

Directive 2006/66/EC of the European Parliament and of the Council of 6 September 2006 on batteries and accumulators and waste batteries and accumulators and repealing Directive 91/157/EEC (Text with EEA relevance)

Article 10 **U.K.**

**Collection targets**

1 Member States shall calculate the collection rate for the first time in respect of the fifth full calendar year following the entry into force of this Directive.

Without prejudice to Directive 2002/96/EC, annual collection and sales figures shall include batteries and accumulators incorporated into appliances.

2 Member States shall achieve the following minimum collection rates:

- a 25 % by 26 September 2012;
- b 45 % by 26 September 2016.

[<sup>F13</sup> Member States shall monitor collection rates on a yearly basis according to the scheme set out in Annex I to this Directive. Without prejudice to Regulation (EC) No 2150/2002 of the European Parliament and of the Council<sup>(1)</sup>, Member States shall electronically transmit reports to the Commission within 18 months of the end of the reporting year for which the data are collected. Reports shall indicate how the data necessary to calculate the collection rate was obtained.]

[<sup>F24</sup> The Commission may establish by means of implementing acts transitional arrangements to address difficulties faced by a Member State in satisfying the requirements of paragraph 2 as a result of specific national circumstances. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 24(2).]

In order to ensure uniform application of this Article, the Commission shall establish by means of implementing acts a common methodology for the calculation of annual sales of portable batteries and accumulators to end-users by 26 September 2007. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 24(2).]
