

Council Directive 2006/112/EC of 28 November  
2006 on the common system of value added tax

[<sup>XI</sup>TITLE VII

**TAXABLE AMOUNT]**

CHAPTER 5

**Miscellaneous provisions**

*Article 91*

1 Where the factors used to determine the taxable amount on importation are expressed in a currency other than that of the Member State in which assessment takes place, the exchange rate shall be determined in accordance with the Community provisions governing the calculation of the value for customs purposes.

2 Where the factors used to determine the taxable amount of a transaction other than the importation of goods are expressed in a currency other than that of the Member State in which assessment takes place, the exchange rate applicable shall be the latest selling rate recorded, at the time VAT becomes chargeable, on the most representative exchange market or markets of the Member State concerned, or a rate determined by reference to that or those markets, in accordance with the rules laid down by that Member State.

[<sup>F1</sup>Member States shall accept instead the use of the latest exchange rate published by the European Central Bank at the time the tax becomes chargeable. Conversion between currencies other than the euro shall be made by using the euro exchange rate of each currency. Member States may require that they be notified of the exercise of this option by the taxable person.

However, for some of the transactions referred to in the first subparagraph or for certain categories of taxable persons, Member States may use the exchange rate determined in accordance with the Community provisions in force governing the calculation of the value for customs purposes.]
