

Directive 2008/50/EC of the European Parliament and of the Council
of 21 May 2008 on ambient air quality and cleaner air for Europe

CHAPTER II

ASSESSMENT OF AMBIENT AIR QUALITY

SECTION 1

**Assessment of ambient air quality in relation to sulphur dioxide, nitrogen dioxide
and oxides of nitrogen, particulate matter, lead, benzene and carbon monoxide**

Article 8

Reference measurement methods

- 1 Member States shall apply the reference measurement methods and criteria specified in Section A and Section C of Annex VI.
- 2 Other measurement methods may be used subject to the conditions set out in Section B of Annex VI.
