b The analytical method to be used for the determination of the fatty matter content is that printed in Annex I (method A) to Commission Directive 84/4/EEC (OJ L 15, 18.1.1984, p. 28).

c The procedure to be followed for the determination of the fatty matter content is as follows:
— the sample has to be crushed so that 90 % or more can pass through a sieve with an aperture of 500 micrometres and 100 % can pass through a sieve with an aperture of 1 000 micrometres,
— the analytical method to be used afterwards is that which is printed in Annex I (method A) to Directive 84/4/EEC.

d The dry matter content of starch is determined by the method laid down in Annex II to Commission Regulation (EEC) No 1908/84 (OJ L 178, 5.7.1984, p. 22). The purity of starch is determined using the Ewers modified polarimetric method, as published in Annex I to the third Commission Directive 72/199/EEC (OJ L 123, 29.5.1972, p. 6).

e The export refund payable for starch shall be adjusted by using the following formula:
1. Potato starch: ((actual % dry matter)/80) × export refund.
2. All other types of starch: ((actual % dry matter)/87) × export refund.
When completing customs formalities, the applicant shall state on the declaration provided for this purpose the dry matter content of the product.

f **[**[X1]The export refund is payable for products having a dry matter content of at least 78 %.**]** The export refund provided for products having a dry matter content of less than 78 % shall be adjusted by using the following formula:
((actual dry matter content)/78) × export refund
The dry matter content is determined by method 2 laid down in Annex II to Commission Directive 79/796/EEC (OJ L 239, 22.9.1979, p. 24), or by any other suitable analysis method offering at least the same guarantees.

a Where the product falling within this subheading contains added whey and/or products derived from whey and/or lactose and/or casein and/or caseinates and/or permeate and/or products covered by CN code 3504, the added whey and/or products derived from whey and/or lactose and/or casein and/or caseinates and/or permeate and/or products covered by CN code 3504 must not be taken into account in the calculation of the refund.
The products referred to may contain small quantities of added non-lactic matter required for their manufacture or preservation. Where these additives do not exceed 0,5 % by weight of the whole product, they are to be taken into account for the purposes of calculating the refund. However, where these additives exceed in total 0,5 % by weight of the whole product, they are not to be taken into account for the purposes of calculating the refund.
If the product falling within this subheading consists of permeate, no export refund is payable.
When completing customs formalities, the applicant must state on the declaration provided for that purpose whether the product consists of permeate or whether or not non-lactic matter and/or whey and/or products derived from whey and/or lactose and/or casein and/or caseinates and/or permeate and/or products covered by CN code 3504 have been added and, where this is the case:
— the maximum content by weight of non-lactic matter and/or whey and/or products derived from whey and/or lactose and/or casein and/or caseinates and/or permeate and/or products covered by CN code 3504 added per 100 kilograms of finished product,
and in particular,
— the lactose content of the added whey.

c	Where the product contains casein and/or caseinates added before or at the time of processing, no refund is payable. When completing customs formalities, the applicant must state on the declaration provided for that purpose whether or not casein and/or caseinates have been added.
d	The refund per 100 kilograms of product falling within this subheading is equal to the sum of the following components: (a) the amount per kilogram shown, multiplied by the weight of the lactic matter contained in 100 kilograms of product. The products referred to may contain small quantities of added non-lactic matter required for their manufacture or preservation. Where these additives do not exceed 0,5 % by weight of the whole product, they are to be taken into account for the purposes of calculating the refund. However, where these additives exceed in total 0,5 % by weight of the whole product, they are not to be taken into account for the purposes of calculating the refund. Where whey and/or products derived from whey and/or lactose and/or casein and/or caseinates and/or permeate and/or products covered by CN code 3504 have been added to the product, the amount per kilogram shown is to be multiplied by the weight of the lactic matter other than whey and/or products derived from whey and/or lactose and/or casein and/or caseinates and/or permeate and/or products covered by CN code 3504 added per 100 kilograms of product; (b) a component calculated in accordance with Article 16(3) of Commission Regulation (EC) No 174/1999 (OJ L 20, 27.1.1999, p. 8). When completing customs formalities, the applicant must state on the declaration provided for that purpose whether the product consists of permeate or whether or not non-lactic matter and/or whey and/or products derived from whey and/or lactose and/or casein and/or caseinates and/or permeate and/or products covered by CN code 3504 have been added and, where this is the case: — the maximum content by weight of sucrose and/or other non-lactic matter and/or whey and/or products derived from whey and/or lactose and/or casein and/or caseinates and/or permeate and/or products covered by CN code 3504 added per 100 kilograms of finished product, and in particular, — the lactose content of the added whey. g	a) In the case of cheeses presented in immediate packing which also contain preserving liquid, in particular brine, the refund is granted on the net weight, less the weight of the liquid. b) The film of plastic, the paraffin, the ash and the wax used as a packing are not considered as a part of the net weight of the product for the purpose of the refund. c) Where the cheese is presented in a film of plastic, and where the net weight declared includes the weight of the film in plastic, the refund amount shall be reduced by 0.5 %. When completing customs formalities, the applicant shall state that the cheese is packed in a film of plastic and whether the declared net weight includes the weight of the film in plastic. d) Where the cheese is presented in paraffin or ash, and where the net weight declared includes the weight of the paraffin or the ash, the refund amount shall be reduced by 2 %. When completing customs formalities, the applicant shall state that the cheese is packed in paraffin or in ash, and whether the declared net weight includes the weight of the ash or the paraffin. e) Where the cheese is presented in wax, when completing customs formalities, the applicant must state on the declaration the net weight of the cheese not incorporating the weight of the wax.
