

ANNEX

Agreement concerning the implementation of the Work in Fishing Convention, 2007 of the International Labour Organisation

MANAGEMENT AND LABOUR ('THE EU SOCIAL PARTNERS') IN THE SEA-FISHERIES SECTOR,

- (1) The General Confederation of Agricultural Cooperatives in the European Union (Cogeca);
- (2) The European Transport Workers' Federation (ETF); and
- (3) The Association of National Organisations of Fishing Enterprises in the European Union (Europêche),

Having regard to:

- (1) The Treaty on the Functioning of the European Union ('TFEU'), and in particular Articles 153-155 thereof.
- (2) The Work in Fishing Convention, 2007 ('C188' or 'Convention') of the International Labour Organization ('ILO').
- (3) The Work in Fishing Recommendation, 2007 ('R199') of the ILO.
- (4) The Employment Relationship Recommendation, 2006 ('R198') of the ILO.
- (5) The Guidelines for port State control officers carrying out inspections under the Work in Fishing Convention, 2007 (No 188), adopted by the Governing Body of the ILO in its 309th Session from 13-19 November, 2010 ('PSC-F Guidelines').
- (6) The Council Decision 2010/321/EU of 7 June 2010 authorising Member States to ratify, in the interest of the European Union, the Work in Fishing Convention, 2007 of the International Labour Organization (Convention No 188).
- (7) Communication COM(2011) 306 final, dated 31 May 2011, from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions: Review of the operation of the provisions with regards to workers on board seagoing fishing vessels contained in Directive 2003/88/EC.

Whereas:

- (1) The 96th Session of the International Labour Conference of the International Labour Organization (ILO) adopted the *Work in Fishing Convention, 2007* (C188) on the 14 June 2007.
- (2) C188 was adopted by 437 votes for, 2 votes against, and 22 abstentions. All government representatives present (53 votes), all worker representatives present (25 votes) and all employer representatives present (22 votes) of the present 27 Member States of the European Union ('Member States') voted for the adoption of the Convention.
- (3) Globalization has a profound impact on the fishing sector and the rights of fishermen need to be promoted and protected.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (4) The ILO considers fishing a hazardous occupation when compared to other occupations.
- (5) The objective of C188 is to ensure that fishermen have decent conditions of work on board fishing vessels with regard to minimum requirements for work on board, conditions of service, accommodation and food, occupational safety and health protection, medical care, and social security.
- (6) C188 requires Members of the ILO to exercise, in accordance with national laws or regulations, jurisdiction and control over fishing vessels that fly their flags by establishing a system for ensuring compliance with the requirements of the Convention.
- (7) Article 155, paragraph 2, of the TFEU provides that agreements concluded at European Union ('EU') level may be implemented at the joint request of the EU social partners by a Council decision on a proposal from the European Commission. In view of this, the social partners have decided to enter into negotiations to conclude, within the limitations as set out in Article 153 of the TFEU, an agreement implementing certain parts of C188.
- (8) The EU social partners consider this initiative as highly important to encourage Member States to ratify the Convention so as to complete a level playing field in the EU and the rest of the world on matters relating to fishermen's working and living conditions on board fishing vessels.
- (9) The EU social partners consider an agreement as a first step contributing to codification of the social *acquis* in the fishing sector.
- (10) Certain aspects of the organisation of working time of workers on board seagoing fishing vessels are governed at present by the provisions of Article 21 of Directive 2003/88/EC. Although the Articles 13 and 14 of C188 on the whole offer fishermen a lower level of protection than the Directive, some of the provisions of Article 14 of the Convention are of a higher protection level. For this reason the EU social partners have agreed on merging the provisions referred to. The result is an overall higher level of protection. The provisions concerned are: consultation by the competent authority of the national EU social partners prior to establishing the minimum level of protection; the additional purpose of limiting fatigue; compensatory rest in case of exceptions allowed to minimum hours of rest or maximum hours of work; and improved protection after distress situations.
- (11) The provisions of C188 on quality of medical care, accommodation facilities, food, living conditions, compensation in the event of hazards or illnesses, and on social protection should be considered as falling within the scope of the safety and health at work of fishermen having regard to the specificities of work on board a fishing vessel, such as geographical isolation, fatigue and the nature, mostly physical, of the work to be performed.
- (12) C188 applies to all fishers ('fishermen'), defined in its Article 1(e) as 'every person employed or engaged in any capacity or carrying out an occupation on board any fishing vessel, including persons working on board who are paid on the basis of a share of the catch but excluding pilots, naval personnel, other persons in the permanent service of a government, shore based persons carrying out work aboard a fishing vessel and fisheries observers'. Due to the limitations as set out in the TFEU the EU social partners do not have the power to agree texts, intended to be implemented by a Council decision, which affect fishermen who neither work under a contract of employment nor

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

in an employment relationship. However, the application of different or no standards to those fishermen while they are present on the same vessel with fishermen who are working under a contract of employment or in an employment relationship can have an impact on the overall occupational safety and health, including the living and working conditions, of the latter. In order to protect fishermen who work under a contract of employment or in an employment relationship, the EU social partners consider it therefore justified that this Agreement shall apply, not only to fishermen who work under a contract of employment or in an employment relationship, but also to all other fishermen who are present on the same vessel.

- (13) The proper instrument for implementing this Agreement is a Directive, within the meaning of Article 288 of the TFEU, which binds Member States as to the result to be achieved, whilst leaving to national authorities the choice of form and methods.

Calling upon the Member States to:

- (1) Ratify C188 given the unanimity of Member States at the time of the Convention's adoption and because of the important differences between the scope of application as well as the areas covered by the Convention on the one hand and this Agreement on the other hand.
- (2) Develop a uniform valid document as mentioned in Article 41 of C188 to be implemented throughout the European Union.
- (3) Develop a harmonized policy on port State control of fishing vessels which are subject to C188 to be implemented throughout the European Union, based on the PSC-F Guidelines.

Jointly requesting:

This Agreement to be implemented by a Council Directive.

HAVE AGREED AS FOLLOWS:

PART 1

DEFINITIONS AND SCOPE

DEFINITIONS

Article 1

For the purposes of this Agreement:

- (a) *fishing operation* means catching, or catching and processing, of fish or other living resources of the sea;
- (b) *commercial fishing* means all fishing operations with the exception of subsistence fishing and recreational fishing;
- (c) *competent authority* means the minister, government department or other authority designated by a Member State having power to issue and enforce regulations, orders or other instructions having the force of law in respect of the subject matter of the provision concerned;

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (d) *consultation* means consultation by the competent authority with the representative organizations of employers and workers concerned, and in particular the representative organizations of fishing vessel owners and fishermen, where they exist;
- (e) *fishing vessel owner or owner* means the owner of the fishing vessel or any other organization or person, such as the manager, agent or bareboat charterer, who has assumed the responsibility for the operation of the vessel from the owner and who, on assuming such responsibility, has agreed to take over the duties and responsibilities imposed on fishing vessel owners in accordance with this Agreement, regardless of whether any other organization or person fulfils certain of the duties or responsibilities on behalf of the fishing vessel owner;
- (f) *fisherman* means every person employed or engaged or working in any capacity on board any fishing vessel under the conditions laid down in Article 2, but excluding port pilots and shore personnel carrying out work on board a fishing vessel at the quay side;
- (g) *fisherman's work agreement* means a contract of employment, articles of agreement or other similar arrangements, or any other contract governing a fisherman's living and working conditions on board a fishing vessel;
- (h) *fishing vessel or vessel* means any ship or boat, flying the flag of a Member State or registered under the plenary jurisdiction of a Member State, of any nature whatsoever, irrespective of the form of ownership, used or intended to be used for the purpose of commercial fishing;
- (i) *length (L)* shall be taken as 96 per cent of the total length on a waterline at 85 per cent of the least moulded depth measured from the keel line, or as the length from the foreside of the stem to the axis of the rudder stock on that waterline, if that be greater; in vessels designed with rake of keel, the waterline on which this length is measured shall be parallel to the designed waterline;
- (j) *length between perpendiculars (LBP)* means the distance between the forward and the after perpendiculars; the forward perpendicular shall be coincident with the foreside of the stem on the waterline on which the length (L) is measured; the after perpendicular shall be coincident with the axis of the rudder stock on that waterline;
- (k) *skipper* means the fisherman having command of a fishing vessel;
- (l) *recruitment and placement service* means any person, company, institution, agency or other organisation, in the public or the private sector, which is engaged in recruiting fishermen on behalf of, or placing fishermen with, fishing vessel owners;
- (m) *private employment agency* means any person, company, institution, agency or other organization in the private sector engaged in employing or engaging fishermen with a view to making them available to fishing vessel owners who assign their tasks and supervise the execution of these tasks.

SCOPE

Article 2

- 1 Except as otherwise provided herein, this Agreement applies to:
- 2 In the event of doubt as to whether a vessel is engaged in commercial fishing, the question shall be determined by the competent authority after consultation.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

3 Any Member State, after consultation, may extend, in whole or in part, to fishermen working on vessels of less than 24 metres in length the protection provided in this Agreement for fishermen working on vessels of 24 metres in length and over.

Article 3

1 Where the application of this Agreement raises special problems of a substantial nature in the light of the particular conditions of service of the fisherman or of the fishing vessels' operations concerned, a Member State may, on objective grounds, after consultation, exclude limited categories of fishermen or fishing vessels from the requirements of this Agreement or from certain of its provisions.

2 In case of exclusions under the preceding paragraph, the competent authority shall take measures, as appropriate, to extend progressively the requirements under this Agreement to all categories of fishermen or fishing vessels concerned within a maximum period of 5 years since the entry into force of this Agreement.

3 The application of this Article shall under no circumstances constitute grounds for justifying a reduction in the general level of protection of workers in the fields covered under EU law at the time of entry into force of this Agreement.

Article 4

Nothing in this Agreement shall affect any law, award or custom, or any agreement between fishing vessel owners and fishermen, which ensures more favourable conditions to fishermen than those provided for in this Agreement.

PART 2

GENERAL PRINCIPLES

RESPONSIBILITIES OF FISHING VESSEL OWNERS, SKIPPERS AND FISHERMEN

Article 5

1 This Article applies without prejudice to Directive 93/103/EC.

2 The fishing vessel owner has the overall responsibility to ensure that the skipper is provided with the necessary resources and facilities to comply with the obligations of this Agreement.

3 In order to ensure the safety of the fishermen on board and the safe operation of the vessel the skipper's responsibilities include, but are not limited to:

4 The skipper shall not be constrained by the fishing vessel owner from taking any decision which, in the professional judgement of the skipper, is necessary for the safety of the fishermen on board, or the vessel and its safe navigation and safe operation.

5 Fishermen shall comply with the lawful orders of the skipper and applicable safety and health measures.

PART 3

MINIMUM REQUIREMENTS FOR WORK ON FISHING VESSELS

MINIMUM AGE

Article 6

- 1 This Article applies without prejudice to Directive 94/33/EC.
- 2 The minimum age for work on board a fishing vessel shall be 16 years provided a young person is no longer subject to compulsory full-time schooling under national law. However, the competent authority may authorize a minimum age of 15 for persons who are no longer subject to compulsory schooling as provided by national legislation, and who are engaged in vocational training in fishing.
- 3 The competent authority, in accordance with national laws and practice, may authorize persons of the age of 15 to perform light work during school holidays. In such cases, it shall determine, after consultation, the kinds of work permitted and shall prescribe the conditions in which such work shall be undertaken and the periods of rest required.
- 4 The minimum age for assignment to activities on board fishing vessels, which by their nature or the circumstances in which they are carried out are likely to jeopardize the health, safety, physical, mental or social development, education or morals of young persons, shall not be less than 18 years.
- 5 The types of activities to which paragraph 4 of this Article applies shall be determined by national laws or regulations, or by the competent authority, after consultation, taking into account the risks concerned and the applicable international standards.
- 6 The performance of the activities referred to in paragraph 4 of this Article as from the age of 16, provided a young person is no longer subject to compulsory fulltime schooling under national law, may be authorized by national laws or regulations, or by decision of the competent authority, after consultation, on condition that the health, safety, physical, mental and social development, education and morals of the young persons concerned are fully protected and that the young persons concerned have received adequate specific instruction or vocational training and have completed basic pre-sea safety training. The requirements under Article 7.3 of Directive 94/33/EC shall be respected.
- 7 The engagement of fishermen under the age of 18 for work at night shall be prohibited. For the purpose of this Article, 'night' shall be defined in accordance with national law and practice. It shall cover a period of at least nine hours, starting no later than midnight and ending no earlier than 5 a.m. An exception to strict compliance with the night work restriction may be made by the competent authority, provided that the requirements under Article 9 of Directive 94/33/EC are respected, when:
- 8 Nothing in this Article shall affect any obligations assumed by the Member State arising from the ratification of any international labour Convention guaranteeing more protective conditions to the young fishermen concerned in this Article.

MEDICAL EXAMINATION

Article 7

1 No fishermen shall work on board a fishing vessel without a valid medical certificate attesting to fitness to perform their duties.

2 The competent authority, after consultation, may grant exemptions from the application of paragraph 1 of this Article, taking into account the safety and health of fishermen, size of the vessel, availability of medical assistance and evacuation, duration of the voyage, area of operation, and type of fishing operation.

3 The exemptions in paragraph 2 of this Article shall not apply to a fisherman working on a fishing vessel of 24 metres in length and over or which normally remains at sea for more than three days. In urgent cases, the competent authority may permit a fisherman to work on such a vessel for a period of a limited and specified duration until a medical certificate can be obtained, provided that the fisherman is in possession of an expired medical certificate of a recent date.

Article 8

Each Member State shall adopt laws, regulations or other measures providing for:

- (a) the nature of medical examinations;
- (b) the form and content of medical certificates;
- (c) the issue of a medical certificate by a duly qualified medical practitioner or, in the case of a certificate solely concerning eyesight, by a person recognized by the competent authority as qualified to issue such a certificate; these persons shall enjoy full independence in exercising their professional judgement;
- (d) the frequency of medical examinations and the period of validity of medical certificates;
- (e) the right to another, binding examination by an independent medical practitioner, who has been appointed by the Member State as referee,
 - (i) in the event that a person has been refused a certificate or has had limitations imposed on the work he or she may perform;
 - (ii) in the event that a person, during his or her examination, has indicated that he or she finds himself or herself unfit to perform his or her duties on board a fishing vessel, but the medical examiner issues a medical certificate nonetheless attesting that the person is medically fit to perform his or her duties on board a fishing vessel;
 - (iii) in the event that a person has been refused a certificate or has had limitations imposed on the work he or she may perform, in case the medical reasons for such refusal have disappeared.
- (f) other relevant requirements.

Article 9

In addition to the minimum requirements set out in Article 7 and Article 8, on a fishing vessel of 24 metres in length and over, or on a vessel which normally remains at sea for more than three days:

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (a) the medical certificate of a fisherman shall state, at a minimum, that:
 - (i) the hearing and sight of the fisherman concerned are satisfactory for the fisherman's duties on the vessel, and
 - (ii) the fisherman is not suffering from any medical condition likely to be aggravated by service at sea or to render the fisherman unfit for such service or to endanger the safety or health of other persons on board;
- (b) the medical certificate shall be valid for a maximum period of two years unless the fisherman is under the age of 18, in which case the maximum period of validity shall be one year;
- (c) if the period of validity of a certificate expires in the course of a voyage, the certificate shall remain in force until the end of that voyage.

PART 4

CONDITIONS OF SERVICE

MANNING

Article 10

1 Each Member State shall adopt laws, regulations or other measures requiring that owners of vessels flying its flag or registered under its plenary jurisdiction ensure that their vessels are sufficiently and safely manned for the safe navigation and operation of the vessel and under the control of a competent skipper.

2 In addition to the requirements set out in paragraph 1 of this Article, the competent authority shall, for fishing vessels of 24 metres in length and over, establish a minimum level of manning for the safe navigation of the vessel, specifying the number and the qualifications of the fishermen required.

3 The competent authority, after consultation, may establish alternative requirements to those in paragraph 2 of this Article. However, the Member State shall satisfy itself that the alternative:

HOURS OF WORK AND HOURS OF REST

Article 11

1

2

3 The limits on hours of work or rest shall be either:

4 Hours of rest may be divided into no more than two periods, one of which shall be at least six hours in length, and the interval between two consecutive periods of rest shall not exceed 14 hours.

5 In accordance with the general principles of the protection of the health and safety of workers, and for objective or technical reasons or reasons concerning the organisation of work, Member States may allow exceptions, including the establishment of reference periods, to the

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

limits laid down in paragraph 1, subparagraph (b), and paragraphs 3 and 4. Such exceptions shall, as far as possible, comply with the standards laid down but may take account of more frequent or longer leave periods or the granting of compensatory leave for the fishermen.

6 If exceptions under paragraph 5 are allowed to the limits laid down in paragraph 3, the fishermen concerned shall receive compensatory periods of rest as soon as practicable.

7 Nothing in this Article shall be deemed to impair the right of the skipper of a vessel to require a fisherman to perform any hours of work necessary for the immediate safety of the vessel, the persons on board or the catch, or for the purpose of giving assistance to other boats or ships or persons in distress at sea. Accordingly, the skipper may suspend the schedule of hours of rest and require a fisherman to perform any hours of work necessary until the normal situation has been restored. As soon as practicable after the normal situation has been restored, the skipper shall ensure that any fishermen who have performed work in a scheduled rest period are provided with an adequate period of rest.

8 Each Member State may provide that fishermen on board fishing vessels flying its flag or registered under its plenary jurisdiction for which national legislation or practice determines that these vessels are not allowed to operate in a specific period of the calendar year exceeding one month, shall take annual leave in accordance with Article 7 of Directive 2003/88/EC within that period.

CREW LIST

Article 12

Every fishing vessel shall carry a crew list, a copy of which shall be provided to authorized persons ashore prior to departure of the vessel, or communicated ashore immediately after departure of the vessel. The competent authority shall determine to whom and when such information shall be provided and for what purpose or purposes.

FISHERMAN'S WORK AGREEMENT

Article 13

Articles 14 to 18 inclusive apply without prejudice to Directive 91/533/EEC.

Article 14

Each Member State shall adopt laws, regulations or other measures:

- (a) requiring that fishermen working on vessels flying its flag or registered under its plenary jurisdiction have the protection of a fisherman's work agreement that is comprehensible to them and is consistent with the provisions of this Agreement; and
- (b) specifying the minimum particulars to be included in fisherman's work agreements in accordance with the provisions contained in Annex I to this Agreement.

Article 15

Each Member State shall adopt laws, regulations or other measures regarding:

- (a) procedures for ensuring that a fisherman has an opportunity to review and seek advice on the terms of the fisherman's work agreement before it is concluded;
- (b) where applicable, the maintenance of records concerning the fisherman's work under such an agreement; and

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (c) the means of settling disputes in connection with a fisherman's work agreement.

Article 16

The fisherman's work agreement, a copy of which shall be provided to the fisherman, shall be carried on board and be available to the fisherman and, in accordance with national law and practice, to other parties concerned on request.

Article 17

Articles 14 to 16 inclusive and Annex I to this Agreement do not apply to a fishing vessel owner who is also single-handedly operating the vessel.

Article 18

It shall be the responsibility of the fishing vessel owner to ensure that each fisherman has a written fisherman's work agreement, which is signed by all parties to that agreement, and which provides the fisherman with decent work and living conditions on board the vessel as required by this Agreement.

REPATRIATION

Article 19

1 Each Member State shall ensure that fishermen on a fishing vessel that flies its flag or is registered under its plenary jurisdiction and that enters a foreign port are entitled to repatriation in the event that the fisherman's work agreement has expired or has been terminated for justified reasons by one or more of the parties to that agreement, or the fisherman is no longer able to carry out the duties required under the fisherman's work agreement or cannot be expected to carry them out in the specific circumstances. This also applies to fishermen from that vessel who are transferred for the same reasons from the vessel to the foreign port.

2 The cost of the repatriation referred to in paragraph 1 of this Article shall be borne by the fishing vessel owner, except where the fisherman has been found, in accordance with national laws, regulations or other measures, to be in serious default of his or her obligations under the fisherman's work agreement.

3 Member States shall prescribe, by means of laws, regulations or other measures, the precise circumstances entitling a fisherman covered by paragraph 1 of this Article to repatriation, the maximum duration of service periods on board following which a fisherman is entitled to repatriation, and the destinations to which fishermen may be repatriated.

4 If a fishing vessel owner fails to provide for the repatriation referred to in this Article, the Member State whose flag the vessel flies shall arrange for the repatriation of the fisherman concerned and shall be entitled to recover the cost from the fishing vessel owner.

5 National laws and regulations shall not prejudice any right of the fishing vessel owner to recover the cost of repatriation under third party contractual agreements.

PRIVATE LABOUR MARKET SERVICES

Article 20

1 This Article applies without prejudice to Directive 2008/104/EC.

2 For the purpose of this Article private labour market services consist of recruitment and placement services in the private sector and the services of private employment agencies.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

3 A Member State shall:

4 Nothing in this Article shall prevent any Member State who has ratified C188 from exercising the right it may have to allocate, within the limitations prescribed by the Convention, certain responsibilities under C188 to private employment agencies.

PART 5

OCCUPATIONAL SAFETY AND HEALTH

FOOD AND ACCOMMODATION

Article 21

1 Articles 22 to 25 inclusive apply without prejudice to Directive 93/103/EC.

2 National provisions implementing the Articles 22 to 25 inclusive shall be observed with due regard to hygiene and overall safe, healthy and comfortable conditions.

Article 22

Each Member State shall adopt laws, regulations or other measures for fishing vessels that fly its flag or is registered under its plenary jurisdiction with respect to accommodation, food and potable water on board.

Article 23

Each Member State shall adopt laws, regulations or other measures requiring that accommodation on board fishing vessels that fly its flag or is registered under its plenary jurisdiction shall be of sufficient size and quality and appropriately equipped for the service of the vessel and the length of time fishermen live on board. In particular, such measures shall address, as appropriate, the following issues:

- (a) approval of plans for the construction or modification of fishing vessels in respect of accommodation;
- (b) maintenance of accommodation and galley spaces;
- (c) ventilation, heating, cooling and lighting;
- (d) mitigation of excessive noise and vibration;
- (e) location, size, construction materials, furnishing and equipping of sleeping rooms, mess rooms and other accommodation spaces;
- (f) sanitary facilities, including toilets and washing facilities, and supply of sufficient hot and cold water; and
- (g) procedures for responding to complaints concerning accommodation that does not meet the requirements of this Agreement.

Article 24

Each Member State shall adopt laws, regulations or other measures requiring that:

- (a) the food carried and served on board be of a sufficient nutritional value, quality and quantity;

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (b) potable water be of sufficient quality and quantity; and
- (c) the food and water shall be provided by the fishing vessel owner at no cost to the fisherman; however, in accordance with national laws and regulations, the cost can be recovered as an operational cost if the collective agreement governing a share system or a fisherman's work agreement so provides.

Article 25

The laws regulations or other measures to be adopted by the Member State in accordance with Articles 22 to 24 inclusive shall give full effect to Annex II to this Agreement.

*HEALTH PROTECTION AND MEDICAL CARE; PROTECTION
IN CASE OF WORK-RELATED SICKNESS, INJURY OR DEATH*

Article 26

Each Member State shall adopt laws, regulations or other measures requiring that a fisherman aboard a fishing vessel that flies its flag or is registered under its plenary jurisdiction:

- (a) has the right to medical treatment ashore and the right to be taken ashore in a timely manner for treatment in the event of serious injury or illness occurring to him;
- (b) shall be provided by the fishing vessel owner with health protection and medical care while he is
 - (i) aboard, or
 - (ii) landed in a port outside the country responsible for the fisherman's social security protection; and
- (c) shall, in the event of work-related illness or injury, further have access to appropriate medical care in accordance with its national laws, regulations or practice.

Article 27

Each Member State shall adopt laws, regulations or other measures requiring that the health protection and medical care referred to in Article 26, paragraph (b), shall:

- (a) be subject to the applicable provisions of Directive 92/29/EEC and of Article 28 hereafter if the fisherman is aboard; and shall
- (b) include medical treatment and related material assistance and support during medical treatment if the fisherman is landed in a port outside the country responsible for the fisherman's social security protection.

Article 28

Each Member State shall adopt laws, regulations or other measures requiring that:

- (a) in addition to the requirements of Article 2, paragraph 1 (b), of Directive 92/29/EEC, the medical products and medical equipment to be carried on board a fishing vessel shall also depend on the area of operation;
- (b) in addition to the requirements of Article 5, paragraph 3, of Directive 92/29/EEC, the special training of fishermen provided for shall also take into account the number of fishermen aboard, the area of operation and the length of the voyage;

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (c) the guides provided for in Article 5, paragraph 1, of Directive 92/29/EEC shall be in a language and format understood by the trained fishermen referred to in paragraph (b) of this Article;
- (d) the medical consultations referred to in Article 6, paragraph 1, of Directive 92/29/EEC shall also be available through satellite communication and that fishing vessels flying its flag or registered under its plenary jurisdiction shall, for the purpose of obtaining such consultations, be equipped for radio or satellite communication; and
- (e) fishing vessels flying its flag or registered under its plenary jurisdiction carry a medical guide adopted or approved by the competent authority, or the latest edition of *the International Medical Guide for Ships*.

Article 29

Each Member State shall adopt laws, regulations or other measures requiring that:

- (a) to the extent consistent with the Member State's national law and practice, the medical care prescribed in Article 26, paragraph (b), and further in Article 28, shall be provided free of charge to the fisherman; and that
- (b) until the fisherman has been repatriated, the fishing vessel owner shall defray the cost of the medical care the fisherman is exempted from under paragraph (a) of this Article to the extent the country, responsible for the fisherman's social security protection, does not cover the cost under its social security system; and that
- (c) the fishing vessel owner shall be liable for defraying the cost of the medical care prescribed in Article 26, paragraph (c), to the extent the country, responsible for the fisherman's social security protection, does not cover the cost under its social security system.

Article 30

National law or regulations may permit the exclusion of the fishing vessel owner's responsibility to defray the cost of medical care as referred to in Article 29, paragraphs (b) and (c), if the injury occurred otherwise than in the service of the fishing vessel or the sickness or infirmity was concealed during engagement, or the fishing vessel owner proves that the injury or sickness was due to wilful misconduct of the fisherman.

Article 31

1 Each Member State shall take measures to provide fishermen with protection, in accordance with national laws, regulations or practice, for work-related sickness, injury or death.

2 In the event of injury due to occupational accident or disease, the fisherman shall have access to the corresponding compensation in accordance with national laws and regulations.

3 To the extent the country, responsible for the fisherman's social security protection, does not cover the protection referred to in paragraph 1, and consequently 2, of this Article under its social security system, the fishing vessel owner shall be responsible for it.

Article 32

Taking into account the characteristics within the fishing sector, the financial responsibilities of the fishing vessel owner under the Articles 29 and 31 may be ensured through:

- (a) a system of fishing vessel owners' liability; or

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (b) compulsory insurance, workers' compensation, or other schemes.

OCCUPATIONAL SAFETY AND HEALTH AND ACCIDENT PREVENTION

Article 33

Articles 34 to 36 inclusive apply without prejudice to Directive 89/391/EEC, Directive 92/29/EEC, and Directive 93/103/EC.

Article 34

Each Member State shall adopt laws, regulations or other measures concerning:

- (a) the prevention of occupational accidents, occupational diseases and work-related risks on board fishing vessels, including risk evaluation and management, training and on-board instruction of fishermen;
- (b) training for fishermen in the handling of types of fishing gear they will use and in the knowledge of the fishing operations in which they will be engaged;
- (c) the obligations of fishing vessel owners, fishermen and others concerned, due account being given of the safety and health of fishermen under the age of 18;
- (d) reporting and investigation of accidents on board fishing vessels flying its flag or registered under its plenary jurisdiction; and
- (e) the setting up of joint committees on occupational safety and health or, after consultation, of other appropriate bodies.

Article 35

1 The requirements of this Article shall apply to all fishing vessels, taking into account the number of fishermen on board, the area of operation, and the duration of the voyage.

2 The competent authority shall:

3 Fishing vessel owners shall:

Article 36

Risk evaluation in relation to fishing shall be conducted with the participation of fishermen or their representatives as appropriate.

PART 6

AMENDMENTS

Article 37

1 Subsequent to any amendments to any of the provisions of the Convention, and if requested by either one of the signatory parties to this Agreement, a review of the application of this Agreement and its Annexes shall be carried out.

2 Subsequent to any change in European legislation which may affect this Agreement, and if requested by either one of the signatory parties to this Agreement, an evaluation and a review of this Agreement shall be carried out any time.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

PART 7

FINAL PROVISIONS

Article 38

The signatory parties make this Agreement on condition that it shall not enter into force until the date when the Convention enters into force. The Convention enters into force 12 months after the date on which the ratifications of ten Member States of the ILO, eight of which are coastal States, have been registered with the Director-General of the International Labour Office.

IN WITNESS WHEREOF the undersigned have affixed their signatures to this Agreement.

DONE AT Gothenburg, Sweden, this twenty first day of May two thousand and twelve.

Mr Javier Garat, President of Europêche

Mr Giampaolo Buonfiglio, Chairman of the COPA-Cogeca Fish Working Group

Mr Eduardo Chagas, General Secretary of ETF
