COUNCIL REGULATION (EC) No 974/98
of 3 May 1998
on the introduction of the euro

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 109l(4), third sentence thereof,

Having regard to the proposal from the Commission ⁽¹⁾,

Having regard to the opinion of the European Monetary Institute ⁽²⁾,

Having regard to the opinion of the European Parliament ⁽³⁾,

- (1) Whereas this Regulation defines monetary law provisions of the Member States which have adopted the euro; whereas provisions on continuity of contracts, the replacement of references to the ecu in legal instruments by references to the euro and rounding have already been laid down in Council Regulation (EC) No 1103/97 of 17 June 1997 on certain provisions relating to the introduction of the euro ⁽⁴⁾; whereas the introduction of the euro concerns day-to-day operations of the whole population in participating Member States; whereas measures other than those in this Regulation and in Regulation (EC) No 1103/97 should be examined to ensure a balanced changeover, in particular for consumers;
- (2) Whereas, at the meeting of the European Council in Madrid on 15 and 16 December 1995, the decision was taken that the term 'ecu' by the Treaty to refer to the European currency unit is a generic term; whereas the Governments of the 15 Member States have reached the common agreement that this decision is the agreed and definitive interpretation of the relevant Treaty provisions; whereas the name given to the European currency shall be the 'euro'; whereas the euro as the currency of the participating Member States shall be divided into one hundred sub-units with the name 'cent'; whereas the definition of the name 'cent' does not prevent the use of variants of this term in common usage in the Member States; whereas the European Council furthermore considered that the name of the single currency must be the same in all the official languages of the European Union, taking into account the existence of different alphabets;
- (3) Whereas the Council when acting in accordance with the third sentence of Article 109l(4) of the Treaty shall take the measures necessary for the rapid introduction of the euro other than the adoption of the conversion rates;
- (4) Whereas whenever under Article 109k(2) of the Treaty a Member State becomes a participating Member State, the Council shall according to Article 109l(5) of the Treaty take the other measures necessary for the rapid introduction of the euro as the single currency of this Member State;
- (5) Whereas according to the first sentence of Article 109l(4) of the Treaty the Council shall at the starting date of the third stage adopt the conversion rates at which the currencies of the participating Member States shall be irrevocably fixed and at which irrevocably fixed rate the euro shall be substituted for these currencies;
- (6) Whereas given the absence of exchange rate risk either between the euro unit and the national currency units or between these

national currency units, legislative provisions should be interpreted accordingly;

- (7) Whereas the term 'contract' used for the definition of legal instruments is meant to include all types of contracts, irrespective of the way in which they are concluded;
- (8) Whereas in order to prepare a smooth changeover to the euro a transitional period is needed between the substitution of the euro for the currencies of the participating Member States and the introduction of euro banknotes and coins; whereas during this period the national currency units will be defined as subdivisions of the euro; whereas thereby a legal equivalence is established between the euro unit and the national currency units;
- (9) Whereas in accordance with Article 109g of the Treaty and with Regulation (EC) No 1103/97, the euro will replace the ECU as from 1 January 1999 as the unit of account of the institutions of the European Communities; whereas the euro should also be the unit of account of the European Central Bank (ECB) and of the central banks of the participating Member States; whereas, in line with the Madrid conclusions, monetary policy operations will be carried out in the euro unit by the European System of Central Banks (ESCB); whereas this does not prevent national central banks from keeping accounts in their national currency unit during the transitional period, in particular for their staff and for public administrations;
- (10) Whereas each participating Member State may allow the full use of the euro unit in its territory during the transitional period;
- (11) Whereas during the transitional period contracts, national laws and other legal instruments can be drawn up validly in the euro unit or in the national currency unit; whereas during this period, nothing in this Regulation should affect the validity of any reference to a national currency unit in any legal instrument;
- (12) Whereas, unless agreed otherwise, economic agents have to respect the denomination of a legal instrument in the performance of all acts to be carried out under that instrument;
- (13) Whereas the euro unit and the national currency units are units of the same currency; whereas it should be ensured that payments inside a participating Member State by crediting an account can be made either in the euro unit or the respective national currency unit; whereas the provisions on payments by crediting an account should also apply to those cross-border payments, which are denominated in the euro unit or the national currency unit of the account of the creditor; whereas it is necessary to ensure the smooth functioning of payment systems by laying down provisions dealing with the crediting of accounts by payment instruments credited through those systems; whereas the provisions on payments by crediting an account should not imply that financial intermediaries are obliged to make available either other payment facilities or products denominated in any particular unit of the euro; whereas the provisions on payments by crediting an account do not prohibit financial intermediaries from coordinating the introduction of payment facilities denominated in the euro unit which rely on a common technical infrastructure during the transitional period;
- (14) Whereas in accordance with the conclusions reached by the European Council at its meeting held in Madrid, new tradeable public debt will be issued in the euro unit by the participating Member States as from 1 January 1999; whereas it is desirable to allow issuers of debt to redenominate outstanding debt in the euro unit; whereas the provisions on redenomination should be such that they can also be applied in the jurisdictions of third countries; whereas issuers should be enabled to redenominate outstanding debt if the debt is denominated in a national currency unit of a Member State which has redenominated part or all of the outstanding debt of its general government; whereas these provisions do not address the introduction of additional

▼B

- measures to amend the terms of outstanding debt to alter, among other things, the nominal amount of outstanding debt, these being matters subject to relevant national law; whereas it is desirable to allow Member States to take appropriate measures for changing the unit of account of the operating procedures of organised markets;
- (15) Whereas further action at the Community level may also be necessary to clarify the effect of the introduction of the euro on the application of existing provisions of Community law, in particular concerning netting, set-off and techniques of similar effect;
- (16) Whereas any obligation to use the euro unit can only be imposed on the basis of Community legislation; whereas in transactions with the public sector participating Member States may allow the use of the euro unit; whereas in accordance with the reference scenario decided by the European Council at its meeting held in Madrid, the Community legislation laying down the time frame for the generalisation of the use of the euro unit might leave some freedom to individual Member States;
- (17) Whereas in accordance with Article 105a of the Treaty the Council may adopt measures to harmonise the denominations and technical specifications of all coins;
- (18) Whereas banknotes and coins need adequate protection against counterfeiting;
- (19) Whereas banknotes and coins denominated in the national currency units lose their status of legal tender at the latest six months after the end of the transitional period; whereas limitations on payments in notes and coins, established by Member States for public reasons, are not incompatible with the status of legal tender of euro banknotes and coins, provided that other lawful means for the settlement of monetary debts are available;
- (20) Whereas as from the end of the transitional period references in legal instruments existing at the end of the transitional period will have to be read as references to the euro unit according to the respective conversion rates; whereas a physical redenomination of existing legal instruments is therefore not necessary to achieve this result; whereas the rounding rules defined in Regulation (EC) No 1103/97 shall also apply to the conversions to be made at the end of the transitional period or after the transitional period; whereas for reasons of clarity it may be desirable that the physical redenomination will take place as soon as appropriate;
- (21) Whereas paragraph 2 of Protocol 11 on certain provisions relating to the United Kingdom of Great Britain and Northern Ireland stipulates that, *inter alia*, paragraph 5 of that Protocol shall have effect if the United Kingdom notifies the Council that it does not intend to move to the third stage; whereas the United Kingdom gave notice to the Council on 30 October 1997 that it does not intend to move to the third stage; whereas paragraph 5 stipulates that, *inter alia*, Article 109l(4) of the Treaty shall not apply to the United Kingdom;
- (22) Whereas Denmark, referring to paragraph 1 of Protocol 12 on certain provisions relating to Denmark has notified, in the context of the Edinburgh decision of 12 December 1992, that it will not participate in the third stage; whereas, therefore, in accordance with paragraph 2 of the said Protocol, all Articles and provisions of the Treaty and the Statute of the ESCB referring to a derogation shall be applicable to Denmark;
- (23) Whereas, in accordance with Article 109l(4) of the Treaty, the single currency will be introduced only in the Member States without a derogation;

▼B

- (24) Whereas this Regulation, therefore, shall be applicable pursuant to Article 189 of the Treaty, subject to Protocols 11 and 12 and Article 109k(1),
