

ANNEX I

6. All housed calves must be inspected by the owner or the person responsible for the animals at least twice daily and calves kept outside must be inspected at least once daily. Any calf which appears to be ill or injured must be treated appropriately without delay and veterinary advice must be obtained as soon as possible for any calf which is not responding to the stock-keeper's care. Where necessary, sick or injured calves must be isolated in adequate accommodation with dry, comfortable bedding.
