Article 14

Critical levels

- 1 Member States shall ensure compliance with the critical levels specified in Annex XIII as assessed in accordance with Section A of Annex III.
- 2 Where fixed measurements are the sole source of information for assessing air quality, the number of sampling points shall not be less than the minimum number specified in Section C of Annex V. Where that information is supplemented by indicative measurements or modelling, the minimum number of sampling points may be reduced by up to 50 % so long as the assessed concentrations of the relevant pollutant can be established in accordance with the data quality objectives specified in Section A of Annex I.
