

COUNCIL REGULATION (EEC) No 4124/86

of 22 December 1986

opening, allocating and providing for the administration of a Community tariff quota for certain wines falling within subheading ex 22.05 C of the Common Customs Tariff and originating in Algeria (1987)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas Article 20 of the Cooperation Agreement between the European Economic Community and the People's Democratic Republic of Algeria ⁽¹⁾ provides for preferential treatment for the importation of certain wines having a designation of origin and falling within subheading ex 22.05 C of the Common Customs Tariff; whereas the application of this treatment is limited until 30 June 1981; whereas the period for this treatment was last extended until 31 December 1986 by Regulation (EEC) No 3669/85 ⁽²⁾;

Whereas Council Regulation (EEC) No 4123/86 ⁽³⁾ provides for the treatment which the Community has applied until 31 December 1986 to be extended until 31 December 1987; whereas this treatment provides that certain wines having a designation of origin, falling within subheading ex 22.05 C of the Common Customs Tariff and originating in Algeria shall be exempt from customs duties on importation into the Community within the limits of a Community tariff quota of 450 000 hectolitres; whereas the wines must be put up in containers holding a maximum of two litres; whereas these wines must be accompanied by a certificate of designation of origin in accordance with the model given in Annex D to the Agreement; whereas the Community tariff quota in question should therefore be opened for the period 1 January to 31 December 1987;

Whereas the wines in question are subject to compliance with the free-at-frontier reference price; whereas, in order that such wines may benefit from this tariff quota, Article 18 of Regulation (EEC) No 337/79 ⁽⁴⁾, as last amended by Regulation (EEC) No 3805/85 ⁽⁵⁾, must be complied with;

Whereas, since a Protocol as provided for in Articles 179 and 366 of the Act of Accession of Spain and Portugal does

not exist, the Community must take the measures referred to in Articles 180 and 367 of that Act; whereas the tariff measure concerned will, therefore, apply to the Community of Ten;

Whereas it is in particular necessary to ensure equal and uninterrupted access for all Community importers to the abovementioned quota, and uninterrupted application of the rates laid down for this quota to all imports of the products concerned into the Member States until the quota has been used up; whereas, having regard to the above principles, the Community nature of the quota can be respected by allocating the Community tariff quota among the Member States; whereas, in order to reflect most accurately the actual development of the market in the products in question, such allocation should be in proportion to the requirements of the Member States, assessed by reference to both the statistics relating to imports of the said products from Algeria over a representative reference period and the economic outlook for the quota period concerned;

Whereas in this case, however, neither Community nor national statistics showing the breakdown for each of the types of wines in question are available and no reliable estimates of future imports can be made; whereas in these circumstances the quota volumes should be allocated in initial shares, taking into account demand for these wines on the markets of the various Member States;

Whereas, to take into account import trends for the products concerned in the various Member States, the quota amount should be divided into two instalments, the first being allocated among the Member States and the second held as a reserve intended to cover at a later date the requirements of Member States who have used up their initial share; whereas, in order to guarantee some degree of security to importers in each Member State, the first instalment of the Community quota should be fixed at a level which could, in the present circumstances, be 51 % of the quota volume;

Whereas the initial shares of the Member States may be used up at different rates; whereas, in order to take this into account and to avoid a break in continuity, any Member State which has used up almost all of its initial

share should draw an additional share from the reserve; whereas this should be done by each Member State each time one of its additional shares is almost used up, and so on as many times as the reserve allows; whereas the initial and additional shares must be valid until the end of the quota period; whereas this form of administration requires close collaboration between the Member States and the Commission, and the Commission must be in a position to follow the extent to which the quota volume has been used up and inform the Member States thereof;

Whereas, if at a given date in the quota period a substantial quantity of its initial share remains unused in any Member State, it is essential that it should return a significant proportion thereof to the reserve, to prevent part of the Community quota remaining unused in one Member State when it could be used in others;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, all transactions concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

3. If, after its second share has been used up, 90 % or more of the third share drawn by a Member State has been used up, that Member State shall, in accordance with the conditions laid down in paragraph 1, draw a fourth share equal to the third.

This process shall continue to apply until the reserve is used up.

4. Notwithstanding paragraphs 1, 2 and 3, Member States may draw smaller shares than those fixed in these paragraphs if there is reason to believe that those fixed might not be used up. They shall inform the Commission of their grounds for applying this paragraph.

Article 4

The additional share drawn pursuant to Article 3 shall be valid until 31 December 1987.

Article 5

Member States shall return to the reserve, not later than 1 October 1987, the unused portion of their initial shares which on 15 September 1987 is in excess of 20 % of the initial amount. It shall notify the Member States, not later than 5 October 1987, of the state of the reserve after quantities have been returned thereto pursuant to Article 5.

It shall ensure that the drawing which uses up the reserve is limited to the balance available, and, to this end, shall specify the amount thereof to the Member State making the final drawing.

Article 7

1. Member States shall take all measures necessary to ensure that additional shares drawn pursuant to Article 3 are opened in such a way that imports may be charged without interruption against their aggregate shares in the Community quota.

2. Member States shall ensure that importers of the products have free access to the shares allocated to them.

3. The Member States shall charge the imports of the products concerned against their shares as and when the products are entered with customs authorities for free circulation.

4. The extent to which a Member State has used up its shares be determined on the basis of the imports charged in accordance with paragraph 3.

Article 8

At the request of the Commission, Member States shall inform it of imports actually charged against their shares.
