REGULATION (EEC) No 972/69 OF THE COMMISSION

of 28 May 1969

amending Regulation (EEC) No 190/68 on the denaturing process for colza and rape seed

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation No 136/66/EEC¹ of 22 September 1966 on the establishment of a common organisation of the market in oils and fats, as last amended by Regulation (EEC) No 2146/68,² and in particular Article 27 (5) thereof;

Having regard to Council Regulation No 162/66/EEC³ of 27 October 1966 on trade in oils and fats between the Community and Greece, and in particular Article 8 thereof;

Whereas a denaturing process should be determined for the purpose of applying Commission Regulation (EEC) No 911/68⁴ of 5 July 1968 on certain detailed rules concerning the subsidy for oil seeds, as last amended by Regulation (EEC) No 474/69⁵;

Whereas the method of denaturing laid down in Commission Regulation (EEC) No 190/68⁶ of 16 February 1968 on the denaturing process for colza and rape seed provides for the addition of a certain quantity of millet and canary seed to colza and rape seed and to mixtures containing these products;

Whereas, because of the trend of prices for the products added to these seeds and mixtures, the

percentages specified in the above-mentioned Regulation must be altered without however impairing the effectiveness of the denaturing system;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Oils and Fats;

HAS ADOPTED THIS REGULATION:
