## COUNCIL REGULATION (EEC) No 3926/90

of 20 December 1990

fixing, for certain fish stocks and groups of fish stocks, the total allowable catches for 1991 and certain conditions under which they may be fished

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 170/83 of 25 January 1983 establishing a Community system for the conservation and management of fishery resources<sup>(1)</sup>, as amended by the Act of Accession of Spain and Portugal, and in particular Article 11 thereof,

Having regard to the proposal from the Commission,

Whereas Article 2 of Regulation (EEC) No 170/83 requires the Council to formulate, in the light of the available scientific advice and, in particular, of the report prepared by the Scientific and Technical Committee for Fisheries, the conservation measures necessary to achieve the aims set out in Article 1 of the abovementioned Regulation;

Whereas Article 3 of Regulation (EEC) No 170/83 requires the Council, if it becomes necessary to limit fishing effort by restricting catches, to establish the total allowable catches (TAC) by stock or group of stocks, the share available for the Community and also the specific conditions under which the catches must be made;

Whereas, in order to ensure the protection of fishing grounds and fish stocks and the balanced exploitation of the resources of the sea, in the interests of both fishermen and consumers, there should be fixed, each year for the different species of which the catches must be restricted, a

TAC per stock or group of stocks and the share of these catches available to the Community taking into account its commitments to third countries;

Whereas, since the unification of Germany, Community law applies fully to the territory of the former German Democratic Republic;

Whereas, in accordance with the procedure provided for in Article 2 of the Agreement on fisheries between the European Economic Community and the Kingdom of Norway<sup>(2)</sup>, Article 2 of the Agreement on fisheries between the European Economic Community and the Government of Sweden<sup>(3)</sup>, and Article 2 of the Agreement on fisheries between the European Economic Community of the one part and the Government of Denmark and the Home Government of the Faroe Islands of the other part<sup>(4)</sup>, the parties have consulted on their reciprocal fishing rights for 1991;

Whereas these bilateral consultations have been successfully concluded; whereas, as a result, it is possible to fix the TACs, the Community shares and the quotas for certain joint and autonomous stocks, of which part is allocated to Norway, Sweden and the Faroe Islands;

Whereas trilateral consultations with Norway and Sweden concerning reciprocal fishing rights in the Skagerrak and the Kattegat have not yet been concluded; whereas it is not possible, in consequence, to fix the TACs and the Community shares available for certain stocks in these areas;

Whereas the Community has signed the United Nations Convention on the Law of the Sea, which contains principles and rules relating to the conservation and management of the living resources of the sea;

<sup>(1)</sup> OJ No L 24, 27. 1. 1983, p. 1.

<sup>(2)</sup> OJ No L 226, 29. 8. 1980, p. 48.

<sup>(3)</sup> OJ No L 226, 29. 8. 1980, p. 2.

<sup>(4)</sup> OJ No L 226, 29. 8. 1980, p. 12.

Whereas, in the framework of its wider international obligations, the Community participates in efforts to conserve fish stocks arising in international waters; whereas the extent to which such stocks are fished by vessels of the Community should be viewed in the light of overall fishing activity and the contribution made hitherto by the Community towards their conservation should be taken into account;

Whereas the International Baltic Sea Fishery Commission has recommended TACs for the stocks of cod, salmon, herring and sprat occurring in the waters of the Baltic Sea and the shares thereof for each contracting party;

Whereas, in order to ensure effective management, the shares of the TAC available for the Community in 1991 should be distributed fairly among the Member States in a manner which assures relative stability of fishing activities, in accordance with Article 4 of Regulation (EEC) No 170/83;

Whereas, in the case of certain stocks fished mainly for reduction to meal and oil, it does not appear necessary to make quota allocations;

Whereas Article 161 of the Act of Accession of Spain and Portugal fixes the share of the TACs allocated to Spain for certain stocks in certain zones and allocates flat-rate amounts of horse mackerel and blue whiting to Spain;

Whereas, in order to improve the management of the western stock of horse mackerel, it is necessary to modify the description of the zones for which the TACs are fixed;

Whereas those flat-rate amounts of blue whiting must be divided among ICES sub-areas and divisions V b (EC zone), VI, VII and VIII a, b and d;

Whereas, pursuant to Article 158 of the Act of Accession, a distinction must be made between fishing for demersal species and fishing for species other than demersal; whereas the group to which blue whiting and horse mackerel belong must therefore be defined;

Whereas, in order to ensure effective management of these TACs, the specific conditions under which fishing operations occur should be established;

Whereas, taking account of the latest scientific advice, it is necessary to establish seasonal limitations on certain fishing activities in the North Sea and to increase the minimum mesh size in order to limit catches of juvenile cod;

Whereas, it is necessary to prohibit the use of nets with a mesh size of less than 32 millimetres for sprat fishing in the Skagerrak and Kattegat in order to limit catches of juvenile herring;

Whereas, in order to ensure a better exploitation of the quotas of herring, hake and mackerel, transfers of quotas from the zones IV c and VII d to ICES division IV b should be allowed for herring, transfers from the zones V b (EC zone), VI, VII, XII and XIV and from zones VIII a, b and d to zone II a (EC zone) and IV (EC zone) should be permitted for hake, and transfers from zones II a (EC zone) and IV and zones II (except EC zone), V b (EC zone), VI, VII, VIII a, b, d and e, XII and XIV to zone IV a (EC zone) should be permitted for mackerel;

Whereas, in order to ensure a better exploitation of the haddock stocks in zones V b (EC zone), VI, XII and XIV, catches in zone VI a should be limited;

Whereas, taking account of the latest scientific advice, it is necessary to establish seasonal limitations on fishing activities in the Firth of Clyde, the Irish Sea and the Celtic Sea in order to limit fishing for herring;

Whereas, taking account of the latest scientific advice, it is necessary to establish seasonal limitations in certain zones off the Spanish and Portuguese coasts so as to restrict catches of juvenile hake;

Whereas, taking account of the latest scientific advice, the definition of fishing for sole should be retained for large vessels;

Whereas the situation of several stocks, in particular haddock and cod stocks in Region 2, is extremely serious; whereas the continuation of inadequate exploitation methods causes large quantities to be discarded; whereas it is therefore essential that, taking account of the scientific recommendations for TACs which are below the existing fishing capacity in the Member States, measures to contain fishing effort be introduced; whereas, moreover, in present circumstances a reduction should be envisaged of at least 30 % of the fishing effort directed at cod or haddock in the North Sea and to the west of Scotland,

HAS ADOPTED THIS REGULATION:

#### Article 1

This Regulation fixes for 1991, for certain fish stocks and groups of fish stocks, total allowable catches (TACs) per

stock or group of stocks, the share of these catches available to the Community, the allocation of that share among Member States and the specific conditions under which these stocks may be fished <sup>(1)</sup>.

For the purposes of this Regulation, the Skagerrak is bounded on the west by a line drawn from the Hanstholm lighthouse to the Lindesnes lighthouse and on the south by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast.

For the purposes of this Regulation, the Kattegat is bounded on the north by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast and on the south by a line drawn from Hasenøre to Gribens Spids, from Korshage to Spodsbjerg and from Gilbjerg Hoved to Kullen.

For the purposes of this Regulation, the North Sea shall comprise ICES sub-area IV and that part of ICES division III a which is not covered by the definition of the Skagerrak given in this Article.

#### Article 2

TACs for stocks or groups of stocks to which Community rules apply and the share of these catches available to the Community are hereby fixed for 1991 as set out in the Annex.

#### Article 3

The allocation among the Member States of the share available to the Community of the TACs mentioned in Article 2 is fixed in the Annex.

This allocation shall be without prejudice to exchanges made pursuant to Article 5 (1) of Regulation (EEC) No 170/83 and re-allocations made pursuant to Articles 11 (4) and 11d (2) of Regulation (EEC) No 2241/87 <sup>(2)</sup>.

<sup>(1)</sup> The definition of the ICES and CECAF areas referred to in this Regulation is given in Commission communications 85/C 347/05 (OJ No C 347, 31. 12. 1985, p. 14) and 85/C 335/02 (OJ No C 335, 24. 12. 1985, p. 2) respectively.

<sup>(2)</sup> OJ No L 207, 29. 7. 1987, p. 1.

#### Article 4

As regards the herring stock of the North Sea and of the eastern English Channel, transfers of up to 50 % of the quotas may be effected from ICES divisions IV c and VII d to ICES division IV b.

As regards the hake stock in zones II a (EC zone) and IV (EC zone), Member States having a quota in this zone, may on exhaustion of this quota, make transfers from zones V b (EC zone), VI, VII, XII and XIV and from zones VIII a, b and d to zones II a (EC zone) and IV (EC zone).

However, such transfers must be notified in advance to the Commission.

#### Article 5

1. It shall be prohibited to retain on board or to land catches from stocks for which TACs or quotas are fixed unless:

- (i) the catches have been taken by vessels of a Member State having a quota and that quota is not exhausted; or
- (ii) the share of the TAC available to the Community (Community share) has not been allocated by quota among Member States and the Community share has not been exhausted; or
- (iii) for all species other than herring and mackerel, they are mixed with other species and have been taken with nets whose mesh size is 32 millimetres or less in Regions 1 and 2 or 40 millimetres or less in Region 3 in accordance with Article 2 (1) of Regulation (EEC) No 3094/86 <sup>(3)</sup>, and are not sorted either on board or on landing; or
- (iv) for herring, they are within the limits of paragraph 2; or
- (v) for mackerel, they are mixed with horse-mackerel or pilchard and the mackerel does not exceed 10 % of the total weight of mackerel, horse-mackerel and pilchard on board and the catches are not sorted; or
- (vi) they are caught during the course of scientific investigations carried out under Regulation (EEC) No 3094/86.

All landings shall count against the quota, or, if the Community share has not been allocated between Member

States by quotas, against the Community share, except for catches made under the provisions of (iii), (iv), (v) and (vi).

2. When fishing with nets whose mesh size is less than 32 millimetres in Regions 1 and 2 other than the Skagerrak and the Kattegat and with nets whose mesh size is less than 40 millimetres in Region 3, it shall be prohibited to retain on board catches of herring mixed with other species unless such catches are not sorted and unless the herring, if mixed with sprat only, does not exceed 10 % by weight of the total weight of herring and sprat combined.

When fishing with nets whose mesh size is less than 32 millimetres in Regions 1 and 2 and with nets whose mesh size is less than 40 millimetres in Region 3, it shall be prohibited to retain on board catches of herring mixed with other species unless such catches are not sorted and unless the herring, if mixed with other species whether or not including sprat, does not exceed 5 % by weight of the total weight of the herring and other species combined.

For vessels as referred to above fishing in the abovementioned area, it shall be prohibited to have on board any trawl or piece of netting with a mesh size smaller than that of the net actually used.

#### Article 13

All Member States with cod and haddock quotas in the North Sea or to the West of Scotland (Areas IV and VI) shall take the necessary steps, which they shall communicate to the Commission by 1 March 1991, to ensure that each vessel whose overall length is over 10 metres, and whose cod and haddock landings from Areas IV and VI over the period 1 January 1989 to 30 June 1990 exceed (i) 100 tonnes and (ii) 40 % by weight of their total landings, and any vessel replacing a vessel in the category as above defined, remains in port for, at least, eight consecutive days per calendar month during the period 1 February to 31 December 1991.

Member States which, as a result of the application of the preceding provisions, are unable to use up their quotas of cod and haddock in Areas IV and VI for 1991 may apply to the Commission for a reduction of or exemption from the abovementioned limitation of seagoing days.

The Commission shall communicate its decision within eight working days.

*Article 14*

Notwithstanding Article 2 of and Annex I to Regulation (EEC) No 3094/86, under headings Region '2', geographical zone 'entire region except Norway pout box' and the authorized Norway pout target species, the maximum percentage of protected species is 15 % of which no more than 5 % is taken up by cod and haddock.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 20 December 1990.

*Article 15*

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

It shall apply from 1 January 1991.

*For the Council*

*The President*
