

REGULATION (EEC) No 1957/74 OF THE COMMISSION

of 25 July 1974

fixing the reference prices for apples for the 1974/75 marketing year

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community ;

Having regard to Council Regulation (EEC) No 1035/72⁽¹⁾ of 18 May 1972 on the common organization of the market in fruit and vegetables, as last amended by Regulation (EEC) No 2745/72⁽²⁾, and in particular Article 27 (1) thereof ;

Whereas under Article 23 (1) of Regulation (EEC) No 1035/72, reference prices valid for the whole Community are to be fixed each year, before the beginning of the marketing year ;

Whereas apples are produced in such quantities in the Community that a reference price should be fixed for them ;

Whereas apples harvested during a given crop year are marketed from July to June of the next year ; whereas reference prices should be fixed for the period from 1 July to 30 June of the next year ;

Whereas, pursuant to Article 23 (2) of Regulation (EEC) No 1035/72, reference prices are to be equal to the arithmetic mean of producer prices in each Member State plus an amount representing the costs of transporting Community products from the production areas to Community marketing centres ; whereas the trend of average basic prices and buying-in prices should also be taken into account ;

Whereas, since the varieties of apples are not all comparable as regards the estimation of their commercial value, these varieties should be classified in three groups ;

Whereas to take seasonal variations into account, the marketing year should be divided into several periods and a reference price for each of those periods ;

Whereas the producer prices are to correspond to the averages of the prices recorded during the three years prior to the date of fixing of the reference price for a home-grown product with defined commercial characteristics on the representative market or markets situated in the production areas where prices are lowest,

for the products or varieties which represent a considerable proportion of production marketed throughout the year or during part of it, and which satisfy specified requirements as regards market preparation ; whereas, when the average of prices recorded on each representative market is being calculated, prices which could be considered excessively high or excessively low in relation to normal price fluctuations on the market should be disregarded ;

Whereas, for the purpose of calculating entry prices, the varieties imported from third countries of which the entry prices are to be compared to the prices fixed for Group I and to those fixed for Group II and Group III respectively should be specified ;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Fruit and Vegetables,

HAS ADOPTED THIS REGULATION :
