

Regulation (EC) No 1107/2006 of the European Parliament and of the Council of 5 July 2006 concerning the rights of disabled persons and persons with reduced mobility when travelling by air (Text with EEA relevance)

Article 9

Quality standards for assistance

1 With the exception of airports whose annual traffic is less than 150 000 commercial passenger movements, the managing body shall set quality standards for the assistance specified in Annex I and determine resource requirements for meeting them, in cooperation with airport users, through the Airport Users Committee where one exists, and organisations representing disabled passengers and passengers with reduced mobility.

2 In the setting of such standards, full account shall be taken of internationally recognised policies and codes of conduct concerning facilitation of the transport of disabled persons or persons with reduced mobility, notably the ECAC Code of Good Conduct in Ground Handling for Persons with Reduced Mobility.

3 The managing body of an airport shall publish its quality standards.

4 An air carrier and the managing body of an airport may agree that, for the passengers whom that air carrier transports to and from the airport, the managing body shall provide assistance of a higher standard than the standards referred to in paragraph 1 or provide services additional to those specified in Annex I.

5 For the purpose of funding either of these, the managing body may levy a charge on the air carrier additional to that referred to in Article 8(3), which shall be transparent, cost-related and established after consultation of the air carrier concerned.
