inspection infrastructure at the Community's external frontiers.
- (37) The regime should also provide for adequate contributions to certain expenses for specific measures, which Member States have adopted to control and, where applicable, eradicate infections by harmful organisms introduced from third countries or from other areas in the Community, and, where possible, to repair the damage caused.
- (38) The details of the mechanism for granting the Community financial contribution should be determined under a rapid procedure.
- (39) It must be ensured that the Commission is informed in full of the possible causes for the introduction of the harmful organisms concerned.
- (40) In particular, the Commission should monitor correct application of the Community plant-health regime.
- (41) It should be established that the introduction of the harmful organisms has been caused by inadequate examinations or inspections. Community law should apply in respect of the consequences, taking into account certain specific measures.
- (42) It is appropriate for Member States and the Commission to cooperate closely within the Standing Committee on Plant Health set up by Council Decision 76/894/EEC (¹).
- (43) This Directive must not affect the obligations of the Member States concerning the time-limits for transposition and application set out in Annex VIII, Part B,

HAS ADOPTED THIS DIRECTIVE:

Article 1

1. This Directive concerns protective measures against the introduction into the Member States from other Member States or third countries of organisms which are harmful to plants or plant products.

It also concerns:

- (a) with effect from 1 June 1993, protective measures against the spread of harmful organisms within the Community by means related to movements of plants, plant products and other related objects within a Member State;
- (b) protective measures against the introduction of harmful organisms into the French overseas departments from other parts of France and, conversely, into other parts of France from the French overseas departments;
- (c) protective measures against the introduction of harmful organisms into the Canary Islands from other parts of Spain and, conversely, into other parts of Spain from the Canary Islands;

▼<u>M4</u>

(d) the model of 'Phytosanitary Certificates' and 'phytosanitary certificates for Re-export' or their electronic equivalent issued by Member States under the International Plant Protection Convention (IPPC).

▼<u>B</u>

2. Without prejudice to the conditions to be established for the protection of the plant-health situation existing in certain regions in the Community, taking into account the differences in agricultural and ecological conditions, protective measures which are justified on grounds of the protection of health and life of plants in the French overseas departments and in the Canary Islands which are additional to those laid down in this Directive may be determined $\blacktriangleright M4$ in accordance with the procedure referred to in Article 18(2) \blacktriangleleft .

3. This Directive shall not apply to Ceuta or Melilla.

▼M4

4. The Member States shall ensure a close, rapid, immediate and effective cooperation between themselves and the Commission in relation to matters covered by this Directive. To this end, each Member State shall establish or designate a single authority, which shall be responsible, at least, for the coordination and contact in relation to such matters. The official plant protection organisation set up under the IPPC shall preferably be designated for this purpose.

This authority and any subsequent change shall be notified to the other Member States and to the Commission.

In accordance with the procedure referred to in Article 18(2) the single authority may be authorised to assign or delegate tasks of coordination or contact, insofar as they relate to distinct plant health matters covered by this Directive, to another service.

▼<u>B</u>

5. In respect of the protective measures against the introduction of harmful organisms from the French overseas departments into other parts of France and into the other Member States and against their spread within the French overseas departments, the dates referred to in paragraph 1(a) of this Article, Article 3(4), Article 4(2) and (4), Article 5(2) and (4), Article 6(5) and (6), Article 10(1) and (2) and Article 13(8), (10) and (11) shall be replaced by a date which corresponds to the end of a six-month period following the date by which Member States must implement forthcoming provisions dealing with Annexes I to V for the protection of the French overseas departments. With effect from the same date, paragraph 1(b) and paragraph 2 of this Article shall be deleted.

6. In respect of the protective measures against the introduction of harmful organisms from the Canary Islands into other parts of Spain and into the other Member States and against their spread within the Canary Islands, the dates referred to in paragraph 1(a) of this Article, Article 3(4), Article 4(2) and (4), Article 5(2) and (4), Article 6(5) and (6), Article 10(1) and (2) and Article 13(8), (10) and (11) shall be replaced by a date which corresponds to the end of a six-month period following the date by which Member States must implement forthcoming provisions dealing with Annexes I to V for the protection of the Canary Islands. With effect from the same date, paragraph 1(c) of this Article shall be deleted.

Article 2

1.

For the purposes of this Directive:

(a) ► <u>M4</u> *plants* shall be considered to mean: living plants and specified living parts thereof, including seeds; ◄

living parts of plants shall be considered to include:

- fruit, in the botanical sense, other than that preserved by deep freezing,
- vegetables, other than those preserved by deep freezing,
- tubers, corms, bulbs, rhizomes,
- cut flowers,
- branches with foliage,
- cut trees retaining foliage,

— leaves, foliage,

▼<u>B</u>

▼M4

- plant tissue cultures,
- ▼<u>M4</u>
 - live pollen,
 - bud-wood, cuttings, scions,
 - any other part of plants, which may be specified in accordance with the procedure referred to in Article 18(2).

▼B

seeds shall be considered to mean: seeds in the botanical sense, other than those not intended for planting;

- (b) plant products shall be considered to mean: products of plant origin, unprocessed or having undergone simple preparation, in so far as these are not plants;
- (c) *planting* shall be considered to mean: any operation for the placing of plants to ensure their subsequent growth, reproduction or propagation;
- (d) plants intended for planting shall be considered to mean:
 - plants which are already planted and are intended to remain planted or to be replanted after their introduction, or
 - plants which are not planted at the time of introduction, but are intended to be planted thereafter;

▼M4

 (e) *harmful organisms* shall be considered to mean: any species, strain or biotype of plant, animal or pathogenic agent injurious to plants or plant products;

▼<u>B</u>

- (f) plant passport shall be considered to mean: an official label which gives evidence that the provisions of this Directive related to plant health standards and special requirements are satisfied, and which is:
 - standardised at Community level for different types of plants or plant products, and

 prepared by the responsible official body in a Member State and issued in accordance with the implementing rules governing the details of the procedure for issuing plant passports.

For specific types of product, official agreed marks other than a label may be decided on in accordance with the procedure laid down in \blacktriangleright M4 Article 18(2) \blacktriangleleft .

The standardisation shall be established in accordance with the procedure laid down in Article 8. Under this standardisation, different marks shall be determined for plant passports which are not valid, in accordance with the second subparagraph of Article 10(1), for all parts of the Community;

- (g) the responsible official bodies in a Member State shall be:
 - (i) the official plant protection $\blacktriangleright M4$ organisation(s) \blacktriangleleft of a Member State referred to in Article 1(4); or
 - (ii) any State authority established
 - at national level,
 - or, under the supervision within the limits set by the constitution of the Member State concerned, of national authorities at regional level.

The responsible official bodies in a Member State may, in accordance with national legislation, delegate the tasks provided for in this Directive to be accomplished under their authority and supervision to any legal person, whether governed by public or by private law, which under its officially approved constitution is charged exclusively with specific public functions, provided that such person, and its members, has no personal interest in the outcome of the measures it takes.

The Member States shall ensure that there is close cooperation between the bodies referred to in point (ii) of the first subparagraph and those referred to in point (i) thereof.

Moreover, $\blacktriangleright \underline{M4}$ in accordance with the procedure referred to in Article 18(2) \triangleleft , other legal persons established on behalf of the body or bodies referred to in point (i) of the first subparagraph and acting under the authority and supervision of such body may be approved, provided that such person has no personal interest in the outcome of the measures it takes.

▼<u>M4</u>

The single authority referred to in Article 1(4) shall inform the Commission of the responsible official bodies in the Member State concerned. The Commission shall forward that information to the other Member States.

▼<u>B</u>

- (h) *protected zone* shall be considered to mean a zone in the Community:
 - in which one or more harmful organisms referred to in this Directive, which are established in one or more parts of the Community, are not endemic or established despite favorable conditions for them to establish themselves there,
 - in which there is a danger that certain harmful organisms will establish, given propitious ecological conditions, for particular crops, despite the fact that these organisms are not endemic or established in the Community,

and which has been recognised, $\blacktriangleright \underline{M4}$ in accordance with the procedure referred to in Article 18(2) \triangleleft , as fulfilling the conditions set out in the first and second indents and, in the case referred to in the first indent, at the request of the Member State(s) concerned and on the grounds that the results of appropriate surveys which have been monitored by the experts referred to in Article 21 under the procedure laid down therein show no evidence to the contrary. In the eventuality referred to in the second indent, surveys are optional.

A harmful organism shall be considered to be established in an area if it is known to occur there and if either no official measures have been taken there with a view to its eradication or such measures have proved, for a period of at least two successive years, to be ineffective.

The Member State(s) concerned shall conduct, with respect to the case provided for in the first indent of the first subparagraph, regular and systematic official surveys on the presence of organisms in respect of which the protected zone has been recognised. Each finding of such organisms shall immediately be notified $\blacktriangleright M4$ in writing \blacktriangleleft to the Commission. The risk arising from such finding shall be assessed by the Standing Committee on Plant Health and appropriate action decided on $\blacktriangleright M4$ in accordance with the procedure referred to in Article 18(2) \blacktriangleleft .

The details of the surveys referred to in the first and third subparagraphs may be established $\blacktriangleright \underline{M4}$ in accordance with the procedure referred to in Article $18(2) \blacktriangleleft$, account being taken of sound scientific and statistical principles.

The results of the above surveys shall be notified $\blacktriangleright \underline{M4}$ in writing \blacktriangleleft to the Commission. The Commission shall forward this information to the other Member States.

The Commission shall, before 1 January 1998, submit a report to the Council on the operation of the system of protected zones together, if necessary, with any appropriate proposals;

(i) a statement or measure shall be considered official if made or taken, without prejudice to the provisions of Article 21:

▼M4

▼B

— by representatives of the official national plant protection organisation of a third country or, under their responsibility, by other public officers who are technically qualified and duly authorised by that official national plant protection organisation, in the case of statements or measures related to the issuing of the phytosanitary certificates and phytosanitary certificates for re-exports, or their electronic equivalent;

— either by such representatives or public servants or by qualified agents employed by one of the responsible official bodies of a Member State, in all other cases, provided that such agents have no personal interest in the outcome of the measures they take and satisfy minimum standards of qualification.

Member States shall ensure that their public servants and qualified agents have the qualifications necessary for the proper application of this Directive. $\blacktriangleright \underline{M4}$ In accordance with the procedure referred to in Article 18(2) \triangleleft , guidelines may be established for such qualifications.

The Commission shall, acting within the Standing Committee on Plant Health, draw up Community programmes, the implementation of which it shall monitor, regarding the further training of the public servants and qualified agents concerned, in an effort to raise the knowledge and experience acquired in the national context to the level of the aforementioned qualifications. It shall contribute to the financing of this further training and shall propose the inclusion of the necessary appropriations for that purpose in the Community budget;

▼<u>M4</u>

- (j) point of entry shall be considered to mean: the place where plants, plant products or other objects are brought for the first time into the customs territory of the Community: the airport in the case of air transport, the port in the case of maritime or fluvial transport, the station in the case of railway transport, and the place of the customs office responsible for the area where the Community inland frontier is crossed, in the case of any other transport;
- (k) official body of point of entry shall be considered to mean: the responsible official body in a Member State in charge of the point of entry;

- (1) *official body of destination* shall be considered to mean: the responsible official body in a Member State in charge of the area where the 'customs office of destination' is situated;
- (m) *customs office of point of entry* shall be considered to mean: the office of the point of entry as defined in (j) above;
- (n) customs office of destination shall be considered to mean: the office of destination within the meaning of Article 340b(3) of Commission Regulation (EEC) No 2454/93 (¹);
- (o) *lot* shall be considered to mean: a number of units of a single commodity, identifiable by its homogeneity of composition and origin, and forming part of a consignment;
- (p) consignment shall be considered to mean: A quantity of goods being covered by a single document required for customs formalities or for other formalities, such as a single phytosanitary certificate or a single alternative document or mark; a consignment may be composed of one or more lots;
- (q) customs-approved treatment or use shall be considered to mean: the customs-approved treatments or uses referred to in point 15 of Article 4 of Council Regulation (EEC) No 2913/92 of 12 October 1992 establishing the Community Customs Code (²) (hereafter referred to as the Community Customs Code);
- (r) *transit* shall be considered to mean: the movement of goods which are subject to customs supervision from one point to another within the customs territory of the Community as referred to in Article 91 of Regulation (EEC) No 2913/92.

▼<u>B</u>

2. Save where it is expressely provided otherwise, the provisions of this Directive concern wood only in so far as it retains all or part of its natural round surface, with or without bark, or as it is in the form of chips, particles, sawdust, wood waste or scrap.

Save for the purpose of the provisions relating to Annex V, wood, whether satisfying the conditions referred to in the first subparagraph or not, is also concerned where it is in the form of dunnage, spacers, pallets or packing material which are actually in use in the transport of objects of all kinds, provided that it presents a plant health risk.

Article 3

1. Member States shall ban the introduction into their territory of the harmful organisms listed in Annex I, Part A.

2. Member States shall ban the introduction into their territory of the plants and plant products listed in Annex II, Part A, where they are contaminated by the relevant harmful organisms listed in that part of the Annex.

▼M4

3. Paragraphs 1 and 2 shall not apply in accordance with conditions which may be determined in accordance with the procedure referred to in Article 18(2), in the case of slight contamination of plants other than those intended for planting by harmful organisms listed in Annex I, Part A, or in Annex II, Part A, or in the case of appropriate tolerances established for harmful organisms listed in Annex II, Part A, Section II as regards plants intended for planting which have previously been selected in agreement with the authorities representing the Member States in the field of plant health, and based on a relevant pest risk analysis.

OJ L 253, 11.10.1993, p. 1. Regulation as last amended by Regulation (EC) No 2787/2000 (OJ L 330, 27.12.2000, p. 1).

^{(&}lt;sup>2</sup>) OJ L 302, 19.10.1992, p. 1. Regulation as last amended by Regulation (EC) No 2700/2000 of the European Parliament and of the Council (OJ L 311, 12.12.2000, p. 17).

4. With effect from 1 June 1993, Member States shall provide that paragraphs 1 and 2 shall be applied also to the spread of the harmful organisms concerned by means connected with the movement of plants, plant products or other objects within the territory of a Member State.

5. Member States shall ban from 1 June 1993 the introduction into and the spread within the relevant protected zones, of:

- (a) the harmful organisms listed in Annex I, Part B;
- (b) the plants and plant products listed in Annex II, Part B where they are contaminated by the relevant harmful organisms listed therein.

6. $\blacktriangleright \underline{M4}$ In accordance with the procedure referred to in Article 18(2) \triangleleft :

- (a) the harmful organisms listed in Annexes I and II shall be subdivided as follows:
 - organisms not known to occur in any part of the Community and relevant for the entire Community shall be listed in Annex I, Part A, Section I and Annex II, Part A, Section I respectively,
 - organisms known to occur in the Community but not endemic or established throughout the Community and relevant for the entire Community shall be listed in Annex I, Part A, Section II and Annex II, Part A, Section II respectively,
 - the other organisms shall be listed in Annex I, Part B and Annex II, Part B respectively against the protected zone for which they are relevant;
- (b) harmful organisms endemic or established in one or more parts of the Community shall be deleted, save those referred to in the second and third indents of point (a);
- (c) the titles of Annexes I and II, as well as the different parts and sections thereof, shall be adapted in accordance with points (a) and (b).

▼<u>M4</u>

7. In accordance with the procedure referred to in Article 18(2), implementing provisions may be adopted to lay down conditions for the introduction into the Member States and the spread within the Member States of:

- (a) organisms which are suspected of being harmful to plants or plant products but are not listed in Annexes I and II;
- (b) organisms, which are listed in Annex II, but which occur on plants or plant products other than those listed in that Annex, and which are suspected of being harmful to plants or plant products;
- (c) organisms, which are listed in Annexes I and II, which are in an isolated state and which are considered to be harmful in that state to plants or plant products.

8. Paragraphs 1 and 5(a) and paragraph 2 and 5(b) and paragraph 4 shall not apply, in accordance with the conditions which shall be determined pursuant to the procedure referred to in Article 18(2), for trial or scientific purposes and for work on varietal selections.

9. After the measures provided for in paragraph 7 have been adopted, that paragraph shall not apply, in accordance with the conditions which shall be determined pursuant to the procedure referred to in Article 18(2), for trial or scientific purposes and for work on varietal selections.

▼<u>B</u>

Article 4

1. Member States shall ban the introduction into their territory of the plants or plant products listed in Annex III, Part A where they originate in the relevant countries referred to in that part of the Annex.

2. Member States shall provide that, from 1 June 1993, the introduction of plants, plant products and other objects listed in Annex III, Part

B into the relevant protected zones located in their territory is prohibited.

3. $\blacktriangleright \underline{M4}$ In accordance with the procedure referred to in Article 18(2) \triangleleft , Annex III shall be revised in such a way that Part A contains plants, plant products and other objects which constitute a plant-health risk for all parts of the Community, and Part B contains plants, plant products and other objects which constitute a plant-health risk only for protected zones. The protected zones shall be specified there.

4. With effect from 1 June 1993, paragraph 1 shall no longer apply to plants, plant products and other objects originating in the Community.

5. Paragraphs 1 and 2 shall not apply, in accordance with conditions which shall be determined $\blacktriangleright \underline{M4}$ in accordance with the procedure referred to in Article 18(2) \blacktriangleleft , for trials or scientific purposes and for work on varietal selections.

6. Provided that there is no risk of harmful organisms spreading, a Member State may provide that paragraphs 1 and 2 shall not apply in individual specified cases to plants, plant products and other objects which are grown, produced or used in its immediate frontier zone with a third country and introduced into that Member State in order to be worked in nearby locations in the frontier zone of its territory.

When granting such a derogation, the Member State shall specify the location and the name of the person working it. Such details, which shall be updated regularly, shall be available to the Commission.

Plants, plant products and other objects which form the subject of a derogation under the first subparagraph shall be accompanied by documentary evidence of the location in the relevant third country from which the said plants, plant products and other objects originate.

Article 5

1. Member States shall ban the introduction into their territory of the plants, plant products and other objects listed in Annex IV, Part A, unless the relevant special requirements indicated in that part of the Annex are met.

2. Member States shall ban from 1 June 1993 the introduction into and the movement within the protected zones of the plants, plant products and other objects listed in Annex IV, Part B, unless the relevant special requirements indicated in that part of the Annex are met.

3. $\blacktriangleright \underline{M4}$ In accordance with the procedure referred to in Article 18(2) \blacktriangleleft , Annex IV shall be amended in accordance with the criteria laid down in Article 3(6).

4. With effect from 1 June 1993, Member States shall provide that paragraph 1 shall also apply to the movement of plants, plant products and other objects within the territory of a Member State, without prejudice however to Article 6(7). This paragraph and paragraphs 1 and 2 shall not apply to the movement of small quantities of plants, plant products, foodstuffs or animal feedingstuffs where they are intended for use by the owner or recipient for non-industrial and non-commercial purposes or for consumption during transport, provided that there is no risk of harmful organisms spreading.

5. Paragraphs 1, 2 and 4 shall not apply, in accordance with the conditions which shall be determined $\blacktriangleright \underline{M4}$ in accordance with the procedure referred to in Article 18(2) \blacktriangleleft , for trial or scientific purposes and for work on varietal selections.

6. Provided that there is no risk of harmful organisms spreading, a Member State may provide that paragraphs 1, 2 and 4 shall not apply in individual specified cases to plants, plant products and other objects which are grown, produced or used in its immediate frontier zone with a third country and introduced into that Member State in order to be worked in nearby locations in the frontier zone of its territory.

When granting such a derogation, the Member State shall specify the location and the name of the person working it. Such details which shall be updated regularly, shall be available to the Commission.

Plants, plant products and other objects which form the subject of a derogation under the first subparagraph shall be accompanied by documentary evidence of the location in the relevant third country from which the said plants, plant products and other objects originate.

Article 6

1. Member States shall lay down, at least in respect of the introduction into another Member State of the plants, plant products and other objects listed in Annex V, Part A, that the latter and their packaging shall be meticulously examined on an official basis, either in their entirety or by representative sample, and that, if necessary, the vehicles transporting them shall also be officially examined in order to make sure:

- (a) that they are not contaminated by the harmful organisms listed in Annex I, Part A;
- (b) in the case of the plants and plant products listed in Annex II, Part A, that they are not contaminated by the relevant harmful organisms listed in that part of the Annex;
- (c) in the case of the plants, plant products and other objects listed in Annex IV, Part A, that they comply with the relevant special requirements indicated in that part of the Annex.

2. As soon as the measures provided for in Article 3(6)(a) and in Article 5(3) are adopted, paragraph 1 of this Article shall apply only in respect of Annex I, Part A, Section II, Annex II, Part A, Section II and Annex IV, Part A, Section II. Where, in the course of the examination carried out in accordance with this provision, harmful organisms listed in Annex I, Part A, Section I or Annex II, Part A, Section I are detected, the conditions referred to in Article 10 are deemed not to be fulfilled.

3. Member States shall lay down the inspection measures referred to in paragraph 1 in order to ensure compliance with Article 3(4), (5) and (7) or Article 5(2), where the Member State of destination avails itself of one of the options listed in the abovementioned Articles.

4. Member States shall lay down that the seeds referred to in Annex IV, Part A, which are to be introduced into another Member State shall be officially examined in order to make sure that they comply with the relevant special requirements listed in that part of the Annex.

5. With effect from 1 June 1993, and without prejudice to paragraph 7, paragraphs 1, 3 and 4 shall also apply to the movement of plants, plant products and other objects within the territory of a Member State. Paragraphs 1, 3 and 4 shall not apply, as regards the harmful organisms listed in Annex I, Part B, or Annex II, Part B, and the special requirements set out in Annex IV, Part B, to the movement of plants, plant products or other objects through or outside a protected zone.

The official examinations referred to in paragraphs 1, 3 and 4 shall be carried out in accordance with the following provisions:

- (a) They shall extend to the relevant plants or plant products grown, produced or used by the producer or otherwise present on his premises as well as to the growing medium used there.
- (b) They shall be made on the premises, preferably at the place of production.
- (c) They shall be made regularly at appropriate times at least once a year, and at least by visual observation, without prejudice to the special requirements listed in Annex IV; further action may be taken where this is provided for under paragraph 8.

Any producer for whom the official examination referred to in the second subparagraph is required under paragraphs 1 to 4 shall be listed in an official register under a registration number by which to identify

him. The official registers thus established shall be accessible to the Commission on request.

The producer is subject to certain obligations established in accordance with paragraph 8. In particular, he shall immediately notify the responsible official body of the Member State concerned of any unusual occurrence of harmful organisms, symptoms or any other plant abnormality.

Paragraphs 1, 3 and 4 shall not apply to the movement of small quantities of plants, plant products, foodstuffs or animal feedingstuffs where they are intended for use by the owner or recipient for non-industrial and non-commercial purposes or for consumption during transport, provided that there is no risk of harmful organisms spreading.

6. With effect from 1 June 1993, Member States shall provide that producers of certain plants, plant products or other objects not listed in Annex V, Part A, specified in accordance with paragraph 8, or collective warehouses or dispatching centres in the production zone, shall also be listed in an official local, regional or national register in accordance with the third subparagraph of paragraph 5. They may at any time be subjected to the examinations provided for in the second subparagraph of paragraph 5.

In accordance with paragraph 8, a system may be set up so that certain plants, plant products and other objects may, if necessary and in so far as possible, be traced back to their origins, bearing in mind the nature of the production or trading conditions.

7. Member States may, in so far as no spreading of harmful organisms is to be feared, exempt

- small producers or processors whose entire production and sale of relevant plants, plant products and other objects are intended for final usage by persons on the local market and who are not professionally involved in plant production (local movement) from official registration as laid down in paragraphs 5 and 6, or
- the local movement of plants, plant products and other objects originating from producers so exempted from the official examination required under paragraphs 5 and 6.

The provisions of this Directive on local movement shall be reviewed by the Council before 1 January 1998 on the basis of a Commission proposal and in the light of experience gained.

8. $\blacktriangleright \underline{M4}$ In accordance with the procedure referred to in Article 18(2) $\overline{\triangleleft}$, implementing provisions shall be adopted relating to:

- less stringent conditions on the movement of plants, plant products and other objects within a protected zone established for the said plants, plant products and other objects in respect of one or more harmful organisms,
- guarantees in respect of the movement of plants, plant products and other objects through a protected zone established for the said plants, plant products and other objects in respect of one or more harmful organisms,
- the frequency and timing of the official examination, including further action referred to in paragraph 5, second subparagraph, (c),
- the obligations on registered producers referred to in paragraph 5, fourth subparagraph,
- the specification of the products referred to in paragraph 6, and the products for which the system introduced in paragraph 6 is envisaged,
- other requirements regarding the exemption referred to in paragraph 7, in particular as regards the concepts of 'small producer' and 'local market' and the relevant procedures.

9. Implementing rules related to the registration procedure and the registration number referred to in the third subparagraph of paragraph 5, may be adopted $\blacktriangleright \underline{M4}$ in accordance with the procedure referred to in Article 18(2) \blacktriangleleft .

▼<u>M4</u>

▼<u>B</u>

Article 10

1. With effect from 1 June 1993, where it is considered, on the basis of the examination provided for in Article 6(1), (3) and (4) and carried out in accordance with Article 6(5), that the conditions of those paragraphs are fulfilled, a plant passport shall be issued in accordance with provisions which may be adopted under paragraph 4 of this Article M4 - 4.

▼<u>M4</u>

However, in the case of seeds mentioned in Article 6(4), a plant passport need not be issued, where it is ensured in accordance with the procedure referred to in Article 18(2) that the documents issued in accordance with the Community provisions applicable to the marketing of officially certified seed provide evidence for the compliance with the requirements referred to in Article 6(4). In such case, the documents shall be considered for all purposes to be plant passports within the meaning of Article 2(1)(f).

▼<u>B</u>

If the examination does not concern conditions relevant to the protected zones, or if it is considered that such conditions are not fulfilled, the plant passport issued shall not be valid for those zones and it shall bear the mark reserved for such cases, pursuant to Article 2(1)(f).

2. With effect from 1 June 1993, plants, plant products and other objects listed in Annex V, Part A, Section $I \triangleright \underline{M4}$ and seeds mentioned in Article 6(4) \blacktriangleleft may not be moved within the Community, other than locally within the meaning of Article 6(7), unless a plant passport valid for the territory concerned and issued in accordance with paragraph 1 is attached to them, to their packaging or to the vehicles transporting them.

With effect from 1 June 1993, plants, plant products and other objects listed in Annex V, Part A, Section II $\blacktriangleright M4$ and seeds mentioned in Article 6(4) \blacktriangleleft may not be introduced into a specified protected zone or move therein, unless a plant passport valid for that zone and issued in accordance with paragraph 1 is attached to them, to their packaging or to the vehicles transporting them. If the conditions laid down in Article 6(8) with regard to transport through protected zones are fulfilled, this subparagraph shall not apply.

The first and second subparagraphs shall not apply to the movement of small quantities of plants, plant products, foodstuffs or animal feedingstuffs where they are intended for use by the owner or recipient for non-industrial and non-commercial purposes or for consumption during transport, provided that there is no risk of harmful organisms spreading.

3. A plant passport may be replaced at a later date and in any part of the Community by another plant passport, in accordance with the following provisions:

- a plant passport may be replaced only where consignments are divided up or where several consignments or parts thereof are combined or where the plant-health status of consignments changes, without prejudice to the particular requirements provided for in Annex IV, or in other cases specified in accordance with paragraph 4,
- the replacement may take place only at the request of a natural or legal person, whether a producer or not, listed in an official register, in accordance with the third subparagraph of Article 6(5), *mutatis mutandis*,
- the replacement passport may be prepared only by the responsible official body of the area in which the requesting premises are situated and only if the identity of the product concerned and the absence of any risk of infection due to harmful organisms listed in Annexes I and II since dispatch by the producer can be guaranteed,

- the replacement procedure must comply with the provisions which may be adopted under paragraph 4,
- the replacement passport must bear a special mark, specified in accordance with paragraph 4 and including the number of the original producer and, if there was a change in plant-health status, of the operator responsible for that change.

4. $\blacktriangleright \underline{M4}$ In accordance with the procedure referred to in Article 18(2) \triangleleft , implementing provisions may be adopted for:

- the detailed procedures for issuing plant passports as laid down in paragraph 1,
- the conditions under which a plant passport may be replaced in accordance with paragraph 3, first indent,
- the details of the procedure for the replacement passport as laid down in paragraph 3, third indent,
- the special mark required for the replacement passport as laid down in paragraph 3, fifth indent.

Article 11

1. Where it is not considered, on the basis of the examination provided for in Article 6(1), (3) and (4) and carried out in accordance with Article 6(5), that the conditions in those paragraphs are fulfilled, a plant passport shall not be issued, without prejudice to paragraph 2 of this Article.

2. In the special cases where it is established, taking into account the nature of the findings made in the examination concerned, that part of the plants or plant products grown, produced or used by the producer or otherwise present on his premises, or part of the growing medium used there, cannot present any risk of spreading harmful organisms, paragraph 1 shall not apply to that part \blacktriangleright <u>M4</u> and a plant passport may be used \blacktriangleleft .

3. To the extent that paragraph 1 applies, the plants, plant products or growing medium concerned shall be the subject of one or more of the following official measures:

- appropriate treatment, followed by the issue of the appropriate plant passport in accordance with Article 10 if it is considered that, as a result of the treatment, the conditions are fulfilled,
- a permit for movement, under official control, to zones where they do not present an additional risk,
- a permit for movement, under official control, to places for industrial processing,
- destruction.

▶ <u>M4</u> In accordance with the procedure referred to in Article 18(2) ◀, implementing provisions may be adopted concerning:

- the conditions under which one or more of the measures referred to in the first subparagraph must or must not be adopted,
- the particular features of and conditions for such measures.

4. To the extent that paragraph 1 applies, the activities of the producer shall be totally or partially suspended until it is established that the risk of spreading harmful organisms is eliminated. As long as this suspension lasts, Article 10 shall not apply.

5. Where it is considered, on the basis of the official examination carried out in accordance with Article 6(6), that products referred to therein are not free of the harmful organisms listed in Annexes I and II, paragraphs 2, 3 and 4 of this Article shall apply *mutatis mutandis*.

▼<u>M4</u>

Article 12

1. Member States shall organise official checks to ensure compliance with the provisions of this Directive, in particular with Article 10(2), which shall be carried out at random and without any discrimi-

nation in respect of the origin of the plants, plant products or other objects, and in accordance with the following provisions:

- occasional checks, at any time and at any place where plants, plant products or other objects are moved,
- occasional checks on premises where plants, plant products or other objects are grown, produced, stored or offered for sale, as well as on the premises of purchasers,
- occasional checks at the same time as any other documentary check, which is carried out for reasons other than plant health.

The checks must be regular in premises listed in an official register in accordance with Article 10(3) and Article 13c(1b), and may be regular in premises listed in an official register in accordance with Article 6(6).

The checks must be targeted if facts have come to light to suggest that one or more provisions of this Directive have not been complied with.

2. Commercial purchasers of plants, plant products or other objects shall, as final users professionally engaged in plant production, retain the related plant passports for at least one year and enter the references in their records.

Inspectors shall have access to the plants, plant products or other objects at all stages in the production and marketing chain. They shall be entitled to make any investigation necessary for the official checks concerned, including those related to the plant passports and the records.

3. The Member States may be assisted in the official checks by the experts referred to in Article 21.

4. Where it is established, through the official checks carried out in accordance with paragraphs 1 and 2, that plants, plant products or other objects present a risk of spreading harmful organisms, they shall be the subject of official measures in accordance with Article 11(3).

Without prejudice to the notifications and information required under Article 16, Member States shall ensure, where the plants, plant products or other objects concerned come from another Member State, that the single authority of the receiving Member State informs immediately the single authority of that Member State and the Commission of the findings and of the official measures which it intends to take or has taken. In accordance with the procedure referred to in Article 18(2), a standardised information system may be set up.

Article 13

- 1. Member States shall ensure, without prejudice to:
- the provisions of Article 3(3),13b(1), (2), (3), (4) and (5),
- the specific requirements and conditions laid down in derogations adopted pursuant to Article 15(1), in equivalency measures adopted pursuant to Article 15(2), or in emergency measures adopted pursuant to Article 16, and
- specific agreements concluded on matters dealt with in this Article between the Community and one or more third countries,

that plants, plant products or other objects, listed in Annex V, Part B, which come from a third country and are brought into the customs territory of the Community, shall, from the time of their entry, be subject to customs supervision pursuant to Article 37(1) of the Community Customs Code and also to supervision by the responsible official bodies. They may only be placed under one of the customs procedures as specified in Article 4(16)(a), (d), (e), (f), (g) of the Community Customs Code, if the formalities as specified in Article 13a have been completed in accordance with the provisions of Article 13c(2), such as to conclude, as a result of these formalities and as far as can be determined:

(i) — that the plants, plant products or other objects are not contaminated by harmful organisms listed in Annex I, Part A, and

- in the case of plants or plant products listed in Annex II, Part A, that they are not contaminated by the relevant harmful organisms listed in that Annex, and
- in the case of plants, plant products or other objects listed in Annex IV, Part A, that they comply with the relevant special requirements indicated in that Annex, or, where applicable, with the option declared in the certificate pursuant to Article 13a(4)(b), and
- (ii) that the plants, plant products or other objects are accompanied by the respective original of the required official 'phytosanitary certificate' or 'phytosanitary certificate for re-export' issued in accordance with the provisions laid down in Article 13a(3) and (4), or, where relevant, that the original of alternative documents or marks as specified and permitted in implementing provisions accompany, or are attached to, or otherwise put on, the object concerned.

Electronic certification may be recognised, provided that the respective conditions specified in implementing provisions are met. Officially certified copies may also be recognised in exceptional cases which shall be specified in implementing provisions.

The implementing provisions referred to in (ii) above may be adopted in accordance with the procedure referred to in Article 18(2).

2. Paragraph 1 shall apply, in cases of plants, plant products or other objects intended for a protected zone, in respect of harmful organisms and of special requirements listed in Annex I, Part B, Annex II, Part B and Annex IV, Part B respectively, for that protected zone.

3. Member States shall provide that plants, plant products or objects other than those referred to in paragraph 1 or 2, which come from a third country and are brought into the customs territory of the Community, may, from the time of their entry, be subject to supervision by the responsible official bodies, in respect of the first, second or third indent of paragraph 1(i). These plants, plant products or objects include wood in the form of dunnage, spacers, pallets or packing material, which are actually in use in the transport of objects of all kinds.

Where the responsible official body makes use of that faculty, the plants, plant products or objects concerned shall remain under the supervision referred to in paragraph 1, until the relevant formalities have been completed such as to conclude, as a result for these formalities and as far as can be determined, that they comply with the relevant requirements laid down in or under this Directive.

Implementing provisions as regards type of information and the means of transmission thereof to be supplied by importers, or their customs representatives, to the responsible official bodies, as regards the plants, plant products or objects including the different types of wood, as referred to in the first subparagraph, shall be adopted in accordance with the procedure referred to in Article 18(2).

4. Without prejudice to Article 13c(2)(a) Member States shall, if there is a risk of spread of harmful organisms, also apply paragraphs 1, 2 and 3 to plants, plant products or other objects being placed under one of the customs-approved treatments or uses as specified in Article 4(15)(b), (c), (d), (e) of the Community Customs Code or under the Customs procedures as specified in Article 4(16)(b), (c) of that Code.

Article 13a

- 1. (a) The formalities referred to in Article 13(1) shall consist of meticulous inspections by the responsible official bodies on at least:
 - (i) each consignment declared, under the customs formalities, to consist of or to contain plants, plant products or other objects, referred to in Article 13(1), (2) or (3) under the respective conditions, or
 - (ii) in the case of a consignment which is composed of different lots, each lot declared, under the customs formalities, to

consist of, or to contain, such plants, plant products or other objects.

- (b) The inspections shall determine whether:
 - (i) the consignment or lot is accompanied by the required certificates, alternative documents or marks, as specified in Article 13(1)(ii) (documentary checks),
 - (ii) in its entirety or on one or more representative samples, the consignment or lot consists of, or contains the plants, plant products or other objects, as declared on the required documents (identity checks), and
 - (iii) in its entirety or on one or more representative samples, including the packaging and, where appropriate, the transport vehicles, the consignment or lot or their wood packing material comply with the requirements laid down in this Directive, as specified in Article 13(1)(i) (plant health checks), and whether Article 16(2) applies.

2. The identity checks and plant health checks shall be carried out at reduced frequency, if:

- activities of inspection on plants, plant products or other objects in the consignment or lot were already carried out in the consignor third country under technical arrangements referred to in Article 13b(6), or
- the plants, plant products or other objects in the consignment or lot are listed in the implementing provisions adopted for this purpose pursuant to paragraph 5(b), or
- the plants, plant products or other objects in the consignment or lot came from a third country for which in or under comprehensive international phytosanitary agreements based on the principle of reciprocal treatment between the Community and a third country, provision for a reduced frequency of identity and plant health checks is mentioned,

unless there is a serious reason to believe that the requirements laid down in this Directive are not complied with.

The plant health checks may also be carried out at reduced frequency, if there is evidence, collated by the Commission and based on experience gained from earlier introduction of such material of the same origin into the Community as confirmed by all Member States concerned, and after consultation within the Committee referred to in Article 18, to believe that the plants, plant products or other objects in the consignment or lot comply with the requirements laid down in this Directive, provided that the detailed conditions specified in implementing provisions pursuant to paragraph 5(c) are met.

3. The official 'phytosanitary certificate' or 'phytosanitary certificate for re-export' referred to in Article 13(1)(ii) shall have been issued in at least one of the official languages of the Community and in accordance with the laws or regulations of the third country of export or re-export which have been adopted, whether a contracting party or not, in compliance with the provisions of the IPPC. It shall be addressed to the 'Plant Protection Organisations of the Member States of the European Community' as referred to in Article 1(4), first subparagraph, last sentence.

The certificate shall not have been made out more than 14 days before the date on which the plants, plant products or other objects covered by it have left the third country in which it was issued.

It shall contain information in accordance with the models specified in the Annex to the IPPC, irrespective of its format.

It shall be in one of the models determined by the Commission pursuant to paragraph 4. The certificate shall have been issued by authorities empowered to this effect on the basis of laws or regulations of the third country concerned, as submitted, in accordance with the provisions of the IPPC, to the Director General of FAO, or, in the case of third countries non-party to the IPPC, to the Commission. The

Commission shall inform the Member States of the submissions received.

- 4. (a) In accordance with the procedure referred to in Article 18(2), the acceptable models as specified in the different versions of the Annex to the IPPC shall be determined. In accordance with the same procedure, alternative specifications for the 'phytosanitary certificates' or 'phytosanitary certificates for re-export' may be laid down for third countries non-party to the IPPC.
 - (b) Without prejudice to Article 15(4), the certificates, in the case of plants, plant products or other objects listed in Annex IV Part A section I or Part B, shall specify, under the heading 'Additional Declaration' and where relevant, which special requirement out of those listed as alternatives in the relevant position in the different parts of Annex IV have been complied with. This specification shall be given through reference to the relevant position in Annex IV.
 - (c) In the case of plants, plant products or other objects, to which special requirements laid down in Annex IV, Part A, or Part B apply, the official 'phytosanitary certificate' referred to in Article 13(1)(ii) shall have been issued in the third country in which the plants, plant products or other objects originate (country of origin).
 - (d) However, in the case where the relevant special requirements can be fulfilled also at places other than that of origin, or where no special requirement applies, the 'phytosanitary certificate' may have been issued in the third country where the plants, plant products or other objects come from (consignor country).

5. In accordance with the procedure referred to in Article 18(2), implementing provisions may be adopted to:

- (a) lay down procedures for the carrying out of plant health checks referred to in paragraph 1(b), point (iii), including minimum numbers and minimum sizes of samples,
- (b) establish lists of plants, plant products or other objects on which plant health checks shall be carried out at reduced frequency pursuant to paragraph 2, first subparagraph, second indent,
- (c) specify the detailed conditions for the evidence referred to in paragraph 2, second subparagraph, and the criteria for the type and level of reduction of the plant health checks.

The Commission may include guidelines in respect of paragraph 2 in the recommendations referred to in Article 21(6).

Article 13b

1. Member States shall ensure that consignments or lots which come from a third country, but are not declared, under the customs formalities, to consist of, or to contain plants, plant products or other objects listed in Annex V, Part B are also inspected by the responsible official bodies, where there is serious reason to believe that such plants, plant products or other objects are present.

Member States shall ensure that whenever a customs inspection reveals that a consignment or lot coming from a third country consists of or contains non-declared plants, plant products or other objects listed in Annex V, Part B, the inspecting customs office shall immediately inform the official body of its Member State, under the cooperation referred to in Article 13c(4).

If, at the outcome of the inspection by the responsible official bodies, doubts remain in respect of the identity of the commodity, in particular concerning the genus or species of plants or plant products or their origin, the consignment shall be considered to contain plants, plant products or other objects as listed in Annex V, Part B.

2. Provided that there is no risk of harmful organisms spreading in the Community:

- (a) Article 13(1) shall not apply to the entry, into the Community, of plants, plant products or other objects which are moved from one point to another within the Community passing through the territory of a third country without any change in their customs status (internal transit),
- (b) Article 13(1) and Article 4(1) shall not apply to the entry, into the Community, of plants, plant products or other objects which are moved from one point to another within one or two third countries passing through the territory of the Community under appropriate customs procedures without any change in their customs status.

3. Without prejudice to the provisions of Article 4 in respect of Annex III, and provided that there is no risk of harmful organisms spreading in the Community, Article 13(1) need not apply to the entry, into the Community, of small quantities of plants, plant products, food-stuffs or animal feedingstuffs as far as they relate to plants or plant products, where they are intended for use by the owner or recipient for non-industrial and non-commercial purposes, or for consumption during transport.

In accordance with the procedure referred to in Article 18(2) detailed rules may be adopted specifying the conditions for the implementation of this provision, including the determination of 'small quantities'.

4. Article 13(1) shall not apply, under specified conditions, to the entry, into the Community, of plants, plant products or other objects for use in trials, for scientific purposes or for work on varietal selections. The specified conditions shall be determined in accordance with the procedure referred to in Article 18(2).

5. Provided that there is no risk of harmful organisms spreading in the Community, a Member State may adopt a derogation that Article 13(1) shall not apply in specified individual cases to plants, plant products or other objects which are grown, produced or used in its immediate frontier zone with a third country and introduced into that Member State in order to be worked in nearby locations in the frontier zone of its territory.

When granting such a derogation, the Member State shall specify the location and the name of the person working it. Such details, which shall be updated regularly, shall be made available to the Commission

Plants, plant products and other objects which form the subject of a derogation under the first subparagraph shall be accompanied by documentary evidence of the location in the relevant third country from which the said plants, plant products and other objects originate.

6. It may be agreed, in technical arrangements made between the Commission and the competent bodies in certain third countries and approved in accordance with the procedure referred to in Article 18(2), that activities referred to in Article 13(1)(i) may also be carried out under the authority of the Commission and in accordance with the relevant provisions of Article 21 in the consignor third country, in cooperation with the official plant protection organisation of that country.

Article 13c

1. (a) The formalities as specified in Article 13a(1), the inspections as provided for in Article 13b(1) and the checks for compliance with the provisions of Article 4 in respect of Annex III shall be carried out in connection with, as specified in paragraph 2, the formalities required for the placing under a customs procedure as referred to in Article 13(1) or Article 13(4).

They shall be carried out in compliance with the provisions of the International Convention on the Harmonisation of Frontier Controls of Goods, in particular Annex 4 thereof, as approved by Council Regulation (EEC) No 1262/84 (¹).

- (b) Member States shall provide that importers, whether or not producers, of plants, plant products or other objects, listed in Annex V, Part B, must be included in an official register of a Member State under an official registration number. The provisions of Article 6(5), third and fourth subparagraphs, shall apply accordingly to such importers.
- (c) Member States shall also provide that:
 - (i) importers, or their customs representatives, of consignments consisting of, or containing, plants, plant products or other objects, listed in Annex V, Part B, shall make reference, on at least one of the documents required for the placing under a customs procedure as referred to in Article 13(1) or Article 13(4) to such composition of the consignment by means of the following information:
 - reference to the type of plants, plant products or other objects, in using the code of the 'Integrated tariff of the European Communities (Taric)',
 - statement 'This consignment contains produce of phytosanitary relevance', or any equivalent alternative mark as agreed between the customs office of point of entry and the official body of point of entry,
 - reference number(s) of the required phytosanitary documentation,
 - official registration number of the importer, as referred to in (b) above;
 - (ii) airport authorities, harbour authorities or either importers or operators, as arranged between them, give, as soon as they are aware of the imminent arrival of such consignments, advance notice thereof to the customs office of point of entry and to the official body of point of entry.

Member States may apply this provision, mutatis mutandis, to cases of land transport, in particular where the arrival is expected outside normal working hours of the relevant official body or other office as specified in paragraph 2.

- (a) 'Documentary checks' and also the inspections as provided for in Article 13b(1) and the checks for compliance with the provisions of Article 4 in respect of Annex III must be made by the official body of point of entry or, in agreement between the responsible official body and the customs authorities of that Member State, by the customs office of point of entry.
 - (b) 'Identity checks' and 'plant health checks' must be made, without prejudice to (c) and (d) below, by the official body of point of entry in connection with the customs formalities required for placing under a customs procedure as referred to in Article 13(1) or Article 13(4), and either at the same place as these formalities, on the premises of the official body of point of entry or at any other place close by and designated or approved by the customs authorities and by the responsible official body, other than the place of destination as specified under (d).
 - (c) However, in case of transit of non-Community goods, the official body of point of entry may decide, in agreement with the official body or bodies of destination, that all or part of the 'identity checks' or 'plant health checks' shall be made by the official body of destination, either on its premises or at any other place close by and designated or approved by the customs authorities and by the responsible official body, other than the place of destination as specified under (d). If no such agreement

is made, the entire 'identity check' or 'plant health check' shall be made by the official body of the point of entry at either of the places specified in (b).

- (d) In accordance with the procedure referred to in Article 18(2), certain cases or circumstances may be specified in which 'identity checks' and 'plant health checks' may be carried out at the place of destination, such as a place of production, approved by the official body and customs authorities responsible for the area where that place of destination is located, instead of the aforesaid other places, provided that specific guarantees and documents as regards the transport of plants, plant products and other objects are complied with.
- (e) In accordance with the procedure referred to in Article 18(2), implementing provisions shall be laid down concerning:
 - the minimum conditions for the carrying out of the 'plant health checks' under (b), (c) and (d),
 - the specific guarantees and documents as regards the transport of the plants, plant products or other objects to the places specified in (c) and (d), to ensure that there is no risk of harmful organisms spreading during transport,
 - together with the specification of cases under (d), specific guarantees and minimum conditions concerning the qualification of the place of destination for storage and concerning the storage conditions.
- (f) In all cases, the plant 'health checks' shall be considered to be an integral part of the formalities referred to in Article 13(1).

3. Member States shall lay down that the respective original, or the electronic form of the certificates or of the alternative documents other than marks, as specified in Article 13(1)(ii), which is produced to the responsible official body for 'documentary checks' in accordance with the provisions of Article 13a(1)(b)(i), upon inspection shall be marked with a 'visa' of that body, together with its denomination and the date of presentation of the document.

In accordance with the procedure referred to in Article 18(2), a standardised system may be set up to ensure that information included in the certificate, in case of specified plants intended for planting, shall be forwarded to the official body in charge of each Member State or area where plants from the consignment are to be destined or planted.

4. The Member States shall forward to the Commission and the other Member States in writing the list of places designated as points of entry. Any changes to this list shall also be forwarded in writing without delay.

The Member States shall establish a list of the places as specified under 2(b) and 2(c) and places of destinations as identified under 2(d) under their respective responsibility. These lists shall be accessible to the Commission.

Each official body of point of entry, and each official body of destination carrying out identity or plant health checks, must satisfy certain minimum conditions in respect of infrastructure, staffing and equipment.

In accordance with the procedure referred to in Article 18(2), the aforesaid minimum conditions shall be laid down in implementing provisions.

In accordance with the same procedure, detailed rules shall be laid down concerning:

- (a) the type of documents required for the placing under a customs procedure, on which the information specified in paragraph 1(c)(i) shall be made,
- (b) the cooperation between:
 - (i) the official body of point of entry and the official body of destination,

- (ii) the official body of point of entry and the customs office of point of entry,
- (iii) the official body of destination and the customs office of destination, and
- (iv) the official body of point of entry and the customs office of destination.

Those rules shall include model forms of documents to be used in that cooperation, the means of transmission of these documents, the procedures for exchange of information between the official bodies and offices above, as well as the measures which must be taken to maintain the identity of the lots and consignments and to safeguard against the risk of spreading harmful organisms, in particular during transport, until the completion of the required customs formalities.

5. There shall be a Community financial contribution to Member States in order to strengthen inspection infrastructures in so far as they relate to plant health checks carried out in accordance with paragraph 2(b) or (c).

The purpose of this contribution shall be to improve the provision, at inspection posts other than those at the place of destination, of the equipment and the facilities required to carry out inspection and examination and, where necessary, to carry out the measures provided for in paragraph 7, beyond the level already achieved by complying with the minimum conditions stipulated in the implementing provisions pursuant to paragraph 2(e).

The Commission shall propose the entry of suitable appropriations for that purpose in the general budget of the European Union.

Within the limits set by the appropriations available for these purposes, the Community contribution shall cover up to 50 % of expenditure relating directly to improving equipment and facilities.

Detailed rules concerning the Community financial contribution shall be laid down in an implementing Regulation adopted in accordance with the procedure referred to in Article 18(2).

The allocation and the amount of the Community financial contribution shall be decided in accordance with the procedure referred to in Article 18(2), in the light of the information and documents submitted by the Member State concerned and, where appropriate, of the results of investigations carried out under the Commission's authority by the experts referred to in Article 21, and depending on the appropriations available for the purposes concerned.

6. Article 10(1) and (3) shall apply *mutatis mutandis* to plants, plant products or other objects referred to in Article 13 insofar as they are listed in Annex V, Part A, and where it is considered, on the basis of the formalities referred to in Article 13(1), that the conditions laid down therein are fulfilled.

7. Where it is not considered on the basis of the formalities referred to in Article 13(1), that the conditions laid down therein are fulfilled, one or more of the following official measures shall be taken immediately:

- (a) refusal of entry into the Community of all or part of the consignment,
- (b) movement, under official supervision, in accordance with the appropriate customs procedure, during their movement within the Community, to a destination outside the Community,
- (c) removal of infected/infested produce from the consignment,
- (d) destruction,
- (e) imposition of a quarantine period until the results of the examinations or official tests are available,
- (f) exceptionally and only in specific circumstances, appropriate treatment where it is considered by the responsible official body of the Member State that, as a result of the treatment, the conditions will

be fulfilled and the risk of spreading harmful organisms is obviated; the measure of appropriate treatment may also be taken in respect of harmful organisms not listed in Annex I or Annex II.

Article 11(3), second subparagraph, shall apply *mutatis mutandis*.

In the case of a refusal referred to in (a) or movement to a destination outside the Community referred to in (b) or of a removal referred to in (c), the Member States shall lay down that the phytosanitary certificates or the phytosanitary certificates for re-export, and any other document which have been produced when the plants, plant products or other objects were submitted for introduction into their territory, be cancelled by the responsible official body. Upon cancellation, the said certificates or documents shall bear on their face and in a prominent position a triangular stamp in red, marked 'certificate cancelled' or 'document cancelled' from the said official body, together with its denomination and the date of refusal, of the start of the movement to a destination outside the Community or of removal. It shall be in capital letters, and in at least one of the official languages, of the Community.

8. Without prejudice to the notifications and information required under Article 16, Member States shall ensure that the responsible official bodies inform the plant protection organisation of the third country of origin or consignor third country and the Commission of all cases where plants, plant products or other objects coming from the relevant third country have been intercepted as not complying with the plant health requirements, and the reasons of the interception, without prejudice to the action which the Member State may take or has taken in respect of the intercepted consignment. The information shall be given as soon as possible so that the plant protection organisations concerned and, where appropriate, also the Commission, may study the case with a view, in particular, to taking the steps necessary to prevent further occurrences similar to the intercepted one. In accordance with the procedure referred to in Article 18(2), a standardised information system may be set up.

Article 13d

1. Member States shall ensure the collection of fees (Phytosanitary fee) to cover the costs occasioned by the documentary checks, identity checks and plant health checks provided for in Article 13a(1), which are carried out pursuant to Article 13. The level of the fee shall reflect:

- (a) the salaries, including social security, of the inspectors involved in the above checks;
- (b) the office, other facilities, tools and equipment for these inspectors;
- (c) the sampling for visual inspection or for laboratory testing;
- (d) laboratory testing;
- (e) the administrative activities (including operational overheads) required for carrying out the checks concerned effectively, which may include the expenditure required for pre- and in-service training of inspectors.

2. Member States may either set the level of the Phytosanitary fee on the basis of a detailed cost calculation carried out in accordance with paragraph 1, or apply the standard fee as specified in Annex VIIIa.

When, pursuant to Article 13a(2), for a certain group of plants, plant products or other objects originating in certain third countries, identity checks and plant health checks are being carried out at reduced frequency, Member States shall collect a proportionally reduced Phytosanitary fee from all consignments and lots of that group, whether subjected to inspection or not.

In accordance with the procedure referred to in Article 18(2), implementing measures may be adopted to specify the level of this reduced Phytosanitary fee.

3. When the Phytosanitary fee is set by a Member State on the basis of the costs borne by the responsible official body of that Member State, the Member States concerned shall communicate to the Commission reports specifying the method for calculating the fees in relation to the elements listed in paragraph 1.

Any fee imposed in accordance with the first subparagraph shall be no higher than the actual cost borne by the responsible official body of the Member State.

4. No direct or indirect refund of the fees provided for in this Directive shall be permitted. However the possible application by a Member State of the standard fee as specified in Annex VIIIa shall not be considered an indirect refund.

5. The standard fee as specified in Annex VIIIa is without prejudice to extra charges to cover additional costs incurred in special activities relating to the checks, such as exceptional travelling by inspectors or waiting periods of inspectors due to delays in the arrival of consignments out of schedule, checks carried out outside normal working hours, supplementary checks or laboratory testing required in addition to those provided for in Article 13 for confirmation of conclusions drawn from the checks, special phytosanitary measures as required under Community acts based on Articles 15 or 16, measures taken pursuant to Article 13c(7), or the translation of required documents.

6. Member States shall designate the authorities empowered to charge the Phytosanitary fee. The fee shall be payable by the importer, or his customs representatives.

7. The Phytosanitary fee shall replace all other charges or fees levied in the Member States at national, regional or local level for the checks referred to in paragraph 1, and the attestation thereof.

Article 13e

'Phytosanitary certificates' and 'phytosanitary certificates for reexport', which Member States issue under the IPPC shall be in the format of the standardised model given in Annex VII.

▼<u>B</u>

Article 14

The Council acting on a proposal from the Commission, shall adopt any amendments to be made to the Annexes.

However, the following shall be adopted in accordance with the procedure laid down in $\blacktriangleright M4$ Article 18(2) \triangleleft :

- (a) headings additional to Annex III in respect of certain plants, plant products or other objects originating in specified third countries, provided that:
 - (i) these headings are introduced at the request of a Member State which already applies special prohibitions as regards the introduction of such products from third countries;
 - (ii) harmful organisms occurring in the country of origin constitute a plant-health risk for the whole or part of the Community; and
 - (iii) their possible presence on the products in question cannot be detected effectively at the time of their introduction;
- (b) headings additional to the other Annexes in respect of certain plants, plant products or other objects originating in specified third countries, provided that:
 - (i) these headings are introduced at the request of a Member State which already applies special prohibitions or restrictions as regards the introduction of such products from third countries; and
 - (ii) harmful organisms occurring in the country of origin constitute a plant-health risk for the whole or part of the Community in

respect of crops, the scale of possible damage to which is unforeseeable;

(c) any amendment to Part B of the Annexes, $\blacktriangleright \underline{M4}$ in consultation with the Member State concerned \triangleleft ;

▼<u>M</u>4

- (d) any amendment to the Annexes to be made in the light of developments in scientific or technical knowledge, or when technically justified, consistent with the pest risk involved;
- (e) 'amendments to Annex VIIIa'.

▼<u>B</u>

Article 15

▼<u>M4</u> 1. In accordance with the procedure referred to in Article 18(2), derogations may be provided for:

- from Article 4(1) and (2) with regard to Annex III, Part A and Part B, without prejudice to the provisions of Article 4(5), and from Article 5(1) and (2) and the third indent of Article 13(1)(i) with regard to requirements referred to in Annex IV, Part A, Section I and Annex IV, Part B,
- from Article 13(1)(ii) in the case of wood, if equivalent safeguards are ensured by means of alternative documentation or marking,

▼B

provided that it is established that the risk of spreading harmful organisms is obviated by one or more of the following factors:

- the origin of the plants or plant products,
- appropriate treatment,
- special precautions for the use of the plants or plant products.

The risk shall be assessed on the basis of available scientific and technical information; where such information is insufficient, it shall be supplemented by additional enquiries or, where appropriate, by investigations carried out under the authority of the Commission and in accordance with the relevant provisions of Article 21 in the country of origin of the plants, plant products or other objects concerned.

Each authorisation shall apply individually to all or part of the territory of the Community under conditions which take into account the risk of spreading harmful organisms by the product in question in protected zones or in certain regions taking into account the differences in agricultural and ecological conditions. In such cases, the Member States concerned shall be expressly exempted from certain obligations derived from the above provisions in the decisions providing for the authorisations.

The risk shall be assessed on the basis of available scientific and technical information. Where such information is insufficient, it shall be supplemented by additional enquiries or, where appropriate, by investigations carried out by the Commission in the country of origin of the plants, plant products or other objects concerned.

▼<u>M4</u>

2. In accordance with the procedures referred to in the first subparagraph of paragraph 1, phytosanitary measures adopted by a third country for export into the Community shall be recognised as equivalent to the phytosanitary measures laid down in this Directive, in particular to those specified in Annex IV, if that third country objectively demonstrates to the Community that its measures achieve the Community's appropriate level of phytosanitary protection and if this is confirmed by the conclusions resulting from findings made on the occasion of reasonable access of the experts referred to in Article 21 for inspection, testing and other relevant procedures in the relevant third country.

Upon request by a third country, the Commission will enter into consultations with the aim of achieving bilateral or multilateral agree-

▼<u>M4</u>

ments on recognition of the equivalence of specified phytosanitary measures.

3. Decisions providing for derogations pursuant to the first subparagraph of paragraph 1 or recognition of equivalence pursuant to paragraph 2, shall require that compliance with the conditions laid down therein has been officially established in writing by the exporting country for each individual case of use, and shall set out the details of the official statement confirming compliance.

4. Decisions referred to in paragraph 3 shall specify whether or in what manner Member States shall inform the other Member States and the Commission of each individual case of use or groups of cases of use.

▼<u>B</u>

Article 16

1. Each Member State shall immediately notify $\blacktriangleright \underline{M4}$ in writing \blacktriangleleft the Commission and the other Member States of the presence in its territory of any of the harmful organisms listed in Annex I, Part A, Section I or Annex II, Part A, Section I or of the appearance in part of its territory in which their presence was previously unknown of any of the harmful organisms listed in Annex I, Part A, Section II or in Part B or in Annex II, Part A, Section II or in Part B.

It shall take all necessary measures to eradicate, or if that is impossible, inhibit the spread of the harmful organisms concerned. It shall inform the Commission and the other Member States of the measures taken.

2. Each Member State shall immediately notify $\blacktriangleright \underline{M4}$ in writing \blacktriangleleft the Commission and the other Member States of the actual or suspected appearance of any harmful organisms not listed in Annex I or in Annex II whose presence was previously unknown in its territory. It shall also inform the Commission and the other Member States of the protective measures which it has taken or intends to take. These measures must, *inter alia*, be such as to prevent risk of the spread of the harmful organism concerned in the territory of the other Member States.

In respect of consignments of plants, plant products or other objects from third countries considered to involve an imminent danger of the introduction or spread of the harmful organisms referred to in paragraph 1 and the first subparagraph of this paragraph, the Member State concerned shall immediately take the measures necessary to protect the territory of the Community from that danger and shall inform the Commission and the other Member States thereof.

Where a Member State considers that there is an imminent danger other than that referred to in the second subparagraph, it shall immediately notify $\blacktriangleright M4$ in writing \blacktriangleleft the Commission and the other Member States of the measures which it would like to see taken. If it considers that these measures are not being taken in sufficient time to prevent the introduction or spread of a harmful organism in its territory, it may temporarily take any additional measures which it deems necessary, as long as the Commission has not adopted measures pursuant to paragraph 3.

The Commission will present a report to the Council on the operation of this provision, together with any proposals, by 31 December 1992.

3. In cases referred to in paragraphs 1 and 2, the Commission shall examine the situation as soon as possible within the Standing Committee on Plant Health. On-site investigations may be made under the authority of the Commission and in accordance with the relevant provisions of Article 21. The necessary measures $\blacktriangleright M4$ based on a pest risk analysis or a preliminary pest risk analysis in cases referred to in paragraph 2 \blacktriangleleft may be adopted, including those whereby it may be decided whether measures taken by the Member States should be rescinded or amended, under the procedure laid down in $\blacktriangleright M4$ Article 18(2) \blacktriangleleft . The Commission shall follow the development of the situation and, under the same procedure, shall amend or repeal, as that development requires, the said measures. Until a measure has

been adopted under the aforesaid procedure, the Member State may maintain the measures that it has employed.

4. The detailed rules for applying paragraphs 1 and 2 shall be adopted, as necessary, $\blacktriangleright \underline{M4}$ in accordance with the procedure referred to in Article 18(2) \blacktriangleleft .

▼<u>M4</u>

5. If the Commission has not been informed of measures taken under paragraphs 1 or 2, or if it considers the measures taken to be inadequate, it may, pending the meeting of the Standing Committee on Plant Health, take interim protective measures based on a preliminary pest risk analysis to eradicate, or if that is not possible, inhibit the spread of the harmful organism concerned. These measures shall be submitted to the Standing Committee on Plant Health as soon as possible to be confirmed, amended or cancelled in accordance with the procedure referred to in Article 18(2).

Article 18

1. The Commission shall be assisted by the Standing Committee on Plant Health instituted by Council Decision 76/894/EEC (¹) hereafter referred to as 'the Committee'.

2. Where reference is made to this paragraph, Articles 5 and 7 of Decision 1999/468/EC shall apply.

The period laid down in Article 5(6) of Decision 1999/468/EC shall be set at three months.

3. The Committee shall adopt its rules of procedure.

▼<u>B</u>

Article 20

1. This Directive in no way affects Community provisions on planthealth requirements for plants and plant products, except where it provides for or expressly permits stricter requirements in this respect.

2. Amendments to this Directive which are necessary to establish coherence with the Community provisions referred to in paragraph 1 shall be adopted $\blacktriangleright M4$ in accordance with the procedure referred to in Article 18(2) \blacktriangleleft .

3. For the introduction into their territory of any plants or plant products, in particular those listed in Annex VI and their packaging or the vehicles transporting them, Member States may take special planthealth measures against the harmful organisms which generally attack plants, or plant products in storage.

Article 21

1. For the purpose of ensuring the correct and uniform application of this Directive, and without prejudice to checks carried out under the authority of the Member States, the Commission may organise checks to be carried out by experts under its authority in respect of the tasks listed in paragraph 3, on- or off-site, in accordance with the provisions of this Article.

Where such checks are carried out in a Member State, this must be done in cooperation with the official plant protection organisation of that Member State as specified in paragraphs 4 and 5 and in accordance with the procedures set out in paragraph 7.

- 2. The experts referred to in paragraph 1 may be:
- employed by the Commission,
- employed by Member States, and put at the disposal of the Commission on a temporary or *ad hoc* basis.

They shall have acquired, at least in one Member State, the qualifications required for persons in charge of carrying out and monitoring official plant health inspections.

▼<u>M4</u>

3. The checks referred to in paragraph 1 may be carried out in respect of the following tasks:

- monitoring examinations pursuant to Article 6,
- carrying out the official checks pursuant to Article 12(3),
- monitoring or, within the framework of the provisions laid down in the fifth subparagraph of paragraph 5, carrying out in cooperation with the Member States inspections pursuant to Article 13(1),
- carrying out or monitoring the activities specified in the technical arrangements referred to in Article 13b(6),
- making the investigations referred to in Article 15(1), 15(2) and Article 16(3),
- monitoring activities required under the provisions establishing the conditions under which certain harmful organisms, plants, plant products or other objects may be introduced into, or moved within, the Community or certain protected zones thereof, for trial or scientific purposes or for work on varietal selection referred to in Articles 3(9), 4(5), 5(5) and 13b(4),
- monitoring activities required under authorisations granted pursuant to Article 15, under measures taken by Member States pursuant to Article 16(1) or (2), or under measures adopted pursuant to Article 16(3) or (5),
- assisting the Commission in the matters referred to in paragraph 6,
- carrying out any other duty assigned to the experts in the detailed rules referred to in paragraph 7.

▼B

4. For the purpose of the tasks listed in paragraph 3, the experts referred to in paragraph 1 may:

- visit nurseries, farms and other places where plants, plant products or other objects are or were grown, produced, processed or stored,
- visit places where examinations pursuant to Article 6 or inspections pursuant to Article 13 are carried out,
- consult officials of the official plant protection organisations of the Member States,
- accompany the Member States' national inspectors when they carry out activities for the purposes of applying this Directive.

5. Under the cooperation mentioned in paragraph 1, second subparagraph, the official plant protection organisation of that Member State shall be given sufficient advance notice of the task to permit the necessary arrangements to be made.

Member States shall take all reasonable steps to ensure that the objectives and effectiveness of inspections are not jeopardised. They shall ensure that the experts may carry out their tasks without hindrance, and shall take all reasonable steps to provide them, on their request, with the available necessary facilities, including laboratory equipment and laboratory staff. The Commission shall ensure refunding of expenses resulting from such requests, within the limits of appropriations available for that purpose in the general budget of the European Union. $\blacktriangleright \underline{M4}$ This provision shall not apply to expenses resulting from the following types of requests made on the occasion of the participation of the said experts in the Member States' import inspections: laboratory testing and sampling for visual inspection or for laboratory testing, and already covered by the fees referred to in Article 13d.

The experts shall, wherever national legislation so requires, be duly mandated by the official plant protection organisation of the Member

State concerned and observe the rules and practices imposed on that Member State's officials.

Where the task consists of monitoring the examinations referred to in Article 6, monitoring the inspections referred to in Article 13(1), or making the investigations referred to in Article 15(1) and Article 16(3), no decision may be taken on-site. The experts shall report to the Commission on their activities and their findings.

Where the task consists of carrying out the inspections pursuant to Article 13(1), those inspections shall be integrated in an established inspection programme and the rules of procedure established by the Member State concerned shall be complied with; however, in the case of a joint inspection, the Member State concerned will only allow the introduction of a consignment into the Community if its plant protection organisation and the rules referred to in Article 18(2) \triangleleft , this condition may be extended to other irrevocable requirements applied to consignments before introduction into the Community if experience shows such extension to be necessary. Should the Community expert and the national inspector fail to agree, the Member State concerned shall take any necessary temporary measures, pending a definitive decision.

In all cases, national provisions in respect of criminal proceedings and administrative penalties shall apply according to the normal procedures. Where the experts identify a suspected infringement of the provisions of this Directive, this shall be notified to the competent authorities of the Member State concerned.

- 6. The Commission shall:
- establish a network for the notification of new occurrences of harmful organisms,
- make recommendations for drawing up guidelines for the experts and for national inspectors in carrying out their activities.

To assist the Commission in this latter task, Member States shall notify the Commission of the current national inspection procedures in the plant health field.

7. The Commission shall adopt, $\blacktriangleright \underline{M4}$ in accordance with the procedure referred to in Article 18(2) \blacktriangleleft , detailed rules for the application of this Article, including those applicable to the cooperation mentioned in paragraph 1, second subparagraph.

8. The Commission shall report to the Council, no later than 31 December 1994, on the experience gained from the implementation of the provisions of this Article. The Council, acting by a qualified majority on a proposal from the Commission, shall take the necessary measures to amend these provisions, if appropriate, in the light of this experience.

Article 22

In the event of the actual or suspected appearance of a harmful organism as a result of its introduction or spread within the Community, Member States may receive a 'plant-health control' financial contribution from the Community pursuant to Articles 23 and 24 to cover expenditure relating directly to the necessary measures which have been taken or are planned for the purpose of combating that harmful organism in order to eradicate or, if that is not possible, contain it. The Commission shall propose the entry of suitable appropriations for that purpose in the general budget of the European Union.

Article 23

1. The Member State concerned may receive, at its request, the Community financial contribution referred to in Article 22, where it is established that the harmful organism concerned, whether or not listed in Annexes I and II:

- has been notified under Article 16(1) or (2) first subparagraph, and

- constitutes an imminent danger for all or part of the Community due to its appearance in an area where the organism had either not been known to occur previously or had been or was being eradicated, and
- was introduced into that area through consignments of plants, plant products or other objects from a third country or another area of the Community.
- 2. The following shall be regarded as necessary measures within the meaning of Article 22:
- (a) destruction, disinfection, disinfestation, sterilisation, cleaning or any other treatment carried out officially or upon official request in respect of:
 - (i) plants, plant products or other objects constituting the consignment(s) through which the harmful organism was introduced into the area in question and which are recognised as being contaminated or liable to be contaminated;
 - (ii) plants, plant products and other objects, recognised as being contaminated or liable to be contaminated by the harmful organism introduced, which have been grown from plants in the consignment(s) concerned or have been in close proximity to the plants, plant products or other objects of those consignments or to plants grown from them;
 - (iii) growing substrates and land recognised as being contaminated or liable to be contaminated by the harmful organism concerned;
 - (iv) production material, packaging, wrapping and storage material, storage or packaging premises and means of transport which have been in contact with all or some of the plants, plant products and other objects referred to above;
- (b) inspections or testing carried out officially or upon official request to monitor the presence or extent of contamination by the harmful organism which has been introduced;
- (c) prohibitions or restrictions in respect of the use of growing substrates, cultivable areas or premises, as well as plants, plant products or other objects other than material from the consignment(s) in question or grown therefrom where they result from official decisions taken on the grounds of plant-health risks related to the harmful organism introduced.
- 3. Payments made from public funds in order to:
- cover all or part of the costs of the measures described in paragraph 2(a) and (b), except for those related to the regular running costs of the competent official body concerned, or
- to compensate for all or part of the financial losses other than loss of earnings resulting directly from one or more of the measures described in paragraph 2(c),

shall be considered to be expenditure directly relating to the necessary measures referred to in paragraph 2.

By way of derogation from the second indent of the first subparagraph an implementing Regulation may specify, $\blacktriangleright M4$ in accordance with the procedure referred to in Article 18(2) \blacktriangleleft , cases in which compensation for loss of earnings shall be considered to be expenditure directly relating to necessary measures subject to the conditions specified in this respect in paragraph 5 as well as the time limitations applicable to those cases, with a maximum of three years.

4. In order to qualify for the financial contribution from the Community and without prejudice to Article 16, the Member State concerned shall apply to the Commission, at the latest before the end of the calendar year following that in which the appearance of the harmful organism was detected, and shall forthwith inform the Commission and the other Member States of:

 the reference of the notification provided for in the first indent of paragraph 1,

- the nature and extent of the appearance of the harmful organism as referred to in Article 22 and when, where and how it was detected,
- the identity of the consignments referred to in the third indent of paragraph 1 through which the harmful organism was introduced,
- the necessary measures which have been taken or are planned for which it is seeking assistance, together with timetables for them, and
- the results obtained and the actual or estimated cost of the expenditure incurred or to be incurred, and the proportion of such expenditure covered or to be covered from public funds allocated by the Member State for implementation of those same necessary measures.

Where the appearance of the harmful organism was detected prior to 30 January 1997, that date shall be deemed to be the date of detection within the meaning of this paragraph and paragraph 5, provided that the actual date of detection is not earlier than 1 January 1995. However, this provision shall not apply in respect of compensation for loss of earnings referred to in paragraph 3, second subparagraph save in exceptional cases, under the conditions laid down in the implementing Regulation referred to in paragraph 3, to loss of earnings occurring thereafter.

5. Without prejudice to Article 24, the allocation and the amount of the financial contribution from the Community shall be decided $\blacktriangleright M4$ in accordance with the procedure referred to in Article $18(2) \blacktriangleleft$, in the light of the information and documents submitted by the Member State concerned in accordance with paragraph 4 and, where appropriate, the results of investigations carried out on the Commission's authority by the experts referred to in Article 21 pursuant to the first subparagraph of Article 16(3), taking into account the extent of the danger referred to in the second indent of paragraph 1 above, and depending on the appropriations available for these purposes.

Within the limits set by the appropriations available for these purposes, the financial contribution from the Community shall cover up to 50 % and, in case of compensation for loss of earnings referred to in paragraph 3, second subparagraph, up to 25 %, of expenditure relating directly to the necessary measures referred to in paragraph 2, provided that these measures have been taken within a period not more than two years after the date of detection of the appearance of a harmful organism as referred to in Article 22, or are planned for that period.

The abovementioned period may be extended, in accordance with the same procedure, if examination of the situation concerned leads to the conclusion that the objective of the measures will be achieved within a reasonable additional period. The financial contribution from the Community shall be degressive over the years concerned.

Where a Member State is unable to supply the required information regarding the identity of the consignment in accordance with the third indent of paragraph 4, it shall indicate the presumed sources of the appearance and the reasons why the consignments could not be identified. The allocation of the financial contribution may be approved, in accordance with the same procedure, depending on the outcome of an assessment of that information.

Detailed rules for the implementation of this paragraph shall be established in an implementing Regulation $\blacktriangleright \underline{M4}$ in accordance with the procedure referred to in Article 18(2) \blacktriangleleft .

6. In the light of the development of the situation in the Community, it may be decided, $\blacktriangleright \underline{M4}$ in accordance with the procedure referred to in Article 18(2) \blacktriangleleft or Article 19, that further action will be implemented or that measures taken or planned by the Member State concerned will be made subject to certain requirements or additional conditions, if these are necessary for the achievement of the objective in question.

The allocation of the financial contribution from the Community for such further action, requirements or conditions shall be decided by the

same procedure. Within the limits set by the appropriations available for these purposes, the financial contribution from the Community shall cover up to 50 % of expenditure relating directly to the further action, requirements or conditions concerned.

Where such further action, requirements or conditions are essentially designed to protect Community territories other than that of the Member State concerned, it may be decided, in accordance with the same procedure, that the Community financial allocation shall cover more than 50 % of the expenditure.

The financial contribution from the Community shall be of a limited duration and shall be degressive over the years concerned.

7. The allocation of a financial contribution from the Community shall be without prejudice to claims which the Member State concerned or individuals may have against others, including other Member States in the cases referred to in Article 24(3), for the refunding of expenditure, compensation for losses or other damages under national law, Community law or international law. Rights in these claims will be the object of a transfer, by operation of law, to the Community with effect from the payment of the financial contribution from the Community, to the extent that such expenditure, losses or other damages are covered by that contribution.

8. The financial contribution from the Community may be paid in several instalments.

If it appears that the financial contribution from the Community as allocated is no longer justified, the following shall apply:

The amount of the financial contribution from the Community allocated to the Member State concerned pursuant to paragraphs 5 and 6 may either be reduced or suspended, if it is established from the information supplied by that Member State, or from the results of investigations carried out on the Commission's authority by the experts referred to in Article 21, or from the results of the suitable examination which the Commission has conducted in accordance with the procedures analogous to those in Article 39 of Council Regulation (EC) No 1260/1999 of 21 June 1999 laying down general provisions on the Structural Funds (¹) that:

- failure to implement the necessary measures decided on in accordance with paragraphs 5 and 6, whether in whole or in part, or failure to comply with the rules or time limits set in accordance with those provisions or required by the objectives pursued is not justified, or
- the measures are no longer necessary, or
- a situation as described in Article 39 of Regulation (EC) No 1260/ 1999 is revealed.

9. Articles 8 and 9 of Council Regulation (EC) No 1258/1999 of 17 May 1999 on the financing of the common agricultural policy (²), shall apply *mutatis mutandis*.

10. The Member State concerned shall repay the Community all or part of any amounts paid it by way of a Community financial contribution allocated under paragraphs 5 and 6 above if it is established from the sources as specified in paragraph 8, that

- (a) the necessary measures taken into account pursuant to paragraphs 5 or 6
 - (i) have not been implemented; or
 - (ii) have not been implemented in a manner which complies with the rules or time limits set in accordance with those provisions or required by the objectives pursued;
 - or

▼B

^{(&}lt;sup>1</sup>) OJ L 161, 26.6.1999, p. 1.

^{(&}lt;sup>2</sup>) OJ L 160, 26.6.1999, p. 103.

(b) the amounts paid have been used for purposes other than those for which the financial contribution was allocated;

or

(c) a situation as described in Article 39 of Regulation (EC) No 1260/ 1999 is revealed.

The rights referred to the second sentence of paragraph 7 will be the object of a transfer by operation of law back to the Member State concerned with effect from the time of repayment, inasmuch as they are covered by that repayment.

Interest on account of late payment shall be charged on sums not repaid in compliance with the provisions of the Financial Regulation and in accordance with the arrangements to be drawn up by the Commission $\blacktriangleright M4$ in accordance with the procedure referred to in Article 18(2) \blacktriangleleft .

Article 24

1. In respect of the causes for the appearance of the harmful organism referred to in Article 22, the following shall apply:

The Commission shall verify whether the appearance of the harmful organism in the area concerned was caused by the movement into that area of one or more consignments carrying the harmful organism and shall identify the Member State or the successive Member States from which the consignment(s) came.

The Member State from which the consignment(s) carrying the harmful organism came, whether or not the same Member State as that referred to above, shall forthwith inform the Commission, at the latter's request, of all details relating to the origin or origins of the consignment(s) and the administrative handling involved, including the examinations, inspections and controls provided for in this Directive, in order to determine why that Member State failed to detect that the consignment(s) did not comply with the provisions of this Directive. It shall also inform the Commission, at its request, of the destination of all the other consignments sent from the same origin or origins during a specified period.

For the purpose of supplementing the information, investigations may be carried out on the Commissions's authority by the experts referred to in Article 21.

2. The information acquired pursuant to these provisions or those of Article 16(3) shall be examined in the Committee for the purposes of identifying any failings in the Community's plant health regulations or their implementation, and any measures that could be taken to remedy those failings.

The information referred to in paragraph 1 shall also be used to establish, in accordance with the Treaty, whether the Member State from which the consignment(s) came did not detect their non-compliance which resulted in the appearance of the harmful organism in the area concerned because that Member State failed to meet one of its obligations under the Treaty and under the provisions of this Directive relating in particular to the examinations laid down in Article 6 or the inspections laid down in Article 13(1).

3. Where the conclusions referred to in paragraph 2 is reached in respect of the Member State referred to in Article 23(1), the Community financial contribution shall not be allocated, or if already allocated shall not be paid or, if already paid, shall be refunded to the Community. In the latter case, the third subparagraph of Article 23(10) shall apply.

Where the conclusion referred to in paragraph 2 is reached in respect of another Member State, Community law shall apply, taking into account the second sentence of Article 23(7).

▼M4

The amounts to be refunded under paragraph 3 shall be fixed in accordance with the procedure referred to in Article 18(2).

▼<u>B</u>

Article 25

As regards the financial contribution referred to in Article \blacktriangleright <u>M4</u> Article 13c(5) \triangleleft , the Council, acting by qualified majority on a proposal from the Commission, shall adopt provisions in respect of the exceptional cases of predominant Community interest justifying a Community contribution, up to 70 %, of the expenditure relating directly to improving equipment and facilities, within the limits set by appropriations available for those purposes and provided that this would not affect decisions pursuant to Article 23(5) or (6).

Article 26

By 20 January 2002 at the latest, the Commission shall examine the results of the application of Article $\blacktriangleright M4$ Article 13c(5) \blacktriangleleft and Articles 22, 23 and 24 and submit to the Council a report, accompanied by any necessary proposals for amendments.

Article 27

Directive 77/93/EEC as amended by the acts listed in Annex VIII, Part A is hereby repealed without prejudice to the obligations of the Member States concerning the time limits for transposition and application set out in Annex VIII, Part B.

References to the repealed Directive shall be construed as references to this Directive and should be read in accordance with the correlation table in Annex IX.

Article 28

This Directive shall enter into force on the 20th day following that of its publication in the *Official Journal of the European Communities*.

Article 29

This Directive is addressed to the Member States.

ANNEX I

PART A

HARMFUL ORGANISMS WHOSE INTRODUCTION INTO, AND SPREAD WITHIN, ALL MEMBER STATES SHALL BE BANNED

Section I

HARMFUL ORGANISMS NOT KNOWN TO OCCUR IN ANY PART OF THE COMMUNITY AND RELEVANT FOR THE ENTIRE COMMUNITY

(a) Insects, mites and nematodes, at all stages of their development

- 1. Acleris spp. (non-European)
- 2. Amauromyza maculosa (Malloch)
- 3. Anomala orientalis Waterhouse
- 4. Anoplophora chinensis (Thomson)

▼<u>M3</u>

4.1. Anoplophora glabripennis (Motschulsky)

- ▼B
- 5. Anoplophora malasiaca (Forster)
- 6. Arrhenodes minutus Drury
- 7. *Bemisia tabaci* Genn. (non-European populations) vector of viruses such as:
 - (a) Bean golden mosaic virus
 - (b) Cowpea mild mottle virus
 - (c) Lettuce infectious yellows virus
 - (d) Pepper mild tigré virus
 - (e) Squash leaf curl virus
 - (f) Euphorbia mosaic virus
 - (g) Florida tomato virus
- 8. Cicadellidae (non-European) known to be vector of Pierce's disease (caused by *Xylella fastidiosa*), such as:
 - (a) Carneocephala fulgida Nottingham
 - (b) Draeculacephala minerva Ball
 - (c) Graphocephala atropunctata (Signoret)
- 9. Choristoneura spp. (non-European)
- 10. Conotrachelus nenuphar (Herbst)
- 10.1. Diabrotica barberi Smith and Lawrence
- 10.2. Diabrotica undecimpunctata howardi Barber
- 10.3. Diabrotica undecimpunctata undecimpunctata Mannerheim
- 10.4. Diabrotica virgifera Le Conte
- 11. *Heliothis zea* (Boddie)
- 11.1. *Hirschmanniella* spp., other than *Hirschmanniella gracilis* (de Man) Luc and Goodey
- 12. Liriomyza sativae Blanchard
- 13. Longidorus diadecturus Eveleigh and Allen
- 14. Monochamus spp. (non-European)
- 15. Myndus crudus Van Duzee
- 16. Nacobbus aberrans (Thorne) Thorne and Allen
- ▼<u>M3</u>

▼B

- 16.1. Naupactus leucoloma Boheman
- 17. Premnotrypes spp. (non-European)

- 18. Pseudopityophthorus minutissimus (Zimmermann)
- 19. Pseudopityophthorus pruinosus (Eichhoff)
- 20. Scaphoideus luteolus (Van Duzee)
- 21. Spodoptera eridania (Cramer)
- 22. Spodoptera frugiperda (Smith)
- 23. Spodoptera litura (Fabricus)
- 24. Thrips palmi Karny
- 25. Tephritidae (non-European) such as:
 - (a) Anastrepha fraterculus (Wiedemann)
 - (b) Anastrepha ludens (Loew)
 - (c) Anastrepha obliqua Macquart
 - (d) Anastrepha suspensa (Loew)
 - (e) Dacus ciliatus Loew
 - (f) Dacus curcurbitae Coquillet
 - (g) Dacus dorsalis Hendel
 - (h) Dacus tryoni (Froggatt)
 - (i) Dacus tsuneonis Miyake
 - (j) Dacus zonatus Saund.
 - (k) Epochra canadensis (Loew)
 - (1) Pardalaspis cyanescens Bezzi
 - (m) Pardalaspis quinaria Bezzi
 - (n) Pterandrus rosa (Karsch)
 - (o) Rhacochlaena japonica Ito
 - (p) Rhagoletis cingulata (Loew)
 - (q) Rhagoletis completa Cresson
 - (r) Rhagoletis fausta (Osten-Sacken)
 - (s) Rhagoletis indifferens Curran
 - (t) Rhagoletis mendax Curran
 - (u) Rhagoletis pomonella Walsh
 - (v) Rhagoletis ribicola Doane
 - (w) Rhagoletis suavis (Loew)
- 26. Xiphinema americanum Cobb sensu lato (non-European populations)
- 27. Xiphinema californicum Lamberti and Bleve-Zacheo

(b) Bacteria

1. Xylella fastidiosa (Well and Raju)

(c) Fungi

- 1. Ceratocystis fagacearum (Bretz) Hunt
- 2. Chrysomyxa arctostaphyli Dietel
- 3. Cronartium spp. (non-European)
- 4. Endocronartium spp. (non-European)
- 5. Guignardia laricina (Saw.) Yamamoto and Ito
- 6. Gymnosporangium spp. (non-European)
- 7. Inonotus weirii (Murril) Kotlaba and Pouzar
- 8. Melampsora farlowii (Arthur) Davis
- 9. Monilinia fructicola (Winter) Honey
- 10. Mycosphaerella larici-leptolepis Ito et al.
- 11. Mycosphaerella populorum G. E. Thompson
- 12. Phoma andina Turkensteen
- 13. Phyloosticta solitaria Ell. and Ev.

- 14. Septoria lycopersici Speg. var. malagutii Ciccarone and Boerema
- 15. Thecaphora solani Barrus
- 15.1. Tilletia indica Mitra
- 16. Trechispora brinkmannii (Bresad.) Rogers

(d) Viruses and virus-like organisms

- 1. Elm phlöem necrosis mycoplasm
- 2. Potato viruses and virus-like organisms such as:
 - (a) Andean potato latent virus
 - (b) Andean potato mottle virus
 - (c) Arracacha virus B, oca strain
 - (d) Potato black ringspot virus
 - (e) Potato spindle tuber viroid
 - (f) Potato virus T
 - (g) non-European isolates of potato viruses A, M, S, V, X and Y (including $Y^o,\,Y^n$ and $Y^c)$ and Potato leafroll virus
- 3. Tobacco ringspot virus
- 4. Tomato ringspot virus
- 5. Viruses and virus-like organisms of *Cydonia* Mill., *Fragaria* L., *Malus* Mill., *Prunus* L., *Pyrus* L., *Ribes* L., *Rubus* L. and *Vitis* L., such as:
 - (a) Blueberry leaf mottle virus
 - (b) Cherry rasp leaf virus (American)
 - (c) Peach mosaic virus (American)
 - (d) Peach phony rickettsia
 - (e) Peach rosette mosaic virus
 - (f) Peach rosette mycoplasm
 - (g) Peach X-disease mycoplasm
 - (h) Peach yellows mycoplasm
 - (i) Plum line pattern virus (American)
 - (j) Raspberry leaf curl virus (American)
 - (k) Strawberry latent 'C' virus
 - (1) Strawberry vein banding virus
 - (m) Strawberry witches' broom mycoplasm
 - (n) Non-European viruses and virus-like organisms of Cydonia Mill., Fragaria L., Malus Mill., Prunus L., Pyrus L., Ribes L., Rubus L. and Vitis L.
- 6. Viruses transmitted by Bemisia tabaci Genn., such as:
 - (a) Bean golden mosaic virus
 - (b) Cowpea mild mottle virus
 - (c) Lettuce infectious yellows virus
 - (d) Pepper mild tigré virus
 - (e) Squash leaf curl virus
 - (f) Euphorbia mosaic virus
 - (g) Florida tomato virus

(e) Parasitic plants

1. Arceuthobium spp. (non-European)

Section II

HARMFUL ORGANISMS KNOWN TO OCCUR IN THE COMMUNITY AND RELEVANT FOR THE ENTIRE COMMUNITY

(a) Insects, mites and nematodes, at all stages of their development

1. Globodera pallida (Stone) Behrens

- 2. Globodera rostochiensis (Wollenweber) Behrens
- 3. Heliothis armigera (Hübner)

▼<u>M3</u> ▼<u>B</u>

- 6.1. Meloidogyne chitwoodi Golden et al. (all populations)
- 6.2. Meloidogyne fallax Karssen
- 7. Opogona sacchari (Bojer)
- 8. Popilia japonica Newman
- 8.1. Rhizoecus hibisci Kawai and Takagi
- 9. Spodoptera littoralis (Boisduval)

(b) Bacteria

- 1. *Clavibacter michiganensis* (Smith) Davis *et al.* ssp. *sepedonicus* (Spieckermann and Kotthoff) Davis *et al.*
- 2. Pseudomonas solanacearum (Smith) Smith

(c) Fungi

- 1. Melampsora medusae Thümen
- 2. Synchytrium endobioticum (Schilbersky) Percival

(d) Viruses and virus-like organisms

- 1. Apple proliferation mycoplasm
- 2. Apricot chlorotic leafroll mycoplasm
- 3. Pear decline mycoplasm

PART B

HARMFUL ORGANISMS WHOSE INTRODUCTION INTO, AND WHOSE SPREAD WITHIN, CERTAIN PROTECTED ZONES SHALL BE BANNED

(a) Insects, mites and nematodes, at all stages of their development

	Species	Protected zone(s)
1.	Bemisia tabaci Genn. (European popula- tions)	▶ <u>M1</u>
2.	Globodera pallida (Stone) Behrens	FI
3.	Leptinotarsa decemlineata Say	► <u>M1</u> E (Ibiza and Menorca) IRL, P (Azores and Madeira), FI (the districts of Åland, Häme, Kymi, Pirkanmaa, Satakunta, Turku, Uusimaa), S (countries of Blekinge, Gotlands, Halland, Kalmar and Skåne), UK ◀
4.	Liriomyza bryoniae (Kaltenbach)	IRL and UK (Northern Ireland)

▼<u>M3</u>

▼<u>B</u>

(b) Viruses and virus-like organisms

	Species	Protected zone(s)
1.	Beet necrotic yellow vein virus	▶ <u>M5</u> DK, F (Britanny), IRL, P (Azores), FIN, S (with the exception of the District Council areas of Bromölla, Hässleholm, Kristianstad and Östra Göinge in the county of Skåne), UK (Northern Ireland) ◄
2.	Tomato spotted wilt virus	▶ <u>M1</u> —

ANNEX II

PART A

HARMFUL ORGANISMS WHOSE INTRODUCTION INTO, AND SPREAD WITHIN, ALL MEMBER STATES SHALL BE BANNED IF THEY ARE PRESENT ON CERTAIN PLANTS OR PLANT PRODUCTS

Section I

HARMFUL ORGANISMS NOT KNOWN TO OCCUR IN THE COMMUNITY AND RELEVANT FOR THE ENTIRE COMMUNITY

(a) Insects, mites and nematodes, at all stages of their development

	Species	Subject of contamination
1.	Aculops fuchsiae Keifer	Plants of <i>Fuchsia</i> L., intended for planting, other than seeds
2.	Aleurocantus spp.	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
3.	Anthonomus bisignifer (Schenkling)	Plants of <i>Fragaria</i> L., intended for planting, other than seeds
4.	Anthonomus signatus (Say)	Plants of <i>Fragaria</i> L., intended for planting, other than seeds
5.	Aonidella citrina Coquillet	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
6.	Aphelenchoïdes besseyi Christie (*)	Seeds of Oryza spp.
7.	Aschistonyx eppoi Inouye	Plants of <i>Juniperus</i> L., other than fruit and seeds, originating in non-European countries
8.	<i>Bursaphelenchus xylophilus</i> (Steiner and Buhere) Nickle <i>et al.</i>	Plants of <i>Abies</i> Mill., <i>Cedrus</i> Trew, <i>Larix</i> Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L., <i>Pseudotsuga</i> Carr. and <i>Tsuga</i> Carr., other than fruit and seeds, and wood of conifers (<i>Coniferales</i>), originating in non-European countries
9.	Carposina niponensis Walsingham	Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill., <i>Prunus</i> L. and <i>Pyrus</i> L., other than seeds, originating in non-European countries
10.	Diaphorina citri Kuway	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, and <i>Murraya</i> König, other than fruit and seeds
11.	Enarmonia packardi (Zeller)	Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill., <i>Prunus</i> L. and <i>Pyrus</i> L., other than seeds, originating in non-European countries
12.	Enarmonia prunivora Walsh	Plants of <i>Crataegus</i> L., <i>Malus</i> Mill., <i>Photinia</i> Ldl., <i>Prunus</i> L. and <i>Rosa</i> L., intended for planting, other than seeds, and fruit of <i>Malus</i> Mill. and <i>Prunus</i> L., origi- nating in non-European countries
13.	Eotetranychus lewisi McGregor	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
14.	Eotetranychus orientalis Klein	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf. and their hybrids, other than fruit and seeds
15.	Grapholita inopinata Heinrich	Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill., <i>Prunus</i> L. and <i>Pyrus</i> L., other than seeds, originating in non-European countries
16.	Hishomonus phycitis	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
17.	Leucaspis japonica Ckll.	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds

	Species	Subject of contamination
18.	Listronotus bonariensis (Kuschel)	Seeds of <i>Cruciferae</i> , <i>Gramineae</i> and <i>Trifolium</i> spp., originating in Argentina Australia, Bolivia, Chile, New Zealand and Uruguay
19.	Margarodes, non-European species, such as:	Plants of Vitis L., other than fruit and seeds
	(a) Margarodes vitis (Phillipi)	
	(b) Margarodes vredendalensis de Klerk	
	(c) Margarodes prieskaensis Jakubski	
20.	Numonia pyrivorella (Matsumura)	Plants of <i>Pyrus</i> L., other than seeds, originating in non-European countries
21.	Oligonychus perditus Pritchard and Baker	Plants of <i>Juniperus</i> L., other than fruit and seeds, originating in non-European countries
22.	Pissodes spp. (non-European)	Plants of conifers (<i>Coniferales</i>), other than fruit and seeds, wood of conifers (<i>Conifer</i> <i>ales</i>) with bark, and isolated bark of conifers (<i>Coniferales</i>), originating in non-European countries
23.	<i>Radopholus citrophilus</i> Huettel Dickson and Kaplan	Plants of Citrus L., Fortunella Swingle Poncirus Raf., and their hybrids, other than fruit and seeds, and Plants of Araceae Marantaceae, Musaceae, Persea spp., Stre litziaceae, rooted or with growing medium attached or associated
24.	Saissetia nigra (Nietm.)	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
25.	Scirtothrips aurantii Faure	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle <i>Poncirus</i> Raf., and their hybrids, other that seeds
26.	Scirtothrips dorsalis Hood	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle <i>Poncirus</i> Raf., and their hybrids, other that fruit and seeds
27.	Scirtothrips citri (Moultex)	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle <i>Poncirus</i> Raf., and their hybrids, other than seeds
28.	Scolytidae spp. (non-European)	Plants of conifers (<i>Coniferales</i>), over 3 m in height, other than fruit and seeds, wood o conifers (<i>Coniferales</i>) with bark, and isolated bark of conifers (<i>Coniferales</i>) originating in non-European countries
29.	Tachypterellus quadrigibbus Say	Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill. <i>Prunus</i> L. and <i>Pyrus</i> L., other than seeds originating in non-European countries
30.	Toxoptera citricida Kirk.	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle <i>Poncirus</i> Raf., and their hybrids, other that fruit and seeds
31.	Trioza erytreae Del Guercio	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle <i>Poncirus</i> Raf., and their hybrids and <i>Clau</i> <i>sena</i> Burm. f., other than fruit and seeds
32.	Unaspis citri Comstock	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle <i>Poncirus</i> Raf., and their hybrids, other that fruit and seeds

(b) Bacteria

Species	Subject of contamination
1. Citrus greening bacterium	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds

	Species	Subject of contamination
2.	Citrus variegated chlorosis	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
3.	Erwinia stewartii (Smith) Dye	Seeds of Zea mais L.
4.	Xanthomonas campestris (all strains patho- genic to Citrus)	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than seeds
5.	Xanthomonas campestris pv. oryzae (Ishiyama) Dye and pv. oryzicola (Fang. et al.) Dye	Seeds of Oryza spp.

(c) Fungi

▼<u>M3</u>

▼<u>B</u>

	Species	Subject of contamination
1.	Alternaria alternata (Fr.) Keissler (non- European pathogenic isolates)	Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill. and <i>Pyrus</i> L. intended for planting, other than seeds, originating in non-European countries
1.1.	Anisogramma anomala (Peck) E. Müller	Plants of <i>Corylus</i> L., intended for planting other than seeds, originating in Canada and the United States of America
2.	Apiosporina morbosa (Schwein.) v. Arx	Plants of <i>Prunus</i> L. intended for planting other than seeds
3.	Atropellis spp.	Plants of <i>Pinus</i> L., other than fruit an seeds, isolated bark and wood of <i>Pinus</i> L.
4.	Ceratocystis coerulescens (Münch) Bakshi	Plants of <i>Acer saccharum</i> Marsh., other tha fruit and seeds, originating in North Amer ican countries, wood of <i>Acer saccharun</i> Marsh., including wood which has not kep its natural round surface, originating i North American countries
5.	Cercoseptoria pini-densiflorae (Hori and Nambu) Deighton	Plants of <i>Pinus</i> L., other than fruit an seeds, and wood of <i>Pinus</i> L.
6.	Cercospora angolensis Carv. and Mendes	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle <i>Poncirus</i> Raf., and their hybrids, other that seeds
7.	Ciborinia camelliae Kohn	Plants of <i>Camelia</i> L., intended for planting other than seeds, originating in nor European countries
8.	Diaporthe vaccinii Shaer	Plants of <i>Vaccinium</i> spp., intended for planting, other than seeds
9.	<i>Elsinoe</i> spp. Bitanc. and Jenk. Mendes	Plants of <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf and their hybrids, other than fruit and seec and plants of <i>Citrus</i> L. and their hybrid other than seeds and other than fruit except fruits of <i>Citrus reticulata</i> Blanc and of <i>Citrus sinensis</i> (L.) Osbeck orig nating in South America
10.	Fusarium oxysporum f. sp. albedinis (Kilian and Maire) Gordon	Plants of <i>Phoenix</i> spp., other than fruit an seeds
11.	<i>Guignardia citricarpa</i> Kiely (all strains pathogenic to Citrus)	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle <i>Poncirus</i> Raf., and their hybrids, other that seeds
12.	Guignardia piricola (Nosa) Yamamoto	Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill <i>Prunus</i> L. and <i>Pyrus</i> L., other than seed originating in non-European countries
13.	Puccinia pittieriana Hennings	Plants of Solanaceae, other than fruit an seeds
14.	Scirrhia acicola (Dearn.) Siggers	Plants of Pinus L., other than fruit and seed

	Species	Subject of contamination
15.	Venturia nashicola Tanaka and Yamamoto	Plants of <i>Pyrus</i> L., intended for planting, other than seeds, originating in non-European countries

(d) Virus and virus-like organisms

	Species	Subject of contamination
1.	Beet curly top virus (non-European isolates)	Plants of <i>Beta vulgaris</i> L., intended for planting, other than seeds
2.	Black raspberry latent virus	Plants of Rubus L., intended for planting
3.	Blight and blight-like	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
4.	Cadang-Cadang viroid	Plants of <i>Palmae</i> , intended for planting, other than seeds, originating in non-European countries
5.	Cherry leafroll virus (*)	Plants of Rubus L., intended for planting
6.	Citrus mosaic virus	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
7.	Citrus tristeza virus (non-European isolates)	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
8.	Leprosis	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf. and their hybrids, other than fruit and seeds
9.	Little cherry pathogen (non-European isolates)	Plants of Prunus cerasus L., Prunus avium L., Prunus incisa Thunb., Prunus sargentii Rehd., Prunus serrula Franch., Prunus serrulata Lindl., Prunus speciosa (Koidz.) Ingram, Prunus subhirtella Miq., Prunus yedoensis Matsum., and hybrids and culti- vars thereof, intended for planting, other than seeds
10.	Naturally spreading psorosis	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
11.	Palm lethal yellowing mycoplasm	Plants of Palmae, intended for planting, other than seeds, originating in non- European countries
12.	Prunus necrotic ringspot virus (**)	Plants of Rubus L., intended for planting
13.	Satsuma dwarf virus	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
14.	Tatter leaf virus	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
15.	Witches' broom (MLO)	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds

(*) Cherry leaf roll virus is not present in *Rubus* L. in the Community.
 (**) Prunus necrotic ringspot virus is not present in *Rubus* L. in the Community.

Section II

HARMFUL ORGANISMS KNOWN TO OCCUR IN THE COMMUNITY AND RELEVANT FOR THE ENTIRE COMMUNITY

(a) Insects, mites and nematodes, at all stages of their development

	Species	Subject of contamination
1.	Aphelenchoides besseyi Christie	Plants of <i>Fragaria</i> L., intended for planting, other than seeds
2.	Daktulosphaira vitifoliae (Fitch)	Plants of Vitis L., other than fruit and seeds
3.	Ditylenchus destructor Thorne	Flower bulbs and corms of <i>Crocus</i> L., minia- ture cultivars and their hybrids of the genus <i>Gladiolus</i> Tourn. ex L., such as <i>Gladiolus</i> <i>callianthus</i> Marais, <i>Gladiolus colville</i> . Sweet, <i>Gladiolus nanus</i> hort., <i>Gladiolus</i> <i>ramosus</i> hort., <i>Gladiolus tubergenii</i> hort. <i>Hyacinthus</i> L., <i>Iris</i> L., <i>Trigridia</i> Juss, <i>Tulipa</i> L., intended for planting, and potato tubers (<i>Solanum tuberosum</i> L.), intended for planting
4.	<i>Ditylenchus dipsaci</i> (Kühn) Filipjev	Seeds and bulbs of Allium ascalonicum L. Allium cepa L. and Allium schoenoprasum L., intended for planting and plants of Allium porrum L., intended for planting, bulbs and corms of Camassia Lindl., Chionodoxa Boiss., Crocus flavus Weston 'Golder Yellow', Galanthus L., Galtonia candican. (Baker) Decne, Hyacinthus L., Ismene Herbert, Muscari Miller, Narcissus L. Ornithogalum L., Puschkinia Adams, Scilla L., Tulipa L., intended for planting, and seeds of Medicago sativa L.
5.	Circulifer haematoceps	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
6.	Circulifer tenellus	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
7.	Radopholus similis (Cobb) Thorne	Plants of Araceae, Marantaceae, Musaceae Persea spp., Strelitziaceae, rooted or with growing medium attached or associated
8.	Liriomyza huidobrensis (Blanchard)	Cut flowers, leafy vegetables of <i>Apium</i> graveolens L. and plants of herbaceous species, intended for planting, other than: — bulbs, — corms, — plants of the family Gramineae, — rhizomes, — seeds
9.	Liriomyza trifolii (Burgess)	Cut flowers, leafy vegetables of <i>Apium</i> graveolens L. and plants of herbaceour species, intended for planting, other than: — bulbs, — corms, — plants of the family Gramineae, — rhizomes, — seeds

▼<u>B</u>

▼<u>M3</u>

(b) Bacteria

Species	Subject of contamination
1. Clavibacter michiganensis spp. insidiosus (McCulloch) Davis et al.	Seeds of Medicago sativa L.

	Species	Subject of contamination
2.	Clavibacter michiganensis spp. michiga- nensis (Smith) Davis et al.	Plants of Lycopersicon lycopersicum (L.) Karsten ex Farw., intended for planting
3.	Erwinia amylovora (Burr.) Winsl. et al.	► <u>M8</u> Plants of Amelanchier Med., Chae- nomeles Lindl., Cotoneaster Ehrh., Crataegus L., Cydonia Mill., Eriobotrya Lindl., Malus Mill., Mespilus L., Photinia davidiana (Dene.) Cardot, Pyracantha Roem., Pyrus L. and Sorbus L., intended for planting, other than seeds ◄
4.	<i>Erwinia chrysanthemi</i> pv. <i>dianthicola</i> (Hell- mers) Dickey	Plants of <i>Dianthus</i> L., intended for planting, other than seeds
5.	<i>Pseudomonas caryophylli</i> (Burkholder) Starr and Burkholder	Plants of <i>Dianthus</i> L., intended for planting, other than seeds
6.	Pseudomonas syringae pv. persicae (Prunier et al.) Young et al.	Plants of <i>Prunus persica</i> (L.) Batsch and <i>Prunus persica</i> var. <i>nectarina</i> (Ait.) Maxim, intended for planting, other than seeds
7.	Xanthomonas campestris pv. phaseoli (Smith) Dye	Seeds of Phaseolus L.
8.	Xanthomonas campestris pv. pruni (Smith) Dye	Plants of <i>Prunus</i> L., intended for planting, other than seeds
9.	Xanthomonas campestris pv. vesicatoria (Doidge) Dye	Plants of <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw. and <i>Capsicum</i> spp., intended for planting
10.	Xanthomonas fragariae Kennedy and King	Plants of <i>Fragaria</i> L., intended for planting, other than seeds
11.	<i>Xylophilus ampelinus</i> (Panagopoulos) Willems <i>et al.</i>	Plants of Vitis L., other than fruit and seeds

(c) Fungi

	Species	Subject of contamination
1.	Ceratocystis fimbriata f. spp. platani Walter	Plants of <i>Platanus</i> L., intended for planting, other than seeds, and wood of <i>Platanus</i> L., including wood which has not kept its natural round surface
2.	Colletotrichum acutatum Simmonds	Plants of <i>Fragaria</i> L., intended for planting, other than seeds
3.	Cryphonectria parasitica (Murrill) Barr	Plants of <i>Castanea</i> Mill. and <i>Quercus</i> L., intended for planting, other than seeds, wood and isolated bark of <i>Castanea</i> Mill.
4.	Didymella ligulicola (Baker, Dimock and Davis) v. Arx	Plants of <i>Dendranthema</i> (DC.) Des Moul., intended for planting, other than seeds
5.	Phialophora cinerescens (Wollenweber) van Beyma	Plants of <i>Dianthus</i> L., intended for planting, other than seeds
6.	Phoma tracheiphila (Petri) Kanchaveli and Gikashvili	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than seeds
7.	Phytophthora fragariae Hickmann var. fragariae	Plants of <i>Fragaria</i> L., intended for planting, other than seeds
8.	Plasmopara halstedii (Farlow) Berl. and de Toni	Seeds of Helianthus annuus L.
9.	Puccinia horiana Hennings	Plants of <i>Dendranthema</i> (DC.) Des Moul., intended for planting, other than seeds
10.	Scirrhia pini Funk and Parker	Plants of <i>Pinus</i> L., intended for planting, other than seeds
11.	Verticillium albo-atrum Reinke and Bert- hold	Plants of <i>Humulus lupulus</i> L., intended for planting, other than seeds
12.	Verticillium dahliae Klebahn	Plants of <i>Humulus lupulus</i> L., intended for planting, other than seeds

(d) Viruses and virus-like organisms

	Species	Subject of contamination
1.	Arabis mosaic virus	Plants of <i>Fragaria</i> L. and <i>Rubus</i> L., intended for planting, other than seeds
2.	Beet leaf curl virus	Plants of <i>Beta vulgaris</i> L., intended for planting, other than seeds
3.	Chrysanthemum stunt viroid	Plants of <i>Dendranthema</i> (DC.) Des Moul., intended for planting, other than seeds
4.	Citrus tristeza virus (European isolates)	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
5.	Citrus vein enation woody gall	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
6.	Grapevine flavescence dorée MLO	Plants of Vitis L., other than fruit and seeds
7.	Plum pox virus	Plants of <i>Prunus</i> L., intended for planting, other than seeds
8.	Potato stolbur mycoplasm	Plants of <i>Solanaceae</i> , intended for planting, other than seeds
9.	Raspberry ringspot virus	Plants of <i>Fragaria</i> L. and <i>Rubus</i> L., intended for planting, other than seeds
10.	Spiroplasma citri Saglio et al.	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds
11.	Strawberry crinkle virus	Plants of <i>Fragaria</i> L., intended for planting, other than seeds
12.	Strawberry latent ringspot virus	Plants of <i>Fragaria</i> L. and <i>Rubus</i> L., intended for planting, other than seeds
13.	Strawberry mild yellow edge virus	Plants of <i>Fragaria</i> L., intended for planting, other than seeds
14.	Tomato black ring virus	Plants of <i>Fragaria</i> L. and <i>Rubus</i> L., intended for planting, other than seeds
15.	Tomato spotted wilt virus	Plants of Apium graveolens L., Capsicum annuum L., Cucumis melo L., Dendranthema (DC.) Des Moul., all vari- eties of New Guinea hybrids Impatiens, Lactuca sativa L., Lycopersicon lycoper- sicum (L.) Karsten ex Farw. Nicotiana tabacum L., of which there shall be evidence that they are intended for sale to professional tobacco production. Solanum melongena L. and Solanum tuberosum L., intended for planting, other than seeds
16.	Tomato yellow leaf curl virus	Plants of <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw., intended for planting, other than seeds

PART B

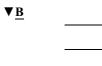

HARMFUL ORGANISMS WHOSE INTRODUCTION INTO, AND WHOSE SPREAD WITHIN, CERTAIN PROTECTED ZONES SHALL BE BANNED IF THEY ARE PRESENT ON CERTAIN PLANTS OR PLANT PRODUCTS

(a) Insect mites and nematodes, at all stages of their development

Species		Subject of contamination	Protected zone(s)	
1.	Anthonomus grandis (Boh.)	Seeds and fruits (bolls) of <i>Gossypium</i> spp. and unginned cotton	EL, E (Andalucia, Catalonia, Extremadura, Murcia, Valencia)	
2.	Cephalcia lariciphila (Klug)	Plants of <i>Larix</i> Mill., intended for planting, other than seeds	IRL, UK (Northern Ireland, Isle of Man and Jersey)	

Species	Subject of contamination	Protected zone(s)
Species 3. Dendroctonus micans Kugelan	Subject of contamination Plants of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L. and <i>Pseudotsuga</i> Carr., over 3 m in height, other than fruit and seeds, wood of conifers (<i>Conifer- ales</i>) with bark, isolated bark of conifers	▶ M2 EL, IRL, UK (Scotland, Northern Ireland, Jersey, England: the following counties, districts and unitary authorities: Barnsley, Bath and North East Somerset, Bedfordshire Bournemouth, Bracknell Forest, Bradford, Bristol, Brighton and Hove, Buckinghamshire, Calderdale, Cambridgeshire, Cornwall, Cumbria, Darlington, Devor Doncaster, Dorset, Durham, East Riding of Yorkshire, East Sussex, Essex, Gateshead, Greater London, Hampshire, Hartlepool, Hertfordshire, Kent, Kingston upon Hull, Kirklees, Leeds, Leicester City, Lincolnshire, Luton, Medway Council, Middlesbrough, Milton Keynes, Newbury, Newcastle upon Tyne, Norfolk, Northamptonshire, North East Lincolnshire, North East Lincolnshire, North Tyneside, North West Somerset, Nottingham City, Nottinghamshire, Oxfordshire, Peterborough, Plymouth, Poole, Portsmouth, Reading, Redcar and Cleveland, Rotherham, Rutland, Sheffield, Slough, Somerset, Southend, Southampton, South Tyneside, Stockton-on-Tees, Suffolk, Sunderland, Surrey, Swindon, Thurrock, Torbay, Wakefield, West Sussex, Windsor and Maidenhead, Wokingham, York, the Isle of Man, the Isle of Wight, the Isles of Scilly, and the following parts of counties, districts and unitary authority which lies to the north of the northern boundary of the A52(T) road together with that part of the unitary authority which lies to the north of the northern boundary of the A52(T) road, and that part of the county which lies to the north of the northern boundary of the A52(T) road, and that part of the county which lies to the north of the northern boundary of the A52(T) road, and that part of the county which lies to the north of the northern boundary of the A52(T) road, and that part of the county which lies to the north of the northern boundary of the A52(T) road together with that part of the county which lies to the north of the northern boundary of the A52(T) road together with that part of the county which lies to the north of the northern boundary of the A52(T) road together with that part of the county which lies

	Species	Subject of contamination	Protected zone(s)
			that part of the county which lies to the east of the eastern boundary of the B4114 road, and that part of the county which lies to the east of the eastern boundary of the M1 motorway; North Yorkshire: the whole county, except that part of the county which comprises the district of Craven; South Gloucester- shire: that part of the unitary authority which lies to the south of the southern boundary of the M4 motorway; Staffordshire: that part of the county which lies to the east of the eastern boundary of the A52(T) road and that part of the county which lies to the east of the eastern boundary of the A523 road; Warwickshire: that part of the county which lies to the east of the eastern boundary of the Fosse Way Roman road; Wiltshire: that part of the county which lies to the south of the southern boundary of the M4 motorway, and that part of the county which lies to the east of the eastern boundary of the Fosse Way Roman road) \blacktriangleleft
4.	Gilphinia hercyniae (Hartig)	Plants of <i>Picea</i> A. Dietr., intended for planting, other than seeds	EL, IRL, UK (Northern Ireland, Isle of Man and Jersey)
5.	Gonipterus scutellatus Gyll.	Plants of <i>Eucalyptus</i> l'Herit., other than fruit and seeds	▶ <u>M7</u> EL, P (Azores) ◀
6.	(a) Ips amitinus Eichhof	Plants of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr. and <i>Pinus</i> L., over 3 m in height, other than fruit and seeds, wood of conifers (<i>Coniferales</i>) with bark, isolated bark of conifers	EL, F (Corsica), IRL, UK
	(b) <i>Ips cembrae</i> Heer	Plants of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr. and <i>Pinus</i> L. and <i>Pseudotsuga</i> Carr., over 3 m in height, other than fruit and seeds, wood of conifers (<i>Conifer-</i> <i>ales</i>) with bark, isolated bark of conifers	EL, IRL, UK (Northern Ireland, Isle of Man)
	(c) <i>Ips duplicatus</i> Sahlberg	Plants of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr. and <i>Pinus</i> L., over 3 m in height, other than fruit and seeds, wood of conifers (<i>Coniferales</i>) with bark, isolated bark of conifers	EL, IRL, UK
	(d) <i>Ips sexdentatus</i> Börner	Plants of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr. and <i>Pinus</i> L., over 3 m in height, other than fruit and seeds, wood of conifers (<i>Coniferales</i>) with bark, isolated bark of conifers	IRL, UK (Northern Ireland, Isle of Man)
	(e) Ips typographus Heer	Plants of Abies Mill., Larix	IRL, UK

▼<u>B</u>

	Species	Subject of contamination	Protected zone(s)
		Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L. and <i>Pseudotsuga</i> Carr., over 3 m in height, other than fruit and seeds, wood of conifers (<i>Conifer-</i> <i>ales</i>) with bark, isolated bark of conifers	
9.	<i>Sternochetus mangiferae</i> Fabricius	Seeds of <i>Mangifera</i> spp. originating in third coun- tries	E (Granada and Malaga), I (Alentejo, Algarve and Madeira)
10.	<i>Thaumetopoea pityocampa</i> (Den. and Schiff.)	Plants of <i>Pinus</i> L., intended for planting, other than fruit and seeds	E (Ibiza)

(b) Bacteria

	Species	Subject of contamination	Protected zone(s)
1.	Curtobacterium flaccumfa- ciens pv. flaccumfaciens (Hedges) Collins and Jones	Seeds of <i>Phaseolus</i> vulgaris L. and Dolichos Jacq.	EL, E, P
2.	Erwinia amylovora (Burr.) Winsl. et al.	► <u>M8</u> Parts of plants, other than fruit, seeds and plants intended for planting, but including live pollen for pollination of <i>Amelanchier</i> Med., <i>Chae- nomeles</i> Lindl., <i>Cotonea- ster</i> Ehrh., <i>Crataegus</i> L., <i>Cydonia</i> Mill., <i>Eriobotrya</i> Lindl., <i>Malus</i> Mill., Mespilus L., <i>Photinia</i> <i>davidiana</i> (Dcne.) Cardot, <i>Pyracantha</i> Roem., <i>Pyrus</i> L. and <i>Sorbus</i> L.	▶ M5 E, F (Corsica), IRL, (Abruzzi; Apulia; Basilicata Calabria; Campania; Emilia Romagna: provinces of For Cesena, Parma, Piacenza ar Rimini; Friuli-Venezia Giulia; Lazio; Liguria; Lombardy; Marche; Molise Piedmont; Sardinia; Sicily; Tuscany; Trentino-Alto Adige: autonomous provinces of Bolzano and Trento; Umbria; Valle d'Aosta; Veneto: except in the province of Rovigo the communes Rovigo, Polesell Villamarzana, Fratta Pole- sine, San Bellino, Badia Polesine, Trecenta, Cenesel Pontecchio Polesine, Arquà Polesine, Costa di Rovigo, Occhiobello, Lendinara, Canda, Ficarolo, Guarda Veneta, Frassinelle Polesines Villanova del Ghebbo, Fiess Umbertiano, Castelgu- glielmo, Bagnolo di Po, Giacciano con Baruchella, Bosaro, Canaro, Lusia, Pincara, Stienta, Gaiba, Salara, and in the province Padova the communes Castelbaldo, Barbona, Piacenza d'Adige, Vescovana, S. Urbano, Boa Pisani, Masi, and in the province of Verona the communes Palù, Roverch- iara, Legnago, Castagnaro, Ronco all'Adige, Villa Bart

Species	Subject of contamination	Protected zone(s)
		lomea, Oppeano, Terrazzo, Isola Rizza, Angiari), and fo A (Burgenland, Carinthia, Lower Austria, Tirol (admin istrative district Lienz), Styria, Vienna), P, FIN, UK (Northern Ireland, Isle of Man and Channel Islands) ◀

(c) Fungi

Species		Subject of contamination	Protected zone(s)	
1.	Glomerella gossypii Edge- rton	Seeds and fruits (bolls) of <i>Gossypium</i> spp.	EL	
2.	Gremmeniella abietina (Lag.) Morelet	Plants of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L. and <i>Pseudotsuga</i> Carr., intended for planting, other than seeds	IRL, UK (Northern Ireland)	
3.	Hypoxylon mammatum (Wahl.) J. Miller	Plants of <i>Populus</i> L., intended for planting, other than seeds	IRL, UK (Northern Ireland)	

(d) Virus and virus-like organisms

Species	Subject of contamination	Protected zone(s)
Citrus tristeza virus (European isolates)	Fruits of <i>Citrus</i> L., <i>Fortu- nella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, with leaves and peduncles	EL, F (Corsica), I, P

ANNEX III

PART A

PLANTS, PLANT PRODUCTS AND OTHER OBJECTS THE INTRODUCTION OF WHICH SHALL BE PROHIBITED IN ALL MEMBER STATES

	Description	Country of origin
	<u>^</u>	
1.	Plants of <i>Abies</i> Mill., <i>Cedrus</i> Trew, <i>Chamae-cyparis</i> Spach, <i>Juniperus</i> L., <i>Larix</i> Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L., <i>Pseudotsuga</i> Carr. and <i>Tsuga</i> Carr., other than fruit and seeds	Non-European countries
2.	Plants of <i>Castanea</i> Mill., and <i>Quercus</i> L., with leaves, other than fruit and seeds	Non-European countries
3.	Plants of <i>Populus</i> L., with leaves, other than fruit and seeds	North American countries
4.	Isolated bark of conifers (Coniferales)	Non-European countries
5.	Isolated bark of Castanea Mill.	Third countries
6.	Isolated bark of <i>Quercus</i> L., other than <i>Quercus suber</i> L.	North American countries
7.	Isolated bark of Acer saccharum Marsh.	North American countries
8.	Isolated bark of Populus L.	Countries of the American continent
9.	Plants of <i>Chaenomeles</i> Ldl., <i>Cydonia</i> Mill., <i>Crateagus</i> L., <i>Malus</i> Mill., <i>Prunus</i> L., <i>Pyrus</i> L., and <i>Rosa</i> L., intended for planting, other than dormant plants free from leaves, flowers and fruit	Non-European countries
9.1.	Plants of <i>Photinia</i> Ldl., intended for planting, other than dormant plants free from leaves, flowers and fruit	USA, China, Japan, the Republic of Korea and Democratic People's Republic of Korea
10.	Tubers of Solanum tuberosum L., seed potatoes	Third countries other than Switzerland
11.	Plants of stolon- or tuber-forming species of <i>Solanum</i> L. or their hybrids, intended for planting, other than those tubers of <i>Solanum tuberosum</i> L. as specified under Annex III A (10)	Third countries
12.	Tubers of species of <i>Solanum</i> L., and their hybrids, other than those specified in points 10 and 11	Without prejudice to the special requirements applicable to the potato tubers listed in Annex IV, Part A Section I, third countries other than Algeria, Cyprus, Egypt, Israel, Libya, Malta, Morocco, Syria, Switzerland, Tunisia and Turkey, and other than European third countries which are either recognised as being free from <i>Clavibacter michiganensis</i> ssp. sepedonicus (Spieckermann and Kotthoff) Davis et al., \blacktriangleright <u>M4</u> in accordance with the procedure referred to in Article 18(2) \blacktriangleleft , or in which provisions recognised as equivalent to the Community provisions on combating <i>Clavibacter michiganensis</i> ssp. sepedonicus (Spieckermann and Kotthoff) Davis et al. \blacktriangleright <u>M4</u> in accordance with the procedure referred to in Article 18(2) \blacktriangleleft , have been complied with
13.	Plants of <i>Solanaceae</i> intended for planting, other than seeds and those items covered by Annex III A (10), (11) or (12)	Third countries, other than European and Mediterranean countries
14.	Soil and growing medium as such, which consists in whole or in part of soil or solid organic substances such as parts of plants, humus including peat or bark, other than that composed entirely of peat	Turkey, Belarus, Estonia, Latvia, Lithuania, Moldavia, Russia, Ukraine and third coun- tries not belonging to continental Europe, other than the following: Cyprus, Egypt, Israel, Libya, Malta, Morocco, Tunisia
15.	Plants of Vitis L., other than fruits	Third countries
16.	Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle,	Third countries

Poncirus Raf., and their hybrids, other than

fruit and seeds

	Description	Country of origin	
17.	Plants of <i>Phoenix</i> spp. other than fruit and seeds	Algeria, Morocco	
18.	Plants of <i>Cydonia</i> Mill., <i>Malus</i> Mill., <i>Prunus</i> L. and <i>Pyrus</i> L. and their hybrids, and <i>Fragaria</i> L., intended for planting, other than seeds	Without prejudice to the prohibitions applic- able to the plants listed in Annex III A (9), where appropriate, non-European countries, other than Mediterranean countries, Australia, New Zealand, Canada, the continental states of the USA	
19.	Plants of the family <i>Graminacae</i> , other than plants of ornamental perennial grasses of the subfamilies <i>Bambusoideae</i> and <i>Panicoideae</i> and of the genera <i>Buchloe</i> , <i>Bouteloua</i> Lag., <i>Calamagrostis</i> , <i>Cortaderia</i> Stapf., <i>Glyceria</i> R. Br., <i>Hakonechloa</i> Mak. ex Honda, <i>Hystrix</i> , <i>Molinia</i> , <i>Phalaris</i> L., <i>Shibataea</i> , <i>Spartina</i> Schreb., <i>Stipa</i> L. and <i>Uniola</i> L., intended for planting, other than seeds	Third countries, other than European and Mediterranean countries	

PART B

PLANTS, PLANT PRODUCTS AND OTHER OBJECTS THE INTRODUCTION OF WHICH SHALL BE PROHIBITED IN CERTAIN PROTECTED ZONES

Description	Protected zone(s)	
 M8 Without prejudice to the prohibitions applicable to the plants listed in Annex IIIA(9), (9.1), (18), where appropriate, plants and live pollen for pollination of: Amelanchier Med., Chaenomeles Lindl., Cotoneaster Ehrh., Crataegus L., Cydonia Mill., Eriobotrya Lindl., Malus Mill., Mespilus L., Photinia davidiana (Dcne.) Cardot, Pyracantha Roem., Pyrus L. and Sorbus L., other than fruit and seeds, originating in third countries other than those recognised as being free from Erwinia amylovora (Burr.) Winsl. et al. in accordance with the procedure laid down in Article 18(2), or in which pest free areas have been established in relation to Erwinia amylovora (Burr.) Winsl. et al. in accordance with the relevant International Standard for Phytosanitary Measures and recognised as such in accordance with the procedure laid down in Article 18(2). 	▶ <u>M5</u> E, F (Corsica), IRL, I (Abruzzi; Apulia; Basilicata; Calabria; Campania; Emilia- Romagna: provinces of Forli-Cesena, Parma, Piacenza and Rimini; Friuli-Venezia Giulia; Lazio; Liguria; Lombardy; Marche; Molise; Piedmont; Sardinia; Sicily; Tuscany; Trentino- Alto Adige: autonomous provinces of Bolzano and Trento; Umbria; Valle d'Aosta; Veneto: except in the province of Rovigo the communes Rovigo, Polesella, Villamarzana, Fratta Polesine, San Bellino, Badia Polesine, Trecenta, Ceneselli, Pontecchio Polesine, Arquà Polesine, Costa di Rovigo, Occhiobello, Lendinara, Canda, Ficarolo, Guarda Veneta, Frassinelle Polesine, Villanova del Ghebbo, Fiesso Umbertiano, Castelguglielmo, Bagnolo di Po, Giacciano con Baruchella, Bosaro, Canaro, Lusia, Pincara, Stienta, Gaiba, Salara, and in the province of Padova the communes Castelbaldo, Barbona, Piacenza d'Adige, Vescovana, S. Urbano, Boara Pisani, Masi, and in the province of Verona the communes Palù, Roverchiara, Legnago, Castagnaro, Ronco all'Adige, Villa Bartolomea, Oppeano, Terrazzo, Isola Rizza, Angiari), and for A (Burgenland, Carinthia, Lower Austria, Tirol (administrative district Lienz), Styria, Vienna), P, FIN, UK (Northern Ireland, Isle of Man and Channel Islands) ◄	

ANNEX IV

PART A

SPECIAL REQUIREMENTS WHICH MUST BE LAID DOWN BY ALL MEMBER STATES FOR THE INTRODUCTION AND MOVEMENT OF PLANTS, PLANT PRODUCTS AND OTHER OBJECTS INTO AND WITHIN ALL MEMBER STATES

Section I

PLANTS, PLANT PRODUCTS AND OTHER OBJECTS ORIGINATING OUTSIDE THE COMMUNITY

	Plants, plant products and other objects	Special requirements
1.1.	 Wood of conifers (Coniferales), except that of <i>Thuja</i> L., other than wood in the form of: chips, particles, wood waste, or scrap obtained in whole or part from these conifers, packing cases, crates or drums, pallets, box pallets or other load boards, dunnage, spacers and bearers, 	There shall be evidence by application of an indicator system, approved $\blacktriangleright \underline{M4}$ in accordance with the procedure referred to in Article 18(2) \triangleleft , applied to the wood, that it has undergone an appropriate heat treatment to achieve a minimum wood core temperature of 56 °C for 30 minutes.
	but including that which has not kept its natural round surface, originating in Canada, China, Japan, Korea, Taiwan and the USA	
1.2.	Wood of conifers (Coniferales), in the form of chips, particles, wood waste or scrap obtained in whole or part from these conifers, originating in Canada, China, Japan, Korea, Taiwan and the USA	 (a) Official statement that the product has undergone an appropriate fumigation shipboard or in a container prior to ship- ment and (b) that the product shall be shipped in containers or in such a way as to
		sealed containers or in such a way as to prevent any reinfestation.
1.3.	Wood of conifers (Coniferales) except that of <i>Thuja</i> L., in the form of packing cases, crates, drums, pallets, box pallets or other load boards, dunnage, spacers and bearers including that which has not kept its natural round surface, originating in Canada, China, Japan, Korea, Taiwan and the USA	The wood shall be stripped of its bark, and shall be free from grub holes, caused by the genus <i>Monochamus</i> (non-European spp.), defined for this purpose as those which are larger than 3 mm across, and shall have a moisture content expressed as a percentage of dry matter, of less than 20 %, achieved at the time of manufacture.
1.4.	Wood of <i>Thuja</i> L., including that which has not kept its natural round surface, originating in Canada, China, Japan, Korea, Taiwan and the USA	The wood shall be stripped of its bark, and shall be free from grub holes, caused by the genus <i>Monochamus</i> (non-European spp.), defined for this purpose as those which are larget than 3 mm across.
1.5.	Wood of conifers (Coniferales), other than wood in the form of chips, particles wood waste or scrap obtained in whole or part from these conifers, but including that which has not kept its natural round suface, origi- nating in non-European countries, other than Canada, China, Japan, Korea, Taiwan and USA	 (a) The wood shall be stripped of its bark, and shall be free from grub holes, caused by the genus <i>Monochamus</i> (non-European spp.), defined for this purpose as those which are larger than 3 mm across or
		(b) there shall be evidence by a mark 'Kiln- dried', or 'KD' or another internationally recognised mark, put on the wood or on its packaging in accordance with current commercial usage, that it has undergone kiln-drying to below 20 % moisture content, expressed as a percentage of dry matter, at time of manufacture, achieved through an appropriate time/temperature schedule.
2.1.	Wood of <i>Acer saccharum</i> Marsh., including wood which has not kept its natural round suface, other than wood intended for the production of veneer, originating in North American countries	There shall be evidence by a mark 'Kiln- dried', 'KD' or another internationally recog- nised mark, put on the wood or on its packa- ging in accordance with current commercial usage, that it has undergone kiln-drying to below 20 % moisture content, expressed as a percentage of dry matter, at time of manufac-

percentage of dry matter, at time of manufacture, achieved through an appropriate time/

		temperature schedule,
2.2.	Wood of <i>Acer saccharum</i> Marsh., other than wood listed in 2.1, originating in North American countries	There shall be evidence by the appropriat accompanying documents, or some othe means that the wood is intended for th production of veneer sheets.
3.	Wood of Castanea Mill. and Quercus L.	The wood shall be stripped of its bark, and
	including wood which has not kept its natural round surface, originating in North American countries	(a) either be squared so as to remove entirel the rounded surface
		or
		(b) official statement that the water content of the wood does not exceed 20 of expressed as a percentage of the drimatter
		or
		(c) official statement that the wood has bee disinfected by an appropriate hot-air of hotwater treatment,
		or in the case of sawn wood with or withour residual bark attached, there shall be evidence by a mark 'Kiln-dried', 'KD' of another internationally recognised mark, pr on the wood or on its packaging in acco- dance with current commercial usage, that has undergone kiln-drying to below 20 °C moisture content, expressed as a percentag of dry matter, at time of manufacture achieved through an appropriate time temperature schedule.
4.	Wood of Castanea Mill.	Without prejudice to the requirements applied able to the plant products listed in Anne IV(A)(I)(3),
		(a) official statement that the wood orig nates in areas known to be free from <i>Cryphonectria parasitica</i> (Murrill) Barr
		or (b) the wood shall be stripped of its bark,
5.	Wood of <i>Platanus</i> L., including wood which has not kept its natural round surface, origi- nating in the USA or Armenia	There shall be evidence by a mark 'Kili dried', 'KD' or another internationally recog- nised mark, put on the wood or on its packa ging in accordance with current commercia- usage, that it has undergone kiln-drying the below 20 % moisture content, expressed as percentage of dry matter, at time of manufac- ture, achieved through an appropriate time temperature schedule.
6.	Wood of <i>Populus</i> L., originating in countries of the American continent	The wood shall be stripped of its bark.
7.	Wood in the form of chips, particles, wood waste or scrap and obtained in whole or part from <i>Acer saccharum</i> Marsh. <i>Castanea</i> Mill., <i>Platanus</i> L., <i>Populus</i> L. and <i>Quercus</i> L., originating in non-European countries, and conifers (Coniferales) originating in non-European countries other than Canada, China, Japan, Korea, Taiwan and the USA	The product shall have been produced exclusively from wood which was stripped of i bark or which has undergone either kill drying to below 20 % moisture content expressed as a percentage of dry matter, time of manufacture, achieved through a appropriate time/ \blacktriangleright C1 temperature schedu or fumigation shipboard \blacktriangleleft or in a containe prior to shipment, and shall be shipped sealed containers or in such a way as

	Plants, plant products and other objects	Special requirements
8.1.	Plants of conifers (Coniferales), other than fruit and seeds, originating in non-European countries	Without prejudice to the prohibitions applic able to the plants listed in Annex III(A)(1) where appropriate, official statement that th plants have been produced in nurseries and that the place of production is free from <i>Pissodes</i> spp. (non-European).
8.2.	Plants of conifers (Coniferales), other than fruit and seeds, over 3 m in height, origi- nating in non-European countries	Without prejudice to the prohibitions applic able to the plants listed in Annex III(A)(1) and Annex IV(A)(I)(8.1), where appropriate official statement that the plants have been produced in nurseries and that the place of production is free from <i>Scolytidae</i> spp. (non European).
9.	Plants of <i>Pinus</i> L., intended for planting, other than seeds	Without prejudice to the provisions applic able to the plants listed in Annex III(A)(1) and Annex IV(A)(I)(8.1), (8.2), official state ment that no symptoms of <i>Scirrhia acicoli</i> (Dearn.) Siggers or <i>Scirrhia pini</i> Funk an Parker have been observed at the place of production or its immediate vicinity sinc the beginning of the last complete cycle of vegetation.
10.	Plants of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L. <i>Pseudotsuga</i> Carr. and <i>Tsuga</i> Carr., intended for planting, other than seeds	Without prejudice to the provisions applic able to the plants listed in Annex III(A)(1) and Annex IV(A)(I)(8.1), (8.2) or (9), wher appropriate, official statement that no symp toms of <i>Melampsora medusae</i> Thümen hav been observed at the place of production of its immediate vicinity since the beginning of the last complete cycle of vegetation.
11.1.	Plants of <i>Castanea</i> Mill. and <i>Quercus</i> L., other than fruit and seeds:	Without prejudice to the prohibitions applic able to the plants listed in Annex $III(A)(2)$,
	(a) originating in non-European countries	official statement that no symptoms of <i>Cronartium</i> spp. (non-European) have been observed at the place of production or it immediate vicinity since the beginning of the last complete cycle of vegetation
	(b) originating in North American countries	official statement that the plants originate i areas known to be free from <i>Ceratocysti</i> <i>fagacearum</i> (Bretz) Hunt.
11.2.	Plants of <i>Castanea</i> Mill. and <i>Quercus</i> L., intended for planting, other than seeds	Without prejudice to the provisions applic able to the plants listed in Annex III(A)(2 and IV(A)(I)(11.1), official statement that:
		 (a) the plants originate in areas known to b free from <i>Cryphonectria parasitic</i> (Murrill) Barr; or
		 (b) no symptoms of <i>Cryphonectria parasitic</i> (Murrill) Barr have been observed at th place of production or its immediate vici nity since the beginning of the las complete cycle of vegetation.
11.3.	Plants of <i>Corylus</i> L., intended for planting, other than seeds, originating in Canada and the United States of America	Official statement that the plants have bee grown in nurseries and:
		(a) originate in an area, established in th country of export by the national plan protection service in that country, a being free from <i>Anisogramma anomal</i> (Peck) E. Müller, in accordance wit relevant International Standards for Phytosanitary Measures, and which is mentioned on the certificates referred t in Articles 7 or 8 of this Directive under the rubric 'Additional declaration',

	Plants, plant products and other objects	Special requirements
		lished in the country of export by the national plant protection service in that country, as being free from <i>Anisogramma</i> <i>anomala</i> (Peck) E. Müller on official inspections carried out at the place of production or its immediate vicinity since the beginning of the last three complete cycles of vegetation, in accordance with relevant International Standards for Phytosanitary Measures, and which is mentioned on the certificates referred to in Articles 7 or 8 of this Directive under the rubric 'Additional declaration' and declared free from <i>Anisogramma</i> <i>anomala</i> (Peck) E. Müller.
12.	Plants of <i>Platanus</i> L., intended for planting, other than seeds, originating in the USA or Armenia	Official statement that no symptoms of <i>Cera-</i> <i>tocystis fimbriata</i> f. sp. <i>platani</i> Walter have been observed at the place of production on its immediate vicinity since the beginning of the last complete cycle of vegetation.
13.1.	Plants of <i>Populus</i> L., intended for planting, other than seeds, originating in third countries	Without prejudice to the prohibitions applic- able to the plants listed in Annex III(A)(3), official statement that no symptoms of <i>Melampsora medusae</i> Thümen have been observed at the place of production or its immediate vicinity since the beginning of the last complete cycle of vegetation.
13.2.	Plants of <i>Populus</i> L., other than fruit and seeds, originating in countries of the American continent	Without prejudice to the provisions applic- able to the plants listed in Annex III(A)(3) and IV(A)(I)(13.1), official statement that no symptoms of <i>Mycosphaerella populorum</i> G. E. Thompson have been observed at the place of production or its immediate vicinity since the beginning of the last complete cycle of vegetation.
14.	Plants of <i>Ulmus</i> L., intended for planting, other than seeds, originating in North American countries	Official statement that no symptoms of Elm phlöem necrosis mycoplasm have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
15.	Plants of <i>Chaenomeles</i> Lindl., <i>Crataegus</i> L., <i>Cydonia</i> Mill., <i>Eriobotrya</i> Lindl., <i>Malus</i> Mill., <i>Prunus</i> L. and <i>Pyrus</i> L., intended for planting, other than seeds, originating in non-European countries	 Without prejudice to the prohibitions applicable to the plants listed in Annex III(A)(9), (18) and Annex III(B)(1), where appropriate, official statement that: — the plants originate in a country known to be free from <i>Monilinia fructicola</i> (Winter) Honey; or — the plants originate in an area recognized as being free from <i>Monilinia fructicola</i> (Winter) Honey, ▶ M4 in accordance with the procedure referred to in Article 18(2) , and no symptoms of <i>Monilinia fructicola</i> (Winter) Honey hove been observed at the place of production since the beginning of the last complete cycle of vegetation.
16.	From 15 February to 30 September, fruits of <i>Prunus</i> L., originating in non-European countries	 Official statement: the fruits originate in a country known to free from <i>Monilinia fructicola</i> (Winter) Honey or the fruits originate in an area recognised as being free from <i>Monilinia fructicola</i> (Winter) Honey, ▶<u>M4</u> in accordance with the procedure referred to in Article 18(2)

▼<u>M3</u>

or

under appropriate conditions and subjected to official testing for, at least, Plum pox virus using appropriate indicators or equivalent methods and has been found free, in these tests, from that harmful organism, or

- derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last three complete cycles of vegetation, at least once, to official testing for at least Plum pox virus using appropriate indicators or equivalent methods and has been found free, in these tests, from that harmful organism;
- (b) no symptoms of disease caused by Plum pox virus have been observed on plants at the place of production or on susceptible plants in its immediate vicinity, since the beginning of the last three complete cycles of vegetation
- (c) plants at the place of production which have shown symptoms of disease caused by other viruses or virus-like pathogens, have been rogued out.

Without prejudice to the provisions applicable to the plants, where appropriate listed in Annex III(A)(9) and (18) or Annex IV(A)(I)(15), (19.2) and (23.1), official statement that

(a) the plants have been:

- either officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at least the relevant harmful organisms using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms, or
- derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last three complete cycles of vegetation, at least once, to official testing for at least the relevant harmful organisms using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms,
- (b) no symptoms of diseases caused by the relevant harmful organisms have been observed on plants at the place of production or on susceptible plants in its immediate vicinity, since the beginning of the last three complete cycles of vegetation.

	Plants, plant products and other objects	Special requirements
24.	 Plants, plant products and other objects Plants of <i>Rubus</i> L., intended for planting: (a) originating in countries where harmful organisms are known to occur on <i>Rubus</i> L. (b) other than seeds, originating in countries where the relevant harmful organisms are known to occur The relevant harmful organisms are: in the case of (a): Tomato ringspot virus, Black raspberry latent virus, Cherry leafroll virus, Prunus necrotic ringspot virus, in the case of (b): Raspberry leaf curl virus (American) Cherry rasp leaf virus (American) 	 Without prejudice to the requirements applic able to the plants, listed in Anne IV(A)(I)(19.2), (a) the plants shall be free from aphids including their eggs (b) official statement that: (aa) the plants have been: either officially certified under certification scheme requirin them to be derived in direct line from material which had been maintained under appropriate conditions and subjecte to official testing for at least the relevant harmful organism using appropriate indicators of equivalent methods and had been found free, in these tests from those harmful organism, or derived in direct line from material which is maintained under appropriate conditions and had been subjected, within the last three complete cycles of vegeta tion, at least once, to official testing for at least the relevant harmful organism using appropriate indicators for equivalent methods and had been subjected, within the last three complete cycles of vegeta tion, at least once, to official testing for at least relevant harmful organisms using appropriate indicators for equivalent methods and had been found free, in these tests from those harmful organism.
25.1.	Tubers of Solanum tuberosum L., originating	free, in these tests, from thos harmful organism (bb) no symptoms of diseases caused b the relevant harmful organisms hav been observed on plants at the plac of production, or on susceptibl plants in its immediate vicinity since the beginning of the las complete cycles of vegetation. Without prejudice to the prohibitions applic
	in countries where <i>Synchytrium endobioticum</i> (Schilbersky) Percival is known to occur	 able to the tubers listed in Annex III(A)(10) (11) and (12), official statement that: (a) the tubers originate in areas known to b free from <i>Synchytrium endobioticum</i> (Schilbersky) Percival (all races othe than Race 1, the common Europea race), and no symptoms of <i>Synchytrium endobioticum</i> (Schilbersky) Percival hav been observed either at the place of production or in its immediate vicinit since the beginning of an adequat periode;
		or (b) provisions recognised as equivalent to th Community provisions on combatin Synchytrium endobioticum (Schilbersky Percival ► <u>M4</u> in accordance with th procedure referred to in Article 18(2) ← have been complied with, in the countr of origin
25.2.	Tubers of Solanum tuberosum L.	Without prejudice to the provisions listed Annex (A)(10), (11) and (12) and Anne $IV(A)(I)(25.1)$, official statement that:
		(a) the tubers originate in countries known to be free from <i>Clavibacter michiganens</i> ssp. <i>sepedonicus</i> (Spieckermann an

ssp. *sepedonicus* (Spieckermann and Kotthoff) Davis *et al.*;

	Plants, plant products and other objects	Special requirements
		(b) provisions recognised as equivalent to the Community provisions on combating Clavibacter michiganensis ssp. sepedo- nicus (Spieckermann and Kotthoff) Davis et al. ▶ M4 in accordance with the procedure referred to in Article 18(2) ◄, have been complied with, in the country of origin.
25.3.	Tubers of <i>Solanum tuberosum</i> L., other than early potatoes, originating in countries where Potato spindle tuber viroid is known to occur	Without prejudice to the provisions applic able to the tubers listed in Annex III(A)(10) (11) and (12) and Annex IV(A)(I)(25.1) and (25.2), suppression of the faculty of germina- tion
25.4.	Tubers of <i>Solanum tuberosum</i> L., intended for planting	Without prejudice to the provisions applic able to the tubers listed in Annex III(A)(10) (11) and (12) and Annex IV(A)(I)(25.1) (25.2) and (25.3), official statement that the tubers originate from a field known to be free from <i>Globodera rostochiensis</i> (Wollen weber) Behrens and <i>Globodera pallida</i> (Stone) Behrens
		and (aa) either, the tubers originate in areas in which <i>Pseudomanas solanacearum</i> (Smith) Smith is known not to occur;
		or (bb) in areas where <i>Pseudomanas solana</i> <i>cearum</i> (Smith) Smith is known to occur, the tubers originate from a place of production found free from <i>Pseudo</i> <i>manas solanacearum</i> (Smith) Smith, o considered to be free thereof, as a consequence of the implementation o an appropriate procedure aiming a eradicating <i>Pseudomanas solanacearum</i> (Smith) Smith which shall be deter mined ► <u>M4</u> in accordance with the procedure referred to in Article 18(2) ◀
		and (cc) either the tubers originate in area where <i>Meloidogyne chitwoodi</i> Golder <i>et al.</i> (all populations) and <i>Meloidogyne</i> <i>fallax</i> Karssen are known not to occur or
		 (dd) in areas where Meloidogyne chitwood Golden et al. (all populations) and Meloidogyne fallax Karssen are known to occur,
		 either the tubers originate from a place of production which has been found free from <i>Meloidogyne chit woodi</i> Golden <i>et al.</i> (all popula tions), and <i>Meloidogyne fallax</i> Karssen based on an annual survey of host crops by visual inspection of host plants at appropriate times and by visual inspection both externally and by cutting of tubers afte harvest from potato crops grown a the place of production, or the tubers after harvest have been randomly sampled and, eithe checked for the presence of symptoms after an appropriate method to induce symptoms, or laboratoriy tested, as well as inspected visually both externally and by cutting the tubers, at appropriate times and in

	Plants, plant products and other objects	Special requirements
		the packages or containers befor marketing according to the prov sions on closing in Council Direc tive 66/403/EEC of 14 June 199 on the marketing of seed potatoes (and no symptoms of <i>Meloidogyn</i> <i>chitwoodi</i> Golden <i>et al.</i> (all popula tions) and <i>Meloidogyne falla</i> Karssen have been found.
25.5.	Plants of Solanaceae, intended for planting, other than seeds, originating in countries where Potato stolbur mycoplasm is known to occur	Without prejudice to the provisions applic able to tubers listed in Annex III(A)(10 (11), (12) and (13), and Anne IV(A)(I)(25.1), (25.2), (25.3) and (25.4), off cial statement that no symptoms of Potat stolbur mycoplasm have been observed o the plants at the place of production since the beginning of the last complete cycle of vegetation.
25.6.	Plants of Solanaceae, intended for planting, other thans tubers of <i>Solanum tuberosum</i> L. and other than seeds of <i>Lycopersicon lyco-</i> <i>persicum</i> (L.) Karsten ex Farw., originating in countries where Potato spindle tuber viroid is known to occur	Without prejudice to the provisions applid able to the plants listed in Annex III(A)(11 (13), and Annex IV(A)(I)(25.5), where appropriate, official statement that no symptoms of Potato spindle tuber viroid have been observed on plants at the place of production since the beginning of the last complete cycle of vegetation
25.7.	Plants of <i>Capsicum annuum</i> L., <i>Lycopersicon</i> <i>lycopersicum</i> (L.) Karsten ex Farw., <i>Musa</i> L., <i>Nicotiana</i> L. and <i>Solanum melongena</i> L., intended for planting other than seeds, origi- nating in countries where <i>Pseudomonas sola-</i> <i>nacearum</i> (Smith) Smith is known to occur	 Without prejudice to the provisions applied able to the plants listed in Annex III(A)(11) and (13), and Annex IV(A)(I)(25.5) and (25.6), where appropriate, official statement that: (a) the plants originate in areas which have been found free from <i>Pseudomonas solar nacearum</i> (Smith) Smith; or (b) no symptoms of <i>Pseudomonas solarua cearum</i> (Smith) Smith have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation.
25.8.	Tubers of <i>Solanum tuberosum</i> L., other than those intended for planting	Without prejudice to the provisions applid able to tubers listed in Annex III(A)(12) an Annex IV(A)(I)(25.1), (25.2) and (25.3), official statement that the tubers originate in areas in which <i>Pseudomonas solanacearum</i> (Smith) Smith is not known to occur.
26.	Plants of <i>Humulus lupulus</i> L. intended for planting, other than seeds	Official statement that no symptoms of Vert. cillium albo-atrum Reinke and Berthold an Verticillum dahliae Klebahn have bee observed on hops at the place of productio since the beginning of the last complete cycl of vegetation.
27.1.	Plants of <i>Dendranthema</i> (DC.) Des Moul., <i>Dianthus</i> L. and <i>Pelargonium</i> l'Hérit. ex Ait., intended for planting, other than seeds	 Official statement that: (a) no signs of <i>Heliothis armigera</i> Hübne or <i>Spodoptera littoralis</i> (Boisd.) hav been observed at the place of productio since the beginning of the last complet cycle of vegetation or (b) the plants have undergone appropriat treatment to protect them from the sai

	Plants, plant products and other objects	Special requirements
27.2.	Plants of <i>Dendranthema</i> (DC.) Des Moul., <i>Dianthus</i> L. and <i>Pelargonium</i> l'Hérit. ex Ait., other than seeds	Without prejudice to the requirements applic able to the plants listed in Annet IV(A)(I)(27.1),
		 (a) no signs of Spodoptera eridiana Cramer Spodoptera frugiperda Smith, or Spodop tera litura (Fabricius) have bee observed at the place of production sinc the beginning of the last complete cycl of vegetation
		or
		(b) the plants have undergone appropriat treatment to protect them from the sai organisms.
28.	Plants of <i>Dendranthema</i> (DC.) Des Moul., intended for planting, other than seeds	Without prejudice to the requirements applied able to the plants listed in Anne IV(A)(I)(27.1) and (27.2), official statement that:
		(a) the plants are no more than third generation stock derived from material which has been found to be free from Chrysanthemum stunt viroid during virold gical tests, or are directly derived from material of which a representative sample of at least 10 % has been found to be free from Chrysanthemum stund viroid during an official inspection carried on at the time of flowering;
		(b) the plants or cuttings:
		 have come from premises which have been officially inspected at lear monthly, during the three month prior to dispatch and on which may mptoms of <i>Puccinia horian</i>. Hennings have been known to have observed during that period, and it the immediate vicinity of which may mptoms of <i>Puccinia horian</i>. Hennings have been known to have occurred during the three month prior to export, or
		 have undergone appropriate treatmen against <i>Puccinia horiana</i> Hennings;
		(c) in the case of unrooted cuttings, r symptoms of <i>Didymella ligulico</i> . (Baker, Dimock and Davis) v. Arx we observed either on the cuttings or on th plants from which the cuttings we derived, or that, in case of rooted cuttings, no symptoms of <i>Didymella ligulicola</i> (Baker, Dimock and Davis) v. Ark were observed either on the cuttings of on the rooting bed.
29.	Plants of <i>Dianthus</i> L., intended for planting, other than seeds	Without prejudice to the requirements appli- able to the plants listed in Anne IV(A)(I)(27.1) and (27.2), official statement that:
		— the plants have been derived in direct lin from mother plants which have been found free from <i>Erwinia chrysanther</i> pv. dianthicola (Hellmers) Dickey, <i>Psee</i> domonas caryophylli (Burkholder) Sta and Burkholder and <i>Phialophora cinere</i> <i>cens</i> (Wollenw.) Van Beyma on official

and Burkholder and *Finalophora cherescens* (Wollenw.) Van Beyma on officially approved tests, carried out at least once within the two previous years,
no symptoms of the above harmful organisms have been observed on the plants.

	Plants, plant products and other objects	Special requirements
30.	Bulbs of <i>Tulipa</i> L. and <i>Narcissus</i> L., other than those for which there shall be evidence by their packaging, or by other means, that they are intended for sale to final consumers not involved in professional cut flower production	Official statement that no symptoms of <i>Dity</i> <i>lenchus dipsaci</i> (Kühn) Filipjev have beer observed on the plants since the beginning of the last complete cycle of vegetation.
31.	Plants of <i>Pelargonium</i> L'Herit. ex Ait., intended for planting, other than seeds, origi- nating in countries where Tomato ringspot virus is known to occur:	Without prejudice to the requirements applic able to the plants listed in Annex IV(A)(I)(27.1 and) (27.2),
	(a) where <i>Xiphinema americanum</i> Cobb	official statement that the plants:
	<i>sensu lato</i> (non-European populations) or other vectors of Tomato ringspot virus are not known to occur	 (a) are directly derived from places o production known to be free from Tomato ringspot virus;
		or
		(b) are of no more than fourth generation stock, derived from mother plants found to be free from Tomato ringspot viru under an official approved system o virological testing.
	(b) where Xiphinema americanum Cobb	official statement that the plants:
	<i>sensu lato</i> (non-European populations) or other vectors of Tomato ringspot virus are known to occur	(a) are directly derived from places of production known to be free from Tomato ringspot virus in the soil of plants;
		or (b) are of no more than second generatio stock, derived from mother plants foun to be free from Tomato ringspot viru under an officially approved system of virological testing.
32.1.	 2.1. Plants of herbaceous species, intended for planting, other than: — bulbs, — corms, 	Without prejudice to the requirements applic able to the plants in Annex IV, Part A Section I(27.1), (27.2), (28) and (29), wher appropriate, official statement that the plant have been grown in nurseries and:
	 plants of the family Gramineae, rhizomes, seeds, tubers, originating in third countries where <i>Liriomyza sativae</i> (Blanchard) and <i>Amauromyza maculosa</i> (Malloch) are known to occur 	(a) originate in an area, established in th country of export by the national plar protection service in that country, a being free from <i>Liriomyza sativae</i> (Blar chard) and <i>Amauromyza maculos</i> (Malloch) in accordance with relevar International Standards for Phytosanitar Measures, and which is mentioned o the certificates referred to in Articles or 8 of this Directive under the rubri 'Additional declaration',
		or (b) originate in a place of production, established in the country of export by the national plant protection service in that country, as being free from <i>Liriomyz</i> sativae (Blanchard) and <i>Amauromyz</i> maculosa (Malloch) in accordance wither relevant International Standards for Phytosanitary Measures, and which is mentioned on the certificates referred there in Articles 7 or 8 of this Directive under the rubric 'Additional declaration', and declared free from <i>Liriomyza maculoss</i> (Malloch) on official inspections carrier out at least monthly during the three months prior to export.

or

months prior to export,

	Plants, plant products and other objects	Special requirements
		subjected to an appropriate treatmer against <i>Liriomyza sativae</i> (Blanchard and <i>Amauromyza maculosa</i> (Malloch and have been officially inspected an found free from <i>Liriomyza sativae</i> (Blar chard) and <i>Amauromyza maculos</i> (Malloch). Details of the treatment sha be mentioned on the certificates referre to in Articles 7 or 8 of this Directive.
32.2.	Cut flowers of <i>Dendranthema</i> (DC) Des. Moul., <i>Dianthus L., Gypsophila L. and Soli- dago L., and leafy vegetables of Apium</i> graveolens L. and Ocimum L.	 Official statement that the cut flowers and th leafy vegetables: originate in a country free from <i>Liriomyz</i> sativae (Blanchard) and Amauromyz maculosa (Malloch), or immediately prior to their export, hav been officially inspected and found free from <i>Liriomyza sativae</i> (Blanchard) an Amauromyza maculosa (Malloch).
32.3.	Plants of herbaceous species, intended for planting, other than: — bulbs, — corms,	Without prejudice to the requirements applic able to the plants in Annex IV, Part A Section I(27.1), (27.2), (28), (29) and (32.1) official statement that:
	 plants of the family Gramineae, rhizomes, seeds, tubers, 	 (a) the plants originate in an area known the free from <i>Liriomyza huidobrensu</i> (Blanchard) and <i>Liriomyza trifol</i> (Burgess), or
	originating in third countries	 (b) either no signs of <i>Liriomyza huidobrens</i>. (Blanchard) and <i>Liriomyza trifol</i> (Burgess) have been observed at the place of production, on official inspections carried out ar least monthly during the three months prior to harvesting, or
		 (c) immediately prior to export, the plant have been officially inspected and foun free from <i>Liriomyza huidobrensis</i> (Blan chard) and <i>Liriomyza trifolii</i> (Burgess and have been subjected to an appro priate treatment against <i>Liriomyza huido brensis</i> (Blanchard) and <i>Liriomyza trifol</i> (Burgess).
33.	Plants with roots, planted or intended for planting, grown in the open air	Official statement that the place of production is known to be free from <i>Clavibacte michiganensis</i> ssp. <i>sependoniscus</i> (Spiecker mann and Kotthoff) Davis <i>et al.</i> , <i>Globoder pallida</i> (Stone) Behrens, <i>Globodera rosta chiensis</i> (Wollenweber) Behrens and <i>Synchy trium endobioticum</i> (Schilbersky) Percival.
34.	 ►<u>M3</u> Soil and growing medium, attached to or associated with plants, consisting in whole or in part of soil or solid organic substances such as parts of plants, humus including peat or bark or consisting in part of any solid inorganic substance, intended to sustain the vitality of the plants, originating in: ►<u>M7</u> Turkey, Belarus, Estonia, Georgia, Latvia, Lithuania, Moldova, Russia, Ukraine, non-European countries, other than Algeria, Egypt, Israel, Libya, Morocco, Tunisia 	 Official statement that: (a) the growing medium, at the time of planting, was: either free from soil, and organi matter, or found free from insects and harmfu nematodes and subjected to appropriate examination or heat treatmer or fumigation to ensure that it wa free from other harmful organisms, or

		 found free from symptoms of harmful bacteria, viruses and virus-like organ isms, and either found free from signs or symptoms of harmful nematodes, insects mites and fungi, or have bee

	Plants, plant products and other objects	Special requirements
		subjected to appropriate treatment t eliminate such organisms.
43.	Naturally or artificially dwarfed plants intended for planting other than seeds, origi- nating in non-European countries	Without prejudice to the provisions applid able to the plants listed in Annex III(A)(1 (2), (3), (9), (13), (15), (16), (17), (18 Annex III(B)(1), and Annex IV(A)(I)(8.1 (9), (10), (11.1), (11.2), (12), (13.1), (13.2 (14), (15), (17), (18), (19.1), (19.2), (20 (22.1), (22.2), (23.1), (23.2), (24), (25.5 (25.6), (26), (27.1), (27.2), (28), (32.1 (32.2), (33), (34), (36.1), (36.2), (37), (38.1 (38.2), (39), (40) and (42), where appropriate official statement that:
		(a) the plants, including those collecte directly from natural habitats, shall hav been grown, held and trained for at leas two consecutive years prior to dispatch i officially registered nurseries, which ar subject to an officially supervised contro- regime,
		(b) the plants on the nurseries referred to i (a) shall:
		(aa) at least during the period referred in (a):
		 be potted, in pots which an placed on shelves at least 50 cm above ground,
		— have been subjected to appropriate treatments to ensure freedom from non-Europea rusts: the active ingredien concentration and date of application of these treatments shabe mentioned on the phytosan tary certificate provided for i Article 7 of this Directive unde the rubric 'disinfestation and/or disinfection treatment'.
		— have been officially inspected a least six times a year at appro- priate intervals for the presend of harmful organisms of concern, which are those in the Annexes to the Directive. These inspections, which shall also b carried out on plants in the nurseries referred to in (a), sha be carried out at least by visue examination of each row in the field or nursery and by visue examination of all parts of the plant above the growin medium, using a random samp of at least 300 plants from given genus where the number of plants of that genus is no more than 3 000 plants, or 10 %
		 of the plants if there are monthan 3 000 plants from that genus, — have been found free, in these inspections, from the relevant harmful organisms of concer as specified in the previou indent. Infested plants shall be removed. The remaining plant where appropriate, shall be effectively treated, and in add tion shall be held for an approximation.

▼B

V D			
		Plants, plant products and other objects	Special requirements
			 ensure freedom from such harmful organisms of concern, have been planted in either an unused artificial growing medium or in a natural growing medium, which has been treated by fumigation or by appropriate heat treatment and has been of any harmful organisms, have been kept under conditions which ensure that the growing medium has been maintained free from harmful organisms and within two weeks prior to dispatch, have been:
			 shaken and washed with clean water to remove the original growing medium and kept bare rooted, or shaken and washed with clean water to remove the original growing medium and replanted in growing medium which meets the conditions laid down in (aa) fifth indent, or subjected to appropriate treatments to ensure that the growing medium is free from harmful organisms, the active ingredient, concentration and date of application of these treatments shall be mentioned on the phytosanitary certificate provided for in Article 7 of this Directive under the rubric 'disinfestation and/or disinfection treatment'.
			(bb) be packed in closed containers which have been officially sealed and bear the registration number of the registered nursery; this number shall also be indicated under the rubric <i>additional declaration</i> on the phytosanitary certificate provided for in Article 7 of this Directive, enabling the consignments to be identified.
	44.	Herbaceous perennial plants, intended for planting, other than seeds, of the families Caryophyllaceae (except <i>Dianthus</i> L.), Compositae (except <i>Dendranthema</i> (DC.) Des Moul.), Cruciferae, Leguminosae and Rosaceae (except <i>Fragaria</i> L.), originating in third countries, other than European and Mediterranean countries	 Without prejudice to the requirements applicable to plants, where appropriate, listed in Annex IV(A)(I)(32.1), (32.2), (32.3), (33) and (34) official statement that the plants: have been grown in nurseries, and are free from plant debris, flowers and fruits, and have been inspected at appropriate times and prior to export, and found free from symptoms of harmful bacteria, viruses and virus-like organisms, and either found free from signs or symptoms of harmful nematodes, insects, mites and fungi, or have been subjected to appropriate treatment to eliminate such organisms.

Without prejudice to the requirements applic-

able to plants listed in Annex III(A)(13) and

Annex IV(A)(I)(25.5), (25.6) and 25.7 where

appropriate

Plants, plant products and other objects	Special requirements
Plants of herbaceous species and plants of <i>Ficus</i> L. and <i>Hibiscus</i> L., intended for planting, other than bulbs, corms, rhizome seeds and tubers, originating in non-Europea countries	r able to the plants in Annex IV, Part 4, Section I(27.1), (27.2), (28), (29), (32.1
	(a) originate in an area, established in the country of export by the national plat protection service in that country, being free from <i>Bemisia tabaci</i> Gen (non-European populations) in accordance with relevant International State dards for Phytosanitary Measures, and which is mentioned on the certificat referred to in Articles 7 or 8 of the Directive under the rubric 'Addition declaration',
	 or (b) originate in a place of production, estal lished in the country of export by the national plant protection service in the country, as being free from <i>Bemiss tabaci</i> Genn. (non-European population in accordance with relevant Internation Standards for Phytosanitary Measure and which is mentioned on the certic cates referred to in Articles 7 or 8 this Directive under the rubric 'Addet tional declaration', and declared from <i>Bemisia tabaci</i> Genn. (no European populations) on official inspetions carried out at least once each thrweeks during the nine weeks prior export, or
	 (c) in cases where <i>Bemisia tabaci</i> Gen (non-European populations) has bee found at the place of production, a held or produced in this place of production and have undergone an appropria treatment to ensure freedom fro <i>Bemisia tabaci</i> Genn. (non-European populations) and subsequently this plac of production shall have been found fr from <i>Bemisia tabaci</i> Genn. (no European populations) as a consequent of the implementation of appropria procedures aiming at eradicating <i>Bemisia tabaci</i> Genn. (non-European populations) in both official inspections carried o weekly during the nine weeks prior export and in monitoring procedure throughout the said period. Details of the implementation of a for the implementation of a for the implementation of the implementation further throughout the said period. Details of the treatment shall be mentioned on the certificates referred to in Article 7 or 8 of the Directive.
Cut flowers of <i>Aster</i> spp., <i>Eryngium</i> L <i>Gypsophila</i> L., <i>Hypericum</i> L., <i>Lisianthus</i> L <i>Rosa</i> L., <i>Solidago</i> L., <i>Trachelium</i> L., ar leafy vegetables of <i>Ocimum</i> L., originatin in non-European countries	, leafy vegetables:
	<i>tabaci</i> Genn. (no or

	virus is known to occur	
	(a) Where <i>Bemisia tabaci</i> Genn. is not known to occur	Official statement that no symptoms of Tomato yellow leaf curl virus have been observed on the plants
	(b) Where Bemisia tabaci Genn. is known to	Official statement that:
	occur	 (a) no symptoms of Tomato yellow leaf curl virus have been observed on the plants, and
		(aa) the plants originate in areas known to be free from <i>Bemisia tabact</i> Genn., or
		(bb) the place of production has been found free from <i>Bemisia tabact</i> Genn. on official inspections carried out at least monthly during the three months prior to export;
		or
		(b) no symptoms of Tomato yellow leaf curl virus have been observed on the place of production and the place of production has been subjectet to an appropriate treat- ment and monitoring regime to ensure freedom from <i>Bemisia tabaci</i> Genn.
46.	Plants intended for planting, other than seeds, tubers, corms, rhizomes, originating in coun- tries where the relevant harmful organisms are known to occur. The relevant harmful organisms are:	Without prejudice to the requirements applicable to the plants listed in Annex III(A)(13) and Annex IV(A)(I)(25.5) (25.6), (32.1), (32.2), (32.3), (35.1), (35.2), (44), (45), (45.1) \blacktriangleright M3 , (45.2) and (45.3) \blacktriangleleft where
	 Bean golden mosaic virus, Cowpea mild mottle virus, Lettuce infectious yellow virus, 	appropriate
	 Pepper mild tigré virus, Squash leaf curl virus, other viruses transmitted by <i>Bemisia</i> 	
	tabaci Genn.	
	(a) Where <i>Bemisia tabaci</i> Genn. (non- European populations) or other vectors of the relevant harmful organisms are not known to occur	Official statement that no symptoms of the relevant harmful organisms have been observed on the plants during their complete cycle of vegetation
	(b) Where <i>Bemisia tabaci</i> Genn. (non- European populations) or other vectors of the relevant harmful organisms are known to occur	Official statement that no symptoms of the relevant harmful organisms have been orbserved on the plants during an adequate period,
		and
		 (a) the plants originate in areas known to be free from <i>Bemisia tabaci</i> Genn. and other vectors of the relevant harmful organ- isms;
		or
		 (b) the place of production has been found free from <i>Bemisia tabaci</i> Genn. and other vectors of the relevant harmful organisms on official inspections carried out an appropriate times; or
		(c) the plants have been subjected to an appropriate treatment aimed at eradi- cating <i>Bemisia tabaci</i> Genn.
7.	Seeds of Helianthus annuus L.	Official statement that:
		 (a) the seeds originate in areas known to be free from <i>Plasmopara halstedii</i> (Farlow) Berl. and de Toni;
		1

or

	Plants, plant products and other objects	Special requirements
		(b) the seeds, other than those seeds that have been producted on varieties resistant to all races of <i>Plasmopara halstedi</i> (Farlow) Berl. and de Toni present in the area of production, have been subjected to an appropriate treatment against <i>Plasmopara halstedii</i> (Farlow Berl. and de Toni.
48.	Seeds of <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw.	Official statement that the seeds have bee obtained by means of an appropriate aci extraction method or an equivalent metho approved $\blacktriangleright \underline{M4}$ in accordance with th procedure referred to in Article 18(2) \blacktriangleleft ,
		and
		(a) either the seeds originate in areas wher Clavibacter michiganensis ssp. michiga nensis (Smith) Davis et al., Xanthomona campestris pv. vesicatoria (Doidge) Dy and Potato spindle tuber viroid are no known to occur; or
		(b) no symptoms of diseases caused by thos harmful organisms have been observe on the plants at the place of productio during their complete cycle of vegetation or
		(c) the seeds have been subjected to official testing for at least those harmful organ isms, on a representative sample an using appropriate methods, and hav been found, in these tests, free from those harmful organisms.
49.1.	Seeds of Medicago sativa L.	Official statement that:
		 (a) no symptoms <i>Ditylenchus dipsaci</i> (Kühr Filipjev have been observed at the plac of production since the beginning of the last complete cycle of vegetation and n <i>Ditylenchus dipsaci</i> (Kühn) Filipjev ha been revealed by laboratory tests on representative sample; or
		(b) fumigation has taken place prior to export.
49.2.	Seeds of <i>Medicago sativa</i> L., originating in countries where <i>Clavibacter michiganensis</i> ssp. <i>insidiosus</i> Davis <i>et al.</i> is known to occur	Without prejudice to the requirements applied able to plants listed in Annex $IV(A)(I)(49.1)$ official statement that:
		 (a) Clavibacter michiganensis ssp. insidiosi Davis et al. has not been known to occu on the farm or in the immediate vicinit since the beginning of the past 10 years
		 (b) either the crop belongs to a variety recognised as being highly resistant the Clavibacter michiganensis ssp. instant the Clavibacter michiganensis ssp. instant the Clavibacter michiganensis ssp. instant dissus Davis et al., or it had not yet started its fourt complete cycle of vegetation from sowing when the seed was harvested and there was not more than one preceding seed harvest from the crop or the content of inert matter which had been determined in accordance with the rules applicable for the certification of seed marketed in the Community, does not exceed 0,1 % be weight;

	Plants, plant products and other objects	Special requirements
		(c) no symptoms of Clavibacter michiga nensis ssp. insidiosus Davis et al. have been observed at the place of production or on any Medicago sativa L. crop adja cent to it, during the last complete cycle of vegetation or, where appropriate, the last two cycles of vegetation;
		(d) the crop has been grown on land or which no previous <i>Medicago sativa</i> L crop has been present during the las three years prior to sowing.
50.	Seeds of Oryza sativa L.	Official statement that:
		 (a) the seeds have been officially tested by appropriate nematological tests and hav been found free from <i>Aphelenchoide</i> <i>besseyi</i> Christie; or
		(b) the seeds have been subjected to an appropriate hot water treatment or othe appropriate treatment against <i>Aphelench</i> <i>oides besseyi</i> Christie.
51.	Seeds of Phaseolus L.	Official statement that:
		 (a) the seeds originate in areas known to b free from <i>Xanthomonas campestris</i> py <i>phaseoli</i> (Smith) Dye; or
		(b) a representative sample of the seeds hat been tested and found free from <i>Xantho</i> <i>monas campestris</i> pv. <i>phaseoli</i> (Smith Dye in these tests.
52.	Seeds of Zea mais L.	Official statement that:
		(a) the seeds originate in areas known to b free from <i>Erwinia stewartii</i> (Smith) Dye
		or (b) a representative sample of the seeds ha
		been tested and found free from <i>Erwini</i> <i>stewartii</i> (Smith) Dye in this test.
53.	Seeds of the genera <i>Triticum</i> , Secale and <i>X</i> <i>Triticosecale</i> from Afghanistan, India, Iraq, Mexico, Nepal, Pakistan \blacktriangleright M3, South Africa \blacktriangleleft and the USA where <i>Tilletia indica</i> Mitra is known to occur.	Official statement that the seeds originate i an area where <i>Tilletia indica</i> Mitra is know not to occur. The name of the area shall b mentioned on the phytosanitary certificat provided for in Article 7.
54.	Grain of the genera <i>Triticum</i> , Secale and X	Official statement that either,
	<i>Triticosecale</i> from Afghanistan, India, Iraq, Mexico, Nepal, Pakistan \blacktriangleright <u>M3</u> , South Africa \triangleleft and the USA where <i>Tilletia indica</i> Mitra is known to occur.	(i) the grain originates in an area when <i>Tilletia indica</i> Mitra is known not to occur. The name of the area or area shall be mentioned on the phytosanitar certificate provided for in Article of under the rubric 'place of origin' or
		(ii) no symptoms of <i>Tilletia indica</i> Mith have been observed on the plants at th place of production during their la complete cycle of vegetation and representative samples of the grain have beet taken both at the time of harvest an before shipment and have been tested and found free from <i>Tilletia indica</i> Mith in these tests; the latter shall be mentioned on the phytosanitary certificate provided for in Article 7, in the rubric 'name of produce' as 'tested an found free from <i>Tilletia indica</i> Mitra'.

^{(&}lt;sup>1</sup>) OJ 125, 11.7.1966, p. 2320/66. Directive as last amended by Commission Decision 1999/742/EC (OJ L 297, 18.11.1999, p. 39).

Section II

	Plants, plant products and other objects	Special requirements
1.	Wood of <i>Castanea</i> Mill.	 (a) Official statement that the wood originates in areas known to be free from <i>Cryphonectria parasitica</i> (Murrill) Barr; or (b) the wood shall be stripped of its bark.
2.	Wood of <i>Platanus</i> L., including wood which has not kept its natural round surface	 (a) Official statement that the wood originates in areas known to be free from <i>Ceratocystis fimbriata</i> f.sp. <i>platan</i>. Walter;
		or (b) there shall be evidence by a mark 'Kiln- dried', 'KD' or another internationally recognised mark, put on the wood or or its packaging in accordance with curren commercial usage, that is has undergone kiln-drying to below 20 % moisture content, expressed as a percentage of dry matter, at time of manufacture, achieved through an appropriate time/temperature schedule.
3.	Isolated bark of Castanea Mill.	Official statement:
		 (a) that the bark originates in areas known to be free from <i>Cryphonectria parasitica</i> (Murrill) Barr; or
		 (b) that the consignment has been subjected to fumigation or other appropriate treat ment against <i>Cryphonectria parasitica</i> (Murrill) Barr.
4.	Plants of <i>Pinus</i> L. intended for planting, other than seeds	Official statement that no symptoms of <i>Scrir</i> <i>rhia pini</i> Funk and Parker have been observed at the place of production or in it immediate vicinity since the beginning of the last complete cycle of vegetation.
5.	Plants of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L., <i>Pseudotsuga</i> Carr. and <i>Tsuga</i> Carr., intended for planting, other than seeds	Without prejudice to the requirements applic able to the plants listed in Anner IV(A)(II)(4), where appropriate, official state ment that no symptoms of <i>Melampsor</i> <i>medusae</i> Thümen have been observed at the place of production or in its immediate vici nity since the beginning of the last complete cycle of vegetation.
6.	Plants of <i>Populus</i> L., intended for planting, other than seeds	Official statement that no symptoms o <i>Melampsora medusae</i> Thümen have been observed at the place of production or in its immediate vicinity since the beginning o the last complete cycle of vegetation.
7.	Plants of Castanea Mill. and Quercus L.,	Official statement that:
	intended for planting, other than seeds	(a) the plants originate in areas known to be free from <i>Cryphonectria parasitica</i> (Murrill) Barr
		or (b) no symptoms of <i>Cryphonectria parasiticc</i> (Murrill) Barr have been observed at the place of production or in its immediate vicinity since the beginning of the las complete cycle of vegetation.
8.	Plants of Platanus L., intended for planting,	Official statement that:
	other than seeds	(a) the plants originate in an area known to be free from <i>Ceratocystis fimbriata</i> f.sp <i>platani</i> Walter
		1

PLANTS, PLANT PRODUCTS AND OTHER OBJECTS ORIGINATING IN THE COMMUNTIY

	Plants, plant products and other objects	Special requirements
		(b) no symptoms of <i>Ceratocystis fimbriata</i> f.sp. <i>platani</i> Walter have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
9.	► M8 Plants of Amelanchier Med., Chaeno-	Official statement:
	meles Lindl., Cotoneaster Ehrh., Crataegus L., Cydonia Mill., Eriobotrya Lindl., Malus Mill., Mespilus L., Photinia davidiana (Dcne.) Cardot, Pyracantha Roem., Pyrus L. and Sorbus L., intended for planting, other than seeds ◄	 (a) the plants originate in zones recognised as being free from <i>Erwinia amylovora</i> (Burr.) Winsl. <i>et al.</i> ▶<u>M4</u> in accordance with the procedure referred to in Article 18(2) ◄;
		 (b) that the plants in the field of production and its immediate vicinity, which have shown symptoms of d'<i>Erwinia amylovora</i> (Burr.) Winsl. <i>et al.</i>, have beend rogued out.
10.	Plants of Citrus L., Fortunella Swingle,	Official statement that:
	<i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds	 (a) the plants originate in areas known to be free from Spiroplasma citri Saglio et al. Phoma tracheiphila (Petri), Kanchavel and Gikashvili, Citrus vein enation woody gall and Citrus tristeza virus (European strains);
		(b) the plants derive from a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and has been subjected to official individual testing for, at least, <i>Citrus tristeza</i> virus (European strains) and <i>Citrus</i> veir enation woody gall, using appropriate indicators or equivalent methods approved ▶ <u>M4</u> in accordance with the procedure referred to in Article 18(2) , and have been growing permanently in an insectproof glasshouse or in an isolated cage on which no symptoms of <i>Spiroplasma citri</i> Saglio <i>et al.</i> , <i>Phoma tracheiphila</i> (Pandri) Kanchaveli and Gikashvili, <i>Citrus tristeza</i> virus (European strains) and <i>Citrus</i> veir enation woody gall have been observed; or
		 (c) the plants: have been derived from a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and has beer subjected to official individual testing for, at least <i>Citrus</i> vein enation woody gall and <i>Citrus tristeza</i> virus (European strains), using appropriate indicators or equivalent methods approved ▶ M4 in accordance with the procedure referred to in Article 18(2) ◀, and has been found in these tests, free from <i>Citrus tristeza</i> virus (European strains), and certified free from at least <i>Citrus tristeza</i> virus (European strains) in official individuals tests carried out according to the methods mentioned in this indent and have been inspected and no symptoms of <i>Spiroplasma citri</i> Saglio <i>e</i>.

	Plants, plant products and other objects	Special requirements
		Kanchaveli et Gikashvili, and c <i>Citrus</i> vein enation woody gall an <i>Citrus tristeza</i> virus have bee observed since the beginning of th last complete cycle of vegetation.
11.	Plants of Araceae, Marantaceae, Musaceae,	Official statement that:
	<i>Persea</i> spp. and <i>Strelitziaceae</i> , rooted or with growing medium attached or associated	 (a) no contamination by <i>Radopholus simili</i> (Cobb) Thorne has been observed at th place of production since the beginnin of the last complete cycle of vegetation;
		or (b) soil and roots from suspected plants hav been subjected since the beginning of th last complete cycle of vegetation to off cial nematological testing for at leas <i>Radopholus similis</i> (Cobb) Thorne an have been found, in these tests, fre from that harmful organism.
12.	Plants of Fragaria L., Prunus L. and Rubus	Official statement that:
	L., intended for planting, other than seeds	(a) the plants originate in areas known to b free from the relevant harmful organisms
		or (b) no symptoms of diseases caused by th relevant harmful organisms have bee observed on plants at the place of production since the beginning of th
		last complete cycle of vegetation. The relevant harmful organisms are:
		— on <i>Fragaria</i> L.:
		— Phytophthora fragariae Hickma var. fragariae
		 Arabis mosaic virus Raspberry ringspot virus Strawberry crinkle virus Strawberry latent ringspot virus Strawberry mild yellow edg
		virus — Tomato black ring virus — Xanthomonas fragariae Kenned and King
		 — on <i>Prunus</i> L.: — Apricot chlorotic leafroll myco plasm
		 Xanthomonas campestris p pruni (Smith) Dye on Prunus persica (L.) Batsch:
		Pseudomonas syringae pv. persica (Prunier et al.) Young et al., — on Rubus L.:
		— Arabis mosaic virus
		 Raspberry ringspot virus Strawberry latent ringspot virus Tomato black ring virus.
13.	Plants of <i>Cydonia</i> Mill., and <i>Pyrus</i> L., intended for planting, other than seeds	Without prejudice to the requirements applie able to plants listed in Annex IV(A)(II)(9 official statement that:
		(a) the plants originate in areas known to b free from Pear decline mycoplasm;
		or

(b) the plants at the place of production and in its immediate vicinity, which have shown symptoms giving rise to the suspi-

	Plants, plant products and other objects	Special requirements
		cion of contamination by Pear declir mycoplasm, have been rogued out at th place within the last three comple cycles of vegetation.
14.	Plants of <i>Fragaria</i> L., intended for planting, other than seeds	Without prejudice to the requirements appli- able to the plants listed in Anne IV(A)(II)(12) official statement that:
		(a) the plants originate in areas known to be free from <i>Aphelenchoides besse</i> . Christie;
		or
		(b) no symptoms of <i>Aphelenchoides besse</i> . Christie have been observed on the plan at the place of production since th beginning of the last complete cycle of vegetation:
		or
		(c) in the case of plants in tissue culture, the plants have been derived from plant complying with section (b) of this iter or have been officially tested by appropriate nematological methods and have been found free from <i>Aphelenchoide besseyi</i> Christie.
15.	Plants of <i>Malus</i> Mill., intended for planting, other than seeds	Without prejudice to the requirements appli- able to the plants listed in Anne IV(A)(II)(9), official statement that:
		(a) the plants originate in areas known to l free from Apple proliferation mycoplasm
		or (b) (aa) the plants, other than those raise from seed, have been:
		 either officially certified under certification scheme requirin them to be derived in dire line from material which h been maintained under appr priate conditions and subject to official testing for at lea Apple proliferation mycoplas using appropriate indicators equivalent methods and h been found, in these tests, fre from that harmful organism, or
		— derived in direct line from mat rial which is maintained und appropriate conditions and h been subjected, within the la six complete cycles of veget tion, at least once, to offici testing for, at least, App proliferation mycoplasm usi appropriate indicators or equiv lent methods and has be found, in these tests, free fro that harmful organism;
		(bb) no symptoms of diseases caused b Apple proliferation mycoplasm hav been observed on the plants at th place of production, or on th susceptible plants in its immedia vicinity, since the beginning of th last three complete cycles of veget tion.

	Plants, plant products and other objects	Special requirements
16.	 Plants of the following species of <i>Prunus</i> L., intended for planting, other than seeds: <i>Prunus amygdalus</i> Batsch, <i>Prunus armeniaca</i> L., <i>Prunus blireiana</i> Andre, <i>Prunus brigantina</i> Vill., <i>Prunus cerasifera</i> Ehrh., <i>Prunus cerasifera</i> Ehrh., <i>Prunus domestica</i> ssp. <i>domestica</i> L., <i>Prunus domestica</i> ssp. <i>insititia</i> (L.) C.K. Schneid, <i>Prunus domestica</i> ssp. <i>italica</i> (Borkh.) Hegi., <i>Prunus glandulosa</i> Thunb., <i>Prunus holosericea</i> Batal., <i>Prunus mandshurica</i> (Maxim.) Koehne, <i>Prunus mandshurica</i> (Maxim.) Koehne, <i>Prunus mandshurica</i> (L.) Batsch, <i>Prunus sibirica</i> L., <i>Prunus tomentosa</i> Thunb., <i>Prunus triloba</i> Lindl. other species of <i>Prunus</i> L. susceptible to Plum pox virus 	 Without prejudice to the requrements applie able to the plants listed in Anne IV(A)(II)(12), official statement that: (a) the plants originate in areas known to be free from Plum pox virus; or (b) (aa) the plants, other than those raises from seed, have been: either officially certified under certification scheme requirint them to be derived in direct line from material which hat been maintained under appropriate conditions and subjected to official testing for, at least plum pox virus using appropriate indicators or equivalent methods and has been found, it these tests, free from the harmful organism, or derived in direct line from material which is maintained under appropriate conditions and subjected to appropriate conditions and has been subjected within the lat three complete cycles of vegetition, at least once, to officit testing for at least Plum pox virus using appropriate indicators free from that has been found, in these tests free from that has been found, in these test free from that harmful organism. (bb) no symptoms of disease caused be Plum pox virus have been observed on plants at the place of productio or on the susceptible plants in i immediate vicinity, since the begin ning of the last three complec cycles of vegetation; (cc) plants at the place of productio which have shown symptoms of disease caused by other virus-sing or virus-like pathogens, have been
17.	Plants of Vitis L., other than fruit and seeds	rogued out. Official statement that no symptoms of Grapevine Flavescence dorée MLO and <i>Xyla</i> <i>philus ampelinus</i> (Panagopoulos) Willems <i>al.</i> have been observed on the mother-stoc plants at the place of production since th beginning of the last two complete cycles of vegetation.
18.1.	Tubers of Solanum tuberosum L., intended	Official statement that:
	for planting	 (a) the Community provisions to comb Synchytrium endobioticum (Schilbersky Percival have been complied with; and (b) either the tubers originate in an are known to be free from Clavibacter mich ganensis ssp. sepedonicus (Spieckermar and Kotthoff) Davis et al. or the Commu- nity provisions to combat Clavibacter michiganensis ssp. sepedonicus (Spiecl ermann and Kotthoff) Davis et al. have

and

(c) the tubers originate from a field known to be free from *Globodera rostochiensis* (Wollenweber) Behrens and *Globodera*

 pallida (Stone) Behrens; and (d) (aa) either, the tubers originate in areaa in which Pseudomonas soland cearum (Smith) Smith is known not to occur; or (bb) in areas where Pseudomonas sola nacearum (Smith) Smith is known to occur, the tubers originate from a place of production found free from Pseudomonas solanacearum (Smith) Smith, or considered to b free thereof, as a consequence of the implementation of an appropriate procedure aiming at eradic cating Pseudomonas solanacearum (Smith) Smith; and (e) either, the tubers originate in areas i which Meloidogyne chitwoodi Golden et al. (all populations) and Meloidogyne fallax Karssen are known to occur:
 (d) (aa) either, the tubers originate in area in which <i>Pseudomonas soland cearum</i> (Smith) Smith is known not to occur; or (bb) in areas where <i>Pseudomonas sola nacearum</i> (Smith) Smith is known to occur, the tubers originate from a place of production found free from <i>Pseudomonas solanacearum</i> (Smith) Smith, or considered to be free thereof, as a consequence of the implementation of an appropriate procedure aiming at erad cating <i>Pseudomonas solanacearum</i> (Smith) Smith; and (e) either, the tubers originate in areas in which <i>Meloidogyne chitwoodi</i> Golden <i>et al.</i> (all populations) and <i>Meloidogyne fallax</i> Karssen are known to to occur
 nacearum (Smith) Smith is know to occur, the tubers originate fro a place of production found from <i>Pseudomonas solanacearu</i> (Smith) Smith, or considered to b free thereof, as a consequence of the implementation of an appropriate procedure aiming at eracle cating <i>Pseudomonas solanacearu</i> (Smith) Smith; and (e) either, the tubers originate in areas which <i>Meloidogyne chitwoodi</i> Golden <i>al.</i> (all populations) and <i>Meloidogyn fallax</i> Karssen are known not to occur or in areas where <i>Meloidogyne chitwoo</i> Golden <i>et al.</i> (all populations) and <i>Meloidogyne fallax</i> Karssen are known
(e) either, the tubers originate in areas which Meloidogyne chitwoodi Golden al. (all populations) and Meloidogyn fallax Karssen are known not to occu or in areas where Meloidogyne chitwood Golden et al. (all populations) and Melo dogyne fallax Karssen are known
which <i>Meloidogyne chitwoodi</i> Golden al. (all populations) and <i>Meloidogyn</i> fallax Karssen are known not to occu or in areas where <i>Meloidogyne chitwoo</i> Golden et al. (all populations) and <i>Melo</i> dogyne fallax Karssen are known
— either, the tubers originate from place of production which has been found free freom <i>Meloidogyne ch.</i> woodi Golden et al. (all population and <i>Meloidogyne fallax</i> Karsse based on an annual survey of ho crops by visual inspection of ho plants at appropriate times and b visual inspection both externally an by cutting of tubers after harve from potato crops grown at the plan of production, or
— the tubers after harvest have be randomly sampled and, eith checked for the presence of sym toms after an appropriate method induce symptoms or laboratory teste as well as inspected visually be externally and by cutting the tube at appropriate times and in all cas at the time of closing of the pace gages or containers before marketin according to the provisions on closin in Council Directive 66/403/EEC, an no symptoms of <i>Meloidogyne ch</i> woodi Golden et al. (all population and <i>Meloidogyne fallax</i> Karssen ha been found.
Without prejudice to the special requirement applicable to the tubers listed in Ann IV(A)(II)(18.1), official statement that to tubers:
 belong to advanced selections such statement being indicated in an appr priate way on the document accomp nying the relevant tubers, have been produced within the Comm

have been derived in direct line from material which has been maintained under appropriate conditions and has been subjected within the Community to official quarantine testing in accordance with

	Plants, plant products and other objects	Special requirements
		appropriate methods and has been found in these tests, free from harmful organ isms.
18.3.	Solanum L., or their hybrids, intended for planting, other than those tubers of Solanum tuberosum L. specified in Annex $IV(A)(II)(18.1)$ or (18.2) , and other than	(a) The plants shall have been held unde quarantine conditions and shall have been found free of any harmful organ isms in quarantine testing;(b) the quarantine testing referred to in (a)
	culture maintenance material being stored in gene banks or genetic stock collections	shall:
		(aa) be supervised by the official plan protection organisation of the Member State concerned and executed by scientifically trained staff of that organisation or of any officially approved body;
		(bb) be executed at a site provided with appropriate facilities sufficient to contain harmful organisms and maintain the material including indicator plants in such a way as to eliminate any risk of spreading harmful organisms;
		(cc) be executed on each unit of the material,
		— by visual examination at regula intervals during the full lengt of at least one vegetative cycle having regard to the type o material and its stage of devel opment during the testin programme, for symptom caused by any harmful organ isms,
		 by testing, in accordance wit appropriate methods to b submitted to the Committe referred to in Article 18:
		— in the case of all potat material at least for
		— Andean potato later virus,
		 — Arracacha virus B. oc strain, — Potato black ringspo
		virus, — Potato spindle tube
		viroid, — Potato virus T,
		 Andean potato mottl virus, common potato viruse
		A, M, S, V, X and X (including Y° , Y^{n} un Y°) and Potato leaf rot virus,
		 Clavibacter michiga nensis ssp. sepedonicu (Spieckermann an Kotthoff) Davis et al.,
		- Pseudomonas soland ceanum (Smith) Smith;
		 in the case of true see potato of least for the viruse and viroid listed above;
		(dd) by appropriate testing on any othe symptom observed in the visua examination in order to identify th harmful organisms having cause

	Plants, plant products and other objects	Special requirements
		 such symptoms; (c) any material, which has not been found free, under the testing specified unde (b) from harmful organisms as specified under (b) shall be immediately destroyed or subjected to procedures which elimi nate the harmful organism(s); (d) each organisation or research body holding this material shall inform thei official Member State plant protection service of the material held.
18.4.	Plants of stolon, or tuber-forming species of <i>Solanum</i> L., or their hybrids, intended for planting, being stored in gene banks or genetic stock collections	Each organisation or research body holdin, such material shall inform their officia Member State plant protection service of th material held.
18.5.	Tubers of <i>Solanum tuberosum</i> L., other than those mentioned in Annex IV(A)(II)(18.1), (18.2), (18.3) or (18.4)	There shall be evidence by a registration number put on the packaging, or in the cas of loose-loaded potatoes transported in bulk on the vehicle transporting the potatoes, that the potatoes have been grown by an officially registered producer, or originate from offi- cially registered collective storage of dispatching centres located in the area of production, indicating that the tubers are free from <i>Pseudomonas solanacearum</i> (Smith Smith and that
		 (a) the Community provisions to comba Synchytrium endobioticum (Schilbersky Percival; and (b) where appropriate, the Community provisions to combat Clavibacter michiga nensis ssp. sepedonicus (Spieckerman)
18.6.	Plants of Solanaceae intended for planting, other than seeds and other than plants mentioned in Annex IV(A)(II)(18.4) or (18.5)	and Kotthoff) Davis <i>et al.</i> are complied with. Without prejudice to the requirements applic able to the plants, listed in Anne: IV(A)(II)(18.1), (18.2) and (18.3), wher appropriate, official statement that:
		 (a) the plants originate in areas known to b free from Potato stolbur mycoplasm; or (b) no symptoms of Potato stolbur mycoplasm have been observed on the plant at the place of production since th beginning of the last complete cycle o vegetation.
18.7.	Plants of <i>Capsicum annuum</i> L., <i>Lycopersicum lycopersicum</i> (L.) Karsten ex Farw., <i>Musa</i> L., <i>Nicotiana</i> L., and <i>Solanum melongena</i> L., intended for planting, other than	Without prejudice to the requirements applic able to the plants listed in Anne V(A)(II)(18.6) where appropriate, officia statement that:
	seeds	 (a) the plants originate in areas which have been found free from <i>Pseudomonas sola nacearum</i> (Smith) Smith; or (b) no symptoms of <i>Pseudomonas solana cearum</i> (Smith) Smith have been observed on the plants at place o production since the beginning of the last complete cycle of vegetation.
19.	Plants of <i>Humulus lupulus</i> L. intended for planting, other than seeds	Official statement that no symptoms of Verticillium albo-atrum Reinke and Berthold and of Verticillium dahliae Klebahn have been observed on hops at the place of production since the beginning of the last complete cycle of vegetation.

	Plants, plant products and other objects	Special requirements
20.	Plants of Dendranthema (DC) Des Moul.,	Official statement that:
	<i>Dianthus</i> L. and <i>Pelargonium</i> l'Hérit, ex Ait. intended for planting, other than seeds	 (a) no signs of <i>Heliothis armgera</i> Hübner of <i>Spodoptera littoralis</i> (Boisd.) have been observed at the place of production since the beginning of the last complete cycle of vegetation; or
		(b) the plants have undergone appropriat treatment to protect them from the sai organisms.
21.1.	Plants of <i>Dendranthema</i> (DC) Des Moul. intended for planting, other than seeds	Without prejudice to the requirements applie able to the plants listed in Anne IV(A)(II)(20), official statement that:
		(a) the plants are no more than third generation stock derived from material which has been found to be free from Chrysanthemum stunt viroid during virological tests, or are directly derived from material of which a representative samp of at least 10 % has been found to be free from Chrysanthemum stunt viroid during an official inspection carried on at the time of flowering;
		(b) the plants or cuttings have come from premises:
		 which have been officially inspected at least monthly, during the three months prior to dispatch and or which no symptoms of <i>Puccinin horiana</i> Hennings have been observed during that period, and it the immediate vicinity of which more symptoms of <i>Puccinia horian</i> Hennings have been known to have occurred during the three month prior to marketing, or
		 the consignment has undergor appropriate treatment again Puccinia horiana Hennings;
		 (c) in the case of unrooted cuttings no symptoms of <i>Didymella ligulicola</i> (Bake Dimock and Davis) v. Arx were observe either on the cuttings or on the plan from which the cuttings were derived, of that, in the case of rooted cuttings, m symptoms of <i>Didymella ligulicol</i> (Baker, Dimock and Davis) v. Arx were observed either on the cuttings or on the rooting bed.
21.2.	Plants of <i>Dianthus</i> L. intended for planting, other than seeds	Without prejudice to the requirements appli- able to the plants listed in Anne IV(A)(II)(20), official statement that:
		— the plants have been derived in direct lir from mother plants which have bee found free from <i>Erwinia chrysanthen</i> pv. <i>dianthicola</i> (Hellmers) Dickey, <i>Pseu domonas caryophylli</i> (Burkholder) Sta and Burkholder and <i>Phialophora cinere</i> . <i>cens</i> (Wollenw.) van Beyma on officiall approved tests carried out at least ond within the two previous years,
		 no symptoms of the above harmful organ isms have been observed on the plants.
22.	Bulbs of <i>Tulipa</i> L. and <i>Narcissus</i> L., other than those for which there shall be evidence by their packaging, or by other means, that they are intended for sale to final consumers	Official statement that no symptoms of <i>Dity</i> <i>lenchus dipsaci</i> (Kühn) Filipjev have bee observed on the plants since the beginnin of the last complete cycle of vegetation.

	Plants, plant products and other objects	Special requirements
	not involved in professional cut-flower production	
23.	 Plants of herbaceous species, intended for planting, other than: bulbs, corms, plants of the family Gramineae, rhizomes, seeds, tubers 	 Without prejudice to the requirements applicable to the plants in Annex IV, Part A Section II(20), (21.1) or (21.2), official statement that: (a) the plants originate in an area known the free from <i>Liriomyza huidobrensu</i> (Blanchard) and <i>Liriomyza trifole</i> (Burgess), or (b) either no signs of <i>Liriomyza huidobrensu</i> (Blanchard) and <i>Liriomyza trifole</i> (Burgess) have been observed at the place of production, on official inspections carried out at least monthly during the three months prior to marketing, or (c) immediately prior to marketing, the planchard) and <i>Liriomyza trifole</i> (Blanchard) and <i>Liriomyza trifole</i> (Blanchard) (Burgess) have been officially inspected and found free from <i>Liriomyza huidobrensu</i> (Blanchard) and <i>Liriomyza trifole</i> (Blanchard) and <i>Liriomyza tri</i>
24.	Plants with roots, planted or intended for planting, grown in the open air	huidobrensis (Blanchard) and Liriomyz trifolii (Burgess). There shall be evidence that the place of production is known to be free from Clavi bacter michiganensis ssp. sepedonicu (Spieckermann and Kotthoff) Davis et al Globodera pallida (Stone) Behrens, Globo dera rostochiensis (Wollenweber) Behren and Synchytrium endobioticum (Schilbersky Percival.
25.	Plants of <i>Beta vulgaris</i> L., intended for planting, other than seeds	 Official statement that: (a) the plants originate in areas known to b free from Beet leaf curl virus; or (b) Beet leaf curl virus has not been know to occur in the area of production an no symptoms of Beet leaf curl viru have been observed at the place of production or in its immediate vicinit since the beginning of the last complet cycle of vegetation.
26.	Seeds of <i>Helianthus annuus</i> L.	 Official statement that: (a) the seeds originate in areas known to b free from <i>Plasmopara halstedii</i> (Farlow Berl. and de Toni; or (b) the seeds, other than those seeds that have been produced on varieties resistant to all races of <i>Plasmopara halstedi</i> (Farlow) Berl. and de Toni present i the area of production, have bee subjected to an appropriate treatmer against <i>Plasmopara halstedii</i> (Farlow Berl. and de Toni.
26.1.	Plants of <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw., intended for planting, other than seeds	Without prejudice to the requirements applied able to the plants, where appropriate, listed in Annex $IV(a)(II)(18.6)$ and (23) official state

▼B

Plants, plant products and other objects	Special requirements
	 or (b) no symptoms of Tomato yellow leaf cuvirus have been observed on the plants; and (aa) the plants originate in areas know to be free from <i>Bemisia taba</i>. Genn; or (bb) the place of production has been found free from <i>Bemisia taba</i>. Genn. on official inspections carried out at least monthly during the three months prior to export; or (c) no symptoms of Tomato yellow leaf cuvirus have been observed on the place of production has been subjected to an appropriat treatment and monitoring regime the ensure freedom from <i>Bemisia taba</i>. Genne
27. Seeds of <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw.	Genn. Official statement that the seeds have been obtained by means of an appropriate acci- extraction method or an equivalent method approved $\blacktriangleright M4$ in accordance with the procedure referred to in Article 18(2) \triangleleft ; and
	 (a) either the seeds originate in areas when <i>Clavibacter michiganensis</i> ssp. michiga <i>nensis</i> (Smith) Davis <i>et al.</i> or Xantha <i>monas campestris</i> pv. vesicatory (Doidge) Dye are not known to occur; or
	 (b) no symptoms of diseases caused by the harmful organisms have been observe on the plants at the place of production during their last complete cycle of vege tation;
	 (c) the seeds have been subjected to offici testing for at least those harmful organ isms, on a representative sample ar using appropriate methods, and hav been found, in these tests, to be free from those harmful organisms.
28.1. Seeds of Medicago sativa L.	Official statement that:
	 (a) no symptoms of <i>Ditylenchus dipsa</i> (Kühn) Filipjev have been observed the place of production since the begin ning of the last complete cycle of veget: tion and that no <i>Ditylenchus dipsa</i> (Kühn) Filipjev has been revealed be laboratory tests on a representative sample; or
	(b) that fumigation has taken place prior marketing.
28.2. Seeds of Medicago sativa L.	Without prejudice to the requirements appli- able to the plants listed in Anne IV(A)(II)(28.1), official statement that:
	 (a) the seeds originate in areas known to be free from <i>Clavibacter michiganensis</i> sp <i>insidiosus</i> Davis <i>et al.</i>;

or

	Plants, plant products and other objects	Special requirements
		(b) — Clavibacter michiganensis ssp. insi diosus Davis et al. has not been known to occur on the farm or in the immediate vicinity since the begin ning of the past 10 years, and
		 the crop belongs to a variety recognised as being highly resiss tant to <i>Clavibacter michiganensi</i> ssp. <i>insidiosus</i> Davis <i>et al.</i>,
		or — it had not yet started its fourth complete cycle of vegetation from sowing when the seed wa harvested, and there was no more than one preceding seed harvest from the crop,
		or — the content of inert matter which has been determined in accord dance with the rules applicable for certification of seed wa marketed in the Community, doe not exceed 0,1 % by weight,
		 no symptoms of <i>Clavibacter michiga</i> nensis ssp. insidiosus Davis et al have been observed at the place of production or on any <i>Medicago sativ</i>. L. crop adjacent to it, during the las complete cycle of vegetation of where appropriate, the last two cycle of vegetation,
		 the crops has been grown on land o which no previous <i>Medicago sativ</i>. L. crop has been present during th last three years prior to sowing.
29.	Seeds of Phaseolus L.	Official statement that:
		 (a) the seeds originate in areas known to b free from <i>Xanthomonas campestris</i> py <i>phaseoli</i> (Smith) Dye;
		or
		(b) a representative sample of the seeds ha been tested and found free from <i>Xantho</i> <i>monas campestris</i> pv. <i>phaseoli</i> (Smith Dye in these tests.
30.1.	Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids	The packaging shall bear an appropriat origin mark.

PART B

SPECIAL REQUIREMENTS WHICH SHALL BE LAID DOWN BY ALL MEMBER STATES FOR THE INTORDUCTION AND MOVEMENT OF PLANTS, PLANT PRODUCTS AND OTHER OBJECTS INTO AND WITHIN CERTAIN PROTECTED ZONES

Plants, plant products and other objects	Special requirements	Protected zone(s)
Wood of coniferales)	Without prejudice to the requirements applicable to the wood listed in Annex IV(A)(1)(1.1), (1.2), (1.3), (1.4), (1.5), (7), where appropriate: (a) the wood shall be stripped of its bark; or (b) official statement that the wood origi- nates in areas known to be free from <i>Dendroctonus micans</i> Kugelan; or (c) there shall be evidence by a mark 'Kiln- dried', 'KD' or another internationally recognised mark, put on the wood or on its packaging in accordance with current commercial usage, that it has undergone kiln-drying to below 20 % moisture content, expressed as a percentage of dry matter, at time of manufacture, achieved through an appropriate time/temperature schedule.	►M2 EL, IRL, UK (Scotland, Northern Ireland, Jersey, England: the following coun- ties, districts and unitary authorities: Barnsley, Bath and North East Somerset, Bedfordshire, Bournemouth, Bracknell Forest, Bradford, Bristol, Brighton and Hove, Buckinghamshire, Calderdale, Cambridgeshire, Conwall, Cumbria, Darlington, Devon, Doncaster, Dorset, Durham, East Riding of Yorkshire, East Sussex, Essex, Gateshead, Greater London, Hampshire, Hartlepool, Hertfordshire, Kent, Kingston upon Hull, Kirklees, Leeds, Leicester City, Lincolnshire, Luton, Medway Council, Middlesbrough, Milton Keynes, Newbury, Newcastle upon Tyne, Norfolk, Northamptonshire, Northumberland, North Lincolnshire, North East Lincolnshire, North Lincolnshire, Norther Keynes, Newbury, Newcastle upon Tyne, Norfolk, Northamptonshire, Oxfordshire, Peterbor- ough, Plymouth, Poole, Portsmouth, Reading, Redear and Cleveland, Rotherham, Rutland, Sheffield, Slough, Somerset, Southend, South- ampton, South Tyneside, Stockton-on-Tees, Suffolk, Sunderland, Surrey, Swindon, Thur- rock, Torbay, Wakefield, West Sussex, Windsor and Maidenhead, Wokingham, York, the Isle of Man, the Isle of Wight, the Isles of Scilly, and the following parts of counties, districts and unitary authorities; Derby City: that part of the unitary authority which lies to the north of the northern boundary of the AS2(T) road together with that part of the antimized and that part of the county which lies to the north of the northern boundary of the A6(T) road; Gloucestershire: that part of the county which lies to the eastern boundary of the Fosse Way Roman road;

Protected zone(s)	Leicestershire: that part of the county which lies to the east of the eastern boundary of the Fosse Way Roman road, together with that part of the county which lies to the east of the eastern boundary of the B4114 road, and that part of the county which lies to the east of the eastern boundary of the M1 motorway; North Yorkshire: the whole county, except that part of the county which lies to the south of the unitary authority which lies to the south of the unitary authority which lies to the south of the southern boundary of the M4 motorway; Staf- fordshire: that part of the county which lies to the east of the eastern boundary of the A523 road, Warwickshire: that part of the county which lies to the eastern boundary of the Fosse Way Roman road; Wittshire: that part of the county which lies to the south of the southern boundary of the M4 motorway, and that part of the county which lies to the east of the eastern boundary of the Fosse Way Roman road; Wittshire: that part of the county which lies to the southern boundary of the M4 motorway, and that part of the county which lies to the east of the county which lies to the south of the south of the southern boundary of the M4 motorway, and that part of the county which lies to the east of the eastern boundary of the K480 Man road. ANNEX V

PLANTS, PLANT PRODUCTS AND OTHER OBJECTS WHICH MUST BE SUBJECT TO A PLANT HEALTH INSPECTION (AT THE PLACE OF PRODUCTION IF ORIGINATING IN THE COMMUNITY, BEFORE BEING MOVED WITHIN THE COMMUNITY — IN THE COUNTRY OF ORIGIN OR THE CONSIGNOR COUNTRY, IF ORIGINATING OUTSIDE THE COMMUNITY) BEFORE BEING PERMITTED TO ENTER THE COMMUNITY

PART A

PLANTS, PLANT PRODUCTS AND OTHER OBJECTS ORIGINATING IN THE COMMUNITY

- I. Plants, plant products and other objects which are potential carriers of harmful organisms of relevance for the entire Community and which must be accompanied by a plant passport
 - 1. Plants and plant products

▼<u>M8</u>

1.1. Plants, intended for planting, other than seeds, of Amelanchier Med., Chaenomeles Lindl., Cotoneaster Ehrh., Crataegus L., Cydonia Mill., Eriobotrya Lindl., Malus Mill., Mespilus L., Photinia davidiana (Dene.) Cardot, Prunus L., other than Prunus laurocerasus L. and Prunus lusitanica L., Pyracantha Roem., Pyrus L. and Sorbus L.

▼B

- 1.2. Plants of *Beta vulgaris* L. and *Humulus lupulus* L., intended for planting, other than seeds.
- 1.3. Plants of stolon- or tuber-forming species of *Solanum* L. or their hybrids, intended for planting.
- 1.4. Plants of *Fortunella* Swingle, *Poncirus* Raf., and their hybrids and *Vitis* L., other than fruit and seeds.
- 1.5. Without prejudice to point 1.6, plants of *Citrus* L. and their hybrids other than fruit and seeds.
- 1.6. Fruits of *Citrus* L., *Fortunella* Swingle, *Poncirus* Raf. and their hybrids with leaves and peduncles.
- 1.7. Wood within the meaning of the first subparagraph of Article 2(2), where it:
 - (a) has been obtained in whole or part from one of the following genera:
 - Castanea Mill, excluding wood which has been stripped of bark,
 - Platanus L., including wood which has not kept its natural round surface

and

⁽b) meets one of the following descriptions laid down in Annex I, Part II to Council Regulation (EEC) No 2658/87 of 23 July 1987 on the tariff and statistical nomenclature and on the Common Customs Tariff (¹):

CN code	Description
4401 10 00	Fuel wood, in logs, in billets, in twigs, in faggots or in similar forms
4401 22 00	Wood in chips or particles
ex 4401 30	Wood waste and scrap, not agglomerated in logs, briquettes, pellets or similar forms
4403 99	Wood in the rough, whether or not stripped of bark or sapwood, or squared:
	 other than treated with paint, stains, creosote or other preservatives,
	— other than coniferous, oak (<i>Quercus</i> spp.) or beech (<i>Fagus</i> spp.)
ex 4401 30	 Wood waste and scrap, not agglomerated in logs briquettes, pellets or similar forms Wood in the rough, whether or not stripped o bark or sapwood, or squared: — other than treated with paint, stains, creosote or other preservatives, — other than coniferous, oak (<i>Ouercus</i> spp.) or the statement of the statemen

CN code	Description
ex 4404 20 00	Split poles: piles, pickets and stakes of wood, painted but not sawn lengthwise:
	— non-coniferous
4406 10 00	Railway or tramway sleepers (cross-ties) of wood
	— not impregnated
ex 4407 99	Wood sawn or chipped lengthwise, sliced or peeled, not planed, sanded or finger-jointed, of a thickness exceeding 6 mm, in particular beams, planks, flitches, boards, laths:
	— other than coniferous, tropical woods, oak (<i>Quercus</i> spp.) or beech (<i>Fagus</i> spp.).

- 1.8. Isolated bark of Castanea Mill.
- 2. Plants, plant products and other objects produced by producers whose production and sale is authorised to persons professionally engaged in plant production, other than those plants, plant products and other objects which are prepared and ready for sale to the final consumer, and for which it is ensured by the responsible official bodies of the Member States, that the production thereof is clearly separate from that of other products
- 2.1. Plants intended for planting other than seeds of the genera Abies Mill., Apium graveolens L., Argyranthemum spp., Aster spp., Brassica spp., Castanea Mill., Cucumis spp., Dendranthema (DC) Des Moul., Dianthus L. and hybrids Exacum spp., Fragaria L., Gerbera Cass., Gypsophila L., all varieties of New Guinea hybrids of Impatiens L., Lactuca spp., Larix Mill., Leucanthemum L., Lupinus L., Pelargonium l'Hérit. ex Ait., Picea A. Dietr., Pinus L., Platanus L., Populus L., Prunus laurocerasus L., Prunus lusitanica L., Pseudotsuga Carr., Quercus L., Rubus L., Spinacia L., Tanacetum L., Tsuga Carr., Verbena L. ► M3 and other plants of herbaceous species, other than bulbs, corms, rhizomes, seeds and tubers
- 2.2. Plants of *Solanaceae*, other than those referred to in point 1.3 intended for planting, other than seeds.
- 2.3. Plants of *Araceae*, *Marantaceae*, *Musaceae*, *Persea* spp. and *Strelitzia-ceae*, rooted or with growing medium attached or associated
- 2.4. Seeds and bulbs of *Allium ascalonicum* L., *Allium cepa* L. and *Allium schoenoprasum* L. intended for planting and plants of *Allium porrum* L. intended for planting.
- 3. Bulbs and corms intended for planting, produced by producers whose production and sale is authorised to persons professionally engaged in plant production, other than those plants, plant products and other objects which are prepared and ready for sale to the final consumer, and for which it is ensured by the responsible official bodies of the Member States, that the production thereof is clearly separate from that of other products of *Camassia* Lindl., *Chionodoxa* Boiss., *Crocus flavus* Weston 'Golden Yellow', *Galanthus* L., *Galtonia candicans* (Baker) Decne., miniature cultivars and their hybrids of the genus *Gladiolus* Tourn. ex L., such as *Gladiolus callianthus* Marais, *Gladiolus colvillei* Sweet, *Gladiolus nanus* hort., *Gladiolus ramosus* hort. and *Gladiolus tubergenii* hort., *Hyacinthus* L., *Iris* L., *Ismene* Herbert, *Muscari* Miller, *Narcissus* L., *Orinthogalum* L., *Puschkinia* Adams, *Scilla* L. *Tigridia* Juss. and *Tulipa* L.
- II. Plants, plant products and other objects which are potential carriers of harmful organisms of relevance for certain protected zones, and which must be accompanied by a plant passport valid for the appropriate zone when introduced into or moved within that zone

Without prejudice to the plants, plant products and other objects listed in Part I.

1. Plants, plant products and other objects

1.1.	Plants of Albies	Mill.,	Larix	Mill.,	Picea	A.	Dietr.,	Pinus	L.	and	Pseu-
	dotsuga Carr.										

1.2. Plants intended for planting, other than seeds, of *Populus* L. and *Beta vulgaris* L.

▼M8

- 1.3. Plants, other than fruit and seeds, of Amelanchier Med., Chaenomeles Lindl., Cotoneaster Ehrh., Crataegus L., Cydonia Mill., Eriobotrya Lindl., Eucalyptus L'Herit., Malus Mill., Mespilus L., Photinia davidiana (Dcne.) Cardot, Pyracantha Roem., Pyrus L. and Sorbus L.;
- 1.4. Live pollen for pollination of Amelanchier Med., Chaenomeles Lindl., Cotoneaster Ehrh., Crataegus L., Cydonia Mill., Eriobotrya Lindl., Malus Mill., Mespilus L., Photinia davidiana (Dene.) Cardot, Pyracantha Roem., Pyrus L. and Sorbus L.

▼B

1.5. Tubers of Solanum tuberosum L., intended for planting.

▼<u>M3</u>

- 1.6. Plants of Beta vulgaris L., intended for industrial processing
- 1.7. Soil from beet and unsterilised waste from beet (Beta vulgaris L.)

▼B

- 1.8. Seeds of *Beta vulgaris* L., *Dolichos* Jacq., *Gossypium* spp. and *Phaseolus vulgaris* L.
- 1.9. Fruits (bolls) of Gossypium spp. and unginned cotton
- 1.10. Wood within the meaning of the first subparagraph of Article 2(2), where it
 - (a) has been obtained in whole or part from conifers (*Coniferales*), excluding wood which has been stripped of bark;
 and
 - (b) meets one of the following descriptions laid down in Annex I, Part II to Regulation (EEC) No 2658/87.

CN code	Description
4401 10 00	Fuel wood, in logs, in billets, in twigs, in faggots or in similar forms
4401 21 00	Wood in chips or particles
ex 4401 30	Wood waste and scrap, not agglomerated in logs, briquettes, pellets or similar forms
4403 20	Wood in the rough, whether or not stripped of bark or sapwood, or roughly squared:
	 other than treated with paint, stains creosote or other preservatives
ex 4404 10 00	Split poles: piles pickets and stakes of wood, pointed but not sawn lengthwise
4406 10 00	Railway or tramway sleepers (cross-ties):
	— not impregnated
ex 4407 10	Wood sawn or chipped lengthwise sliced or peeled, not planed, sanded or finger-jointed, of a thickness exceeding 6 mm (in particular, beams, planks, flitches, boards, laths)
ex 4415 10	Packing cases, crates, drums
ex 4415 20	Pallets, box pallets and other load boards:
	 other than pallets and box pallets where they satisfy the standard set up for 'UIC pallets' and are marked accordingly

- 1.11. Isolated bark of conifers (Coniferales).
- 2. Plants, plant products and other objects produced by producers whose production and sale is authorised to persons professionally engaged in plant production, other than those plants, plant products and other objects which are prepared and ready for sale to the final consumer, and for which it is ensured by the responsible official bodies of the

▼B

Member States, that the production thereof is clearly separate from that of other products

▼<u>M3</u>

▼B

2.1. Plants of *Begonia* L., intended for planting, other than corms, seeds, tubers, and plants of *Euphorbia pulcherrima* Willd., *Ficus* L. and *Hibiscus* L., intended for planting, other than seeds

PART B

PLANTS, PLANT PRODUCTS AND OTHER OBJECTS ORIGINATING IN TERRITORIES, OTHER THAN THOSE TERRITORIES REFERRED TO IN PART A

I. Plants, plant products and other objects which are potential carriers of harmful organisms of relevance for the entire Community

- Plants, intended for planting, other than seeds but including seeds of Cruciferae Gramineae, Trifolium spp., originating in Argentina, Australia, Bolivia, Chile, New Zealand and Uruguay, genera Triticum, Secale and X Triticosecale from Afghanistan, India, Iraq, Mexico, Nepal, Pakistan ▶<u>M5</u>, South Africa < and the USA. Capsicum spp. Helianthus annuus L., Lycopersicon lycopersicum (L.) Karsten ex Farw., Medicago sativa L., Prunus L., Rubus L., Oryza spp., Zea mais L., Allium ascalonicum L., Allium cepa L., Allium porrum L., Allium schoenoprasum L. and Phaseolus L.
- 2. \blacktriangleright M7 Parts of plants, other than fruits and seeds of:
 - Castanea Mill., Dendranthema (DC) Des. Moul., Dianthus L., Gypsophila L., Pelargonium l'Herit. ex Ait, Phoenix spp., Populus L., Quercus L., Solidago L. and cut flowers of Orchidaceae,
 - conifers (*Coniferales*),
 - Acer saccharum Marsh., originating in North American countries,
 - Prunus L., originating in non-European countries,
 - Cut flowers of Aster spp., Eryngium L., Hypericum L., Lisianthus L., Rosa L. and Trachelium L., originating in non-European countries,
 - Leafy vegetables of Apium graveolens L. and Ocimum L. ◀
- 3. Fruits of:
 - Citrus L., Fortunella Swingle, Poncirus Raf., and their hybrids
 ► M3, Momordica L. and Solanum melongena L.
 - Annona L., Cydonia Mill., Diospyros L., Malus Mill., Mangifera L., Passiflora L., Prunus L., Psidium L., Pyrus L., Ribes L. Syzygium Gaertn., and Vaccinium L., originating in non-European countries.
- 4. Tubers of Solanum tuberosum L.
- 5. Isolated bark of:
 - conifers (Coniferales),
 - Acer saccharum Marsh, Populus L., and Quercus L. other than Quercus suber L.
- 6. Wood within the meaning of the first subparagraph of Article 2(2), where it:
 - (a) has been obtained in whole or part from one of the order, genera or species as described hereafter:
 - Castanea Mill.,
 - Castanea Mill., Quercus L., including wood which has not kept its natural round surface, originating in North American countries,
 - Platanus L., including wood which has not kept its natural round surface,
 - Conifers (*Coniferales*), other than *Pinus* L., originating in non-European countries, including wood which has not kept its natural round surface,
 - Pinus L., including wood which has not kept its natural round surface,
 - Populus L., originating in countries of the American continent,
 - Acer saccharum Marsh., including wood which has not kept its natural surface, originating in North American countries,

b) meets one of the following descriptions laid down in Annex I, Part II to Regulation (EEC) No 2658/87.

CN code	Description
4401 10 00	Fuel wood, in logs, in billets, in twigs, in faggots or in similar forms
ex 4401 21 00	Wood in chips or particles
	 — coniferous originating in non-European coun- tries
4401 22	Wood in chips or particles
	— non-coniferous
ex 4401 30	Wood waste and scrap, not agglomerated in logs, briquettes, pellets, or similar forms
ex 4403 20	Wood in the rough, whether or not stripped of bark or sapwood or roughly squared
	 other than treated with paint, stains, creosote or other preservatives, coniferous originating in non-European countries
4403 91 00	Wood in the rough, whether or not stripped of bark or sapwood or squared:
	 other than treated with paint, stains, creosote or other preservatives oak (<i>Quercus</i> spp.)
4403 99	Wood in the rough, whether or not stripped of bark or sapwood, or squared:
	 other than treated with paint, stains, creosote or other preservatives, other than coniferous, of oak (<i>Quercus</i> spp.) or other than coniferous, of oak (<i>Quercus</i> spp.)
ex 4404 10 00	of beech (<i>Fagus</i> spp.) Split poles: piles, pickets and stakes of wood, pointed but not sawn lengthwise:
	 — coniferous, originating in non-European coun- tries
ex 4404 20 00	Split poles: piles, pickets and stakes of wood, pointed but not sawn lengthwise:
	— non-coniferous
4406 10 00	Railway or tramway sleepers (cross-ties) of wood:
	— not impregnated
ex 4407 10	Wood sawn or chipped lengthwise, sliced or peeled, not planed, sanded or finger-jointed, of a thickness exceeding 6 mm, in particular beams, planks, flitches, boards, laths:
	 — coniferous originating in non-European coun- tries
ex 4407 91	Wood sawn or chipped lengthwise, sliced or peeled, not planed, sanded or finger-jointed, of a thickness exceeding 6 mm, in particular beams, planks, flitches, boards, laths:
	— of oak (Quercus spp.)
ex 4407 99	Wood sawn or chipped lengthwise, sliced or peeled, not planed, sanded or finger-jointed, of a thickness exceeding 6 mm, in particular beams, planks, flitches, boards, laths:
	— other than coniferous, of tropical woods, of oak (<i>Quercus</i> spp.) or of beech (<i>Fagus</i> spp.)
ex 4415 10	Packing cases, crates and drums of wood origi- nating in non-European countries
ex 4415 20	Pallets, box pallets and other load boards, of wood originating in non-European countries
ex 4416 00	Barrels of wood, including staves, of oak (<i>Quercus</i> spp.)

Pallets and box pallets (CN code ex 4415 20) are also exempted where they satisfy the standard set up for 'UIC pallets' and are marked accordingly.

- (a) Soil and growing medium as such, which consists in whole or in part of soil or solid organic substances such as parts of plants, humus including peat or bark, other than that composed entirely of peat.
 - (b) ►<u>M3</u> Soil and growing medium, attached to or associated with plants, consisting in whole or in part of material specified in (a) or consisting in part of any solid inorganic substance, intended to sustain the vitality of the plants, originating in:
 - ► M7 Turkey,
 - Belarus, Estonia, Georgia, Latvia, Lithuania, Moldova, Russia, Ukraine,
 - non-European countries, other than Algeria, Egypt, Israel, Libya, Morocco, Tunisia. ◄
- 8. Grain of the genera *Triticum, Secale* and *X Triticosecale* originating in Afghanistan, India, Iraq, Mexico, Nepal, Pakistan $\blacktriangleright M5$, South Africa \blacktriangleleft and the USA.
- II. Plants, plant products and other objects which are potential carriers of harmful organisms of relevance for certain protected zones

Without prejudice to the plants, plant products and other objects listed in I.

▼M3

- 1. Plants of Beta vulgaris L., intended for industrial processing.
- 2. Soil from beet and unsterilised waste from beet (Beta vulgaris L.).

▼M8

- Live pollen for pollination of Amelanchier Med., Chaenomeles Lindl., Cotoneaster Ehrh., Crataegus L., Cydonia Mill., Eriobotrya Lindl., Malus Mill., Mespilus L., Photinia davidiana (Dcne.) Cardot, Pyracantha Roem., Pyrus L. and Sorbus L.;
- Parts of plants, other than fruit and seeds, of Amelanchier Med., Chaenomeles Lindl., Cotoneaster Ehrh., Crataegus L., Cydonia Mill., Eriobotrya Lindl., Malus Mill., Mespilus L., Photinia davidiana (Dene.) Cardot, Pyracantha Roem., Pyrus L. and Sorbus L.

▼B

- 5. Seeds of Dolichos Jacq., Magnifera spp., Beta vulgaris L. and Phaseolus vulgaris L.
- 6. Seeds and fruits (bolls) of Gossypium spp. and unginned cotton.
- 7. Wood within the meaning of the first subparagraph of Article 2(2), where it
 - (a) has been obtained in whole or part from conifers (*Coniferales*), other than *Pinus* L., originating in European third countries; and
 - (b) meets one of the following descriptions laid down in Annex I, Part II to Regulation (EEC) No 2658/87.

CN code	Description	
4401 10 00	Fuel wood, in logs, in billets, in twigs, in faggots or in similar forms	
4401 21 00	Wood in chips or particles	
ex 4401 30	Wood waste and scrap, not agglomerated in logs, briquettes, pellets or similar forms	
4403 20	Wood in the rough, whether or not stripped of bar or sapwood, or roughly squared:

C. Explanatory notes

1. Box 2

The reference number on the certificates is composed of:

- 'EC',
- Member State initial(s)

 identification mark for the individual certificate, consisting of numbers or a combination of letters and numbers, the letters representing the province, district, etc. of the Member State concerned, where the certificate is issued.

2. Unnumbered box

This Box is reserved for official use only.

3. Box 8

'Description of packages' means indication of the type of packages.

4. Box 9

The quantity shall be expressed either by number or weight.

5. Box 11

If there is insufficient space for the whole of the additional declaration, the text is to be continued on the back of the form.

(1) In accordance with the procedure laid down in Article 19, Member States may be authorised, on request, to comply with certain of the provisions of this Directive by a date later than 1 May 1980, but not later than 1 January 1981.

January 1981.
(²) For Greece: 1 January 1985 (Article 11(3)) and 1 March 1985 (other provisions).
(³) For Spain and Portugal: 1 March 1987.
(⁴) Within the limits of the traditional trade flows and in response to the production needs of undertakings in the former German Democratic Republic, German was authorised, at its own request and ▶ M4 in accordance with the procedure referred to in Article 18(2) ◄, to comply with Article 4(1), Article 5(1) and the relevant provisions of Article 13 in respect of the territory of the former German Democratic Republic at a date later than 1 May 1980, but not later than 31 December 1992.
(At the moment of the method with a State at the state of the method of the method of the method.

(⁵) At the request of the protected Member States.

31 March 1989 with regard to the obligations of Article 1(3) (a) (plants of *Juniperus*), in accordance with Direc-tive 89/83/EEC, amending Directive 88/271/EEC. (6)

ANNEX VIIIa

The standard fee referred to in Article 13d(2) shall be set at the following levels:

	Itom	Quantity	Drigg
Item		Quantity	Price
·	for documentary checks	Per consignment	7
(b)	for identity checks	Per consignment	
		 up to a size of a truck load, a railway wagon load or the load of a container of comparable size 	7
		— bigger than the above size	14
	for plant health checks, in accordance with the following specifications:		
	 cuttings,seedlings (except forestry reproductive material), young 	Per consignment	
	plants of strawberries or of vege-	— up to 10 000 in number	17,5
	tables	— for each additional 1 000 units	0,7
		— maximum price	140
	— shrubs, trees (other than cut	Per consignment	
	Christmas trees), other woody nursery plants including forest	— up to 1 000 in number	17,5
	reproductive material (other than seed)	— for each additional 100 units	0,44
	seeu)	— maximum price	140
	— bulbs, corms, rhizomes, tubers,	Per consignment	
	intended for planting (other than tubers of potatoes)	— up to 200 kg of weight	17,5
	. ,	— for each additional 10 kg	0,16
		— maximum price	140
	— seeds, tissue cultures	Per consignment	
		— up to 100 kg of weight	7,5
		— for each additional 10 kg	0,175
		— maximum price	140
	- other plants intended for planting,	Per consignment	
	not specified elsewhere in this table	— up to 5 000 in number	17,5
	lable	— for each additional 100 units	0,18
		— maximum price	140
	— cut flowers	Per consignment	
		— up to 20 000 in number	17,5
		— for each additional 1 000 units	0,14
		— maximum price	140
	— branches with foliage, parts of	Per consignment	
	conifers (other than cut Christmas trees)	— up to 100 kg of weight	17,5
	uces)	— for each additional 100 kg	1,75
		— maximum price	140
	— cut Christmas trees	Per consignment	
		— up to 1 000 in number	17,5
		— for each additional 100 units	1,75
		— maximum price	140
	- leaves of plants, such as herbs,	Per consignment	
	spices and leafy vegetables	— up to 100 kg of weight	17,5
		— for each additional 10 kg	1,75
		— maximum price	140
	- fruits, vegetables (other than leafy	Per consignment	
	vegetables)	 up to 25 000 kg of weight 	17,5

▼<u>M4</u>

		(in EUR)
Item	Quantity	Price
	— for each additional 1 000 kg	0,7
— tubers of potatoes	Per lot	
	— up to 25 000 kg of weight	52,5
	— for each additional 25 000 kg	52,5
— wood (other than bark)	Per consignment	
	— up to 100 m ³ of volume	17,5
	— for each additional m ³	0,175
— soil and growing medium, bark	Per consignment	
	— up to 25 000 kg of weight	17,5
	— for each additional 1 000 kg	0,7
	— maximum price	140
— grain	Per consignment	
	— up to 25 000 kg of weight	17,5
	— for each additional1 000 kg	0,7
	— maximum price	700
 other plants or plant products not specified elsewhere in this table 	Per consignment	17,5

Where a consignment does not consist exclusively of products coming under the description of the relevant indent, those parts thereof consisting of products coming under the description of the relevant indent (lot or lots) shall be treated as separate consignment.
