

Council Directive 2008/8/EC of 12 February 2008 amending
Directive 2006/112/EC as regards the place of supply of services

COUNCIL DIRECTIVE 2008/8/EC

of 12 February 2008

amending Directive 2006/112/EC as regards the place of supply of services

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 93 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament⁽¹⁾,

Having regard to the opinion of the European Economic and Social Committee⁽²⁾,

Whereas:

- (1) The realisation of the internal market, globalisation, deregulation and technology change have all combined to create enormous changes in the volume and pattern of trade in services. It is increasingly possible for a number of services to be supplied at a distance. In response, piece-meal steps have been taken to address this over the years and many defined services are in fact at present taxed on the basis of the destination principle.
- (2) The proper functioning of the internal market requires the amendment of Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax⁽³⁾ as regards the place of supply of services, following the Commission's strategy of modernisation and simplification of the operation of the common VAT system.
- (3) For all supplies of services the place of taxation should, in principle, be the place where the actual consumption takes place. If the general rule for the place of supply of services were to be altered in this way, certain exceptions to this general rule would still be necessary for both administrative and policy reasons.
- (4) For supplies of services to taxable persons, the general rule with respect to the place of supply of services should be based on the place where the recipient is established, rather than where the supplier is established. For the purposes of rules determining the place of supply of services and to minimise burdens on business, taxable persons who also have non-taxable activities should be treated as taxable for all services rendered to them. Similarly, non-taxable legal persons who are identified for VAT purposes should be regarded as taxable persons. These provisions, in accordance with normal rules, should not extend to supplies of services received by a taxable person for his own personal use or that of his staff.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (5) Where services are supplied to non-taxable persons, the general rule should continue to be that the place of supply of services is the place where the supplier has established his business.
- (6) In certain circumstances, the general rules as regards the place of supply of services for both taxable and non-taxable persons are not applicable and specified exclusions should apply instead. These exclusions should be largely based on existing criteria and reflect the principle of taxation at the place of consumption, while not imposing disproportionate administrative burdens upon certain traders.
- (7) Where a taxable person receives services from a person not established in the same Member State, the reverse charge mechanism should be obligatory in certain cases, meaning that the taxable person should self-assess the appropriate amount of VAT on the acquired service.
- (8) To simplify the obligations on businesses engaging in activities in Member States where they are not established, a scheme should be set up enabling them to have a single point of electronic contact for VAT identification and declaration. Until such a scheme is established, use should be made of the scheme introduced to facilitate compliance with fiscal obligations by taxable persons not established within the Community.
- (9) In order to further the correct application of this Directive every taxable person identified for VAT purposes should submit a recapitulative statement of the taxable persons and the non-taxable legal persons identified for VAT purposes to whom he has supplied taxable services which fall under the reverse charge mechanism.
- (10) Some of the changes made to the place of supply of services could have a considerable impact on the budget of Member States. To ensure a smooth transition these changes should be introduced over time.
- (11) In accordance with point 34 of the Interinstitutional Agreement on better law-making⁽⁴⁾, Member States are encouraged to draw up, for themselves and in the interests of the Community, their own tables illustrating, as far as possible, the correlation between this Directive and the transposition measures, and to make them public.
- (12) Directive 2006/112/EC should therefore be amended accordingly,

HAS ADOPTED THIS DIRECTIVE:

15. in Chapter 6 of Title XII, the following Section shall be inserted:

Section 3

Special scheme for telecommunications, broadcasting or electronic services supplied by taxable persons established within the Community but not in the Member State of consumption

Article 369a

For the purposes of this Section, and without prejudice to other Community provisions, the following definitions shall apply:

1. “taxable person not established in the Member State of consumption” means a taxable person who has established his business in the territory of the Community or has a fixed establishment there but has not established his business and has no fixed establishment within the territory of the Member State of consumption;
2. “Member State of identification” means the Member State in the territory of which the taxable person has established his business or, if he has not established his business in the Community, where he has a fixed establishment.

Where a taxable person has not established his business in the Community, but has more than one fixed establishment therein, the Member State of identification shall be the Member State with a fixed establishment where that taxable person indicates that he will make use of this special scheme. The taxable person shall be bound by this decision for the calendar year concerned and the two calendar years following.

Article 369b

Member States shall permit any taxable person not established in the Member State of consumption supplying telecommunications, broadcasting or electronic services to a non-taxable person who is established or has his permanent address or usually resides in that Member State, to use this special scheme. This special scheme applies to all those services supplied in the Community.

Article 369c

The taxable person not established in the Member State of consumption shall state to the Member State of identification when he commences and ceases his taxable activities covered by this special scheme, or changes those activities in such a way that he no longer meets the conditions necessary for use of this special scheme. He shall communicate that information electronically.

Article 369d

A taxable person making use of this special scheme shall, for the taxable transactions carried out under this scheme, be identified for VAT purposes in the Member State of identification only. For that purpose the Member State shall use the individual VAT identification number already allocated to the taxable person in respect of his obligations under the internal system.

On the basis of the information used for that identification, Member States of consumption may have recourse to their own identification systems.

Article 369e

The Member State of identification shall exclude the taxable person not established in the Member State of consumption from this special scheme in any of the following cases:

- (a) if he notifies that he no longer supplies telecommunications, broadcasting or electronic services;
- (b) if it may otherwise be assumed that his taxable activities covered by this special scheme have ceased;
- (c) if he no longer meets the conditions necessary for use of this special scheme;
- (d) if he persistently fails to comply with the rules relating to this special scheme.

Article 369f

The taxable person not established in the Member State of consumption shall submit by electronic means to the Member State of identification a VAT return for each calendar quarter, whether or not telecommunications, broadcasting or electronic services have been supplied. The VAT return shall be submitted within 20 days following the end of the tax period covered by the return.

Article 369g

The VAT return shall show the identification number referred to in Article 369d and, for each Member State of consumption in which VAT is due, the total value, exclusive of VAT, of supplies of telecommunications, broadcasting or electronic services carried out during the tax period and the total amount per rate of the corresponding VAT. The applicable rates of VAT and the total VAT due must also be indicated on the return.

Where the taxable person has one or more fixed establishments, other than that in the Member State of identification, from which the services are supplied, the VAT return shall in addition to the information referred to in the first paragraph include the total value of supplies of telecommunications, broadcasting or electronic services covered by this special scheme, for each Member State in which he has an establishment, together with the individual VAT identification number or the tax reference number of this establishment, broken down by Member State of consumption.

Article 369h

- 1 The VAT return shall be made out in euro.

Member States which have not adopted the euro may require the VAT return to be made out in their national currency. If the supplies have been made in other currencies, the taxable person not established in the Member State of consumption shall, for the purposes of completing the VAT return, use the exchange rate applying on the last date of the tax period.

- 2 The conversion shall be made by applying the exchange rates published by the European Central Bank for that day, or, if there is no publication on that day, on the next day of publication.

Article 369i

The taxable person not established in the Member State of consumption shall pay the VAT, making reference to the relevant VAT return, when submitting the VAT return, at the latest, however, at the expiry of the deadline by which the return must be submitted.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

Payment shall be made to a bank account denominated in euro, designated by the Member State of identification. Member States which have not adopted the euro may require the payment to be made to a bank account denominated in their own currency.

Article 369j

The taxable person not established in the Member State of consumption making use of this special scheme may not, in respect of his taxable activities covered by this scheme, deduct VAT pursuant to Article 168 of this Directive. Notwithstanding Article 2(1) and Article 3 of Directive 2008/9/EC, the taxable person in question shall be refunded in accordance with the said Directive.

If the taxable person not established in the Member State of consumption making use of this special scheme also carries out in the Member State of consumption activities not covered by this scheme in respect of which he is obliged to be registered for VAT purposes, he shall deduct VAT in respect of his taxable activities which are covered by this scheme in the VAT return to be submitted pursuant to Article 250.

Article 369k

1 The taxable person not established in the Member State of consumption shall keep records of the transactions covered by this special scheme. Those records must be sufficiently detailed to enable the tax authorities of the Member State of consumption to verify that the VAT return is correct.

2 The records referred to in paragraph 1 must be made available electronically on request to the Member State of consumption and to the Member State of identification.

Those records must be kept for a period of 10 years from 31 December of the year during which the transaction was carried out.;
