

ANNEX II

EUROPEAN STANDARDISED INFORMATION SHEET (ESIS)

PART B

Instructions to complete the ESIS

Section '4.

Interest rate' and other costs

- (1) The reference to 'interest rate' corresponds to the borrowing rate or rates.
- (2) The borrowing rate shall be mentioned as a percentage value. Where the borrowing rate is variable and based on a reference rate the creditor may indicate the borrowing rate by stating a reference rate and a percentage value of creditor's spread. The creditor shall however indicate the value of the reference rate valid on the day of issuing the ESIS.

Where the borrowing rate is variable the information shall include: (a) the assumptions used to calculate the APRC; (b) where relevant, the applicable caps and floors and (c) a warning that the variability could affect the actual level of the APRC. In order to attract the consumer's attention the font size used for the warning shall be bigger and shall figure prominently in the main body of the ESIS. The warning shall be accompanied by an illustrative example on the APRC. Where there is a cap on the borrowing rate, the example shall assume that the borrowing rate rises at the earliest possible opportunity to the highest level foreseen in the credit agreement. Where there is no cap the example shall illustrate the APRC at the highest borrowing rate in at least the last 20 years, or where the underlying data for the calculation of the borrowing rate is available for a period of less than 20 years the longest period for which such data is available, based on the highest value of any external reference rate used in calculating the borrowing rate where applicable or the highest value of a benchmark rate specified by a competent authority or EBA where the creditor does not use an external reference rate. Such requirement shall not apply to credit agreements where the borrowing rate is fixed for a material initial period of several years and may then be fixed for a further period following negotiation between the creditor and the consumer. For credit agreements where the borrowing rate is fixed for a material initial period of several years and may then be fixed for a further period following negotiation between the creditor and the consumer, the information shall include a warning that the APRC is calculated on the basis of the borrowing rate for the initial period. [^{X1}The warning shall be accompanied by an additional, illustrative APRC calculated in accordance with Article 17(5).] Where credits are multi-part credits (e.g. concurrently part fixed rate, part variable rate), the information shall be given for each part of the credit.

Editorial Information

- X1** Substituted by [Corrigendum to Directive 2014/17/EU of the European Parliament and of the Council of 4 February 2014 on credit agreements for consumers relating to residential immovable property and amending Directives 2008/48/EC and 2013/36/EU and Regulation \(EU\) No 1093/2010 \(Official Journal of the European Union L 60 of 28 February 2014\).](#)

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (3) In the section on 'other components of the APRC' all the other costs contained in the APRC shall be listed, including one-off costs such as administration fees, and regular costs, such as annual administration fees. The creditor shall list each of the costs by category (costs to be paid on a one-off basis, costs to be paid regularly and included in the instalments, costs to be paid regularly but not included in the instalments), indicating their amount, to whom they are to be paid and when. This does not have to include costs incurred for breaches of contractual obligations. Where the amount is not known, the creditor shall provide an indication of the amount if possible, or if not possible, how the amount will be calculated and specify that the amount provided is indicative only. Where certain costs are not included in the APRC because they are unknown to the creditor, this shall be highlighted.

Where the consumer has informed the creditor of one or more components of his preferred credit, such as the duration of the credit agreement and the total amount of credit, the creditor shall, where possible, use those components; if a credit agreement provides different ways of drawdown with different charges or borrowing rates and the creditor uses the assumptions set out in Part II of Annex I, it shall indicate that other drawdown mechanisms for this type of credit agreement may result in a higher APRC. Where the conditions for drawdown are used for calculating the APRC, the creditor shall highlight the charges associated with other drawdown mechanisms that are not necessarily the ones used in calculating the APRC.

- (4) Where a fee is payable for registration of the mortgage or comparable security that shall be disclosed in this section with the amount, where known, or where this is not possible the basis for determining the amount. Where the fees are known and included in the APRC the existence and amount of the fee shall be listed under 'Costs to be paid on a one-off basis'. Where the fees are not known to the creditor and therefore not included in the APRC the existence of the fee shall be clearly mentioned in the list of costs which are not known to the creditor. In either case the standardised wording in Part A shall be used under the appropriate heading.
