COMMISSION REGULATION (EC) No 794/2004

of 21 april 2004

implementing Council Regulation (EC) No 659/1999 laying down detailed rules for the application of Article 93 of the EC Treaty

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 659/1999 of 22 March 1999 laying down detailed rules for the application of Article 93 of the EC Treaty (1), and in particular Article 27 thereof,

After consulting the Advisory Committee on State Aid,

Whereas:

- (1) In order to facilitate the preparation of State aid notifications by Member States, and their assessment by the Commission, it is desirable to establish a compulsory notification form. That form should be as comprehensive as possible.
- (2) The standard notification form as well as the summary information sheet and the supplementary information sheets should cover all existing guidelines and frameworks in the state aid field. They should be subject to modification or replacement in accordance with the further development of those texts.
- (3) Provision should be made for a simplified system of notification for certain alterations to existing aid. Such simplified arrangements should only be accepted if the Commission has been regularly informed on the implementation of the existing aid concerned.
- (4) In the interests of legal certainty it is appropriate to make it clear that small increases of up to 20 % of the original budget of an aid scheme, in particular to take account of the effects of inflation, should not need to be notified to the Commission as they are unlikely to affect the Commission's original assessment of the compatibility of the scheme, provided that the other conditions of the aid scheme remain unchanged.
- (5) Article 21 of Regulation (EC) No 659/1999 requires Member States to submit annual reports to the Commission on all existing aid schemes or individual aid granted outside an approved aid scheme in respect of which no specific reporting obligations have been imposed in a conditional decision.
- (6) For the Commission to be able to discharge its responsibilities for the monitoring of aid, it needs to receive accurate information from Member States about the types and amounts of aid being granted by them under existing aid schemes. It is possible to simplify and improve the arrangements for the reporting of State aid to the Commission which are currently described in the joint procedure for reporting and notification under the EC Treaty and under the World Trade Organisation (WTO) Agreement set out in the Commission's letter to Member States of 2 August 1995. The part of that joint procedure relating to Member States reporting obligations for subsidy notifications under Article 25 of the WTO Agreement on Subsidies and Countervailing measures and under Article XVI of GATT 1994, adopted on 21 July 1995 is not covered by this Regulation.
- (7) The information required in the annual reports is intended to enable the Commission to monitor overall aid levels and to form a general view of the effects of different types of aid on

⁽¹⁾ OJ L 83, 27.3.1999, p. 1. Regulation as amended by the 2003 Act of Accession.

- competition. To this end, the Commission may also request Member States to provide, on an ad hoc basis, additional data for selected topics. The choice of subject matter should be discussed in advance with Member States.
- (8) The annual reporting exercise does not cover the information, which may be necessary in order to verify that particular aid measures respect Community law. The Commission should therefore retain the right to seek undertakings from Member States, or to attach to decisions conditions requiring the provision of additional information.
- (9) It should be specified that time-limits for the purposes of Regulation (EC) No 659/1999 should be calculated in accordance with Regulation (EEC, Euratom) No 1182/71 of the Council of 3 June 1971 determining the rules applicable to periods, dates and time limits (¹), as supplemented by the specific rules set out in this Regulation. In particular, it is necessary to identify the events, which determine the starting point for time-limits applicable in State aid procedures. The rules set out in this Regulation should apply to pre-existing time-limits which will continue to run after the entry into force of this Regulation.
- (10) The purpose of recovery is to re-establish the situation existing before aid was unlawfully granted. To ensure equal treatment, the advantage should be measured objectively from the moment when the aid is available to the beneficiary undertaking, independently of the outcome of any commercial decisions subsequently made by that undertaking.
- (11) In accordance with general financial practice it is appropriate to fix the recovery interest rate as an annual percentage rate.
- in an interest rate that is consistently measurable and statistically significant, and should therefore form the basis of the recovery interest rate. The inter-bank swap rate should, however, be adjusted in order to reflect general levels of increased commercial risk outside the banking sector. On the basis of the information on inter-bank swap rates the Commission should establish a single recovery interest rate for each Member State. In the interest of legal certainty and equal treatment, it is appropriate to fix the precise method by which the interest rate should be calculated, and to provide for the publication of the recovery interest rate applicable at any given moment, as well as relevant previously applicable rates.
- (13) A State aid grant may be deemed to reduce a beneficiary undertaking's medium-term financing requirements. For these purposes, and in line with general financial practice, the medium-term may be defined as five years. The recovery interest rate should therefore correspond to an annual percentage rate fixed for five years.
- (14) Given the objective of restoring the situation existing before the aid was unlawfully granted, and in accordance with general financial practice, the recovery interest rate to be fixed by the Commission should be annually compounded. For the same reasons, the recovery interest rate applicable in the first year of the recovery period should be applied for the first five years of the recovery period, and the recovery interest rate applicable in the sixth year of the recovery period for the following five years.
- (15) This Regulation should apply to recovery decisions notified after the date of entry into force of this Regulation,

HAS ADOPTED THIS REGULATION:

Article 4

Simplified notification procedure for certain alterations to existing aid

- 1. For the purposes of Article 1(c) of Regulation (EC) No 659/1999, an alteration to existing aid shall mean any change, other than modifications of a purely formal or administrative nature which cannot affect the evaluation of the compatibility of the aid measure with the common market. However an increase in the original budget of an existing aid scheme by up to 20 % shall not be considered an alteration to existing aid.
- 2. The following alterations to existing aid shall be notified on the simplified notification form set out in Annex II:
- (a) increases in the budget of an authorised aid scheme exceeding 20 %;
- (b) prolongation of an existing authorised aid scheme by up to six years, with or without an increase in the budget;
- (c) tightening of the criteria for the application of an authorised aid scheme, a reduction of aid intensity or a reduction of eligible expenses;

The Commission shall use its best endeavours to take a decision on any aid notified on the simplified notification form within a period of one month.

3. The simplified notification procedure shall not be used to notify alterations to aid schemes in respect of which Member States have not submitted annual reports in accordance with Article 5, 6, and 7, unless the annual reports for the years in which the aid has been granted are submitted at the same time as the notification.

CHAPTER III

ANNUAL REPORTS

Article 5

Form and content of annual reports

1. Without prejudice to the second and third subparagraphs of this Article and to any additional specific reporting requirements laid down in a conditional decision adopted pursuant to Article 7(4) of Regulation (EC) No 659/1999, or to the observance of any undertakings provided by the Member State concerned in connection with a decision to

approve aid, Member States shall compile the annual reports on existing aid schemes referred to in Article 21(1) of Regulation (EC) No 659/1999 in respect of each whole or part calendar year during which the scheme applies in accordance with the standardised reporting format set out in Annex IIIA.

Annex IIIB sets out the format for annual reports on existing aid schemes relating to the production, processing and marketing of agricultural products listed in Annex I of the Treaty.

Annex IIIC sets out the format for annual reports on existing aid schemes for state aid relating to the production, processing or marketing of fisheries products listed in Annex I of the Treaty.

2. The Commission may ask Member States to provide additional data for selected topics, to be discussed in advance with Member States.

Article 6

Transmission and publication of annual reports

1. Each Member State shall transmit its annual reports to the Commission in electronic form no later than 30 June of the year following the year to which the report relates.

In justified cases Member States may submit estimates, provided that the actual figures are transmitted at the very latest with the following year's data.

2. Each year the Commission shall publish a State aid synopsis containing a synthesis of the information contained in the annual reports submitted during the previous year.

Article 7

Status of annual reports

The transmission of annual reports shall not be considered to constitute compliance with the obligation to notify aid measures before they are put into effect pursuant to Article 88(3) of the Treaty, nor shall such transmission in any way prejudice the outcome of an investigation into allegedly unlawful aid in accordance with the procedure laid down in Chapter III of Regulation (EC) No 659/1999.

CHAPTER IV

Article 8

Calculation of time-limits

- 1. In case of conflict, the provisions of this regulation shall prevail.
- 2. Time limits shall be specified in months or in working days.

▼M3

3. With regard to timelimits for action by the Commission, the receipt of the notification or subsequent correspondence in accordance with Article 3(1) and Article 3(3) of this Regulation shall be the relevant event for the purpose of Article 3(1) of Regulation (EEC, Euratom) No 1182/71.

▼ M3

▼B

- 5. With regard to the time-limit for the submission of comments following initiation of the formal investigation procedure referred to in Art. 6(1) of Regulation (EC) No 659/1999 by third parties and those Member States which are not directly concerned by the procedure, the publication of the notice of initiation in the *Official Journal of the European Union* shall be the relevant event for the purposes of Article 3(1) of Regulation (EEC, Euratom) No 1182/71.
- 6. Any request for the extension of a time-limit shall be duly substantiated, and shall be submitted in writing to the address designated by the party fixing the time-limit at least two working days before expiry.

CHAPTER V

INTEREST RATE FOR THE RECOVERY OF UNLAWFUL AID

▼<u>M3</u>

Article 9

Method for fixing the interest rate

- 1. Unless otherwise provided for in a specific decision, the interest rate to be used for recovering State aid granted in breach of Article 88 (3) of the Treaty shall be an annual percentage rate which is fixed by the Commission in advance of each calendar year.
- 2. The interest rate shall be calculated by adding 100 basis points to the one-year money market rate. Where those rates are not available, the three-month money market rate will be used, or in the absence thereof, the yield on State bonds will be used.
- 3. In the absence of reliable money market or yield on stock bonds or equivalent data or in exceptional circumstances the Commission may, in close co-operation with the Member State(s) concerned, fix a recovery rate on the basis of a different method and on the basis of the information available to it.
- 4. The recovery rate will be revised once a year. The base rate will be calculated on the basis of the one-year money market recorded in September, October and November of the year in question. The rate thus calculated will apply throughout the following year.
- 5. In addition, to take account of significant and sudden variations, an update will be made each time the average rate, calculated over the three previous months, deviates more than 15 % from the rate in force. This new rate will enter into force on the first day of the second month following the months used for the calculation.

▼B

Article 10

Publication

The Commission shall publish current and relevant historical State aid recovery interest rates in the *Official Journal of the European Union* and for information on the Internet.

Article 11

Method for applying interest

- 1. The interest rate to be applied shall be the rate applicable on the date on which unlawful aid was first put at the disposal of the beneficiary.
- 2. The interest rate shall be applied on a compound basis until the date of the recovery of the aid. The interest accruing in the previous year shall be subject to interest in each subsequent year.

▼ M3

3. The interest rate referred to in paragraph 1 shall be applied throughout the whole period until the date of recovery. However, if more than one year has elapsed between the date on which the unlawful aid was first put at the disposal of the beneficiary and the date of the recovery of the aid, the interest rate shall be recalculated at yearly intervals, taking as a basis the rate in force at the time of recalculation.

PART III.3

SUPPLEMENTARY INFORMATION SHEET ON STATE AID TO DISAD-VANTAGED AND DISABLED WORKERS

This supplementary information sheet must be used for the notification of individual aid pursuant to Article 6(1)(h) to (i) of Regulation (EC) No 800/2008 and covered by the Criteria for the compatibility analysis of State aid to disadvantaged and disabled workers subject to individual notification (thereinafter 'Criteria for the compatibility analysis') (1). It must also be used in the case of any individual aid or scheme, which is notified to the Commission for reasons of legal certainty.

If there are several beneficiaries participating in the notified project, please provide the information below for each of them.

COMPATIBILITY OF AID UNDER ARTICLE 87(3)(c) OF THE EC TREATY — DETAILED ASSESSMENT

Aid to disadvantaged and disabled workers may be considered to be compatible with the common market pursuant to Article 87(3)(c) of the EC Treaty.

The purpose of this detailed assessment is to ensure that high amounts of aid to disadvantaged and disabled workers do not distort competition to an extent contrary to the common interest, but actually contribute to the common interest. This happens when the benefits of State aid in terms of the increased net employment of targeted disabled and disadvantaged workers outweigh the harm for competition and trade.

The provisions below provide guidance as to the type of information the Commission may require in order to carry out a detailed assessment. The guidance is intended to make the Commission's decisions and their reasoning transparent and foreseeable in order to create predictability and legal certainty. Member States are invited to provide all the elements that they consider useful for the assessment of the case.

If there are several beneficiaries involved in the project notified as individual aid, please provide the information below for each of them.

Characteristics of the notified measure

 Please provide a brief description of the notified measure specifying objective of the aid, aid instrument, beneficiaries, categories of workers concerned, aid amount, payment schedule, duration, aid intensity, and eligible costs.

Incentive effect and necessity of the aid (1)

In order to demonstrate the incentive effect, the Commission requires an evaluation by the Member State proving that the wage subsidy is only paid for a disadvantaged or disabled worker in a firm, where the recruitment would have not occurred without the aid.

12.	Has/have the supported project(s) started prior to the submission of the application for the aid by the beneficiary/beneficiaries to the national authorities?
	yes no
	If yes, the Commission considers that the aid does not present an incentive for the beneficiary to increase a net employment of disabled or disadvantaged workers.
13.	If no, specify the relevant dates:
	The employment commenced on:
	The aid application by the beneficiary was submitted to the national authorities on:
	Please provide the relevant supporting documents.
14.	Does the recruitment lead to an increase, by comparison to a situation without aid, of number of disadvantaged or disabled workers in the undertaking(s) concerned?
	yes no
15.	If not, have the post or posts fallen vacant following voluntary departure, disability, retirement on grounds of age, voluntary reduction of working time or lawful dismissal for misconduct and not as a result of redundancy?
	yes no
16.	Please describe any existing or past wage subsidies in the undertaking concerned: categories and number of workers subject to subsidies.
Pro	portionality of the aid (2)
Elig	rible costs
(EC	tible costs must be calculated following Articles 40 and 41 of Regulation (2) No 800/2008 and limited to the extra costs necessary to achieve a net rease of disadvantaged or disabled workers employed.
17.	Which are the eligible costs foreseen under the notified measure?
	gross wage, before tax
	compulsory contributions, such as social security charges
	child care and parent care costs.
18.	Please provide a detailed calculation of the eligible costs and the period covered (3) by the notified measure ensuring that the eligible costs are limited to the costs necessary to achieve a net increase of employment of the targeted categories of disadvantaged or disabled workers

employing workers who are not disadvantaged/disabled.

19. Please provide evidence that the aid is limited to the minimum, i.e. the aid amount does not exceed the net additional costs of employing the targeted categories of disadvantaged or disabled workers compared to the costs of

PART III.4

SUPPLEMENTARY INFORMATION SHEET ON REGIONAL AID

This supplementary information sheet must be used for the notification of any aid scheme or ad hoc aid covered by the guidelines on national regional aid for 2007-2013 (RAG) (1). The present annex cannot be used for the particular purpose of notification of new regional aid maps for the period 2007-2013. Transparent investment aid schemes falling under the scope of the exemption regulation on regional investment aid are exempted from the notification obligation. Therefore, Member States are invited to clarify the scope of their notification; in the particular case that a scheme covers both transparent and non-transparent forms of investment aid, they are invited to limit the scope of the notification only to the second category.

In the case of <u>ad hoc aid</u> (i.e. aid granted outside existing aid schemes), Member States will have to demonstrate that the project contributes towards a coherent regional development strategy and that, having regard to the nature and size of the project, it will not result in unacceptable distortions of competition. Moreover, Member States will have to demonstrate that the aid will not be unduly concentrated on a particular sector of activity and that it creates no adverse sectoral effects.

Another supplementary information sheet (Part III.5) must be submitted in case of notification of regional investment aid to large investment projects in the accordance with section 4.3 of the RAG.

PART III.5

SUPPLEMENTARY INFORMATION SHEET ON REGIONAL AID FOR LARGE INVESTMENT PROJECTS

This supplementary information sheet must be used for the notification of any regional investment aid exceeding the threshold for individual notification defined in point 64 of the Guidelines for national regional aid for 2007-2013.

For ad hoc aid (aid granted outside existing schemes) the Member State must also provide the Supplementary Information Sheet on regional aid (Part III.4). In addition, Member States will have to demonstrate that the project contributes towards a coherent regional development strategy and that, having regard to the nature and size of the project, it will not result in unacceptable distortions of competition. Moreover, Member States will have to demonstrate that the aid will not be unduly concentrated on a particular sector of activity and that it creates no adverse sectoral effects.

The Commission reserves the right to ask for further information in order to carry out an in-depth assessment if the thresholds for such an assessment as defined in point 68 of the Regional Aid Guidelines are reached.

Additionally to this supplementary information sheet(s) the Member State must provide:

Additional information on beneficiaries

		and
		the eligible costs are calculated <u>net of any operating benefits</u> and operating costs related to the extra investment for environmental protection and arising during the first five years of the life of the investment concerned.
	(C)	What form do the eligible costs take?
		investments in tangible assets;
		investments in intangible assets.

See point 81(b) of the Environmental aid guidelines.

(D)	In case of investments in tangible assets please indicate the form (s) of investments concerned:
	investments in land which are strictly necessary in order to meet environmental objectives;
	investments in buildings intended to reduce or eliminate pollution and nuisances;

	Furthermore, please confirm that if the intangible asset is sold during those five years:
	the yield from the sale will be deducted from the eligible costs;
	and
	all or part of the amount of aid will, where appropriate, be reimbursed.
(F)	In case of investments aiming at obtaining a level of environmental protection higher than Community standards, please confirm the relevant statements:
	if the undertaking is adapting to national standards adopted in the absence of Community standards, the eligible costs consist of the additional investment costs necessary to achieve the level of environmental protection required by the national standards;
	if the undertaking is adapting to or goes beyond national standards which are more stringent than the relevant Community standards or goes beyond Community standards, the eligible costs consist of the additional investment costs necessary to achieve a level of environmental protection higher than the level required by the Community standards (2);
	if no standards exist, the eligible costs consist of the investment costs necessary to achieve a higher level of environmental protection than that which the undertaking or undertakings in question would achieve in the absence of any environmental aid;
(G)	For aid schemes, please provide a detailed calculation methodology, by reference to the counterfactual situation, which will be applied to all individual aid grants based on the notified scheme, and provide the relevant evidence:

⁽¹⁾ Please note that this condition does not apply if the intangible asset is technically out of

operating aid granted to new plants producing renewable energy on the basis of a calculation of the external costs avoided (2).

In this case please provide a reasoned and quantified comparative cost analysis, together with an assessment of competing energy producers' external costs, so as to demonstrate that the aid does genuinely compensate for external costs avoided (3).

If the notified measure falls within at least one of these aid categories, it is subject to a detailed assessment and additional information should be provided in order to enable the Commission to carry out a detailed assessment (Section 8 of this supplementary information sheet).

8. Additional information for detailed assessment (4)

If there are several beneficiaries participating in the notified project subject to a detailed assessment, please provide the information below for each of them. This is without prejudice to the full description of the notified project, including participants, in the previous sections of this supplementary sheet.

8.1. General observations

8.2.

The purpose of this detailed assessment is to ensure that high amounts of aid for environmental protection do not distort competition to an extent contrary to the common interest, but actually contribute to the common interest. This happens when the benefits of State aid in terms of additional environmental benefits outweigh the harm for competition and trade (⁵).

The detailed assessment is conducted on the basis of the <u>positive and</u> negative elements which are specified in Sections 5.2.1 and 5.2.2 of the Environmental aid guidelines and they apply in addition to the criteria set out in Chapter 3 of the Environmental aid guidelines.

Provisions below represent a guidance as to the type of information the Commission may require in order to carry out a detailed assessment. The guidance is intended to make the Commission's decisions and their reasoning transparent and foreseeable in order to create predictability and legal certainty. Member States should provide all the elements that they consider useful for the assessment of the case.

The Member States are in particular invited to rely on the information sources listed below. Please indicate if these supporting documents are attached to the notification:

4.	Is it within human control to reverse the economic impact of the permanent handicap?

	Could you specify the size of the farms that will benefit from these payments?

Two block exemption regulations are in force: Commission Regulation (EC) No 736/2008 (¹) which applies to the fisheries and aquaculture sector and Commission Regulation (EC) No 800/2008 (²) which is the general exemption regulation applying to all sectors.

Therefore, such aid should not in principle be notified.

However, according to recital 6 of Regulation No 736/2008 and recital 7 of Regulation No 800/2008, these regulations should be without prejudice to the possibility for Member States of notifying State aid, the objectives of which correspond to objectives covered by these Regulations.

In addition, the following kinds of aid cannot benefit from the exemption provided by Regulations (EC) No 736/2008 and (EC) No 800/2008: aid exceeding specified ceilings, as referred to in Article 1(3) of Regulation (EC) No 736/2008 or in Article 6 of Regulation (EC) No 800/2008, or having specific characteristics, in particular aid granted to undertakings other than SMEs, aid to undertakings in difficulty, non-transparent aid, aid for an undertaking which is subject to an outstanding recovery order following a Commission decision declaring an aid incompatible with the common market.

Characteristics of the aid notified

Aid of the same kind as aid covered by Regulation (EC) No 800/2008
Aid exceeding the ceiling specified

zontal Guidelines					

The Member State is requested to provide the reference to the relevant Guidelines which are considered to be applicable to the aid measure concerned as well as a detailed and reasoned justification as to why the aid is considered compatible with those Guidelines.

In addition, it is requested to provide a detailed and reasoned justification on the compatibility of the aid with the conditions of point 3 of the Guidelines and to demonstrate how this aid serves the objectives of the common fisheries policy.

GENERAL PRINCIPLES

The Member State is requested to declare that no aid will be granted in respect of operations that the beneficiary has already begun to implement and for aid for activities in which the beneficiary would already engage under market conditions alone.

The Member State is requested to declare that no aid will be granted in circumstances where Community law, and in particular the rules of the Common Fisheries Policy, are not complied with.

In that sense, the Member State is requested to declare that the aid measure explicitly provides that, during the grant period, the beneficiaries of the aid shall comply with the rules of the Common Fisheries Policy and that, if during this period it is found that the beneficiary does not comply with rules of the Common Fisheries Policy, the grant must be reimbursed in proportion to the gravity of the infringement.

The Member State is requested to declare that the aid is limited to a maximum of 10 years, or, if this is not the case, undertakes to re-notify the aid at least two months before the tenth anniversary of its entry into force.

OTHER REQUIREMENTS

The Member State is requested to provide a list of all supporting documents submitted with the notification as well as a summary of those documents (e.g. socioeconomic data on the recipient regions, scientific and economic justification).

The Member State is requested to indicate that this aid is not cumulated with another aid for the same eligible expenses or for the same compensation.

If such accumulation exists, the Member State is requested to indicate the references of the aid (aid scheme or individual aid) with which there is accumulation and to demonstrate that the whole aid granted remains compatible with the relevant rules. For that purpose, the Member State shall take into account every kind of State aid, including *de minimis* aid.

ANNEX III A

STANDARDISED REPORTING FORMAT FOR EXISTING STATE AID

(This format covers all sectors except agriculture)

With a view to simplifying, streamlining and improving the overall reporting system for State aid, the existing Standardised Reporting Procedure shall be replaced by an annual updating exercise. The Commission shall send a preformatted spreadsheet, containing detailed information on all existing aid schemes and individual aid, to the Member States by 1 March each year. Member States shall return the spreadsheet in an electronic format to the Commission by 30 June of the year in question. This will enable the Commission to publish State aid data in year t for the reporting period t-1 (1).

The bulk of the information in the pre-formatted spreadsheet shall be precompleted by the Commission on the basis of data provided at the time of approval of the aid. Member States shall be required to check and, where necessary, modify the details for each scheme or individual aid, and to add the annual expenditure for the latest year (t-1). In addition, Member States shall indicate which schemes have expired or for which all payments have stopped and whether or not a scheme is co-financed by Community Funds.

Information such as the objective of the aid, the sector to which the aid is directed, etc shall refer to the time at which the aid is approved and not to the final beneficiaries of the aid. For example, the primary objective of a scheme which, at the time the aid is approved, is exclusively earmarked for small and medium-sized enterprises shall be aid for small and medium-sized enterprises. However, another scheme for which all aid is ultimately awarded to small and medium-sized enterprises shall not be regarded as such if, at the time the aid is approved, the scheme is open to all enterprises.

The following parameters shall be included in the spreadsheet. Parameters 1-3 and 6-12 shall be pre-completed by the Commission and checked by the Member States. Parameters 4, 5 and 13 shall be completed by the Member States.

- 1. Title
- 2. Aid number
- 3. All previous aid numbers (e.g., following the renewal of a scheme)
- 4. Expiry

Member States should indicate those schemes which have expired or for which all payments have stopped.

5. Co-financing

Although Community funding itself is excluded, total State aid for each Member State shall include aid measures that are co-financed by Community funding. In order to identify which schemes are co-financed and estimate how much such aid represents in relation to overall State aid, Member States are required to indicate whether or not the scheme is co-financed and if so the percentage of aid that is co-financed. If this is not possible, an estimate of the total amount of aid that is co-financed shall be provided.

6. Sector

The sectoral classification shall be based largely on NACE (2) at the [three-digit level].

- 7. Primary objective
- 8. Secondary objective

A secondary objective is one for which, in addition to the primary objective, the aid (or a distinct part of it) was exclusively earmarked at the time the aid was approved. For example, a scheme for which the primary objective is research and development may have as a secondary objective small and medium-sized enterprises (SMEs) if the aid is earmarked exclusively for SMEs. Another scheme for which the primary objective is SMEs may

⁽²⁾ NACE Rev.1.1 is the Statistical classification of economic activities in the European Community.

have as secondary objectives training and employment if, at the time the aid was approved, the aid is earmarked for x% training and y% employment.

Region(s)

Aid may, at the time of approval, be exclusively earmarked for a specific region or group of regions. Where appropriate, a distinction should be made between the Article 87(3)a regions and the Article 87(3)c regions. If the aid is earmarked for one particular region, this should be specified at NUTS (1) level II.

10. Category of aid instrument(s)

A distinction shall be made between six categories (Grant, Tax reduction/exemption, Equity participation, Soft loan, Tax deferral, Guarantee).

11. Description of aid instrument in national language

12. Type of aid

A distinction shall be made between three categories: Scheme, Individual application of a scheme, Individual aid awarded outside of a scheme (ad hoc aid).

13. Expenditure

As a general rule, figures should be expressed in terms of actual expenditure (or actual revenue foregone in the case of tax expenditure). Where payments are not available, commitments or budget appropriations shall be provided and flagged accordingly. Separate figures shall be provided for each aid instrument within a scheme or individual aid (e.g. grant, soft loans, etc.) Figures shall be expressed in the national currency in application at the time of the reporting period. Expenditure shall be provided for t-1, t-2, t-3, t-4, t-5.
