#### COMMISSION REGULATION (EC) No 794/2004

#### of 21 april 2004

implementing Council Regulation (EC) No 659/1999 laying down detailed rules for the application of Article 93 of the EC Treaty

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 659/1999 of 22 March 1999 laying down detailed rules for the application of Article 93 of the EC Treaty (1), and in particular Article 27 thereof,

After consulting the Advisory Committee on State Aid,

#### Whereas:

- (1) In order to facilitate the preparation of State aid notifications by Member States, and their assessment by the Commission, it is desirable to establish a compulsory notification form. That form should be as comprehensive as possible.
- (2) The standard notification form as well as the summary information sheet and the supplementary information sheets should cover all existing guidelines and frameworks in the state aid field. They should be subject to modification or replacement in accordance with the further development of those texts.
- (3) Provision should be made for a simplified system of notification for certain alterations to existing aid. Such simplified arrangements should only be accepted if the Commission has been regularly informed on the implementation of the existing aid concerned.
- (4) In the interests of legal certainty it is appropriate to make it clear that small increases of up to 20 % of the original budget of an aid scheme, in particular to take account of the effects of inflation, should not need to be notified to the Commission as they are unlikely to affect the Commission's original assessment of the compatibility of the scheme, provided that the other conditions of the aid scheme remain unchanged.
- (5) Article 21 of Regulation (EC) No 659/1999 requires Member States to submit annual reports to the Commission on all existing aid schemes or individual aid granted outside an approved aid scheme in respect of which no specific reporting obligations have been imposed in a conditional decision.
- (6) For the Commission to be able to discharge its responsibilities for the monitoring of aid, it needs to receive accurate information from Member States about the types and amounts of aid being granted by them under existing aid schemes. It is possible to simplify and improve the arrangements for the reporting of State aid to the Commission which are currently described in the joint procedure for reporting and notification under the EC Treaty and under the World Trade Organisation (WTO) Agreement set out in the Commission's letter to Member States of 2 August 1995. The part of that joint procedure relating to Member States reporting obligations for subsidies and Counuder Article 25 of the WTO Agreement on Subsidies and Coun-

OJ L 83, 27.3.1999, p. 1. Regulation as amended by the 2003 Act of Accession.

- tervailing measures and under Article XVI of GATT 1994, adopted on 21 July 1995 is not covered by this Regulation.
- (7) The information required in the annual reports is intended to enable the Commission to monitor overall aid levels and to form a general view of the effects of different types of aid on competition. To this end, the Commission may also request Member States to provide, on an ad hoc basis, additional data for selected topics. The choice of subject matter should be discussed in advance with Member States.
- (8) The annual reporting exercise does not cover the information, which may be necessary in order to verify that particular aid measures respect Community law. The Commission should therefore retain the right to seek undertakings from Member States, or to attach to decisions conditions requiring the provision of additional information.
- (9) It should be specified that time-limits for the purposes of Regulation (EC) No 659/1999 should be calculated in accordance with Regulation (EEC, Euratom) No 1182/71 of the Council of 3 June 1971 determining the rules applicable to periods, dates and time limits (¹), as supplemented by the specific rules set out in this Regulation. In particular, it is necessary to identify the events, which determine the starting point for time-limits applicable in State aid procedures. The rules set out in this Regulation should apply to pre-existing time-limits which will continue to run after the entry into force of this Regulation.
- (10) The purpose of recovery is to re-establish the situation existing before aid was unlawfully granted. To ensure equal treatment, the advantage should be measured objectively from the moment when the aid is available to the beneficiary undertaking, independently of the outcome of any commercial decisions subsequently made by that undertaking.
- (11) In accordance with general financial practice it is appropriate to fix the recovery interest rate as an annual percentage rate.
- (12) The volume and frequency of transactions between banks results in an interest rate that is consistently measurable and statistically significant, and should therefore form the basis of the recovery interest rate. The inter-bank swap rate should, however, be adjusted in order to reflect general levels of increased commercial risk outside the banking sector. On the basis of the information on inter-bank swap rates the Commission should establish a single recovery interest rate for each Member State. In the interest of legal certainty and equal treatment, it is appropriate to fix the precise method by which the interest rate should be calculated, and to provide for the publication of the recovery interest rate applicable at any given moment, as well as relevant previously applicable rates.
- (13) A State aid grant may be deemed to reduce a beneficiary undertaking's medium-term financing requirements. For these purposes, and in line with general financial practice, the medium-term may be defined as five years. The recovery interest rate should therefore correspond to an annual percentage rate fixed for five years.
- (14) Given the objective of restoring the situation existing before the aid was unlawfully granted, and in accordance with general financial practice, the recovery interest rate to be fixed by the Commission should be annually compounded. For the same reasons, the recovery interest rate applicable in the first year of the recovery period should be applied for the first five years of

- the recovery period, and the recovery interest rate applicable in the sixth year of the recovery period for the following five years.
- (15) This Regulation should apply to recovery decisions notified after the date of entry into force of this Regulation,

HAS ADOPTED THIS REGULATION:

# Simplified notification procedure for certain alterations to existing aid

- 1. For the purposes of Article 1(c) of Regulation (EC) No 659/1999, an alteration to existing aid shall mean any change, other than modifications of a purely formal or administrative nature which cannot affect the evaluation of the compatibility of the aid measure with the common market. However an increase in the original budget of an existing aid scheme by up to 20 % shall not be considered an alteration to existing aid.
- 2. The following alterations to existing aid shall be notified on the simplified notification form set out in Annex II:
- (a) increases in the budget of an authorised aid scheme exceeding 20 %;
- (b) prolongation of an existing authorised aid scheme by up to six years, with or without an increase in the budget;

#### CHAPTER III

#### ANNUAL REPORTS

#### Article 5

#### Form and content of annual reports

1. Without prejudice to the second and third subparagraphs of this Article and to any additional specific reporting requirements laid down in a conditional decision adopted pursuant to Article 7(4) of Regulation (EC) No 659/1999, or to the observance of any undertakings provided by the Member State concerned in connection with a decision to approve aid, Member States shall compile the annual reports on existing aid schemes referred to in Article 21(1) of Regulation (EC) No 659/1999 in respect of each whole or part calendar year during which the scheme applies in accordance with the standardised reporting format set out in Annex IIIA.

Annex IIIB sets out the format for annual reports on existing aid schemes relating to the production, processing and marketing of agricultural products listed in Annex I of the Treaty.

Annex IIIC sets out the format for annual reports on existing aid schemes for state aid relating to the production, processing or marketing of fisheries products listed in Annex I of the Treaty.

2. The Commission may ask Member States to provide additional data for selected topics, to be discussed in advance with Member States.

#### Article 6

In justified cases Member States may submit estimates, provided that the actual figures are transmitted at the very latest with the following year's data.

2. Each year the Commission shall publish a State aid synopsis containing a synthesis of the information contained in the annual reports submitted during the previous year.

#### Article 7

#### Status of annual reports

The transmission of annual reports shall not be considered to constitute compliance with the obligation to notify aid measures before they are put into effect pursuant to Article 88(3) of the Treaty, nor shall such transmission in any way prejudice the outcome of an investigation into allegedly unlawful aid in accordance with the procedure laid down in Chapter III of Regulation (EC) No 659/1999.

#### CHAPTER IV

#### TIME-LIMITS

#### Article 8

#### Calculation of time-limits

- 1. In case of conflict, the provisions of this regulation shall prevail.
- 2. Time limits shall be specified in months or in working days.
- 3. With regard to time-limits for action by the Commission, the receipt of the notification or subsequent correspondence in accordance with Article 3(1) and Article 3(2) of this Regulation shall be the relevant event for the purpose of Article 3(1) of Regulation (EEC, Euratom) No 1182/71.

- 6. Any request for the extension of a time-limit shall be duly substantiated, and shall be submitted in writing to the address designated by the party fixing the time-limit at least two working days before expiry.

#### CHAPTER V

#### INTEREST RATE FOR THE RECOVERY OF UNLAWFUL AID

#### Article 9

#### Method for fixing the interest rate

1. Unless otherwise provided for in a specific decision the interest rate to be used for recovering State aid granted in breach of Article 88 (3) of the Treaty shall be an annual percentage rate fixed for each calendar year.

It shall be calculated on the basis of the average of the five-year interbank swap rates for September, October and November of the previous year, plus 75 basis points. In duly justified cases, the Commission may increase the rate by more than 75 basis points in respect of one or more Member States.

2. If the latest three-month average of the five-year inter-bank swap rates available, plus 75 basis points, differs by more than 15 % from the

State aid recovery interest rate in force, the Commission shall recalculate the latter.

The new rate shall apply from the first day of the month following the recalculation by the Commission. The Commission shall inform Member States by letter of the recalculation and the date from which it applies.

- 3. The interest rate shall be fixed for each Member State individually, or for two or more Member States together.
- 4. In the absence of reliable or equivalent data or in exceptional circumstances the Commission may, in close co-operation with the Member State(s) concerned, fix a State aid recovery interest rate, for one or more Member States, on the basis of a different method and on the basis of the information available to it.

#### Article 10

#### **Publication**

The Commission shall publish current and relevant historical State aid recovery interest rates in the *Official Journal of the European Union* and for information on the Internet.

#### Article 11

#### Method for applying interest

- 1. The interest rate to be applied shall be the rate applicable on the date on which unlawful aid was first put at the disposal of the beneficiary.
- 2. The interest rate shall be applied on a compound basis until the date of the recovery of the aid. The interest accruing in the previous year shall be subject to interest in each subsequent year.
- 3. The interest rate referred to in paragraph 1 shall be applied throughout the whole period until the date of recovery. However, if more than five years have elapsed between the date on which the unlawful aid was first put at the disposal of the beneficiary and the date of the recovery of the aid, the interest rate shall be recalculated at five yearly intervals, taking as a basis the rate in force at the time of recalculation.

#### PART III.4

#### SUPPLEMENTARY INFORMATION SHEET ON REGIONAL AID

This supplementary information sheet must be used for the notification of any aid scheme or ad hoc aid covered by the guidelines on national regional aid for 2007-2013 (RAG) ( $^1$ ). The present annex cannot be used for the particular purpose of notification of new regional aid maps for the period 2007-2013. Transparent investment aid schemes falling under the scope of the exemption regulation on regional investment aid are exempted from the notification obligation. Therefore, Member States are invited to clarify the scope of their notification; in the particular case that a scheme covers both transparent and non-transparent forms of investment aid, they are invited to limit the scope of the notification only to the second category.

In the case of <u>ad hoc aid</u> (i.e. aid granted outside existing aid schemes), Member States will have to demonstrate that the project contributes towards a coherent regional development strategy and that, having regard to the nature and size of the project, it will not result in unacceptable distortions of competition. Moreover, Member States will have to demonstrate that the aid will not be unduly concentrated on a particular sector of activity and that it creates no adverse sectoral effects.

Another supplementary information sheet (Part III.5) must be submitted in case of notification of regional investment aid to large investment projects in the accordance with section 4.3 of the RAG.

## SUPPLEMENTARY INFORMATION SHEET ON REGIONAL AID FOR LARGE INVESTMENT PROJECTS

This supplementary information sheet must be used for the notification of any regional investment aid exceeding the threshold for individual notification defined in point 64 of the Guidelines for national regional aid for 2007-2013.

For ad hoc aid (aid granted outside existing schemes) the Member State must also provide the Supplementary Information Sheet on regional aid (Part III.4). In addition, Member States will have to demonstrate that the project contributes towards a coherent regional development strategy and that, having regard to the nature and size of the project, it will not result in unacceptable distortions of competition. Moreover, Member States will have to demonstrate that the aid will not be unduly concentrated on a particular sector of activity and that it creates no adverse sectoral effects.

The Commission reserves the right to ask for further information in order to carry out an in-depth assessment if the thresholds for such an assessment as defined in point 68 of the Regional Aid Guidelines are reached.

Additionally to this supplementary information sheet(s) the Member State must provide:

- Part I. General Information,
- Part II. Summary Information for publication in the Official Journal of the European Union.

The Member State must also provide the relevant investment agreement, the (draft) aid contract and any other relevant document (including, in the case of ad hoc aid, the letter of intent), in order to confirm that the granting of the aid is in conformity with the general rules under the Guidelines for national regional aid for 2007-2013 and with any underlying aid scheme.

3.	Assisted project		
3.1.	Timeline

3.2.	Description of the project		
3.2.1.	Specify the type of the project and whether it is a new establishment; the extension of an existing establishment; diversification of the output of an establishment into new, additional products; a fundamental change in the overall production process of an existing establishment; or the acquisition of capital assets directly linked to an establishment by an independent investor which has closed or which would have closed had it not been purchased:		
3.2.2.	Provide a short description of the project:

<u> </u>	
3.4.	Financing of total project costs
	Please provide a complete description of the financing of the project and how it ensures that at least 25 % of the eligible costs are financed in a way which is free of public support, including <i>de minimis</i> aid.
4.	Product and market characteristics
	In this section, if applicable, please take account of any relevant marketing or similar arrangements with other companies for the calculation of the capacity and the market share (e.g. exclusive licenses for sales).
4.1.	Characterisation of product(s) envisaged by the project
4.1.1.	Specify all the product(s) that will be produced in the aided facility upon the completion of the investment and indicate, where appropriate, the Prodcom code or CPA nomenclature for projects in the service sectors.
4.1.2.	Will the products envisaged by the project replace any other products produced by the beneficiary (at group level)? What product(s) will it replace? If these replaced products are not produced at the location of the project, indicate where they are currently produced. Please provide a description of the link between the replaced production and the current investment and give a time schedule for the replacement.
4.1.3.	What other product(s) can be produced with the same new facilities (through flexibility of the production installations of the beneficiary) at little or no additional cost?
4.2.	Product concerned and relevant product market
4.2.1.	Explain if the project concerns an intermediate product and if a significant part of the output is not sold on the market (under market conditions). Based on the above explanation, for the purpose of calculating the market share and capacity increase in the remainder of this section. Please indicate if the product concerned is the product envisaged by the project or if it is the downstream product.
4.2.2.	Please indicate the demand side substitutes and the supply side substitutes of the product concerned. The relevant product market includes the product concerned and its substitutes considered to be such either by the consumer (by reason of the product's characteristics, prices and intended use) or by the producer (through flexibility of the production installations of the beneficiary and its competitors).
4.3.	Market share data
	Please answer the following questions for all products concerned.
4.3.1.	For the purpose of applying point 68(a) of the RAG, the Commission will normally assume that the relevant geographic market is the European Economic Area (EEA). Please provide arguments if another geographic market for the product(s) is considered relevant.
4.3.2.	Please provide an estimate of all sales of the aid recipient on the relevant market (at group level, in value and volume terms), from the year preceding the start year of the investment to the year following full production of the product envisaged by the project. If applicable, provide a breakdown of these sales into product concerned and other categories of products sold by the aid beneficiary on the relevant market.

4.3.3. Please provide an estimate of the overall sales of all producers on the relevant market (in value and volume terms), from the year preceding the start year of the investment to the year following full production of the product envisaged by the project. If available, include statistics prepared by public and/or independent sources.

4.3.4.	Please explain the methodology underlying the estimates and the implicit price assumptions.		
4.4.	Market evolution		
	Please answer the following questions for all products concerned.		
4.4.1.	Provide for each of the last six years data on apparent consumption (¹) (in value and volume terms) in the relevant product market in the EEA. Please also provide implicit price assumptions. If available, include statistics prepared by the public and/or independent sources.		
4.4.2.	Please calculate from the above figures the Compound Annual Growth Rate (CAGR) (²) of apparent consumption in the relevant product market in the EEA.		
4.4.3.	Please calculate the average annual growth rate of the EEA's GDP over the last five years as a Compound Annual Growth Rate (CAGR) using Eurostat figures (3) (www.eu.int/comm/eurostat/ — currently the figures can be found under "Themes/Economy and finance/National accounts/Annual national accounts/GDP and main aggregates").		
4.4.4.	Is the average annual growth rate of the apparent consumption on the relevant product market in the EEA over the last five years below the average annual growth rate of the EEA GDP over the last five years?		
	□ yes □ no		
4.5.	Capacity considerations		
	Please answer the following questions for all products concerned.		
	If from point 4.4 on market evolution follows that the average annual growth rate of the apparent consumption on the relevant market is below the average annual growth rate of the EEA GDP, provide the following information:		
4.5.1.	Provide an estimate of the production capacity created by the investment (in volume and value terms).		
4.5.2.	Provide an estimate of any changes in the total capacity of the beneficiary (at group level) in the EEA between the year preceding the start year of the project and the year following completion of the project (in volume and in value terms). Please also provide implicit price assumptions. If available, include statistics prepared by public and/or independent sources.		
4.5.3.	Provide an estimate of the total apparent consumption on the relevant product market(s) in the EEA for the year preceding the start year and for the year following the completion of the project (in volume and in value terms). Please also provide implicit price assumptions. If available, include statistics prepared by public and/or independent sources.		
5.	Other information		
	Please indicate here any other information (e.g. environmental impacts or benefits) you consider relevant to the assessment of the measure(s) concerned.		
•••••			

 $<sup>\</sup>overline{(^1)}$  Apparent consumption is production plus imports minus exports. If no apparent consumption data are readily available, other relevant data can be used.

<sup>(2)</sup> The CAGR is calculated as  $[y(t)\ /\ y(t-5)]^{1/5}-1.$ 

<sup>(3)</sup> EU25 can be used as a proxy for the EEA in this context.

(1) That is, farmers to the exclusion of processing and marketing undertakings.

<sup>(2)</sup> Under Article 11(10) of the Exemption Regulation, aid must be disbursed within four years after the expenses or losses have been incurred.

<sup>(3)</sup> The reference to crops does not mean that livestock are excluded from aid. The principles set out in point V.B.3 of the Guidelines will apply mutatis mutandis to aid intended to compensate for losses involving livestock due to adverse weather.

<sup>(4)</sup> Commission Regulation (EC) No 1857/2006 of 15 December 2006 on the application of Articles 87 and 88 of the EC Treaty to State aid to small and medium-sized enterprises active in the production of agricultural products and amending Regulation (EC) No 70/2001. Under point 126 of the guidelines, the Commission will declare aid granted for losses due to adverse weather conditions compatible with Article 87(3)(c) of the Treaty, if all conditions of Article 11 of Regulation (EC) No 1857/2006 are met.

<sup>(5)</sup> Normal gross annual production should be calculated either in proportion to the mean production of a farmer determined over the three preceding years or in proportion to the three-yearly average based on the five preceding years and excluding the top and bottom value. Other methods of calculating normal production (including regional reference figures) may however be accepted, provided that they are representative and not based on abnormally high production figures.

2.9.	Will insurance payments be deducted from the amount eligible for aid?
2.10.	Will the normal costs no longer faced by the farmer (e.g. because there was no actual harvest) be taken into account in calculating the aid?
2.11.	If such normal costs go up because of the weather event, is additional aid envisaged to cover the extra costs? If yes, what percentage of the extra costs will the aid cover?
2.12.	Will aid be paid to compensate for damage caused by the weather event to buildings and equipment? If yes, what percentage of the damage will it cover?
2.13.	Please indicate the maximum rate of public aid as a percentage of eligible damage (1):

	in other zones (max. 80 %).
2.14.	Will aid be paid directly to farmers or in some circumstances to the producer organisations to which those farmers belong? In the latter case, what mechanisms will be used to check that the amount of aid collected by a farmer will not be more than the losses suffered?
2.15.	From 1 January 2010 will the compensation granted be reduced by 50 $\%$ if the farmer concerned has not taken insurance covering at least 50 $\%$ of mean annual production or of income related to production and the statistically most frequent climatic risks in the Member State or region concerned?
	yes no
	If no, please note that under point 126 of the Guidelines the Commission will declare aid granted for losses due to adverse weather conditions compatible with Article 87(3)(c) of the Treaty only if all conditions of Article 11 of Regulation (EC) No 1857/2006 are met and that this condition is explicitly laid down by that Article 11. Please show too that, despite all reasonable efforts, no financially accessible insurance policy covering the statistically most frequent climatic risks in the Member State or region concerned was available at the time the damage was incurred.
2.16.	For aid pertaining to drought-related losses incurred after 1 January 2011, has the Member State fully implemented Article 9 of Directive 2000/60/EC of the European Parliament and of the Council (³) with regard to agriculture:

	and does it guarantee that all costs for water services in the agricultural sector are recovered from the sector (Article 11(9) of Regulation (EC) No 1857/2006)?
	□ yes □ no

<sup>(1)</sup> This rate applies to the amount of aid as calculated according to the method indicated under 2.6 or 2.8, minus any insurance payments and normal costs not faced by the farmer, plus extra costs faced by the farmer as a result of the exceptional event.

<sup>(2)</sup> This rate applies to less-favoured areas or the areas referred to in Article 36(a)(i), (ii) and (iii) of Regulation (EC) No 1698/2005.

<sup>(3)</sup> Directive 2000/60/EC of the European Parliament and of the Council of 23 October 2000 establishing a framework for Community action in the field of water policy (OJ L 327, 22.12.2000, p. 1).

If no, please note that under point 126 of the Guidelines the Commission will declare aid granted for losses due to adverse weather conditions compatible with Article 87(3)(c) of the Treaty only if all conditions of [Article 11 of Regulation (EC) No 1857/2006] are met and that the above two conditions are explicitly laid down by that Article 11.

#### ANNEX III A

#### STANDARDISED REPORTING FORMAT FOR EXISTING STATE AID

#### (This format covers all sectors except agriculture)

With a view to simplifying, streamlining and improving the overall reporting system for State aid, the existing Standardised Reporting Procedure shall be replaced by an annual updating exercise. The Commission shall send a preformatted spreadsheet, containing detailed information on all existing aid schemes and individual aid, to the Member States by 1 March each year. Member States shall return the spreadsheet in an electronic format to the Commission by 30 June of the year in question. This will enable the Commission to publish State aid data in year t for the reporting period t-1 (1).

The bulk of the information in the pre-formatted spreadsheet shall be precompleted by the Commission on the basis of data provided at the time of approval of the aid. Member States shall be required to check and, where necessary, modify the details for each scheme or individual aid, and to add the annual expenditure for the latest year (t-1). In addition, Member States shall indicate which schemes have expired or for which all payments have stopped and whether or not a scheme is co-financed by Community Funds.

Information such as the objective of the aid, the sector to which the aid is directed, etc shall refer to the time at which the aid is approved and not to the final beneficiaries of the aid. For example, the primary objective of a scheme which, at the time the aid is approved, is exclusively earmarked for small and medium-sized enterprises shall be aid for small and medium-sized enterprises. However, another scheme for which all aid is ultimately awarded to small and medium-sized enterprises shall not be regarded as such if, at the time the aid is approved, the scheme is open to all enterprises.

The following parameters shall be included in the spreadsheet. Parameters 1-3 and 6-12 shall be pre-completed by the Commission and checked by the Member States. Parameters 4, 5 and 13 shall be completed by the Member States.

- 1. Title
- 2. Aid number
- 3. All previous aid numbers (e.g., following the renewal of a scheme)
- 4. Expiry

Member States should indicate those schemes which have expired or for which all payments have stopped.

#### Co-financing

Although Community funding itself is excluded, total State aid for each Member State shall include aid measures that are co-financed by Community funding. In order to identify which schemes are co-financed and estimate how much such aid represents in relation to overall State aid, Member States are required to indicate whether or not the scheme is co-financed and if so the percentage of aid that is co-financed. If this is not possible, an estimate of the total amount of aid that is co-financed shall be provided.

#### 6. Sector

The sectoral classification shall be based largely on NACE (2) at the [three-digit level].

- 7. Primary objective
- 8. Secondary objective

A secondary objective is one for which, in addition to the primary objective, the aid (or a distinct part of it) was exclusively earmarked at the time the aid was approved. For example, a scheme for which the primary objective is research and development may have as a secondary objective small and medium-sized enterprises (SMEs) if the aid is earmarked exclusively for SMEs. Another scheme for which the primary objective is SMEs may have as secondary objectives training and employment if, at the time the aid was approved, the aid is earmarked for x% training and y% employment.

<sup>(1)</sup> t is the year in which the data are requested.

<sup>(2)</sup> NACE Rev.1.1 is the Statistical classification of economic activities in the European Community.

#### 9. Region(s)

Aid may, at the time of approval, be exclusively earmarked for a specific region or group of regions. Where appropriate, a distinction should be made between the Article 87(3)a regions and the Article 87(3)c regions. If the aid is earmarked for one particular region, this should be specified at NUTS (1) level II.

#### 10. Category of aid instrument(s)

A distinction shall be made between six categories (Grant, Tax reduction/exemption, Equity participation, Soft loan, Tax deferral, Guarantee).

#### 11. Description of aid instrument in national language

#### 12. Type of aid

A distinction shall be made between three categories: Scheme, Individual application of a scheme, Individual aid awarded outside of a scheme (ad hoc aid).

#### 13. Expenditure

As a general rule, figures should be expressed in terms of actual expenditure (or actual revenue foregone in the case of tax expenditure). Where payments are not available, commitments or budget appropriations shall be provided and flagged accordingly. Separate figures shall be provided for each aid instrument within a scheme or individual aid (e.g. grant, soft loans, etc.) Figures shall be expressed in the national currency in application at the time of the reporting period. Expenditure shall be provided for t-1, t-2, t-3, t-4, t-5.

<sup>(1)</sup> NUTS is the nomenclature of territorial units for statistical purposes in the Community.
