THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE  
EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and  
in particular Articles 44 and 95 thereof,

Having regard to the proposal from the Commission <sup>(1)</sup>,

Having regard to the opinion of the European Economic and Social  
Committee <sup>(2)</sup>,

Having regard to the opinion of the European Central Bank <sup>(3)</sup>,

Acting in accordance with the procedure laid down in Article 251 of the  
Treaty <sup>(4)</sup>,

Whereas:

- (1) Council Directives 80/390/EEC of 17 March 1980 coordinating the requirements for the drawing up, scrutiny and distribution of the listing particulars to be published for the admission of securities to official stock exchange listing <sup>(5)</sup> and 89/298/EEC of 17 April 1989 coordinating the requirements for the drawing up, scrutiny and distribution of the prospectus to be published when transferable securities are offered to the public <sup>(6)</sup> were adopted several years ago introducing a partial and complex mutual recognition mechanism which is unable to achieve the objective of the single passport provided for by this Directive. Those directives should be upgraded, updated and grouped together into a single text.
- (2) Meanwhile, Directive 80/390/EEC was integrated into Directive 2001/34/EC of the European Parliament and of the Council of 28 May 2001 on the admission of securities to official stock exchange listing and on information to be published on those securities <sup>(7)</sup>, which codifies several directives in the field of listed securities.
- (3) For reasons of consistency, however, it is appropriate to regroup the provisions of Directive 2001/34/EC which stem from Directive 80/390/EEC together with Directive 89/298/EEC and to amend Directive 2001/34/EC accordingly.

- (4) This Directive constitutes an instrument essential to the achievement of the internal market as set out in timetable form in the Commission communications 'Risk capital action plan' and 'Implementing the framework for financial market: Action Plan' facilitating the widest possible access to investment capital on a Community-wide basis, including for small and medium-sized enterprises (SMEs) and start-ups, by granting a single passport to the issuer.
- (5) On 17 July 2000, the Council set up the Committee of Wise Men on the regulation of European securities markets. In its initial report of 9 November 2000 the Committee stresses the lack of an agreed definition of public offer of securities, with the result that the same operation is regarded as a private placement in some Member States and not in others; the current system discourages firms from raising capital on a Community-wide basis and therefore from having real access to a large, liquid and integrated financial market.
- (6) In its final report of 15 February 2001 the Committee of Wise Men proposed the introduction of new legislative techniques based on a four-level approach, namely framework principles, implementing measures, cooperation and enforcement. Level 1, the directive, should confine itself to broad, general 'framework' principles, while Level 2 should contain technical implementing measures to be adopted by the Commission with the assistance of a committee.
- (7) The Stockholm European Council of 23 and 24 March 2001 endorsed the final report of the Committee of Wise Men and the proposed four-level approach to make the regulatory process for Community securities legislation more efficient and transparent.
- (8) The resolution of the European Parliament of 5 February 2002 on the implementation of financial services legislation also endorsed the Committee of Wise Men's final report, on the basis of the solemn declaration made before Parliament the same day by the Commission and the letter of 2 October 2001 addressed by the Internal Market Commissioner to the chairman of Parliament's Committee on Economic and Monetary Affairs with regard to the safeguards for the European Parliament's role in this process.
- (9) According to the Stockholm European Council, Level 2 implementing measures should be used more frequently to ensure that technical provisions can be kept up to date with market and supervisory developments and deadlines should be set for all stages of Level 2.
- (10) The aim of this Directive and its implementing measures is to ensure investor protection and market efficiency, in accordance with high regulatory standards adopted in the relevant international fora.

**▼B**

- (11) Non-equity securities issued by a Member State or by one of a Member State's regional or local authorities, by public international bodies of which one or more Member States are members, by the European Central Bank or by the central banks of the Member States are not covered by this Directive and thus remain unaffected by this Directive; the abovementioned issuers of such securities may, however, if they so choose, draw up a prospectus in accordance with this Directive.
- (12) Full coverage of equity and non-equity securities offered to the public or admitted to trading on regulated markets as defined by Council Directive 93/22/EEC of 10 May 1993 on investment services in the securities field <sup>(1)</sup>, and not only securities which have been admitted to the official lists of stock exchanges, is also needed to ensure investor protection. The wide definition of securities in this Directive, which includes warrants and covered warrants and certificates, is only valid for this Directive and consequently in no way affects the various definitions of financial instruments used in national legislation for other purposes, such as taxation. Some of the securities defined in this Directive entitle the holder to acquire transferable securities or to receive a cash amount through a cash settlement determined by reference to other instruments, notably transferable securities, currencies, interest rates or yields, commodities or other indices or measures. Depositary receipts and convertible notes, e.g. securities convertible at the option of the investor, fall within the definition of non-equity securities set out in this Directive.
- (13) Issuance of securities having a similar type and/or class in the case of non-equity securities issued on the basis of an offering programme, including warrants and certificates in any form, as well as the case of securities issued in a continuous or repeated manner, should be understood as covering not only identical securities but also securities that belong in general terms to one category. These securities may include different products, such as debt securities, certificates and warrants, or the same product under the same programme, and may have different features notably in terms of seniority, types of underlying, or the basis on which to determine the redemption amount or coupon payment.
- (14) The grant to the issuer of a single passport, valid throughout the Community, and the application of the country of origin principle require the identification of the home Member State as the one best placed to regulate the issuer for the purposes of this Directive.

<sup>(1)</sup> OJ L 141, 11.6.1993, p. 27. Directive as last amended by Directive 2000/64/EC of the European Parliament and of the Council (OJ L 290, 17.11.2000, p. 27).

**▼B**

- (15) The disclosure requirements of the present Directive do not prevent a Member State or a competent authority or an exchange through its rule book to impose other particular requirements in the context of admission to trading of securities on a regulated market (notably regarding corporate governance). Such requirements may not directly or indirectly restrict the drawing up, the content and the dissemination of a prospectus approved by a competent authority.
- (16) One of the objectives of this Directive is to protect investors. It is therefore appropriate to take account of the different requirements for protection of the various categories of investors and their level of expertise. Disclosure provided by the prospectus is not required for offers limited to qualified investors. In contrast, any resale to the public or public trading through admission to trading on a regulated market requires the publication of a prospectus.
- (17) Issuers, offerors or persons asking for the admission to trading on a regulated market of securities which are exempted from the obligation to publish a prospectus will benefit from the single passport if they comply with this Directive.
- (18) The provision of full information concerning securities and issuers of those securities promotes, together with rules on the conduct of business, the protection of investors. Moreover, such information provides an effective means of increasing confidence in securities and thus of contributing to the proper functioning and development of securities markets. The appropriate way to make this information available is to publish a prospectus.
- (19) Investment in securities, like any other form of investment, involves risk. Safeguards for the protection of the interests of actual and potential investors are required in all Member States in order to enable them to make an informed assessment of such risks and thus to take investment decisions in full knowledge of the facts.
- (20) Such information, which needs to be sufficient and as objective as possible as regards the financial circumstances of the issuer and the rights attaching to the securities, should be provided in an easily analysable and comprehensible form. Harmonisation of the information contained in the prospectus should provide equivalent investor protection at Community level.
- (21) Information is a key factor in investor protection; a summary conveying the essential characteristics of, and risks associated with, the issuer, any guarantor and the securities should be included in the prospectus. To ensure easy access to this information, the summary should be written in non-technical language and normally should not exceed 2 500 words in the language in which the prospectus was originally drawn up.

**▼B**

- (22) Best practices have been adopted at international level in order to allow cross-border offers of equities to be made using a single set of disclosure standards established by the International Organisation of Securities Commissions (IOSCO); the IOSCO disclosure standards<sup>(1)</sup> will upgrade information available for the markets and investors and at the same time will simplify the procedure for Community issuers wishing to raise capital in third countries. The Directive also calls for tailored disclosure standards to be adopted for other types of securities and issuers.
- (23) Fast-track procedures for issuers admitted to trading on a regulated market and frequently raising capital on these markets require the introduction at Community level of a new format of prospectuses for offering programmes or mortgage bonds and a new registration document system. Issuers may choose not to use those formats and therefore to draft the prospectus as a single document.
- (24) The content of a base prospectus should, in particular, take into account the need for flexibility in relation to the information to be provided about the securities.
- (25) Omission of sensitive information to be included in a prospectus should be allowed through a derogation granted by the competent authority in certain circumstances in order to avoid detrimental situations for an issuer.
- (26) A clear time limit should be set for the validity of a prospectus in order to avoid outdated information.
- (27) Investors should be protected by ensuring publication of reliable information. The issuers whose securities are admitted to trading on a regulated market are subject to an ongoing disclosure obligation but are not required to publish updated information regularly. Further to this obligation, issuers should, at least annually, list all relevant information published or made available to the public over the preceding 12 months, including information provided to the various reporting requirements laid down in other Community legislation. This should make it possible to ensure the publication of consistent and easily understandable information on a regular basis. To avoid excessive burdens for certain issuers, issuers of non-equity securities with high minimum denomination should not be required to meet this obligation.
- (28) It is necessary for the annual information to be provided by issuers whose securities are admitted to trading on a regulated market to be appropriately monitored by Member States in accordance with their obligations under the provisions of Community and national law concerning the regulation of securities, issuers of securities and securities markets.

---

<sup>(1)</sup> International disclosure standards for cross-border offering and initial listings by foreign issuers, Part I, International Organisation of Securities Commissions, September 1998.

**▼B**

- (29) The opportunity of allowing issuers to incorporate by reference documents containing the information to be disclosed in a prospectus — provided that the documents incorporated by reference have been previously filed with or accepted by the competent authority — should facilitate the procedure of drawing up a prospectus and lower the costs for the issuers without endangering investor protection.
- (30) Differences regarding the efficiency, methods and timing of the checking of the information given in a prospectus not only make it more difficult for undertakings to raise capital or to obtain admission to trading on a regulated market in more than one Member State but also hinder the acquisition by investors established in one Member State of securities offered by an issuer established in another Member State or admitted to trading in another Member State. These differences should be eliminated by harmonising the rules and regulations in order to achieve an adequate degree of equivalence of the safeguards required in each Member State to ensure the provision of information which is sufficient and as objective as possible for actual or potential securities holders.
- (31) To facilitate circulation of the various documents making up the prospectus, the use of electronic communication facilities such as the Internet should be encouraged. The prospectus should always be delivered in paper form, free of charge to investors on request.
- (32) The prospectus should be filed with the relevant competent authority and be made available to the public by the issuer, the offeror or the person asking for admission to trading on a regulated market, subject to European Union provisions relating to data protection.
- (33) It is also necessary, in order to avoid loopholes in Community legislation which would undermine public confidence and therefore prejudice the proper functioning of financial markets, to harmonise advertisements.
- (34) Any new matter liable to influence the assessment of the investment, arising after the publication of the prospectus but before the closing of the offer or the start of trading on a regulated market, should be properly evaluated by investors and therefore requires the approval and dissemination of a supplement to the prospectus.
- (35) The obligation for an issuer to translate the full prospectus into all the relevant official languages discourages cross-border offers or multiple trading. To facilitate cross-border offers, where the prospectus is drawn up in a language that is customary in the sphere of international finance, the host or home Member State should only be entitled to require a summary in its official language(s).

**▼B**

- (36) The competent authority of the host Member State should be entitled to receive a certificate from the competent authority of the home Member State which states that the prospectus has been drawn up in accordance with this Directive. In order to ensure that the purposes of this Directive will be fully achieved, it is also necessary to include within its scope securities issued by issuers governed by the laws of third countries.
- (37) A variety of competent authorities in Member States, having different responsibilities, may create unnecessary costs and overlapping of responsibilities without providing any additional benefit. In each Member State one single competent authority should be designated to approve prospectuses and to assume responsibility for supervising compliance with this Directive. Under strict conditions, a Member State should be allowed to designate more than one competent authority, but only one will assume the duties for international cooperation. Such an authority or authorities should be established as an administrative authority and in such a form that their independence from economic actors is guaranteed and conflicts of interest are avoided. The designation of a competent authority for prospectus approval should not exclude cooperation between that authority and other entities, with a view to guaranteeing efficient scrutiny and approval of prospectuses in the interest of issuers, investors, markets participants and markets alike. Any delegation of tasks relating to the obligations provided for in this Directive and in its implementing measures should be reviewed, in accordance with Article 31, five years after the date of entry into force of this Directive and should, except for publication on the Internet of approved prospectuses, and the filing of prospectuses as mentioned in Article 14, end eight years after the entry into force of this Directive.
- (38) A common minimum set of powers for the competent authorities will guarantee the effectiveness of their supervision. The flow of information to the markets required by Directive 2001/34/EC should be ensured and action against breaches should be taken by competent authorities.
- (39) For the purposes of carrying out their duties, cooperation between competent authorities of the Member States is required.
- (40) Technical guidance and implementing measures for the rules laid down in this Directive may from time to time be necessary to take into account developments on financial markets. The Commission should accordingly be empowered to adopt implementing measures, provided that these do not modify the essential elements of this Directive and provided that the Commission acts in accordance with the principles set out in this Directive, after consulting the European Securities Committee established by Commission Decision 2001/528/EC <sup>(1)</sup>.

<sup>(1)</sup> OJ L 191, 13.7.2001, p. 45.

**▼B**

- (41) In exercising its implementing powers in accordance with this Directive, the Commission should respect the following principles:
- the need to ensure confidence in financial markets among small investors and small and medium-sized enterprises (SMEs) by promoting high standards of transparency in financial markets,
  - the need to provide investors with a wide range of competing investment opportunities and a level of disclosure and protection tailored to their circumstances,
  - the need to ensure that independent regulatory authorities enforce the rules consistently, especially as regards the fight against white-collar crime,
  - the need for a high level of transparency and consultation with all market participants and with the European Parliament and the Council,
  - the need to encourage innovation in financial markets if they are to be dynamic and efficient,
  - the need to ensure systemic stability of the financial system by close and reactive monitoring of financial innovation,
  - the importance of reducing the cost of, and increasing access to, capital,
  - the need to balance, on a long-term basis, the costs and benefits to market participants (including SMEs and small investors) of any implementing measures,
  - the need to foster the international competitiveness of the Community's financial markets without prejudice to a much-needed extension of international cooperation,
  - the need to achieve a level playing field for all market participants by establishing Community legislation every time it is appropriate,
  - the need to respect differences in national financial markets where these do not unduly impinge on the coherence of the single market,
  - the need to ensure coherence with other Community legislation in this area, as imbalances in information and a lack of transparency may jeopardise the operation of the markets and above all harm consumers and small investors.
- (42) The European Parliament should be given a period of three months from the first transmission of draft implementing measures to allow it to examine them and to give its opinion. However, in urgent and duly justified cases, this period may be shortened. If, within that period, a resolution is passed by the European Parliament, the Commission should re-examine the draft measures.

**▼B**

- (43) Member States should lay down a system of sanctions for breaches of the national provisions adopted pursuant to this Directive and should take all the measures necessary to ensure that these sanctions are applied. The sanctions thus provided for should be effective, proportional and dissuasive.
- (44) Provision should be made for the right of judicial review of decisions taken by Member States' competent authorities in respect of the application of this Directive.
- (45) In accordance with the principle of proportionality, it is necessary and appropriate for the achievement of the basic objective of ensuring the completion of a single securities market to lay down rules on a single passport for issuers. This Directive does not go beyond what is necessary in order to achieve the objectives pursued in accordance with the third paragraph of Article 5 of the Treaty.
- (46) The assessment made by the Commission of the application of this Directive should focus in particular on the process of approval of prospectuses by the competent authorities of the Member States, and more generally on the application of the home-country principle, and whether or not problems of investor protection and market efficiency might result from this application; the Commission should also examine the functioning of Article 10.
- (47) For future developments of this Directive, consideration should be given to the matter of deciding which approval mechanism should be adopted to enhance further the uniform application of Community legislation on prospectuses, including the possible establishment of a European Securities Unit.
- (48) This Directive respects the fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the European Union.
- (49) The measures necessary for the implementation of this Directive should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission <sup>(1)</sup>,

HAVE ADOPTED THIS DIRECTIVE:

- (f) securities offered, allotted or to be allotted to existing or former directors or employees by their employer or an affiliated undertaking, provided that the said securities are of the same class as the securities already admitted to trading on the same regulated market and that a document is made available containing information on the number and nature of the securities and the reasons for and detail of the offer;

3. In order to ensure consistent harmonisation of this Directive, the European Supervisory Authority (European Securities and Markets Authority) (hereinafter 'ESMA') established by Regulation (EU) No 1095/2010 of the European Parliament and of the Council<sup>(1)</sup> may develop draft regulatory technical standards to specify the exemptions concerning the points (a) to (e) of paragraph 1 and points (a) to (h) of paragraph 2.

Power is delegated to the Commission to adopt the regulatory technical standards referred to in the first subparagraph in accordance with the procedure laid down in Articles 10 to 14 of Regulation (EU) No 1095/2010.

## CHAPTER II

## DRAWING UP OF THE PROSPECTUS

*Article 5***The prospectus**

1. Without prejudice to Article 8(2), the prospectus shall contain all information which, according to the particular nature of the issuer and of the securities offered to the public or admitted to trading on a regulated market, is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses, and prospects of the issuer and of any guarantor, and of the rights attaching to such securities. This information shall be presented in an easily analysable and comprehensible form.

<sup>(1)</sup> OJ L 331, 15.12.2010, p. 84.

**▼ M2**

2. The prospectus shall contain information concerning the issuer and the securities to be offered to the public or to be admitted to trading on a regulated market. It shall also include a summary that, in a concise manner and in non-technical language, provides key information in the language in which the prospectus was originally drawn up. The format and content of the summary of the prospectus shall provide, in conjunction with the prospectus, appropriate information about essential elements of the securities concerned in order to aid investors when considering whether to invest in such securities.

The summary shall be drawn up in a common format in order to facilitate comparability of the summaries of similar securities and its content should convey the key information of the securities concerned in order to aid investors when considering whether to invest in such securities. The summary shall also contain a warning that:

**▼ B**

- (a) it should be read as an introduction to the prospectus;
- (b) any decision to invest in the securities should be based on consideration of the prospectus as a whole by the investor;
- (c) where a claim relating to the information contained in a prospectus is brought before a court, the plaintiff investor might, under the national legislation of the Member States, have to bear the costs of translating the prospectus before the legal proceedings are initiated; and
- (d) civil liability attaches to those persons who have tabled the summary including any translation thereof, and applied for its notification, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the prospectus.

**▼ M2**

Where the prospectus relates to the admission to trading on a regulated market of non-equity securities having a denomination of at least EUR 100 000, there shall be no requirement to provide a summary, save where a Member State so requires in accordance with Article 19(4).

**▼ M3**

In order to ensure uniform conditions of application of this Directive and of the delegated acts adopted by the Commission in accordance with paragraph 5, ESMA shall develop draft implementing technical standards in order to ensure uniform conditions of application of the delegated acts adopted by the Commission in accordance with paragraph 5 in relation to a uniform template for the presentation of the summary and to allow investors to compare the security concerned with other relevant products.

Power is conferred on the Commission to adopt the implementing technical standards referred to in the first subparagraph in accordance with Article 15 of Regulation (EU) No 1095/2010.

**▼ M2**

3. The issuer, offeror or person asking for the admission to trading on a regulated market may draw up the prospectus as a single document or separate documents. A prospectus composed of separate documents shall divide the required information into a registration document, a securities note and a summary note. The registration document shall contain the information relating to the issuer. The securities note shall contain the information concerning the securities offered to the public or to be admitted to trading on a regulated market.

**▼ B**

4. For the following types of securities, the prospectus can, at the choice of the issuer, offeror or person asking for the admission to trading on a regulated market consist of a base prospectus containing all relevant information concerning the issuer and the securities offered to the public or to be admitted to trading on a regulated market:

- (a) non-equity securities, including warrants in any form, issued under an offering programme;
- (b) non-equity securities issued in a continuous or repeated manner by credit institutions,
  - (i) where the sums deriving from the issue of the said securities, under national legislation, are placed in assets which provide sufficient coverage for the liability deriving from securities until their maturity date;
  - (ii) where, in the event of the insolvency of the related credit institution, the said sums are intended, as a priority, to repay the capital and interest falling due, without prejudice to the provisions of Directive 2001/24/EC of the European Parliament and of the Council of 4 April 2001 on the reorganisation and winding up of credit institutions <sup>(1)</sup>.

The information given in the base prospectus shall be supplemented, if necessary, in accordance with Article 16, with updated information on the issuer and on the securities to be offered to the public or to be admitted to trading on a regulated market.

**▼ M5**

Where the final terms of the offer are neither included in the base prospectus, nor in a supplement, they shall be made available to investors, filed with the competent authority of the home Member State, and communicated by that competent authority to the competent authority of the host Member State(s) as soon as practicable upon the making of a public offer and, where possible, before the beginning of the public offer or admission to trading. The competent authority of the home Member State shall communicate those final terms to ESMA. The final terms shall contain only information that relates to the securities note and shall not be used to supplement the base prospectus. Article 8(1)(a) shall apply in such cases.

**▼ M2**

5. In order to take account of technical developments on financial markets and to specify the requirements laid down in this Article, the Commission shall adopt, by means of delegated acts in accordance with Article 24a and subject to the conditions of Articles 24b and 24c, measures relating to the following:

The persons responsible shall be clearly identified in the prospectus by their names and functions or, in the case of legal persons, their names and registered offices, as well as declarations by them that, to the best of their knowledge, the information contained in the prospectus is in accordance with the facts and that the prospectus makes no omission likely to affect its import.

2. Member States shall ensure that their laws, regulation and administrative provisions on civil liability apply to those persons responsible for the information given in a prospectus.

**▼ M2**

However, Member States shall ensure that no civil liability shall attach to any person solely on the basis of the summary, including any translation thereof, unless it is misleading, inaccurate or inconsistent, when read together with the other parts of the prospectus, or it does not provide, when read together with the other parts of the prospectus, key information in order to aid investors when considering whether to invest in such securities. The summary shall contain a clear warning to that effect.

**▼ B***Article 7***Minimum information****▼ M2**

1. 3. The delegated acts referred to in paragraph 1 shall be based on the standards in the field of financial and non-financial information set out by international securities commission organisations, in particular by IOSCO and on the indicative Annexes to this Directive.

**▼ M3**

- 4. ESMA may develop draft implementing technical standards in order to ensure uniform conditions of application of the delegated acts adopted by the Commission in accordance with paragraph 1.

The final offer price and amount of securities shall be filed with the competent authority of the home Member State and published in accordance with the arrangements provided for in Article 14(2).

**▼ B**

- (a) disclosure of such information would be contrary to the public interest; or
- (b) disclosure of such information would be seriously detrimental to the issuer, provided that the omission would not be likely to mislead the public with regard to facts and circumstances essential for an informed assessment of the issuer, offeror or guarantor, if any, and of the rights attached to the securities to which the prospectus relates; or
- (c) such information is of minor importance only for a specific offer or admission to trading on a regulated market and is not such as will influence the assessment of the financial position and prospects of the issuer, offeror or guarantor, if any.

3. Without prejudice to the adequate information of investors, where, exceptionally, certain information required by ►**M2** the delegated acts ◀ referred to in Article 7(1) to be included in a prospectus is inappropriate to the issuer's sphere of activity or to the legal form of the issuer or to the securities to which the prospectus relates, the prospectus shall contain information equivalent to the required information. **▼ M3**

5. ESMA may develop draft implementing technical standards to ensure uniform conditions of application of the delegated acts adopted by the Commission in accordance with paragraph 4.

Power is conferred on the Commission to adopt the implementing technical standards referred to in the first subparagraph in accordance with Article 15 of Regulation (EU) No 1095/2010.

**▼ B***Article 9***Validity of a prospectus, base prospectus and registration document****▼ M2**

**▼ B**

2. In the case of an offering programme, the base prospectus, previously filed, shall be valid for a period of up to 12 months.

**▼ B**

**▼ B***Article 11***Incorporation by reference****▼ M2**

1. Member States shall allow information to be incorporated in the prospectus by reference to one or more previously or simultaneously published documents that have been approved by the competent authority of the home Member State or filed with it in accordance with this Directive or Directive 2004/109/EC. ESMA shall submit those draft regulatory technical standards to the Commission by 1 July 2015.

Power is delegated to the Commission to adopt the regulatory technical standards referred to in the first subparagraph in accordance with Articles 10 to 14 of Regulation (EU) No 1095/2010.

7. In order to ensure consistent harmonisation in relation to the approval of prospectuses, ESMA shall develop draft regulatory technical standards to specify the procedures for the approval of the prospectus and the conditions in accordance with which time limits may be adjusted.

ESMA shall submit those draft regulatory technical standards to the Commission by 1 July 2015.

Each document shall indicate where the other constituent documents of the full prospectus may be obtained.

6. The text and the format of the prospectus, and/or the supplements to the prospectus, published or made available to the public, shall at all times be identical to the original version approved by the competent authority of the home Member State.

8. In order to ensure consistent harmonisation in relation to this Article, ESMA shall develop draft regulatory technical standards to specify the provisions relating to the publication of the prospectus in paragraphs 1 to 4.

ESMA shall submit those draft regulatory technical standards to the Commission by 1 July 2015.

Power is delegated to the Commission to adopt the regulatory technical standards referred to in the first subparagraph in accordance with Articles 10 to 14 of Regulation (EU) No 1095/2010.

**▼B***Article 15***Advertisements**

1. Any type of advertisements relating either to an offer to the public of securities or to an admission to trading on a regulated market shall observe the principles contained in paragraphs 2 to 5. 2. Advertisements shall state that a prospectus has been or will be published and indicate where investors are or will be able to obtain it.

3. Advertisements shall be clearly recognisable as such. The information contained in an advertisement shall not be inaccurate, or misleading. This information shall also be consistent with the information contained in the prospectus, if already published, or with the information required to be in the prospectus, if the prospectus is published afterwards.

4. In any case, all information concerning the offer to the public or the admission to trading on a regulated market disclosed in an oral or written form, even if not for advertising purposes, shall be consistent with that contained in the prospectus.

5. When according to this Directive no prospectus is required, material information provided by an issuer or an offeror and addressed to qualified investors or special categories of investors, including information disclosed in the context of meetings relating to offers of securities, shall be disclosed to all qualified investors or special categories of investors to whom the offer is exclusively addressed. Where a prospectus is required to be published, such information shall be included in the prospectus or in a supplement to the prospectus in accordance with Article 16(1).

ESMA shall submit those draft regulatory technical standards to the Commission by 1 July 2015.

Power is delegated to the Commission to adopt the regulatory technical standards referred to in the first subparagraph in accordance with Articles 10 to 14 of Regulation (EU) No 1095/2010.

1. Every significant new factor, material mistake or inaccuracy relating to the information included in the prospectus which is capable of affecting the assessment of the securities and which arises or is noted between the time when the prospectus is approved and the final closing of the offer to the public or, as the case may be, the time when trading on a regulated market begins, whichever occurs later, shall be mentioned in a supplement to the prospectus. Such a supplement shall be approved in the same way in a maximum of seven working days and published in accordance with at least the same arrangements as were applied when the original prospectus was published. The summary, and any translations thereof, shall also be supplemented, if necessary, to take into account the new information included in the supplement.

2. Where the prospectus relates to an offer of securities to the public, investors who have already agreed to purchase or subscribe for the securities before the supplement is published shall have the right, exercisable within two working days after the publication of the supplement, to withdraw their acceptances, provided that the new factor, mistake or inaccuracy referred to in paragraph 1 arose before the final closing of the offer to the public and the delivery of the securities. That period may be extended by the issuer or the offeror. The final date of the right of withdrawal shall be stated in the supplement.

**▼ M3**

3. In order to ensure consistent harmonisation, to specify the requirements laid down in this Article and to take account of technical developments on financial markets, ESMA shall develop draft regulatory technical standards to specify situations where a significant new factor, material mistake or inaccuracy relating to the information included in the prospectus requires a supplement to the prospectus to be published. ESMA shall submit those draft regulatory technical standards to the Commission by 1 January 2014.

Power is delegated to the Commission to adopt the regulatory technical standards referred to in the first subparagraph in accordance with the procedure laid down in Articles 10 to 14 of Regulation (EU) No 1095/2010.

3. The Commission shall adopt, by means of delegated acts in accordance with Article 24a and subject to the conditions of Articles 24b and 24c, measures to establish general equivalence criteria, based on the requirements laid down in Articles 5 and 7.

**▼ M1**

On the basis of the above criteria, the Commission may adopt implementing measures in accordance with the regulatory procedure referred to in Article 24(2), stating that a third country ensures the equivalence of prospectuses drawn up in that country with this Directive by reason of its national law or of practices or procedures based on international standards set by international organisations, including the IOSCO disclosure standards.

## CHAPTER VI

## COMPETENT AUTHORITIES

*Article 21***Powers**

1. Each Member State shall designate a central competent administrative authority responsible for carrying out the obligations provided for in this Directive and for ensuring that the provisions adopted pursuant to this Directive are applied.

However, a Member State may, if so required by national law, designate other administrative authorities to apply Chapter III.

These competent authorities shall be completely independent from all market participants.

If an offer of securities is made to the public or admission to trading on a regulated market is sought in a Member State other than the home Member State, only the central competent administrative authority designated by each Member State shall be entitled to approve the prospectus.

**▼B**

2. Member States may allow their competent authority or authorities to delegate tasks. Except for delegation of the publication on the Internet of approved prospectuses and the filing of prospectuses as mentioned in Article 14, any delegation of tasks relating to the obligations provided for in this Directive and in its implementing measures shall be reviewed, in accordance with Article 31 by 31 December 2008, and shall end on 31 December 2011. Any delegation of tasks to entities other than the authorities referred to in paragraph 1 shall be made in a specific manner stating the tasks to be undertaken and the conditions under which they are to be carried out.

These conditions shall include a clause obliging the entity in question to act and be organised in such a manner as to avoid conflict of interest and so that information obtained from carrying out the delegated tasks is not used unfairly or to prevent competition. In any case, the final responsibility for supervising compliance with this Directive and with its implementing measures and for approving the prospectus shall lie with the competent authority or authorities designated in accordance with paragraph 1.

**▼M3**

The Member States shall inform the Commission, ESMA and the competent authorities of other Member States of any arrangements entered into with regard to delegation of tasks, including the precise conditions regulating such delegation.

**▼B**

3. Each competent authority shall have all the powers necessary for the performance of its functions. A competent authority that has received an application for approving a prospectus shall be empowered at least to:

- (e) prohibit or suspend advertisements for a maximum of 10 consecutive working days on any single occasion if it has reasonable grounds for believing that the provisions of this Directive have been infringed;
- (f) prohibit a public offer if it finds that the provisions of this Directive have been infringed or if it has reasonable grounds for suspecting that they would be infringed;
- (g) suspend or ask the relevant regulated markets to suspend trading on a regulated market for a maximum of 10 consecutive working days on any single occasion if it has reasonable grounds for believing that the provisions of this Directive have been infringed;
- (h) prohibit trading on a regulated market if it finds that the provisions of this Directive have been infringed;
- (i) make public the fact that an issuer is failing to comply with its obligations.

Where necessary under national law, the competent authority may ask the relevant judicial authority to decide on the use of the powers referred to in points (d) to (h) above.

4. Each competent authority shall also, once the securities have been admitted to trading on a regulated market, be empowered to:

- (a) require the issuer to disclose all material information which may have an effect on the assessment of the securities admitted to trading on regulated markets in order to ensure investor protection or the smooth operation of the market;

**▼B**

- (b) suspend or ask the relevant regulated market to suspend the securities from trading if, in its opinion, the issuer's situation is such that trading would be detrimental to investors' interests;
- (c) ensure that issuers whose securities are traded on regulated markets comply with the obligations provided for in Articles 102 and 103 of Directive 2001/34/EC and that equivalent information is provided to investors and equivalent treatment is granted by the issuer to all securities holders who are in the same position, in all Member States where the offer to the public is made or the securities are admitted to trading;
- (d) carry out on-site inspections in its territory in accordance with national law, in order to verify compliance with the provisions of this Directive and ►**M2** the delegated acts referred to therein ◀. Where necessary under national law, the competent authority or authorities may use this power by applying to the relevant judicial authority and/or in cooperation with other authorities.

**▼M3**

In accordance with Article 21 of Regulation (EU) No 1095/2010, ESMA shall be entitled to participate in on-site inspections referred to in point (d) where they are carried out jointly by two or more competent authorities.

*Article 22***Professional secrecy and cooperation between authorities**

1. The obligation of professional secrecy shall apply to all persons who work or have worked for the competent authority and for entities to which competent authorities may have delegated certain tasks. Information covered by professional secrecy may not be disclosed to any other person or authority except in accordance with provisions laid down by law.

2. Competent authorities of Member States shall cooperate with each other whenever necessary for the purpose of carrying out their duties and making use of their powers. Competent authorities shall render assistance to competent authorities of other Member States. In particular, they shall exchange information and cooperate when an issuer has more than one home competent authority because of its various classes of securities, or where the approval of a prospectus has been transferred to the competent authority of another Member State pursuant to Article 13(5). They shall also closely cooperate when requiring suspension or prohibition of trading for securities traded in various Member States in order to ensure a level playing field between trading venues and protection of investors. Without prejudice to Article 21, the competent authorities of Member States may consult with operators of regulated markets as necessary and, in particular, when deciding to suspend, or to ask a regulated market to suspend or prohibit trading.

**▼ M3**

The competent authorities may refer to ESMA situations where a request for cooperation, in particular to exchange information, has been rejected or has not been acted upon within a reasonable time. Without prejudice to Article 258 of the Treaty on the Functioning of the European Union (TFEU), ESMA may, in the situations referred to in the first sentence, act in accordance with the power conferred on it under Article 19 of Regulation (EU) No 1095/2010.

3. Paragraph 1 shall not prevent the competent authorities from exchanging confidential information or from transmitting confidential information to ESMA or the European Systemic Risk Board (hereinafter the 'ESRB'), subject to constraints relating to firm-specific information and effects on third countries as provided for in Regulation (EU) No 1095/2010 and Regulation (EU) No 1092/2010 of the European Parliament and of the Council of 24 November 2010 on European Union macro-prudential oversight of the financial system and establishing a European Systemic Risk Board<sup>(1)</sup> respectively. Information exchanged between competent authorities and ESMA or the ESRB shall be covered by the obligation of professional secrecy, to which the persons employed or formerly employed by the competent authorities receiving the information are subject.

4. In order to ensure consistent harmonisation of this Article and to take account of technical developments on financial markets, ESMA shall develop draft regulatory technical standards to specify the information required in paragraph 2.

Power is delegated to the Commission to adopt the regulatory technical standards referred to in the first subparagraph in accordance with Articles 10 to 14 of Regulation (EU) No 1095/2010.

In order to ensure uniform conditions of application of paragraph 2, and to take account of technical developments on financial markets, ESMA may develop draft implementing technical standards to establish standard forms, templates and procedures for the cooperation and exchange of information between competent authorities.

**▼M3**

Power is conferred on the Commission to adopt the implementing technical standards referred to in the third subparagraph in accordance with Article 15 of Regulation (EU) No 1095/2010.

*Article 23***Precautionary measures**

1. Where the competent authority of the host Member State finds that irregularities have been committed by the issuer or by the financial institutions in charge of the public offer or that the issuer has breached its obligations by reason of the fact that securities are admitted to trading on a regulated market, it shall refer those findings to the competent authority of the home Member State and to ESMA.

2. If, despite the measures taken by the competent authority of the home Member State or because such measures prove inadequate, the issuer or the financial institution in charge of the public offer persists in breaching the relevant legal or regulatory provisions, the competent authority of the host Member State, after informing the competent authority of the home Member State and ESMA, shall take all appropriate measures in order to protect investors and shall inform the Commission and ESMA thereof at the earliest opportunity.
